SIXTH STRAIGHT WIN

Mule Defense Holds Wildcat Eleven To 7 Points

Conference Opener Defeats Littlefield

New Plant Location 11 Miles From Here

Southwestern Public Service Company has announced that it will invest in excess of \$200-million during the next four years for the construction of a new electric generating station on the South Plains of Texas.

SWPS's new plant will be located approximately one mile south and two miles west of Nickels Gin on Highway 70 east of Muleshoe. The new plant will be located 11 miles east of Muleshoe and west of FM 303. More than 200 people will be

employed at the plant when it is completed, and workmen who will be constructing the plant will be looking for housing while in the construction stages, according to a spokesman for SWPS.

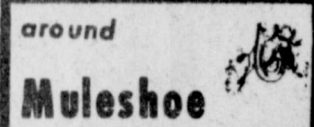

Construction of the new plant will begin early next year, and is scheduled for completion in 1982. Plans also call for a second 565,000 kilowatt unit to be completed in 1985, apparently at the same location.

Both plants will be seven miles west of "Plant X" which was constructed in 1948-49 south of Earth in Lamb County. The new plants will also be constructed in Lamb county, according to SWPS.

The announcement was made by Bill Esler, SWPS vice president of engineering and construction. Esler said the new plant will be located on the James Ranch, east of Muleshoe.

He also said the new plant will be called "Talk Station" in honor of Roy talk, chairman of the board of SWPS, and will have a generating capability of 565,000 kilowatts. Primary fuel for the station will be low-sulphur coal which will be brought in by unit train from Wyoming.

Lamb County and Lubbock County both vied for the new plant, with Lubbock County losing out when they wanted to use 'effluent' to power the plant in exchange for the SWPS pure water supply. SWPS planners did not feel the supply of effluent would be assured to power the new facility and granted construction to Lamb County.

Danny Kelley, former Muleshoe resident, now of Lubbock, traveled to San Angelo to be tested by master instructor, Joe Nam, for the rank of black belt in the Tae Kwon Do Association.

Kelly will be officially registered in Korea as a first degree black belt in the Moo Duk Kwan System.

He plans to further his studies in Karate while instructing for the Texas Karate Institute in Lubbock.

A vocational nursing aptitude test is scheduled at 1 p.m. on Monday, October 17, in the South Plains College Technical Arts Building at Levelland.

The exam, administered on the first and third Monday of each month, is required of all persons planning to enroll in SPC's one-year vocational nursing program. Fee is \$1.

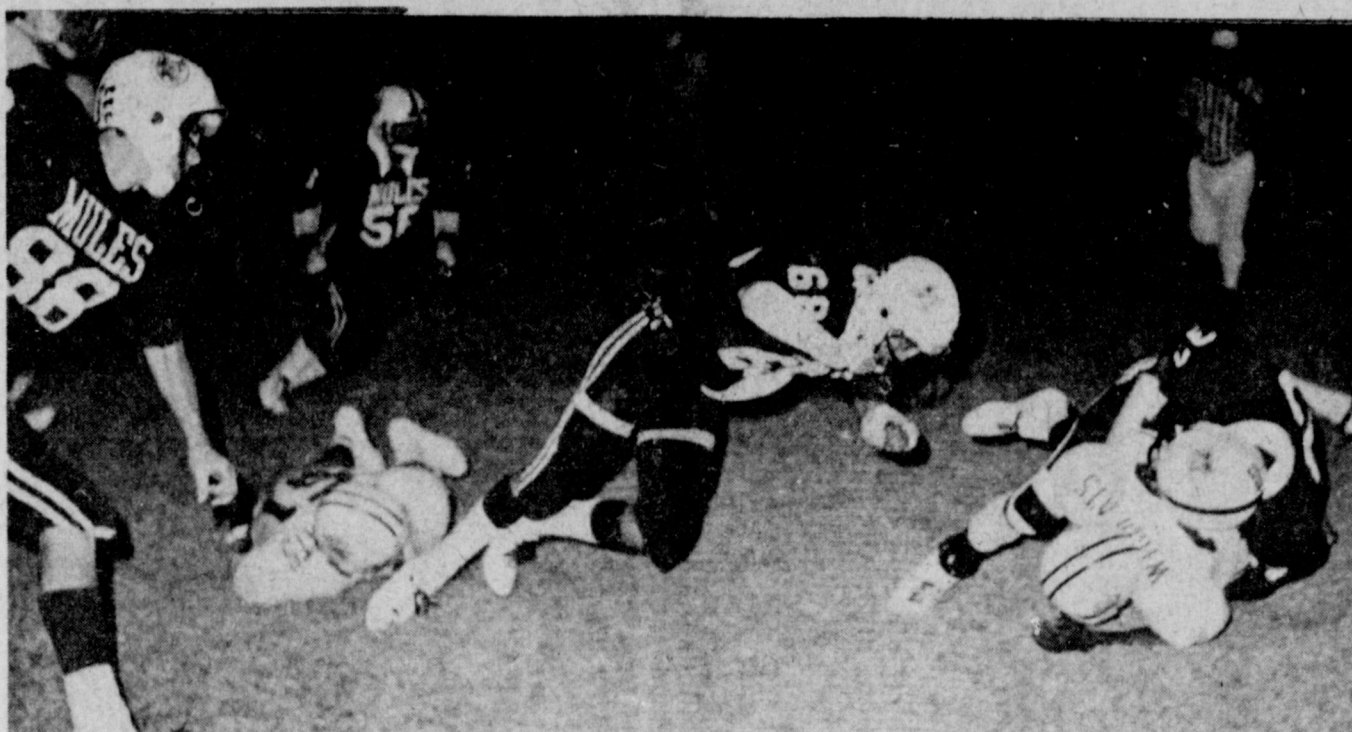

Any local and area people of Muleshoe wishing to make a memorial contribution to the American Heart Association may contact Glenda Dale or Terry Gunter at Muleshoe State Bank or Sherry Embry or Dean Sprayberry at First National Bank for Bailey County.

The Christian Women's Fellowship will meet Thursday, October 20, at 7:30 p.m. at the Community Church. Miss Judy Lambert will give her testimony. Mrs. J.E. McVicker and Mrs. Gil Lamb will participate on the program. Special music will be provided by Mrs. Dean Sprayberry, accompanied by Mrs. H.D. Hunter.

Babysitting will be provided. Refreshments will be served by the women of the Community Church. All women and girls of any age and religion are urged to attend, says Mrs. Jack Rennels.

USING NEW MATH SYSTEM--Student Arnold Ontiveros, a sixth grader at Muleshoe Junior High School, is shown using the new "80" System, which is a teaching aid for math. Looking on is Margaret Teaff, teacher.

DEFENSE, DEFENSE, DEFENSE!--This chant rose higher and higher Friday night as a tough Mule defense held the Littlefield Wildcats away from the goal line even though they were in the shadow of the goalposts several times. Tackling Kudoth Smith of the Wildcats was number 32, David Dominguez. Coming in to help

are from left, Curtis Carpenter, number 88; Mark Harmon, number 56, and ready to head into Smith is Ernie Vela, number 56. Mules' defensive players were excellent on defense throughout the entire game.

Muleshoe Mules are tough, and especially on goal line defense. That simple fact just can't be disputed following the Friday night game against the Littlefield Wildcats. Mules really got down and dug in on at least two occasions when the Wildcats were 'knocking at the door' and failed to let them through to paydirt beyond the bright orange goaline markers.

Muleshoe finished the game with an 18-7 showing on the scoreboard, and the win made it six in a row for the Mules this year.

A standing room only crowd was pleased throughout the game with the performance of the Mules, and especially the Mules on the defensive lines.

Muleshoe's first touchdown came with 5:54 on the scoreboard clock after a 98 yard march downfield, finished after 11 plays when a quarterback Danny Wilson to end Marcus Beversdorf pass was good for a 39 yard touchdown.

A kick by George Villarreal for

the extra point went wide to the right to leave the scoring at 6-0. Littlefield quarterback Eddie Gregory took to the air, and completed passes amounting to 185 yards throughout the game, but it wasn't enough to overcome Mule defense.

Just going into the second quarter, with 11:14 on the clock, Danny Wilson slammed through from the one on a quarterback keeper for the Mules second touchdown of the game. His TD slam through the middle ended nine-plays and 55 yards for the Mules to reach the goal. An attempt for two points on a pass from Wilson to Dickey Suddeth was batted away and the score was 12-0.

An Eddie Gregory to Mark Watts TD pass for 10 yards with 8:54 of the second added Littlefield's only touchdown to the scoreboard and the teams went to the field house at halftime with a score of 12-7.

Most of the second half of the game was pure defense, as the Wildcats reached near the goal line several times to find themselves pushed back as quarterback Gregory was sacked behind the lines time after time and lost ground each time.

At 7:49 of the third, Jeep Shanks slammed through from the left and scampered ahead of powerful Wildcat runner Rudolph Smith as he made it a 33 yard touchdown for Muleshoe. Again an attempt for two points failed and Muleshoe showed 18 points on the scoreboard.

Immediately following the play, the Wildcats were held short of the goal after getting down to the Muleshoe 13 on a penalty. Another potential scoring play by Littlefield was thwarted by Charles Briscoe when he intercepted a Gregory pass on the goal line and returned it to the Mules own 45 yard line before being upended with his stolen ball.

A final chance for Littlefield was ended when Briscoe again recovered a Littlefield fumble and the clock was allowed to run out with Muleshoe in possession of the ball, and the win at 18-7.

Muleshoe had 60 yards of penalties, compared to 20 yards for Littlefield and Muleshoe also had 305 yards rushing, compared to 85 on the ground for Littlefield. However, Littlefield led in the passing department with 125 yards, and Muleshoe had only 31 yards passing.

Neither team dominated the first down department, as Muleshoe had 16 first downs and Littlefield 15. Shanks had 126 yards rushing. Dean Northcutt had 129 and quarterback Wilson had 56.

Machine Helps Students In Learning Math

Who says that learning can't be fun! Both students and teachers are excited over a new approach to individualized instruction being implemented in the Muleshoe Junior High Reading and Math Labs and also at Richland Hills Primary in rooms where the teachers are concentrating on teaching basic skills.

This program is the Borg-Warner System "80" in which a machine along with the appropriate accompanying material, provides a diagnostic and prescriptive audio-visual learning system designed to help the teacher.

Since its introduction in 1970, System "80" has become one of the most highly respected and widely used audio-visual learning systems in the country. Over the years, it has been instrumental in helping thousands of students improve their grasp of basic skills. Thoroughly compatible with any ongoing program, System "80" is an enjoyable experience for students and they remain eager to work with long after the initial novelty has passed.

Parents will appreciate the fact that the school is providing a special program to help their children master basic skills which contains a built-in method of regularly communicating the students' progress and achievements to teachers and parents.

Since the System "80" machines have only been in the local heart group plans CPR classes

American Heart Association of Bailey County has announced plans to begin classes among the local businesses to teach key employees Cardiopulmonary Resuscitation (CPR). This training will have programs and speakers and is available for civic clubs or other interested organizations.

Jerry Wiedebush is coordinating the CPR programs, and presented the plans at the monthly meeting Thursday of the Bailey County branch of the American Heart Association.

It was announced that a memorial of \$25 was given by the Board of Directors of the Heart Association in memory of the late J.W. Coppedge and other memorials may be made to the Heart Association.

Mrs. Buddy Embry or Dean Sprayberry at First National Bank or Mrs. Gary Dale or Terry Gunter at Muleshoe State Bank will accept the contributions in the form of memorials.

Attending the meeting last Thursday were Mrs. Jerry Hearn, Regional Director; Mr. and Mrs. Don Seales, Joe Harbin, Mrs. John Watson, Mr. and Mrs. Owen Jones, Mr. and Mrs. Jerry Wiedebush, Mrs. George Mitchell, John Blackwell, Jerry Mick and Terry Gunter.

First Baptist Makes Homecoming Plans

First Baptist Church in Muleshoe will be the site for "Homecoming" activities for an after-game fellowship for all juniors and senior high school youths this week.

Rev. Kenny Carter said that immediately following the game between Muleshoe and Dimmit, the fellowship hall of the church will be opened for a great time for all of the Muleshoe youth. Hamburgers and all of the trimmings will be served. Then, the youth will be privileged to hear again this year, the group called "Crossroads" from Lubbock.

All of the youth who heard the group last year requested that they be invited to perform again this year at Homecoming. The group is composed of students from Texas Tech University and are known for their sounds from trumpets, trombones, guitars, piano and singing, added the youth minister of First Baptist.

At last year's homecoming fellowship, more than 230 youths attended, added Rev.

Volleyball Tourney Set At Plainview

A men and women's volleyball tournament will be hosted November 10-12 by Spikey and the Gang of Plainview.

To be held at Estacado Junior High School in Plainview, entries are being accepted at this time, with a \$15 per team entry fee required.

No deadline has been established, but entry can be made by contacting Randy Tency at 293-5181, extension 222, or 293-5879 in Plainview.

