Mr. and Mrs. Vay Wilks and baby went the week end with her mother in Dublin.

Miss Faye Butler of Lampasas spent the week end with her parents, Mr. and Mrs. Ike Butler. She was accompanied by Mrs. Spence also of Lampasas.

Buck Weston and family moved to their ranch near Post this week where they will make their home. Mr. Weston has been in the farming and ranching business south of town for several years and the many friends of the family regret losing them from our community.

D. W. Patterson For District Judge; Makes Statement

To The People of Eastland County:

In 1944 there existed two judicial districts in Eastland County, the 88th and the 91st. By your favor I served as judge of the 88th court for twelve years, and in 1944 you elected me to serve another term of four years beginning Jan. 1, 1945 and ending Dec. 31, 1948. The 88th court having been abolished by the Legislature in 1945, my services as judge of that court ended Sept. 3 of that year.

The court records show that while judge of the 88th court more than 900 civil cases besides criminal, juvenile delinquency and tax cases in that court were disposed of by trial or dismissal; that during the last years of my service, by assignment I presided as judge in other judicial districts of the state, at Abilene, Anson, Haskell, Aspermont, Archer City, Graham, Breckenridge, Palo Pinto, Stephenville, Brownwood, Coleman, Angleton, Athens, Henderson, Longview, Tyler, McKinney, Dallas and Fort Worth, at least a fifth of which time was given to the Dallas and

C. S. Eldridge Announces For County Judge

C. S. (Clabe) Eldridge of Desdemona announces his candidacy for the office of Judge of Eastland County.

Mr. Eldridge is well known to the citizens of Eastland County having served the county as county school superintendent. He has for the past five years been superintendent of schools at Desdemona, and has been a taxpayer in the county since 1912.

Mr. Eldridge states that he will make a statement to the voters regarding his claims at a later date.

Pat Bullock Asks Consideration And Support Of Voters

To the Voters of the 24th Senatorial District:

Early in January of this year I announced my candidacy for reelection to a second full term in the Texas Senate. I now want to take this opportunity to solicit the votes and influence of the citizens of this district in the July primary.

During my service as your Senator the Lieutenant Governor has seen fit to place me on a number of the most important committees in the Senate.

In addition to my regular assignments, I was appointed on the following special committees: The powerful Senate Investigating

University Bone Bank Reduces Amputation Cases

KANSAS CITY, MO. — A bone "bank" in the medical center at the University of Kansas has prevented several amputations and speeded the recovery of many patients.

It is a system of preserving human bone sections in a deep-freeze unit until needed in surgery and was set up by Dr. James Weaver, head of the department of orthopedics.

Bone sections ranging from tiny fragments to pieces eight inches long and one inch wide are kept in the "bank." No complete bones are preserved.

Dr. Weaver explained that the bone bank does not keep spare arms and legs, since techniques have not been developed to use them, but that the addition of a small bone section frequently enables physicians to save a limb from amputation.

Improperly Knit Fracture The most frequent use of bone-bank "deposits" is in cases of improperly knit fractures, the doctor said. In such cases the faulty bone area is removed by surgery and a section from the bone bank is fitted carefully into the gap.

Dr. Weaver explained that bone-grafting operations have increased in recent years and that many surgeons have performed scores of them successfully. The practice has been to obtain the needed bone sections from other parts of the patient's body—usually the hip or shin—and in many cases this has presented considerable problems.

The bone bank has provided a simple answer to the question of bone supply and physicians at the medical center expect similar refrigerating facilities to be set up by other hospitals. So far, the bank is only three of four in the United States.

Obtained From Operations Bone-bank deposits originally were obtained in the operating rooms at the center. Many types of chest and lung operations require the removal of a rib and these ribs have been placed in the bank if the patient from which they were obtained passed rigid physical tests.

Some types of amputations have yielded bone sections perfect enough for preservation and in one case bone sections have been taken immediately after death.

Written permission was obtained from the survivors of the person who died and the death was the result of an accident. Physicians found these bone sections which were taken under operating conditions, functioned perfectly as graft material. It is hoped to receive an increasing percentage of the bone-bank deposits from such sources in the future.

Father Brands His Son, 24, As Thief in Crowded Courtroom NEW YORK.—As tears streamed from his eyes, a father stood in a crowded courtroom and pressed a grand larceny charge against his son whom on six previous occasions he had saved from a possible jail sentence by making good on money allegedly stolen by the 24-year-old youth.

The latter, Thomas Sexton, 24, North Bergen, N. J., stole two of his mother's coats, a mink coat valued at \$2,700, the other a \$350 fur jacket. He had been arraigned in felony court as a fugitive from justice and then brought to a higher court for extradition proceedings after his father, William, signed a complaint alleging the theft of his wife's apparel.

Arraigned before Judge John A. Mullen, the youth was said to have been arrested repeatedly since 1941.

Design Electric Coat For Women's Wear

It doesn't sound right, but light summer coats may soon become the vogue for winter wear—and they'll be as warm, or warmer, as your fur coat.

The latest modern whimsy for winter fashions, suggested by the electric blanket, is a women's coat heated by wires running through the lining. A Hollywood designer, Eliza Jensen, dressed up this one guaranteed to keep you warm in the coldest of weather.

Batteries in the pockets control the degree of heat. This special insulation against polar blasts is expected to be on the market in time for next winter.

Kidneys Must Work Well... For You To Feel Well

24 hours every day, 7 days every week, every day of our frequent urinating, we are getting rid of waste matter from the blood. If more waste matter is in the blood, the kidneys must constantly remove surplus, excess acids and other waste matter that cannot stay in the blood without injury to health. There would be better understanding of why the white matter is spent when kidneys fail to function properly.

