## Watches Will Be Given As Awards In 4-H Contests

State winners in any of the four national 4-H programs recently accepted by the State Extension Service for 1954 will be awarded a 19-jewel wrist watch.

The programs and the donors are: Leadership, Edward Foss Wilson; Dairy Foods Demonstrations, Carnation Co.; Beautification of Home Grounds, Mrs. Chas. R. Walgreen, and Entomology, Hercules Powder Co. In each of the last two programs there is one state winner. In Leadership there are two — the outstanding boy and girl, and in Dairy Foods three — the highest ranking individual and team demonstrators.

County awards are gold-filled medals of honor, the same number in each program as last year, excepting Beautification of Home Grounds and Entomology, in which they have been increased from one to four.

Eight state winners each in 4-H Leadership and Dairy Foods Demonstrations, and 12 in Entomology will be selected for a sectional award of an all-expense trip to the National 4-H Club Congress in Chicago. The trip award also is given to eight national winners in the Beautification of Home Grounds program.

National awards of \$300.00 college scholarships will be presented to four winners in Leadership and six in Entomology.

All four programs are directed by the Cooperative Extension Service.

During the Civil War the proportion of Northern Soldiers to Southern Soldiers was 4 1/2 Northerners to 1 Southerner.

## Wrestling Monday Night in Eastland

This week's wrestling card at the Sportarena in Eastland will feature six new faces. Promoter Henry Pullman has lined up an entirely new card.

Meeting in the main event will be two of the top ten wrestling stars of the nation. Clclone Anaya will take on Frank Murdock in the best two out of three falls event.

In the semi-final match, Bill Stedum, who has been doing the refereeing at the Sportarena, will step in and fight Chris Tolow. Stedum proved his ability last week when he ganged up with Cowboy Carlson to whip Roy Graham. Fans seemed to think more of his wrestling than they do of his refereeing.

In the other event of the evening, Enrique Guzman will tackle Alo Leihani. The match will go one fall. Leihani is the only Polynesian wrestler in the mat game today.

The bouts are held each Monday beginning at 8:30 p. m. Tickets are now on sale at the Connellee Hotel in Eastland.

## Tri-Cities Jamboree In Eastland Tonight

The featured star on the Jamboree in Eastland tonight (Thurs) will be Slim Willit, popular star of KRBC, Abilene, Television and Radio. He composed and recorded "Don't Let The Stars Get In Your Eyes" and many other popular hits.

The show starts at 8:00 p. m. Admission 35c and 50c.

Mrs. W. C. Couch accompanied her daughter and husband, Mr. and Mrs. Jess Cavanaugh, of Eastland to De Leon last Friday where they attended the funeral of her sister, Mrs. J. J. Gee.

Mrs. H. J. Lane suffered a heart attack Wednesday and is reported to be slightly improved at her home here.

George Putnam visited in Cisco Wednesday.

## Paul Brashear Is Candidate For State Legislature

Paul Brashear, a native of Callahan County and resident of this area most of his life, has authorized this newspaper to announce that he is a candidate for the office of State Representative, 76th District, composed of Callahan, Eastland and Shackelford Counties.

Mr. Brashear is a resident of Cisco. He was born September 12, 1917, at Atwell in Callahan County — one of 11 Irving children — and grew up on the farm where he was born. He attended school in Atwell and Cross Plains, graduating from the latter in 1936. Other training included studies at Cisco Junior College and a business college in Austin.

Mr. Brashear was married in 1938 to the former Lena Helen Ray, daughter of a pioneer family of the Scranton community. They have two daughters and reside in Cisco where they operate Helen's Flower Shop.

After the beginning of World War II, Mr. Brashear was employed by the U. S. Army Engineers and the Quartermasters Corps. Later, he joined the staff of the U. S. Soil Conservation Service at Rising Star. He was granted military leave by this agency and served in World War II.