Farmers To Attend Meet On Pesticide

Bailey County Agent Spencer Tanksley reminds all area farmers and private applicators of the pesticide training meeting scheduled for Thursday, October 20, at 7:30 p.m. in the Muleshoe High School cafeteria.

Tanksley said the law which requires certification of private applicators is the Federal Insecticide and Rodenticide Act (FIFRA), which will be enforced by the Environmental Protection Agency. He said that under the act, all uses of pesticides will be classified as either registered use or general use, and all applicators--both private and commercial--will be certified as a requisite to legal use or supervision of the use of the registered pesticides.

"A private applicator" added Tanksley, "is a person who uses or supervises the use of any registered pesticide for the purpose of producing any agricultural commodity."

Some of the chemicals already placed on the list include Temik, Guithon, Lanate, Paraquat, strychnine, cyanide poisons, and others, according to the county agent.

"These type things are on the list and you will have to have a certification card in order to purchase them," emphasized County Agent Tanksley.

The training program prepared by the Extension Service includes a slide-tape presentation, a review of the provisions of the Texas Federal Law, pesticide safety, labels and chemical labeling, pest identification and equipment calibration. No formal testing or scoring of papers is involved.

Kiwanis Club Will Help Area Telethon

At the regular Friday meeting of the Muleshoe Kiwanis Club, it was decided to help with Cal Farley's Boy's Ranch Telethon on Saturday, October 22. The Kiwanis will be manning Telephone Number 272-4619 taking pledges for donations to Boy's Ranch.

A reminder was also issued by the Kiwanians to not forget to contribute to the Jaws of Life, as it was one of several items discussed in ways to help the community. Also discussed were the Muleshoe Nursing Home, new civic center and other ways to help.

Under leadership of President Gary Dale, 12 members and sweetheart, Benetta Roming, attended the meeting. Allen Smyer gave the friendship coin to Howard Watson because "Howard had always been a friend to him."

Rand Runs Wild; Loop Falls 77-32

Kicking, scampering and running wild, Albert Rand paced the scoring for Three Way's Eagles Friday night at Loop, and added to his yardage to tote it up to 1,072 yards for the season, excluding Friday night's action.

Rand made five touchdowns in the runaway game, which saw Three Way down Loop 77-32 and end with 3:35 remaining on the scoreboard clock. Three Way Eagles still don't get to finish games as they far outpace and outclass their opponents.

He scored TD's of 10, 37, 60, 21 and 40 yards.

Three Way's Eagles are now 5-2 and 3-0 for the year.

Wilson had 56.

WE'RE NUMBER ONE--Mark Harmon, left, and Ernie Vela designate the number one right where Muleshoe still sits following their 18-7 win over Littlefield Friday night. Muleshoe is still unbeaten for this year.

Prices good thru October 19, 1977. We reserve the right to limit quantities. None sold to dealers.

UNUSUAL BIBLE TEACHING SCHEDULED--Rev. John G. Hall uses a 35 foot chart in his teaching of the bible. He welcomes questions from the audience as he quotes scripture, chapter and verse. He has made the statement he has not taken his bible to the

pulpit for 20 years. He will be teaching October 23-28 at the First Assembly of God Church in Muleshoe, with services scheduled for 7:30 each evening. All persons are welcome to attend the lesson sessions said the pastor, Rev. Joe Stone.

Consumer Food News

COLLEGE STATION--Among this week's "best buys" in groceries are a few fruits and vegetables, fryers and eggs and some pork cuts, says Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

selection is available--Thompson seedless, Emperor and Tokay--and prices are slightly lower than in recent weeks. Other economics in fruit are bananas and pears.

In vegetables: More hard-shelled squash is coming to market. Acorn and Butternut are in best supply. Green peppers are still plentiful and moderately priced. (If you buy more green peppers than you can use within three to five days, freeze some to be ready for higher winter prices.)

Other vegetables costing less now at most produce counters are carrots, cabbage, collards, broccoli, and mustard greens. Also potatoes, cucumbers, swe-

et potatoes and dry yellow onions. Head lettuce is low-priced, quality varies.

Featured canned items are tomatoes and most tomato products. Buying in units of three or four cans can often mean a saving. Other good values are canned peas and corn.

Fryer chickens are a bargain in most markets with whole birds and mixed parts the best values. Large size Grade "A" eggs are the best value.

Pork supplies are increasing and the price is slightly down on some cuts. Boston butt roasts, shoulder steaks, quarter-loin cut into chops as well as loin-end chops and some brands of bacon

are feature items.

Consumer Watchwords: The average price for a pound of rice is about 25 cents. Since rice triples in quantity when cooked, a pound of rice will provide 14 half-cup servings--at a cost of less than two cents each, making it a most economical carbohydrate food.

DAR Sponsors Essay Contest

Los Ciboleros Chapter of the Daughters of the American Revolution is sponsoring an American History Essay Contest for students in the Junior High Schools of Lubbock and Earth-Springlake.

The contest is to stimulate interest among children in the history of the United States. The title this year is "Growing Up in Colonial Times" (circa 1770-1790). It is open to every boy and girl in grades five through eight in the two junior high schools.

Deadline for entry is December 12, 1977 and the winner will be notified February 1, 1978 at the beginning of American History Month. All students are encouraged to contact either their history or English teachers for full details of the special contest.

Craft Day Set For October 27

Muleshoe Young Homemakers met Tuesday, October 11, in the High School Home Economics Department.

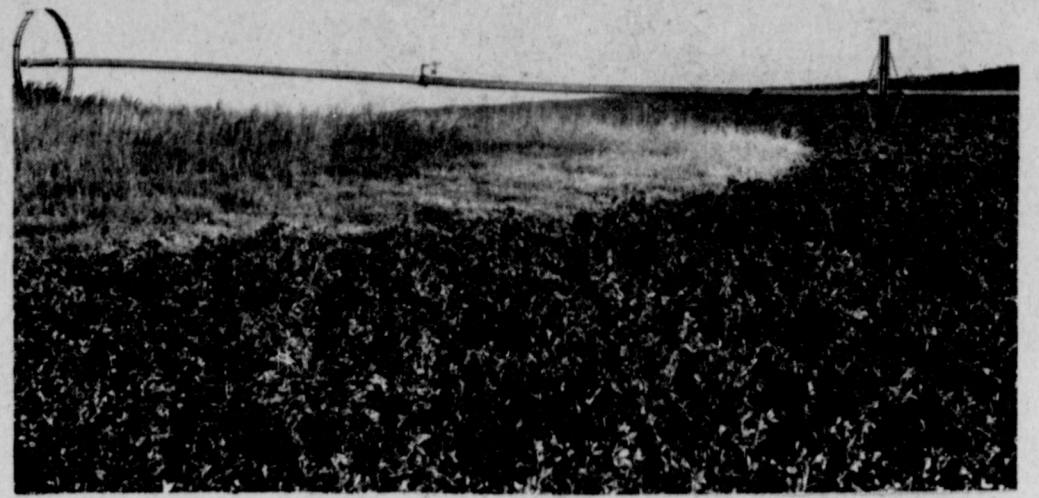

The program for the meeting was presented by Mrs. Bill Loyd of Pioneer Natural Gas. She talked about "Dinners on the Double". She gave shopping tips and time savers. She prepared three "quickie" dishes for the members to sample.

Mrs. Sandy Noble, president, presided at the business meeting. Mrs. Dorine Harbin reported the spaghetti supper at the Muleshoe-Abernathy ballgame to have been a success.

Craft day has been set for Thursday, October 27, at 2:30 p.m. at the High School Home Economics Department. Secret Pals for 1977-78 were drawn for.

A Halloween party for the Nursing Home residents will be held Monday, October 31, at 2:30 p.m. Refreshments will be served and all members will bring their children dressed for trick-or-treating.

Members present were Mrs. Gary Elliot, Mrs. Raymond Davenport, Mrs. Lionel Lane, Mrs. Rod Springfield, Mrs. Sandy Noble, Mrs. Tim Crozier, Mrs. Brian Noble, Mrs. Johnny Estep, Mrs. Mike Richardson, Mrs. Lonny Knowles, Mrs. Mitchell Autry, Mrs. Dorine Harbin and Libby Lyles, Student teacher.

FIRST ICE SHOWS UP--On Thursday morning, October 13, after three straight nights of ice around irrigation systems in the county, this picture was made at the south edge of Muleshoe on the J.K. Adams acreage. Adams said he still has a few tomatoes low on the plants which were not killed by the freeze, which was early again this year.

Larry Hilburn Guest Of Art Association

The Muleshoe Art Association met at the XIT Steakhouse for their monthly meeting, Tuesday, October 11.

Mrs. Louise Alair introduced the speaker, Larry Hilburn of Taos, N.M., was the guest artist. He gave a talk about art and held a question and answer session. Hilburn held a workshop Tuesday through Friday at the Muleshoe Art Loft.

Steve Quiller will hold a watercolor workshop November 7 through 11.

Members present were Mrs. Pat Allford, Mrs. Velma Davis, Mrs. Betty Embry, Mrs. Joe Smallwood, Mrs. Carrie Lee

Bishop, Mrs. Emily Clayton, Mrs. Gayle Littleton, Mrs. Beatrice Shirley, Mrs. Ruth Hammock, Mrs. Dana Arnold, Mrs. Elfreda McGehee, Mrs. Skeet Bradshaw, Mrs. Charles Pummill, Mrs. Gloria Huckabee, Mrs. Pat Bobo, Mrs. Jack

Schuster, Mrs. A.J. Lenderson, Mrs. Horace Hutton, Mrs. Delbert Watson, Mrs. Mary Foster, Mrs. Barbara Hugg, Mrs. Tommie McGehee, Mrs. Louise Alair, Mrs. M.L. Carpenter, Mrs. Sam Fox, Mrs. Debbie Davis, Mrs. Elsie McMillan, Mrs. Myrtle Steinbock, Mrs. Lucy Davis, Mrs. Gladys Darsey, Miss Judy Lambert, Mrs. Terry Gill and guests were Mrs. Edna Sanders, Mrs. Fran McCarty and Mrs. Mary Busby.

Planning Necessary For Weddings

COLLEGE STATION--Some couples veto detailed weddings, says Dorothy Taylor, family life education specialist, the Texas Agricultural Extension Service, The Texas A&M University System. The simple, quick wedding fits their lifestyle and their pocketbooks. But no matter how uncomplicated the ceremony, there must be planning, the specialist says.

For the short-notice wedding, the couple must:

--set date, and decide on type of wedding. Date, time of day and place of wedding must be cleared with the minister or judge performing the ceremony.

--make arrangements for wedding party wearing apparel.

--write wedding invitations or order wedding announcements and decide on wedding cake, other refreshments and flowers, if these are to be included.

--arrange for a photographer if you want pictures of the occasion.

Most states require blood tests or premarital examinations. Only after the necessary health checks--for both partners--can the license be issued.

A marriage license is recognized by most families as necessary for a "legal marriage."

A license is bought at the County Clerk's office in the courthouse. Marriages are made without licenses, too. In Texas, common law marriages become legally binding if the couple present themselves to the public as man and wife. Under the Family Code, no time commitment is required in a common law marriage.

Success accounts for much of the envy that folks generate.

PEACE Justice Report

Justice of the Peace K.B. Martin heard a number of cases during the past week at his office in the Bailey County Law Enforcement Center.

As usual, leading the list was eight cases of speeding; followed by five for driving unregistered vehicles; four for expired motor vehicle inspection stickers; three each for running stop signs and no driver's license; and one each for drunk, theft, over length, defective turn signal, over weight and no mud flaps.

Few thieves understand why human beings put so much importance upon property.

ECLIPSE OF THE SUN--Dwyane Franklin adjusts the telescope as he picks up the eclipse of the Sun Wednesday afternoon. Although the eclipse was not visible to the naked eye, it was watched on the plate just below the telescope.

Heart Association Holds Workshop

A Regional Campaign workshop for the American Heart Association was held Tuesday, October 11, at the First Christian Church in Lubbock. Representing Bailey County were Mr. and Mrs. Don Seals and Terry Gunter.

The welcome and introduction was given by Dr. Mike Armstrong, M.D. Regional Representative Director of the Affiliate Board. Lorenz Lutherer, Ph.D., M.D., spoke on "The

Case of Giving"

Group sessions were held with Mary Cuniff heading Group 1 on Home Heart; Group 2 led by Tom Stacy on Special Events; Memorials led by Joya White in Group 3 and Group 4 on Business and Special gifts was led by Jerry Hearn.

The close of the meeting was held by Bill Pope. He gave a summary and evaluation of the purpose of the campaign workshop.

MRS. ANDREW McDONALD CALDWELL

Miss Sherry Tyler, Mac Caldwell Wed

Exchanging wedding vows in an afternoon ceremony were Miss Sherry Tyler of Muleshoe and Andrew McDonald of Balko, Okla. The couple were married Saturday, September 24, in the Pleasant Valley Kingdom Hall of Jehovah's Witness in Amarillo. Peter Burus of Perryton officiated at the double-ring ceremony.

The bride is the daughter of Mr. and Mrs. Charles Fanning of Muleshoe. Mr. and Mrs. Andrew Caldwell of Balko, Okla. are the parents of the groom.

