the and the desperant in a life

Freed American describes captivity

KUWAIT (AP) - An American bomb-disposal expert, free in Kuwait after Iraqi police seized him in a border dispute, blinked back tears on Sunday as he described a terrifying ordeal, but said he was not harmed.

Chad Hall, released Saturday after two days in Iraq, said his hopes for a quick and peaceful resolution of the conflict withered as he was led away at gunpoint, then taken to Baghdad and issued a prison uniform.

Iraq blamed Hall's seizure Thursday afternoon on "confusion" along the unmarked frontier.

The United Nations took custody of him in Baghdad on Saturday and flew him to their border headquarters at Um Qasr for a medical examination Sunday before flying him to Kuwait.

Victim's father denounces drinking

STATE

DALLAS (AP) - Allowing people to drink in downtown Dallas during the Texas-Oklahoma festivities is an invitation to problems, says the father of a teenager shot to death during this year's revelry.

Wayne Crump of Carrollton says police should have foreseen that violence would erupt, despite a heavy police presence throughout the party area down-

"I don't think they should allow them to drink down there at all," Crump said. His son, Thomas Justin Crump, was fatally shot late Friday night after a minor traffic accident on the west side of downtown.

Police reports indicate that there were at least three other shootings and two stabbings in which victims were taken to local hospitals.

Candidates take stance at debate

ST. LOUIS (AP) - Bill Clinton and President Bush clashed over character and the economy Sunday night in a threeway campaign debate with Ross Perot. The Democratic challenger said, "you've had your chance and it didn't work," and Bush retorted that "change for change sake isn't enough.'

Perot said, "we do have to have change," and said he alone was not beholden to any special interest in his quest for the White House.

The debate kicked off a climactic nine-day period in the campaign for the White House.

The opening moments were highly charged, with Bush bluntly challenging Clinton's "judgement and character" for anti-war activities during the Vietnam war. Clinton responded forcefully, comparing Bush's comments to McCarthyism.

Jimmy Carter to speak at UC

Former President Jimmy Carter will speak today at 8 p.m. in the Lubbock Municipal Coliseum about current election issues and some of his new projects concerning community, national and global improvement.

He is expected to answer questions from the audience following his lecture. Carter's visit to Texas Tech is part of the University Center Programs '92

Following his term in the White House, Carter returned to his home in Georgia. He is involved in volunteer work overseas as an election monitor in countries such as Haiti, Nicaragua and Panama.

Carter also is involved in projects through the Carter Presidential Center in Atlanta and is working with the 1996 Olympic Games volunteers to campaign for aid for the poor.

Tickets for tonight's lecture are available at the University Center Ticket Booth and all Select-a-Seat locations. Tickets cost \$6 for Tech students and \$12 for the general public.

Columbus' discovery of America full of misconceptions, prof says

theatre arts major from Dallas read the names of vigil was an opening for AIDS Awareness Week.

Five hundred years after Christopher Columbus' "discovery" of the New World, numerous misconceptions about the explorer still exist, said Texas Tech geography Professor Gary Elbow.

These misconceptions include that Columbus arrived at America on Oct. 12, said Elbow, director of the Latin American Area Studies program.

"There are two things wrong with this interpretation," he said. "First, he did spot land on the night of Oct. 12, which was a Friday, but he landed on Saturday morning, Oct. 13."

The other misconception with the date resulted from Columbus' use of the Julian calendar, Elbow said.

"The Julian calendar was a little less accurate than the calendar we use today, the Gregorian calendar," he said.

"This calendar set back the time of discovery by 10 days to bring the two calendars into agreement, so if you take the amount of days he traveled, he would have landed around March 22 or 23, with the sighting on the 22nd and the landing on the 23rd."

Another misconception is the "flat Earth hypothesis," Elbow said. "Anyone who was educated at the end of the 15th century knew the world was round," he said.

the round world hypothesis." Elbow said he suspects the misconception originated from an argument against making the voyage. According to the argument, people could fall off the end of the world, be attacked by sea monsters or their ship would melt from

"There was no question about that. Columbus wasn't ahead of his time in

heat if they went too far south, he said. Allan Kuethe, history department chairman and a Paul Whitfield Horn professor of history, said Columbus underestimated the size of the Earth by

Opinions expressed in this editorial column represent the views of the editor and/or The University Daily's editorial board.

