

THE BANNER-LEDGER

VOLUME 46.

BALLINGER, TEXAS, FRIDAY, NOVEMBER 19, 1926.

NUMBER 9.

W.T.C.C. CONVENTION WELL ATTENDED

Schools Work for Ledger's Prizes

More than 100 delegates from fourteen different West Texas cities were registered here Monday for the annual Central Texas district convention of the West Texas Chamber of Commerce.

The meeting convened in the American Legion auditorium at 10:45 o'clock, with John Q. McAdams, of Winters, presiding. At noon a luncheon was held at the Central Hotel for the delegates and a number of Ballinger business men. Homer D. Wade, of Stamford, manager of the West Texas Chamber of Commerce, presided at the luncheon. The afternoon session convened at 2:45 o'clock and was still in session at 4:00 o'clock.

J. D. Motley, secretary of the Ballinger Chamber of Commerce, called the meeting to order by introducing Mr. McAdams, who is a member of the executive board of the West Texas Chamber of Commerce. Mr. McAdams introduced Rev. E. W. McLaurin, pastor of the First Presbyterian Church, who led in the invocation. This was followed by singing the first verse of "America."

Judge Alfred Crager, president of the local Chamber, delivered the address of welcome in his usual cordial manner, and W. Scott Bureus, manager of the Sweetwater Chamber of Commerce responded in like tone.

E. M. Whittaker, exhibit manager of the West Texas Chamber, told why these district conventions are held in the various ten districts of the organization.

"West Texas is so large and the many sections it embraces live in a different way," Mr. Whittaker explained. "In the ten districts of the organization there is held in each annually a district convention, aside from the annual statewide convention. We gathered to discuss with the local citizens and the citizens of the district their problems and the many questions which confront them every day. Every problem that is confronted in any community of the district is discussed no matter what it is."

Mr. Whittaker takes an unflinching interest in the agricultural affairs of West Texas and along this line he expounded for a few moments, telling of the work on the farm that had proved most profitable, the kind of feed to raise, what to plant, and the best kinds of poultry and dairy cows to raise. He spoke for the few minutes along this line in an instructive way that the school children present and the delegates took much interest in.

Members of the Junior and Senior classes of the local high school were released from their studies to attend the morning session and their presence added greatly to the morning program, with the speakers addressing a portion of their remarks to the pupils.

Dr. Paul W. Horn, of Lubbock, president of the Texas Technological College, was the principal speaker at the morning session. He was introduced by Mr. McAdams and immediately entered upon a subject of education for the benefit of the school pupils, who gave him unwavering attention during the course of his talk, which centered around West Texas and Texas Tech, together with what education came from, how to get it, and just how much was an education.

Dr. Horn lauded the young citizens of West Texas, declaring that nowhere did he think that the children were superior to the

ones raised and educated in West Texas. From time to time he praised the young citizens and gave them many encouraging hints that should keep them interested in obtaining an education after they have completed their high school course.

"There are three different sources of education," Dr. Horn asserted: "first, people; second, books; and third, things. From the people we associate with we learn much, we learn from our preacher, our Sunday school teacher, our parents, our physician and everyone with whom we are connected.

"The books, we read them to learn for the better or for the worse. Dr. Elliot, formerly president of Harvard, said that a five-foot shelf filled with the right kind of books would give a liberal education." Several times during his address Dr. Horn referred to statements made by this great educator and used them in his address.

"The things about us is another source of education and it is one of the greatest. If one studies things about him continuously he will learn a great deal and still not know all about it."

Dr. Horn told of some thirty boys who were making as much as \$50 each month from the sale of milk that cows, belonging to the boys produced. He said that as the boys entered the institution they brought with them their own cows, but that the cows, like the boys, had to pass an examination before they could gain entrance to the dairy barn of the college.

The speaker also referred to the work of the college for Texas and West Texas, and of the students as they made progress with their education.

Following Dr. Horn's talk, Curtis Hancock, of the Breckenridge Chamber of Commerce, made a very interesting and inspiring talk of only a few minutes duration. He was very optimistic in his statements.

Mr. McAdams, before adjourning the morning session for the luncheon, announced the names of those composing the resolutions committee. They were: G. W. Fry, Abilene; Paul Brown, Robert Lee; R. C. Crane, Sweetwater; Judge Alfred Crager, Ballinger; and Houston Harte, San Angelo.

This committee was to meet and prepare resolutions during the noon recess and at the afternoon session were to present them to the convention for approval.

Arthur P. Duggan, of Littlefield, president of the West Texas Chamber, could not be with this convention on account of other urgent business. Mr. Wade announced in reading a telegram

(Continued on last page)

McWilliams is Elected Head of W. T. Sheriffs

40,000 BALES PRESSED HERE

Approximately 40,000 bales of cotton have been pressed by the local plant of the Texas Compress Company this season, W. B. Woody, manager of the press, announced Wednesday morning.

Of this number between 4,000 and 5,000 bales have been pressed in shape for ships and have been sent direct from this city to Texas ports for the ocean freight haul.

Some 42,000 bales have been received by the local press this season and about 40,000 of that number have gone through the press and have been shipped out from Ballinger. The high density machinery, installed before the present season opened, has been used only a little time during the run, but it has proved to be a great improvement to the local plant. It is expected that it will be used much more in the future seasons.

Day and night shifts were resorted to for part of the season and during the biggest rush at the plant. The press now, however, is running with only a day shift at work.

"We expect to press approximately 65,000 bales this season," Mr. Woody declared Wednesday. "Last year we pressed 74,474 bales, but this year we will fall short probably 10,000 bales. The decrease is due partly to the decreased production of cotton in Runnels, Tom Green, Concho, Coke, and other West Texas counties that we draw cotton from."

The local compress usually gets a few hundred more bales than this county produces and it is expected that the ratio this year will be about the same as in former years.

To November 1st, Runnels county had ginned about 46,131 bales, approximately 1,000 bales short of the 1925 crop. While the local press has not turned out that many bales, Mr. Woody says a part of the Winters crop goes to Abilene to be pressed.

Mr. and Mrs. Lee Butler and mother, Mrs. M. E. Butler, Misses Tauline and Mildred Butler, and Mrs. K. V. Northington have returned from Comanche, where they attended the funeral of Charles Butler.

E. E. Holt Sr., has gone to McKinney, where he will visit a brother-in-law, T. W. Terry.

Mr. and Mrs. Truman Butler have returned from Comanche, where they attended the funeral of their uncle, Charles Butler.

COTTON EMBARGO AT NEW ORLEANS

NEW ORLEANS, Nov. 17.—The New Orleans States said today that an embargo on cotton had been put into effect here, occasioned by the overcrowded warehouses.

Several railroads, however, denied the embargo was in effect.

"San Saba, Texas, Earl McWilliams, Ballinger, Texas. You are hereby advised of your unanimous election as president of the West Texas Sheriffs' Association in convention at San Saba today." "Carl Adams, Sec."

The above telegram was received here Friday evening by Sheriff R. E. McWilliams who was unable to attend the convention.

"It was the first convention that I had missed since I have been sheriff," Mr. McWilliams said Saturday. He was unable to attend on account of court being in session here during the past week and he was a witness in a case which was called here Friday morning.

Mr. McWilliams succeeds Sheriff R. M. Miller, of Concho county, as president of the association. He had been vice-president for some time.

The West Texas Sheriffs' Association embraces several counties of West Texas and is one of the largest sectional peace officers organizations in the Southwest.

Sheriff McWilliams will at once enter the office of president and serve for one year. It is not known here where the next meeting of the association will be held.

WILL BURY W. L. COATES IN PUEBLO, COLORADO

The body of W. L. Coates, air hammerer at Best for the Murray Tool Company, passed through Ballinger Wednesday morning en route to Pueblo, Colo., where interment will be made, according to reliable authority.

W. E. Coates, a relative of the deceased, requested the remains be sent to the Colorado city.

W. L. Coates was found dead in a bed at Best, Sunday, 36 hours after he is alleged to have shot to death Constable George Hays and Miss Ayla Beam, and wounded C. A. Jones, Best, rig builder and contractor, at a dance in the Santa Rita Hotel at Best, on Friday night.

Be wise and advertise!

Skill and Care

We treasure highly the many words of praise which we are constantly receiving from those we serve. Our staff is composed of thoroughly trained men, each of whom knows his work. The instructions to all are to invariably exercise the greatest care in handling every detail. The combination of skill and care is constantly bringing us rewards in the form of testimonials.

Undertaking Department Day Phone 96

C. R. Crews Night Phone 99

C. G. Jennings Night Phone 1248

Forty Runnels county schools are now at work in The Ledger's great circulation campaign. All schools who have reported at Ballinger have so far made good progress and the rest are expected to turn in during the present week with a list that may change the standing of the leaders materially. A few of the schools have been delinquent in pushing their drive for subscriptions on The Banner-Ledger and The Daily Ledger, but word coming from them this week states that they are now organized and will make a hard fight during the remainder of the campaign.

HOUSE OF DAVID LEADER IS HELD

BENTON HARBOR, Michigan, Nov. 17.—Benjamin Purnell, "King" of the House of David, arrested today on warrants charging him with criminal assault on two former girl members of his "colony," who was released a few hours later on \$50,000 bond, was re-arrested this afternoon when Judge White ruled the bond to be worthless.

BENTON HARBOR, Michigan, Nov. 17.—Benjamin Purnell, founder and leader of the "House of David," was arrested early today inside the colony, after a world-wide search of more than three years.

Purnell was released on \$50,000 bail when arraigned before a justice court on serious statutory charges brought by former members of the sect.

Purnell's bond was signed by Edith Meldrum and Frank Rosetta, House of David members. It was secured by the colony's \$100,000 hotel building at Benton Harbor, which during the night was deced by colony officials to Miss Meldrum and Rosetta.

Four men and three women, all members of the sect, arrested by state police in the raid on the colony last night and charged with obstructing justice, were also released after making bond.

TURKEYS VALUED AT \$500 REPORTED STOLEN

Seventy turkeys, the property of F. C. Shuman, farmer, residing 12 miles from San Angelo on the Paint Rock road, were reported to have been stolen from his farm some time Saturday night.

The turkeys had been contracted for at a fancy figure and the value of the birds was estimated at about \$500.

Officers of this section are trying to locate the fowl for Mr. Shuman.

Mr. and Mrs. W. C. McCarver attended the Forman baby funeral in Coleman Wednesday.

At present the outlook is for something over \$2,500.00 in prizes and cash commissions to be given to the rural schools by the Ballinger Printing Company on December 15th. Every school that does any work at all will receive something, and besides the six major prizes some of the schools are going to get theirs in real money to use as they please.

The Ballinger Printing Company, publishers of the Daily Ledger and Banner-Ledger, are planning another visit to all the county schools. On this visit, Mr. Pyle, the Brunswick factory representative, will accompany a Ledger man and will carry one of the combination phonograph-radios to give a short concert at each school house. An itinerary for this trip is being worked out now and will be mailed to every teacher in the county so that the day and approximately the hour of the visit may be known. It is hoped that many of the school patrons will be at their respective buildings on the next visit to see and hear this wonderful machine. The stop at each school will be short, but a good demonstration of the machine will be offered at all contesting districts.

Following is the standing of the schools that have reported in both classes:

Class A	
Maverick	244,000
Bethel	48,500
Hatchel	28,500
Norton	22,000
Class B	
Dale	293,000
Dry Ridge	63,000
Spring Hill	33,000
Old Runnels	28,500
Greenwald	28,500

The schools that are running in the lead are getting good cooperation from their communities. In some places the adults—ladies and men—of the community are turning in more subscriptions than the school itself. If other places will realize that for \$1.50 they will get 52 copies of the county site paper and at the same time assist their school in winning a prize or securing some greatly needed cash, it will assist the school enormously in forging to the top.

Mrs. W. L. Brown has gone to Coleman to attend the funeral of Joe Forman Jr.

The Asset of Friendship

For you and for us, friendship is a big item. That's why at this institution there is a steady, genuine effort to give even more than 100% banking service.

Business men and others have found that the power to look ahead, the resourcefulness, the experience and the belief in our community and its people which we offer customers, is a big factor in their handling of financial matters.