A basket of pink and purple mums centered the altar. Mrs. Loyd Lowery of Littlefield provided the wedding music on the piano.

The bride, escorted and given in marriage by her father, wore a floor length white gown of polyester satin. The princess style dress featured a lace covered bodice, a Queen Anne neckline and long full sleeves. A headpiece of flowers carried a short lace veil. Miss Tyler carried a bouquet of tiny pink rosebuds, pink carnations and baby's breath with pink and purple streamers.

Serving as matron of honor was Mrs. Carl Fronterhouse of Amarillo. She wore a floor length dress of light pink crepe with a high fitted bodice. The dress featured a Queen Anne neckline and short puffed sleeves.

Miss Sharla Lowery of Littlefield served as bridesmaid. She attired in a matching dress of lilac crepe. The attendants carried long stem carnations in pink and tipped with purple.

Serving as best man was Carl Fronterhouse of Amarillo. Groomsman was Steve Chandler of Perryton. Ushers were Carl Stafford and Tom Murray of Perryton, John Hasler of Shamrock, Tony Tandy and Bill Tandy of Amarillo and Ken Roper of Quanah.

For her daughter's wedding, Mrs. Fanning wore a floor length dress of pink quiana knit with a short lace jacket. Mrs. Caldwell, mother of the groom, wore a floor length dress of

apricot lace over double knit. They wore corsages of pink carnation tipped with purple with a tiny pink rosebud in the center.

A reception was held following the ceremony at the Flame Room at the Pioneer Natural Gas Co. The table was laid with a lace cloth. The bride's bouquet and the attendant's flowers served as the centerpiece. A white two-tiered wedding cake featuring alternate, pink and purple roses and topped with a miniature bride and groom was served. The base of the cake was centered with a nosegay of pink and purple roses.

The wedding cake, pink punch, mints and nuts were served by Mrs. Ken Roper of Quanah, Mrs. Derk Powers of Hereford, Mrs. Richard Ferrell of Littlefield, Miss Michelle Graves of Brownwood, and Miss Susie Thomasson of Lubbock. Mrs. Jack Tiffen of Earth registered the guests.

Other members of the house-

party were Mrs. D.A. Graves of Brownwood, Mrs. Boyd Lowery of Earth and Mrs. Bruce Tyler of Brownfield.

Out-of-town guests included Mr. A.W. Caldwell of Balko, Okla. and Mr. and Mrs. R.P. McDonald of Optima, Okla., grandparents of the groom; Mr. and Mrs. Fred Glassingame of Lubbock and Mrs. Emma Tyler of Quanah, grandparents of the bride; Mr. and Mrs. Charles Tyler of Odell, Mr. and Mrs. Robert Tyler of Quanah and Mr. and Mrs. Jim Blasingame of Houston.

The couple will make their home in Amarillo after a wedding trip to Red River, N.M.

The bride is a graduate of Muleshoe High School and was employed by Piggly Wiggly of Muleshoe. The groom is employed by PPG Industries of Amarillo and attended Balko, Okla. High School.

The rehearsal supper was held Friday night, September 23, at Supthen's Barbeque in Amarillo.

REV. AND MRS. JOE STONE

Rev. Stone Selected Most Appreciated Pastor

The month of October has been designated as Pastor Appreciation month in the West Texas District of Assemblies of God churches by the young people's organization, the Christ's Ambassadors. The C.A.'s of First Assembly of God Church, aided by the congregation, honored Rev. and Mrs. Joe Stone during the Sunday morning worship service.

Jana Jones and Brad Morrison assisted in presenting gifts to Rev. and Mrs. Stone. Edwin Watson, C.A. president, explained the point system used to select the Most Appreciated pastor in the district. Mrs. Stone received a gift certificate. The C.A.'s presented their pastor with a new Martin Guitar. Several weeks ago, Rev. Stone's guitar was stolen from the church. The C.A.'s made a new guitar their project to replace the one stolen.

The announcement of the pastor with the most points in the district, declaring him the Most Appreciated Pastor, will be made at the October C.A. rally on Monday, October 24.

The C.A.'s working on the project were Dennis Watson, Thurman Myers, Sherri Hawkins, Kirk and Rodney Crim, Clifford Watson, Tonya Magby and Angie Puckett.

Firemen's Auxiliary To Sell Sarah Coventry

The Muleshoe Firemen's Auxiliary met Monday evening, September 17, for a fund raising discussion and salad supper.

The wives of the firemen will be selling Sarah Coventry with the proceeds helping to buy the "Jaws of Life" lifesaving device.

Mrs. Lee Benham of Littlefield discussed and showed the whole line of Sarah Coventry. Anyone interested in buying Sarah Coventry or just looking at a book my contact Mrs. J.O. Parker at 272-3135; Mrs. Jack Dunham at 272-3091; Mrs. Alton Parker at 272-3408; Mrs. Owen Jones at 272-3468 or Mrs. H.E. Reeder, Jr. at 272-3908.

Canyon Woods Gregory

Dr. and Mrs. Jerry Gregory of Muleshoe announce the adoption of their new son, Canyon Woods Gregory. He is joined at home by two sisters, Quay and Spirit and one brother, Parker.

The main purpose of education is to teach people to think.

Halloween Party To Honor Alpha Zeta Pi

The Epsilon Chi chapter of Epsilon Sigma Alpha met Tuesday, October 4, at the home of Mrs. Wayne Tunnell with Mrs. Raygena Free serving as co-hostess.

A short business meeting was conducted by Mrs. Derrell Mathews. Ways and Means projects were discussed. The annual Radio-Thon has been set by Saturday, November 12.

Initiation ceremonies were held for Mrs. Daryl Foster, Mrs. Robert Montgomery, Mrs. Barry Cowart and Mrs. Rusty Whitt. They received their pledge pins from their big sisters, Mrs. Larry Gulley and Mrs. Raygena Free received

their jewel pins. First and second degree awards were presented to Mrs. Terry Hillin and Mrs. Derrell Mathews, respectively.

Refreshments were served to Mrs. Rusty Whitt, Mrs. Barry Cowart, Mrs. Robert Montgomery, Mrs. Daryl Foster, Miss Janet Ellis, Mrs. Terry Hillin, Mrs. Derrell Mathews, Mrs. Charles Moraw, Mrs. Terry Parham, Mrs. Allen Smyer, Mrs. Johnny St. Clair, Mrs. Wayne Tunnell, Mrs. Raygena Free and Mrs. Larry Gulley.

Some people are very cautious about paying bills.

GOLDEN GLEAMS

He who overlooks one fault invites another.
-Pubilius Syrus.

I have not hated the man, but his faults.
-Martial.

A fault excused is twice committed.
-English Proverb.

If we had no faults, we should not take so much pleasure in noting those of others.
-La Rochefoucauld.

The greatest of faults is to be conscious of none.
-Thomas Carlyle.

Great men's faults are never small.
-John Clarke.

Support too beautiful to hide!

NEW Support can be Beautiful UNDERWIRE BRAS by Playtex®

Now you can get feminine underwire support in three luscious new styles—each too pretty to hide!

Front closure plunge convertible style for those daring new styles (in white and beige). Soft, feminine tricot style for smoothness—and a beautifully designed lace cup style with delicate details.

Three beautiful ways to look and feel beautiful.

UNCONDITIONAL MONEY BACK GUARANTEE FROM PLAYTEX IF NOT COMPLETELY SATISFIED FOR ANY REASON.

Radio-Thon Set For November 12

Mrs. W.B. Wagon, Jr. was the guest speaker for Xi Omicron Xi chapter of Beta Sigma Phi, Tuesday night, October 4. Members met for the program at Something Special. Mrs. Wagon described for the members different kinds of table settings. She explained how to co-ordinate crystal, china and flatware, what colors could be used together and how to change items for a buffet, formal dinner or family table setting. Mrs. Doyce Turner and Mrs. Eric Smith were in charge of the program.

Following the program, the members met in the home of Mrs. Spencer Tanksley for a business meeting. Mrs. Tanksley, vice-president, led the opening ritual and presided over

the business meeting. Communications and officer reports were given. Baby spoons were presented to Mrs. Tanksley, Mrs. Charles Pummill and Mrs. Gary Shipman.

The next meeting will be Tuesday, November 1, and will be a Halloween costume party in honor of Alpha Zeta Pi. Mrs. Tom Jinks, service chairman, announced the Cystic Fibrosis drive will be held in the next two or three weeks. Members will be helping with the Bingo at the Nursing Home on Thursday, October 13.

Following the closing ritual, Mrs. Tanksley and Mrs. Jerry Wenmohs served fresh apple cake, mixed nuts, carrot sticks, coffee and soft drinks to Mrs. John Agee, Mrs. Ted Barnhill, Mrs. Ken Box, Mrs. Monty Dollar, Mrs. Bob Finney, Mrs. Marcia Henry, Mrs. Tom Jinks, Mrs. Max King, Mrs. Mike Miller, Mrs. Charles Pummill, Mrs. Don Rempe and Mrs. Doyce Turner.

Hospital Auxiliary Operates Beauty Shop For Nursing Home Women

At the Muleshoe Nursing Home, the pink door stands for the Auxiliary shampoo room. This service has been offered for approximately ten years to women residents of the Home.

Halloween Theme Of Family Night

The West Camp Family Night held Saturday night, October 8, in the Community Center was hosted by Mr. and Mrs. Bob Byrd and Mr. and Mrs. Guy Austin.

The Center was decorated with masks, skeletons and crepe paper in honor of Halloween. Balloon relay games and table games were played.

Special guests at the Family Night were Mr. and Mrs. Hubert Gammons of Weatherford, Tex., former West Camp residents.

Those attending were Mr. and Mrs. C.E. Grant and children, Mr. and Mrs. Stan Austin and son, Mr. and Mrs. J.W. Herington, Mrs. C.E. Roark, Mrs. Deloris Gray, Mrs. Veta Self, Mrs. and Mrs. Joe Rhodes and children, Mr. and Mrs. Dean Hukill, Mr. and Mrs. Carl Kesey, Mr. and Mrs. Leldon Phillips, Mr. and Mrs. Ross Goodwin, Mr. and Mrs. Ernest Ramm, Dalton Harris, Mr. and Mrs. Loyd Stephens, Mr. and Mrs. Bill Snell and children, Mr. and Mrs. Willis James, Mr. and Mrs. Joe Sinnacher and Mrs. Mary Wilson and Brandon.

The next Family Night planned will be Saturday, November 12, at the West Camp community center.

between 9 a.m. and 11:30 a.m. on Tuesdays. They wash and set the women's hair in the most fashionable styles possible. But some women still prefer the traditional braids and top-knots, while others want the most up-to-date hair styles. In the shampoo room there are two shampoo bowls, usually operated by Mrs. Clara Crane and Mrs. Mabel Caldwell. Other "stylist" are Mrs. Dorothy Green, Mrs. S.M. Ethridge, Mrs. Delbert Watson, Mrs. Roland McCormick, Mrs. Willard Tibbets and Mrs. Cliff Griffiths. Regular volunteers are Mrs. Opal Peugh and Mrs. Ethel Julian. They pick up and return wheelchair customers to their rooms.

The atmosphere is about the same as a beauty shop with chatter, some jokes and nursing home gossip. In addition to two shampoo bowls, there is a vanity

for rolling hair and four chairs. The shampoo room turns out about ten to 15 customers every Tuesday in about two and a half hours. But the Auxiliary beauty operators think their time is well spent.

HOBO KING AND QUEEN...Named as the Progress 4-H Hobo King and Queen Friday evening, October 7, were Curtis Hunt and Keva Roming. Other awards presented were the "New York" and "Las Vegas" awards.

Store fats and oils air-tight, advises Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System. "They keep better in smaller containers, without air space," Mrs. Clyatt says.

TROOP 285...Members of Brownie Troop 285 are back row, left to right Misti Brewer, Janie Kiser, Rene Sane, Penny Kleisel, Cynthia Lane, Lisa Cazarez, Becky Sandoval, Quay Gregory, and Lisa

Bizzell. Front row, left to right, are Mandy Collins, Dee Ann Bizzell, Amy Bea, Jana Renner, Karen Kennemer, Michelle Stevenson, Shannon Springfield, Lainie Miller and Misti Ott. Adust Leaders are Jan Springfield and Juanita Sandoval.

The amount of petroleum used in the manufacture of a synthetic wardrobe for one American for one year is less than that required to fill an automobile tank-just once, says Becky Culp, clothing specialist, the Texas Agricultural Extension Service, The Texas A&M University System.

Roming, Hunt Queen And King Of Hobo's

The Progress 4-H awards banquet held Friday evening, October 7, in the Richland Hills Elementary Cafeteria. The theme of the banquet was "King of the road."

Members and guests came dressed as hobos to carry out the theme. Names of King and Queen of the Hobos were Curtis Hunt and Keva Roming. He is the son of Mr. and Mrs. Robert Hunt and Keva is the daughter of Mr. and Mrs. Ben Roming.

