### TEMPLE SUFFERS HOTEL FIRE

Fire Starting at 2 O'clock Tuesday Morning Spreads Rapidly and Inmates of Hostelry Have Narrow Escape

Temple, Tex., June 24.—Fire starting at 2 o'clock this morning at the corner of Central avenue and Fifth street completely destroyed, three story frame building. Many narrow escapes are reported, but it is thought all the guests, of which there were about thirty, escaped, though many of them got out in their night clothes and saved none of their clothing or baggage.

With a high south wind blowing, the entire block of residences were in danger.

### SANTA FE SUPERINTENDENT COMING SATURDAY.

Galveston, 6-23-13.  
R. T. Williams,  
Chairman Committee:  
Ballinger, Texas.

Am afraid I shall not be able to accept your invitation for twenty-eighth. Have asked K. S. Kull, our superintendent at Temple to try and be there that date.

F. G. PETTIBONE.  
The above telegrams fully explain itself. Mr. Hull has not been heard from, but it is probable that he will be here to represent his road in celebrating Ballinger's birthday.

### UNWRITTEN LAW CASE ON TRIAL

Jury Being Selected in Brown County Murder Case. Venire men Disqualify.

Brownwood, Tex., June 23.—The case of the State vs. Burt Smith went to trial here today in the district court, and all the afternoon was devoted to the task of getting a jury. At 5 o'clock five jurymen had been obtained from an examination of about thirty talesmen.

A majority of those examined either disqualified themselves or had conscientious scruples against inflicting the death penalty for crime. A full jury will likely be secured before noon tomorrow.

Burt Smith, the defendant, is charged with the murder of a young man named Frank Robinson. The killing occurred at Bangs, this county on May 6 last. The defendant's unmarried sister, who has a five-months-old baby in her arms, is the principal witness for the prosecution.

### SPLENDID SUPPER.

On Monday evening at his fine ranch home near Talpa, Aug Herring entertained a few of his friends with a splendid barbecued chard, R. O. Walton and W. T. chard, W. O. Walton and W. T. Ward of Ballinger had the pleasure of being present on this occasion and report a most enjoyable time.

### BROWNWOOD GOING FOR THREE GAMES

Strong Team Will Battle For Game on Local Diamond Thursday, Friday and Saturday

A baseball team made up of the best players from Brady, Brownwood, Lampasas, San Saba and two or three other towns, will arrive Thursday at noon and will make an effort to entertain the Ballinger boys with three games.

For several days the local fans have been wondering who would be the victims for the local team on barbecue day, and all minds were put at ease today when it was announced that Brownwood had accepted the invitation come.

The local team will be made up with strong players, and same real sport is promised for the last three days of this week. It is reported here that Wooden had joined the Brownwood team and would play against his home town in the three games. He is in Brownwood, and we have not been able to learn whether this is true or not.

Work on the park is being pushed and will be completed by the time the first game is called, and everything will be in good shape for giving the local fans their money's worth.

George Wacker, one of the popular salesmen at the Ballinger Dry Goods Co.'s store, left Monday afternoon on a short business trip to Dallas.

### COUNTY GETS DEMONSTRATION FARMER

Commissioners Court Met Tuesday Afternoon and Made Appropriation for Employing Demonstration Farmer

Please give Runnels county another score. Farming will be done hereafter on scientific lines, and business basis, provided the farmers desire to join hands with the government and work for the general betterment of farm conditions in this county.

The commissioners court in session made the appropriation asked for and set aside \$800 for the purpose of employing a demonstration farmer. This amount is added to by an appropriation of \$400 from the government, and as soon as he can be secured, an expert farmer will be employed to travel over this county and give the farmers the benefit of his experience. His services will be free to every farmer that desires him, or just as many as he can get to.

It is too late to reap much benefit from the work for the present crop, but in order to get the \$400 from the government it was necessary for the county to make the appropriation before July 1st. It will probably be some time before a suitable man can be secured, and while he may get started late this year, he will have time to get his work lined up and be ready for the 1914 crop, and then too, there is much for him to do through the fall and winter. Those who wish to make a thorough try out on the system should begin in time and prepare their land, and select the best seed possible.

Of course there will probably be some in the county who will not endorse the court's action in making this appropriation, but prac-

### MEXICAN FEDERALS LICKED AGAIN

Rebes Capture Gen. Ojeda, and Little Time Will Be Lost in Execution.