This same friendly service is available to you—whether your account is large or small. You can add this asset of Friendship to your credit.

Ravages Wrought By Constipation are Appalling!

Constipation is a bad habit—a dangerous habit! Constipation is probably the origin of more sickness and disease than all other causes combined. Professor Foges, of Vienna says, "It is the most prolific source of disease." And other authorities declare that nine out of every ten persons are slowly poisoning themselves by letting CONSTIPATION continue. Constipation can easily be stopped! But you can't do it with ordinary methods. Salts, oils, cascara and such things only reach part of the intestines and partially clean them. KLOK-LAX, on the other hand, clears and cleans out every inch of the twenty-eight foot drainage canal, including the stomach, upper and lower intestines. That's the only way to really

STOP CONSTIPATION. And KLOK-LAX is so easy and pleasant to take—just a tablet with a swallow of water at 9:00 tonight. No nausea—no griping—no time lost. Then, tomorrow, with your system thoroughly cleaned out of all poisons and wastes, you feel bubbling over with energy and vigor. KLOK-LAX is the new improved method of overcoming constipation. Contains ingredients now recognized the world over for completely cleaning out the entire intestinal tract. Everybody is using KLOK-LAX. And with poisonous wastes cleaned out, they find headaches gone, skin cleared up, appetite with a hearty taste and breath sweet and clean—and, instead of that dull, draggy, sluggish feeling they are active and alive. Get KLOK-LAX at any good druggist.

Uncle Sam to Tell Wonders of Alaska

ANCHORAGE, Alaska, Nov. 15.—Following the example of privately owned pioneer railway systems in exploiting the resources of the territory contiguous to their lines, Uncle Sam, owner of the Alaskan railroad, will tell the people of the States the advantages of the railroad belt in order to attract capital.

A new department has been created by N. W. Smith, general manager of the railroad, to bring the resources of Central Alaska right under the nose of the man with surplus to invest.

Hitherto the resources along the railroad have been spoken of in generalities, such as "great storehouses of wealth," "mountains of coal," and "many square miles of precious metals and commercial minerals."

Hereafter the Alaska Railroad's industrial department will offer economic data calculated to guide the investor into proper and remunerative channels.

Mineral deposits will be surveyed and reported by engineers of the federal bureau of mines, data will be obtainable on matters of transportation, power, both hydroelectric and coal, labor costs and all items having a bearing on the subject considered.

Armed with authentic reports, the industrial department will become a sort of reference bureau, open to whoever desires accurate information, and at the same time serve as a liaison be-

tween claim owner, prospector and promoter and investing capital.

United States Geological Survey investigation has revealed that there is approximately \$350,000,000 worth of gold in workable places in areas covered by that department. How much more there is can only be conjectured as there are many areas, practically unprospected, which contain as much as 2,500 square miles. This area contains many properties which have not been developed by machine methods.

Now that the Alaska Road Commission, an important adjunct to the Alaska Railroad, has shoved its avenues of travel further and further into the country, these low-grade places are becoming great commercial assets.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then show off or dispel the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

NEGRO S BOND IS FIXED AT \$200

"Few Cloes," negro, charged with forgery in justice court here, was given a bond of \$200 Saturday morning by Judge C. H. Willingham, justice of the peace.

"Few" is charged with forgery of a check given Leslie White, manager of the Hyatt Nichols store here. According to a signed statement made to County Attorney C. P. Shepherd, "Few" admits he gave the check.

He was remanded to jail until his bond could be made by friends.

DEER SEASON OPENS TODAY

Tuesday morning found hundreds of hunters in West Texas and with the break of day they were out scouting around for quail and deer, the season for which opened Nov. 16th. Several parties from Ballinger were in the field, some of whom report good luck.

Parties from Fort Worth, Oklahoma City, Wichita Falls, Dallas, Waco and other large cities have been passing through this city for the past week, and many Ballinger hunters left Sunday and Monday for the hunting grounds. The duck and wild turkey season has been open for some time, but no one has had much luck in potting these fowls as yet it is reported.

To the Southwest of Ballinger, however, turkeys are said to be plentiful, but ducks have some- how avoided this section. Not many ducks have been seen and few have been killed.

OPEN NOSTRILS! END A COLD OR CATARRH

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more sniffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed up and miserable. Relief is sure.

French Test Cars to Exceed 200 Miles per Hour

PARIS, Nov. 15.—Motors turning at a velocity of 10,000 revolutions per minute, permitting speeds well in excess of 200 miles an hour, are being perfected by the leading French automotive engineers for next year's Grand Prix Race.

They are two-stroke engines fitted with forced feed appliances.

The French Automobile Club has restricted engine dimensions to 1,500 cubic centimeters, corresponding to 11 h. p. American rating. The possibilities of four-stroke engines of this measurement having been exhausted, designers turned to the two-stroke motor. Some of the machines being tried are fitted with front-wheel drives.

BANKERS ORGANIZE TO CUT COTTON ACREAGE

E. D. Walker, of the Ballinger State Bank, was elected county chairman of the Rannels County Bankers' Association to carry out the decreased cotton acreage program as adopted by the association Friday night at their annual meeting held at the chamber of commerce offices here.

The plan as adopted by the Texas Bankers' Association is to be carried out in this county, and Mr. Walker will have charge of the work.

Officials of the state committee in charge of this work sent to John McAdams, Winters banker, an outline of the organization for the various counties in Texas, and Mr. McAdams presented the plan to the county bankers Friday night. The program was unanimously adopted and plans will be started immediately to carry out the provisions.

Bert E. Low, of Winters, presided at the meeting here. John Q. McAdams was the principal speaker. Mr. McAdams used for his subject, "The Panoramic View of the Present and Future." His talk was very interesting and instructive.

Another speaker of the evening was Homer D. Wade, manager of the West Texas Chamber of Commerce, who was a guest of the bankers while here preparing for the district convention of the West Texas Chamber of Commerce which convenes here Monday morning at 10 o'clock with Mr. McAdams acting as chairman. Mr. Wade made a very interesting talk along the line of the bankers' subject. He was well posted on this question as he has been working with the bankers of various cities in West Texas in preparing for his organization an agricultural program. This program will also be discussed at length here Monday.

W. R. Hunton, Miles banker, and Carl Henslee, Winters banker, who were scheduled to make talks were prevented from attending the meeting by unavoidable circumstances. Only two banks in the county were not represented, they being the MPes and Rowena banks. At the round-table discussion many excellent ideas were advanced for decreasing cotton acreage and aiding the farmer to hold his cotton for a better price. The banquet was served at the City Cafe preceding the business meeting. Cabbage, corn bread and bacon greeted the bankers when they first sat down but Ralph Erwin, of the First National Bank, asked J. D. Motley, secretary of the Chamber of Commerce, if that was the best he could get for 65 cents per head. Mr. Motley said he was sorry, but he thought Mr. Erwin meant for him to spend 65 cents for the entire meal. The chairman then asked L. I. Stroble, manager of the cafe, if he had anything left over from dinner, and when he replied that there was a little bit left, he was ordered to bring it out. The bankers then took on a fine turkey dinner that was prepared especially for them. The cabbage and corn-bread was out for a joke as the bankers were discussing economy on the farm at this meeting. Just before adjournment, Winters was selected as the next meeting place of the Rannels county bankers. This meeting will be held on Tuesday evening, December 28th.

Why Diversified Farming?

Diversified farming makes possible crop rotation, and gives opportunity to build up soils worn out by the one-crop system. The ground is always occupied with an essential crop.

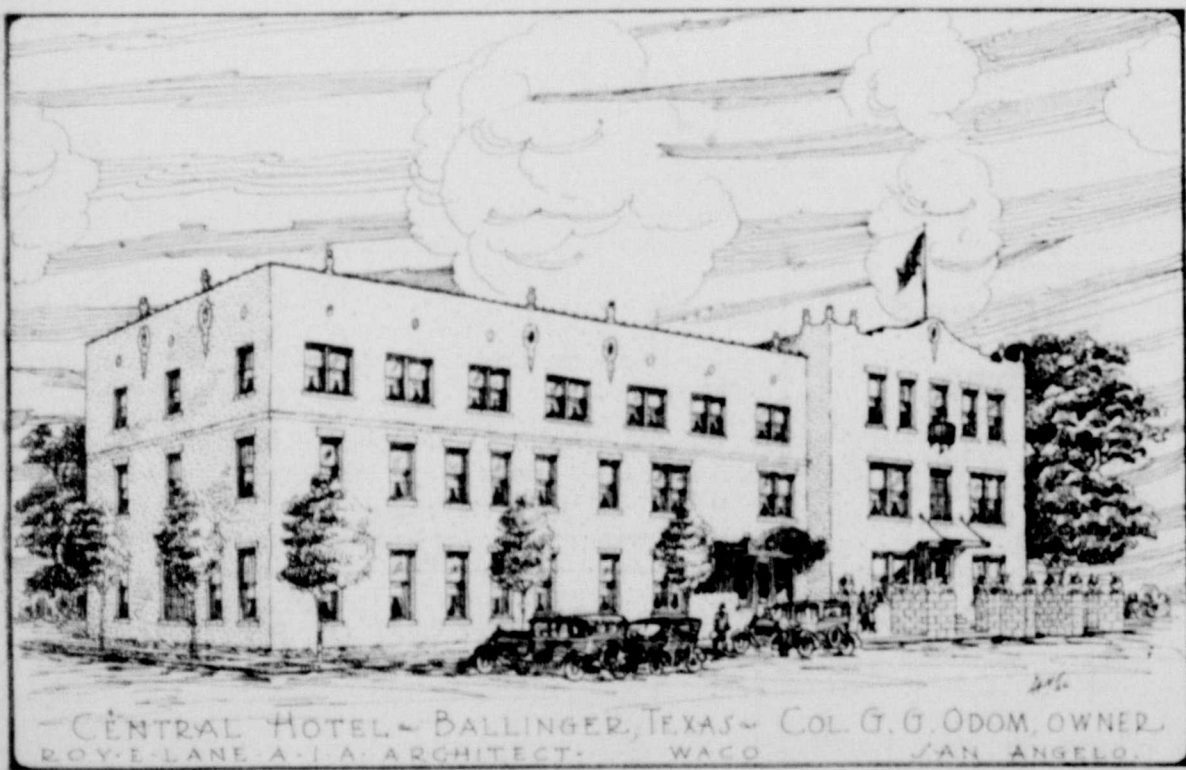

Crop rotation in addition to increasing the productivity of the soil protects the grower against the liability of losing his whole year's work through the failure of a single crop.

Diversified farming assures better profits year in and year out and builds up the sale or loan value of your land. Let us explain more fully.

FARMERS & MERCHANTS
BALLINGER STATE BANK TEXAS

STRICTLY A BANKING INSTITUTION

How New Hotel Will Look

The new Central Hotel, when completed, will look something like the building pictured above, according to Roy E. Lane, architect, who sent the etching to G. G. Odum, owner of the property. Present time work is being done on the left wing of the third floor is the first two original buildings. The

work on the main three-story section will not be completed at this time, but will be remodelled next summer. Col. Odum stated Monday afternoon. New fixtures and furnishings, including remodeling of every room of the old wing is expected to be completed about November 25th, but the main three-story wing will not be worked over until some time next year. "The old columns in front of

the Central will be torn away and a modern front will be put in," Col. Odum said. "This work, however, will not be done until next year." The entire building will be stuccoed and will be modern inside and out when the contractors are through with their work, and this hostelry will be one of the finest in West Texas. It will contain sixty-four modern furnished rooms.

The Best Advertisement In the World

A fixed policy of helpfulness, friendship, cooperation and accommodation, is the best advertisement in the world.

This institution is doing its best to maintain the high ideals of modern banking. We are proud of the laws of safety and service under which we operate, and we are earnestly striving to back up every one of our own published promises with willing and able service.

After all, there is no better advertisement than the character and integrity of an institution and the men behind it.

