any of the lambs. Wheat that fails due to dry weather or other causes must be reported to this office prior to plowing the land if the farmer wants the acreage credited for history purposes and possible disaster payments. A representative of the ASCS office will have to make a field inspection of the acreage. Grazing or haying of CAP acreage will be permitted in 1974 with a 15 per cent reduction of the average payment rate per acre for each acre in the CAP agreement. The payment reduction will be for each acre that farmers want to hay or graze. Farmers may lease the land to someone else to hay or graze. Before any of the land may be hayed or grazed an application to hay or graze must be filed with this office in writ-

ing. Again in 1974 the transfer of cotton allotments by sale or lease will be permitted. The final date to transfer is May 1, 1974.

Will you operate the same land again in 1974? Please be sure to let the ASCS office know if you will operate different land in 1974 or if you have new or different land owners or share tenants. The office needs to keep records correct for each farm.

An investment in Your Future

ATTEND CHURCH

"For where your treasure is, there will your heart be also"

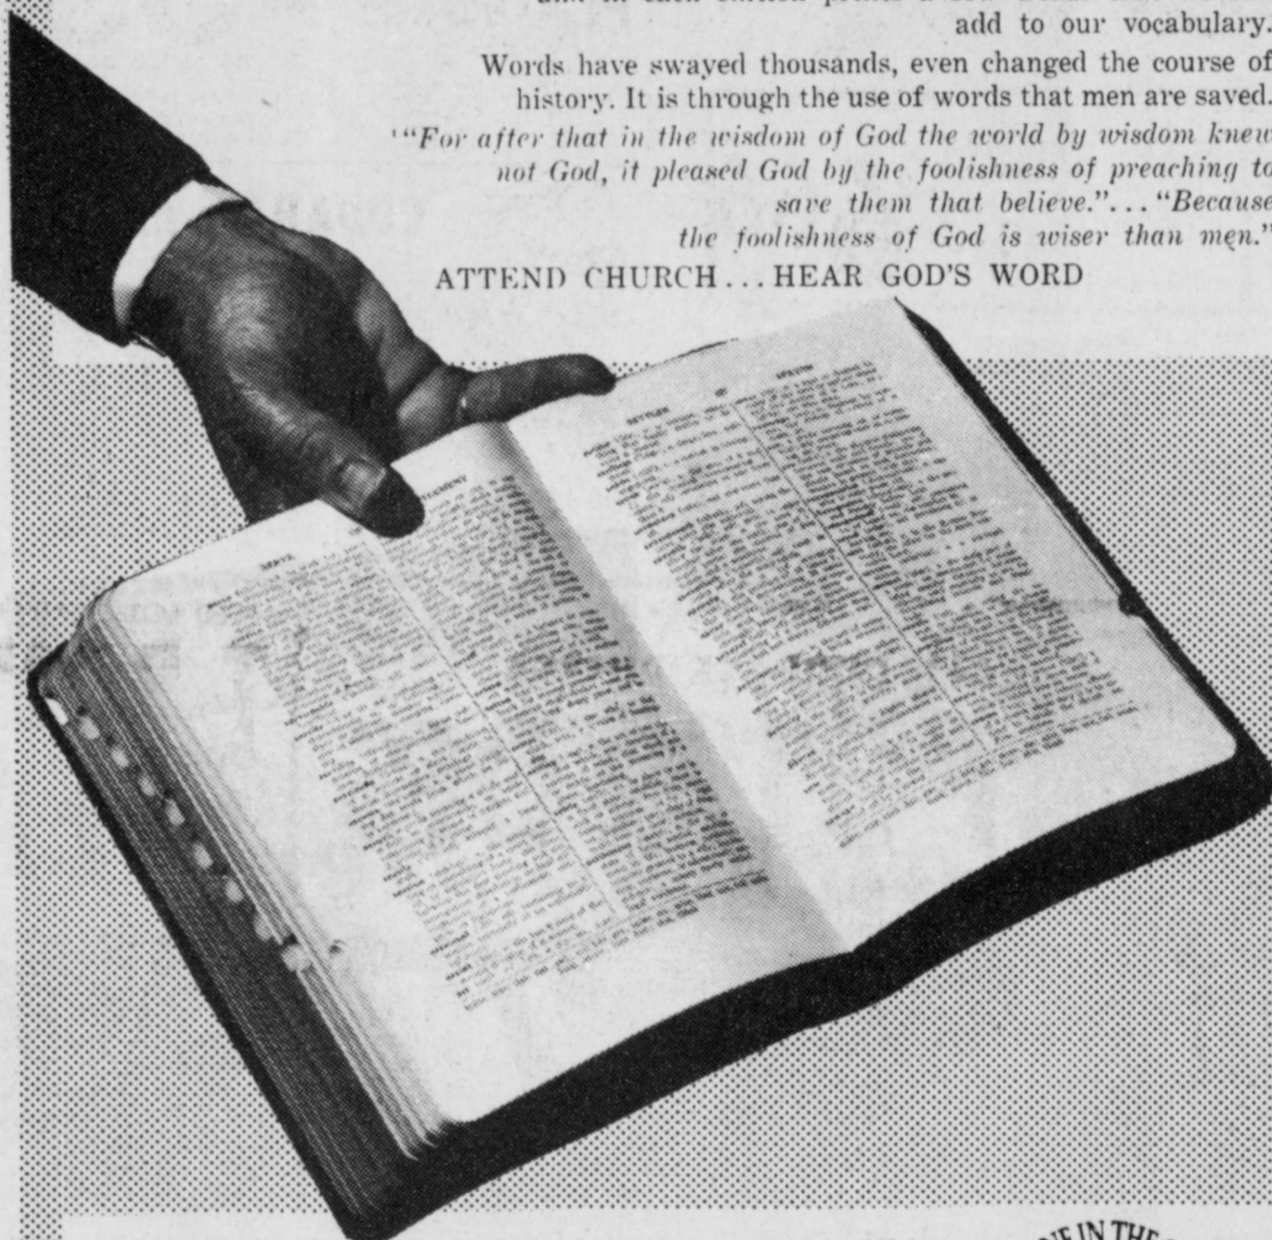

WORD POWER!

One of our popular publications, encourages the learning of new words, and in each edition prints a few words that we can add to our vocabulary.

Words have swayed thousands, even changed the course of history. It is through the use of words that men are saved.

"For after that in the wisdom of God the world by wisdom knew not God, it pleased God by the foolishness of preaching to save them that believe..." "Because the foolishness of God is wiser than men."

ATTEND CHURCH...HEAR GOD'S WORD

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

DECA Party

Tuesday, January 23, DECA met at the XIT Steakhouse at 7:30 p.m. and enjoyed good food, drinks and music. The party was "come and go". DECA paid for the cokes and Dr. Peppers and the students could eat if they wanted to. Later on in the evening, games were played including Masterpiece and cards. The group broke up between 10:00 and 10:30 p.m.

Editorial

Many DE students of Muleshoe High have had definite problems with their job because of the time change. It makes a difference and here's why:

When the Muleshoe School system moved the school hours from 8:45 a.m. through 3:45 p.m. to 9:45 a.m. through 4:45 p.m., it affected all DE students. A student, who works in the morning still goes to work at 8:00 a.m. and instead of working until 9:40 a.m. he now works until 10:40 a.m. Those students who work at restaurants have had to change their working hours, and some of them cannot work when they are needed the most. These students may not even reach their place of business until the main rush hour is already over. This costs the employers money. They are paying students who cannot be as productive as they were before the time change.

