WHY PUT IT OFF ANY LONGER?

COME IN TODAY!

We're proud our seeds have earned the trust of farmers like these...

pounds with Pioneer 848 nd 4100 pounds with Pioneer 8417. With yields like these, Pioneer brand hybrids have proven themselves for Monroe Graham, Route

Dennis. L. Pae planted Pioneer 846 for his sixth season last year and recorded a rield of 4480 pounds. He reports, "I have been planting 846 since 1966. I haven't seen any maize that will beat it. It can withstand drouth." This year will make seven seasons of Pioneer 846 for Dennis C. Poe, Route 3, Winters, Texas.

Because we were the first company to commercially produce hybrid corn and with 17 years of work on sorghum, we know a lot more about hybrids and how to make crosses that really yield. We've had longer to test and re-test our varieties. We've stuck with some of our early crosses, and we keep developing new ones to fit every growing condition imaginable.

For Central Texas we recommend these sorghum and forage varieties ... Pioneer Brand 846 -

excellent drouth resistance - MDM resistant - a full season hybrid - our most popular sorghum variety

ioneer Brand 848 excellent grain quality - short, strong stalks - good roots - excellent

thresher - full season hybrid - good resistance to smut and MDM sorghum sudangrass hybrid for pasture, greenchop, hay or haylage - ready to cut or graze in a little more than a month - regrows again and again all

summer with adequate moisture and fertilizer

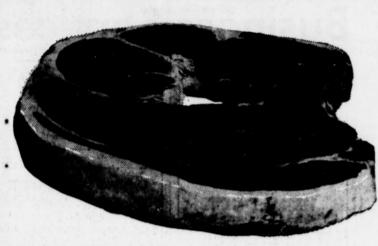

Pioneer is a brand name; numbers identify varieties. @ Registered trademark of Pioneer Hi-Bred International, Inc., Des Moines, Iowa, U.S.A.

lion in 1971 due to faulty admin- peals said. istration of the levy. Committee members offered

-Employment of more audi tors to monitor payments by

business firms to the state. -Authority for cities to pursue in the courts collections of sale taxes once they are declared delinguent by the comptroller.

-Requirement that business ment of their sales taxes.

Sens. O. H. (Ike) Harris and 51-2tp served on the committee and will co-sponsor legislation to carry out the report's recommendations in the Senate.

The report charged Comptroller Robert S. Calvert has "pur sued a policy which encourage sales tax delinquency" and has refused to demand adequate as surance of payment from new and consistently-delinquent taxpavers.

The proposed bonding requirement passed the House last week but failed to clear the Sen-

### AG OPINIONS

Atty. Gen. John Hill held two bills to reinstate the death pen alty for murder would be unconstitutional if enacted. In other recent opinions, Hil concluded:

-Financial requirements of proposed state officials' code of ethics are constitutional, although there are some "problem areas" with the bill.

-The Legislature's extending the Governor's Committee on Human Relations beyond February 1 is valid, even though a bill to bring about the extension was not passed until after that

-Amendments to the budgets of counties under 225,000 population can be made any time prior to and during the affected tax

### A NEW HYBRID SORGHUM **INTRODUCED FOR 1973 SEASON!**

Announcement was made today by Milton Gerhart of Milton's Auto Supply concerning a new dual purpose type sorghum available for 1973.

This new variety of sorghum is 2-WAY. 2-WAY has the potential to produce grain, but also produces an abundance of high quality, palatable forage. Grain yield varies with the thickness of the stand and available moisture and fertility. Because of its hybrid vigor and abundance of quality forage, 2-WAY is an excellent replacement for Hegari, and may be managed in much the same manner. 2-WAY may be row planted the conventional way and bundled or combined and then the forage harvested as hay or graze out. 2-WAY may also be thick drilled for green chop,

haylage, or hay 2-WAY is classified and will count as feed grain in re-

lation to the feed grain program. 2-WAY is a product development of George Warner