Douglash, Ariz., June 23.—General Pedro Ojeda, the federal commander, who fought a three days' battle in and around Ortiz, Mexico with the attacking state troops under General Obregon, was today reported to have surrendered. The constitutionalist junta here was unable to confirm the report.

Advices from the junta and private sources at Nogales, Ariz, last night stated that Ojeda had been surrounded and handicapped by the greater strength of his enemy and steady loss by desertions would be forced to surrender.

This gave color to the report today, which received credence not only among sympathizers with the Sonora insurgents, but also among observers on the American side of the line.

The enmity between Ojeda and the rebel leader, Obregon, has not merely been that of opposing soldiers. Personal feeling caused Obregon to announce some time ago that when he had whipped Ojeda, who beat him several times at Agua Prieta recently, he would have the federal general shot.

R. A. Nicholson left Tuesday at noon for Abilene and other points in that section on insurance business for a few days.

tically every county that has tried the demonstration farm work are keeping it up, and it is proving a great benefit to the farmers of those counties. If others are making better crops and profiting under the plan there is no reason why Runnels county should not reap the same benefit.

Published every afternoon except Sunday by the Ballinger Printing Co.

For the barbecue occasion at Ballinger next week we are promised meat barbecued at Dallas and shipped to Ballinger in fireless cooking ovens, thereby assuring good meats, well cooked and hot from the fire. This is something new but then we are never too old to learn and, with all the good meats we have seen at barbecues, we have sometimes wished that there could be some improvement made in the cooking. This is promised us and we shall try a piece as an experiment at least.—Winters Enterprise.

**Deafness Cannot Be Cured.** by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; 9 cases out of 10 are caused by Catarrh which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars.

**ESTIMATES FOR THIS YEAR**

Annual Appropriations by Government Indicate Strides Being Made in Road Improvement.

No better idea of the forward strides being made by the office of public roads can be had than from figures connected with the annual appropriations. The appropriation for the present fiscal year is \$41,400 more than for the preceding year, while the estimate for the fiscal year of 1913-1914 is \$134,120 more than the present allotment. One of the items mentioned in connection with the appropriation for the coming fiscal year is roadmaking investigation, for which work an increase of \$89,000 is asked. The present amount available for such work is \$75,000. The next highest increase is asked for road management, \$31,000, as but \$25,000 is available this year. The amount now ready for use in field experiments, \$20,000, the office would like doubled. Included in this list of necessary increases is one for salaries, thus placing the office of public roads on a par with practically all other branches of the government service that are striving to raise the pay of the government clerk. The appropriation asked for this is a raise from \$37,020 for the present year to \$54,400.

**QUESTION OF BETTER ROADS**

Not Alone Affects Farmer and Automobile, but is of Vital Importance to Everybody.

The good roads question is one which today is occupying the attention of every thinking man in the United States. This question does not affect alone the farmer or automobilist but is one which is of vital importance to all of us, owing to the fact that every extension of the good roads movement and the completion of every new artery has resulted not only in a greater production of food-stuffs in that particular section, but has cheapened them on account of the small cost of getting them into the market.

Although at the present time there are between 15,000 and 20,000 miles of improved roads in the United States, either under construction or proposed, no section of road is receiving the careful investigation or is being watched as closely by the road makers of the country and by good roads advocates, as is the 106-mile road which Gen. T. Coleman du Pont is constructing at his own expense through the state of Delaware.

General du Pont felt that any amount of money he might give for a road would be of far greater benefit and would have a far greater influence on the happiness and material prosperity of the people of his state than any other project he might select. To quote his own words: "My object in building the road is not only to provide a good highway where it is badly needed, but also to work out in a practical way a problem that will, if successful, revolutionize the building of roads in the United States. The problem is, How can a free country road be built to make it pay its original cost, cost of maintenance and a fair return on the money invested."

The solution of this problem as worked out by General du Pont, as a result of his experience on the Delaware road, is a system of graduated assessments, so arranged that all who receive direct benefits from the road are to bear their share of its expense, at the outset, and will later be recompensed by rentals of the unused portions of the road itself.

