## HOME TOWN

### Talk

By R. C. THOMAS

Brady Bredemeyer, 15, son of Mr. and Mrs. Henry Bredemeyer, heard yelping in the wee hours of Saturday morning. He investigated, and found two grey foxes standing under a street light near his home. With a shotgun, he dispatched one, and the other headed for the tall timber, he thought. He let the downed fox lay, with plans to remove it when daylight came. However, he continued to hear yelping, and thought the wounded fox should be finished off. So, with a pistol, he went out again, and ended the yelping.

Come morning, he went out to remove the dead fox. There were two dead foxes under the street light.

A tall, pretty "pot" plant decorated the head table during the Tuesday luncheon meeting of the Winters Lions Club this week, and those members who sit at the other three tables were a bit disappointed that it could not be shared with the other tables. But many were seen pausing to sniff the sweet aroma from the plant during the course of the meeting. And those sitting at the head table seemed to immensely enjoy the meal and the program—more so than usual, it appeared.

Tailtwister Stanley Blackwell, who was keeping a close eye on the pot plant, counted the leaves before the meeting, and is certain that some of the dry leaves at the bottom were missing at the end of the program.

Chief of Police Joe Stevens joined the "pot" plant to the club so that everyone could learn to recognize marijuana in the plant stage. He uses the plant in talks he makes frequently.

In the 97-year history of Texas' Constitution, a total of 334 amendments have been proposed. So far, 212 of them have been adopted by Texas voters.

Rarely does a general election not have several proposed amendments on the ballot. And the election on November 6 is no exception.

Nine amendments will be on this fall's ballot.

The volume of amendments has been the subject of much criticism, and is said to have inspired the Constitutional Convention, scheduled for next year, for which the special Constitution Revision Commission has been preparing the past several months.

Regardless of what the eventual outcome of the Constitutional Convention is—and speculation would be useless, because it will be entirely under the control of the politicians, in the "people" as called for in the Constitution—the nine proposed amendments to be voted on in November deserve every citizen's attention.

It would be next to impossible, because of space limitations, to completely cover each of the nine amendments to be voted on this year—some of them are being published in The Enterprise—but an attempt will be made to at least summarize a few of them week-by-week, and present arguments pro and con. Voters can ill afford to arrive at the polls November 6 without at least an idea of what they are all about. Approval—or disapproval—of some of them could have serious consequences, touching the lives of every individual in the state.

Briefly:  
Amendment 1 provides for annual regular sessions of the Legislature and for an annual salary for legislators of \$15,000 and a daily allowance of \$15 when the Legislature is in session.  
—Argument for: The legislator can no longer be considered

## Annual Lions Club Golf Tournament Scheduled Saturday At Country Club

The second annual Winters Lions Club Golf Tournament has been scheduled for Saturday, September 15, at the Winters Country Club, and fifty or more golfers representing Lions Clubs from a wide area are expected to enter. In addition, several Winters golfers who are Lions Club members are expected to play.

In last year's tournament, the first, 49 golfers played. Golfing Lions from about 36 clubs in this area have been invited to play in the tournament, with no qualification rounds required. Registration will be at 9 a. m., with shotgun tee off at 10 a. m.

Sandwiches will be available at noon, sold by members of the Ladies Golf Association. Five trophy awards will be presented to winning individuals and teams. Registration fee will be \$7 per player.

The golf course will be closed to all other activity during the Lions Club tournament. Members of the Lions Club who are on the golf tournament committee are John E. McAdoo, chairman, and James West, Pat Wood, Bill Griffin and Gattis Neely.

## General Rains Last Week Halted Milo Cutting, Eased Freight Bind

General rains in this area last week brought cutting of milo to a halt, just in time to prevent the shortage of rail cars from becoming more serious.

However, the rains provided a breathing time for grainmen who were filling all storage bins. Shows the first of this week have been spotty, and it was felt that combines would be working again soon, in some sections.

Grainmen estimated that close to 5 percent of this year's milo in this area has been cut. Market was holding strong Tuesday, with \$3.95 quoted, down from previous weeks when quotes reached almost \$5.00. Much of the grain had been contracted at higher prices too, it was understood.

The rains which were received last week will be good for the late-planted milo, but grainmen did not think there was a lot of that. The sorghum midge hit the area some time back, threatening the grain, but with the price being quoted, farmers were able financially to combat this menace.

Conditions have been most favorable for milo growers this year, with production high and markets holding strong, adding to the economic strength of the entire community.

## Nurse Aide Course Will Be Offered Last of September

If there is enough local interest shown, the Winters Community Action Agency of Central Texas Opportunities, Inc., will sponsor a nursing aide class again this fall. Mrs. Mary Kurtz, heading the Agency, said this week.

Plans are to begin the course of classes in late September, to run for several weeks. Seventy hours of study will be required for students to qualify for nursing aide certificates.

Mrs. Louise Davis, LVN, will be the instructor. Students must be 16 years of age or over, and there will be a need for at least 10 students before the course is started. Those interested may obtain additional information at the CAA office, 100 South Main, or by calling 754-4443.

## Development Of 7.3 Miles F-M Road Approved For Runnels County in '73

The Texas Highway Commission has approved development of 7.3 miles of a Farm to Market Road in Runnels County as a part of the 1973 Texas Farm to Market Road Program. J. A. Snell, district engineer of the Texas Highway Department, has announced.

Snell, of San Angelo, said additional funds in the amount of \$66,000 were allotted for the construction of a previously authorized project in Runnels County on FM 2111, from State 158 at Valley View, south to FM 2133; and FM 3026, from FM 2111, 1.2 miles south of Valley View, east to State 158.

Work authorized for this county is part of the 559.4 miles of paved secondary roads statewide which will be developed in this program, Snell said.

A total of 261.6 miles will be newly designated roads. The remainder of the \$22.2 million program will develop Farm and Ranch to Market Roads and recreational roads which previously have been designated as part of the state maintained highway network.

The additional mileage brings total mileage of the FM-RM system to almost 41 thousand miles. Much of this mileage represents former county road routes which have been transferred to the state system. FM and RM projects are selected cooperatively by the Texas Highway Department and local county commissioners courts. Snell said.

The Farm to Market Road program originally was conceived to "get the farmer out of the mud." On that score it has been successful by opening new economic, social and education opportunities to the millions of Texans who live in rural areas. For example, of the newly designated roads, 183.1 miles, 70 percent are school bus routes.

## Post Office Urges Use Of Box Numbers

The Post Office department is urging all patrons who receive their mail on rural routes to use their box numbers on all mail, and to notify correspondents to use their complete address.

H. M. (Jiggs) Nichols, Winters postmaster, said this is a part of a program inaugurated in the Postal Service to "enable us to give you a better and more efficient mail service with less pressure on our employees."