Ballinger State Bank

Gives Advice to Expectant Mothers

I ADVISE all expectant mothers to use Mother's Friend, writes Mrs. Wesley Miller, Hudson, Mich. "I have had nine children. With my first three I suffered for 24 hours. Beginning with the fourth I used Mother's Friend and was sick only 15 minutes. Since then I have had five and was only sick about 10 minutes with each. Mother's Friend is the formula of an eminent physician and has been a positive blessing to thousands of expectant mothers for over three generations. Used daily, externally, it soothes the nerves and muscles as month follows month. Finally it makes childbirth a joy!

The mothers who praise Mother's Friend the most are those who did not use it with their first baby but through its use with the second, were able to realize its almost unbelievable results.

Mother's Friend on Mother's Friend—the same as used by our mothers and grandmothers—don't wait—start using tonight—and meanwhile write Bradford Ecceletor Co., Dept. 31, Atlanta, Ga., for free valuable booklet "Motherhood and the Coming Baby" sent in plain envelope. It tells how Mother's Friend can help you during expectancy and at childbirth. This booklet also tells you many other things you want to know. "Mother's Friend" is sold by all druggists—everywhere.

Bank Run by Students Has Record Day Deposit

LYNN, Mass., Nov. 15.—Students in the Lynn English high school run their own savings bank and combine, to practical advantage, study and thrift. The bank is said to hold the records for deposits in such an institution in a single day—\$3150—received one Monday morning. The school has 1400 students.

The Lynn system of a student-operated school bank has been tested by twelve years successful service. It has been copied in fourteen states and two foreign countries.

Regular banking rooms are maintained. Students, themselves, fill the various positions, receive the deposits and keep the accounts. The school savings plan has spread in one form or another to all the public schools of the city above the third grade. In that time the students have saved more than \$200,000.

Taxes on automobiles in France are figured upon the number of horsepower developed by the motor.

**LEGION NAMES
SIX COMMITTEES**

Post Commander Troy Simpson
of Pat Williams Post, American
Legion, announced Monday
night the various committees for
the ensuing year, which started
one week ago with the election of
new officers.

The annual report was also
heard and will appear in print at
a later date.

The standing committees were
as follows:

House committee—Frank Cam-
eron, chairman; H. Vorbeck and
H. T. Forson

Amusement committee—Tom
Candle, chairman; R. W. Earn-
shaw and K. V. Northington.

Americanization committee—

inger and D. G. Posey

Service committee—M. C. At-
kins, chairman; E. W. McLaurin
and W. B. Woody

Membership committee—L.
Cohen, chairman. Team No. 1,
M. C. Atkins, Frank Cameron, D.
G. Posey, R. R. Williams and S.
L. McMillan. Team No. 2, Tom
Candle, Troy Simpson, R. W.
Earnshaw, K. V. Northington,
and Carrol Bell, Winters.

These committees take charge
of the Legion work for the year
at once.

A fair sized crowd was present
for the Monday night meeting.

MOTHERS

Watch for symptoms of worms in your
children. These parasites are the great
destroyers of child life. If you have
reason to think your child has worms, act
quickly. Give the little one a dose or
two of White's Cream Vermifuge. Worms
cannot exist where this time-tried and
successful remedy is used. It drives out
the worms and restores the rosy hue of
health to baby cheeks. Price 35c. Sold by
Weeks Drug Store

**TURKEYS MOVE
TO MARKET**

Many turkeys are being mar-
keted here for Thanksgiving din-
ners, according to reports from
two local produce houses and the
Farm Bureau Association, now
busy picking the fowls and pack-
ing them for shipment to Eastern
homes, where they will grace the
tables of many thousands of
people Thanksgiving.

Pickers are working in both
night and day shifts and many
thousands of the birds are being
turned out every day for the
markets.

The price being paid the poul-
try raiser for his birds was re-
ported Tuesday at 27 cents per
pound, and some of the turkeys,
especially the gobblers, make a
mighty neat sum when their
weight is multiplied by the price
per pound.

Bookkeeper Falls Heir to Fortune

"Upon the death of an uncle I
inherited \$50,000. I gave up my
position and intended enjoying
myself when I was stricken with
a severe case of stomach trouble
and colic attacks. Two of these
attacks made me lose consciousness.
After treating with our
best doctors with little benefit, I
decided to try MAYRS, and it
helped me at once. I have been
entirely well for past year." It
is a simple, harmless preparation
that removes the catarrhal mucus
from the intestinal tract and
allays the inflammation which
causes practically all stomach,
liver and intestinal ailments, in-
cluding appendicitis. One dose
will convince or money refunded.
At all druggists.

**STOLEN CAR FOUND UNDER
EYES OF SWEETWATER COP**

A stolen Chevrolet touring car
literally was placed before the
eyes of the police last night, and
Policeman Hudson gave the num-
ber a glance, felt a hunch that
he had such a number, turned
through his list of missing cars to
find he was right, and took
charge of the vehicle.

It was parked near his home.
No arrests were made.

The car was stolen at Anson
on the night of November 6th.
Sheriff Tom Hudson of Jones
county came here after the car
this morning—Sweetwater Re-
porter.

Ghost stories are gaining in
popularity according to Danish
publishers who are placing them
on the market.

**HICKS NEW LOWER
PRICES**

On Tires and Tubes

More than three weeks ago Hicks Rubber Company announced
to Texas automobile owners a tremendous decline in the price of
tires and tubes that has effected them a saving of hundreds of
thousands of dollars.

We are Still Making Lower Prices

And will continue to save the buying public money on both price
and quality. We never lower a price at the expense of quality.

We have a quantity of
30x3 1-2 Red Tubes that
were purchased under our
competitive buying system,
and we are sure that there
is not a value on the market
in Texas to equal it. We
guarantee it to give satis-
faction—

\$1.45

We have a quantity of
30x3 1-2 Tires on which we
have reduced the price. This
is not a high grade tire, but
it is the product of a South-
ern factory that has been
making tires at least a
dozen years—

**HICKS
RUBBER CO
TEXAS LARGEST TIRE HOUSE**

Ballinger Branch

The Banner-Ledger

Published Every Friday by
The Ballinger Printing Company
Office of Publication, 711 Hutchings
Avenue, Ballinger, Texas.
Entered at the Postoffice at Ballinger
as second-class mail matter.
Subscription, the year ----- \$1.50

A near-tragedy in the Ashton family gives Ballinger some more undesirable front page space.

Armistice, like July Fourth, will become more universally observed as it grows older, for a few generations at least.

Set aside \$1.75 for that voting prerequisite. There will at least be one city election and the usual call for school trustees in 1927.

Jack Frost started the weed harvesting, and our pride in civic matters should keep the good work going with the aid of the city's clean-up ordinance.

And a few packing, canning and preserving plants for conserving the food which goes to waste in many gardens and orchards would go a long way towards making this a better land in which to live.

The Abilene News devoted a sixteen page section of its Sunday edition to celebrating the opening of a new oil mill in that city. West Texas should be given the opportunity of celebrating the opening of a cotton mill.

There is an average of thirty-one murders in the United States every day, and during the last two days two of our neighbor counties have come in for four of the killings. An "eye for an eye and a tooth for a tooth" at the hands of the law might put a check to the wholesale slaughter.

Runnels county is bounded on the North, East and West by oil fields, and if the territory is extended South it is hardly probable that it will jump this county. Five tests underway on a line North and South through the county and at least shows some faith in the proposition.

Statistics show that more than 75 per cent of the wage earners

spend their money before they earn it, and a large per cent of this 75 per cent spend more than they earn or at least live beyond their income. This being true those who live within their means must pay an unjust price, or the commercial world would fall.

A lawyer has issued a statement in which he holds that no law can be passed controlling the cotton acreage. It did not require a lawyer to determine that fact, any man of average intelligence knows that a farmer has a right to plant his entire farm in cotton and starve to death, if he wishes to do so.

The turkey rush is on and the farmer's wife who is taking part in the rush has the advantage over her cotton growing husband when it comes to figuring profit and loss. A big acreage should be planted in turkeys next year, and did you know a dozen eggs was equal to half a dollar and Christmas more than a month off. There is a hungry world to feed.

An acre of six or eight year old pecan trees will produce from \$400 to \$600 worth of nuts, and about all the owner has to do is shake the tree once each year after he gets them to the bearing age. Colorado River valley land is ideal for pecan culture and the water supply is ample.

Notwithstanding that cotton is so cheap that mortgaged automobiles are being turned back to the dealers, Texas farmers are banking the greatest amount of cash ever given for a crop in the history of the state. This is due to good prices being paid for hogs, poultry, and other side lines as well as to the fact that crops of almost all varieties produced well in every section of the state. Great is Texas.

As soon as the casualties are compiled from the Armistice Day gridiron battles we will be ready to stage the big "turkey day" Thanksgiving, affrays. The money which will be paid to see football throughout the country on Thanksgiving would finance the Texas highway commission on the basis used by that body to figure contrails.

We are sometimes inclined to make light of the ambition of the boy who shoulders a baseball bat,

but from a financial standpoint he may be on the right track. Just as a vacation, or between season job, Babe Ruth is pulling down \$100,000 for appearing in vaudeville an hour or two per day for twelve weeks, and finds plenty of time for hunting and golfing between acts. Of course all baseball players cannot be "Babes," neither can all statesmen be Calvins, but looking at the game from a money viewpoint, Ruth has the advantage over Mr. Coolidge.

CHAT

The auditors' report made to the investigating committee at Austin last week showed that the state highway department paid out during 1925 \$395,777.28 freight on chat shipped from Oklahoma into Texas.

Chat is nothing more nor less than crushed rock used in highway building, and where most of this chat was used there are millions of yards of native stone suitable for road building material, and said to be superior to that shipped in.

Evidence brought out in the investigation shows that most of the shipped in material was used on highways in West Texas, where the native material is accessible in unlimited quantities.

It will be interesting to note that one of the major railroads over which much of this material was shipped operates its own rock crusher and uses the native stone adjacent to its line in supplying chat for ballasting its road bed.

It is said that one of our neighbor counties which is almost built on a foundation of solid rock—stone ideal for making chat, received some of this Oklahoma chat for use in surfacing its highways.

Under such conditions you can not blame the auto tax payer for kicking at the high license fee charged for the privilege of owning a car.

After all, it is not so much the price you pay, but what you get for the price that pleases the public. The highway department handles more money and is the most important department of our state government, especially at this time.

Typewriter Ribbons 75c, all the time—think it over. Ballinger Printing Co.

Here and There

SAN ANGELO, Nov. 15.—Police today are endeavoring to clear up two mysteries surrounding the finding yesterday in Best, the body of W. L. Coates, aged 34, whom the officers had been searching for in connection with the slaying of George Hays and Miss Alva Beam, at a dance hall in Big Lake Friday night. The officers are trying to find the driver of the car who took Coates from the dance hall, and was seen early Sunday near the place where Coates body was discovered. A large sum of money Coates is supposed to have had is also missing, police say.

ST. PAUL, Minn., Nov. 15.—A party aboard a house-boat on the Mississippi River here ended in a tragedy last night when six of the merry-makers in attempting to escape from officers were drowned in the river when their small duck-boat sank.

Three other persons were rescued from the waters.

Two bodies of the six drowned have been found. They were those of Michael Hogan, aged 25, and an unidentified woman. Others believed to have been drowned were Charles Randall, Nick Becker, an unidentified man and an unidentified woman.

COUNCIL BLUFFS, Ia., Nov. 15.—John Keeling today shot and killed his wife and probably fatally wounded her sister-in-law, Mrs. Henry Anderson, and then committed suicide at the Keeling home here.

Keeling was known as a financier and a sportsman.

GALVESTON, Nov. 15.—The office of the Galveston-Houston interurban station here was held up this morning by two unmasked white men.

The robbers escaped with approximately \$300 in cash.

J. G. Marsh, the cashier, was alone in the office when the two hold-up men entered.

MOONSVILLE, W. Va., Nov. 15.—Three men met death and two others were seriously injured and two of their fellow workers were entombed by a gas explosion today at the First Street Mine of the Glendale Gas Company here.

Eleven workmen escaped. Rescue crews are searching for the entombed miners and they hold out some hope that the miners will be found alive.

