### KILLS WRONG NEGRO; CAUSES TROUBLE

Lynching of Wrong Negro Creates Much Trouble in Mississippi Town-Mob Acts to Quick.

Houston, Miss, Feb. 10.—The lynching of an innocent negro by an angry mob here Saturday has caused ill feeling to run high, and It is feared there will be an out break between the whites and blackes. Andrew Wliliams was lynched Friday for the murder o Mrs. J. C. Williams. Later it developed that Dibrell Tucker, another negro was guilty of the crime, and the mob overpowered the officers and took charge of Tuckerwho confessed and stated that he alone was responsible for the Mrs. Williams death and that the negro Williams had nothing to states that this is about nine thoudo with it. The negro was allowed sand dollars less than January to talk for an hour when the fath- collections a year ago, but that his life sentence it would necessitate er of the dead woman ran up and early collections a year ago were shot him and a brother of Mrs. better than the early collections is possibl that the higher court Williams touched the match.

#### SUCCESSFUL OPENING PICTURE SHOW

### SNEED CASE CALLED THIS MORNING

Many Witnesses and Friends of Defendant Arriving at Vernon-Will Be Three Weeks Fight.

Vernon, Texas, Feb., 10.—The case against John Beal Sneed for the murder of Al G. Boyce Jr., was called in District court here this morning, and the court room was filled to overflowing with friends of the Boyce and Sneed families. There are several hundred withesses, and if the court goes into Taylor County Pays Big Sum for the trial of the case it is estimated that it will require three weeks to dispose of the case.

> The defendant will plead the unwritten law and upon this they hope to secure a prompt verdict of acquittal. It is not thought that either side will plead for a con-

The Banner-Leader and the Bal linger Ledger hfave been consoli dated, and hereafter one publi cation which will be called "The Banner-Ledger," will be issued The sensible policy of consolidat ing and they'll soon be thinned to one in a hill in all the towns not reaching the proportions of cities The consolidation of the two Bal linger papers is best for the pro prietors and best for Ballinger Our best wishes to the Banner Ledger, and to its constituency.-Roscoe Times.

The Runnels County Ledger, the Ballinger Daily Ledger and the Banner Leader, Ballinger, have consolidated and a \$10,000 stock company organized, making it pos sible for the new paper, the Ballinger Banner-Ledger, to subsist and giving that town a first class Daily and weekly publication. Twentieth century people demand service, and the smaller towns which now have two newspapers will evenutally have only one, and it free from political issues, and in no way representing a faction. but all the people.—Comanche Chief.

Ballinger- Banner-Ledger: Cow feed is now being manufactured out of sawdust. A machine for extracting the tar, pitch and tur pentine from the sawdust has been invented, and after adding to the fiber 40 per cent cotton seed meal, the combination makes a very nutritious substance and it is said stock will eat it. Just think of the good cow feed that has gone to waste in the millions of tons of sawdust, if the above is true.

That is to say, by mixing the cotton seed meal with sawdust a cow can be inveigled into consuming a fair portion of the dust in her effort to compass the meal. It isn't because she likes the wood but because she is over-fond of the adulterant. Moreover, it is a shabby trick to play on a nice cow, to make her eat a tree in order to obsorb a little honest victuals. a man to quit his job, and I nev-Cows can do as they please about it, of course; but if we were a cow and were fed on pulverized lumber we would teach our calf to make the milk-maid hard to catch. -Dallas News.

#### Horse Sense vs. Skirts.

The tight skirt never had any reason for being except that had the edict of the fashion mak ers in Paris behind it: It is inconvenient, uncomfortable and ugly and there is a strong movement among senisble American women to rebel against the decree from Paris that it must be worn another season. By the way, are Americans who blindly submit to the doubtful reputation worthy to be

THE DAILY LEDGER entrusted with a share in the gov ernment?-East Texas Register.

The writer of the above scathing denouncement of the latter day shirt evidently never wore one of the five-yard-wide variety of several years ago. It makes little difference what fashion center decreed the narrow short skirt worn by American women today, it is the sanest, most comfortable, most healthful dress on which frivolous fashion has set its seal of approval in many years, not counting the vast saving in cloth, and incidentally the money it takes to buy the cloth. The long volumious skirt from the healthful enjoyment of walking, and resulted in backache and a general gragged-down, fag ged out feeling. May the closefitting short skirt continue in favor for many seasons yet to come As for women who wear these skirts being allowed the privilege of voting, we had never thought before of clothes being one of the requirements demanded by the franchise, but thought a poll tax receipt was the first requisite and after that—well not much else except that the voter must be a man of some sort, twentyone years old.

