GROWN old and tired of adventuring, Alfred Aloysius Horn, who had traded on the rivers of Africa before in for house at Johannesburg in the Transval and earns his living by making and peddling wire kitchen utensils. One day he called at the home of Ethelreda lewis, famous South African novelist, and she induced him to write the story of his early life. The famous book, "Trader Horn," a best-seller all over the world, was the result of his writing and her editing. In his story, which is appearing strader Horn tells of adventures with savage beasts and wild cannibal tribes. Trader Horn tells of adventures with savage beasts and wild cannibal tribes. The density of familing away from his form to tell of interesting details of his form the add to the charm of the mark.

narrative. The Metro-Goldwyn-Mayer picture. "Trader Horn," filmed in Africa, is based on the story of his adventures with Nina T, the White Goddess of the Isorga.

were fighting continually from the

After leaving Apaque's town the

important time for me, tended to come away with the ruby at all hazards.

Theft of the Ruby

I had the position of the masked fakirs at a glance. The goddens looked charmin; she looked better than I had ever seen her before.) called the headman and had him lay down the presents I had brought for Nina, himself and the other attendants, and then palmed the ruby bending low and making it appear that I was receiving a little pain from my wounded left hand which I carried high enough to hide the actions of my busy right. The ruse acted spiendidly

I had the ruby in my right pocket whilst I held the imitation in my hand it all looked quite natural. The wand now moved down and my wish was granted amidst the weard sounds that came from spirits which the head man said were all pleased. And so was 1

The presents were removed and L walked away as usual to the music of the Ngumbi I felt relieved when I reached the village and was soon joined by the fakers from the Josh house

The Battle on the River

The trip to the sea was made without any trouble and as the water was continually rising I was quite sure of being able to run the steamer as far as Samba Falls anyway All my triangulations and workings proved up to the mark and even eclipsed our expectations

The first boat to show by smoke stack was the paddle steamer Pioneer a large river boat which could navigate in eight feet of water.
