

The Carbon Messenger

VOLUME 41

CARBON, EASTLAND COUNTY, TEXAS, THURSDAY, JULY 1 1948

NUMBER 24

Local News In Brief

Mr. and Mrs. Emmitt Crossley of New London visited his parents, Mr. and Mrs. M. V. Crossley, this week.

Mr. and Mrs. Starkey Whitehorn of Abilene announce the arrival of a son, John Wayne, June 25.

Mrs. J. H. Hale of Fort Worth is visiting her son, W. F. Hale, and family.

Mr. and Mrs. R. W. Bunton and son of Texas City are spending their vacation with her parents, Mr. and Mrs. Frank Mangum.

Mrs. R. E. Jackson of De Leon and Bennie D. Davis of Monahans visited Mr. and Mrs. J. T. McGregor Tuesday.

Mr. and Mrs. Buck Speer and children attended the funeral of Mrs. Speer's mother, Mrs. Annie McPhail, in DeLeon Monday afternoon. Mrs. McPhail passed away at her home in the Duster community Sunday afternoon at 6 o'clock following a long illness. Among others from here attending the funeral were Mr. and Mrs. Harry Crow, Mmes. Leroy Park, Minnie Traylor, Fannie Dingler, J. N. Powell and Ike Butler.

Mr. and Mrs. Elmer Bethany and son, Joe, and Mrs. Clara Bethany visited Odell Bethany and family of DeLeon last week.

J. C. Tonn and family of Big Spring visited his parents, Mr. and Mrs. J. R. Tonn, this week.

Thurston Bohannon and family of Phoenix, Ariz. visited relatives here this week.

D. D. Williams and family of Throckmorton visited her parents, Mr. and Mrs. A. A. Dover, Sunday.

Mrs. R. V. Gromley of Rising Star visited in the Omer Hogan home last week.

Minor Townsend, who has been employed in Europe for the past two years, is visiting his mother, Mrs. Mamie Townsend.

Mr. and Mrs. Anson Little and family of Kansas, Callen Guy of Ogden, Utah, Marvin Guy and family of Houston and Mr. and Mrs. Roy Camp of Fort Worth are at the bedside of Jim Guy who is seriously ill in the Blackwell Sanitarium.

A S. Jackson and family have returned from Monahans where they visited their son, Leland Jackson, and family.

Mr. and Mrs. Bill Ramsey and son, Terry Lee, of Morenci are visiting their parents, Mr. and Mrs. J. E. Ramsey and Mr. and Mrs. W. M. Medford.

Mr. and Mrs. Hoyle Reed and daughter have returned from a vacation trip to Brownfield where they visited her brother, Jim Jackson, and family and also visited Carlsbad Cavern.

Mr. and Mrs. Elmer Pirtle and Mr. and Mrs. Arlon Pirtle of Odessa visited their mother and grandmother, Mrs. B. F. Clement, and Rev. Clement over the week end.

Joe Putnam has returned from Borger where he has been working.

Mr. and Mrs. Grady Lanier and little grandson of Fort Worth spent Sunday with her sister, Mrs. E. R. Butler, and family. Jack Butler accompanied them home for a visit.

A number of friends and relatives gathered last Sunday in the home of Mr. and Mrs. Lon Palmer to celebrate the triple birthdays of Lon Palmer, Palmer Stokes and Mrs. George Nolan.

Miss Bettye Hale is visiting her room mate, Miss Anna McElligott, of Bells, Texas.

B. W. Patterson Withdraws From Judge's Race

Editors Note: Judge Burnette W. Patterson has announced his withdrawal from the race for judge of the 91st District court and has issued the following statement relative to his withdrawal.

Having announced my withdrawal from the race for district judge, I feel an explanation for my doing so is due the people of this county.

Before becoming a candidate for this office I had a thorough check-up by a Fort Worth Clinic to ascertain if my age and physical condition was such that I could make this race without jeopardizing my health. The report from this clinic to my local physician recites, among other findings . . .