He said a large percent of the mail handled comes in with either incomplete addresses or no addresses at all. He asked that all patrons, city and rural, "notify friends, relatives, and correspondents to use your complete address." This includes street and house numbers, post office box number, or rural route and box number. And use of the ZIP Code is also imperative, he said.

"We desire to give you the best mail service possible, however, correctly addressed mail is a must for us to do so. We need your help and cooperation which will be greatly appreciated," Nichols said.

## Class Officers Elected At High School Monday

Students of Winters High School elected class officers Monday, for the new school year.

Senior class officers are Luther Smith, president; Mary Beth Jacob, vice president; Brenda Easterly, secretary-treasurer; and Cindy Wolford, reporter.

Junior officers are David McAdoo, president; Becky Dean, vice president; Cheryl Bryan, secretary-treasurer; and Elvia Rodriguez, reporter.

Sophomore officers are Bill Pendergrass, president; Dana Davis, vice president; Cindy Seals, secretary; and Donna Marks, reporter.

Officers for the freshman class are Tye Rougas, president; Marvin Moore, vice president; Cathy Colburn, secretary-treasurer; Sherri Curbo, reporter.

In student body elections held last spring, Jim West was elected president; Elvia Rodriguez, vice president; and Barbara Fairley, secretary-treasurer. Becky Dean is pianist and Kandy Rougas, song leader.

## Grandma's Letter Wins Brag Contest At West Texas Fair

All parents have earned the inalienable right to brag about their grandkids.

The practice of bragging and the right to brag have become so important in our culture that special attention has been focused on the subject at the West Texas Fair, now underway in Abilene. They had a special "Grandparents Brag Contest" at the fair, with a big blue ribbon offered to the winning brag entry, and accompanied by a picture of the grandkid being bragged about.

Mrs. George Poe of Winters condensed all her bragging about grandchildren into a short letter of bragging about a particular one, Brandon Paige Poe, two-year-old son of Mr. and Mrs. Dennis Poe of Winters, and entered the letter and a picture of the grandson in the contest, winning the Sweepstakes award.

The letter: "Brandon Paige, two-year-old son of Mr. and Mrs. Dennis Poe from Winters, has been talking since he was nine months old. Standing in his crib, he said 'Boid,' asking to see the birds.

"Since then he says almost everything his three grown brothers have taught him, even to Albuquerque, which comes out 'Abba-Turkey.' "Waking at 2 a. m., he asked to hear voices. When his mother wouldn't wake his brothers nor turn on television he recounted every event of the day.

"If words fail to accomplish his desires he uses his big, brown eyes, which can be pools of sadness. (Grandmother) Mrs. George Poe, Winters, Texas."

## Officers Were Elected By FFA Members

Two girls showed up on the roster of officers for the Winters Chapter of the Future Farmers of America this week, after chapter members held elections.

The girl officers are Cheryl Bryan, elected secretary for the chapter, and Martha Pritchard, elected reporter.

Other officers elected were Rex Marks, president; Denny Ray Heathcote, vice president; Ray Poe, treasurer; Kyle Poe, secretary; Mitchell O'Dell, chaplain; Randall Kurtz, first vice president alternate; and Joe Ray DeLaCruz, second vice president alternate.

Stanley Blackwell, vo-ag teacher in Winters High School, is chapter adviser. Although this is the third year there have been girls in the local FFA chapter, this is the first time they have been elected as officers. There are four girls in the chapter now, students in Winters High School. They are not vocational agriculture students, but only members of the FFA chapter. They all have projects, including calves, hogs and chickens, which they develop for showing.

## Blizzard Band Won Top Honors In Fair Parade

The Winters High School Blizzard Marching Band won top honors in Class AA band, in the judging of school bands marching in the opening day parade for the West Texas Fair in Abilene Saturday.

There were 29 school bands in the parade.

There were more than 100 students in the Winters band. The fair committee presented a big trophy to the Blizzard Band.

## First Home Grid Game

# Blizzards Play Merkel Tonight

The Winters Blizzards will play their second game of the season Friday night—their first home game—as they square off against the Merkel Badgers at 8 p. m. on Blizzard Field.

Fresh from their defeat at the hands of a big Clyde team last Friday night, the Blizzards at the first of the week were beginning the regrouping process in preparation for this week's game, said the young and inexperienced Blizzards gave a good account of themselves for most of the game, but were worn down by the size and experience of the Clyde Bulldogs during the last of the contest. This was the best Clyde team the Blizzards had faced in some years, he indicated.

Some slight injuries resulted from the Clyde game, Coach Black said, but extent will not be known until later in the week and no reassessments will be announced until all reports are in.

Blizzard team captains were elected last week, and will lead the squad during the rest of the season. They are Stanley Tatom, Jim West and Joe Ray DeLaCruz, all senior students.

The Merkel Badgers, tutored by Paul Woodfin, Ronnie Aldridge, Jerry Jones, George Martin and Bob Russell, are stronger than they have been in some years. For the past two years they have been a young and budding team, and this year will see them at peak condition.

## Band To Present Special Program During Halftime At Friday Game

The Winters High School Blizzard Marching Band will present a special program during halftime activities at the Winters-Merkel football game Friday night on Blizzard Field.

There will be 120 marchers in the band, director Kirke McKenzie said, led by the National and State colors, the Flag Corps drum majors, a special new "shield" banner, and the twirlers.

A larger "up-front" group has been organized for this year, McKenzie said, to march with the band in all parades and to take part in other ceremonies and shows. In addition to the color bearers, a bigger "Flag Corps," with 12 members, has been added, along with the other majorettes and twirlers.

The new Majorette Corps will be presented. Members are Keva Harrison, a senior, feature majorette; Kandy Rougas, a junior; Teri Statham, sophomore, rank corporal; and Donna Carroll, Cathy Colburn and Christi Spraberry, freshmen.

## Blizzards Lose Season's First Game To Clyde, 36-7, Friday Night

The Winters Blizzards opened the 1973 football season with a 36-7 loss to the Clyde Bulldogs Friday night in Clyde.

The Blizzard offense was limited to less than 100 yards for the evening. A very young and inexperienced Blizzard team performed very well at times, but provided Clyde numerous scoring opportunities because of defensive lapses and lack of offensive execution.

Winters took an early lead in the first quarter when Stan Tatom scored from 3 yards out on a quarterback sneak. Johnny Liggins converted the point after to give the Blizzards their only lead in the game with the score 7-0.

The Blizzards continued to play well into the second quarter, but a combination of mistakes suddenly turned the momentum to favor the Clyde Bulldogs. The Bulldogs scored first on a 65-yard run by Gerald Hurst with 9:39 remaining in the first half. QB Rueben Ramos then connected with Hurst in the right flat for the 2-point conversion, to lead 8-7.

