God's Signature

Lesson for March 13, 1949

IN A STRANGE city you may suddenly need to be identified. Some suspicious clerk wants to know if your signature is genuine. It is a fair challenge, for too many liars are in circulation. Jesus himself has to furnish identification. No less a person than his old friend John the Baptist has a grown uneasy. "Are you the one we are looking for he inquired, "or shall we pr. Foreman look for someone else?" Jesus' answer to John was not to discuss the theology of the Incarnation, or anything of that sort. He just went about his usual day's work.

In the course of that day he cured a good many sick people, and preached to some very poor people. "Now go back," he said, "go back and tell John what you have seen and heard." What those men saw that day was what Jesus at another time called the "finger of God," the genuine divine signature.

Jesus wrote no book, no letters; even he wrote in action, and his acts were his writing. It is true, his healings were what we call miracles, but Jesus did not even mention that feature.

What he asked John to notice was simply this: the blind see, the lame walk; lepers are cured, the deaf hear, the dead are raised, and (as a climax) the poor hear good news.

Not By Bread Alone THE EXPRESSION, "needy people," nowadays suggests people Jesus helped such persons; but Jesus knew that man's needs go beyond well-cared-for bodies. There was the poor man from the graveyard, for example--he was happy enough. He didn't want clothes, and he was strong enough to steal all the food he could eat. All he wanted, in fact, was to be let alone. But Jesus knew that what he needed above all was a sane mind, a mind no longer run over and trampled by a legion of devils.

When Jesus met though with him he was clothed, but that was not the best part of it. He was in his right mind. So God's signature is not only written in a sound body, it is in the sound mind. Again, at Jericho when Jesus invited himself to dinner with the pint-sized tyroon Zacchaeus, Jesus did not just for the meal. He went because he knew that Zacchaeus needed something, Jericho needed something, too, something only Zacchaeus could give.

We do know that after dinner Zacchaeus was a changed man. He was going to give back every dishonest penny, with interest; and since he could not locate every one he had cheated, he was going to give away half of his holdings for the benefit of the poor.

What Jericho needed was a new administration, any honest one; they needed soul clearance; and Zacchaeus was going to give it to them. But first of all Zacchaeus had needed a new heart.

We too ARE AROUND us is a troubled AROUND us. Some men, seeing it, infer there is no God. Others conclude that if there is one, he must be bad or weak. The truth is that the signature of God is not to be found in the evil and the confusion of the world. It is to be seen wherever freedom is standing against slavery, wherever truth is pushing back ignorance, where diseased bodies are being healed, where sanity replaces madness. More people would believe in God if they could see more of the handwriting of God. Do you want to help? There will be no allotment for the 1949 cotton crop, but probably will be one on the 1950 crop, according to best information from observers in Washington.

In order to stay in cotton production after 1949 it is essential that you plant adequate acreage in 1949!

If the allotment plan now being promoted is adopted and applied in 1950 it will greatly reduce acreage below the 1948 level. Unless Texas' acreage is reasonably large in 1949 cotton in Texas may be drastically reduced in 1950. This could mean a great loss in income for Texas farmers and everyone who has anything to do with cotton.

**Your BEST Cash Crop!**

Cotton has always been the farmers safest and best bet for a cash crop if he farms in a cotton country. Be sure to plant enough cotton this year to establish a good cotton allotment.

**Peanut Seed**

We are offering for sale again this season the uniformly graded peanut seed which proved so successful last season. We have selected the best peanuts we purchased in Texas and Oklahoma and stored them separately for planting seed. These are free from damage and have a high sound Mature Kernel content. They will be carefully shelled, graded and hand picked. Your choice of Arasan, Ceresan or Spergon treatment. You are invited to see our stock of peanuts before they are shelled. The Oklahoma peanuts made a higher yield per acre than Texas peanuts and averaged a higher SMK content. You may prefer them for seed.

We are now booking seed peanuts at 20 cents per pound. A small deposit will protect you from any increase in price. You may call at our office or Jay Grocery and Market.