"Physical examination reveals a well developed, well nourished, exceptionally well preserved man of stated age in no acute distress . . . I endorse the judge continuing in active practice and entering the race for judgeship if there is no active campaign involved."

Anticipating that the campaign would not be a strenuous one, I announced my candidacy. An unusually diligent campaign for this office has since developed and it is now apparent that the chances of my being nominated will depend largely on an active and persistent campaign for the next 30 or 60 days. To do this, according to the advice of my physician, my present good health would be jeopardized and it might be seriously and permanently impaired. I regard the hazard to my health too great for me to follow through on these conditions; hence my withdrawal.

The voluntary and gracious manifestations of their loyalty to me and their support of my candidacy for this office by so many of my friends will ever be among the most pleasant memories of my life. For this, as well as for the several political honors accorded me by the people of Eastland County in the past, I am indeed grateful.

Eastland, Texas, June 25, 1948.
Burnette W. Patterson

George Putnam visited in Anson last week end.

Geo. A. Fox, Jr. Expresses Thanks To His Friends

To The Voters And My Good Friends of Eastland County:

I wish at this time to thank the good people of Eastland County for the privilege of serving you as County Treasurer during the years 1947 and 1948. It was my deepest desire to continue serving you, and I fully intended to until Friday, June 18, when I was offered a job that will take me outside more and give me a chance to restore my health. Being in a run down condition, I feel that I owe it to myself to get outside and try to overcome ailments, which as you know was caused by my misfortune in the recent war.

Again thanking you for the privilege of serving you, and I assure you, every friend I have made is indeed a TREASURE.

Your Loyal Servant,
George A. Fox, Jr.

Ike Grisham Seeks Justice of Peace Office

I. T. (Ike) Grisham, who has lived in this precinct for the past 35 years, has announced his candidacy for Justice of Peace of precinct 5. Mr. Grisham stated that he would endeavor to see each voter personally but, if he should fail, he asks that you take this as a personal solicitation for your vote in the coming election.

Mr. and Mrs. Leak Lane and daughter of Cisco accompanied by his mother, Mrs. Maud Lane of Victoria, Va., spent Sunday with Mr. and Mrs. Elbert Jackson.

Mrs. Amos Eaker of Gorman visited her sister, Mrs. J. T. Clement, Sunday.

Mr. and Mrs. Jim Hogan have returned from a visit with their daughter and family, Mrs. Tommie Nicholas, of Jal, N. M.

New Radio Station In Hamilton Is Now Broadcasting

A new radio station covering this entire trade area is now operating from Hamilton, Texas. The station, KCLW, is operating on a clear channel frequency of 960 kilocycles, meaning 960 on your radio dials, with a power of 250 watts.

The new station is broadcasting many educational and information programs, and the newscasts are compiled from the 24 hour United Press teletype machines installed in the KCLW newrooms. A complete news coverage from International, National, State, Central Texas, and local news is included on the daily news reports.

The staff of the new station includes General Wm. T. Stubblefield as General Manager, Mrs. Alma Yates as Commercial Director, Cynthia Stubblefield, receptionist and secretary; Clarence White, Announcer; Tommy Leeth, Musical director; Carl Knely, Chief Engineer; and Miteh Inabert, radio engineer. The station is owned by Clyde Weatherly of Hamilton.

Card Of Thanks

We wish to thank our friends and neighbors of Carbon for the many kind and thoughtful deeds of kindness rendered during the illness and death of our loved one, Mrs. McPhail. Also for the lovely floral offering. May God bless you all.

Buck Speer and family
Mr. and Mrs. Jim Brewer
Mr. McPhail

Christine Gromley of Rising Star visited the Babe Mitchell family last Friday.

Mr and Mrs. Elmer Bethany and son visited her sister, Mrs. J. H. Campbell, and family of Plainview this week.