The program was opened by Curtis Hunt. Guests were introduced by Donna Shaw. Awards were presented by Bobbie Harrison and Mr. and Mrs. Robert Lunsford. Keva Roming closed the banquet with the 4-H prayer.

The Lieutenant Governor's Report

By Bill Hobby

AUSTIN -- In discussing offshore production, an entirely different situation is presented by the question of natural gas supplies. Much of the United States offshore reserves may be in the form of natural gas. The production of natural gas offshore would appear to pose relatively few environmental risks. An alternative source of natural gas, which is increasing in prominence, is the transportation of liquefied natural gas from Algeria and other sources. Liquefied natural gas, as we all know, presents substantial risks because of its potential for disastrous explosions. The location of liquefied natural gas plants in currently non-producing areas must be balanced with increased production of natural gas offshore of those areas.

There is another problem raised by the question of outer continental shelf development.

This is a question of regional vs. national interests in an energy policy. There are strong feelings among the people of the Gulf Coast that those on the Atlantic and Pacific coasts seem to want a free ride. One of the costs of failure to develop the Federal offshore reserves in the Atlantic and Pacific is an increasing strain on relations between various regions of the country. These feelings may create obstructions to other portions of the overall national energy policy. We should also consider the terms upon which outer continental shelf development should take place. These terms should apply to offshore Texas, offshore Alaska; offshore anywhere. The terms are reasonable and as long as they are predictably applied, they can be adhered to without great burden on the producing companies. There are three terms which I want

to see emphasized in federal policy and enforcement activity. The first is to require the best available technology to be used in all offshore and onshore operations to protect the environment and the activities which depend on coastal renewable resources. This will, to some extent, increase the cost of production. But I believe that the increased cost is a reasonable price to pay for increased protection of the renewable resource base.

The second term I would insist upon is a scheme of compensation by all offshore oil operators for damages to the environment and to fishing and recreation interests. Progress has been made in this area regarding oil spills and damage to fishing equipment by offshore operations. However, there is still room for improvement.

The third term I would insist upon is full compensation to states and localities for the adverse effects of outer continental shelf

development. Our analysis of the impacts of OCS development on Texas indicate that there will be a continuing fiscal drain on local government from this activity. Because the oil and gas is beyond the taxing jurisdiction of the community, the net effect can be a negative one even in areas with no existing production.

The Federal Government has in the past made its compensation payments in the form of grants, shared royalties, and through other means of direct assistance. Now is no time to change this policy. Full compensation will require further thinking and amendment of the

Coastal Energy Impact Program to better reflect the actual fiscal characteristics of offshore development.

The next Lieutenant Governor's Report concludes my discussion of offshore oil production.

David C. Jones, Air Force Chief of Staff:

"Security risks in the Panama Canal will be reduced under the Carter administration's proposed treaty."

Barry Goldwater, Senator (R-Ariz):

"There is not a man or woman in this country who could stand up to the kind of scrutiny that Lance was subjected to."

Letters To The Editor

A LETTER FROM A PASTORS DESK

Dear You,

Many times I have been asked how I like this parish assignment and what I think of this community. I realize I am asked about people, not streets and buildings. My answer to the question isn't "It's good" or "It's bad", because it is both. I marvel at the concern shown on one hand, for example the contributions to the hospital fund. And yet I am dismayed at the dreadful lack of concern often shown those who can't immediately pay for medical attention. It is almost as if the hospital were merely a monument to a god of health; a pyramid!

How often has the community rallied to the help of someone whose home burned, or a family with a serious accident or illness! Yet how frequent the number of families whose utilities are disconnected! How little concern there is for the suffering meted out to the children in those families!

It has become easy to say "I (we) can't help because we have our rules to follow and you don't qualify". How often is someone left starving because of a "rule"?

Isn't it amazing how an unwed mother is in a situation in which she must not need help because the rule or law excludes her? Equally amazing, how a wife is denied aid because her husband is guilty of a crime. Children born of a non-recognized union are the most pitied; they have no rights at all!

It is so easy to become judges and be blinded by our judgments. We are expressing by our attitudes, that if a situation should not exist, that if there is a crime, a fault, a lack of initiative on the part of someone, ignorance or whatever other lack, then we have no responsibility. However, everyone who carries the name "Christian" must ask himself one question and thus respond. I ask myself that question whenever someone come to the door. The person may be rich, poor, may smell, be dirty, ignorant, incapable of speaking English, a stranger, a "bum", a "nobody". I may personally feel good, happy, sick, depressed, used, respected, hated, or whatever feeling one can experience. The one question is simply "What would Jesus do right now?" How great our community would be if "You" asked "What would Jesus do?"

You and I know that the situation does not yet exist. It speaks very poorly when a welfare service can only refer one to a local parish church for help, whether it is for food, medical attention or utilities. The Church (every denomination

and all together) indeed has the responsibility to minister to the needs of its people. But the Church is people - those who in and through faith accept Jesus and His way of living and acting. One cannot be a Christian only on Sunday in a Church building, and the rest of the time be a pagan. That would be serving two masters, God and mammon. Nor can we love God and be unconcerned with people as St. John expresses in his first letter. He says "If someone says 'I love God', but hates his brother, he is a liar. For he cannot love God, whom he has not seen, if he does not love his brother whom he has seen". (1 Jn. 4:20 T.E.V.)

Perhaps much of this letter is not complete, and is open to criticism. Perhaps much will be twisted and misquoted. Perhaps excuses will be made and condemnations uttered. But in the final analysis there is still one question that everyone who carries the name Christian must ask himself or herself: "What would Jesus do?"

Jather Timothy Schwertner
Pastor of Immaculate Conception

View From The Plain

by J.D. Peer
I & E Field Officer

LUBBOCK -- West Texas residents experienced the first hint of things to come next year as the winds howled and the soil changed locations two weeks ago.

This suggestion by nature should prompt landowners and sportsmen alike to assure proper cover for bare land is established before winter arrives next month.

Not only will a cover crop of rye, wheat, or fescue protect your land, it will also help the various species of wildlife on your property to make it through the snow and dirt storms into the nesting season of 1978.

An abundance of cover is evident including weeds patches, fencerows, playa lakes, and grain stubble in October but most, if not all, are soon chopped, burned or plowed under by the first snow.

Leaving a 50-yard strip of grain stubble next to some winter wheat will furnish both good cover for wildlife and a method of slowing wind erosion.

Controlled grazing of playa lake beds and grasslands will leave enough cover for pheasants and quail to escape their natural enemies.

To help landowners improve wildlife habitat and setup a continuing program of wildlife management, the Texas Parks and Wildlife Department will furnish technical assistance through the extension personnel stationed across the state.

Panhandle and South Plains landowners should contact Richard DeArment, extension biologist, Box 122, Wheeler, TX. 79096 or call 806/826-3233 for more information on habitat improvement and management plans for their property.

Let's give wildlife a helping hand through the coming winter months by planning a good conservation plan now.

Feed Should Be Plentiful

A good feedgrain crop is being harvested in Texas and throughout the nation and that will keep the pressure on prices farmers will receive.

"The feedgrain crop should approach that of last year, resulting in farm prices below the CCC (Commodity Credit Corporation) loan rates for at least several months," points out Roland Smith, a grain marketing specialist with the Texas Agricultural Extension Service.

However, Smith feels that the recently announced increase in the farm loan rates for corn and sorghum should cause the prices of these grains to increase from current levels after the harvest season ends.

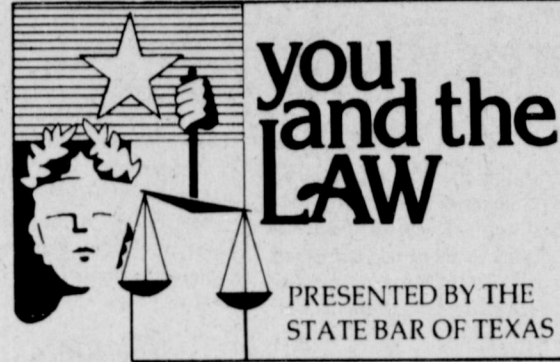

The new national loan rate is \$3.39 per hundred pounds for sorghum and \$2 per bushel for corn. Smith contends that sufficient holding and loan impoundment should eventually bring farm prices up to within 45 cents per hundred pounds of new county loan rate. "After harvest is completed, elevators may be offering grain to feedlots

at near the individual county loan rates."

September 1 estimates of feedgrains call for a 6.23 billion bushel corn crop, close to the 6.22 billion bushel crop last year. The sorghum crop is forecast at 786 million bushels, up from 724 million bushels in 1976. "Poor weather since September 1 may cause final estimates to be somewhat lower," adds Smith.

"Due to last year's good crops and virtually no increase in usage, this October 1 carryover of feedgrains are expected to more than double for corn and to increase 80 percent for Sorghum," notes Smith.

The specialist adds that another large carryover of feedgrains is likely next year unless the domestic feed demand for corn and sorghum increases dramatically. Lower exports of corn and sorghum are expected due to relatively good crops abroad. Therefore, Smith foresees a "set-aside" program to reduce feedgrain plantings next spring, perhaps by about 10 percent.

you and the LAW
PRESENTED BY THE STATE BAR OF TEXAS

Q: My common-law husband and I live in the home he owned before we met. He has children by a previous marriage. We have no children. He has a will leaving the house to his mother and sisters living in another state. What chances would I have to continue living in the house in the event of his death?

A: The surviving widow has a right to remain in possession of the homestead during her life. This right would not be affected by the fact that the title to the homestead may be passed to some person other than the widow by the terms of the will.

Q: My husband was married once before. His former wife asked that their only child be made beneficiary of his life insurance until the child reaches 18 years. I would like to know if I would receive any benefits from the policy should something happen to him.

A: It all depends on how he set it up. When he named beneficiaries at the time the policy was written, he could have designated most anyone or the estate in general. It's true he could make such an agreement which would benefit his child and not you as his wife. He could also change beneficiaries if he wants to.

Q: In filing a suit for damages resulting from an auto accident, my attorney said his fee would be one-third of any court judgment award.

A: A person who is at least 17 could leave home without the consent of her parents or guardian and not face detention by a juvenile court. However, should an individual leave without consent for a substantial length of time or without intent to return prior to turning 17 and it doesn't come to light until after his or her birthday, that person would still be subject to the jurisdiction of the juvenile court under the Family Code.

Send your questions to "You and the Law," State Bar of Texas, P. O. Box 12487, Austin, 78711. Answers may appear in columns in hypothetical terms; personal answers not possible.

Quite a catch! Our BanClub!

Nowhere in banking will you get more for your money. It's so simple, so convenient — quite a catch for only \$3.00 a month. Take for example the no minimum balance unlimited check writing service. That alone can be worth \$3.00. You can write a check for every expense and have a ready-made financial record with the cancelled checks and monthly statement. You don't have to keep up with an average balance or worry when it dips too far at the end of the month — and you can use as many personalized checks as you need at no extra cost.

And that's just the beginning. There's also BanClub CheCash — your check cashing privilege at any 3,000 BanClub bank locations coast-to-coast. Plus extras like \$10,000 accidental death insurance, discounts on car rentals and motel rates and all the other benefits listed in the BanClub magazine.

All you need to start reeling in all these banking bargains is your own BanClub membership card — come get yours today!

DECA Attends Lab In Lubbock

Friday and Saturday, October 7 and 8, five officers, their coordinator, and two sponsors attended the Area VI Leadership Lab held at the new Civic Center in Lubbock. The students attended a lab Friday night from 7:00-10:00. Saturday they met from 8:30-4:30. They participated in several group

activities which helped them learn the importance of communication, to understand individual differences, to work together, and to improve in club leadership.

The members attending were Jana Jones, President; Marvin Davenport, Vice President; Vicki Gatewood, Treasurer; Joe Ruthardt, Parliamentarian; Benetta Roming, Reporter. Mark Gist, the coordinator of the Muleshoe DECA club, Mrs. Mark Gist, and Mrs. Ben Roming were the sponsors.

Everyone had a great time and came back with a lot of goals for the club.

Chicken Dinner Planned For Homecoming

SUPPORT the HERO HOME-COMING SUPPER, OCTOBER 21, in the High School cafeteria. The supper will begin at 5:00 and will end at 8:00 p.m. Deliveries will be made that night if arranged ahead of time. A delicious menu will be served consisting of 1/4 fried chicken, buttered potatoes, pea salad, peach cobbler, hot rolls and butter, with iced tea and coffee. The adult tickets are \$2.50 and children under 12 are \$1.50. You can buy tickets from any "hero" member. This promises to be a wonderful meal, and everyone is invited to attend. Don't forget the HERO HOME-COMING SUPPER, October 21 at 5:00 - 8:00 p.m! THANKS FOR YOUR SUPPORT.....BEAT THE DIMMITT BOBCATS.

Students Named For Achievements

Each year the National Honor Society sponsors the Honor student of the month and a bulletin board is prepared in the front hall featuring these students. To be eligible for NHS student of the month, a student does not have to be a member of NHS, but is elected by the faculty. They must have a grade average of 85 with only one grade below 80 and no grades below 75. This month the National Honor Society is happy to announce these honored students: Stephanie Brantley is the 17 year old daughter of Mr. and Mrs. Curby Brantley. She is active in FTA, FFA, NHS, and is member of the Muletrain,

Mules-Tale Staff, and is co-editor of the Muletrain. Stephanie is also a Senior Class officer.