QUESTION: I have a dark soft wood floor that I don't know how to do with. It is single flooring. If I were to lay linoleum squares, would the floor have to be smooth before cementing them down? ANSWER: Linoleum must be laid on a smooth surface. If your floor is rough and uneven, it should be sanded smooth. The alternative would be to cover the flooring with plywood, which gives a good surface for covering with linoleum.

'Ain't It So

Never have been able to figure out whether a woman dresses to make men admire her or women envy her.

Some people leave only the mark of a heel in the sands of time.

Grandfather had a farm; his son has a garden; his grandson has a car opener.

Ten thousand prohibitions do not make one truth.

Many a man thinks he has an open mind when he is merely vacant.

Sleep is the best cure for worry, provided you do it instead.

New 'Citizen's Radio' Ready For Public

Good news! Your days of standing on the back porch and screeching for the children to come home for supper are now about over. Soon you'll be able to call junior from his play with a "walkie-talkie" of your own.

A new radio sending and receiving outfit that can be carried in the pocket or over the shoulder like a camera is ready for public use. As soon as the units are mass-produced they'll sell for about \$40.

The range of this new "citizen radio" will be about one to two miles in the city and from five to ten miles in the country.

'Ain't It So

Fiction is truth that has passed through a few hands.

Every time you win an argument you lose a friend.

A thing of beauty is a great expense.

A man wrapped up in himself makes a very small package.

The reason women always win arguments is that only the stupid men will argue with them.

The best way to kill time is to work it to death.

If you can't influence a man any other way, praise him for being the kind of a man who can't be influenced and you'll have him eating out of your hand.

Advice

"I don't know what to do about my son," said Hobson. "He wants to be a racing motorist."

"Well, whatever you do, don't stand in his way."

Paradox

To me, it's such a curious paradox. When husband goes to get fresh Sox, if there be one pair unremoved. He chooses them, and looks offended.

Unjustified

An old farmer and his wife were standing before their pigsty, looking at their only pig, when the old lady said, "Say, John, it will be our silver wedding anniversary tomorrow. Let's kill the pig!"

John replied with disgust, "What's the use of murdering the pig for what happened 25 years ago?"

"Why did you hit him with a chair?"

"Because I couldn't lift the table."

Interest in Geography

Americans in and out of school have today a much greater interest in geography than they ever had before. The war focused attention on the study of geography, even by civilians on the home front. In this study the Germans undoubtedly led the world. Before and during the war brightly colored maps greeted German children in their kindergarten classes and followed them through every stage of their education, while in this country geography was being relegated to a minor position in nearly every primary and secondary school.

Sleeper's Gun Protrudes; Conductor Summons Police

NEWARK, N. J.—A man who fell asleep on a Pennsylvania railroad train out of New York made himself so comfortable that his gun showed.

A conductor, who first thought he'd let the rider sleep, decided instead to notify police as soon as the train pulled into the station here.

Detective Erwin Schoenick said the man, David Worthing, 22, was being held for questioning in connection with recent Asbury Park house burglaries.

Committee; the Educational Investigating Committee, and the Joint Legislative Rural Aid Committee which supervises the distribution of Rural Aid to the various school districts of Texas qualifying to receive aid under the law.

I have tried earnestly to represent the people of the 24th Senatorial District as well as all of the people of Texas while serving on committees and when casting my vote on the Senate floor. I have never dodged an issue nor have I ever ridden the fence on any measure.

Since becoming a member of the Senate I have consistently opposed new taxes of any type. Our tax burden is too heavy now. If and when new taxes are needed to adequately finance our state government, they should come from sources other than an ad valorem or sales tax. I am unalterably opposed to a general sales tax.

I favor an Old Age Pension plan that is complete and satisfactory in order that the needy aged may be properly cared for.

I want a more suitable solution for paying teachers a living wage, which they must have if we expect to secure good teachers for the all-important job of training the youth of Texas. I favor distribution of school money by the State on an attendance basis, since there is no reason why \$55.00 per child, or any other amount should be sent to the school districts on the basis of a head count only whether the child attends school or not.

I will continue to fight to keep our tidelands for the school children of Texas.

I strongly favor an adequate Farm-to-Market road program in Texas but I am opposed to forcing farmers to pay for their own Farm-to-Market roads by the abolition of the four cent gasoline refund law. The law allowing refunds to farmers on tractor-used gasoline should never be repealed and I shall continue to fight to see to it that it is never repealed.

There are many other matters vital to the welfare of our people which I would like to discuss but space will not permit. I hope to

Fort Worth courts. I also acted here as judge of the 91st court when the judge of that court was sitting in other judicial districts of the State on assignments. My experience as judge was thereby greatly extended.

It is with pride and sincere gratitude that I acknowledge the honor thus accorded me during these years. When so acting, with the fine cooperation of the officers, jurors, attorneys and the public generally, I endeavored to speedily and fairly hear all pending causes and did my best to be an impartial and righteous judge of all matters before the Courts over which I was then presiding.

This is the first year since the abolishment of the 88th court that you could choose a judge for the one district court in Eastland County. I am a candidate for judgeship of this court.

When the 83th court was done away with I resumed the practice of law at Eastland to reestablish a law business held when I became district judge. I must spend the most of the time in my office attending to my professional duties and shall be unable to contact everyone, but hope to meet the most of you before the primary in July. If you approve of my work as district judge and can see your way clear to do so, I will be very grateful for your favorable consideration of my candidacy for judge of the 91st district court of Eastland County.