Mrs. Blake McClain of DeLeon visited Voy Wilks and family last week.

Airplanes Pollinate Fruit Tree Blossoms

EAST LANSING, MICH.—Blossoms on a fruit tree do not mean that the tree will bear fruit, horticulturists at Michigan state college pointed out. Those blossoms must be fertilized and that requires careful planning by the grower.

To get any fruit, pollen must be transferred from one blossom to another. This is usually done by bees and flying insects, but if the weather is cool and windy, the bees will not fly. Therefore, a number of orchardists, in co-operation with Michigan state college, have been trying artificial pollination. They collect the pollen, ripen it and apply it to the blossoms either by hand, duster or airplane.

But the grower must be sure that the right pollen is available. Some varieties of fruit, which are called self-fertile, can be fertilized only with the pollen of a different variety. In general, this is true of apples, pears, sweet cherries and plums.

To overcome this difficulty, the grower may set out his orchard with varieties that will cross-pollinate each other. If this is not possible, he may graft individual branches on certain trees in the orchard or he may set pairs of blossoms throughout the orchard. It also helps if he provides strong colonies of bees to transfer pollen.

A final consideration, says the horticulturists, is whether the varieties are compatible. For example, Cortland and Bartlett McIntosh apples do not work well together. Neither do Earlley and Seckel pears. Time is another factor in compatibility, for the varieties chosen must have overlapping blooming periods if pollination is to occur.

Juror Sits in on Wrong Case; Causes Mistrial

GREENVILLE, ALA.—An attorney began his closing argument in a manslaughter case but after a few dramatic sentences a juror with a puzzled look stood up.

"Judge, I'm sorry but I don't remember anything about this case," he said.

The roll was called—sure enough, he hadn't sat in on the case.

Circuit Judge A. E. Gamble explained: The evidence was completed and the jury released for the night. One juror had an automobile accident and couldn't return.

The bewildered man, who was on the jury list but not serving on this case, walked in and took a seat in the wrong jury box.

Judge Gamble declared a mistrial.

Inventor Designs Mouse Trap Which Tosses Mice in Air

KANSAS CITY, MO.—Want an air conditioned straw hat equipped with an electric fan?

Or a mouse trap that doesn't kill but flips its victim out of the house?

The inventor is J. W. Haynes, 60-year-old grain broker. His gadgets were on display at a hobby club show—and they attracted the most spectators. Here are some:

A snap bowl that fills automatically as the contents begin to lower, making it easier, Haynes says, to get the last few spoonfuls.

The air conditioned straw hat has vents that allow for removal of warm air and intake of cool air.

The mouse trap has a miniature catapult. When the trap grabs its victim, the catapult is automatically released and the mouse goes flying out the window.

"What will prevent the mouse from coming back?" Haynes was asked.

"No self-respecting mouse is going to come on coming back into a house from which it has been pitched out three or four times," Haynes responded.

CLASSIFIED DEPARTMENT

FARMS AND RANCHES

Company Recovers Valuable Diamond Dust From Its Shop

SCHENECTADY, N. Y.—Diamond dust equal in weight to more than two dozen gems the size of the famous Hope diamond was recovered by the General Electric company in 1947.

General Electric said the dust was worth from \$3 to \$5 a carat. The 444-carat Hope diamond is valued at about two million dollars.

The dust was used to polish dies of tungsten-carbide and can be reused.

A company spokesman said that a simplified process it developed during World War II cut the time of dust recovery from several weeks to a few hours. The process also requires fewer chemicals.

'Bone Bank' Will Aid Operations

New bones as well as blood will be kept in readiness for emergency use with the establishment of a 'bone bank' at the University of Pennsylvania.

Dr. Paul C. Colonna, professor of Orthopedic Surgery at the University's Medical School, says the bone bank will contain a reservoir of bone material to be available at all times for patients needing additional bone or cartilage transplants. It will be operated similarly to the blood banks during World War II.