Letters to the editor of The University Daily are welcome. All letters must by TYPED, double spaced, and must include the writer's name, address and telephone number. All letters must be signed. Unsigned letters will not be published. Letters must be presented for publication with picture identification. FACULTY/STAFF: Faculty and staff may submit letters to the editor through the campus mail (Mail Stop 3081). Include a copy of a picture identification card. Tech telephone number and home phone number.

The University Daily prints at the editor's discretion: 1) the letters that are signed and the editor can verify the signatures. The name of the letter writer will be withheld upon request only when the individual can convince the editor of definite harassment or persecution; 2) the letters that do not contain material that is libelous, obscene or that is an invasion of privacy. Letters shorter than two double-spaced, typewritten pages will be given preference. Priority will be given to those letters written by students, faculty and staff members of the university and those written on current events. Letters will be selected to reflect diverse opinions and beliefs. The editor (in consultation with the editorial adviser), and only the editor, has the final authority to determine which and how many letters will be printed in each issue. Letters will be edited for spelling, grammar, punctuation, clarity and length.

editorial

Round one of the debates

The first presidential debate is over, and no candidate provided the "knockout punch" that will earn him the White House on Nov. 3

Substantive issues were discussed and the two viable candidates — Bill Clinton and George Bush — offered more than canned answers and one-liners to many of the questions.

Ross Perot struck hard on his theme of saving the country for our children and the future, reiterating his "if the people want it" slogan. He focused the majority of his statements on the current economic situation, but presented no definitive solutions to reducing government spending.

Perot flashed his eccentricity with applause-drawing cliches but was not as detailed in how he plans to accomplish his goals. His down-home, Texarkana country boy personality lightened some of the tension of the debate. Sometimes, however, his brash business approach to directing the United States reflected his "my way or no way" skills which made him a multibillionaire. This harshness gave the impression he is so vocally against — government that comes at the people rather than government for the people.

Clinton protected his front-runner status by keeping his statements focused on his moderate beliefs which are in line with the mainstream American beliefs. He hammered the health care issue and resounded his change theme. He did not slip up and open the door for Bush to gain ground on him. His statements appeared wholly rehearsed at times, which may turn off some people, but he was sincere in his answers.

Bush relied on his current status as president to elevate himself above Clinton and Perot. He did not invoke a central campaign theme as strongly as Perot and Clinton did, but he impressed to the public his "who do you trust" slogan in his final statement.

The three-member panel asked relevant questions which all three candidates handled well.

Clinton and Bush were able to relate personal encounters in several of their answers, which stirs up voters' emotions. Perot, because he has never served as a public official, was not able to capitalize on the emotion factor. Clinton's and Bush's ability to convey Joe Voter anecdotes provided the public with a caring attitude that Perot didn't have the chance

On the whole, the debates were as much as the public could expect. Clinton and Bush delicately side-stepped controversial statements as only life-long politicians can. Perot, by virtue of his outsider, nontraditional candidacy, was not even asked the typical "political" questions that party candidates must face.

In the next two debates, Bush and Perot can be expected to take more chances to cut into Clinton's lead.

Today is the big day.

I will be at the UC Senate Room at 1 p.m. for Meet the Media day. The panel includes representatives from the UD editorial and advertising staffs, La Ventana and KTXT-FM.

The purpose is to provide an opportunity to answer questions about our respective roles at Texas Tech. CHARLES

I encourage anyone interested in what we do to attend. For those who would like to know more about how the newspaper operates, Meet the Media is a

convenient way to have queries answered. Fans and critics alike are welcome. I will modestly accept any praises, and I will, hopefully, be able to provide reasons for any complaints. Even if you don't agree with my answers, I hope you will at least understand the process all news goes through before it is printed.

Let me explain the basic steps The UD undergoes so you will have a better understanding before attending the panel discussion.