When Jesse Fogle, mine foreman, staggered from the mine, uninjured, he was heart-sick, for far down in the dark recesses he had stood helpless until his son, Walter, had died. The boy was not employed in the mine, but had been visiting his father.

SCOTLAND, S. D., Nov. 16.—Two persons were shot to death and three others wounded at the John Gross farm near here last night by a mysterious assassin who fired through a window with a shot-gun.

The dead were Albert Zweifel, aged 18, and Mrs. John Gross, aged 50.

Several other occupants of the room escaped the blast of the leaden missiles.

According to information received here, the slayer fired four or five charges from his shot-gun without revealing himself.

No motive is known for the attack.

NEW ORLEANS, Nov. 16.—Sam Gowland, deputy sheriff, was killed and seven others injured in a fight with machine guns, shot-guns, and pistols at Gentilly Bayou, De la Croix Island, today.

The fight marked the renewal of the trappers war which has been waged annually through several trapping seasons.

Rio Coffee per pound 25c. Cane Syrup 75 cents per gallon. U. E. Hartman, Grocer. 19-ftw

Mr. and Mrs. E. E. King went to Abilene Thursday, where they attended the funeral of Mr. King's aunt, Mrs. J. W. King, of Abilene, who died Wednesday afternoon.

W. C. McCarver has gone to Coleman to attend the funeral of Joe Junior, the son of Mr. and Mrs. Joe Forman.

And A Two Reel Comedy

Home-Builder Gets Good Investment Plus Comfort

FIRST FLOOR PLAN
The need for contraction is not so great, the open porch or sunroom can be placed opening off the side of the living room instead of the back.
It may be built either of variegated or common brick left plain or whitewashed. The high pitched roof is of stained shingles or slate. An interesting contrast is effected in the weathered board shutters and the trim of the unique bay window in front.
The sheltered loggia has a pleasingly arched entrance duplicated in the main doorway. The floor is of red brick.
Within, a number of features provide for exceptional comfort and convenience. The hall gives access to the stairway, kitchen and living room with equal ease. A closet for wraps, tennis racquets and the like, will be found unforgettably useful as will the

broom closet just beyond it.
An open fireplace and a generous supply of windows make the living room an attractive place to pass leisure hours in, and it would be an unappreciative housewife, indeed, who did not warm up to the little window seat or fernery made by the arched bay window. Where space allows the sun porch to open off this room, its size is much enhanced by the extra thirteen feet that to all appearances are added to it.
Open book shelves are built into the passageway to the dining room. This room is unusually large and has three windows. Although quite small, the kitchen will meet all the needs of the average small family. It is equipped with all the features that every housewife has come to look for and demand in a well-planned house—an abundance of cupboards and closets, window over the sink, and a breakfast alcove. The refrigerator fits in under the cupboard to the left of the sink and provision may easily be made for outside icing, saving the housekeepers' time and patience.
Only two bedrooms are on the second floor, but a sleeping porch can be built over the sunroom at very little extra expense. This is particularly serviceable in a family where there are several children. Three clothes closets, a linen closet in the bathroom and storage space off the hall should please the woman who wants plenty of places to keep things.
So compact and well-built a house as this, will be found very easy to heat. A marked economy is effected in its insulation, walls and roof being sheathed with zinc as a protection against cold and waste of fuel in the winter, and in summer keeping back the hot rays of the sun. Notice also the lower ventilator placed in the gable in front, to better keep the attic from getting hot. The floors are hardwood throughout and have a layer of celotex placed between them to deaden noises within the house, a feature that is appreciated where there are small children and noisy boys in the home.

SECOND FLOOR PLAN
CULING HEIGHT 8'-0"

THIRD LYCEUM NUMBER NOV. 24

The third lyceum number of the series of five, being presented here this season by the Parent-Teachers Association of Ballinger, will be in the form of a musical program on Wednesday, November 24th, it was announced today by officials of the association.

It was stated in Tuesday's issue of The Ledger that there would be no regular monthly meeting of the Parent-Teachers Association when it should have been said there would be no lyceum number during the month of December. The meeting of the organization will be held as usual on the first Wednesday afternoon of each month, which makes the next meeting on Wednesday, December 1st.

The third lyceum number is expected to be one of the best of the five numbers. Two have already been presented here and large crowds were in attendance at both performances. The other two numbers will be proffered at the Senior high school auditorium some time after January 1st.

More interest by the parents is urged in the P. T. A. and to stimulate interest, the association is to give \$5 to the class of the schools that has the largest representation of parents present at each meeting. This is a new method and has recently been adopted by the association to engender interest among the parents of school children. Many parents have children in school who have never attended a meeting of the P. T. A. and they are especially requested and urged to attend the next meeting.

RHEUMATISM PAINS QUICKLY ENDED BY RED PEPPER HEAT

Red Pepper Rub takes the "ouch" from sore, stiff, aching joints. It cannot hurt you, and it certainly stops that old rheumatism torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any good druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

Gulls "Detail" Only a Few to Each Ship

CHICAGO, Nov. 13.—Gulls covering the long breakwater at the mouth of the Chicago River provide an interesting spectacle as they rise, cloudlike, to greet an outgoing ship and detail a few of their number to accompany it across Lake Michigan.

As the huge double span Michigan Avenue bridge, last barrier over the murky stream, bisects and moves noiselessly skyward in response to the throaty warning of the vessel, nosing slowly Northward, swarms of gulls leave their resting place and begin to circle the ship.

They escort the boat some distance into the lake and then, as if previously arranged, the greater number return to the breakwater, leaving a few of their companions to make the trip. They seem to feel that food to be picked from refuse of the ship is not enough for the entire flock.

Heroes of Kultur on New German Stamps

BERLIN, Nov. 16.—Monarchists are jubilant over the new series of postage stamps which for the first time in history bear pictures of prominent Germans.

With one exception the men picked out for the honor are heroes of German kultur. Frederick the Great was selected for the 10-pfennig stamp, the one most in use for internal communication.

Goethe, the world famous genius, is pictured on the 25-pfennig stamp which is the foreign letter postage fee. Among other great intellects represented are Schiller, Kant, Lessing, Leibniz, Bach and Beethoven.

GUARD TO HAVE MATCH FRI. NITE

Company C, 142nd Infantry of the Texas National Guard will present its second athletic bout here Friday night when John Ellis, weight 175 pounds, and Young Trombley, weight 172 pounds, will wrestle for local fans at the Legion auditorium at 8:15 o'clock, it was announced Wednesday.

Bart Green, of Abilene, formerly a hurler of the Ballinger Bears of the West Texas Baseball League of years gone by, was here Wednesday making arrangements for the affair. The two mat men have endeavored to get a match with each other for some time and Green was successful in promoting the bout here.

A boxing bout was held some few weeks ago and a large crowd attended the event. It is expected that a much larger crowd will witness the mat men in action here Friday evening.

The main event will start at 8:15 o'clock after the usual preliminaries have been staged. Green asserted Wednesday afternoon that he expected to bring Kali Pasha, the "Terrible Turk," here for a match with some other good matman within the near future.

Piles Cured in 6 to 14 Days
Druggists refund money if PAXO OINTMENT fails to cure itching, burning, bleeding or protruding Piles. Instantly relieves itching Piles, and you can get restful sleep after first application. 6c.

DERAILMENT DELAYS TRAFFIC

Freight engine No. 3025, a five-wheel drive type locomotive, greatly demoralized Santa Fe traffic between Ballinger and San Angelo here early Wednesday and up to noon. The derailment occurred about 1:00 a. m. near the Santa Fe freight depot on a side track, while the crew was doing some switching here.

The engine, pulling a long string of freight cars, was in the act of completing its switching here when it was "derailed" near the Western end of the freight yards.

The West bound passenger, due to arrive at Ballinger about midnight, was held up until about 4:00 o'clock by the derailment. Other trains on the line were also held up on account of the accident.

Marvin Tarrant, trainmaster from Brownwood, was out Wednesday morning with a wrecker and a crew of workmen and the engine was placed back on the rails about noon, after several hours toil. It was necessary to disconnect the engine from the fuel and water tank before it could be placed back in the right position.

The noon passenger train from Temple was two and a half hours late Wednesday on account of a derailment on the main line of the Santa Fe near Clovis, New Mexico.

While complaints are general of business depression in Japan, the theatres apparently are prosperous. More than 400,000 persons attended theatrical performances in Tokyo during September, or about 20 per cent of the population.

George Burke, of Dallas, is here visiting.

QUEEN

Friday and Saturday
Edwin Day, of the Day Gin in Ballinger, has secured a News Reel showing—

Cotton

—its production and preparation for market by modern methods, as produced by Anderson, Clayton Co., of Houston, Texas.

If you are a cotton farmer or interested in cotton in any way it will be worth your time to see this motion picture.

This picture will be shown in addition to our regular program and at no advance in prices.

Famed Old Spanish Governor's Palace May Be Rehabilitated

SAN ANTONIO, Nov. 15.—Second-hand shops and small stores now fill the halls of the palace where once the governors of Spain ruled Texas with all the pomp and circumstance of the Spanish court, but Texas patriots are organizing here to rescue the old stronghold and preserve it for the state.

Efforts are being made by the Texas Historical and Landmarks Association and the Sons and Daughters of the Heroes of Texas to have the city purchase the building and restore it as far as possible.

The structure, which stands at a corner of Military Plaza in the downtown district, is perhaps the only palace in the United States and the only building of its type in North America. Many of the men and romantic events that cluster about its colorful history have reentered into the historical disk that shrouds its original masters, the Conquistadores, but the old Spanish coat of arms and the date, 1749, can still be plainly seen above the door. The building was constructed at about the time that the Austrian and the Spanish royal families were united by marriage, and this event is noted in the coat of arms which includes the Austrian double eagle.

When Mexico gained its independence from Spain, most of the Spanish coats of arms were destroyed, but San Antonio, on the far frontier, escaped much of this destruction and the old place of the military governors is one of the finest examples of the Spanish regime remaining.

Miss Adina De Zavala, of San Antonio, a granddaughter of Texas' first vice-president, and president of the societies engaged in the movement to rescue the old building, believes that it is the most important historical structure in the state, not even excepting the Alamo, a portion of which still stands in the downtown district.

"The building is the very epitome of Texas history," Miss De Zavala said. "Here every pioneer of the state has left some memory, some association worth saving. The original Spanish governors occupied it, riding with all of the courtly grace of their sovereign, the King of Spain."

Lieutenant Zebulon Pike, in his diary, tells of visiting the palace and meeting three Spanish governors, Cordero, governor of the province, Salcedo, who was to succeed him, and Herrera, governor of Nuevo Leon, who was visiting with him. Pike tells of the elegance and feudal magnificence of the governors and of their culture. During the day, he says, they were very business like, but at night they held elaborate receptions in the plaza and danced with their subjects.

"Later Moses Austin, father of Stephen F. Austin, visited Governor Martin in the palace to seek a passport, only to be coldly rebuffed. The rebuff, he learned, was because he had not been introduced, and so, with the help of his friend, Baron Bastrop, he returned and obtained a passport to Mexico, where he went to further his colonization schemes.

"After Mexico became free, the Mexican governors ruled the state and a part of New Mexico from the palace, but they were driven out when the Texans under Francis Johnson captured the town. The palace was the last building to fall.

"When the Texans won the battle of San Jacinto, Captain Seguin took the palace for his headquarters. Here the bones of the heroes of the Alamo—Bowie, Crockett, and the others, lay in state. All of them had been frequent visitors at the building before their death. The building has been a landmark to all our illustrious pioneers and we cannot let it fall to pieces."

The palace was built around a large patio and was two stories high at either end with one story halls connecting across the other two sides of the patio.

The patio with its fountain, garden and a "secret staircase" that figured in many romantic episodes, has been destroyed, but the original walls of the place, some three feet thick, are in fairly good condition.

The societies believe that money can be obtained to repair the walls and re-roof the building, if the city will purchase the land.

Rio Coffee per pound 25c. Cane Syrup 75 cents per gallon. U. E. Hartman, Grocer.