The bank has been built up and will be maintained with bones coming incidentally from operations. They are preserved by deep-freeze methods.

Good Wool Producers

Wyoming sheep producers carrying on flock improvement work use rams which produce about 4.8 pounds more greasy wool than ewes in the same flock; according to University of Wyoming wool department. Rams in these flocks produced from 1 1/2 to 2 pounds more greasy wool per fleece than the mature ewes, with an average difference of about 4.8 pounds.

First Pullman Car
 In 1858-59, George M. Pullman, a young Chicago contractor, converted two passenger coaches of the Chicago and Alton railroad into sleeping cars at the company's shops in Bloomington, Ill.

British vs. U. S. Workers

British "working party" committees, sent to the United States to do on-the-job studies comparing American factory methods with those of Britain, agree that productivity per American worker exceeds that of his British counterpart in each of the industries surveyed.

Don't use Harsh Laxatives

Keep regular this healthful way—

The juice of a lemon in a glass of water, when taken first thing in the morning, is all that most people need to insure prompt, normal elimination.

No more harsh laxatives that irritate the digestive tract and impair nutrition! Lemon in water is good for you!

Generations of Americans have taken lemons for health—and generations of doctors have recommended them. They are rich in vitamin C, supply valuable amounts of B1 and P. They alkalize, aid digestion.

No too sharp or sour, lemon in water has an refreshing tang—clears the mouth, wakes you up. It's not a purgative—simply helps your system regulate itself. Try it 10 days.

Wire Rural Home With Room to Grow

FARM folks should consider electricity that "extra hired hand" necessary to do a job, according to an article in nationally circulated *Capper's Farmer* by E. H. Smith of Kansas State College.

"Electricity is an efficient worker that operates milking machines, runs ventilating fans, heats hotbeds, supplies power for electric clippers, dries the women's hair, delivers water to the stanchion cups, water tanks, sinks and bathtubs and runs the corn sheller and drill press—all at an amazingly low cost," says the article in the magazine read by 1,250,000 farm families.

"The future holds a hundred other uses for electricity on the farm. So the smart owner, when he puts in electric service, will insist on a wire-

job that will not only take care of present needs but will serve equipment and appliances he is likely to have 5 or 10 years from now.

"Nowhere in the house is the need for convenience outlets so great as in the kitchen. Shown above is a double convenience outlet at counter or working height—an important item from the standpoint of use. Locate the outlets in the work area and have plenty so it will not be necessary to take the electric clock plug to use the electric mixer, coffee maker or waffle irons. Some homemakers like an outlet near the breakfast or dining table for the toaster. Conveniently located outlets should be provided for the home freezer and refrigerator."

EASTLAND

**Pressure Saucepan
Saves Time and Fuel**

IN A comparatively short time the pressure saucepan has won an assured place in farm kitchens, according to Laura Dailey, in an article in *Capper's Farmer*, one of the best known farm magazines.

It saves time and fuel. Many different foods may be prepared in a pressure saucepan. It is particularly good for those which need long cooking. "Pressure cooking," Miss

Dailey says, "preserves food value, color and flavor."

A few rules of operation are important:

- 1.—Never fill the pan more than two-thirds full.
 - 2.—Be sure that steam flows steadily from vent before you close it.
 - 3.—Wait until weight or pressure control jiggles or hisses or cooking indicator is at right position to your directions before you start counting time. Then reduce the heat and let cook for specified time.
 - 4.—Reduce the pressure as each recipe indicates.
 - 5.—After pressure is reduced, be certain to remove the weight, or tilt the pressure control, before removing cover.
- Some farm women are doing a limited amount of canning in their pressure saucepans, Miss Dailey points out.

West Indies Castles

There are several romantic castles in the West Indies, notably the one built by Ponce de Leon in Pagan to Rico, Christophe's castle in Haiti, the buccanniers' castle in St. Thomas, and the Morros of San Juan, Puerto Rico, Santiago de Cuba and Havana.