Late in the second quarter, Ramos again hit Hurst for a 20-yard touchdown pass with 1:40 left in the half. Tommy Bailey kicked the extra point and the Bulldogs enjoyed a 15-7 halftime lead.

In the third quarter, the Bulldogs scored on their first possession. Clyde moved the ball the length of the field in only 6

Merkel has been a Class A school for last year and this, but probably will be in Class AA for next year. The Badgers were Class AA and district mates of Winters for some years before dropping to 1A last year.

Winters has defeated Merkel the last five times the two teams have met.

The Badgers work from a "Houston Vee" offense formation, running option and counter-option plays with a balanced backfield.

Merkel had an open date for the first week of the season.

## C. of C. To Offer Bonus For First 1973 Cotton Bale

Continuing a practice which was started many years ago, when cotton was a much bigger production crop in this area, the Winters Chamber of Commerce again will offer a \$50 bonus for the grower bringing in the first bale.

According to the rules, the cotton must be grown in the Winters trade area, but may be ginned at any gin in North Runnels. The bonus will go to the first bale arriving at the Winters Warehouse from any of these gins.

Although it is expected that no cotton will be pulled until after the first of October, there may be a bale hand-pulled before that time. Many farmers are preparing to apply defoliant acid within the next few days.

**Food Handling Tips When Freezer Fails**

Have you ever thought about what you would do if your home freezer stopped running?

If your freezer does stop running or the electricity goes off for some time, Mrs. O'Connor offers these tips to keep your food from spoiling.

Follow one of these rules, and you stand a good chance of preserving your food:

—Keep the freezer closed. Open it only to take food out for transport or to add dry ice. Try to determine how long this current will be off, and how long the food will keep. The length of time food will stay frozen depends on:

—The amount of food in the freezer. A full freezer will stay cold many hours longer than a freezer only a quarter full.

—The kind of food. A freezer full of meat will not warm up as fast as a freezer of baked food.

—The temperature of the food. The colder the food, the longer it will stay frozen.

—The freezer itself. A well-insulated freezer will keep food frozen much longer than one with little insulation.

—Size of freezer. The larger the freezer, the longer the food will stay frozen.

If you have a locker plant in your area, make advance arrangements to take care of food during an emergency. When transporting the food to the locker, wrap it in plenty of newspaper and blankets, or use insulated boxes. Then rush the food to the locker plant.

Your next best alternative is to add "dry ice" to the freezer to try to retain the cold. The more dry ice you use, the longer your food will remain frozen. Invest some time on the telephone, when you have no emergency, to find out where you can buy "dry ice" should you need it.

If all else fails, break out the home canning equipment and cook the thawed food whatever ways your family may like it. Here, again, be sure you have the containers, lids, and other canning equipment on hand, those canning recipes handy.

Sometimes frozen foods are completely or partially thawed before you discover that your freezer is not running. You may safely refreeze foods that have thawed if they contain ice crystals or if they are cold—about

40 degrees F., provided they have been held at this temperature no longer than 1 or 2 days. But remember, use refrozen foods as soon as possible after the emergency.

Always examine meat or poultry before you decide what to do with it, because it may become unsafe to eat if it starts to spoil. Get rid of the food if the color or odor of the thawed food is questionable.

Remember, be prepared for when your home freezer stops running. Don't let a power blackout wipe out your frozen foods.

Meat Loaf—you can make a meat loaf that is to be frozen by any good meat loaf recipe. Just make enough for several meals instead of one and freeze the extra loaves. For a change, try this cheese meat loaf:

- Cheese Meat Loaf**  
2 1-2 lbs. ground beef  
3 T. chopped green pepper  
1-2 cups dry breadcrumbs  
Dash of garlic salt  
2 1-2 cups tomato puree  
1 cup chopped cheese  
2-3 cup chopped onion  
1 T. salt  
1-4 tsp. thyme  
3 eggs, beaten

Mix the beef, cheese, green pepper, onion, crumbs and seasonings thoroughly. Combine eggs and tomatoes, and blend into meat mixture.

To serve immediately—place meat mixture in loaf pan and bake at 350 degrees F., for about 1 hour.

To freeze—meat loaf may be frozen unbaked or baked. For frozen bake meat loaf, bake mixture in metal freezer containers or loaf pans at 350 degrees for about 1 hour. Cool quickly. Cover or wrap and seal and freeze. To prepare for serving: bake frozen uncooked meat loaf uncovered at 350 degrees for about 1 1/2 hours or until done.

## THE NIXON ROUND OF TRADE TALKS

Wellesley Hills, Mass. — The beginning of the long-heralded new round of international trade negotiations are now getting underway at the ministerial level in Tokyo. Early sessions there will be devoted to setting the stage for the point-by-point, item by item talks that will take place next year at Geneva and could continue for as long as three years.

These will be the first major trade negotiations of GATT (General Agreement on Tariffs and Trade) since the eminently successful Kennedy Round of Talks which started a little more than a decade ago. They resulted in a reduction of customs duties on industrial products between developed countries to an average of less than 10 percent, paring tariffs on industrial commodities by nearly 40 percent in the 1967-72 period.

## STRESS ON NON-TARIFF BARRIERS

In the 1960s the aim was to lower — and where possible to eliminate completely — tariffs hampering the flow of trade. In the talks now commencing, which are popularly called the

Nixon Round, the main thrust of the negotiations stresses the reduction — also elimination wherever possible — on non-tariff barriers.

By their nature NTBs are harder to detect, delimit, and route out. Some NTBs are grounded in equity, were set up to protect particular industries from unfair competition from abroad. These have a legitimate reason for existence and are not the target for criticism, much less extinction. What the Nixon Round hopes to bear down on are those NTBs set up to protect local industry from fair competition from the world market. The number and complexity of these overprotective trade barriers is legion and constantly proliferating.

## U. S. POSITION NOT YET DEFINED

While exports account for only 4 percent of our gross national product, there is widespread concern because we are presently running a wide trade deficit. We urgently need a better shake in world trade and must improve our trade relations so as to assure continuity of supply of the agricultural and industrial commodities which we

must import. Yet, while we have been looking forward to the Nixon Round for some years we are entering the preparatory talks with no clear-cut position.

Last April President Nixon sent to Congress the Trade Reform Bill which would give him increased constitutional powers and a free hand in the negotiations. He asked for authority to lower tariffs or eliminate them totally and to reduce N. T. B.'s. He also sought power to set quotas, surcharges, or higher tariffs bilaterally or multilaterally as well as authority to take definite steps at his discretion to ease the impact of import competition on U. S. industries. Congress has not acted on the measure yet and probably will not until late this year or early in 1974. When it does, there is at least an even chance that it will add some limiting amendments. But many observers of the Washington scene feel that Nixon will get most of what he wants.

