## Polio Campaign Funds Exceed 1948 Totals

With less than two weeks remaining for the 1949 March of Dimes campaign, Eastland County has thus far increased their contributions to almost \$300 over that of last year, according to figures released by County Director, Joe Collins.

To date \$2,476.96 has been collected as compared to \$2,195.29 for 1948. Collins expects close to \$5,000 as the final figures when the drive closes, February 14. Bad weather necessitated a two week extension of the campaign.

Eastland leads the county in total gains registered over last year. Donations in Eastland have reached a total of \$880.62, an increase of over \$600. Collins predicts the final Eastland amount will reach \$1200.

Ranger officials anticipate a \$1,000 total when the deadline is reached and have thus far collected \$500.

Totals from other communities are as follows: Cisco, \$333; Olden, \$47.86; Rising Star, \$15.48; Gorman, \$200 and Carbon, \$65.

Cisco got off to a late start in the campaign but officials there have pledged \$1900 which they expect to be raised by February 14.

## Vocational News

A meeting will be held Monday night at Eastland in the District Court room which will be of interest to the dairymen of Eastland County and any others who are interested in this program. Mr. Smolder of the North Texas Artificial Breeding Firm of Dallas will be the principal speaker.

Doughnuts and coffee will be served.

The Eastland County Dairy Association has sent in for a charter and they now have two technicians. As soon as the charter is received from Austin the association will be ready to start their artificial insemination program. Those interested should contact Mr. Spence, L. R. Higginbottom, Harry Crow or Bernard Campbell

**Teaching Religion**  
 Lesson for February 6, 1949

SOME PEOPLE, strange to say, don't believe in Sunday schools. Most North American Protestants do, because Jesus did. The word may not be found in the New Testament, but the thing is there. If Jesus did not believe that religion could be taught, then he was a guilty of wasting much of his healing people time, for he worked at teaching in season and out of season. He was a product of the Dr. Foreman Sunday school, in a sense. During his childhood he would go to the synagogue school week days and especially on Sabbaths; we know that by the time he was grown it was his "custom" to attend synagogue services.

If Christians today are faithful to Christ's example, we will keep at the job of teaching our religion to every child within our reach.

**Body and Soul**  
 READERS of the gospels will note that when Jesus went home from the synagogue on the Sabbath, his day's work was not done. He would spend hours, sometimes till far into the night, healing people brought to him for cure. Jesus ministered to mind and soul. Jesus was interested in personalities, whole people, not half-people. Our minds have to be fed, but we live in bodies, and bodies have no life to do with personalities. Jesus was not content with teaching sick people; he made sick people well. So the church today, if it is faithful to Christ's principles, will consider people as complete personalities.

**The Common People**  
 WE FIND that Jesus did not insist on university audiences. Indeed, he never spoke to a university audience. There were great universities in those days, but it was not necessary for any one to be a graduate of one of them in order to enter Jesus' school, or to understand what he taught. He taught the plain people plainly. Again the church of today takes a leaf out of Jesus' book. Most of our Sunday schools, for instance, have graded lessons; the little tots do not study from the same quarterlies grown-ups use.

In all our teachings we try to use the pupil's language and to put our Christian ideas in the thoughts that the pupils can understand.

At the best seminaries, young ministers-to-be are carefully taught how to put the great Christian doctrines in ways that the simplest people can understand.

**God and Education**  
 JESUS did not try to teach people carpentry, or arithmetic, or geography. No doubt he could have done so. But he had something more important on his mind, something which he alone could teach. He taught religion, or in other words he taught the truth about God, and about the right relations between God and man.

**Religion On Five Feet**  
 JESUS did more than talk. He lived. His whole life and character were saying more loudly and plainly what his words said.

So the Christian church today, when it is faithful to Christ, must translate into actual living the faith she teaches in Sunday school lessons, in tracts, and books and sermons.

What we do, as Christians, speaks louder to us than we say. Every Sunday school teacher needs to remember that what is said on Sunday is important, but what the teacher does on Monday is more impressive by far. The reason why Jesus was more effective than John the Baptist was that John, after all, was a Voice, while Jesus was a Friend.

**Household Hints**  
 When you cut ribbon off a roll to make hair bows, use pinking shears to avoid frayed ends.

You can remove lint from dark woolen clothing by going over it with a rubber sponge dampened in water then wrung out so it's almost dry.

If fresh asparagus is peeled before cooking, the peelings plus the ends of the asparagus that are cut off may be used to make a cream soup.

In baking with brown sugar all lumps should be removed from the sugar before measuring. This may be done with a rolling pin. The sugar should then be packed tightly into the measuring cup.

To clean pearl handled knives, rub vigorously with fine sand and then wipe well with a chamois to restore the luster.

Marbled or grained patterns or mosaic designs are a good choice for kitchen linoleum since they are easier to keep looking clean than a plain color.

**The Farmer Won**  
A close-fisted farmer supplied to a local house three dozen eggs every week. One week he found that he had accidentally sent one egg too many. Determined not to lose on the deal, he called at the house. "Mr. Smith," he said, "I sent along one egg over the three dozen this week."  
"Surely you're not going to worry over a little thing like that," Mr. Smith said. "Let's settle it with a drink. What will you have?"  
"Eggnog," was the farmer's reply.

**Dilemma**  
"Smith is a man who takes off his hat to nobody."  
"Then how does he get his hair cut?"

## Sunshine, Cleanliness Help Kill Diseases

Grass crops make ideal sanitary floors for the production and feeding of livestock because in order to maintain a good grass crop there must be plenty of sunshine, nature's own and unexcelled disease-germ killer.

Veterinarians have been very successful in preventing swine erysipelas with the use of culture and serum—and in some cases, with serum alone. But where hogs are kept in muddy yards and unclean buildings, there is possibility of a recurrence of the disease in spite of vaccination.

**Mr Farmer!**

Have you bought your Fertilizer yet? If not, it might pay you to do so right away because some of the materials that go into Fertilizer are very scarce according to the State Fertilizer Control Board. They are advising farmers to buy at once.

We have plenty of well cured Fertilizer now and have plenty of room to store fifteen or twenty acres or more and will keep until needed if it is bought now. Prices may advance later. See us at once.

We appreciate your business