To be in DE, a student must work fifteen hours a week. Before the time change, a student working at a store which closed at 6:00 p.m. was dismissed from school at 2:45 p.m. and worked from 3:00 until 6:00 p.m. Now the student is dismissed from school at 3:45 and works from 4:00 until 6:00 p.m.

"Well . . . isn't it worth a little money to conserve energy?" Sure it is! But are we really accomplishing this goal? We are still going to school at the same time by the sun as we were before the clocks changed. Many businesses are also beginning to adjust their hours to coincide with the school's hours.

Think about it, is our new time change really serving its original purpose? Are we conserving any energy?

DECA Club Has Meeting

by Pam Vinson
Wednesday, January 24, DECA met during Orientation in the cafeteria. The meeting was called to order and the roll was called.

Mr. Gist discussed transportation to and from Area Contest to be held in Wichita Falls, Lubbock schools have invited the Muleshoe DECA students to travel with them on a Greyhound bus. Although this would be relatively cheaper, Muleshoe would not be able to take as many students. The other possibility would be to take a Muleshoe school bus. Mr. Gist said he would let us know more about the situation next week.

Pep Rally

January 29, there will be a Pep Rally held in the high school gym. Homecoming Royalty will be introduced, as well as the basketball teams. Freshmen and Junior Varsity Cheerleaders will also be featured. Everyone is invited to join in the yells. Back The Mules! Beat Levelland!

Student Council Has Meeting

Student Council held their regular Monday morning meeting, January 21. The meeting was called to order by president Steve Block. Numerous items were discussed, and it was voted not to run for state Parliamentarian, so the Student Council could put more concentration into the presidency of area V; however, further discussion will be carried on at the next meeting concerning the matter. Plans are being made concerning the movie to be sponsored by the Student Council.

It was voted to congratulate Mr. Moore for the fine performance the Speech department presented. The Student Council is very proud of Mr. Moore and his hard work. The next meeting will be Jan-

Bruns, Pena Named Class Favorites

The Sophomore Class met Tuesday, January 22, 1974, in the auditorium.

The main purpose of the meeting was to elect Class Favorites. Favorites elected were Jana Bruns and Dick Pena. Congratulations!

After President Tommy St. Clair adjourned the meeting, the Class Officers had pictures taken for the annual.