## WHAT THE PROSPECTS ARE

Since the Nixon Round was first scheduled, the immediate problems facing GATT have undergone drastic change, resulting mainly from world-wide food supply dislocations and/or shortages. Until recent months the U. S. was avidly seeking additional foreign outlets for its agricultural surpluses and meeting with tariff and NTB resistance in the Common Market and some other sectors. Through the Nixon Round we had hoped to attack these restrictions and to increase our food exports on an impressive scale.

Now we discover that import restrictions on foodstuffs are at

## Nile Perch Study Is Underway In Africa

Addis Abba, Ethiopia — Braving crocodile-infested streams and four types of malaria, two biologists have made initial preparations for study of the Nile perch in Africa.

The two, Bob Chew of the Texas Parks and Wildlife Department and Dr. Clark Hubbs of the University of Texas, have been making contact with authorities and members of the scientific and engineering communities in Ethiopia in order to set up research.

In a report to Texas Parks and Wildlife Department authorities, they say opportunities in Ethiopia are good for studying the fish, but there were a few drawbacks.

One problem is the plentiful supply of crocodiles which accounted for the deaths of three Peace Corpsmen last year. Other drawbacks are the many parasites and diseases, including malaria.

All water consumed by the biologists is purified by adding

at least temporarily relaxed and resistance to permanent relaxation is not so adamant. A high U. S. official recently predicted that GATT negotiations may not really get going until late in '74. By then we should be starting to overcome food shortages, and further opening of the channels of exchange between nations may have greater appeal.

## Junior Culture Club Meeting Thursday

The Junior Culture Club of Winters held the first meeting of the 1973-74 year, Thursday, at the Church of Christ Fellowship Bldg.

The highlights of the meeting were the President's message by Miss Nancy Grundy, the presentation of the yearbooks and the discussion of the projects for the coming season.

The theme "Welcome Italiano" was carried out with a delicious lasagne supper served by the hostesses, Miss Nancy Grundy and Mrs. Randy Loudermilk.

Members present were Mrs. Bobby Blackwood, Bob Browning, Bud Busher, Douglas Cole, George Davis, Cecil Hambricht, Richard Higgins, Randy Loudermilk, Robert Parramore, Tommy Russell, Alvin Scates, John Sims, David Smith, Stanley Kvapil, Paul Michaelis, and Miss Nancy Grundy.

10 drops of laundry bleach to five gallons of water, but Chew has already become ill and recovered from what might have been typhoid.

The fish which they will be studying, the Nile perch, is one which biologists hope can be introduced into Texas waters, especially the warm waters connected with cooling lakes for power plants.

The fish is huge, some more than 300 pounds, and could give anglers quite a tussle. In Africa, they grow to 20 pounds in a year and up to 200 pounds in five years.

## Last of Afghans Released Along The Rio Grande

El Paso — Three years of Afghan white-winged pheasant stocking came to an end during the middle of August when Parks and Wildlife Department biologists released 500 of the exotic birds in the farmland area along the Rio Grande in Hudspeth County.

The release was part of an experimental program by the department to see if the Afghan pheasant can survive in Texas range similar to its native Asian habitat.

According to biologist Jimmy May of Tyler, both climate and farming practices of the lower Rio Grande closely parallel those of Afghanistan.

Birds for the August release were produced at the Parks and Wildlife Department's Management and Research Station in Tyler.

In 1971, some 570 pheasants were released followed by another 560 birds in 1972.

Biologists say that a period of at least two to three years will be required to determine if they are concluded to determine if the Afghan pheasants can maintain and increase their numbers sufficiently to be hunted.

The Parks and Wildlife Department asks the cooperation of the public in protecting the broodstock during this critical period.

Boot Hill Cemetery in the Panhandle originated when the cowboys died. They buried them with their boots on.

## High-Speed Chase Nets Game Violators

San Marcos—With an increase in the incidence of wild game poaching, Parks and Wildlife Department game wardens have stepped up their patrolling efforts throughout the state.

One of the routine patrols on a ranch west of San Marcos during the evening of August 24 brought one such suspect to bay after a high-speed chase through the Hill Country backroads. The outing cost the violators almost \$4,000 in fines.

Warden Calvin Turner of Seguin and district law enforcement supervisor Frank Henze of San Marcos were patrolling the ranch when they heard a shot. They drove in the direction of the shot and confronted a slowly approaching automobile.

Henze stepped from the patrol car and signaled it to stop while Turner flicked on the red light. Within a few yards of Henze, the car accelerated and headed for him. Henze managed to get out of the way and both wardens gave chase.

Billowing clouds of caliche dust and nightfall prevented the wardens from following too closely, so they radioed for assistance to fellow warden Frank Hamer.

Hamer cut off the fleeing car but its driver ignored Hamer's red light and continued on toward San Marcos at speeds of over 100 miles per hour.

Once inside the San Marcos city limits, the suspect's vehicle blew a rear tire and Hamer overtook it.

The four occupants were placed in the Hays County jail under \$500,000 bond and charged with a total of 19 violations including two felony charges and four game infractions.

A small whitetail buck was found in the car.

The men pleaded guilty to the game violations which included no hunting license, possession of a deer out of season, failure to tag a deer and discharge of a weapon on a public highway.

They remain in jail under a charge of aggravated assault with an auto with intent to kill.

**AUSTIN**—An executive order has been issued by Gov. Dolph Briscoe creating the Division of Rural Community Services in the Texas Department of Community Affairs.

Governor Briscoe, who has listed rural development as one of the priorities of his administration, created the new division in response to what he termed "the urgent needs of rural areas."

In announcing the new rural services office, Governor Briscoe said the role of the Texas Department of Community Affairs is to make all state resources available and accessible to local communities as they strive to help themselves.

The Rural Community Services Division will provide information and technical assistance to rural communities and will assist in development of a state policy for rural development, the Governor said.

The new office will serve as a clearing house and will be a central state office that rural communities can go to for help, said Briscoe.

Raymond L. Prewett, executive director of the Texas Rural Development Commission, has been named to head up the Division of Rural Community Services.

A major part of his new duties, said the Governor, will be to assist rural communities in their relations with state and federal agencies and to direct communities with specific problems to the appropriate agencies.

Along the same line, the Governor has acted to expand the Texas Industrial Commission to include three members from rural areas. In the past, membership on the Commission has been two employers of labor, two employees or laborers and five members from the general public.

The Texas Industrial Commission is responsible for planning, organizing and operating a program for attracting and locating new industries and to promote the expansion of existing industries in Texas.

New rural members of the TIC are James Hunt of Sonora, president of Stockman's Feed Company; James B. Bond of Navasota, an attorney and director of the Navasota Industrial Foundation; and William A. Porter of Terrell, a farmer and businessman.