All editorial staff members are Texas Tech students. We work five days a week, Sunday through Thursday. We write and edit all stories, take all photographs and design all pages. We must have the paper finished at certain times each night, depending on the number of pages, any color in The UD, insertions, etc. We have the paper printed at Chaparral Press, and the 17,000 copies are distributed on campus by about 7 a.m.

We work hard to give Texas Tech the most informative newspaper possible. We make mistakes, and we admit them. We take our job

We are here for you. If you would like to know more about what we

do, be at the UC Senate Room at 1 p.m. today.

The scapegoat for GOP errors

BRIAN

Citizens beware. The liberal media is out to get you.

Or so I've heard.

This has been the rallying cry for Republicans for quite some time now. As a matter of fact, I can't remember a time when it wasn't.

COFER This conservative call-to-arms is generally based on spurious research from right-wing think tanks, counting the networks during coverage of the Republican Con-Convention.

Even though this whining is nothing new, it ron. seems to me I've been hearing a lot more of it this year than in the past, which leads me to the big question: Why do I hear constant charges of leftwing media bias every day?

Republicans having difficulties finding a new bogey-man, now that we've been told we have to start liking the Russians.

But I would venture to say that media bashing is based mostly on a need for an excuse for losing, since the GOP has already taken the media bias which is the probable outcome Nov. 3. We saw this excuse, I thought I should try to think of some good back in 1990 when Ann Richards won the explanations the Democrats can use should Clinton

I THOUGHT THE REASON THEY (REPUBLICANS) LOST WAS BECAUSE CLAYTON WILLIAMS IS

A SUPREME MORON.

number of times negative words are used by the Governor's Mansion. Republicans immediately attributed media bias as the reason for their loss. vention, as opposed to that of the Democratic Gee, I don't know. I thought the reason they lost and bring down Democrats. was because Clayton Williams is a supreme mo-

However, I will say that I think the GOP is onto something here. If Bush loses, it won't be a result of the people making a decision based on his merits and shortcomings, vis-a-vis Clinton's. He'll lose Hussein endorsed Clinton. I realize part of the problem stems from the because an entire profession is engaged in a conspiracy to destroy a political party.

> And to think that the Democrats have blamed Governor's Mansion. their losses on their own candidates.

But since the election is not a done deal, and

10. G. Gordon Liddy and a team of computer hackers devised a scheme to electronically divert funds from the Democrats' bank accounts to those of the Republicans.

9. Lee Atwater's spirit relayed inside information from God to Bush.

8. The conservative management of the liberal media rewrote all copy to give it a right-wing slant after the reporters went home.

7. The GOP has been paying aging, third-rate, wannabe actresses such as Gennifer Flowers, Donna Rice and Fanny Foxe to make up stories

6. The CIA, under orders from Bush, infiltrated the Democrats' party organization with operatives disguised as cross-dressers, child molesters, draft card burners and ACLU members.

5. Republicans leaked rumors that Saddam

4. Republicans stole all the Clinton yard signs.

3. A burnt flag was planted in the Arkansas

2. David Duke and Jesse Helms said they saw the error of their ways and endorsed Clinton.

1. Clinton's from Arkansas.

Bible doesn't hold all answers

To the editor:

I am writing in response to Jeffrey Davis' letter "What does God say about homosexuals?" I agree that homosexuals should not have more rights than a normal citizen. In fact, from a minority's and a woman's point of view, even minorities and women should not have special rights; everyone should be equal. The thing is, what causes controversies is the fact that these groups are not treated equal, compared to "normal" people. But I am not writing on these issues. I am writing to express myself on what God says about homosexuals.

First of all, I am an atheist. I believe in evolution. Therefore, citing from the Bible does not convince to me that homosexuality is wrong. So may I ask this question: How can you convince people who do not believe in Christianity that being gay is wrong? I do not see it as wrong. I do not consider it wrong because if two people truly love each other, why can't they be together? Yes, some homosexuals seek each other to satisfy their lust, but don't heterosexuals? Homosexuals are not the only ones that perform sodomy and other "abnormal" sexual practices, heterosexuals do it, too, I'm sure.

Second of all, what is this "right" and "wrong" thing? What is "right"? What is "wrong"? There is no absolute. Some thing that is "right" now, can be "wrong" a hundred years from now, and vice versa. Who are we to judge? We are not in sion. the position to judge others.

