Ballinger First City Over Top Salvation Army Drive

Ballinger, Texas:

Congratulations. You are the first city to report over the top. Many Thanks. How about the balance of the county? We are over three states.

BEN E. KEITH.

CHICKEN SHOW

Farm Agent Eaton is eager for the poultry show proposition to be put over, and the matter will be brought up for discussion at the meeting of the board of directors of the Young Men's Business League next Monday night.

Poultry growers are interested, and a fine collection of poultry could be gathered here without much expense, and the industry which means so much to this county could be given encouragement.

A good premium list will be offered if the show is put on and counties will be brought here. The big show will probably be goods. the Waco Cotton Palace exhibi-

Locks are no bars to burglars with determination to steal. The lock on the garage door of Walter Middleton was pried off Satur-1 (size 40) brown satin dress, Mr. Middleton recently purchesed day night and a new Ford which is now in the hands of someone else, and the officers are trying to make a \$50 reward by recovering

Mr. Middleton used the car Saturday night, and used caution against being robbed. He not 2 Negligees-1 hand painted only locked the door, but he removed the key from the Ford, which was a self starter. The fact that the key was gone and the door locked did not deter the thief or thieves.

Officers got on the job early Sunday morning and before there was any travel on the roads, the car was tracked considerable distance out the Winters road. The tracks showed that the driver was not familiar with the roads. He stopped at the forks of the road and turned around after starting out one road and returning, traveled the other road.

Mr. Middleton had sold the car, and expected to deliver it Monday. He had not accepted payment for the car and the loss of a new Ford is keenly felt.

TRADE MARK

Farm Tractor

The Fordson cuts the cost of preparing land almost to half of what it cost with horses. But even more important is the fact that the Fordson saves from thirty to fifty percent of the former's time. And time saved - getting fields in shape to plant in the proper season; getting things done when they should be done-means money to the farmer. Besides it helps greatly in solving the labor problem.

As ever, the machine way is proving more efficient, faster, easier than the old hand way. In the factory, the machine increases production, saves labor-produces more at less cost. And that is what the Fordson does on the farm. The Fordson way is the machine way of farming. Besides it helps the labor problem.

The Fordson's first cost is low; and the after or operating cost is low. It is a compact, easily handled tractor, backed by the greatest tractor service organization in the

We are Fordson dealers. Not only do we sell Fordson tractors, but we carry a stock of Fordson parts and employ Fordson mechanics to help the farmers get the best results from the Fordson. Let us demonstrate the Fordson on your

"Faithfully yours,

Doctor Cupid

That love sometimes cures disease is a fact that has been called to the attention of the public by a prominent physician. Love is not, however, the cure for all women. Many a woman is nervous and irritable, feels dragged down and worn out for no reason that she can think of.

Doctor Pierce's Favorite Prescription gives new life and new strength to weak, worn-out, run-down women. "Favorite Prescription" makes weak women strong and sick women well. It is now sold by all druggists in the United States in tablets as well as liquid form.

EVANT, TEXAS .- "I have used Doctor Pierce's Favorite Prescription. I was run-down and suffered from functional disturbances but 'Favorite Prescription' regulated me. I was so nervous I was miserable and could not sleep at night when I began to use the 'Prescription. I had not taken a whole bottle until I could sleep well and got as stout as I ever was. I keep a bottle of 'Prescription' on hand and when I work and get tired I take a dose and it strengthens my nerves." - MRS. GEORGIA DEMERIS BERRY

The effect upon general business is obvious.

"The only explanation for the break in the market that has been given is that buyers are holding off while farmers are throwing their cotton on the market. Between 70 per cent and 80 per cent of the crop is being offered for sale as it is ginned. This is in excess of the current requirements of mills and evidently they are not buying stocks for next spring and summer. The situation is analogous to what would happen in the grocery trade if merchants insisted on selling farmers six months or a year's supply of groceries at one time, instead of month by month, and cutting the price until sales were made. In the latter instance the farmers could get cheap groceries just as the mills are now getting cheap cotton.

"I am convinced that farmers know it is ruinous to dump their cotton on the market as they are doing now-every one I have talked with knows it, and I am, therefore compelled to believe

The Very Best Butter and Eggs We always have a fresh supply of creamery and country butter. Without butter what would the meal be? A most uninteresting performance, surely. We pride ourselves on our eggs, too. They come to us fresh and reach you in the best of condition, well cared for all along the line. In keeping with these staples, our other dairy products are worthy of your most critical taste. We keep most kinds of cheese packaged and in bulk, and each is the best of its class. This superior quality is yours at no greater price than you would pay for inferior products.

FAMILY REUNION PICKS COTTON

A family reunion at the home of Mr. and Mrs. L. F. Gressett was converted into a cotton picking contest this week, and as a result Mr. Gressett is ahead the ost of picking one bale of cot-

Mr. Gressett is the pioneer blacksmith of this city. He has made his living and raised a arge family hammering red hot rons and tacking slippers on horse and mule hoofs for the past thirty-odd years, but this year be as a cotton patch as a side line, and like all cotton growers, he needed pickers. :

All the children pitched in and picked out a bale of cotton for their father Wednesday, but before picking they agreed to a little contest in which each one out one dollar in a "pot" with the understanding that the one icking the most cotton got the

At the close of the day and when the weights were figured ip, Mrs. Will Gressett got the pot," and did that despite the act that rocks were found in the bottom of Will's sack causing him to be docked for penalty.