## REVISION COMMITTEE REVERSES ITSELF

The Texas Constitutional Revision Commission reversed its August 25 decision—that the Texas Legislature should meet annually—and voted that the new Constitution should require the legislature to meet once every two years. But the time and duration of session or sessions would be set by the lawmakers themselves.

**Travis County Dist. Atty. Bob Smith**, who argues against implementation of the resentencing provision, claims it amounts to commutation of sentence, a power which the constitution gives only to the governor.

"Just because you call a horse a cow doesn't make it a cow," Smith told the Criminal Appeals Court. "Just because they (the Legislature) call it a resentence doesn't mean it's not a commutation," said Smith.

Lawyers on the other side of the question claim the resentencing provision is an authorization for the courts to review sentences, upon request from the defendant, and amend them, if justified.

About 800 persons serving terms in Texas could be affected by the outcome of the ruling. Conviction of possession of marijuana carried possible sentence of up to life imprisonment prior to revision by the 63rd Legislature to reduce first-possession penalties.

## AG OPINIONS

Present county commissioners may serve out their terms of office without residing in the new districts established by redistricting, Attorney General John Hill held.

Areas affected by redistricting will retain their wet or dry status enjoyed prior to any redistricting of the commissioners court—until an election is called to change the county from wet to dry or vice versa, Hill held in the same opinion.

In other recent opinions Hill ruled:

—The Commissioners Court of Navarro County may pay the district judge no more and no less than \$4,000 per year for performing the duties of Judge of the juvenile court.

—A court may direct the payment of a probation fee of a misdemeanor defendant who has been placed on probation, such fee to be collected by or under the direction of the court.

—The Galveston Ship Channel is a "pass" within the meaning of the Texas Shrimp Conservation Act and shrimp may not be taken from it.

—An independent school district has the power to contract with a city for construction and use of recreational facilities to be used by the district and may in exchange convey title to surplus school land to the city if both agree paramount use of the land would be its use as a public park for benefit of all residents.

The Red River is 1,360 miles in length, exceeded only by the Rio Grande.

Texas has approximately 200 species of freshwater fish.

In 1857, the first edition of the Texas Almanac was published.

## WARM UP THE WEDDING BELLS

It's a December wedding in the Governor's Mansion for Janey, daughter of Gov. and Mrs. Dolph Briscoe. The December 29 wedding date was set as Gov. and Mrs. Briscoe announced Janey's engagement to Edward Vaughan of Hillsboro.

The groom-to-be is a junior law student at St. Mary's University in San Antonio. His parents are Mr. and Mrs. S. J. Vaughan III of Hillsboro.

**APPOINTMENTS**  
Mrs. Robert M. Ayers Jr. of San Antonio has been appointed to a six-year term on the Texas Youth Council. She replaces Louis Henna of Austin, whose term expired.

Governor Briscoe named Amrillo attorney Edward B. Nobles to the 108th Judicial District Court bench. Nobles has been

### Commission Adopts Pro-Hunter Resolution

AUSTIN — The Texas Parks and Wildlife Commission wants to set the record straight on hunters and hunting—both are good for the state's wildlife. The commission adopted a resolution in their August 17 meeting citing the "need to inform the public about the merits of hunting and harvesting of wildlife," and the important contribution of "hunting as a major source of outdoor recreation."

Parks and Wildlife Executive Director Clayton Garrison introduced the resolution because "the public needs to be informed of the true role of the hunter and hunting, not only as a major form of recreation but also as an absolute necessity for proper management and future well-being of many wildlife populations."

Commissioners and Garrison feel that hunting has been misrepresented to a large segment of the urban American population with potentially disastrous long-range consequences for both the sport and wildlife.

It was resolved by the commission to seek the cooperation of other agencies and organizations involved in the management of renewable natural resources, and to develop a comprehensive public information program which accurately portrays the role of the hunter and hunting in Texas.

### Lutheran Ladies Aid Circle Met Last Thursday

The Ladies Aid Circle of St. John's Lutheran Church met Thursday afternoon in the Fellowship Center of the church, with Mrs. H. L. Frick presiding.

Program leader was Mrs. W. F. Minzenmayer, and Mrs. Ellis Ueckert accompanied on the piano as a song was sung. Mrs. Robert Gerhart gave the devotional, and Mrs. Ueckert gave two readings for September birthdays. The offering meditation was given by Mrs. Fritz Deike.

Bible study leaders were Mrs. A. C. Minzenmayer and Mrs. Jack Whittenberg.

Present were Mesdames H. L. Frick, Charlie Adami, Fritz Deike, Robert Gerhart, Walter Gerhart, John Hiller, Bill Hoppe L. E. Jacob, A. C. Minzenmayer, Olga Minzenmayer, W. F. Minzenmayer, George Pruser Sr., Walter C. Probst, E. E. Thormeyer, Ellis Ueckert, Erwin Ueckert, Gus Voss, Carl Wessels, J. J. Wessels, Jack Whittenberg, Pete Wessels, and Miss Emma L. Henniger and the Rev. Walter C. Probst.

Hostesses were Mrs. A. C. Minzenmayer and Mrs. Olga Minzenmayer.

Have a checkup every year. And, between checkups, be alert to Cancer's Seven Danger Signals:

1. Unusual bleeding or discharge.
  2. A lump or thickening in the breast or elsewhere.
  3. A sore that does not heal.
  4. Change in bowel or bladder habits.
  5. Hoarseness or cough.
  6. Indigestion or difficulty in swallowing.
  7. Change in a wart or mole.
- See your doctor immediately if any danger signal lasts longer than two weeks.

### Get In Shape For Hunting Season

Austin—You say your lease is all sewn up, your gun is oiled, your camping equipment is in top shape and you are sitting on your hands waiting for the hunting season to start.

Maybe you shouldn't be sitting, suggest Texas Parks and Wildlife Department officials.

Instead, walking and maybe even a little jogging would be better for your heart. According to the American Heart Association, 50 percent of all deaths in Texas are from cardiovascular diseases, heart attacks being the single greatest killer. Hunters, especially those with sedentary jobs, are prime candidates to become one of these statistics.

Part of every year's hunting preparations should also include a program geared at preparing the body for the rigorous days ahead.

Here are some tips from the American Heart Association

which should help a few more hunters get safely home from their trip:  
—Arrange to see your doctor before your trip. Discuss your plans with him and take his advice.

—Dress sensibly. Consider the climate both day and night. If you hunt at an altitude higher than where you live, start a few days early to get acclimated. Get adequate rest before the hunt starts. Don't hunt when exhausted. Plan your day of hunting and rest often.

—Know the approximate distance to be covered. Know the location of the nearest phone, doctor or emergency center.

—If you are already a heart patient, be sure one member of your party knows about your condition and the medicines you take. Never hunt alone.

—When you bag a heavy deer, get help in taking the animal out of the woods.