Automobile Vapors

Water produced by the autos in this country in the form of vapor from the exhaust annually amounts to 17 1/2 billion gallons, or enough to fill a canal 25 feet wide and 8 feet deep running between New York and San Francisco.

Glass Bricks, Chrome Modernize Bathroom

GLASS bricks, black and white tileboard and shiny chrome trimmings can help modernize rooms in even the oldest farm house, points out the Rural Home Editor of Copper's Farmer, one of the best known farm magazines. Here a glass brick wall separates the bathroom from a small powder room adjoining. Plastic curtains repeat the green in the wallpaper. Both bathroom and powder room were part of a remodeling job that

transformed an old-fashioned farm home into an up-to-the-minute residence, giving the family the most modern conveniences.

Lengthening Skirts

If hem creases are a problem when you lengthen skirts this fall, try steam-pressing, advises the Rural Home editor of nationally circulated Copper's Farmer. Press lightweight wool on the wrong side; a thick wool on the right side, she tells the readers of the farm magazine reaching 1,500,000 families.

Freezing Cooked Foods Solves Homemaker's Problems

Mrs. B. F. Lathrop (left), Allen county, Indiana, homemaker, empties frozen soup into the cooker well of her electric range for a quick snack. Meals made up of frozen foods give her extra holidays from the kitchen. Mrs. L. A. Spencer (right), Van Buren county, Michigan, has just unwrapped one of her frozen pies from the reach-in freezer. The other is still in its heavy waxed-paper covering. When baked, these will be a tempting dessert.

FREEZING cooked foods solves many problems for busy farm homemakers, advises Jess Miller, Rural Home expert of nationally circulated Copper's Farmer. "Harvest hands want Sunday dinners every meal," she writes in the farm magazine. "If you're short of help in the kitchen, it's hard feeding them. When farm women hold a 3-day meeting you would like to go, but Dad and the youngsters can't cook for themselves. Every day you wish you could shorten the time spent preparing meals. Freezing

cooked foods solves all these problems, according to representative farm homemakers. Short-notice meals for extra help on the farm are easier to prepare with plenty of baked things in the home freezer, Miss Miller points out. Another big advantage is that home freezers make it possible to get the most out of food at the best stage. Cooking large amounts of foods and freezing them at one time for future meals is a time and labor saver for many farm women. As one homemaker put it: "Cooking has

to be done some time; with a home freezer, work can be distributed to make the farm woman's life a bit easier." The approximate lengths of time farm women have kept cooked foods frozen are: red beans, 2 years, peas, dry shells and pies, 1 month; cookies, 6 months; bread 6 weeks; rolls, 3 months; cakes, 2 months; baked beans, 2 months; left-over meats, 9 months; baked ham, 3 or 4 months; tomato juice, 9 months; soups, 6 months; and wheat cereal, 2 months.

Many British Ships Built For Sale

This year the English, traditionally great shipbuilders, are breaking records for the building of steam and motor merchant vessels for sale abroad.

Tonnage for the first three months of 1948 was 690,000, compared with 670,000 in the last quarter of 1947 and only 100,000 in the first quarter of 1946.

The records of the leading ship-building nations for the first quarter of 1948 were: France, 293,675 tons; Holland, 237,527 tons; British Dominions, 219,375 tons; Denmark, 130,529 tons; United States, 130,529 tons; and Spain, 104,475 tons.

Build It From A Pattern OUTDOOR FIREPLACE IS EASY TO BUILD.

If you want to really enjoy picnic in your own backyard, build this fireplace. The East-Bild method of construction takes all the mystery out of bricklaying. It tells how to dig foundations, size and depth needed, also the best cement mixture to use. Easy to understand, step by step instructions and clear assembly illustrations simplify procedure. All materials can be purchased at any lumber yard. No special tools or previous experience are needed. Send 25c for Pat. No. 78 to East-Bild Pattern Company, Dept. W., Pleasantville, New York.