Another part of the wager in he cotton picking contest was that the one coming up with the lowest weights at the close of the day was to entertain the other members of the family. Mrs. Tom Osteen won that honor, and the family reunion was moved to the Osteen home Wednesday night where they enjoyed the evening in frolic and refreshments until the midnight train when they all went to the train to meet Mrs. Earl Pickett who came in from Temple to join the reunion. Mrs. Pickett was "greeted" at the station by about fifteen members of the family, much to her surprise, as she had not expected so large welcome committee.

ily have been together.

WHAT you lose thru baking failure must be added to baking costs—it has to be paid for.

Calumet Baking Powder will save you all of that. Because when you use it—there are no failures—no losses. Every baking is sweet and palatable—and stays moist, tender and delicious to the last tasty bite.

That's a big saving—but that isn't all. You save when

It is reasonable in cost and possesses more than the ordinary leavening strength. You pay less and use less. You get the most in purity, dependability and whole-

In every way — it is the best way to keep down bak-ing costs. That's what has made it the world's biggest selling baking powder — has kept it the favorite of millions of housewives for more than thirty years.

Pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calume

Recipe cup of butter, cups granucups flour, 1 cup water, 2 level met Baking Powder, 1 tea-spoon lemon, regular way.

FATHER KILLS SON IN **QUARREL OVER CROP**

At the request of the young man's mother, word was sent to the jail asking the father if he wished to see the corpse before it was shipped away for burial. "Yes," he said, "I would like to see it." The truck was driven around near the jail and Sheriff Perkins brought the father out and the casket was opened. The father looked at the remains only a few seconds. then walked away, with a stoica! expression on his face and without comment.

W. H. Martin is in the Ballinger jail charged with murdering his own son, W. T., or Travis, Martin, at the family home seven miles South of Paint Rock, shortly after noon Wednesday. The man was placed under arrest shortly after the killing and brought to Ballinger late Wednesday afternoon by Sheriff Kemp of Concho county.

Martin shot his son four times with a pistol, following a quarrel at the dinner table. The first shot struck the young man in the hand, the second glanced the shoulder, and the other two struck vital parts causing almost instant death.

The Bank Behind the Farmer

The farmer who is without the backing and support of a strong bank, is treading up on dangerous ground.

The business of farming is, at times, precarious; and no farmer can afford to be without the protection that is afforded by a friendly connection with a helpful bank.

Open an account with us; handle your business through this bank, and establish the credit you may later need.

EVER BILIOUS?

Charleston, Miss.—Mrs. R. V. Heins, of this place, says: "I have never had to use very much medicine, because if I felt headache, dizziness, or colds, bad taste in the mouth, which comes from torpid liver, I would take a dose or more of Black-Draught, and it would straighten me out and make me feel as good as new. We have used in our family for years

THEDFORD'S

BLACK-DRAUG

and it certainly is the best liver medicine I ever saw. It has not only saved me money, it has helped keep my system in shape, and has never weakened me as so many physics do. I recommend it to my friends and am glad to do so." Black-Draught is the old, reliable liver medicine which you have doubtless heard much about. When you feel badly all over, stomach not right, bad taste in your mouth, bilious, or have a headache, try Thedford's Black-Draught. At all Druggists.

Losing some-turn Saturday. times in the first fall, we have always come again with a better Try Want Ad for results.

THE BANNER-LEDGER toe-hold, and we are here today to stand up for everything that a good newspaper should represent.

The old papers on file dating back for forty years, show that! The Banner-Leader and the different men have directed its course in life from time to time. Most of them have passed over the river. The paper today is who put their energy and life's work into it. It will continue to battle for the best interests of humanity and for the best interests of those things which make it possible for humanity to move on in the world.

Without boasting, we feel that the business interests of the city have cause to be pleased with the status of the newspaper field here today. In times gone by there were as many as three papers struggling here for existence at one time. This weakened the service of all and made the separate service of all unsatisfactory to the public. Today the one paper 254,749, or 11.9 per cent. serves all impartially and fairly.

ALABAMA NEGROES PUT ON GOOD SHOW

As an example of how the good must sometimes suffer for the 857,049, or 30.5 per cent. bad was demonstrated here last Ohio, 5,759,368, increase 992, Saturday night. Cotton Producer Attention

You are now facing a CRISIS in prices, which means ruin to you, unless it is met with GOOD JUDG EMENT. PROMPT ACTION, and FIRM DETERMINATION.

You must appeal to SOUND REASON for JUSTICE and your own SELF-PROTECTION.

By representative bodies of Farmers, the cost of production was recently ascertaine I for Texas, at Austin, to be 46 cents. For the South at Montgomery, Alabama, 40 cents. Even if the production promises slightly greater, still, the cost of production for the entire South would be at least 35 cents. Even in counties with fair crops like ours the cost of production is hardly less than 25 cents.