The checkup a few months before the hunt is most important. If your doctor okays it, start a training program to get yourself in shape.

### Youth Council Elected Officers Monday Night

Officers were elected at a meeting of the Winters Youth Council Monday night.

Perry Poe was elected president, to succeed Jerry Mac Jackson in that office. Jackson was elected vice president; Shelly Hamner, secretary; Andy Gann, treasurer; Steve Boykin, parliamentarian.

The group voted to employ someone to keep the Youth Center open on Saturday. A coke party with rock and western music is being planned for Monday, Sept. 24, at the youth center.

Present for the Monday night meeting were Donna Hamilton, Betsy Burson, Darrell Kurtz, Pam Ford, Margaret Huffman, Laurie Akeman, Jamey Clough, Margie Clough, Janice Henderson, Stephen Boykin, Benji Aldridge, Randall Kurtz, Ronnie Stevens, Ricky Grenwelge, Jerry Mac Jackson, and Mrs. Mary Kurtz.

### Approval Given To Hunting Predators By Aircraft

Austin — Coyotes, bobcats, red foxes and coyote-dog hybrids in 155 Texas counties from Brazos to El Paso may now be hunted from aircraft following action by the Parks and Wildlife Commission August 17, announcing the department's executive director Clayton T. Garrison.

Senate Bill 44 as approved by the 63rd Texas Legislature authorized the Parks and Wildlife Department to issue permits for predator animal control by the use of aircraft to limit the economic losses inflicted by such animals on livestock and game species.

The \$5 permits, which are valid for one year, specifically prohibit the killing of any bird of prey or game animal.

Application for the permit will include information on the kind and number of predators to be taken and a description of the area on which the permit will be used.

### ...about your SOCIAL SECURITY

Social security checks should be cashed within a reasonable time to prevent loss or theft, even though there's no time limit on cashing them, according to J. M. Talbot, social security manager.

"If your check is lost or stolen, get in touch with your nearest social security office at once," Mr. Talbot said. "The check can be replaced, but it takes time. Handle your check carefully when you get it, and you won't have to wait while it's being replaced."

Social security pays over \$4 billion a month in benefit checks to almost 29 million people—eligible retired and disabled workers and their families and families of deceased workers who worked long enough under social security.

## AROUND THE 6-AA FOOTBALL LOOP

District 6-AA got off to a running — and scoring — start Friday night, with three member teams thrashing outside opponents, two losing and one sitting out the opening week.

All games were non-conference warmers — district play will not begin until October 19. The Haskell Indians were the high scorers for Friday night, as they knocked down Eastland 31-12.

Hamlin, picked as the league leader for this year, hit the Rotan Yellowhammers 23-6, and Ballinger outlasted old-time rival Brady, 14-0.

Winters' Blizzards opened the season with a loser, dropping the first game of the season 36-7 to Clyde. The Clyde Bulldogs were ready for this one, having dropped games to Winters the previous three years in a row.

It looked like Anson all the way Friday night over in Coleman, as they picked up a 6-0 lead over the Bluecats in the first quarter, and held them until the last quarter. But then the Tigers failed to hold together in the fourth, as Coleman scored a safety, then hit on a 63-yard pass play, and then wrapped it up solid with a 74-yard drive in six plays to score with 38 seconds left in the game.

The Stamford Bulldogs got an extra week of rest before plunging into the melee.

All teams of the district will have open dates before district play begins.

**WEEK'S SCHEDULE**

**SUMMARY OF PROPOSED CONSTITUTIONAL AMENDMENTS**

**SPECIAL ELECTION NOVEMBER 6, 1973**

**NUMBER ONE ON THE BALLOT (S.J.R. 8)**

Article III, Sections 5, 24 and 49a and Article VIII, Section 6 of the Texas Constitution are amended to:

Provide for regular annual sessions of the Legislature. The regular session in each odd-numbered year would be for a period not to exceed 180 days. The regular session in each even numbered year would be for a period not to exceed 60 days and would be limited to consideration of fiscal matters and any emergency matters submitted by the Governor. The 60 day session could be extended by the Governor for a period not to exceed 30 days.

Provide an annual salary for members of the Legislature not exceeding \$15,000 per year and a per diem not exceeding \$18 per day for each day of each regular session or special session.

Provide that no appropriation of money shall be made for a longer term than one year and direct the Comptroller to make annual estimates of anticipated revenue rather than biennial estimates.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment to provide for annual regular sessions of the legislature; and to provide an annual salary of \$15,000 and per diem for the members of the legislature, effective in January, 1975."

**NUMBER TWO ON THE BALLOT (H.J.R. 7)**

Article XVI, Sections 50 and 51 of the Texas Constitution are amended to:

Include within the scope of homestead protection the real property of a single adult person which meets the other requirements of homestead protection, and to provide that a family homestead may not be abandoned except with the consent of both spouses.

Presently a single adult person is not entitled to claim a homestead exemption and a married man can abandon a family homestead without the consent of his wife.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment to include within the scope of homestead protection the real property of a single adult person which meets the other requirements of homestead property, and to provide that a family homestead may not be abandoned except with the consent of both spouses."

**NUMBER THREE ON THE BALLOT (S.J.R. 13)**

Article VIII, Sections 1-a and 1-b of the Texas Constitution are amended to:

Extend the \$3,000 ad valorem tax exemption to the residential homesteads of unmarried adults.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment to extend the \$3,000 ad valorem tax exemption to the homesteads of unmarried adults."

**NUMBER FOUR ON THE BALLOT (S.J.R. 1)**

Article XVI, Section 59, of the Texas Constitution is amended by adding a new Subsection (e) which:

Provides that no law creating a conservation and reclamation district shall be passed unless a copy of the proposed law is delivered to the commissioners court of each county and to the governing body of each incorporated city or town in whose jurisdiction said district or any part thereof is or will be located. Each such commissioners court and governing body may file its written consent or opposition to the proposed law with the Governor, Lieutenant Governor and Speaker of the House of Representatives. Each special law creating such a district must comply with general laws then in effect relating to consent by political subdivisions to the creation of such districts.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment establishing certain requirements relative to the enactment of laws creating certain conservation and reclamation districts."

**NUMBER FIVE ON THE BALLOT (S.J.R. 12)**

Article XI, Section 7 of the Texas Constitution is amended to:

Provide that all counties and cities bordering on the coast of the Gulf of Mexico are authorized to levy a tax to pay for bonds issued for the construction of sea walls and breakwaters upon a majority vote of the resident property tax-payers. Counties and cities are presently authorized to levy such taxes and this amendment only changes the required vote from a two-thirds majority to a simple majority.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment authorizing counties and cities bordering on the Gulf of Mexico to issue bonds

**NUMBER SEVEN ON THE BALLOT (H.J.R. 6)**

Article III, Section 49-b of the Texas Constitution is amended to:

Provide for an additional \$100 million in bonds or obligations of the State of Texas for the Veterans' Land Fund. This amendment increases the present \$400 million authorization to \$500 million.