FTA Plans Activities

FTA met Wednesday, January 23, in Room 14. Among items discussed were the tea, sponsored by the Delta Kappa Gamma, held on Wednesday afternoon. Members were reminded that they get points for attending.

Kelly St. Clair told everyone to turn in their point lists to qualify for State Convention. Names of Juniors and Seniors who have not yet taught were taken. These students will be teaching in February and April. FTA will sponsor a mixed volleyball tournament between the Junior High and High School faculties on February 15. Referees and a scorekeeper were chosen.

The meeting closed as Jana Oyler took candid snapshots of the members.

It's a neat trick if you can keep your Christmas spirit alive through January 1st.

DKG Honors Future Teachers

FTA members were honored with a tea on Wednesday, January 23, in the Wilson Witherspoon home. Sixteen FTA members and the sponsors, Mr. Moore, attended and were served a variety of cookies, hors d'oeuvres and breads with coffee or hot cider. Administrators attending included Milton Oyler, Bill Taylor, Elizabeth Watson, Neal Dillman, and Tom Jinks.

The tea is an annual event hosted by the Delta Kappa Gamma. This teachers' organization takes an active interest in the future careers of all FTA members.

This past week, the Mules Varsity basketball team got a little extra practice time in as their game against Tahoka was cancelled.

Friday night, the Mules played Dumas here. Both teams brought identical 1-2 marks into the game. The outcome of the contest had no bearing on the first half district crown, but the winner will probably have more momentum going into the second half.

Canyon has shown that it is the team to beat as the Eagles have clinched the first half crown and will now be gunning for the outright district championship. All of the teams, however, are capable of stopping Canyon. The battle for the district crown will be a tough one, and the Mules will probably be in the thick of things.

Jana Oyler Best of MHS

This week Tuespians Troup 714 chose Jana Oyler as Best of MHS.

On Wall Street

By Bob Hill
Lentz, Newton & Co.

Several significant developments have occurred since the Mideast oil embargo was imposed.

1. The price of gold has soared to almost \$140 per ounce. This is because the Arab oil-producing states will have additional billions of foreign currency and dollars resulting from the doubling of the price of Mideastern crude. Not only do the Arabs have a tremendous fondness for gold, but the oil embargo will continue to disrupt foreign currency markets, which in turn drives more foreign investors into gold.

2. The dollar has strengthened substantially in world currency markets due primarily to the U.S. being the least affected of any of the major countries by the oil embargo. We have

the least dependence on foreign oil and our balance of payments (what we owe other countries compared to what they owe us) will suffer the least.

3. Commodity prices are strengthening as a result of businesses and private investors accumulating (storing up) those commodities in anticipation of higher prices for them later on.

We fear the unknown. For the Average U.S. taxpayer, the world of international finance is mysterious, hard to understand and really not all that important—until now, that is. Now, with the oil embargo, we are suddenly conscious of the fact that our economy is directly affected by the economies of other nations. This awareness creates a volatile combination of fears.

Fear One, The fear that a worldwide depression beginning in Europe and Japan, triggered by the oil embargo, would result in a reduced worldwide demand for our products and contribute to U.S. unemployment. Furthermore, this would have an unpleasant effect on the overseas earnings of the

U.S. multi-national corporations. Fear Two, The fear that the worldwide oil shortage dooms the industrialized countries of the world to perpetual balance of payments deficits (we owe them more than they owe us).

Predictions of a severe recession or depression in Europe and Japan are not based on fact, but rather on emotion. Both of the respective economies were expected to experience a significant slowdown in 1974. The oil embargo will speed the slowdown and possibly aggravate the problem of inflation both places. However, Japan and Europe, with the exception of England, should achieve positive growth after 1974, but at a slower rate.

A sustained balance of payments deficit assumes that the oil shortage will continue indefinitely and that the price of oil will continue to rise. Neither of these things will happen. The oil shortage will go the way of all shortages. The pres-

ent price of oil will stimulate further exploration and production, thereby increasing supply, and the present price will also discourage demand by enough to virtually eliminate the shortage that now exists.

The oil-producing countries fall into two groups. One group is composed of countries with large populations, low income levels and plenty of places to spend their oil income on improving their standard of living. The other group is composed of countries with small populations and few places to spend the huge amounts of foreign currencies received from the sale of their oil. This second group is the one with the problem of what to do with all the money. The bulk of it will wind up in the U.S. We are the only nation with the abundant investment opportunities and sufficiently broad securities markets which this tremendous quantity of funds must seek. Another vital fact is the full disclosure laws of the U.S., which require pub-

lically owned corporations in this country to make regular reports of their operations to their shareholders and to disclose their financial condition periodically. This is a major plus factor to any investor, particularly the Arab countries.

The necessity for these Arab countries to invest their income from the sale of oil will continue to strengthen the dollar. The stronger the dollar becomes, the more attractive it is to hold dollar assets. The dollar will be one of the strongest cur-

rencies in the world and U.S. financial assets will have appeal not only to the Arabs but to investors worldwide.

Democrats call for a full inquiry on Nixon.
