State Fair To Open At Dallas October 7th.

The Mid-Century Exposition of the 1950 State Fair of Texas will start Saturday, October 7, and continue through Sunday, October 22, will offer many features of interest to Eastland County farmers and ranchmen, according to information received here.

The biggest livestock show in the history of the fair has been assured by Ray W. Wilson, Fair livestock manager.

The agriculture show will portray Mid-Century achievements of Texas agricultural researchers and farmers through exhibits of leading crops, soil types, soil conservation, irrigation, rural youth activities, grasses and forestry. On Saturday the 7th, officials expect the largest gathering of rural youth in the nation to be on the fair grounds.

Texas Electric Co. Launches Campaign

A campaign to improve the lighting in homes has been launched by the Texas Electric Service Company, in cooperation with local stores that sell lamp bulbs, L. B. D. Stewart electric company manager, has announced. Feature of the month-long campaign is a "bonus bulb" coupon that has been mailed to all customers of the electric company. This coupon may be exchanged during October at any store that sells lamp bulbs for a 150-watt inside frosted bulb after the customer has purchased six other bulbs of 60-watt size or larger. Practically every lamp bulb dealer is cooperating in the program and will redeem the bonus bulb coupons, Mr. Stewart said.

L. L. Bruce of Ranger visited his sister, Mrs. E. R. Yarbrough, Saturday.

John Nicholas, Jr. and wife of Odessa spent the week end with his parents, John Nicholas and family.

Wolverines To Play Baird There Friday Night

The Strawn Greyhounds turned on the power Friday night at Maverick stadium in Eastland and defeated the Carbon Wolverines 37 to 6. Jim Riebe scored three touchdowns for Strawn in the first half and the half ended 18 to 0 in their favor.

Jim Little scored for Carbon in the third quarter and Strawn went on to score three more touchdowns in the last half and the score ended 27 to 6.

Our boys play Baird Friday night in their second conference game. From all reports Baird has a strong team and in the opinion of Coach Ray Wood, the Wolverines will have to play inspired ball to beat them. The game will be played at Baird.

Our lighted field is completed all except the switches and at this time they have not been located. It is hoped the lights can be completed and the Cubs can play a game here next week.

TAKE A LOOK
AT YOUR INSIDES

Study the above drawing for a few minutes. Notice particularly how the bile flows from the liver into and out of the gall-bladder and thence into the small intestine where it mixes with the partly digested food just below the stomach. Bile is a necessary adjunct to proper digestion. Its absence from the intestines inevitably causes putrefaction and fermentation.

NATURE'S DANGER SIGNALS

When your stomach, liver, and gall bladder have been upset by improper eating or drinking, or when they are not working well because retained and putrefying food matter in your intestines is poisoning your entire body, your bile stops flowing freely and you, sooner or later, begin to feel some of the following symptoms:

Your breath may become unpleasant (halitosis), your tongue coated, a bad taste in your mouth, your coffee (and tobacco) lose their natural flavor, your food does not agree with you; you may have headache, heartburn, gas and dizzy spells, you may be troubled with belching; at night the gas in your bowels may press upon your bladder making you get up frequently, thus breaking into your sleep.

In the morning you are tired instead of refreshed. Gradually your health is impaired: you have constipation, gas, putrefaction and self-poisoning ("intestinal toxemia" or "acute gastritis" as many doctors call it).

HOW TO GET RELIEF

You can relieve this condition, usually overnight, by taking Calotabs at bedtime and drinking water freely next day.

Calotabs are a thoroughly dependable laxative designed to effectively relieve symptoms of biliousness and acute gastritis due to constipation or faulty digestion, and to promote the flow of bile through the intestines.

Calotabs are pleasant to take (sugar coated), prompt and effective. Try them and see. Follow label directions. At your druggists'.

Demand the original Calotabs in the distinctive checker-board box. Accept no substitute.

Housewives Can Inspire Meals With Novel Salads Made of Fresh Foodstuff

"I NEVER have trouble thinking of salads to serve during hot weather when there's so much available of salad ingredients," says a homemaker. "But salad inspiration during winter is a big problem!"

It needn't be so, especially if you check over these inspiration-packed tips I'm giving in today's column. All foods used are available during cool weather, and you'll be surprised at what salads can be whipped together without mental fatigue.

Badly needed vitamins and minerals are found in fresh fruits and vegetables to a much greater extent than in cooked foods where water, steam and air have rendered many of them useless. The best way to get their full benefit, therefore, is to serve raw foods. What better way to do this than in salads?

FRUIT SALADS. when made large and beautiful enough, will double as salad and dessert or salad and appetizer. They may be garnished with a scoop of sherbet or dressed with a picnic dressing.

***Fruit Salad Combinations**

1. Alternate wedges of grapefruit, oranges, apples, pears and calavo. Serve with honey or lime-flavored French dressing.
2. Fill canned peach halves with cream cheese and chopped nut mixture and garnish with unpeeled raw apples.
3. Put three cups fresh cranberries through food chopper with two apples and one large orange. Add two cups sugar. Serve, mounded, on a pineapple slice on a bed of lettuce.
4. Serve pear halves filled with a cream cheese and crumbled ginger-snaps center on lettuce leaf.
5. Sliced bananas marinated in lemon juice, then mixed with orange sections and thin, unpeeled apple slices look pretty, taste well.

Carefully cooked or drained canned vegetables may be used in vegetable salads with raw ingredients for contrast and texture interest. Here are some suggestions:

- Vegetable Salads**
1. Arrange 4-6 asparagus tips (cooked or canned) on lettuce, encircling them with a green pepper ring. Mix with French dressing to which chopped chives or stuffed olives have been added.
 2. Mix shredded red cabbage with fried and crumbled bacon. Toss together with tart mayonnaise.
 3. Serve cooked chilled broccoli with a French dressing into which is placed crumbled, hard-cooked egg and crumbled blue cheese.
 4. Cooked lima beans mixed with diced pickled beets, chopped parsley and onion are excellent on a bed of lettuce.

A combination of citrus fruits makes an excellent salad for cool weather eating. Dress it down by having simply the fruit on a crisp bed of greens. Dress it up by topping with a scoop of colorful sherbet.

When you're having hot soup for lunch, team it with a hearty salad and make the meal out of it. Macaroni with celery, cheese, hard-cooked eggs, green pepper, bacon curls, olives and banana strips rolled in chopped nuts makes a generous plate that takes care of main dish and dessert.