Remove the present provision which permits buying of land only by those veterans who served between September 16, 1940 and the date of formal withdrawal of United States troops from the armed conflict in Viet Nam. This amendment would allow all veterans who serve after September 16, 1940 to buy land from the Veterans' Land Fund, provided they are otherwise qualified.

Provide that, in the event of the death of an eligible

**NUMBER SIX ON THE BALLOT (S.J.R. 26)**

Article V, Section 8 of the Texas Constitution is amended by adding a new paragraph which:

Provides that the district court, concurrently with the county court, shall have the general jurisdiction of a probate court and in a probate proceeding shall also have the jurisdiction otherwise conferred on it by law. It also provides that the legislature may increase, diminish, or eliminate the jurisdiction of the district court or county court in probate matters, may adopt rules governing the filing, distribution, or transfer of cases and proceedings as between the courts having jurisdiction of probate matters, and may provide that all appeals in probate matters shall be to the courts of civil appeals.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment to authorize the district court, concurrently with the county court, to have the general jurisdiction of a probate court and in a probate proceeding shall also have the jurisdiction otherwise conferred on it by law. It also provides that the legislature may increase, diminish, or eliminate the jurisdiction of the district court or county court in probate matters, may adopt rules governing the filing, distribution, or transfer of cases and proceedings as between the courts having jurisdiction of probate matters, and may provide that all appeals in probate matters shall be to the courts of civil appeals."

**NUMBER EIGHT ON THE BALLOT (S.J.R. 29)**

Article XI, of the Texas Constitution is amended by adding a new Section 5(a) which:

Authorizes and requires incorporated cities, towns, and villages, regardless of population and notwithstanding the constitutional limitations on total tax rates, to levy such annual ad valorem taxes on the taxable property in the city, town or village as are necessary to pay the principal of and interest on, when due, the general obligations hereinafter issued by the city, town, or village. The legislature is empowered to limit by general or special law the total principal amount of general obligations which may be issued, but unless and until the legislature acts to do so, the limitations established by statute with respect to the total principal amount of bonds which may be issued by independent school districts shall apply as the rate limitation on cities, towns, and villages.

The wording of the proposed constitutional amendment as it appears on the ballot is as follows:

"The constitutional amendment to authorize cities, towns, and villages to levy such ad valorem taxes as are sufficient to pay the principal of and interest on their general obligations hereinafter issued subject to the restrictions provided by law."

**NUMBER NINE ON THE BALLOT (S.J.R. 25)**

Article VIII of the Texas Constitution is amended by adding a new Section 2C which:

Allows the Legislature, by general law, to exempt all real and personal property used by non-profit water supply corporations or cooperatives from all property taxes. The exemption would apply only to such property as is reasonably necessary to conduct the business of a non-profit water supply corporation or cooperative.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment authorizing the legislature to exempt from property taxes certain property used by a non-profit water supply corporation or a non-profit water supply cooperative."

**Garden Check List For September**

1. Prepare beds for planting bulbs and winter annuals.
2. Divide, transplant and establish perennial beds including Cannas, Bearded Iris, Daylilies, Violets and Shasta Daisy.
3. Complete digging, drying and storing Gladiolus corms.
4. Continue to water when needed.
5. Spray roses at regular intervals for Blackspot and Mildew control; Mildew is especially prevalent this time of the year. Use Benlate or Karathane.
6. Fertilize and water Chrysanthemums.
7. Clean established garden beds. Cut back or pull out faded annuals.
8. Purchase Tulip bulbs and chill in refrigerator at 35 degrees to 40 degrees F., for 60 days.
9. Make final selections of spring flowering bulbs.

also provide excellent cover on steep slopes where grass mowing is impractical. Daylilies like full sun and fertile loam soils, but will grow in partial shade or heavy clay to light sandy soils. Good drainage is necessary. Drought seldom kills daylilies although it will affect their general appearance, quality and number of blossoms. The best time to plant daylilies is late summer or fall when most varieties are semi-dormant. Prepare beds with an organic matter such as peat moss or pine bark.

**Senior Citizens Meeting Friday**

The Winters Senior Citizens met Friday for games, music and refreshments.

Present were Lucy Melendez, Celia Ortegón, Ann Grenweige, Jackie Henderson, Ida Bates, Dama Lohman, Claudia Pounds, Ethel Hill, Cora Beard, Dessie Fisher, Ruby Harris, Ophelia Lopez, Martha Sellers, Olga Minzenmayer, Mr. and Mrs. Reye Gonzales, Mr. and Mrs. Slim Doty, Mr. and Mrs. Jack Poindexter, Mr. and Mrs. Charles Waller, Mr. and Mrs. Harry Jonas, Mr. and Mrs. Bud Montgomery, Mr. and Mrs. Paul Gerhardt.

**Daylilies Can Color Your Landscape**

The versatility of daylilies makes them some of the most colorful and useful plants in Texas landscapes, says county Extension agent Parker.

And planting time is just around the corner. Their ease of cultivation, length of flowering season and relative freedom from pests all contribute to their popularity. Daylilies, or hemerocallis, come in dwarf, intermediate and tall sizes in a variety of colors. Although each flower lasts only one day, each plant provides a profusion of blooms.

Like most plants, daylilies need to be a part of an overall landscape plan, he points out. They are often most satisfactory in mass planting but can

**David Wheeler Joins Marines**

David Wheeler, grandson of Mr. and Mrs. Harry Jonas of Winters, joined the U. S. Marine Corps in South Carolina in August. He is the son of Mrs. W. L. Roberts of Conway, S. C., and attended Ballinger schools. He worked for some time at Dry Manufacturing Division in Winters before leaving for the Marine Corps. His grandfather is G. C. Wheeler of Ballinger.

By Congressman O. C. Fisher  
21st District

Following a month-long recess the Congress is back at work, and should be able to wind up its business by November 1st. Unfortunately, I was forced to be absent for several weeks during June and July, during which time I underwent open heart surgery in Houston, at the hands of the world renowned heart surgeon, Dr. Denton Cooley. The operation was highly successful.

As a result of this experience I have learned quite a bit about heart ailments which I never knew before. Actually, I did not have a heart problem, as such. My problem was occlusion of coronary arteries which supply the heart with blood. The operation to correct this condition is a delicate one in which vein segments are borrowed from a patient's leg and then transplanted to bypass the deficient veins in the heart area. In my case were three such transplants.

