Louis Garms, of Brown county, president of the Pecan Valley District Union No. 26, called the meeting to order in the auditorium of the Carnegie Library in Ballinger Tuesday morning for the annual convention. The first session was an executive session, at which time the various committees were appointed and the foundation laid for what promises to be the most successful convention of this organization ever held.

While delegates began to arrive Monday at noon, and many more came in Monday night and early Tuesday morning, by pre-arranged plans the keys of the city were not turned over to the delegates until Tuesday afternoon, it being the desire of those in charge that many delegates who were in route here arrive before local speakers appeared before the convention and extended the glad hand of welcome to this city.

At one o'clock with about two BERLIN, July 17 .- The new hundred delegates and a number saults last night in the Champagne region.

To The Board of Trustees of the Ballinger Independent School

District. We your committee appointed to balance the books and make a financial statement to the patrons and taxpayers of their money entrusted to us, beg to submit the foregoing financial statement, same being correct as shown by the vouchers and also the books. E. D. FUTCH, J. W. CLAMPITT, T F. RUSHING, Committee.

To the Patrons and Taxpayers of the Ballinger Independent School District.

We the trustees of said district herewith submit for your inspection a financial statement showing the receipts and disbursements of the school fund for the past session, or from August 31st 1916 to June 30th, 1917, this covers the session of nine full school

We deem it just and proper that every citizen should be interested as to how his money is spent, and we trust you will carefully look over this statement. We believe you will agree with us that our faculty is not paid sufficiently under the existing high cost of living and we would like very much to have sufficient funds the com-

ing session to at least pay our old teachers a better salary.

Assuring one and all that it is our desire to give the very best school it is possible for us to give with the money we have to pay, and soliciting the hearty support of every patron and taxpayer and assuring you now that we believe we have the strongest faculty for the coming session that we have ever had, and with your hearty cooperation with both the faculty and the trustees we will turn out the largest and best graduating class the coming year that we have ever turned out. We believe the thorough training of the young at this time to be one of the greatest problems of the times.

> W. A. FRANCIS, E. C. ALLISON, T. F. RUSHING, McGREGOR, W. CLAMPITT, E. D. FUTCH, Secretary. SCOTT H. MACK, President.

Ballinger, Texas, July 17th, 1917.

"This department is in receipt of your valued favor of the 10th, instant, which you enclose a copy of the trash burning ordinance recently adopted by your city. It seems to us that this is a splendid measure on the subject and that, if its provosions are rigidly applied to local conditions in your city, the result will be a cleaner town and fewer fires. Our greatest trouble with the merchants throughout the state has been the burning of trash in the heavy value districts, but we believe that, by constantly placing the matter before them and by showing the local authorities the value of such legislation, the result in time will be a material reduction in the fire waste from | Lesses

trash burning." It is now up to the city authorities to enforce the law. The ordinance provides that no trash must be burned in the business district alleys except between the hours of seven to ten o'clock in the morning.

WHEN MARRIAGE IS A FAILURE

Surely marriage is a failure when its essential purpose, the raising of a family of children, proves impossible. In the childless home the married pair, though sometimes more or less unconscious of the fact, grow disappointed and lonely. Lacking the best tie to hold them together they are likely to drift apart, hence many separations and divorces .

If every wife, whose physical state prevents motherhood, would but try that great remedy, Lydia E. Pinkham's Vegetable Combound, there would be far fewer childless homes.
