Associated Press Bulletin; 3:18 More Turkish Nationalist troops have drifted into the Chanak zone, and no word has yet been received from Kemal Pasha in answer to the ultimatum giving him forty-eight hours for removal of troops from this area.

It is unofficially forecasted that the Kemalist reply to the allied peace note contains conditions unacceptable to the allies, and that the Nationalists will insist upon the occupation of the Dardanelles for the transporting of troops to Thrace before beginning the peace conference.

LONDON, Sept. 27.—Greece is in the grip of a revolutionary movement. King Constantine is reported to have abdicated, and part of the navy has gone against the government. Several warships manned by the revolutionaries are believed to be advancing on the capital from the Aegean Islands where the revolt originated.

Order for the demobilization of certain troops is said to have caused the mutiny. An officer named Gonatas is leading the insurrection. Central News Agency dispatches from Athens announce that Constantine signed the abdication decree without reservation.

ATHENS, Sept. 27.-King Constantine has accepted the resignation of the Grecian cabinet, which quickly followed the receipt of two ultimatums from the Cruiser Lemnos. The ultimatums demanded the dissolution of the national assembly and the formation of a people's cabinet friendly to the entente.

Your Blood

If it is in abnormal condition, the onger you delay taking a good blood medicine like Hood's Sarsaparilla, the longer it will take and the more difficult it will be for you to get back to "normalcy.

Not only boils, pimples, eruptions but headaches, nervous speils, "all-gone" feelings, indigestion and loss of appetite are readily traced to impure blood. Thousands date getting on the right road to health from the day they began taking Hood's Sarsa parilla. Why not try it?

While searching for stolen auto easings near Wingate Monday the officers captured two negroes with a load of chickens which proved to be stolen fowls. The capture of the chicken thieves was in a way an accident.

Going to an auto in the field where the negroes were picking cotton in search of the stolen casings, the officers found about thirty chickens in the car covered with a wago sheet. Becoming suspicious the officers investigated the finding of the fowls, and as a result one of the negroes "squealed" and made a confession. Common Sense About Eczema and Eruptions!

Here's Something About S. S.S. That You'll Be Glad to Hear.

You might just as well know it right now,—the cause of skin eruptions, pimples, blackheads, boils and so on, is right in the blood. There is no getting away from it. Science has proved t. We prove it. You can prove it.

When the cause of skin troubles and experience is in the blood, it isn't com-

mon sense to simply treat the skin. A bottle of S. S. S. will prove to you what is happening in your blood. S.S. is a scientific blood cleanser,—it drives out the impurities which cause eczema, tetter, rash, pimples, boils, blackheads, blotches and other skin eruptions. When these impurities are driven out, you can't stop several very nice things from happening. Your lips turn naturally rosy. Your eyes sparkle, your complexion clears. It becomes beautiful. Your face looks like that of a presperous, ruddy, well-fed, refined gentleman, or if you are a woman, your complexion becomes the real kind that the whole world so admires. S.S. is also a powerful body-builder, because it builds new and more bloodcells. That's why it fills out sunken cheeks, bony necks, thin limbs, helps regain lost flesh. It costs little to have this happen to you. S. S. S. is soid at all drug stores, in two sizes. The larger size is the more economical. Let S. S. S. Give You An Angelic Skin!

SHOW BIG DECREASE NEW YORK, Sept. 21.—The death rate from all forms of tuberculosis, in the year 1921, reached the remarkably low level of For County Superintendent of 90.7 per 100,000 population. This Public Instruction: information has been obtained by See Henry Knox at Pecan the National Tuberculosis Asso-15-3tw- ciation from the registrars of 45 states in the Union.

In 1921 returns from 40 states showed a death rate of 108 per 100,000. The decline in 1921 is equivalent, according to the association, to a saving of about 18, 000 lives in 1921 over 1920.

The association points out fur ther that since it began its active program in 1905, the tuberculosis death rate has been cut from slightly over 200 to a figure well below 100 per 100,000 population.