The bypass technique, described by Thomas Thompson in his book entitled HEARTS as "the newest and hottest operation in heart surgery," works like this: Through the use of coronary arteriogram cardiologists can determine with remarkable accuracy exactly where occlusions occur in arteries. Before bypass came along less than 10 years ago, surgeons were baffled in efforts to find ways to deal with vein blockages. They tried reaming arteries and even wrapped blood-starved portions of the heart with adhesive, hoping that the adhesion would force new vessels to spring up and serve the heart. None proved satisfactory, but the search continued—and led to the remarkable bypass discovery.

Today in the Heart Center in Houston and in scores of other medical centers over the country, bypass heart surgery is commonplace. And in most instances the results are very much on the plus side.

In my own case, although not yet fully recovered from the surgery, I feel better than I have felt in several years.

### Former Resident Graduate of UT Branch, Galveston

Mary Lou Wilkerson, daughter of Mr. and Mrs. J. C. Wilkerson of Coleman, was one of 41 students from the Department of Physical Therapy graduating at the fifth annual commencement exercises for The University of Texas School of Allied Health Sciences on the University of Texas Medical Branch campus in Galveston August 23.

A graduate of Colorado City High School, she attended Midwestern University in Wichita Falls prior to being accepted at the Galveston school.

She is a former student of the Winters schools. Her father, J. C. Wilkerson, was for many years local manager for Lone Star Gas Co. in Winters. They moved to Colorado City some years ago, and then to Coleman.

### District Highway Engineer Snell Will Retire Oct. 31

J. A. Snell, district engineer of the Texas Highway Department in San Angelo, will retire October 31. State Highway Engineer Luther DeBerry announced today.

Snell will be succeeded by D. R. Watson, presently district planning engineer in Paris.

Snell's retirement will close a 44-year career with the Texas Highway Department. Employed first as a summer employee, he joined full time in 1930 after graduation from the University of Texas.

## Farm Electric Short Course To Begin Monday

A Farm Electrification Short Course for adult farmers, sponsored by the Winters High School Vocational Agriculture Department, will begin Monday, September 17, and continue through September 20.

The Short Course will be held in the vo-ag building at the school, and will begin at 8 p. m. each evening.

Farmers interested in attending the short course should contact the superintendent of schools, Carroll Tatom, or Stanley Blackwell, vo-ag teacher. An entry fee of \$5 will be charged. Farm Electrification Short Course certificates will be presented to each farmer attending all the training sessions.

## Rehab Center Cattle Drive Is Underway

A most unusual cattle drive is underway. Each fall since 1960, cattle trailers have crisscrossed Texas, southern Oklahoma, and eastern New Mexico headed for Abilene, Texas, and the September sale of livestock for the annual Cattleman's Round-Up for Crippled Children. From the beginning, the Round-Up has been a major source of funding for the West Texas Rehabilitation Center, a private, non-profit treatment center serving the handicapped of the Southwest.

The 14th annual Round-Up is well underway, with 51 head of cattle already pledged. These early pledges include the following: registered Charolais bulls from 4T Ranches, Georgetown, and N. B. Hunt Ranch, Terrell; Santa Gertrudis bull from Nine Bar Ranch, Cypress; registered Hereford from W. R. Whittenburg Herefords, Graham; registered Shorthorn from 5M Farms, Lindale; registered polled Hereford from Double N-N-S Polled Herefords, Loraine. Charlie Morris, general chairman, states that "this kind of early response encourages expectations for the greatest Round-Up ever."

The West Texas Rehabilitation Center has been in operation for twenty years, and each year has brought forth increases in the number of children and adults receiving treatment, which will amount to about 4,000 individuals in 1973. Through the generous support of ranchers and stockmen over the years, additional and improved services are continually provided for these handicapped. According to Morris, "This support has helped to develop a nationally recognized and respected diagnostic and treatment center."

The late Conda Wylie, Coke County rancher, founded the annual Round-Up in the fall of 1960 when he donated twenty head of cattle to sell to raise money for the operation of the Center. Last year the sale of livestock and farm equipment plus cash donations raised \$117,000. This year's goal is \$130,000 toward the \$525,000 1973 budget.

Morris pointed out that livestock donations are tax deductible and that the stock will be transported free of charge. Round-Up officials urge other donors to get their pledges in as quickly as possible so pick-up routes can be mapped out.

## Blizzards Lose--

(Continued from page 1)  
of the third period, the Bulldogs led 22-7.

In the fourth quarter, again a combination of mistakes led to two more Bulldog touchdowns. The most significant one was a bad center snap on fourth down that gave the bulldogs a first and goal on the Blizzard 5-yard line. The Bulldogs took advantage of these crucial Blizzard mistakes and when the game ended they had handed the Blizzards a 36-7 setback.

Outstanding defensive performances were turned in by Mitch Davis, who picked off two passes, and David McAdoo, who also had an interception. Other strong performers for the Blizzards included Halfback Ricky DeLaCruz, Cornerback Jim West, Quarterback Stan Tatom, Tackles Ray Powers and Kyle Poe, and Senior Guard, Jo-Ray DeLaCruz.

The young Blizzards, who started only four seniors Friday night on both offense and defense, look to improve from week to week. Consistency and game experience are keys to victories in the future 1973 Blizzard contests.

## Home Town Talk

(Continued from page 1)

a part-time official . . . and the \$4,800 annual salary now provided in the Constitution is scarcely adequate to meet present-day costs of living. Many qualified persons do not become candidates for legislative seats because they are unable or unwilling to make the financial sacrifice. Extending the odd-numbered year regular sessions from 140 to 180 days would give the legislature more time to analyze and consider important legislation. The even-numbered year session limited to fiscal and emergency matters would remove the burden of financing the state for two years.

—Argument against: A substantial pay increase for members of the legislature would further increase the costs of state government at a time when state finances are already overburdened in meeting the expanding needs of a growing population. Under the Constitution the legislature is required to meet in regular session not to exceed 140 days every two years. Thus the job of a legislator is not a full-time job and the official holding a seat in the house or senate should not receive a full-time salary. Increasing the total session time from 140 to 240 days every two years still makes it a part-time job. Because of high campaign costs, a potential legislative candidate without substantial financial resources would still be discouraged from running for office even if the proposed salary increase to \$15,000 should be adopted.

Amendment 2 would permit single adults, who otherwise qualify, to claim homestead protection of their property.

—Argument for: The present law discriminates against single persons who do not have the necessary family relationship to qualify for the tax exemption which married persons and persons with the necessary family

relationship have received. Tax assessors and collectors frequently are in a quandary to know if the facts of individual cases qualify a person for the tax exemption.

—Argument against: Tax exemptions do not eliminate tax but merely shift the tax burden to other taxpayers or other sources. Adoption of this amendment may result in greatly reduced tax revenues at a time when the elimination of a tax source is unwise. The exemption is not based on need or a person's ability to pay.

Discussions of the other proposed amendments will follow.