Larry Hooten is the 16 year old son of Mr. and Mrs. Robert Hooten. He is a Junior this year and is active in Student Council, Football, and FTA.

The Sophomore this month is 15 year old Lauri Burgess. Her parents are Mr. and Mrs. Jim Burgess. Lauri's activities include FTA, Student Council, Basketball, and JV cheerleader.

Greg Harrison is the 14 year old son of Mr. and Mrs. Donald Harrison. He is a Freshman and is active in athletics, FFA, and FTA.

Congratulations to these students for their outstanding achievements.

STEPHANIE BRANTLEY

LARRY HOOTEN

LAURI BURGESS

GREG HARRISON

High School Welcomes New Faculty Members

Muleshoe High School has several new additions to our faculty this year. This year the Muletrain Staff would like to recognize these new teachers.

Mrs. Jean Allison is a new faculty member at MHS, this year. It is her first teaching position. She attended Eastern New Mexico University and received a BS degree in secondary education. Mrs. Allison just finished college last year. After raising her family, she decided it would be a good time to further her education.

Mrs. Allison's husband is Harold. They have four children, Veta, Carolyn, Lieutenant Fred Allison, and Jim. In her spare time Mrs. Allison enjoys reading, traveling, gard-

ening, sewing, and cooking. Her job at MHS is a new program called total tutoring. It is for any student who is interested in improving his scholastic standing. She tries to help students make better study habits and helps new students get acquainted with the school and its teaching methods.

Mr. Charles Faulkner is the new Mighty M Band director. He attended West Texas State University to receive a BME degree and an MA. He is the High School band director and assists with the Junior High band.

Mr. Faulkner's wife is Carol. They have three children, Alan-9, Chris-7, and Tina-3. When Mr. Faulkner isn't busy

with the band, he enjoys fishing. He commented, "I really enjoy the town and kids. I feel like my band students are a cut above average. I'm really glad I'm here."

Lola Pylant, a graduate of Muleshoe High is back, only this time she holds a teaching position. She teaches P.E., Health, and coaches girl's volleyball. She is also co-sponsor of Student Council.

Mrs. Pylant attended Texas Tech University to receive a B.A. In December of last year she received a Master of Education from North Texas State University.

Her husband Dick is a criminal investigator in the D.A.'s office. They have a five year old son,

Brett. Mrs. Pylant enjoys all sports both as a participant and a spectator. She likes to travel and loves to be with her family.

She said, "It is so good to be back in Muleshoe High. I would like to compliment the students; they are wonderful and so are the faculty members."

Gentry Lynn is a new Vocational Agriculture teacher. He is a sponsor of F.F.A. and the Freshman class. He attended West Texas State University to receive a B.S. and Tarleton University to receive an M.S.T.

Mr. Lynn and his wife Shirley have two sons. They are Toby 4 and Tatum 1. He enjoys working with livestock, fishing, and sports.

Jackets Available From DECA

School office at 3080 and order one.

Volleyball Splits Duo With Bovina

October 3, Muleshoe High School Girls Volleyball team played at Bovina. The A team won 15-2 and 15-13. The B team lost 12-15 and 13-15. The A team players are Gloria Castorena, Susan douglass, Agnes Lopez, Beatrice Pedroza, Esmeralda Posadas, Janie Posadas, Berma Ranjiel, and Helen Villalobos. The B team members are Oralia Alfaro, Jerria Beasley, Sally Castorena, Jo Garth, Sylvia Lopez, Betty Manzanera, Georgia Manzanera, Sylvia Quesada, and Terry Richards. Mrs. Lola Pylant is the Volleyball coach. The season schedule is:

- October 17 Levelland A&B 5:00 There
- October 18 Bovina A&B 5:00 Here
- October 24 Bovina A&B 5:00 There
- October 31 Levelland A&B 5:00 Here
- November 8 Bovina A&B 5:00 Here
- November 18 Lubbock Regional Tournament
- November 19 Lubbock Regional Tournament

Merchandise is used to help send DECA members to Area and State competition which will be held in February and March.

Freshmen Elect New '77 Officers

The Freshman class held their first meeting on Monday, October 10. Class officers for 1977-78 were elected. Officers elected were, President, Clifford Watson; Vice-President, Debbie Everts; Secretary-Carol Precure; Treasurer-Julius Briscoe; Reporter-Michelle Agee; and Chaplain-Sharon Carpenter.

Student Council Representatives are Shelli Hawkins and Clifford Watson. Sponsors for this year are Coach Lester Kirkland and Mr. Gentry Lynn.

JV Mules Add Win

JV Mules added another win to their record last week. They defeated Dimmitt 28-6. Their season record now stands at 5-1. The team has been been extra hard in order to come out on top of all the district teams. They feel that they have a good chance to win.

They played Littlefield on Thursday, October 13. They appreciate the support they have been getting and they hope it will continue.

Junior Class To Sell Mums

The Junior Class met Monday, October 10. The meeting was opened by Junior class President Keith Hawkins. Homecoming mums were discussed.

Juniors chose the mum from Decorator 216. The Mum committee was chosen by Gina Burden and Beverly Biggerstaff. The ones chosen were Glenda Rasco, Shannon Kennedy, Chana Eubanks, Benetta Roming, Brenda Parker, Christine Vela, Karen Stall, Linda Garcia, Beatrice Edmundson, Rosa Guillen, Dan McVicker, Ernie Vela, Abel Onriveroz, Clayton Ramm, Randy Watkins, Brad Huckabee, Gaylon Stra-

han, Brent Burrows, Terry Shafer, Mike Dale, Robert Posados, Doug Cowan, Lydia Puente, Vivian Briscoe, and Tami Nesbitt. The prices of the mums are \$6.50, \$8.50, and \$10.00.

The Juniors voted on class rings. The vote was to not have a specific class color for the rings.

Happy Birthday

We would like to wish the following students a happy birthday, even though report cards were handed out on Wednesday. October 16-Deanne Smith October 17-Jacinto Rodriguez, Sherri Reese, and Tom Crow October 18-Stella Lopez October 19-Keren Franklin October 20-Brenda Woodruff, and Linda Woodruff October 21-George Villareal October 22-Agnes Lopez

A Night Of One Acts To Be Here Soon

Muleshoe High's Drama Department will open the theatre season with two one act plays, October 24-25. The performances will begin at 8:00 p.m. each evening.

The first performance each evening will be "I'm a Fool." Cast members are Dwayne Shafer, Brad Baker, Duane Franklin, Marilyn Bynum, Lisa Redwine, Cara Shafer, Sally Lunsford, and Linda Nowlin. Spectators are Brenda Clay, Nancy Garcia, Traci Walker, Tammy Huckabee, Leslie Wagon, and Lori Butler. Second Performance each evening will be "Hansel and Gretel." Cast members are Al Ontiveroz, Lavayne Lloyd, Brent Burrows, Ernie Vela, Julius Briscoe, and Tami Nesbitt, Tammy Huckabee, and Christine Vela. Tickets are on sale for \$1.00 per person or you may purchase tickets at the door the night of the performance.

Calendar For The Week

- Monday, October 17- DECA in cafeteria; Art club, room 7, Volleyball A and B Levelland- there 5:00
- Tuesday, October 18- Volleyball A and B, Bovina-Here 5:00, Athletic Boosters 8:00
- Thursday, October 20- Freshman Football-Dimmitt-There
- Friday, October 21- Varsity Football Dimmitt-Homecoming 7:30

Four Candidates Named For Queen

A very big week is in store for the students of Muleshoe High School. Starting the week off, Student Council will be selling tickets for the Homecoming football. The football will be painted with all the players' names on it. The winner of the football will be drawn Friday night at the game.

Thursday night, there will be a bonfire starting at 8:30 at the Boy Scout Hut. Friday at 2:45, there will be a Pep Rally with a lot of attractions. The before-the-game supper will be sponsored by HECE, from 5:30-8:00 p.m.

The coronation of the Homecoming queen will be at 7:00 p.m. preceding the kickoff at 7:30 when the Mules meet the Dimmitt Bobcats. Homecoming queen candidates are Dani Dunham the 17-year old daughter of Mr. and Mrs. Jack Dunham. Dani is a senior and plays Varsity Basketball, is a member of Student Council, FTA, Art Club, and is a Varsity Cheerleader. She will be escorted by Dean Northcutt, the 17-year old son of Mr. and Mrs. Edward Northcutt. Dean is active in Student Council, FTA, Basketball, track, and is a captain of the football team.

Susan Crittenden is a Senior at Muleshoe High and is the daughter of Mr. and Mrs. Wayne Crittenden. Her activities include FTA, Art Club, Basketball, and varsity cheerleader. She will be escorted by Curtis Carpenter. Curtis is the son of Mr. and Mrs. Jimmie T. Carpenter. He is a senior and a member of FFA, FTA, Student Council, participates in athletics and is a captain of the football team.

Gina Burden is the 16 year old daughter of Mr. and Mrs. Dale Burden. Gina is a Junior and is active in Student Council, is Junior class representative and a member of FTA, and the Muletrain-Mule's Tale staff, she is a varsity cheerleader. Her escort is Marcus Beversdorf, the 17-year old son of Bernie Beversdorf. He is a member of FTA, plays basketball and tennis and is a captain of the football team.

Melissa Biggerstaff is the

Rasco-Splawn FFA Ploygirl And Sweetheart

Glenda Rasco was elected FFA Sweetheart Monday night at the FFA Meeting and Shelly Splawn was elected Ploygirl. These girls will represent the chapter in local events as well as district activities. The FFA members are very proud of these girls and express their thanks to them.

15-year old daughter of Mr. and Mrs. Corky Biggerstaff. She is a sophomore and is a member of FTA and Student Council and is a JV cheerleader. Her escort is Johnny Estep, the 17-year old son of Mr. and Mrs. Elbert Estep. He is active in FFA, FTA, and is the captain for the football team.

Concluding Homecoming activities, there will be a dance after the game at the Catholic Center. Everyone is invited.

Sophomores Make Plans For Projects

The Sophomore class met for the first time this year, October 10, in the auditorium. The idea of having a movie at the Halloween Carnival as a money making project for the class was brought up. Committees have been appointed to check on this project and make plans for it. The class also discussed other money making projects for later on this year.

Player Of The Week

The honor of "player of the week" went to Debra Washington, Varsity. Debra is the 16 year old daughter of Mr. and Mrs. Herron Washington. She is a junior and her activities include DECA and Basketball. Debra plays guard for the Mulettes, and her comments were "I think we are going to have a good team this year considering our size."

Receiving the honor for the JV was Annie Kirven, the 16 year old daughter of Mr. and Mrs. Will Norman. She is a junior and her activities are DECA and basketball. Annie plays forward for the JV.

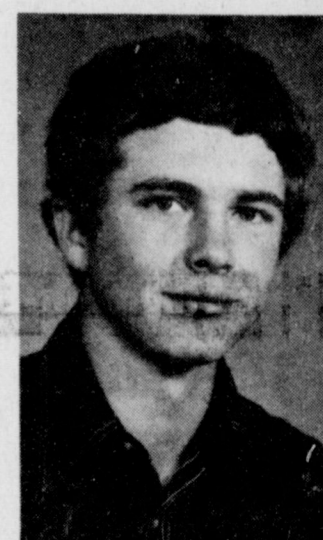

Player of the Week for the Freshman was Kathleen Patterson, the 14 year old daughter of Mr. and Mrs. Alfred Patterson. Her activities include FFA and FTA. Kathleen plays post and her comments were, "This year I think we are going to be a great team. We are all working as a team and not just as individuals. Coach Graves is really helping us and showing us how to play 5-man basketball. I think we all appreciate him for that."

Congratulations to these girls!

HEW Secretary orders halt of federal abortion funds.

MELISSA BIGGERSTAFF

DWAYNE SHAFER

Thespian Of The Week

This week the Muleshoe School Speech and Dram Department recognize Dwayne Shafer as this week's Thespian of the Week.

Dwayne is very active in almost all school-supported activities. He is the District President of FTA and is also a Chapter Vice-President. Dwayne is the reporter for FFA and also serves as secretary-treasurer for the Senior Class. He is now the co-editor for the Muletrain annual as well. Dwayne has a role in one of the Speech Department's plays this fall, "I'm a Fool." The play will be presented on the nights of October 24 and 25.

Again we want to acknowledge the hard work that Dwayne is doing and encourage him to keep working hard in the future.

HERO OFFICERS INSTALLED- Recent ceremonies saw the 1977-78 officers of HERO installed. They are from left, Anna Hernandez, Frances Brown, Jolinda Hawkins, Cindy Harris, Robert Moreno, Jue Green, Nina Pirock, Christine Vela, and Melody Mauldin. HERO is a chapter with the Homemaking Department in Muleshoe High School.