Last of all, my Christian friends express the following passage in response from a Christian's point of view: "Therefore you have no excuse, O man, whoever you are,

HOW, COME ON, MR. PEROT-

IF YOU NEVER HAD PEOPLE

when you judge another; for in passing judgement upon him you condemn yourself, because you, the judge, are doing the very same things. We know that the judgement of God rightly falls upon those who do such things. Do you suppose, O man, that when you judge those who do such things and yet do them yourself, you escape the judgment of God?" Romans 2:1-3. We should not be judging others while we are doing so much wrong ourselves.

Yvonne Lung

Forest fires are necessary

To the editor:

Friday's unsigned editorial titled "Solving forest problems" is testimony to the greatest problem our forests have: the people who propose policy don't understand how forest ecosystems work. The editorial is full of misunderstandings and commonly believed fallacies. First of all, fire is a natural part of a functioning forest. It is welldocumented that fires regularly burned forest land for thousands of years prior to the white settlement. These were started by lightning and by Indians, mostly.

Forest species are adapted to fire, and generally, are helped rather than harmed by it. Fire clears away accumulated debris allowing new growth to regenerate. Wildlife is seldom hurt by fire, scenes from "Bambi" notwithstanding. Most species can hide from, outrun or jump across fire lines. Some animals do die in fires, but that is part of the

All of the above is true in natural forest ecosystems.

Americans, however, have been altering the natural process in the West for more than a century. For decades the Forest Service has followed a policy of fire suppres-

This is because to Forest Service policy makers and timber companies, a forest is not a living, evolving ecosystem made up of thousands of interdependent plant and animal species. To them it is a commodity:

harvestable timber. Fire threatens the commodity; therefore, fire is bad. Suppression of fire in forests for decades has allowed huge accumulations of dead wood, which otherwise would have been cleared regularly.

Now, when a few dry years combine and a fire gets out of control, it is a huge, ultra-hot conflagration, rather than the more normal cool, natural fire. Natural fires often burn at ground-level only, leaving most trees alive; now fires often spread into the canopy, and are much more destructive. The reason the Yellowstone fires of 1989 were so intense, not to say bad, is that the fire there was suppressed for nearly a century prior to that.

In defense of Forest Service and Natural Park employees, most of them understand forest ecology. For the past 20 years, certain areas have followed a policy wherein natural fires are allowed to burn. The problem is that these agencies are controlled in Washington, not by trained professional foresters, but by political appointees. Both the Republican and Democratic appointees have succumbed to the pressure from timber companies. As far as empty sawmills go, they

aren't empty because of fire damage. They're empty because of a century of nearly unlimited timber harvesting; the old-growth forests are just about used up. Clear-cutting as a solution to fires is silly. Removing every single tree for thousands of acres around is worse, ecologically, that any fire. Controlled burning may be appropriate in some cases.

By the way, Smokey Bear to the contrary, the number one cause of fires are timber companies themselves, whose machines and slash fires ignite unwanted fires regularly. Accidents and arson cause about five percent of all fires. The Forest Service wants people to worry about careless campers so they won't notice that Georgia Pacific and Weyerhauser are the real threat to our forests.

This is a very complex issue, and ill-informed, half-baked suggestions can cause great damage.

More draft dodging trivia

To the editor:

Let's see now. After officially denying it, Bill Clinton was forced by press reports to admit that he got a draft notice at Oxford and that he knew his uncle lobbied the draft board. Yet, like an onion, this story seems to have many layers.

Dee Dee Myers, a Clinton spokeswoman, has confirmed in 1969 Mr. Bill "tripped out" to

It was OK, he assures us in a CNN interview, because "tensions were easing" at the time between the U.S. and U.S.S.R. This is a revision of history similar to his Lincoln/Reagan gaff. Actually, Clinton visited the "evil empire" during a time when it was shipping weapons to the North Vietnamese (who were preoccupied with a kill-the-Yankeerunning-digs thing) and sending its own protestors to concentration camps in the Gulag Archi-

Robert Levin, in a supportive biography "Bill Clinton, the Inside Story," writes that Clinton also led and organized Vietnam protests in the U.S. and other counties including England. To surpass these antics, Dan Quayle would have had to spit on the flag, burn his uniform or throw pig blood on his guard unit's

One might hope that Bill has matured past the misguided leftist ideologies of youth, but consider the views of Derrick Scherer in a recent issue of These Times (a left-wing weekly).

