PROFITABLE DAIRY FIELD

The opinion expressed by Ed C Lasater to a reporter for The Express that no other section of the country is superior to Southwest Texas as a field for profitable dairying is corroborated by the experiences of many dairymen in this part of the State and by figures compiled regarding the dairy business. The climatic conditions here are more favorable for the keeping of milk cows and for getting the best results from them, and the expense of feeding and sheltering is considerably less than in most other parts of the

Despite this, however, and in the face of the fact that butter can be made in Southwest Texas more economically than in the States where the greater part of the commercial product comes from, comparatively little interest has been taken in this very important industry. Mr. Lasater has a very successful creamery at Falfurrias and two or three other similar enterprises exist on smaller scale, but nothing like the they radiate. The fight started about two o'clock Saturday afternoon on Eighth Street in front of the Higgonbotham-Currie - Williams Co. store and ended a few minutes lated in the Armstrong tailor shop on the opposite side of the street. Bess Payne, who has the reputation of being the boss of the kitchen when it comes to handling those of her race, was coming down Eighth Street when she met Zelma Merrit, and after exchanging a few words that would not sound well in print, they locked horns and for a few minutes the air was filled with kinky hair rags and all those other things that accompany a "niger" fight. A running battle between the two colored damsels followed with first one on the top and then the other, and in less time than it takes to tell it about three-fourth of the Saturday evening crowd in town had gathered on the scene and was seeing the thing well done. By the time they reached the Armstrong tailor shop, nearly a half block from where the fight started, Marshal McKey appeared

### **RUNNELS COUNTY** FARMERS FEED BILL

Texas Spends Eleven Million Annually for Feedstuffs. \$48,-389 Spent by Farmers in This County.

The farmers of Texas do not aise enough cereals and forage crops for their own farm animals. They expend, according to a recent report issued by the Federal Department of Commerce and Labor, \$10,800,000 annually for feed stuff. The official figures show that twenty-seven per cent of the farmers buy feed.

Peter Radford, president of the Farmers' Union, in discussing the subject, said: "A farmer should, as a rule, raise his own feed. While cotton is our money crop and the moisture requirements of cotton and cereals are in a measure antagonistic and nature usually favors cotton, yet a farmer should plant enough feed to take his stock through the season.

The farmers of Runnels county expend \$48,389 annually for feedstuffs. 630 of the farmers of this county report purchases of feedstuffs and the annual expenditure per farm reporting is \$77. By proper diversification of crops this money can be kept at home.

Happy the girl, or woman, who has never suffered from any of the diseases of womanhood! Or, if she has been a sufferer, happy is she if she has learned of the wonderful benefits of Cardui, the woman's tonic!

Cardui is a gentle, tonic remedy, for women's ailments. It is a natural medicine—safe, harmless, purely vegetable. It has been in successful use for more than 50 years. It has cured thousands. It should do the same for you.

### oman's Tonic

Mrs. Mary Neely, of Denver, Tenn., says, "I think there is no tonic on earth, as good as Cardui. I used it with the very best results. I had backache and nearly everything a woman could suffer with, until I took Cardui. Now, I feel better than I have for two years. I shall always recommend Cardui to other suffering women. I can't praise it too highly. As a medicine for weak, tired, worn-out women, Cardui is safe and reliable. Try it, today.