**On Wall Street
 By Bob Hill**

There are five major American banks working actively to establish banking relations with the People's Republic of China. But one of those banks, the First

Texas Food and Fiber
 by Reagan V. Brown, Commissioner
 Texas Department of Agriculture

My daddy used to tell me "you can't sell from an empty wagon." As the years passed, I became more and more appreciative of his philosophy and have tried to practice what he preached.

While you can't sell from an empty wagon, neither can you sell from a full wagon if you don't tell the customers what you have. And the Texas Department of Agriculture, working with the state's food and fiber interest groups, is bursting its suspenders telling the Texas agriculture products story.

And the story is an exciting one. Our Texas Ruby Red grapefruit has become internationally known; our choice breeding cattle have also attained international acclaim; our oranges are competitive with the famous Sunkist brand from California; our orange juice competes successfully with Anita Bryant's sunshine products from Florida. Idaho and Maine potatoes find the competition keen when matched with Texas potatoes.

Be it turkeys or tomatoes; onions or okra; pecans or peaches; cotton or corn; carrots or chickens; wheat or watermelons; peanuts or pork, Texas' products are finding great favor with the housewives throughout the

nation. Agriculture is presently in an atmosphere of uncertainty. However, I am optimistic about its future, and I shall do everything I can to promote our Texas agricultural products.

The Department's marketing Division has planned an outstanding program for next year, and I feel that Texas agriculture will benefit greatly from the division's efforts. The division's projects include general Texas Agricultural Products promotion and promotion of meat, eggs, fruit and vegetables, nursery products, institutional programs, and promotions at trade shows, conventions, and a number of the popular Taste of Texas productions. All of this is designed to market the products of Texas agriculture, which will be of great benefit to all Texans.

The Texas Department of Agriculture is going to do all the law will allow in providing services to Texas agriculture, and every employee of the Department is going to be a salesman for Texas agricultural products.

A good rule for highway travel is to let the other car get there first.

National Bank of Chicago is going after the Chinese hot and heavy.

The First of Chicago last week confirmed rumors that it is discontinuing any new loans to Taiwan in hopes of getting in the good graces of the mainland Chinese and becoming, someday, the lead bank for the People's Republic of China.

The withdrawal of the nation's ninth largest bank from Taiwan will be a complete break. The bank has about \$100 million in loans and credit in Taiwan. There is no plan to sell the loans to any other bank but the First of Chicago admitted that it had told the Nationalist Chinese Government last week that it did not intend to make any more loans to Taiwan. It also indicated a "scaling down" of banking activities to a limited correspondent relationship.

There can be no direct leading to the Communist Chinese by any American bank until the dispute over \$80 million in Chinese assets which were frozen in 1950 is resolved. In addition there is \$200 million in private American claims against the People's Republic of China which must be settled. Even if those two major items are settled, there can still be no banking activity until the PRC is granted diplomatic recognition by this country.

Other American banks with active international branches wonder if the First of Chicago may have made a key blunder by cutting off Taiwan. There is a prevalent feeling that banking can be done with both Chinas. The PRC is well aware that any American bank with which it does business also does business in Taiwan. There is another angle. It is whether the mainland Chinese will take the attitude that the Taiwanese were on good terms with the First of Chicago and friends do not run on friend.

The First of Chicago spokesmen believe that the mainland Chinese offer a far greater potential for business. They point out that the PRC has 25 percent of the world's population and vast mineral resources which now are just being developed.

New Treats Decrease Hazards

Because many parents are spooked by the idea of poisoned Halloween candy, the occasion may be dying out. But the Texas Medical Association suggests a safer alternative to candy. Giving inedible treats may reassure parents and still let children participate in the excitement of trick-or-treat.

Giving balloons, pencils, coins or other small, relatively inexpensive items probably will please children just as much or more than candy. Then parents will not have to inspect and maybe throw out suspicious candy. People who give inedible treats also may save children from stomach aches caused by too much candy in one night.

Of course it is still fairly safe for children to have trick-or-treat candy that never has been unwrapped. But children should wait until parents have had a chance to inspect candy before the kids devour their loot. Parents also should be careful toddlers do not swallow or otherwise injure themselves with inedible treats.

Adults also have some responsibility for avoiding vehicle-secure the payment of their share of the costs of such improvements, and any such omissions will not invalidate the lien or liability on assessments made against the properties abutting any streets and avenues or portions thereof being pedestrian accidents. Many children get excited and dash across streets or they simply cannot see well in their costumes so motorists need to be especially careful at Halloween. Parents can prepare children

for safe trick-or-treating by helping them choose safe costumes. Loose-fitting masks or ones with small eyeholes should be avoided. Cosmetics, burnt cork or grease paint can be used as a safe alternative to masks. Costumes should have bright colors, reflective tape or other materials that make children highly visible. Outfits should not include hazards such as sharp instruments, candles or loose cloth that could snag on obstacles.

Trick-or-treating as early as possible in the evening and hitting only a small area also will decrease the chance of problems. Some parents prefer

to take their children only to a few friends' houses. But some children go out on their own without adult supervision. Homeowners can help themselves and these trick-or-treaters by lighting their property well, keeping pets inside, closing garage doors and putting away objects such as garbage cans and lawn furniture to prevent damage to youngsters and property. Just like Christmas or any other festive occasion, Halloween needs preparation to be enjoyed. The only thing different about Halloween is that more stress should be on safety.

Texas Taxes

By BOB BULLOCK, State Comptroller

AUSTIN — The Comptroller's Office has implemented the first stage of a modern new computer system that will give Texas one of the most sophisticated and efficient statewide accounting systems in the nation.

Called Financial Accounting and Control for Texas System — FACTS for short — the new, streamlined system replaces the state's 16-year-old spit and patch accounting system, which had become as antiquated as the Model T.

The new system provides not only an up-to-the-minute accounting of the state's income and expenditures — at the touch of a button — but also can show how much each agency has spent for what, program by program, and how much money it has left.

About the only thing we could get off the old system was an accounting of what we had spent and how much we had left. And to get this required a lengthy and costly computer run and an expert at your side to interpret all the codes and symbols on the printout.

The new system flashes the information on a terminal as quick as a wink.

The proliferation of state programs and expenditures — now roughly \$8 billion a year — makes it absolutely essential that the state have a system to rigidly monitor agency expenditures and programs to see that the taxpayer is getting his money's worth.

Without such checks, state spending could easily go out

of sight. This system will provide those checks by giving the Legislature the ability to go beyond the simple ledger sheet and to actually evaluate an agency's performance and programs to see that it is meeting its goals and is operating efficiently.

We have been unable to do this in the past because we simply couldn't readily obtain the data. This new system will instantly provide the information needed for such an evaluation.

If, for example, the Legislature wanted to check in the past to see how much of the money budgeted for welfare was actually reaching the poor, sick and aged, it would have required hundreds of man hours at an untold cost to get the information, he said.

And by the time it was finally compiled, it may have been too late to be of any use.

With FACTS, we'll be able to provide that information and much more — when it's actually needed.

And if someone had wanted to know how much the state was spending by program on travel, utilities, professional fees or rent ... Well, he was just out of luck because it would have cost a fortune to compile that information.

FACTS will be able to do it quickly.

IF YOU HAVE ANY STATE TAX PROBLEMS OR QUESTIONS, CONTACT YOUR LOCAL COMPTROLLER'S FIELD OFFICE OR CALL TOLL FREE, 1-800-252-5555.

FFA Selling Citrus Fruit For Project

Oranges and grapefruit are now on sale by the Future Farmers. The fruit is expected to be very good again this year. Forty-pound boxes are \$7.50 and half crates are \$4.50. This is the only money making project the FFA has to help for their activities. Please support them.

28 Freshmen Are Greenhands In Local FFA

The Muleshoe FFA chapter increased its membership by twenty eight Monday night when they accepted the freshman candidates as members.

Also discussed during the meeting was the Halloween Carnival. FFA will have a dunking board and a bucking barrel.

Other business taken care of was fruit sales and Sweetheart Plowgirl elections. This meeting will long be remembered by the Freshman.

Carter's welfare plan faces new hurdle.

The heat pump

"THE ELECTRIC SAVINGS MACHINE"

Here's how heat pump pumps

Think of it as a two-way electrical wonder, an amazing machine that cools your home or office in summer... then automatically reverses itself to heat in winter.

Think of it as a savings machine that costs less to operate than other electric heating/cooling systems now on the market. You know that all air — even frigid arctic air — contains heat. The heat pump just puts this simple principle to work. In winter, it squeezes heat from outside air and pumps it inside. In summer, it extracts unwanted heat from the inside air and pumps it outdoors.

Or consider something already in your home that accomplishes the same thing as a heat pump: your refrigerator. It removes heat from the interior of the box and expels it. Like a refrigerator, the heat pump's basic components are simple — electric motor, compressor, condenser, evaporator, and blower system. Unlike a refrigerator, the heat pump has a reversing valve that lets it change the direction warm air is pumped — inside in winter, outside in summer.

Senator Criticizes Housing Program

In remarks accompanying the Senate-House Conference Report on the Housing and Community Development Act of 1977, Senator John Tower (R-Tex) sharply criticized provisions in the report which he said would result in fragmentation of the community development program, its failure to apply to distressed "areas" of cities, and an undesirable selection criteria for recipients under the program.

"There are many excellent provisions in the Act. This bill, however, provides a new and significant departure from the Community Development Block Grant (CDBG) program and does so in a way that puts many cities in Texas and elsewhere at a relative disadvantage in participating in the program," Tower said.

Tower declared that the bill provides a significant first step in reversing the concept of

programs in favor of one funding mechanism, where communities would know over the years how much money they were to receive without competing in the "grantsmanship" game.

"This bill is a clear signal that 'grantsmanship' is back in vogue. It authorizes a new program of Urban Development Action Grants (UDAG) which is a significant departure from the unified approach originally adopted under the Housing and Community Development Act of 1974," Tower claimed.

The senior Texas Senator also stated that the methods for distributing UDAG funds is slanted in such a way that it will discriminate against many communities in Texas and elsewhere.

"Under the bill, the Secretary of HUD is authorized to make urban development action grants to severely distressed cities and urban counties. Such grow-

ing and vibrant cities as Atlanta, Miami, Houston, and Denver may not be able to participate in the program, though these cities have 'areas' of poverty, unemployment, and dilapidated housing that equals those of distressed cities. The Secretary is authorized to make grants only to 'distressed cities and counties', not to 'areas' of simple administration of the CDBG program, pointing out that when the program was created in 1974, the purpose was to reduce the number of existing community development within those cities and counties," Tower said.

Tower also asserted that the conferees agreed to compromise on selection criteria which discriminates against communities in Texas and elsewhere.

"Under the bill, the primary criterion for the selection of

UDAG recipients would be the comparative degree of distress as measured by the extent of growth lag, the extent of poverty, and the adjusted age of housing. Except possibly for the poverty criteria, these factors do not favor the relatively newer cities outside the northeast or north central regions of this country which have problems," Tower explained.

Tower included in his remarks a copy of a letter from Governor George Busbee of Georgia, in which the Governor also complained about the inequities in the distribution formula.

By a vote of 54 to 19 the Senate approved the conference report which will provide funds for housing and community development programs for fiscal years 1978-1980. The measure now goes to the House.

CANCER ANSWER LINE

A business executive writes: "Recently I was treated for a prostate infection, and I want to know if that puts me at risk of getting cancer of the prostate?"

ANSWERline: There are various kinds of prostate disorders that are among the common disease problems of men above 50 - and prostatitis is one of them. While none of these conditions (yours included) cause cancer, a person who has had a benign prostate condition can also develop cancer in the gland at a later date. Prostatic cancer occurs in older men. What all this means for you - and for any man in your age group - is that it is important to have regular physical checkups including prostate examinations, and to see a physician if you notice any change in urinary habits.

A reader asks: "Are there any new trends in cancer treatment?"

ANSWERline: Yes. Many cancer specialists today believe that when cancer is first diagnosed and treated, microscopic beginnings of future advanced disease are present. Therefore, there is a trend towards giving chemotherapy with the initial treatment (surgery or radiation) as a preventive measure, rather than to wait to use drugs when cancer has become more advanced. Another 1970's concept is to

American Cancer Society
M. D. Anderson Hospital
and Tumor Institute

deal more thoroughly with the emotional and social well-being of the cancer patient and family. The American Cancer Society has many service and rehabilitation programs to help with the "human side of cancer." The ACS is also trying to make sure that a person who overcomes the hurdle of cancer doesn't walk into a wall of job discrimination. The concept here is simple: survival alone is not enough; the cancer patient has to be able to enjoy the years that hard-won medical advances can bring.

A school teacher explains: "I am past the menopause, however, I have been noticing some bleeding, and I realize that I have to see a physician soon. But first, I would like to know what kind of examination to expect."
ANSWERline: When abnormal bleeding occurs in a woman of your age, your physician will of course go over your medical history and do a pelvic examination and Pap smear. In addition, it may be necessary to do either a diagnostic curettage (a "D and C" under anesthesia) or a suction curettage (which is an office procedure that is seldom painful) to obtain a tissue sample for microscopic testing. You are obviously aware that unusual bleeding is a signal that demands attention because of the possibility of cancer.