"Although the phrase 'economic democracy' sounds innocuous, it is a kind of euphe-

Socialism has a bad name in America. Socialism is what we need, but we can't call it that. 'Economic democracy' is what sells. You can take that door-todoor like Fuller brushes and the door won't be jammed in your face." Scherer belongs to Clinton's

inner circle of economic advisers. Such close company affirms insider information obtained by New York Times writer Michael Kelly (8-32-92) which exposes Clinton's economic plan as harboring socialist agendas, e.g., a "progressive" (government manipulated) redistribution of the nation's wealth.

It also may be the reason why about two-thirds of economists (surveyed 10-5-92 by USA Today & CNBC, p. 2B) chose President Bush to manage the economy for the next four years.

Mr. Bill got only a 37 percent

As a life-long Democrat I would like to see my party steer the ship of state, but not with Orwellian "newspeak" con-artists on the bridge.

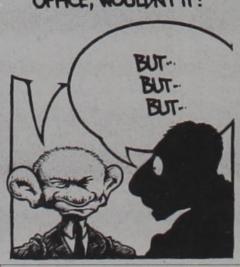

Since Scherer's 'economic democracy' really means socialism, I wonder what 'invest in America' means ... tax and spend? G.S. Chong

People briefs

Keillor returns to radio roots

ST. PAUL, Minn. (AP) — With a lament about losing his hair, Garrison Keillor returned to his radio roots.

The soft-spoken humorist began the fourth season of "American Radio Company" at the World Theater, where he did "A Prairie Home Companion' until he left his native Minnesota in a huff in 1987.

"So good to be back in Minnesota, bring this show back here," Keillor said Saturday at the start of the live, two-hour broadcast on the American Public Radio network.

He left the state after local media publicized his address and the purchase price of his home. He'll do about half his radio shows from Minnesota and the rest from New York and elsewhere.

Arthur Miller visits Israel

JERUSALEM (AP) - Arthur Miller had a warning for Prime Minister Yitzhak Rabin: Choose a chair carefully.

The playwright arrived on Saturday for a performance of his "Death of a Salesman." He told reporters of his visit to Tel Aviv's Habima Theater 15 years ago for a showing of the play.

"On my left sat Mr. Rabin, and I didn't know it but that was the last night of his regime," Miller said. "I'm coming back here — he better not sit next to me.'

In April 1977, Rabin resigned amid a scandal over a foreign bank account held by his wife. The right-wing Likud bloc won the next election and held power until the victory of Rabin's Labor Party in June.

Asked about his failure to visit Israel during the 15 years of Likud rule, Miller said he wasn't comfortable with the right-wing government, but he added only "negligence" kept him away.

LA Philharmonic gets new conductor

LOS ANGELES (AP) — Finnish composer-conductor Esa-Pekka Salonen got rave reviews at the start of his tenure as 10th music director of the Los Angeles Philharmonic Orchestra.

The baby-faced, 34-year-old maestro opened his four-night debut series on Thursday night before a capacity audience of 3,000. Salonen's rousing rendition of Gustav Mahler's Third Symphony brought concertgoers to their feet and local critics to their knees with rare praise.

RALEIGH, North Carolina (Spe-score on the next poscial) — One of the big questions be- session, by driving 80 fore the game between North Carolina yards for the first State and Texas Tech is which team touchdown making would come off the loss the best?

That question was answered in a 48-13 rout for the No. 25 Wolfpack the first quarter Tech Saul over the Red Raiders in front of 41,800 scored its only touch-N.C.

in the contest ending with Matt second quarter at 10-7. Osborne's 38-yard field goal with 5:19 final score 48-13.

The Wolfpack offense ran and passed through the Tech defense for 544 yards, while the Raiders offense was held to 271 yards total offense.

