Behold The Man!

LAST JANUARY a man in Holland served to the high court of the new nation of Israel...

Verdict afterwards BESIDES the informal hearing before the ex-high priest Annas, there was the formal trial before the High Priest Caiaphas.

You might as well expect a pack of wolves, stuffed and ready for winter, to be dignified and honorable with a sheep in their circle.

If there had been any hope that they might change, Jesus would not have used such words. So he had made up their minds: He must die. Now was their hour, while the city slept.

That Fox? FLY CAIPHAS was a wolf, Herod was a fox. It was Jesus' nickname for him.

**Culls Add To Silage—
Brome Silage Preferred**

Cull watermelons added when silage crops are run thru the cutter on the Henry Polson farm in McIntosh county, Oklahoma, supply some of the water that Polson formerly added to his mixture of sorgho and cowpeas, and make a good addition to the silage.

James Montavon and son of De Kalb county, Ill., believe that alfalfa brome silage is a better-balanced roughage than corn silage; when the Montavons switched from corn silage to grass silage several years ago, milk fever cases were eliminated and their Holstein milk became so yellow customers asked if it was Jersey milk.

**America Named By
German Professor**

The western hemisphere was named 'America' by a german professor—Martin Waldseemuller—who wrote the introduction to a sixteenth century edition of Ptolemy's Geography which was prepared by a small french colony in the Vosges mountains.

Only the small part of the new world which Amerigo Vesputius had seen from his ship was originally named in his honor; but when exploration revealed the geography of the hemisphere—linking the discoveries of Lief, Columbus, Henry Cabot, Vesputius, etc.—the word 'America' was well on its way to becoming the by-word applied to the entire mainland from Labrador to Patagonia.

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove stone acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pain, headache, dizziness, getting up earlier, eye pain, swelling. Sometimes frequent and scanty urination with burning and itching is another sign that something is wrong with the kidneys or bladder.
