MRS. M. ROSENWASSER DEAD

Nathan Passner received a telegram Monday morning stating that Mrs. M. Rosenwasser died at San Antonio at three o'clock Monday morning.

It will be remembered that Mrs. Rosenwasser was carried to San Antonio for treatment about two weeks ago, and an operation was performed after she arrived at that place. Daily reports from her bedside have been very encouraging to Mr. Passner, who has been here looking after the Rosenwasser business, and it was thought that she was out of danger, and the news of her death came as a great surprise.

Mrs. Rosenwasser and husband have been living here for a num-

ber of years, and she has many friends here who will be made to sorrow when they hear of her death.

All her children and her husband were with her when death came, except one son who is in California. Mr. Passner, the son-in-law who is here stated that he had received no news of the funeral arrangements but he felt sure that the remains would be buried at San Antonio today.

Boston Fan Lets Athletic Man Know He's on to Dope

In a lengthy letter in which he portrays the inabilities of the Philadelphia Athletics and the abilities of the Boston Braves to cop the championship flag of the world, A. E. Wood of Granger, erstwhile fan of Ballinger and "general manager" of the National League pennant winners in championship games, at a distance, writes W. W. Chastain a letter in which he tells him the glories of the Boston Braves now that they have managed to swing on to two games in the big hit.

Despite the fact that he is very pessimistic over the outcome of the playing of the Athletics, he fears that Connie Mack will be able to swing onto the circus wagon with at least two games but no more. "I cannot see any reason why Boston should lose even a game, but I am figuring on them losing as many as two, but never no more than two," and then as if to accentuate this statement which, doubtless, does not coincide with the thoughts of Connie Mack, he adds a "See" in large letters.

Although Fan Wood did not say positively who would pitch Monday it rang throughout the letter that regardless of the men working in the heavy department, the

result would be tacked on the belt of the Braves as they prance from Fenway park this afternoon. Wood informs Mr. Chastain in the letter that there is a strong possibility of Jack Combs working in the box today for the Athletics, although he does not make the bold statement that he and General Mack has agreed up on this worthy matron for the heaving sideshow.

That Tyler is a great, big bouncing brother to Rudolph and James is what Wood claims in his epistula baseballa, and that he will acquit himself when he pitches in a manner that will be similar as far result is concerned, is the broaching of the writer. Wood thinks that Wood, Rudolph and James sleep in the same bed every night and naturally should have the same habits on the show grounds and should have the same luck in the breaks.

Mr. Chastain and a corps of American fans will endeavor to answer the sporting message as soon as the opportunity arrives the chance not having any exact date set and remaining in doubt until the last inning of each of the games yet to be played.

SANTA FE STILL HAULING NEGROES

A special train of five cars arrived in Ballinger Sunday at two o'clock and unloaded about two hundred negroes at Ballinger and carried about one hundred to Miles and Paint Rock.

This makes about the third or fourth "Cotton Picker's Special" that the Santa Fe has operated on this end of its line during the last three weeks, and in addition they have been using double headers on their regular train and bringing negroes here by the car load. Parties who have been keeping tab on the influx of the cotton pickers estimate that there are between 1500 and 2000 negroes in the county at present, to say nothing of the white people and Mexicans that have been brought here to help pick cotton.

Of the number that day there were about people who came in on

train. The special following one hour after the regular train was strictly a negro train, and it was a big show to watch them unload and distributed out among the farmers who were here with their wagons to take them to the cotton patch.

Cotton is turning out fully as well as the most optimistic hoped for, and far better than many expected, and the gins are badly crowded. With favorable weather the picking will be completed before the winter weather sets in, and the farmers will be able to plant grain. The big crop makes it very necessary that many hands be put on the job, and this accounts for the hundreds of negroes that have been arriving here almost daily for the past two weeks.

We will buy a pound of Cotton for every pound of Tobacco we sell

We realize, with all the residents of the South, the present financial stringency due to the cotton situation. We realize that the South *must* sell its cotton, and we will *help* in the most practical way we know—by *buying* cotton.

For every pound purchased of all of these famous, popular brands of tobacco and cigarettes (counting 1,000 cigarettes equal to five pounds of tobacco) we will buy from our dealers a pound of cotton at 10c, in accordance with our circular to dealers dated Sept. 28.

We have faith in cotton. We know that when the war clouds roll away, the demand of the manufacturers for cotton throughout the world will be greater than ever before, and the South will enjoy unprecedented prosperity.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Avoid Sedative Cough Medicines.

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codeine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedatives. A proprietary medicine, like everything else that comes before the public, has to prove its merits. The law of the survival of the fittest applies in this field as in others. The reason for the tremendous success of Lydia E.