N.C. State tailback Anthony Barbour had 189 yards rushing including one rushing touchdown for 68 yards in the third quarter.

The Wolfpack broke the game wide open by scoring in the second quarter with sophomore quarterback Geoff Bender hitting Robert Hinton on a 19yard pass down the sideline, as the clock was running out on the first half.

This touchdown was one of two in the second quarter for N.C. State.

The ensuing extra point by kicker Steve Videtich was good, giving the Wolfpack the lead at halftime 24-13.

Tech opened up the scoring on its first possesion by driving down the field 54 yards in 14 plays before Jon Davis hit a 33-yard field goal giving the Raiders the early lead at 3-0.

North Carolina State came back to

at Carter-Finley Stadium in Raleigh, down as Robert Hall hit Lloyd Hill on Morris gaining 85 yards on 20 carries. a 29-yard strike. Davis hit the extra

Tech topples Lamar, Sam Houston

The Texas Tech women's vol- against Lamar. leyball rebounded from a tough loss to the Houston Cougars to win two while freshman middle blocker Jenmatches this weekend at Lamar and nifer Cohn had 13 kills. Sam Houston State.

umphed over the Lamar Cardinals led the Cardinals with 14 kills hitin three games 15-11, 17-15 and 15- ting .361. 9. On Saturday, the Raiders defeated 13 and 15-3.

With the wins the Raiders upped their record to 12-3.

kills with 16 hitting .353 in the match seum.

Kim Gosselin added 15 kills,

Tech hit .346 as a team, with On Friday, the Red Raiders tri- Lamar hitting .248. Melissa Miller

Freshman Jill Slapper hit .909 the Sam Houston State Lady with 10 kills against the Bearkats, Bearkats in three games 15-12, 15- while junior outside hitter Chris Fehrle had a career-high 20 kills.

Tech will prepare for a Southwest Conference match against the Kristen Sparks led the team in Rice Owls on Tuesday in the Coli-

innings. Officially, Pat Borders' sacrifice fly in the 11th was the game-winner and capped the first-ever rally from a five-run decifit in a playoff game.

But this one will forever be remem-

bered for Roberto Alomar's shocking, two-run homer off Dennis Eckersley in the ninth that tied it. Alomar's homer accounted for the

biggest turnaround in a major-league game since Kirk Gibson's homer in the 1988 World Series, also off Eckersley.

And, more importantly, it gave Toronto a 3-1 edge in the series.

The Blue Jays, three-time losers in the playoffs, also held a 3-1 advantage in the 1985 playoffs against Kansas City.

But they blew that one with three straight losses, and began the history of failure that has followed them ever

A rejuvenated Rickey Henderson revitalized the A's early as they knocked out Jack Morris in taking a 6-1 lead.

But for the second straight day, Eckersley, the most dominant reliever in the game, was ineffective, and this time it cost Oakland the game.

Toronto scored three times in the eighth, setting up Alomar's tying

Then in the 11th, Derek Bell drew a leadoff walk from loser Kelly Downs,

took third on Candy Maldonaldo's single to right and scored easily on Borders' fly ball to Henderson in left. Duane Ward was the winner and Tom Henke pitched the 11th for his third save of the series.

Sports brief

Raider cross country teams take team titles at Red Raider Invitational

Both Texas Tech men's and women's cross country teams won the team titles at the Red Raider Invitational this weekend at Mae Simmons

The men gathered 34 points while the women had 33 points. - Ralph Aayad was the highest finisher for the men, as he grabbed third with a time of 26:57.6 on the five mile course. This meet was the first won

by the men's team this season. Gabe Ruiz, Ben Friedman and Joe Perez all finished in the top 10, with

times of 27:00.7, 27:19.4 and 27:39.7, respectively. Bill Bush and Don Koontz finished 12th and 15th, respectively, with times of 28:09 and 28:22.7.

The men's team finished 19 points ahead of New Mexico State in the

Freshman runner Jill Williams led the way for the women finishing third with a time of 18:08.7 on the three mile course.

Luisa Tam, Mandy Malouf, Regina Ortega and Gunilla Anderson all finished in the top 10.

The women finished 18 points ahead of second place team Wayland Baptist, who had 52 points.
