#### **Pioneers of Progress**

.

In the early days, when banks were few and far between, the safety and service which is known to every bank depositor today, was almost unknown then.

But, as each community grew in wealth and population, the need for at least one safe depository for money became great, and so was born our modern system of banking, which is now used as a matter of course, by the people of even the smallest communities.

This bank is still a Pioneer of Progress-serving today's needs to the fullness of its ability and resources, yet ever looking forward to greater usefulness, and alert to every method plan that will help in advancing the happiness and prosperity of each and every patron.

Mr. and Mrs. Elmer Patton and little daughter, Juanda, spent Saturday night and Sunday at San Angelo.

Mr. and Mrs. Ches Crimm and family were guests of Mr. and Mrs. Austin Williams Sunday.

Mr. and Mrs. Gus Punn, of Old Runnels, spent Sunday with Mr. and Mrs. Percy Crimm. —-X—

Mr. and Mrs. F. A. Sparks and family spent Sunday with Mr. and Mrs. Otto Wood.

Mr. and Mrs. Davis Nunn and little daughter, Mary Louise, of Abilene, visited Mr. and Mrs. I. M. Turner Sunday.

Mr. and Mrs. Wallace Seipp have returned from Dallas, where they had been visiting for the past week.

Quite a few of the Valley View people attended the meeting at Drasco Tuesday.

Dangerous Business Our stomach and digestive s tems are lined with membra which is delicate, sensitive as easily injured. It is dangero business, then, to use medicin containing harsh drugs, salts minerals, when we are cons pated. In addition to the poss bility of injuring the linings our digestive system, these med cines give only temporary reli and may prove habit formin The safe way to relieve const pation is with Herbine, the cath artic that is made from herb and acts in the way nature in tended. You can get Herbine Weeks Drug Store.

Health Campaign Will Start Soo

AUSTIN, Sept. 2.—The state health department has declared war. Unlike most wars, however, the battle of the health department will be fought with serums and anti-toxins instead of with

guns and shells.

The war will be directed chief ly against the hundreds of parents who still refuse to keep up with the advances of civilization and medical science through immunization of their children from diphtheria, typhoid, scarle fever and other kinds of fever and ailments, Dr. J. C. Anderson state health officer and generalissimo of the health forces, said All children between the age

All children between the ages of one and twelve should be innoculated against the major diseases, Dr. Anderson said. The campaign will be carried on through the health nurses, city and county health departments and in the schools. A special campaign to educate the parents to the benefits of inoculation will be carried on during the next several months.

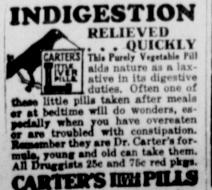

Several deaths from typhoid, scarlet fever and diphtheria have been noted in several parts of the state during the summer months. Dr. Anderson said that the majority of these deaths, which were confined mostly to growing children, could have been prevented through timely inoculation and use of prevention methods.

He especially urged parents to have their children inoculated before the start of the fall school term when the boys and girls will be thrown into close contact with each other. He stated that it was possible for one child, returning from a vacation in an infected region, to carry the germs around and infect other children while the carrier suffered no illness.

Dave Snodgrass, of Coleman, was here Thursday attending to business in connection with the local Helpy-Selfy store.

Jack Long, of Fort Worth, was here Thursday attending the sale of the Helpy-Selfy store.

Mr. and Mrs. R. T. Trail and family are spending the week at Corpus Christi.

YOUR family purse doesn't ask you to wear yourself out I taking care of a dilapidated, hard-to-clean old stove ... nor to ruin your disposition trying to cook on slow, sputtery, worn-out burners. Even the thriftiest pocketbook will gladly say "yes" to this offer of a swift-cooking new Perfection range for only a few dollars down.

The beautiful white porcelain model illustrated has a compact design with convenient new burner arrangement. Five Giant Superfex burners, one a big Giant, give all the cooking-speed you could ask for, yet they are easily controlled for simmering.

The oil reservoir holds fuel for ten to twelve hours of cooking. When refueling is necessary, the glass container can be tilted to remove for filling without disturbing the cooking.

Smooth, washable porcelain lines the built-in oven. An accurate oven heat indicator makes perfect baking easy.

Other new Perfection ranges, one of which is pictured here, give you a choice of many sizes, finishes and prices. Long chimney or short-drum burners, as you prefer. Choose the one you like best and start to enjoy its help this week.

> Any dealer displaying this sign will offer you free trial and easy terms on any Perfection and accept your old stove as part payment.