Supposed, for instance, that this Delaware road was being constructed by this method, instead of being given by General du Pont. On the du Pont road some twenty-six acres of land have been condemned for every mile of road. Revenue from the road will be partially derived from trolley franchises, from water, telephone, telegraph and sewer right of way rentals and partially from the rental of that part of the twenty-six acres per mile which is not used for actual road construction.

As laid out, the du Pont road consists of some seven parts, although not all of them will be developed immediately, the idea being to increase the size of the road as the traffic becomes heavier. When completed the road will consist of a forty-foot strip in the middle, which will be given over to automobiles, and on either side of this forty-foot strip a fifteen-foot strip, which has been reserved for trolley lines. Beyond the trolley

**SAYS ANGELO FANS HAVE NO KICK COMING**

The following joke appeared in this morning's Fort Worth Record:

San Angelo, June 22.—A great furor has been created here by the discovery and the production of affidavits that three of the San Angelo players sold the recent series of games with Big Springs, at that place, to Big Springs. Two of the young men were pressed so hard they confessed and signed statements that the series was lost because of receiving of \$120 in money. The other young man left town before the discovery was made. The baseball fans here are very indignant over the matter.

Willard Wooden, who attended Howard Payne here last year, is in town today, and admits that he was playing with the Angelo Club at Big Springs. He says that anybody threw the game he doesn't know who did it, as all the players made so many errors the traitors could not be picked out. He says that the Angelo fans needn't worry. The first game of the season netted \$10.75 in gate receipts there, and Angelo fans are not worrying about anybody throwing games away. Further, he alleges that if three men did throw the game, they were compelled to do so to get back home and mother, as their salary, and even expense money, was not forthcoming from the management. "What gets me though," said Wooden, "is the indignation of San Angelo fans. There's not one full man-size fan in Tom Green county, and how the 'fans' can worry is a puzzle."—Brownwood Bulletin.

Mr. Mayes has been identified with the press of Texas for more than 25 years and has served as president of the National Editorial Association and of the Texas Press Association. It is stated here today that an effort is now being made to ascertain to what extent the newspapers of the state would be willing to aid the Mayes campaign in the event the race is decided upon.

**STINGING ANTS CAPTURE HOME**

San Antonio Firmen Called On to Fight Ants. Peculiar Experience is This.

San Antonio, Texas, June 23.—An entire fire company was routed Saturday in a ten-hour battle with winged ants.

Responding to a fire alarm turned in from 1105 Burleson St., the home of Adolph Dullnig, Fire Company No. 10 arrived on the scene to find, not leaping flames, but countless millions of flying creatures, whose sting was soon found to be as sharp as the pain of fire.

The ants covered the house hundreds deep. Streams of water were soon playing on all sides of the structure, but the only effect was to roll the ants up into balls. The living spheres would drop to the ground and presently disintegrate, their component thousands fighting until freedom was theirs once more. The ants drove Mr. Dullnig and his family from their household.

The burning of sulphur did no good, and after ten hours of continuous battling the fire company declared an armistice in order to find some one more versed in the tactics of ant warfare.

At a council of war it was decided to return to the conflict with formaldehyde as the weapon.

The members of the fire company regard it as a peculiar circumstance that the ants did not light on any of the neighboring houses, but clung more and more tenaciously to the Dullnig house as the firemen grew more and more determined to drive them away.

**RUPTURE EXPERT HERE.**

Seeley, Who Fitted Czar of Russia Called to Ballinger.

F. H. Seeley of Chicago and Philadelphia, the noted truss expert, will be at the Central Hotel and will remain in Ballinger Thursday Only, June 26th. Mr. Seeley says: "The Spermatic Shield Truss as now used and approved by the United States Government will not only retain any case of rupture perfectly, affording immediate and complete relief, but closes the opening in 10 days on the average case. This instrument received the only award in England and in Spain, producing results without surgery, harmful injections, medical treatment or prescriptions. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. All charity cases with out charge, or if any interested call he will be glad to show the truss without charge or fit them if desired. Any one ruptured should remember the date and take advantage of this opportunity. 21-4td.

**HELPLESS AS BABY**

Down in Mind Unable to Work, and What Helped Her.

Summit Point, W. Va.—Mrs. Anna Belle Emey, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work. I began taking Cardui, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years years old, but feel as good as I did when only 16.

Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."

If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardui a trial. It has been helping weak women for more than 50 years, and will help you, too.

Try Cardui. Your druggist sells it.
