Wilson Feed To Mix Feed For

The Wilson Feed Co. has just installed a syrup mixing machine, and are now prepared to do feed grinding and mixing to our own specifications.

Sweet dairy feeds are very popular over here and we raise their own feeds, and then have them ground and mixed with syrup, they have a high grade dairy feed at a minimum cost.

Card Of Thanks

Words fail to express our sincere appreciation for the beautiful flowers and sympathy and the kind words of Mrs. W. S. Maxwell and bless each of you.

Carbon Girls And Olden Boys Win Tournament

The Junior tournament held in the local gym last week end was well attended and several close games were played, with the Carbon girls, coached by L. R. Higginbottom, carrying off top honors and winning the trophy.

The Olden boys, coached by Rayneal Baze, won top honors and carried home the trophy in the boys division.

Second place honors went to the Rising Star boys and girls.

County Assigned Quota For 1953 March Of Dimes

Eastland County residents will be asked to raise a quota of \$17,102 in the 1953 March of Dimes campaign, according to an announcement by Mrs. J. A. Bates of Ranger, chairman for the drive. The March of Dimes project is staged annually to raise funds with which to fight polio.

The drive will open on January 2 and be concluded on January 31. "You can help too!" will be the slogan for the campaign. All types of advertising material have been received by Mrs. Bates for distribution over the county.

Chairmen for the drive in each city and community of the county are to be named in the near future. The quota for Carbon has been set at \$441.

Basketball News

The Carbon outsiders, sponsored by Lonzo Wyatt, played the National Guard team from Cisco in the local gym Wednesday night. This was our boys first game and they played the Cisco team a good game but were defeated 30 to 24. They play the strong Olden outsiders here next Wednesday night.

The local high school teams will play in the Olden tournament starting tonight, Thursday. The Carbon boys play Scranton tonight.

Diversification Has Paid Well Here This Year

The hard fight farmers have made to develop a program of diversification was put to a test this year and has paid off well. While peanut farming has been the order of the day in the last few years, a planned and diversified program has been adopted by many.

Cattle has brought in much revenue. Dairying has become well established and has been a profitable business. Hogs are raised and fed by twice as many farmers as were a few years ago.

Poultry and egg production is an established business here now and promises to double in a few years. The turkey business has become a big business. Pecan orchards have been better cared for in recent years and this will pay off this year.

'53 Ford To Go On Display Friday In Eastland

The 1953 Ford, marking the 50th anniversary of the Ford Motor Company, will go on display in 6100 Ford dealerships across the country. The new models will be on display at Ford Motor Company in Eastland and will be introduced without any increase in present prices.

A massive new grill with a center spinner characteristic of recent Ford design and a low, roadhugging look, advance the modern Ford styling. And an outstanding improvement in suspension, termed the "miracle ride", heads a list of mechanical improvements.

Lyric Theatre Re-Opens

The Lyric Theatre in Eastland has re-opened and will show only on Saturday. The first picture will be "The Boy From Amarillo" also a serial and short subjects.

**Farm Youngsters Taught
... of Good Growth**

FARM mothers teach their daughters from childhood that "pretty is as pretty does," points out the Rural Home editor of nationally-circulated Capper's Farmer.

"Getting an early start is as important in learning beauty and grooming lessons as in most other things," she writes. "The little girl who always brushes her teeth after every meal and loves her splash in the tub before bedtime is the one who grows up to have a pretty smile."

"She'll be known for her dainty freshness. And her own children will love her because, she always looks so good and smells so sweet!"

Tooth brushing is a habit with 5-year-old Alice Jane, daughter of Mrs. Doyt Galloway of Van Wert county, Ohio. Mother and daughter enjoy spending a few minutes together each day keeping up their good looks.

Alice Jane knows the right method for brushing to give clean, white teeth and healthy gums. Her own little footstool by the lavatory makes it easy for her to climb up and look in the mirror to watch the brushing.

Slaves Freed

Some historians say that passage of the fugitive slave law peeved the Northerners to such an extent that they helped more slaves to freedom between 1850 and 1860 than the total number that escaped during the entire period of our government previous to 1850.

Sterilizing Gauze

The Public Health Service says that gauze can be sterilized by boiling for 15 or 20 minutes at a temperature of 212 degrees Fahrenheit or by heating in an oven at this same temperature for this same

Jelly Making—Easy and Rewarding

—Photo courtesy Dall Bros. Co.

Spend a little time during the summer making jelly to be used on breakfast toast, hot biscuits, between-meal sandwiches for the children, and lop a sizeable food expense item from your next winter's grocery bill!

Excellent jelly is easily made from the juice of tart apples, grapes, currants, blackberries and several other fruits and berries. They contain enough pectin, the substance in fruits which makes jelly "set." But, some fruits are low in pectin, notably cherries, peaches, strawberries and sweet apples, and the amount of pectin in a fruit may vary from season to season. It is also influenced by the degree of ripeness.

You may mix fruit juices known to low in pectin for cup with a known to contain a great deal

of pectin, but it is usually better to add pectin—the kind you buy in liquid or powdered form—when making jelly of low-pectin fruits. It is also faster. A one-minute boil is enough for jelly-making when you use either Certo or Sure-Jell, well known brands of natural fruit pectin.

You may even make jelly from canned or frozen juices and fruits by using pectin. This is one of the easiest ways of making jelly because it eliminates preparation of the fruit and permits you to make jelly any day of the year in about 15 minutes time.

Pectin may be bought at the food store in either liquid or powdered form. Be sure to follow the directions which come with the bottle or package when you make your jelly.