#### POSSUM POST KNOCKS HIM.

Recently the following special was sent out from Washington:

gia yesterday received the follow ing from T. P. Deason, one of his constitutents at Irwingtown:

'I seat myself with pen in hand to write you a few lines to let you know that you have played the devil with me. I am the mail carrier from McIntire to Irwinton, and I took the contract to carry the mail three times a day, a distance of three and one half miles for \$319 a year. At that time the express company was doing pretty good business and I got 10 cents for each express package and a drink for every jug.

"You fixed the law so I could not carry the jug, and now you have fixed up a thing called the possum post, and the express company doesn't handle any more small packages, nor do I handle any more dimes. When I made this contract I could carry mail in a road cart and a Texas pony and haul express on the side; now the express has a shrunk and this post business has swelled so I have to get a mule and wagon.

"Now, when I made this trade to carry the mail I didn't know anything about the darn foolishness of sending live stock and farming implements through the

"I thought that this was just campaign talk, and had no idea that congress would be fool enough to pass any such law. I ain't the near future. er get my bondsmen in trouble but I tell you this thing is getting serious and I want help.

at first, and now I am working for nothing and feed myself. I wouldn't mind working three years for nothing, but the feed is | about out. Can't you make some | arrangements about this thing? If you know of any relief, study it up and write me,

"See the man who handles the money up there, and ask him if h will not raise my wages or cut Medictation of French modistes of Intyre and Irwington off the 'Pos sum post business."

#### NOT A BAD WORLD.

There can be no business without a basis of confidence, writes John A. Sleicher in Leslie's. A man under suspicion will not suc ceed. People who distrust each other will never pull together. A quarrelsome family will be a divided family.

If the masses of the American people put the business men, the bankers and the captains of indus try under suspicion, every hope of prosperity will disappear.

The strong tendency of the busi ness world is toward making of other days hindered women things better and more comfort able for the toiling masses. Of course, all can not be satisfied and some will do better than others. There are inequalities in human life as there are in human nature. One man will be tall and another short one woman handsome and another ugly. tI is wise dispensation that provides for differences and inequalities, for i would be a tame world if all were like in stature, temperament, ab ibity and accumulated possessions.

We are not a perfect people Those who clamor most for perfaction are sometimes themselves the farthest from it. But on the whole, it is a good world. The masses of men and women, high and low, rich and poor, are honest and mean to be right. Criminals are the exception and not the Congressman Hardwick of Geo- rule. The churches still outnum ber the jails and millions still re spect the Sabbath and yield obedi ence to the Ten Commandments.

#### RAILROADS ARE BUILDERS OF ALL PIONEER COUNTIES

San Antonio, Feb. 6.—"That a cailroad is a builder of a country has always been acknowledged by all those who have been associated with the pioneers of all parts of the west." declared Harry J. Mason of Kerrville, who was in San Antonio yesterday. "This is now being proved beyond a shadow of a doubt. I spent the early part of the week in Gillespie county and the people up there have al ready taken on new life. A boom has'nt hit the country, but its steady growth for the last few years is now being quadrupled and business is going ahead with more signs of prosperity than ever before. The fact that surveys are now being made and that actual construction on the Fredericksburg railroad will start soon is bringing out the very best that is to be had in Gillespie county. And now that Mr. Love, the builder of the road, has declared that the line will go beyond Fredericksburg and on to Ballinger, is encouraging the people wonderfully. "They feel that at last their efforts are being rewarded."

The above article from the correspondent to San Antonio Express shows us that the railroad building from that section this way, and we can rest assured that the road spoken of will be built in

## PEOPLE SHOULD GUARD

Bllinger people who have stomach and bowel trouble should guard against appendictis by taking simple buckthorn bark, glycerine, etc., as compounded in Ader-i-ka the German remedy which became famous by curing appendietis. A single dose relieves sour stomach, gas on the stomach and coastipation Instantly because this simple mixture antisepticizes the digestive organs and draws off the impurities. The Walger Drug Co.