Uncle Sam Puts Foot Down on Lily Prophet

SAN FRANCISCO, Nov. 17.—The "Avenue of the Temple of Heaven" mourns. An indescribable loss is felt in the narrow streets and dark alleyways of San Francisco's Chinatown, for the government has placed its foot down on further importations of the famed Chinese water lily or narcissus, because destructive insects have been found secreted in the innocent looking bulbs.

The fragrant plant, some Chinese believe, has powers to prophesy the grower's prospects for the ensuing year. Generally at this time of the year, the bulbs are being prepared for planting, timed to blossom forth their flowery message of hope or despair on the first day of the new year.

Some have tried to preserve last year's flowers by drying them and burying them in earth, but the outcome of this method is uncertain and as no substitute has been found Chinatown faces abandonment of one of its principal New Year's table decorations.

Mr. and Mrs. Asa Cordill and Mr. and Mrs. C. P. Shepherd returned Tuesday evening from a visit to their daughters, Miss Margaret Cordill and Miss Evelyn Shepherd, who are attending Southwestern University at Georgetown.

The Gulline That Does Not Affect the Head because of its tonic and laxative effect. LAXATIVE BROMO QUININE Tablets can be taken to anyone without causing nervousness or ringing in the head. E. W. GROVE'S signature on box. 50c.

"Brighter" burials have been determined upon by the British Undertakers' Woodwork Association. New basket designs are for beautiful and graceful workmanship.

TELEPHONE MEET IN BROWNWOOD

M. C. Atkins, local manager of the West Texas Telephone Company; I. M. Preston, Winters manager; and John Skipper, Paint Rock manager, left Wednesday morning for Brownwood where they will attend the annual meeting of the Texas Independent Telephone Association, which convened at 11:00 a. m. Wednesday and was to continue through Thursday evening.

Miss Edna Maxwell, chief operator of the local office, and Miss Ruth Carter, chief operator of the Winters office, went to Brownwood Wednesday afternoon to attend the convention.

The meeting will be held at the American Legion club rooms of the Soldiers and Sailors Memorial Hall.

Many prominent speakers are scheduled to make addresses at this meeting, among them being Judge G. N. Harrison, president of the West Texas Telephone Company; John Y. Rust, president of the San Angelo Telephone Company; R. B. Still, of Tyler, president of the association; Fred W. Greber, vice-president and general manager of the West Texas Telephone Company; George McQuaid, director of the Texas Public Service Bureau; and Charles Milliger, of Llano, president of the United Telephone Company.

Many representative of the various telephone companies of Texas, and especially West Texas, are expected to attend the sessions.

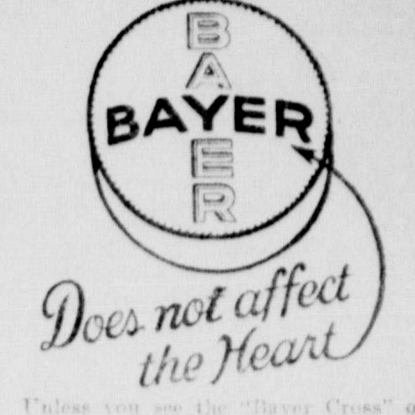

Parties going from Ballinger to attend the meeting will remain there until Friday morning.

After November 29, 1926, our Talpa Gin will run on Wednesdays and Saturdays only. Hollinger & Freeman. 19-17w

Mr. and Mrs. Collis Doose were here the first of the week, visiting Mr. Doose's father, C. A. Doose, and other relatives. Collis has transferred his activities to the Wichita Falls oil field.

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin—proved safe by millions and prescribed by physicians over twenty-five years for

Colds, Headache, Neuritis, Lumbago, Toothache, Rheumatism, Neuralgia, Pain, Pain

Each unbroken "Bayer" package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100.

Stone Yields Fish 2,000,000 Years Old

SAN FRANCISCO, Nov. 16.—A fossil fish, believed to be two million years old and belonging to the oldest known fish family, the ganoidi, has been brought to light by the chisel of a stone cutter in a yard here.

The fish, which was petrified, was found in a block of limestone. It was ten inches long and perfect in every detail, even showing the color of the flesh and the scales. Differing from other specimens of the ganoid family, the fossil is rather round and stubby.

Mrs. T. P. Armfield has returned to her home in Terrell following a visit here to her sister, Miss Jennie Bennett.

Mrs. Homer Carsey has returned from Comanche, where she attended the funeral of an uncle, Charles Butler.

MUSICAL PROGRAM AND VARIOUS ENTERTAINMENTS THROUGHOUT THE DAY

Women Need a Mild Laxative -Not a "Physic"

DR. W. B. CALDWELL AT THE AGE OF 83

Countless girls and women now know how foolish and needless it is to "purge" and "physic" themselves to avoid sick headache, dizziness, biliousness, sallow skin, colds, or sour, gassy stomach.

They have found that Dr. Caldwell's Syrup Pepsin helps to establish natural bowel "regularity" even for those heretofore chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it never gripes, sickens or upsets the most delicate girl or woman. Besides, it is absolutely harmless and so pleasant that even a cross, feverish, bilious, sick child gladly takes it.

Buy a large 60-cent bottle at any store that sells medicine or write "Syrup Pepsin," Monticello, Illinois, for a FREE SAMPLE BOTTLE and just see for yourself.

Dr. Caldwell's SYRUP PEPSIN

Bearcats are Overwhelmed By Brady Squad; 32 to 7

It was the Brady Bull Dogs who gave the Ballinger Bearcats their first loss of the season in the Class B district championship race by a score of 32 to 7.

The Bearcats were just not enough to stop the plunging little backs of the Brady team who made their touchdowns on fake plays behind the line of scrimmage where every man in the backfield had his hands on the ball at least one time during the play. From the beginning the Bearcats lost their pep and after the first touchdown they could not get going right through the line and around the ends of the Brady squad.

But the first two touchdowns came as the results of breaks in favor of the Bull Dogs and nothing could overcome these breaks. It was the breaks and fakes that made Ballinger a loser in the contest. The loss of this game was not due to the lack of support because about 500 Bearcat fans made the trip to Brady to witness the game. The Ballinger band and pep squad also went on this trip and proved that Ballinger was behind the team almost 100 per cent.

Before the game, immediately after lunch, that is lunch for all who were lucky enough to get anything to eat, the band, pep squad and the remainder of the rooters lined up on the Melchior county square and proceeded to march around the square with the band playing. After this the entire delegation went to Richards Park, West of the city, where the slaughter took place.

The Bull Dogs were "bear hunting" they said, and they evidently were successful as they made five touchdowns, kicked two of the extra points and made 15 first downs, while Ballinger made no touchdowns, got the extra point when a Brady line man was offside, and was credited with seven first downs.

Stars for the Bearcats were Rayburn, playing at quarter, McKenzie, playing at half, and Turkey and Foreman, ends of the team. Rayburn was credited with the touchdown, while McKenzie was credited with most of the first downs, with Turkey and Foreman breaking plays coming around their ends.

For Brady, the entire team starred. The Bull Dog linemen

BREAKS A COLD IN A HURRY

"Pape's Cold Compound" is pleasant and affords instant relief

A dose taken every two hours until three doses are taken will end gripe misery and break up a cold. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffing! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only thirty-five cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine. Don't accept something else.

WINTERS WRITER COMPARES TEAMS

Following is the second in a series of articles by a Winters newspaper writer comparing the Ballinger high school and Winters high school football teams:

"Last week we gave a comparison of the centers and backs of the Winters and Ballinger teams. In this article we will endeavor to take up the merits of the ends and tackles as impartially as possible.

Roberts, the giant 185-pound end of Winters will be pitted against the plucky little J. D. Foreman. Foreman weighs about 150 pounds and is fast, a good tackler, and a fair pass receiver, but in this day and age when the end is expected to block the tackle on the offense Foreman will be at a decided disadvantage when he attempts to block Holliday who will weigh almost as much as Roberts. Roberts has the edge on power, pass receiving and on ability to block the offense, where Foreman will have the speed advantage. Roberts is more versatile because of his punting, passing and ability to kick off as well as send the place kicks between the bars at long range.

Foreman will be aided by either 'Pug' Powell, who is out at present with appendicitis, or by 'Speck' Rayburn. Rayburn has already been discussed, so Powell will be considered. Powell is playing his second year as a regular member of the Bearcat team. He is a clear headed player and gains are seldom made on his side of the line while most of the Ballinger drives are put over his side of the line. Powell will face Holliday, who is larger, faster, and equally as aggressive. It will surely be a test of Holliday's grit for that side of the line gets most of the punishment,

as most quarters run the majority of their plays to the right, according to Bob Zupke, coach of the University of Illinois.

"On the other end we will be favored by a merry battle between Captain Tuckey and 'Bottles' Bartlett. Almost equal in size, speed and ability, the pair will be battling for the best that is in them. Tuckey is a clean, hard fighter, a real man, and a fellow who well deserves to be the leader of a good team. He is a deadly tackler, a good pass receiver and fair at blocking on the offense. Bartlett is fast, a fair pass receiver and a fierce tackler. Honors here are close.

"At this tackle for the Bearcats will likely be Allan Mason, a bundle of nerves, long and rangy, yet plucky to the end. Mason is usually too anxious to be cool headed but is very formidable on the defense. In the game of last week he drew many of the offside penalties that the Bearcats got due to being over-anxious. Campbell for the Blizzards is stockier, slower and more aggressive, but has been outplayed by one or two opponents this season, but has held his ground in the last two games. He charges well on passes and punts, and will likely give Tuckey and Mason a good task keeping him out of plays.

"Next week the guards will be taken up and the entire team commented on as a whole."

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVES O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Groves O-Pen-Trate Salve through the pores of the skin soon stops a cough. Both remedies are packed in one carton and the cost of the combined treatment is 50c. Just ask your druggist for HAYES' HEALING HONEY.

"MERRY WIVES" HOME DEMONSTRATION CLUB

The Merry Wives Home Demonstration Club of South Ballinger met Tuesday, November 9th with Mrs. C. D. Harris. A good per cent of the members were present who enjoyed the subject, "Cook Aprons." There were eight or ten aprons exhibited and all discussed the good and bad points. Some were criticized as to the kind of materials, color, and suitability for kitchen aprons. Such questions as, "What Constitutes a Kitchen Apron?" "Is it Worthwhile to Buy Good Material and Make Well?" "Should a Kitchen Apron be Made Plain and Tailored, or should it be Decorated, (sometimes over-decorated) with applique and embroidery. These and others were discussed pro and con. And when the county kitchen apron contest is over, we hope to have a better standard of kitchen aprons in the Merry Wives Club.

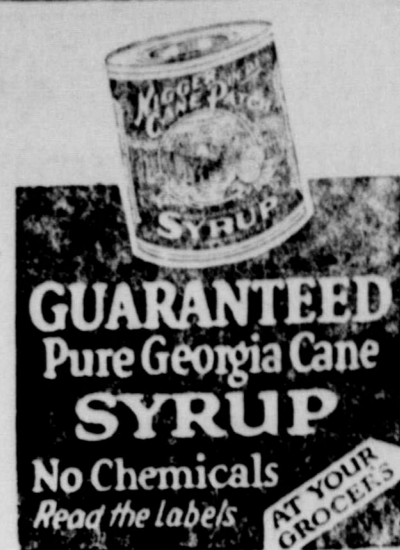

Our next meeting will be Nov. 23rd with Mrs. R. P. Zedlitz. The subject is "Pastry." In the absence of Miss Key, Mrs. C. D. Harris has consented to give the demonstration.

"Reporter."

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by Weeks Drug Store

P. P. Pyle, of San Antonio, representative of the Brunswick photograph company, was in Ballinger Monday and Tuesday looking after business and conferring with the local dealer, the King-Holt Furniture Company.

BROTHER OF LEE BUTLER DIES SUNDAY IN COMANCHE

Charles W. Butler, a brother of Lee Butler, of this city, died Sunday afternoon at 5:00 o'clock at his home in Comanche following a short illness. He was a native of Comanche county.

Lee Butler and his mother, Mrs. M. E. Butler, went to Comanche Friday to be at the bedside of their brother and son.

