NUMBER 40.

# Father Slays His Daughter and Son-in-Law With a Shot Gun

## \$13 PER CAPITA TO TEST RIGHTS FOR SCHOLASTICS LIQUOR ON SHIPS K. Bradford, Mrs. Chapman's father at 5:30 o'-

being received daily in the office case in the United States courts of the State Department of Edu. will undoubtedly be made if the eation with reference to the probable amount of the per capita aptempts to bring a liquor supply portionment for the support of for its return trip into New York the public schools for the year under seal. This was announced 1923-1924. For the information through reliable sources at the of the public the following esti- customs house here today. mate is made, assuming that the special appropriation of \$2,000,-000 per year is approved, it was 20.—The White Star liner Olymto the same standards of life as this city. announced today by State Supt. pie is making its present trip to prevail for city workers and The tragedy occurred at the

new revenue measures, \$14,055,-

Special appropriation, \$2,000,-

Increase on account of one-half per cent additional oil tax, \$200,-

Gasoline tax, \$750,000.00 Sulphur tax, \$50,000.00

Estimated balance August 31, 1923, \$500,000.00

Total amount available, \$17,555,

Amount set aside for purchase of free text books, \$500,000.00 Balance to be apportioned, \$17,055,567.00.

The total of the scholastic census for the year 1922-23 was 1, 297,000, and we can safely estimate the census for 1923-24 at about 1,300,000. By dividing the total estimated income by the estimated scholastic census we have a quotient of \$13.12, which would seem to justify a per capita of \$13.00.

The amount of income from all sources other than special appropriation and new revenue measures which is \$14,055,56 is taken from the Comptroller's Report, and was for the year 1921-22. It is not probable that the income from the regular sources will be less for the year 1923-24.

There are certain contingencies which must be taken into consideration in making this estimate.

1. It is assumed that the \$2, 000,000 supplemental appropriation will receive the governor's approval.

2. The new tax laws will stand the test of the courts.

3. The new revenue measures must produce one million dollars. 4. The alleged contracts with the text-book companies must be

In the event the state is held liable for the new text-book contracts, it will be necessary to set aside for the purchase of free text books two million dollars instead of one-half million dollars as indicated above which would reduce the per capita apportionment to twelve dollars.

## JAIL SENTENCE FOR WITNESSES

HOUSTON, June 20. - Four Goose Creek men were brought before District Judge Robinson today by the grand jury and threatened with jail sentence on charge of contempt of court if they remained steadfast in their refusal to answer questions propounded to them by the grand jury relative to alleged lawlessness in Goose Creek.

Judge Robinson directed the district attorney to prepare a statement and promising immunity to the men if they would

# SERVICE

There was a time when service in connection with trade was very lightly considered, that time like the ox cart is gone forever. This day and time the service that is offered with each article of merchandise is to be taken into consideration.

The Hardware and Implement business is just a little different from other lines, there is bulk and weight to consider in hardware, and in implements proper erection as well as bulk and weight.

It is not always convenient for the purchaser of hardware or implements to deliver the goods themselves, so to make it convenient for the purchaser and aleviate all responsibility of delivery we have met the situation by putting on a "RED BABY" motor truck. Our customers tell us they are well pleased with this service, it is so convenient for them to call us on the phone and let the "RED BABY" make delivery at their door. On one trip recently we delivered in one neighborhood all to different parties, one refrigerator, one cook stove, one cultivator, one planter and one windmill.

This service costs the customer nothing extra. Watch for our "RED BABY," it will pass your door.

P. S.—We are in favor of good roads, are you?

## WHEAT INDUSTRY IS IN BAD SHAPE

The condition of the wheat market is causing alarm among the wheat growers of the nation and National Wheat Conference has been called for June 19th and 20th at Chicago.

It is claimed that more than ten million men, women and children of the United States are directly interested in the production of wheat, and compared with the cost of production and the purchasing power of the dollar wheat is lower today than in half a cen-

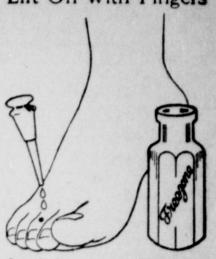

The crippled condition of the wheat industry will have its effect upon other industries and upon he consuming public, and it is for bringing relief to the wheat farmer of the country that the conference has been called.

It is said that the dissatisfied condition of a large portion of conditions being satisfactory upon the fields and farms which support the nation's physical life. A

## This Jury Says:

'It is our verdict that every farmer who raises livestock should provide his animals with comfortable, storm-proof shelter to protect them from the weather, promote their development, and make it possible for them to show maximum returns for their 'board and keep'. "

The jury is right of course. Every practical farmer knows that livestock can be reared most economically and profitably only when properly housed in bad weather. And such shelter pays larger returns now than ever before.

#### Free Farm Building Helps

Our Service Department has actual working plans and cost estimates for a great variety of farm buildings, including barns, sheds, hog houses, poultry houses and other shelters for stock, as well as for implement sheds, garages, and original designs for many moderate-priced homes. The use of these is Absolutely Free to you. Whatever your building needs, comein and talk with us-we will do our best to help you build at lowest cost and to your permanent satisfaction.

## Buy Your Fordson NOW

At this amazingly low price you can't afford to wait another day for your Fordson Tractor.

There is no tractor made that can approach the money value of the Fordson. Nor is there a Tractor made that can do more work for you.

Remember, the very day your Fordson arrives, it is ready for any one of the 101 jobs it can do either as a tractor or a stationary power plant.

The Fordson has proved to the 170,000 owners that it has not only cut the cost of field work 30% to 50% but that it has made substantial savings on every job to which it is put.

Fordson figures are interesting-money-savers, labor-saving, drudgery-saving facts you ought to know. Come in, phone or write today.