Three Way News

By Mrs. H.W. Garvin

Mr. and Mrs. Roby Joyce from Kansas are visiting his sister Mrs. Sally Robinson, also visiting with his mother Mrs. Sally Robinson is Mr. and Mrs. Harold Sanders from Akin, South Carolina.

Mr. and Mrs. Kenneth Fox and children from Clovis spent Sunday with her mother Mrs. H.W. Garvin.

Mr. and Mrs. Troy Wilkerson from Lubbock spent Tuesday night with her brother Mr. and Mrs. D.S. Fowler.

Three Way senior class had a chicken supper before and after the football game Friday night. Three Way played Southland winning the game by 58 to 8.

Mrs. Tommy Terrell and Mrs. Bobby Kindle were in Lubbock Monday on business.

Mr. and Mrs. D.S. Fowler spent Saturday in Lubbock visiting their sons, the Ray and James Fowler families. Kem and Glenn Fowler came home with their grandparents for the night.

Mr. and Mrs. Mark Corkery from Canyon visited Sunday with her parents the Jack Furgesons.

Mr. and Mrs. Jimmy Gillentine from Lubbock spent Monday with their grandmother Mrs. H.W. Garvin.

We wish to express our sympathy to the W.L. Welch family on the death of Mr. Welches Mother.

Enochs Texas news
Mrs. Dale Nichols, Mrs. W.B. Peterson, Mrs. Bill Key, Mrs. Alma Altman, Mrs. Charlie Shaw, Mrs. J.W. Layton, Mrs. Harold Layton, Mrs. J.E. Layton and Mrs. Ted Belez, attended the Llanos Altos annual W.M.U. meeting which began Thursday at the First Baptist Church in Littlefield. There were approximately 100 in attendance. The theme was "Harvest" "Go Ye" and the opening song was "Bringing in the Sheaves". There was a

short business meeting. Mrs. Dale Nichold gave a speech titled, "Plant A Seed, Grow a Nobody, Do A Do Body". Mac Magness gave a report on the foreign mission book "Rivers of Ink". Mrs. Dale Nichols gave a report on Mission Action, Dorothy Hopson, Centennial chairman, Sharon Eubanks Baptist Young women, Gladys Kaltwasser, W.M.U. director given by Juanda Murphy. Lunch was served by the Church. Special music was by Sharon Eubanks. Rev. Strauss Atkinson also Bro. Clay Coursey a Missionary to Kenya E. Africa now living at 800 Vernon St. in Plainview spoke.

Mr. W.T. Thomas of Hurst, visited Mrs. Dean McBee. They were dinner guests in the home Mrs. Sib Hubbard Wednesday. They also visited Mrs. Pearl Walden, and in the home of the J.D. Bayless.

Mrs. Winnie Byars visited her son, Mr. and Mrs. Tom Byars at Welch last Thursday and Friday. Mrs. Byars and her sister, Mrs. Ruby Nichols of

Lubbock also visited their sister Mrs. Travis Payne at Roaring Springs recently.

Company in the home of Mrs. Josie Vandandingham last Sunday was her oldest niece, Mr. and Mrs. Mel Millhouser from Colorado Springs.

Mr. and Mrs. F.L. Adair of Lubbock were guests in the home of Mr. and Mrs. J.D. Bayless Thursday afternoon.

Kim Coats of Canyon spent last weekend with his parents, Mr. and Mrs. Kenneth Coats, their other children were all home also, Mr. and Mrs. Kenny Coats and children of Levelland, Mrs. Robert Jones and son Kris of Clovis, Mr. and Mrs. Keith Coats. Other guests were her mother, Mrs. Alma Altman and his mother, Mrs. Mabel Coats, and his sister, Jene Carruth of Amarillo.

Rev. and Mrs. Ray Cunningham from Slide were supper guests in the J.D. Bayless home Tuesday.

Mr. and Mrs. Edward Crume left Thursday from Dallas to visit their daughter, Mr. and Mrs. Danny Smith, their other daughter Diane Crume drove up from Temple to visit with them.

Mr. and Mrs. Clifford Austin from San Jose, Calif spent the week with his brother, Mr. and Mrs. Raymond Austin. They took them to the air port last Monday for them to catch the plane for home.

Mr. and Mrs. Jerry Nichols were in Canyon last Sunday to visit his brother, Danny Nichols.

There was one and a half to two inches of rain that fell in the past week.

Mrs. Dale Nichols and the Rev. Shaws were in Lubbock Tuesday to visit Mrs. Wilma Petree and Chester after Mrs. Petree had surgery at Methodist Hospital.

Barbara Autry visited her brother, Jimmy Shakespeare in Denver, Colorado over the week-end. Jimmy was extensively injured in a car accident near Denver City, Texas recently. His condition remains serious.

Ida Jones, the former Ida Davila, is visiting her family the Bernie Davilas this week. The grandparents, Bernie and Orafia are enjoying getting acquainted with Ida's young baby, Larry.

Cancer of the Mouth Not Always Painful Says Dental Expert

"Any sore present in the mouth that lasts for over two weeks - whether it is painful or not should be looked at by a physician or dentist," says Dr. Samuel Dreizen, professor of oncology at The University of Texas Dental Branch in Houston.

Dr. Dreizen, who is both a physician and dentist, explains that oral cancers can first appear in a variety of ways such as a red, white or smooth spot or as an ulcer or eroded area.

The American Cancer Society offers the following tips for preventing cancer of the mouth:

- Report any lump, scaly area or discolored spot on the lips or in the mouth which lasts longer than two weeks to your physician or dentist.
- Keep a clean mouth by brushing your teeth regularly.
- Avoid repeated use of excessively hot foods or drinks that irritate living tissue.
- Don't smoke. Heavy smoking along with drinking are known contributors to increased occurrences of oral cancer.
- Avoid prolonged exposure to strong sunlight which can lead to lip cancer. The lower lip is especially vulnerable to the sun's ultraviolet rays, so wear a protective ointment while in the sun.
- Have any denture or tooth that irritates surrounding tissue corrected by your dentist.

• Eat a balanced diet to promote healthy membrane and tissue growth in the mouth.

"If a person has a symptom he or she should go to any doctor (physician or dentist) who can do a biopsy and get a histopathologic readout (cellular report)," says Dr. Dreizen.

The biopsy is a small sample of the suspicious tissue which is analyzed by a pathologist under a microscope to determine if cancerous cells are present.

Because the mouth is so easily accessible for daily examination while brushing your teeth, there is no excuse for the many cancers of the mouth that are not brought to a doctor's attention until they are well-advanced and the chances of successful treatment are slim, he says.

Found at a small, localized stage, many cancers of the mouth can be cured by surgery and radiation with little complication, he adds.

Welcome To Muleshoe

Mr. & Mrs. Ralph Unrein and children

This week we welcome Mr. & Mrs. Ralph Unrein to Muleshoe. Ralph & Bonnie come to us from Lubbock where Ralph worked for NCR Data Processing. Ralph is the new manager of Cobbs Dept. Store. Ralph & Bonnie have 4 children, Sharline age 10, Roger age 12, Rodney age 16 and Randy age 18. Randy lives in Lubbock where he is in business for himself. The Unreins' are Catholic and as hobbies Ralph enjoys bowling and Bonnie enjoys crochet. They now reside at 618 W. 7th.

The Scientists Tell Me... Soil is Nature's Way Of Waste Disposal

By Robert L. Haney
TAES Science Writer

Waste produced in Texas takes many forms. Some are as familiar as the garbage that must be taken out; others, such as complex industrial wastes, are much less familiar.

But these too must be disposed of. Some tradi-

tional methods of waste disposal have been detrimental to the environment, while others become increasingly uneconomical, particularly since the energy crisis.

The ideal would be to recycle or re-use wastes to produce products of the greatest value. As raw material for industry becomes scarcer and more expensive, re-use has increased and will

continue to do so.

However, there will always be a residual that must be disposed of by one means or another. Wastes that must be disposed of at present include municipal and industrial solid waste (garbage), sewage sludge (a slurry of the solids that remain after sewage treatment) and industrial process wastes.

Food processing plants often must dispose of large quantities of wash water, vegetable or fruit peels, feathers, offal or even blood. Petrochemical plants must dispose of mixtures of chemicals which are too complex for further refinement or which are collected in the process of cleaning equipment, or from leaks or spills.

Such waste may include fractions of the raw materials, intermediate reaction products and varying quantities of the final products. As a group, these wastes are referred to as "polyglot-glop".

Traditional means of waste disposal and their difficulties include incineration, which is expensive because of the fuel requirements and in some cases results in air pollution; deep sea dumping which has decreased as a result of environmental concerns; deep well injection,

now being scrutinized as possibly contaminating underground water supplies; and land fills, which no one wants in their neighborhood.

Additional problems of land filling are the increasing costs of acquiring land, costs of transporting the wastes further and further from metropolitan areas, and costs of digging holes to receive the waste and of covering it daily. There is also increasing concern that landfills may leak toxic products into groundwater, even when constructed according to recommended design criteria.

Other methods of waste disposal that would be both environmentally and ecologically sound are urgently needed. To meet this need, the use of soil as a medium of waste disposal is being investigated by the Texas Agricultural Experiment Station under the leadership of Drs. Kirk W. Brown and L. E. Deuel.

The use of soil for waste disposal is not new — in fact the soil is nature's way of disposing of waste. When a leaf is dislodged or a bird dies, it falls on the soil where it rapidly decomposes and its nutrients are recycled into new life. Surface

or top soil has an abundance of microorganisms to decompose waste.

It also has a supply of air, nutrients and water needed to sustain the microbial activity. Fine soil particles result in an extremely large total surface area; this acts to increase the rate of reactions and to absorb and inactivate potentially harmful compounds and elements.

According to Brown, preliminary results have shown that nearly all wastes can be disposed of economically, and in an environmentally safe way, in the soil. Selection of appropriate application rates from analysis of the waste is now possible. The maximum application rates for wastes depend on their nutrient content, their heavy metal content, salt content or the content of a slowly decomposable pesticide.

Typical tests of the rate of waste decomposition, the movement of elements in the soil and the influence of the waste on vegetation are done in laboratory soil columns and in greenhouse pots. Once appropriate rates have been selected, they are further tested in large undisturbed soil columns called lysimeters, from

which both runoff water and water that leaches down through the soil can be collected and analyzed," Brown says.

"A wide range of wastes can be successfully disposed of in the soil. For example, large quantities of shredded garbage will rapidly decompose in the soil. Many of the industrial wastes tested can be applied at rates which result in complete decomposition.

"Waste disposal in soil, or land-farming, may range from one half to one-tenth the cost by adding organic and nutrient materials. Thus, most wastes are being 'used' rather than 'disposed of' when they are applied to the land," Brown concludes.

Editor's Note — Any questions regarding this column should be addressed to Science Writer, Dept. of Agricultural Communications, Texas A&M University, College Station, Texas 77843.

The Lonely Heart

The Consumer Alert

by John L. Hill
Attorney General

AUSTIN—"Sale," "Cut Rate Prices," "Discount," "Reduced from List Price"—ads like these are featured daily in newspapers, on radio and television, and in store windows. Most consumers have wondered from time to time if these phrases have a special meaning or if they are just advertising gimmicks.

Lawyers in our Consumer Protection Division say such ads could indicate savings for bargain-minded consumers. But they caution, too, that there is a small minority of businessmen who may attract customers with deceptively advertised or misleading sales.

A few merchants advertise "sale" almost continuously and such "sales" may not offer prices any lower than usual. And have you ever questioned the "list price" on a sale item? What about the purported savings from the manufacturer's suggested retail price?

Often, such savings claims have no real relation to any actual savings. What a catalog shows as the "suggested retail price" may be meaningless if no merchant in the area is selling at that price.

A "manufacturer's suggested price" is just what it says—a suggested price. Consumers should be wary of such price comparisons unless they check several stores and can confirm that an item is being sold at that price. Personal checks by telephone or in person are really the only way to determine the price range of an item in your area.

Another possible deception our Consumer Protection

Division attorneys point out involves merchants who tag their merchandise with a label having "Regular Price \$\$\$" crossed out and "Our Sale Price \$\$\$" (always much lower) written below.

Sometimes, that "regular" price cited is fictitious and the "sale price" is the usual one. In such instances, price comparisons can be not only meaningless, but deceptive.

The term "sale" should be used only to advertise significant reductions from the merchant's usual and customary price for that merchandise, and should be continued for a reasonable period of time, not continuously.

Special "limited time" sales should be carefully observed by merchants. For example, a "One Day Only" sale should be just that. Goods should go back to regular price immediately after expiration of the stated time.

"Emergency," "fire," or other "distress" sales, or "going out of business" or "liquidation" sales should not be advertised unless the stated or implied condition is accurate. And these sales should continue for only a specified time. Our attorneys have won court judgments against a few merchants who have been "going out of business" for several years.