Monday, Mrs. Lee Butler and daughters, Misses Tauline and Mildred, and Mrs. K. V. Northington; Mr. and Mrs. Truman Butler, and W. B. Dunlap went to Comanche to attend the funeral.

Dr. J. G. Douglass, C. R. Stephens, R. W. Bruce and H. P. Nichols left Monday for the Menard and Junction country, where they will spend several days hunting. The party expects to return to Ballinger the latter part of this week.

A college will be erected and endowed with American money in the Scottish highlands to foster and stimulate Gaelic literature and language.

13 PIRATES KILLED IN SHIP FIGHT

HONG KONG, Nov. 17.—Twelve pirates were killed, one drowned and nine captured in a desperate battle on the decks of a British steamer while running and subsequent to the pursuit of the fleeing buccaneers some 80 miles off Hong Kong, it was learned today when the ship, badly gutted by fire and bearing gruesome marks of the encounter, was towed into this port under guard.

The battle, it was said, occurred late Monday.

Movies of Human Organs Better Than Lectures

ROCHESTER, Minn., Nov. 13.—Motion pictures of vital areas of the human body may replace class room lectures in medical schools, says Dr. Walter C. Alvarez of the Mayo Clinic.

"More actual learning can be accomplished by having students observe a 15-minute run of movie film than by giving the same students ten lectures," he declares. "The advantage to the student who studies physiology is that he actually sees the function of the body in motion pictures and can learn more in that way than by numerous lectures."

CRUDE OIL GETS ANOTHER CUT

TULSA, Okla., Nov. 17.—Mid-continent crude oil prices were cut today by the Prairie Oil & Gas Company and the Sinclair Oil Company, ranging from 15 cents for 28 degrees gravity to 87 cents on top grade oil.

Curious Facts About Your Car and Its "Gas"

By ALAN P. INGALLS

New York is one of the four states which have no consumption tax on gasoline. The last legislature appointed a committee to consider motor vehicle legislation generally, and it has been holding hearings, some of them dealing particularly with the question of a gasoline tax. Newspapers report that sentiment for such a tax is stronger than formerly on the ground that if the money is spent for highways it will equalize conditions as between New York and other states. Hundreds of thousands of motorists constantly use New York's roads, and it is urged that such a tax would compel them to contribute toward their building and maintenance. The New York motorist outside of his own state pays gas taxes to help maintain the roads he uses, and it is felt that the state ought to work both ways. Some automobile clubs in the state have declared in favor of a two cent tax, which it is expected would produce about \$15,000,000 annually.

The United States is now supplying over seventy per cent of the world's crude oil production. Since 1857 this country has supplied sixty-four per cent of the world's total output, as revealed by the following recent figures: World production, 13,467,493,000 barrels; United States production, 8,699,522,000. This country, however, accounts for the bulk of the world's consumption. With an oil-fueled navy, a sixty-four per cent oil burning merchant marine and twenty million motor cars the United States is more dependent upon oil than any other country.

The Carnegie Institute of Technology at a conference to be held at Pittsburgh November 15 to 19 to consider new uses for bituminous coal will hear the results of recent investigations on deriving oil from coal. Among the speakers are Dr. Frederick Bergius of Heidelberg, Germany, inventor of the Bergius method of production of oil from coal, and Franz Fischer, director of the Institute of Coal Research, Essen, Germany, and General Georges Pellat of France, inventor of a process for making methyl alcohol from coal.

British pottery ovens are now being successfully fired by oil fuel as a substitute for coal. So satisfactory have been the results that it is now predicted that the whole method of pottery firing may be revolutionized.

SHERRY WINE WAITS 80 YEARS FOR SALE

XERES, Spain, Nov. 16.—Xeres is equally famous as being the birthplace of General Primo de Rivera and sherry wine. The Spanish dictator at the age of 60 may be said to have his career behind him while sherry wine must be eighty years old before starting out in the world.

The amber wine of Andalusia which the connoisseurs of A. D. 2006 will relish has just now been placed in the "wood."

America, prohibition notwithstanding, plays an important part in the fermentation of sherry. A port pipe is generally made of oak from the Baltic States but a sherry butt must be of American oak.

The grapes are pruned down to

a limited yield and dried in the sun from one to two days to increase the sugar content after picking. Men in specially constructed wooden shoes tread out the first juice. The residue is then packed into a pyramid and gypsum added with a wooden spade—no metal must touch the grape at any time. The pyramid is then secured with esparto-grass matting and the must pressed out.

The sherry is then transferred to its casks to be graduated later into its blending cellars. The butts are arranged in tiers, the bottom tier containing the mother wine, sufficiently matured for shipping. Above this tier are casks of younger wine, with the year's vintage at the top. When the wine is drawn from the bottom tier for export or internal

shipping an equal amount is placed into the cask from the tier above and the second tier replenished from the younger wine, generally three or four years old.

A really great sherry is usually eighty years old, mellow and a golden brown.

In the "bodegas" of Xeres there may be found sherry dating back two hundred years. It is a black thick syrup, fragrant but unfit for drinking.

Unloose Two New Bugs to Fight Corn Borer

CHATHAM, Ont., Nov. 12.—Exeristes roborator and habrobracon brevicornis, two insects whose predatory habits are as formidable as their names, are being introduced by Dominion entomologists to prey upon the

European corn borer.

Resembling armored cockroaches and bearing deadly stingers, the foreign parasites are natural foes of the corn borer pest. They feed upon the larvae and adults of the borer, but so far as has been determined, are harmless to crops.

Hordes of the insect warriors are being cultured and liberated at regular intervals.

The insects were imported from the corn growing regions of Hungary with the aid of the United States corn borer experiment station at Arlington, Mass.

Has Not Seen His Play in 1200 Performances

TORQUAY, England, Nov. 15.—Eden Phillpotts, author of "The Farmer's Wife," which has reached its 1200th performance

in London has never seen the play, and does not intend to, his reasons being entirely sentimental.

Some of the characters are drawn from real life, Devon folk whom the novelist loved and who are no more, and he shrinks from the idea of seeing them on the stage. Mr. Phillpotts sends the members of the cast wines and other gifts whenever another "hundredth night" is reached.

America's first peanut exposition will be held the latter part of December in the town of Windsor, in the heart of the Virginia and North Carolina peanut belt.

**SAW HER SISTER
KISS REV. HALL**

SOMERVILLE, N. J., Nov. 16.—That she saw her sister, Mrs. Elenora Mills, kiss Rev. Edward Wheeler Hall in 1918, but was assured by Mrs. Mills that relations between them were quite proper, was the testimony of Mrs. Mary Lee, of Paterson, New Jersey, in the Hall-Mills case here today.

Mrs. Mills insisted that there was nothing wrong and repeated it in 1921, Mrs. Lee said, but added that in April of the following year, her sister told her in the presence of James Mills, her husband, that she was going away with Hall.

JERSEY CITY, Nov. 17.—The condition of Mrs. Jane Gibson, for whom the Hall-Mills trial at Somerville has been adjourned until tomorrow, remains good, it was officially stated at a Jersey City hospital today.

Mrs. Gibson, who is to be the state's most important witness, will be able to leave in an ambulance early tomorrow, it was asserted.

**CHICAGO SHERIFF
DIES IN HOSPITAL**

CHICAGO, Nov. 16.—Patrick Carr, sheriff-elect of Cook county, who was hurried to a hospital on election night after leading the Democratic ticket in Chicago, died today.

Two blood transfusions were made yesterday in an attempt to save his life that was ebbing away from internal hemorrhages.

**Quick Thinking Needed
in Movie Title Writing**

HOLLYWOOD, Calif., Nov. 16.—As situations flash through a fast moving photoplay, the motion picture title writer injects himself into them and speaks for the characters.

Speed makes his art peculiar. The author takes his time with a limited number of characters and the actor studies his role. But the title writer thinks situationally and the characters he speaks for are without number.

An outstanding figure in this new profession is H. H. Caldwell, who, with Katherine Hilliker, writes titles for Fox Films.

A cadet at Annapolis, Caldwell was aide on the flagship at the battle of Manila Bay. When Admiral Dewey married, he was best man. Becoming interested in a company filming scenes, Caldwell turned experimentally to the titles, and soon, in a feature production, his talent found itself. After the war he returned to find his film position had been permanently filled by Miss Hilliker. After a brief courtship he married her. Mrs. Caldwell had herself won such distinction that her maiden name was retained.

**HOUSTON MAN BEQUEATHS
\$300,000 TO PARKS IN CITY**

HOUSTON, Nov. 16.—Ideas which take shape in the minds of men after they have attained considerable wealth are often revealed in their wills.

H. F. Macgregor, when he died in Houston in 1923, apparently considered that parks were the most important forms of public service to which his estate could be devoted and he left in excess of \$300,000 of his \$500,000 estate for those purposes.

Mr. Macgregor was manager of the street railway company here for many years. He also became a real estate operator and in later years became widely known as a

Republican national committee man from Texas.

Among his benefactions to Houston was Macgregor Park of 110 acres, costing \$80,000 with an endowment of \$50,000 for maintenance; a serpentine parkway, costing \$100,000, connecting Macgregor Park with Hermann Park, a city-owned institution of several hundred acres; a small park opposite a school building, valued at \$10,000 in which a fountain costing \$35,000 will soon be erected; and a park and library in Derry, New Hampshire, Mr. Macgregor's boyhood home, to which was given \$80,000. Derry has 6,000 inhabitants.

Approximately \$110,000 additional has been paid out of the estate in legacies. Within two years the estate will have been liquidated, according to John Vandemark, of the Federal Land Bank at Houston. Mr. Vandemark is one of the executors.

**ORDERS ARRESTS
IN TRAPPER WAR**

NEW ORLEANS, Nov. 17.—Judge Lewis Burns, of the federal court here, today signed a warrant for contempt issued against Manuel Malero, former president of the St. Bernard Trappers Association, and hundreds of others.

The warrant was issued as the result of the battle between the trappers and guards of the trapping lands near here yesterday in which one man was killed and several injured.

Mr. and Mrs. John B. Luton and Mr. and Mrs. L. W. Walker, of the Walker Hotel of San Angelo, were in Ballinger Monday looking after business and attending the district convention of the West Texas Chamber of Commerce.

Hans Lange of Leipzig in fifteen years of steady flying as an air pilot has piled up a total of more than half a million kilometers along war and peace airways.

Ledger advertising pays.

**WANTS GIRLS TO
QUIT SMOKING**

FORT WORTH, Nov. 16.—Cigarette smoking among high school girls was one of the phases of scholastic life deserving the official frown from the Texas Congress of Mothers and the Parent-Teachers Association, in the opinion of Mrs. Ella Porter, of Dallas, founder of the organization whose four-day convention is underway here.

Modified dress and the twin movement against the over use of cosmetics is another problem that the parents ought to take a hand in through the individual associations, Mrs. Porter believes.

**UNCLE JOE IS
BURIED TODAY**

DANVILLE, Ill., Nov. 16.—Uncle Joe Cannon, famed by the way he once ruled the national House of Representatives, was laid to rest here today.

In less than an hour the obsequies marked the services at the church and the grave.

Vice-President Dawes and others who arose to political eminence during Cannon's public life stood with the throng which packed the church, but there was no other flavor of official tribute at the family's request.

**WITHDRAWS MOTION FOR
MANSLAUGHTER RE-HEARING**

AUSTIN, Nov. 17.—William Lester Crawford, sentenced from Dallas county to the penitentiary for five years for manslaughter in connection with the killing of Paul O'Day, today withdrew his motion for a re-hearing before the Court of Criminal Appeals.

"Prince," of a team of four white horses which used to draw King George's coach on state occasions, has given up the road of royalty and gone on the road as a circus performer.

Countless girls how foolish are "purge" and "p" avoid sick heada nose, sallow skin stomach.

These \$1,500.00 Prizes.

To be given away to Runnels schools by

**The Daily Ledger and
The Banner-Ledger**

Forty schools in this county are hard at work this week to gain the lead and by Saturday there will probably be a change in the standing.