Following the war, Mr. Brashear returned to soil conservation work and was employed by districts in Rising Star, Iowa Park, San Saba, Brownwood, DeLeon and Dublin. In 1952, he was retired from SCS work due to a back injury received while in the Army. The Brashears moved to Cisco at that time and opened their flower shop.

Mr. Brashear is active in the American Legion, serving his second term as service officer of the Cisco Post. In this job, he assists veterans with service problems throughout the area. He has

a life membership in the Disabled American Veterans organization. He is active in the First Baptist Church.

Mr. Brashear said that he began paying taxes at the age of 14 in Callahan County and has been a taxpayer there ever since. He is also a taxpayer of Cisco and Eastland County and cooperates with the Upper Leon Soil Conservation District.

While in school at Austin, Mr. Brashear worked as a committee clerk in the House of Representatives. He worked for the Legislature during two long sessions and one special session and spent some time as an employee of the Secretary of State.

"I feel that my experience in the state capitol has been valuable," Mr. Brashear said. "I am familiar with the duties of a State Representative and am confident that I can perform these duties in a creditable manner."

"If you ask me for a platform, I will tell you that I want to represent all of the people of the three counties in the 76th District. I have no prejudices — no old scores to settle. I decided to enter the race after many citizens asked me to consider it."

"Be assured that I invite a careful study of my record as a citizen, as an employ of private business firms and public agencies, as a soldier and as a family man. Your consideration will be genuinely appreciated."

We asked a great many women who cook electrically just why they preferred to use an electric range.

Practically all of them gave about the same answer: "Because it's so clean."

They reported that they had to spend less time keeping their kitchens spotless. Walls

and ceiling stayed bright and shining for long periods of time. They had to paint or redecorate their kitchens only because they wanted to change the color scheme — not because of dingy walls. Ask your favorite electric appliance dealer to tell you about the many other desirable features of cooking electrically.

**Watch Out For Water Hazards**

AUSTIN, April 10.—Three recent cases of fishermen's multiple drownings prompted the Executive Secretary of the Game and Fish Commission to again caution Texas anglers about water hazards, particularly in the uncharted man-made lakes.  
In the three tragedies, all in artificial impoundments, a total of seven fishermen perished — two in Possum Kingdom, two on Lake Travis and three in Lake Tyler.  
Rough water apparently caused all three multi-drownings and the Executive Secretary suggested fishermen unfamiliar with large bodies of water, particularly the comparatively new lakes, should exercise maximum precautions when the weather is rough.

**Candidate Would Build Dams In Northwest Texas**

AUSTIN, April 21. — A program to build 100,000 small dams in northwest Texas and a vast canal crossing the state's rivers has been proposed by C. T. Johnson, Democratic candidate for lieutenant governor, "as a means of saving Texas from deadly drouths."

"These proposals," Johnson said, "are based on years of study by outstanding authorities on our water resources and problems. The point is to get our state government to take some action on facts established about the drouth problem and in consideration of the sad situation we are in now."

Small dams on the farms of the arid areas in the western part of the state would establish water banks for use during drouths as well as insurance against soil erosion, he stated.

Johnson pointed out that a great canal 60 or 70 miles inland and parallel to the coast line would connect 10 rivers and provide enough water for the entire Gulf Coast region.

Dams would be built above the canal as a part of this plan, he said, and they would hold a year's supply of water in reserve for the dry spells.

"This would guarantee a firm water supply for the cities for industrialization and for that greatest of all water gluttons — irrigation," Johnson asserted.

"It would provide water to open up 850,000 acres of the most fertile land in South Texas for intensive farming, and it would replace the isolated single river-valley developments that have already been made."

The experts estimates the cost of such a program at more than a billion dollars, Johnson said, but the return on the investment would be phenomenal; these same authorities believe it would increase the income of the Gulf Coast region five fold.

Johnson declared that three other states have proven the value of such projects — California, Washington, and Oregon, them," he said, "but when the going is rough, the pilots must be careful even though they have the best boats and the latest type power equipment. At the present accident pace, this could become the worst fisherman fatality season on record."