At the Dallas meeting September 1st, the officials of the Federal Reserve Bank, and of the largest banks of this state, unquestionably expressed themselves, that the sale of this cotton crop below 30 cents would be sacrificing it below the cost of production, and would cause business depression, bordering on a great calamity to the SOUTH.

Now, what to do? During this beautiful weather pick all you can and store it at home under selter in the seed, before ginning, so as not to over-crowd the gins. Do not sell a bale until the price is right and justifies you to sell. This Bank will stand by its customers to the extent of its ability.

Member Federal Reserve System

An Individual Service

The current for your electric light comes from the same wires that serve many others besides you; water or gas can be furnished you from the same mains that also supply many other customers-

But the telephone, with few exceptions, is an individual service-

The telephone company must furnish and maintain a separate circuit all the way from the telephone exchange to the interior of your home or place of business; must furnish and maintain your telephone instrument and wiring; must maintain a special, separate investment for you alone!

Remember that, Mr. Subscriber, when you consider the cost of installing and maintaining your telephone-and the rate that must be charged you to make that individual service possible.

EIGHTH STREET Phone 25.

YARD RECEIPTS DOUBLE GINNING

The four local gins have tied out about 1,800 bales of cotton for the present season, while the yard and compress receipts amount to about 2,800 each. These figures were compiled up to noon Saturday.

This is a good showing when it will be remembered that the cotton season is unusually late this year. The gins did not begin to run until late in September, and most of them operated only on part time up until the last few days, when cotton began to stack up and now the farmers are appealing to the ginners to put on night shifts and operate day, and night.

Ballinger yard receipts will probably clip around the 20,000 mark this season; possib'y 25,000; while the compress receipts will reach about 85,000 or 90,000. Ballinger gins will turn out in the neighborhood of 15,000 bales. These estimates are made up on acreage basis and cotton condition.

The estimate on the county's crop is variously figured at from 60,000 to 65,000, the to al to depend largely on the weather conditions. The crop will move a great deal faster from now until the bulk of it is out of the field, as pickers are coming in fast.

No Reduction in Price of Oakland

Sensible Six

At this time when the public mind is disturbed by sensationally announced price reductions of automobiles and other merchandise and commodities, we desire to give assurance to those who require Personal Passenger Transportation, such as provided by the Oakland Sensible Six, that we do not anticipate reducing the price of our cars.

Starting with the production of the raw material required and continuing through to the finished product, over 80 per cent of the cost of an Oakland Sensible Six is labor.

Over 80 per cent of the cost of all other automobiles produced in large quantities is labor.

When wages paid to labor are reduced, or when labor produces more per man, then may manufacturers of honestly priced automobiles legitimately consider the reduction of their selling prices.

We have not heard of any instance where automobile workers are receiving lower wages.

If wages may be lowered eventually, we see no immediate trend in that direction.

In the production of so essential a factor in our economic life

as the passenger automobile—increasing as it does the personal efficiency of owners by nearly 57 per cent—we believe the workers whose toil produces the vehicle should be large beneficiaries of the constructive character of their work.

If abnormal demand has been responsible for overenthusiastic expansion and inflated profits in certain instances, the wage earner should not be made to suffer as he must if powerful forces effect lower automobile prices whether or no.

True enough, there have been many instances of inflated prices. There has been profiteering. And true enough, abnormal profits must be eliminated.

And that is what has been going on all around you recently—the price reductions you have witnessed in automobiles and other merchandise are the belated shaking out of the abnormal profits. The normal profits are still there.

Manufacturers whose goods have been priced on actual cost to produce, plus normal profit, have no inflated figures with which to appeal to the uninformed public in sensational announcements of "Price Reductions." Prudent, studious buyers will not be misguided by erroneous principles.

Oakland Price Advanced in Five Years, Due to Increased Cost of Labor and Material, Only 27.4

In 1915 Model 32 Oakland Se nsible Six was put on the market at \$795 f. o. b. factory.

Since 1915 the wheelbase of the Sensible Six has been lengthened five inches, its weight increased about four hundred pounds, its horse-power materially increased, its frame made deeper, and in many other ways the car has been enlarged, strengthened, improved and refined.

If the present Model 34-C had been built in 1915, it is more than conservative to say that, based on labor and material costs at that time, we would have been compelled to list it to sell at \$1,095, or more, f. o. b. factory.

We are therefore able to say, also with great conservatism, that the present price of Model 34-C represents an increase, due solely to increased costs of labor and material, of 27.4 per cent. Larger production each year has kept this increase at a low figure.

Compare this increase of other automobiles and with commodities—with the things you buy every day.

Nowhere have we been able to find a standard article of merchandise that has increased as little in selling price as the price of the Oakland Sensible Six.

In event of unexpected reductions in the cost of labor and material that enter into the construction of the Oakland Sensible Six to a point where we may properly and legitimately reduce the list of our cars between October 1st, 1920, and May 1st, 1921, we will refund to every Oakland purchaser who buys within the above mentioned period of time the amount of such reduction.

(This Guarantee does not apply on second hand cars of former models)
