Don't neglect that SORE THROAT

Authorities are warning the public that sore throat is prevalent, and not to neglect the condition. At the first sign of any soreness, take immediate steps to ease the throat and to reduce the infection. Bayer Aspirin will do both! Use it as a gargle. Three tablets crushed in 1/3 tumblerful of water. Relief is immediate, but repeat until all trace of soreness and inflammation is gone. Take these tablets freely to ward off colds; and for prompt relief of headaches and body aches from colds, exposure, or other causes. Bayer Aspirin can't harm you, and it does prevent all sorts of needless suffering! Get the genuine tablets, stamped thus:

N from the golf course...from working in the yard...or from a little overtime at the office ... the first thought is for "something to eat."

Whether that "something" is a piece of pie, a sandwich, or a tempting slice of cold roast, it is incomplete and unsatisfying without a cup of coffee to pep you up and renew your energy.

You may eat much or little, but food always tastes better if the coffee is All Gold. For All Gold is equally correct with a sandwich or banquet, and dominates by its very excellence any company in which it is used.

> Because of the scientific accuracy of its blending, All Gold is ALWAYS the same. It never varies in the slightest degree. It's always dependable, always good.

Buy this coffee at your grocer's. Take home a can. of All Gold today. Write it down on your list now!

The new Ford is an economical car to own and drive

Low first cost, low cost of operation and up-keep, and low yearly depreciation mean a distinct saving to every purchaser

THE NEW FORD is a splendid car to own and drive because of its attractive lines and colors, safety, comfort, speed, reliability and long life.

There are, in addition, three other features of importance to every far-seeing automobile owner . . . low first cost, low cost of operation and up-keep, and low yearly depreciation.

During the life of the car, the day-by-day economy of owning a Ford will amount to considerably more than the saving on the first cost. You save when you buy the Ford and you save every mile you drive.

The reasons for this economy are simplicity of design, high quality of materials and care in manufacturing and assembling. Many vital parts are made to limits of one one-thousandth of an inch. Some to three ten-thousandths of an inch. Throughout, the new Ford is an outstanding example of fine craftsmanship in automobile engineering.