Here's the Prizes

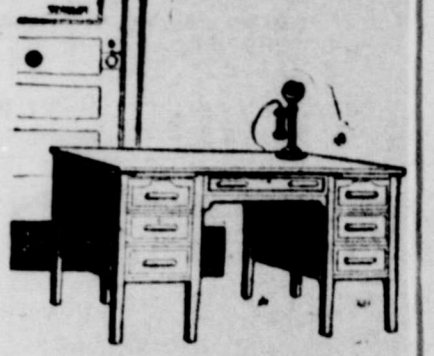

**FIRST PRIZE
Brunswick Radiola**

\$450.00 Phonograph and Radio Combined
A \$450 Console cabinet in two-tone Adam Brown Mahogany with Legs and Stretcher slightly high-lighted.

This instrument combines the new Brunswick Phonograph with the new six-tube Super-Heterodyne Radiola, battery operated.

EQUIPMENT—Employs five UX-199 and one UX-120 Radiotrons. Operates on nine 1.2 volt dry cell "A" batteries, and either six 22 1/2 volt or three 45volt "B" batteries. (Flat Type.) One 22 1/2 volt "B" battery used as a "C" battery. Newly developed reproducer, tone arm and tone chamber. Record turntable, operated by three-spring motor. Hardware gold plated. Four 10-inch record albums.

**THIRD PRIZE
Teacher's Desk
and Chair**

—made of quarter-sawed golden Oak, highly polished and in new Oak finish. Desk has book rail on top, three drawers, back of desk is solid. Neatly trimmed with fancy drawer rings. All joints are slot cut and the workmanship is the best known. Dust-proof drawers are highly polished on inside.

Revolving Arm Chair to match is part of the set with the beautiful Teacher's Desk. Chair has casters of steel. These two pieces of furniture are made of the very choicest Oak and will add much to the charm of any school room.

Second Prize

You may take your choice of any of the 3 sets
Baseball Basketball Tennis

Radiola and Desk purchased from King-Holt, Athletic Set from Weeks.

CHILD GETS SICK CROSS, FEVERISH IF CONSTIPATED

Look at tongue! Then give fruit laxative for stomach, liver, bowels

"California Fig Syrup" can't harm children and they love it

Mother! Your child isn't naturally cross and feverish. See if tongue is coated; this is a sure sign the little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Fig Syrup" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious, "fruity laxative" and it never fails to effect a good "inside cleansing." Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Fig Syrup," then see that it is made by "The California Fig Syrup Company."

CULWELL LEAVES FOR CONFERENCE

Rev. and Mrs. S. L. Culwell will leave Monday for Waco where they go to attend the annual conference of the Methodist church, which convenes in that city next week.

Rev. Culwell will make a very favorable report to the State Conference when he goes to Waco, it was announced Saturday.

Since the year closes Sunday, the report will be made over that date, but to date there have been fifty-five additions to the church in the past year and some \$20,000 has been raised by the membership.

The most noteworthy result of the past year is that of the new church building which has been paid for and is now free from all debts. The church was constructed just as the money was paid in and not an individual or ecclesiastical body holds a bill against the Ballinger Methodist church.

Regular services will be held at this church tomorrow with Rev. Culwell delivering the morning sermon at 11 o'clock and the evening sermon at 7:15 o'clock.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

TO HOLD 57-YEAR OLD COTTON AS HEIRLOOM

(By Associated Press)

CHIPLEY, Ga., Nov. 14.—A bale of cotton almost 57 years old, is owned here by heirs of Christopher Columbus Jones, who in September 1870 had the bale ginned and then held it year after year for the price he had resolved to get for it—22 1/2 cents per pound.

Planter Jones sold his other cotton but obstinately held to his bale on which he placed a price of \$132.07 1/2 for its original 587 pounds. Eventually the "treasure-trove" became a family pet, so to speak, and its sentimental value was such that in recent years when cotton soared to its 45c per pound peak, no offers were entertained.

Ginned in the old-fashioned way, the cotton remains in what is left of the original bagging and ties and its quality has not deteriorated. Experts have graded the lint as "No. 2" and reported that the fibre pulls one and one-sixteenth inches.

The heirs have agreed that the bale never should be sold.

All-White Weddings

Again are the Vogue LONDON, Nov. 16.—All-white weddings again are fashionable. One was chosen by Miss Joan Southey for her marriage to the Master of Falkland. Her dress was of "moyen age" white satin with a beautiful train embroidered in madonna lilies. She wore orange blossoms in her hair. Her nine young bridesmaids were attired in white frocks and wore wreaths of jasmine in their hair.

Auto Horn Means Any Vehicle in Marseilles

MARSEILLES, France, Nov. 15.—The honk of an automobile horn here warns against anything but an automobile.

Virtually all the motor cars have the modern type of mechanical noise producers while the old fashioned hand-worked horns now are used on bicycles, horse-drawn carriages, street cars and motor boats.

Mrs. S. L. Scott, of Haskell, is here visiting her brother, B. W. Bigham, and her niece, Mrs. Ollie Lewis, and family. Mrs. Scott leaves Monday for Saratoga to spend the winter with relatives and friends.

Unblemished SKIN

Gives You confidence

HOW conscious we are of our skin! How one little pimple or black-head will so embarrass us that we want to hide right away. And eczema, boils, blotches and rashes! Why, these awful things simply destroy all our ambition!

But what confidence we have in ourselves if our skin is clear and unblemished—free from any eruptions or breaking out! A clear skin is one of the greatest possessions in the world—and it is so easy to have it. All that is necessary is to keep our systems full of rich, red, pure blood. S. S. S. helps Nature build this blood. And the impurities that cause these so-called skin disorders are driven right out of the system.

If you want the kind of skin that captivates men and compels the admiration of other women, just remember that you can't have it if your blood is impoverished. But, just build red-blood-cells in your blood with S. S. S. and your dream of a soft, rosy, velvet skin, clear of blemishes, will be realized. Then notice the difference in the way you feel.

S. S. S. has proven for generations that it helps Nature build the rich, red blood that makes beautiful skin and healthy bodies. Let S. S. S. prove it for you. Get S. S. S. from any drug store. And get the larger bottle. It's more economical.

BOSWELL WILL REFEREE GAME

William Boswell, Center College star of years past, will referee the game at Winters Friday between the Ballinger Bearcats and the Winters Blizzards, the last scheduled game of the season for both squads.

Boswell is an official of the Southwestern Conference officiating squad and has worked at many of the larger college games of the state this season.

For umpire there will be "Dutch" Meyer, Freshman coach at Texas Christian University at Fort Worth. Bill Vaughan, of Brownwood, formerly of Southern Methodist University, will be head linesman.

The above announcements were made here Saturday afternoon by Coach C. R. Smith, of the Winters team, with Supt. A. H. Smith, of the Winters city schools, came to Ballinger to look after business, and place tickets for the game on sale here at Weeks' drug store. These tickets will be on sale until 6:00 o'clock Thursday afternoon of this week. After that hour they will be taken off sale here and will not be sold until shortly before the game in Winters Friday afternoon.

Tickets here will sell as follows: adults 75 cents, children 50 cents. Friday they will be worth \$1 and 75 cents, so it will mean a saving of twenty-five cents to purchase your ticket for the game before they are taken off sale here.

It has been said that every business house will close up at 2:00 o'clock for this event and remain closed during the remainder of the afternoon. Many business men have said they would turn their entire force out for this game and let them all go over to Winters and root for the Bearcats.

KIDNEYS NEED LOTS OF WATER AT TIMES

If Back Hurts or Bladder Bothers, Also Take a Little Salts

Most folks forget that the kidneys, like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders.

Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble.

GRANGER GETS TWO YEARS FOR FORGERY

George F. Granger, charged with forgery by grand jury indictment, entered a plea of guilty in district court here Friday morning and was given two years in the penitentiary by a jury.

Granger has now stood trial in six different counties and has a total of 23 years to serve in the penitentiary, Sheriff R. E. McWilliams said. He was tried on forgery charges in each instance.

Mrs. Robert Bailey has returned from Ozona, where she had been visiting a son for the past few weeks.

A. E. Barksdale, district commercial manager of the Western Union Telegraph Company, was in Ballinger on business and looking over the city on Armistice Day.

What Is a Diuretic?

People Are Learning the Value of Occasional Use.

EVERYONE knows that a laxative stimulates the bowels. A diuretic performs a similar function to the kidneys. Under the strain of our modern life, our organs are apt to become sluggish and require assistance. More and more people are learning to use Doan's Pills, occasionally, to insure good elimination which is so essential to good health. More than 50,000 grateful users have given Doan's signed recommendations. Scarcely a community but has its representation. Ask your neighbor!

Gargle with warm salt water—then apply over throat—Over 17 Million Jars Used Yearly

Ed Jay, of Abilene, was in Ballinger Monday looking after business.

Turkey Market Now Open Bring Us All You Can. We are New Firm Here and Pay the Best Prices. Pecan Valley Produce Co. T. C. Behrend, Mgr. Phone 398

To the Public I wish to state to the public that I have bought a Gin in Ballinger, from the Runnels County Gin Company, that Mr. Towler has been operating. I have this gin in first class condition in every respect—equipped with the Mitchel double saw bur extractor machines, I believe the best on the market. This being my first year in Ballinger I am taking this method of putting my business before the people and am asking a liberal patronage of the customers of this territory. Having been in the gin business fourteen years, with that experience and the very best machinery money can buy, I believe I am able to render you the best of service. That being my goal, I will not be satisfied with anything less. Assuring you that your loyal co-operation and liberal patronage will be very much appreciated, and will take pleasure in thanking you in advance. Hope to see you soon, as I am ready to gin your cotton at any time. W. F. MASON Proprietor

FARM AND RANCH LOANS We can make you a 34 year loan at 6% interest payable either annually or semi-annually, no stock to buy and no association to join, simply interest at 6%. We can also make you a 10 year loan at 6 1/2% simple interest, with option to pay as much as one-fifth of principle each year. No extra cost in securing our loans. Get ahead of low cotton and feed and get your land notes extended NOW. McCarver and Lynn ABSTRACTS, LAND LOANS, GENERAL INSURANCE Ballinger, Texas.

BRONTE CITIZEN DIES SUDDENLY

J. A. Shook, age 56 years, died suddenly Friday evening at his filling station near the Orient depot from an attack of paralysis which came on while he was at work. He died before a physician could arrive.

Mr. Shook operated a filling station in Bronte and was up and about his work all day. In the past two years he had suffered similar attacks but had recovered from each one.

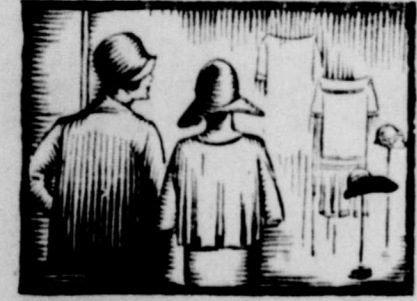

He is survived by his wife and two brothers. The brothers are due to arrive in Bronte Sunday afternoon, and funeral services will be held Monday afternoon.

Since about 1900 Mr. and Mrs. Shook had lived in and near Bronte, and Mr. Shook was one of the prominent citizens of the Coke county town.

Higginbotham Bros. & Company undertakers were called from this city to prepare the body for burial. Interment will be made in the Bronte cemetery.

Lee Butler and mother left Friday afternoon for Comanche in response to a message stating that their brother and son was seriously ill.

John G. Richards, who will become governor of South Carolina in January, is the father of nine daughters.

Dresses Cost Half What They Used To!

You needn't spend a lot to keep up with the season's color changes. Nor even know how to sew! Make all your old dresses latest shades—through the magic of home dyeing. It's so easy to do beautiful dyeing, or perfectly gorgeous tinting, if you'll only use original Diamond Dyes (true dyes). Brighten the house, too; curtains, spreads, etc., are Diamond dyed in an hour or less. Any material, right over other colors.

FREE: your druggist gives you the Diamond Dye Cyclopedic; valuable suggestions, easy directions, actual piece-goods color samples. Or write postpaid from DIAMOND DYES, Dept. N16, Burlington, Vermont.

Diamond Dyes Make it NEW for 15 cts!

