NUI ALAKWING But It Might Be Serious

To Delay Buying Your Cultivator and Planter

THESE GLORIOUS RAINS AND HEAVY SNOW have put the farm lands in the best condition that they have ever been in. Conditions seem to be ideal for the planting of corn, maize, and cotton. With these splendid conditions as they are it will behoove every farmer to consider seriously the condition of his present farm implements. It will pay handsome dividends to have plenty of up-to-date farm machinery this year; labor is going to count very much in the production of this year's crop. Some have been holding off their purchases thinking the price too high. We are fairly well posted on the conditions of the farm machinery market and we are sure prices will be no lower this season. It is not going to be a matter of price so much as being able to get planters and cultivators enough for this season. We have been advised by the factory that if we wish any more cultivators and planters for this season we must get our orders in at once.

THE NEW 4 (McCORMICK-DEERING) CULTIVATOR is creating the greatest sensation of all time in the farming circles. We have numbers of customers who have bought again this year that bought them last year. We have other customers who have as many as three other makes on their farm and say the NEW 4 is the best they ever saw. It will be to your interest to see this NEW 4 Cultivator whether you buy it or not.

Cramping Spells

"FOR MORE THAN A YEAR I had been in a very bad condition," says Mrs. R. E. Kimbrell. of Route 1, Dorchester, Texas. "I suffered with cramping spells which gave me bad pains in my back and sides. Sometimes I would have to catch at something, I would get so suddenly dizzy. ... I had to quit doing my work. I tried many remedies, but none of them seemed to do me any good.

"In April I went up to Arkansas to visit my sister. . . . She said to me, 'Willie, if you are going to take anything, take Cardui. It will really help you.' I came home and told my doctor what she had said and he said I could not take any better tonic, so my husband immediately got me a bottle and I began it. . . . My case was a pretty tough one, I know, so I kept on faithfully. After the fourth bottle, I began to feel very much better, so much so that I was surprised at myself. I have taken six bottles now and I can truly say I feel like a different woman. . . . I feel fine and I owe it all to Cardui, which I took faithfully."

In Ballinger can be found many who believe that their town is great, and who also believe that it can become even greater. This is only evidenced by the moral and financial sup port which the following sub scription list from various individuals and business firms is shown.

"That an opportunity might be given all who would care to be come a member of the league, or in any way contribute to its activities, various committees have been very active in canvassing with a hope that none would! be overlooked, but should your name or firm fail to be represented on this list, you will know if it is your fault, and should it be the fault of a representative of the League, you will do all favor by calling the secretary's attention to same.

"Since January 1, 1924, the Y. M. B. L. has not been collecting on the 1924 budget, other than various individual members who have paid for January, February and March. Beginning at once a representative of the League will call on you for the purpose of collecting on the budget. This one collection will include the three first months of the year, and hereafter only regular monthly collections will be made.

"The individual membership to the Y. M. B. L. at present is 176. Subscriptions from all sources to date are as follows: Individual Membership, \$2,112.