If you have a consumer complaint about misleading or deceptive advertising, contact the Attorney General's Consumer Protection Division in Austin, Houston, Dallas, San Antonio, El Paso, Lubbock, or McAllen. Or call this toll-free number: 1-800-252-9236.

shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind; and thy neighbor as thyself.

Luke 10:27

The basis of God's first and greatest commandment is love. God gave man the freedom to choose... and therefore will not force his love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Meat Makes An Ideal Gift
First it was leather-covered backgammon sets. Then it was sterling silver key chains or crystal paper weights. Then Italian designer belt buckles became "the rage." But one of the latest "in" trends for gift-giving today is meat.

A spokesman from a direct mail supplier of meats reports that over 100,000 gift packages were ordered from the company alone during 1976, an increase of 14% over 1975.

Quality meat is an impressive enough gift for the biggest snob on your list, but it is also a practical gift.

"We believe more people have discovered the advantage of shopping at home," says Candido Marquez, general manager of Pfaltzer Brothers.

"Mail ordering saves tremendous time and energy spent in crowded stores." Marquez explains that the price tags of beef gift packages are the reason many persons classify such gifts as "prestige" items, but he says the prices are actually comparable with those in grocery stores when the gourmet quality of the meat and seafood selections is taken into account - along with the fact that all packages are attractively gift wrapped, properly refrigerated in transit and shipped unconditionally guaranteed to arrive in perfect condition. All this is included in the price of each package (shipping costs are slightly higher west of the Rockies).

Of the more than 230 mail order food products offered by the company, the biggest selling item is a package of six 6-ounce filet mignons, complete with seasoned steak butter, for \$29.95.

Legal Notice

"NOTICE OF HEARING ON SPECIAL BENEFITS TO BE RECEIVED FROM PROPOSED STREET IMPROVEMENTS AND ON OTHER MATTERS WITH REFERENCE THERETO, WHICH HEARING IS TO BE HELD IN THE CITY HALL OF THE CITY OF MULESHOE, TEXAS, BEGINNING AT 8:30 O'CLOCK A.M. on the 8th DAY OF NOVEMBER, 1977.

TO ALL OWNERS AND TO ALL PERSONS OWNING OR CLAIMING ANY INTEREST IN OR LIEN UPON ANY PROPERTY ABUTTING THE STREETS AND AVENUES OR PORTIONS THEREOF OF THE CITY OF MULESHOE, TEXAS, HERINAFTER NAMED, WITHIN THE LIMITS HEREINAFTER SET FORTH, AND TO ALL OTHER INTERESTED PARTIES AND TO THEIR AGENTS AND ATTORNEYS:

You are hereby notified that the City Council of the City of Muleshoe, Texas, has determined the necessity for and ordered the improvement of certain streets and avenues or portions thereof hereinafter described within the limits herein after defined, the nature of which improvements is hereinafter generally set forth; and the City of Muleshoe has approved and adopted the estimate, statement and report of the city's Engineer and has taken other proceedings with reference to the making of such improvements are of record in the Minutes of the City Council of the City of Muleshoe and has by ordinance ordered that a hearing be held, and notice thereof given, NOW THEREFORE.

PURSUANT TO SAID PROCEEDINGS AND SUCH ORDINANCE, NOTICE IS BY GIVEN:

1. That a hearing shall be given to the owners and to all persons owning or claiming any interest or lien upon any property abutting the streets and avenues or portions thereof of the City of Muleshoe, Texas, hereinafter named, within the limits hereinafter set out, and to all other interested parties, including their agents and attorneys, before the City Council of the City of Muleshoe, Texas, which hearing shall begin on the 8th day of November, 1977, at 8:30 o'clock a.m. and shall be held in the City Hall of Muleshoe, Texas, at which hearing all of said owners and other interested parties, their agents or attorneys shall have the right to be heard on any matter as to which hearing is a constitutional prerequisite to the validity of any assessment sought to be imposed and to contest the amounts of the proposed assessments, the lien and the liability thereof, the special benefits to the abutting properties and the owners thereof by means of the improvements for which all of such assessments are to be levied, the accuracy, sufficiency, regularity and validity of the proceedings and contracts in connection with such improvements and proposed assessments, or concerning any matter or thing connected therewith. The said hearing may be continued from time to time and day to day until a fair opportunity for hearing has been afforded to all desiring to contest the said assessments or proceedings, and the City Council shall have the power to and shall correct any errors, inaccuracies, irregularities and invalidities, and shall determine the amount of assessments and all other incidental matters and shall have the power by ordinance to close such hearing, and by the same or by a later ordinance or ordinances to levy such assessments before, during or after the construction of such improvements, but no part of any assessment against abutting properties shall be made to mature prior to acceptance by the City of Muleshoe, Texas, by ordinance of the improvements abutting the property for which assessment is levied. It shall not be necessary to levy all of the assessments at one time or by a single ordinance, and said hearing may be closed as to each portion of a street and/or avenue constituting a unit of improvement (as such units are designated below), after a fair opportunity for hearing has been afforded to all desiring to contest the assessments proposed to be levied against the owners and their properties abutting on the portion of each such street and avenue constituting a unit of improvement; and the City Council shall then have the power to levy such assessments against such abutting properties and against the owners thereof, as provided herein and in the prior proceedings of the City Commission herein referred to. No assessment will be made against any abutting property or the owner thereof in excess of

the special benefits to such property and its owner in the enhanced value thereof by means of such improvements as determined at such hearing. All of such owners, claimants and other interested parties, their agents or attorneys, are hereby referred for further information to the proceedings with reference to said improvements on file and/or of record with the City Secretary of the city of Muleshoe and particularly to the estimate of the City's Engineer, and to the proposed assessment roll wherein the exact amount proposed to be assessed against each abutting property and the owner thereof is set forth; said City's Engineer's estimate and said proposed assessment roll being filed in the office of the City Secretary.

II. The nature of the improvements which assessments are proposed to be levied and to which this notice relates is the filling, grading, raising, paving or repaving said streets and avenues or portions thereof in a permanent manner, and by the construction or reconstruction and the realigning of curbs and gutters where there are no existing curbs and gutters which can be utilized in whole or in part in the opinion of the City Engineer and by reconstruction and realigning existing curbs and gutters which can be utilized in whole or in part in the opinion of the City Engineer, and by the construction of such other necessary incidentals and appurtenances as the City's Engineer has found to be necessary or advisable, all as shown by the plans and specifications of the city's Engineer, and by widening where necessary so as to attain the paved width from back of curb which is set out below, said paving to consist of the construction of an adequate asphaltic wearing surface on an adequate base, the exact nature of such improvements being more particularly shown in the plans and specifications which are on file in the office of the City Secretary of the City of Muleshoe. III. The streets and avenues or portions thereof to be improved within the limits fixed by the City Council are listed below as they have been divided by the City Council into separate and

distinct improvements units. There is stated in connection with the listing of each street and avenue or portion thereof within the limits herein defined constituting each improvement unit the estimated amount or amounts per front foot to be assessed against the owner or owners of properties abutting such street and avenue or portion thereof and against such properties, the estimated total cost of the improvements as to each improvement unit. There is included in the estimated amount to be assessed against abutting properties and

YOU CAN BANK on It!
Bill Loyd, President
Muleshoe State Bank

One of the most misunderstood - and most valuable - services offered by any bank may be special accounts. These are the same as regular checking accounts, except they are set up for a specific purpose and the depositor withdraws funds for that specific purpose only. For example, special accounts often are set up for emergencies or vacation funds. To set up a special account for emergencies, for instance, go back over the previous year's spending and add up your "emergency" expenses. If such spending amounts to approximately \$1,000, you would deposit about \$85 every month in a special account. When emergencies arise you will be able to meet them without going heavily into debt. A special account certainly offers more peace of mind than trying to ward off the inevitable. If you have questions about a special account, please check with any of our officers. When they tell you about opening a special account . . . you can BANK on it!

TDA CRACKDOWN PLEDGED

Brown Says Time to Halt Texas Grain Theft Ripoff

AUSTIN—A thief is a thief, according to Texas Agriculture Commissioner Reagan V. Brown. But when it comes to stealing Texas grain, it's time to get tough, he says.

With that in mind, Brown has announced the Texas Department of Agriculture has begun a statewide crackdown on grain thieves, who siphon off an estimated \$3 million to \$5 million annually from Texas grain elevator and feed mill owners.

Although the thieves, often working in organized rings, are active in most truck crops, the giant Texas sorghum harvest is hardest hit, Brown said. The harvest, which is already half

completed statewide, attracts thieves from Texas and surrounding states. Texas is expected to produce 244,800,000 bushels of grain sorghum in 1977, and was ranked first among the states last year with a total harvest of 292,900,000 bushels.

Among the crackdown measures announced by Commissioner Brown are:

—A TDA special alert system which will inform grain elevator operators when an organization is suspected to be operating in their areas.

—A detection program for Weights and Measures inspectors to aid them in recognizing grain theft suspects and in spotting movements and activities of

theft rings.

—Aid to district attorneys in pushing for maximum sentences for all persons convicted of grain theft.

In addition, Brown urged anyone who witnesses or suspects grain theft to contact the TDA Grain Warehouse Section at (512) 475-2489 or the Weights and Measures Section at (512) 475-6577.

"One advantage we have had in combating grain thieves is the excellent cooperation we have received from grain elevator operators, the Texas Department of Public Safety, the Texas Rangers and local law enforcement officers."

Brown noted.

One of the most popular methods of grain theft is for a so-called "pit man" to conceal himself in the area beneath an elevator's weighing platform and add weight to the traverse beam to make particular truckloads of grain appear to weigh thousands of pounds more than they actually do. Losses of up to 28,000 pounds per truckload have been documented.

One of the most ingenious devices, however, is the so-called "badger." This is a machine which accomplishes the same purpose as a pit man, but is remotely controlled by a radio transmitter. Brown

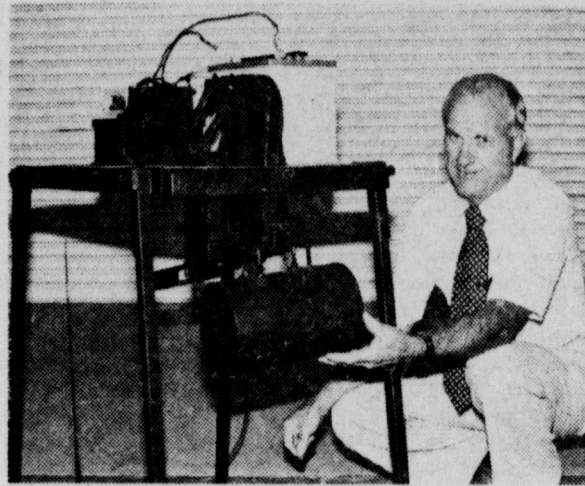

commented that there are several of these known to be in use in the state. One was confiscated in 1972 and is now in possession of the TDA Weights and Measures Laboratory.

CRIME TOOL—Sam Smith of the TDA Weights and Measures Laboratory demonstrates the workings of an electronic "badger", one of the many ingenious methods used by thieves to cheat grain dealers. The weight Smith is pointing out comes to rest on a scale's transverse beam, exaggerating the true weight reading.

Don't Get Stuck--By Imitation Jeans

"Don't get stuck with imitation jeans" is the slogan behind the latest campaign by Cotton Incorporated to let consumers know to look for 100 percent cotton denim.

With the advent of blended jeans, Cotton Incorporated launched a major advertising campaign with a message emphasizing the need for consumers to check the label to be sure they get real 100 percent cotton denim.

"Commercially have been used on sports telecasts and youth-oriented television programs," says Charles Lapidus, Cotton Incorporated director of merchandising. "We are emphasizing in our campaign that if the consumer wants the performance he or she has come to expect from denim, then the consumer had best stick with 100 percent cotton."

"Comfort, durability, softness, shrinkage control, the traditional look or the neat look—we are letting consumers know they can get all this in 100 percent cotton denim and anything less than 100 percent won't give consumers the satisfaction they are accustomed to," adds Lapidus.

Cotton Incorporated is the fiber company of America cotton producers. As a new twist to the campaign, Cotton Incorporated marketing experts are supplying retailers with stick-on labels for

the product. "We wanted a way to let the public know when he or she is getting the real thing in denim. So we came up with this sticker that the retailer can put on jeans."

Cotton Incorporated has been touting the stick-on labels with advertising in major trade publications. The advertisement encourages retailers to write Cotton Incorporated for a large supply of labels, and it advises them: "Use this new label and don't get stuck with imitation jeans."

Fred Allison Graduate Navy AIC

Marine Second Lieutenant Fred H. Allison, son of Mr. and Mrs. Harold L. Allison of Star Route 1, Earth, Tex., was graduated from the Navy's Aviation Indoctrination Course (AIC).

During the four-week course at the Naval Air Station, Pensacola, Fla., trainees studies basic aerodynamics, aviation physiology and engineering. They also

studied land and sea survival techniques and participated in an extensive physical fitness curriculum.

AIC is the first step in the Naval flight training program leading to designation as a naval aviator.

A 1975 graduate of North Texas State University, Denton, with a bachelor of science degree, he joined the Marine Corps in January 1976.