Smile Awhile

Try This Young mother: My son always has his shirt tails flapping, and your four boys are all dressed so neatly with their shirts tucked in. How do you do it? Neighbor: Oh, it's really very simple. I just take all their shirts and sew an edging of lace around the bottom.

Breezy Reply He: Does the wind bother you? She: No, talk as much as you like.

Elbow Room Needed "Stand up!" shouted the evangelist. "If you want to go to heaven..." Everybody got up but one old man. "Don't you want to go to heaven?" shouted the preacher. "Sure" said the old man, "But I ain't goin' with no excursion. I'm crowded snuff down here."

Cat's Remark "That sweater doesn't do anything for her but make her fitch."

New Synthetic Ingredient Keeps Bread Fresh Longer

Bread, so often called the staff of life, forms part of nearly every meal and is relished by everyone. It has, however, one serious drawback—its tendency to become stale quickly.

This tendency towards quick staling now has been reduced by about one-third, scientists claim, by introduction of a new ingredient. Use of this ingredient, whether in the bakery or the housewife's kitchen, will save many dollars for each American family that throws the stale end of the loaf into the garbage bucket. Incidentally, this discovery also may go a long way towards the grain-saving needed to feed the starving peoples of Europe.

All you do—or all the baker does—is to add a small part of a new, edible fatty substance made of synthetic ethylene oxide, to the regular bread recipe.

If use of the new substance becomes widespread, it is expected to mean that home bakers will need to bake only once or twice a week, that customers need to buy bread only a few times a week instead of daily, that restaurants no longer need to throw out tremendous amounts of bread and that bakeries no longer may need night-shift work to provide fresh bread.

Gems of Thought

The greatest play is your work. If the time doesn't suit you, suit yourself to the time.

Skill and confidence are an unconquered army.

FIRST AID to the AILING HOUSE by Roger C. Whitman

QUESTION: Is it necessary to flush a hot water system every year or two?

ANSWER: At the beginning of the heating season it is advisable to draw off several painfulls of water to flush off some of the accumulation in the boiler, but it is not necessary to drain off the entire heating system. Use a boiler cleaning compound every two or three years.

QUESTION: How can I get grease spots off cement steps?

ANSWER: Cover the spot with a thick layer of dry Portland cement, leaving it on for several days. After the powder is saturated with the oil, scrape it off and repeat several times until no more is absorbed. Later, scrub the place with a strong solution of washing soda.

666 MALARIAL PREPARATION GIVES Malarial Chills & Fever RELIEF

HOUSEHOLD HINTS

Keep the thermos bottle cork fresh and odorless by wrapping it in waxed paper; thus, it does not come in contact with liquids. When removing grease stains, always work from wrong side of the material; this will push the grease out rather than rub it into the fabric.

"It truly is a Laxative Food"

"Anyone troubled with constipation as I was, should try eating KELLOGG'S ALL-BRAN regularly. It has done me so much good!"—Mrs. Henry Wilkowsky, Kensington, Pa. If your diet needs regularity for regular elimination, eat an ounce of KELLOGG'S ALL-BRAN every day in milk—and drink plenty of water. If not satisfied after ten days' trial, send empty carton to Kellogg Co., Battle Creek, Mich., and get DOUBLE YOUR MONEY BACK. Order KELLOGG'S ALL-BRAN today.

IT'S GOOD BUSINESS If it advertises in our paper. When a business doesn't advertise it's usually because it doesn't have much to offer. Our advertisers do.

Revival Meeting

The revival meeting at the Church of Christ starts Friday night, July 2 and will continue for ten days. Bro Austin Varner, who held the meeting last summer, will do the preaching and everyone has a cordial invitation to attend.

Some of the local business firms will be closed Monday, July 5, in observance of Independence Day which falls on Sunday this year. Patrons are asked to supply their needs on Saturday so that the business men may have the day off.