COURT ADJOURNS HERE FOR TERM

District court for the October term in this county adjourned Friday, with Judge J. O. Woodward closing the docket for this term and preparing to open court in another city of this district.

During the past three weeks 17 pleas of guilty have been heard in the court. Twelve were given penitentiary sentences of two years each, while five were given suspended sentences. Juries assessed the penalties in each instance.

Only a few civil suits were heard during the past term.

Judge Woodward returned to his home in Coleman Friday afternoon, while District Attorney Walter U. Early returned to his home in Brownwood.

Scott's Emulsion During Aftermath of Grippe—Builds Up Strength

RETURN FROM FUNERAL OF BUSINESS ASSOCIATE

C. A. and Will Dorse have returned from San Antonio where they attended the funeral of H. Clemens, 57, former banker of New Braunfels and for the past three years a resident of San Antonio, who died Wednesday morning of last week.

Mr. Clemens came out to Runnels county in 1900 and purchased some of the farm land of this county, being at that time associated with C. A. and Will Dorse in the real estate business.

In 1908, after serving in a bank at New Braunfels for about 25 years, he moved to Austin and entered the real estate business. He has continued actively in that work since.

Funeral services were held from the home of a friend in New Braunfels, with interment being made in the Comal town cemetery.

PILES

Vincent's Wonderful New Treatment gives quick and permanent relief. Used at home, business and easy to administer, thoroughly tested and positive in results. Entirely DIFFERENT and not to be confused with other preparations on the market. A complete formula by a man who "KNOWS" and sold on a money back guarantee for only \$2.50. IT'S THE RIGHT MEDICINE. You'll say so too when you try it. 15c per box and instant MONEY BACK GUARANTEE. VINCENT'S MEDICINES, TEXAS, AND TEX.

CASSELL'S ADS

ANY SKIN ERUPTION HEALED WITH SULPHUR

Irritation and Breaking Out Often Healed Over Night. Says Skin Specialist.

Any breaking out or skin irritation on face, neck or body is overcome quickly by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings relief from the itching, burning and irritation.

Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Rowles Mentho-Sulphur may be obtained at any drug store.

SAY BABIES DISLIKE STETHOSCOPE ON CHEST

HOUSTON, Nov. 16.—Among other things which a baby dislikes most is to have a stethoscope placed against his chest. This curious aversion, it is said, came to the front at the regular examination of infants held here by the Social Service Bureau and the Child Welfare League under the direction of Mrs. A. A. Tomlinson, president of the league, and Miss Sabina Fritsch, supervising nurse at the bureau. Baby eyes, nose, ear and throat specialists and two dentists made the examinations.

Scores of babies were brought to the municipal auditorium to be registered, weighed, measured and examined. Some of them disliked the formality; others enjoyed it, but most of them, those in charge said, registered objection to the stethoscope test. Flat feet and knock knees were found in nine cases out of ten and malnutrition was a common ailment.

Rio Coffee per pound 25c. Cane Syrup 75 cents per gallon. U. E. Hartman, Grocer, 19-4f

L. Cohen and Mitchell Moore attended the funeral of Joe Forman Jr., infant son of Mr. and Mrs. Joe Forman, in Coleman Wednesday.

Arthur Giesecke has returned from Dallas where he attended to business and visited friends.

ORDERS ARE IN TRAPPER

NEW ORLEANS, Nov. 16.—The "Press and Progress" as his theme. Both were heard with evident interest.

More than a hundred attended the luncheon.

The afternoon session convened with Mr. McAdams again in the chair. Col. C. C. French, of the Fort Worth Stockyards Company, talked on "Hogging West Texas," and Col. Clarence Ousley, of Dallas, addressed on the subject of "Our Opportunities." Selection of a meeting place and adoption of the resolutions were among the business that was to come up during the afternoon.

The Ballinger Chamber of Commerce Band gave two concerts during the session, both being offered at the intersection of Hutchings Avenue and Eighth Street. Preceding the morning session, the band also played several selections in the auditorium. Sweetwater was selected as the place of convention for the 1927 meeting of the Central Texas District of the West Texas Chamber of Commerce. This decision was reached here Monday afternoon shortly before the convention adjourned.

At the luncheon held in the dining room of the Central Hotel at noon Monday, Houston Harte, publisher of the San Angelo Standard; and E. H. Whitehead, of Stamford, publicity manager of the West Texas Chamber of Commerce, were the principal speakers. Some fifteen or twenty delegates to the convention also made short remarks.

The luncheon was well attended by the delegates and local business men. The menu, as prepared by Mrs. Emma Nash, was especially appetizing. It consisted of turkey and dressing, peas, potatoes, fruit salad, cranberry sauce, hot rolls, coffee and pumpkin pie. It was liberally partaken of by those in attendance.

At the afternoon session, Col. C. C. French, of the Fort Worth Stockyards Company, talked on "Hogging West Texas," that is hogging the hog industry to West Texas and getting the best strains of swine distributed among the farmers of this great section as an industry. Only a few farmers were present at this meeting but they were free with their questions, such of which Col. French answered to the best of his knowledge.

The other speaker was Col. Clarence P. Ousley, of Dallas, who spoke in favor of diversification. He used as his subject "Our Opportunities."

Col. Ousley said that West Texans had many opportunities but that they were letting them slip from their grasp. Something should be done to relieve the agricultural situation in West Texas which is back of the prosperity which has made the section what it is today, the speaker declared.

Col. Ousley's talk was of much interest to the delegates and added to the lively interest taken in the convention here.

The resolutions adopted were prepared by W. G. Kinsolving, of Abilene, chairman of the committee. Judge Alfred Crager, Ballinger; Paul Brown, Robert Lee; Judge R. C. Crane, Sweetwater; and Houston Harte, San Angelo.

THE BALLINGER LEDGER

and approval be given to the program for 'More Food, Feed and Conservation,' as proposed by the committee appointed to draft this plan, and that all commercial and educational agencies of the state and particularly of West Texas be urged to lend their active support to the successful carrying out of this practical educational demonstration of diversification.

(2) That the banking interests of West Texas be urged to lend practical assistance to the program for furthering diversification by the extension of special consideration to those farmers who display a sincere and practical and active interest in such diversification.

(3) That the next Legislature give special attention to and make adequate appropriations for the furtherance of the campaign of the State educational institutions devoted to extermination and control of the plant disease known as root rot now threatening the agriculture of this state.

(4) That the next Legislature give special attention to and make adequate appropriations for the rapidly growing needs of all West Texas state educational institutions.

(5) That President Arthur P. Duggan, of the West Texas Chamber of Commerce, be especially commended for the earnest and able work which he has done and is doing toward accomplishment of a tax survey of Texas, and that this assembly urge the re-introduction of a joint resolution designed to accomplish this end at the next session of the Legislature.

(6) That the governor-elect of Texas be petitioned and especially urged to appoint as a member of the State Highway Commission some outstanding West Texas citizen to represent this great section of the State on this important public body.

(7) That those in attendance upon this meeting extend to the citizens of Ballinger and the Ballinger Chamber of Commerce their sincere appreciation for the cordial hospitality and many courtesies extended on this occasion, and to the representatives of the press for their able co-operation and assistance in furthering the ends of this conference.

"THE COMMITTEE"

Those who were registered as delegates numbered about 60, with about 18 West Texas cities being represented. They were as follows: Sweetwater, Scott W. Barnes, manager of the chamber of commerce; Herschel M. Colbert, Judge R. C. Crane, Claude W. Bryant, J. I. Ross, E. A. Blackburn, and Jess Robertson; Eden, J. R. Kulerde and J. A. Hall; Dallas, A. R. Ludgren and Col. Clarence Ousley; Lubbock, Dr. Paul W. Horn, president of Texas Tech; Abilene, Max Bentley, editor Reporter-News; T. N. Carswell, secretary of the Chamber of Commerce; W. G. Kinsolving and J. R. Masterson; San Angelo, Mr. and Mrs. John B. Lorton, Mr. and Mrs. L. W. Walker, Ballinger Bryan, secretary of the Board of City Development; C. M. Atkinson, Houston Harte, publisher of the Standard; Robert Lee, Paul J. Brown, C. E. Eaton and J. S. Craddock; Stamford, Hauer D. Wadley, E. H. Whitehead; San Saba, W. D. Cargill, Ballinger, M. C. Atkins, Judge Alfred Crager, Sam Behringer, Frank H. Cameron, A. Sledge Jr., J. D. Motley, J. Mcgregor, John A. Weeks, Tom Candler, E. E. King, O. L. Parish, J. A. Reese, Dr. W. B. Halley; Irackebridge, W. S. Cooper and Curtis Hancock; Fort Worth, Frank Reeves, staff correspondent of the Record-Telegram, and Col. C. C. French; Haskell, B. M. Whitaker, exhibit manager of the West Texas Chamber of Commerce; Colorado, Monte E. Owens; Big Spring, C. T. Watson; Winters, John Q. McAdams and C. R. Robertson, secretary of Chamber of Commerce; Baird, A. M. Cooper and H. O. Tatum; San Antonio, P. P. Pyle; Wichita Falls, M. R. Oatis.

DEATH

Joe Forman Jr. Joe Forman Jr., the 14-month old son of Mr. and Mrs. Joe Forman of this city, died at the home of his grandparents, three miles Northeast of Coleman, Monday evening about 8:00 o'clock, following an extended illness.

The youngster had been ill for some time but it did not become serious until over the past week-end while Mrs. Forman and the baby were visiting Mr. Forman's parents.

Mr. Forman went down Sunday morning to escort his wife and baby back home and when he did not come back Sunday afternoon, friends became worried and inquired as to what was keeping him in Coleman, and from reporting here to work Monday. First reports said the baby was dead, but later reports said he was alive but very low.

Dr. J. W. Macune went to Coleman Monday at noon to attend the baby.

Funeral services will be held Wednesday morning at 10:30 o'clock in the Methodist church at Coleman.

Mrs. T. A. Brister

Mrs. T. A. Brister, aged 39 years 5 months 4 days, died at her home in the Oxien community, North of Ballinger, Tuesday morning at 2:00 o'clock following an extended illness.

Mrs. Brister is survived by her husband and several children.

Funeral services will be held Wednesday afternoon at 2:30 o'clock from the home with interment to be made in the Benoit cemetery.

Higginbotham Bros. undertakers prepared the body for burial and will have charge of interment Wednesday afternoon.

H. Lampe

H. Lampe, age 68 years 3 months and 28 days, died at the home of his brother, F. W. Lampe, in South Ballinger, Thursday afternoon at 4:00 o'clock following a short illness.

Funeral services were held this afternoon at 4:00 o'clock from the brother's home. Interment was made in the Rowena cemetery.

Higginbotham Bros. & Company undertakers prepared the body for burial.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost. Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking care small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

PUT WILD TURKEYS IN PALO DURO PRESERVE

CANYON, Tex., Nov. 17.—Wild turkeys have been placed in the Palo Duro Canyon game preserve near here.

Dr. Earl C. Axtell, deputy game warden for this district, put twenty-four bronze turkeys in the preserve, releasing them at widely separated points.

Deer, pheasants and quail are to be placed in the preserve within a few weeks.

Dr. Axtell was instrumental in getting the owners of Palo Duro canyon land to allow it to be set aside as a game preserve. It contains 120,000 acres. Dr. Axtell then resigned as deputy state game warden to take up his duties as federal game warden.

Germans Do Not Think Ex-Kaiser Will Return

BERLIN, Nov. 15.—The German betting odds are strongly against ex-Emperor William and his wife ever taking up their abode on the Prussian country estate reserved to them for life as a potential residence in the settlement between the State of Prussia and the Hohenzollerns.

It is generally agreed, however, that it was quite natural for the ex-kaiser to pick the particular place he selected, as Bad Homburg, where the estate and castle are located, has long been famous as a resort to which royalty flocked for health and recreation.

Not only did members of the

German royal families frequent Bad Homburg in the old days, but the late King Edward VII of England, then Prince of Wales, began coming to Bad Homburg in 1882. For a long period he spent several weeks there every year drinking the curative waters. The English colony that followed was for years the most numerous one from abroad.
