\$10,000 ACRE PAID FOR LEASE TRANSFER IN BURKBURNETT

Wishita Falls, Sept. 28.—The top price so far for oil and gas leases in this County was paid by W. H. Slay of Dallas on Friday, when he received transfer of a lease on two and one-half acres of the Hardin farm, near the new Burk Burnett oil pool, from J. A. D. Smith et al., paying \$25,000 for the lease or \$10,000 an acre.

Gulf Producing Company to handle an increased amount of oil from the new pool. The company is building large loading racks and huge steel tanks to the south of the town. The Burk Burnett Refinery is also laying three two inch pipes about the town, to handle the oil direct to its plant. A new unit of stills and an additional condenser is being built at the refinery to care for the increased amount of crude.

On October 1st, the price of milk will be 30c for half gallon and 50c for gallon. Sour milk 25c gallon.
W. F. JACKSON,
rtd. South Side Dairy.

Washington, Sept. 30.—President Wilson appeared before the Senate today and in a short speech called upon congress to pass the suffrage amendment immediately.

As commander in chief of the army and navy, President Wilson declared in his brief speech that woman suffrage is vitally essential to the successful prosecution of the war.

Walter White was among the visitors to Ballinger Sunday. Mr. White recently lost his grocery business in the Winters fire, but bought out Dry Brothers last week and is back in the grocery business.

Mrs. Frank Chapman returned from Waco, Hillsboro, and other places in that section of the State.

TOO BUSY TO HOLD COURT

Justice court failed to convene Monday morning, on the regular scheduled date. All cases on the docket went over by default.

Justice Trimmer and the members of the local bar were all too busy to stop to consider such small matters as a justice court case, and the plaintiff's and defendants were likewise too busy engaged in oil speculation and plans for the future to listen to the wails of some man who wants the court to settle his trouble.

No important cases were on the docket and all matters can easily go over until the next regular term, or will be called later by agreement this week.

The oil boom hit Ballinger full in the face late Saturday afternoon.

Oil gushing out through the top of the eighty foot derrick at the Russell well was responsible for it all.

In less time than it requires to draw the lease contracts leases advanced from ten cents per acre to \$20 per acre, and the streets of Ballinger were converted into an "oil exchange."

Men who leased their land several months ago at a mere trifle, and in some instances without any consideration further than a promise from the lessee to drill and give the usual one-eighth royalty, stood by and saw the lease transferred to the third party for from \$10 to \$20 per acre. Such lands is located eight, ten and in some instances a greater distance from the oil well.

The report that the well was ready to come in and would be "punctured" at a certain time had gone out over the state, and many oil men speculators were here to witness the bringing in of the well and get in on the ground floor of the speculation.

Many in Ballinger were "put wise" or had been keeping a close watch and were on the ground when oil shot out the top of the derrick. The news was telephoned from the well to Ballinger and many others rushed to the scene, and excitement was at a high pitch among the property class, who can profit only by the "drippings"—the increased business the oil boom will bring in all lines of business for all classes of labor. The gusher in the Russell well came in shortly after drilling was resumed Saturday afternoon and drilling began at three o'clock after a two day's shut down for the purpose of moving the boiler away from near the well to prevent fire from gas and oil in case the well did gush.

The boiler was reset, steam pipes connected, things steamed up and the drill sent down into what was said to be a cave in at the bottom of the 2400 foot hole. The drill shot through the obstruction and was drawn out, and following the pulling of the drill oil shot about forty feet in the air, or about half way out the top of the derrick.

The drill was sent down the second time and again penetrated the cave-in and was drawn out and the second gush sent the oil out the top of the eighty foot derrick.

Orders were given to stop drilling until complete preparations were made for taking care of the gusher, and until the cave in could be cased off, strainers adjusted etc.

No definite information has been given out as to when the well will be drilled deeper or tested out at the present depth.

No estimate has been placed on the capacity of the well as it stands at present.

The gusher ceased with the second gush, or only two strong gushes of oil came from the well, and these followed the pulling of the bit from the well.

Oil was struck in this well at about 1800 feet. This was only in small quantity. Gas showed up in the well at about 1900 feet and the gas pressure rapidly increased until it was estimated that the flow amounted to three million cubic feet. The oil flow gradually increased as the drill made its way down through the lime rock until at a depth of about 2300 feet just as the drill struck the sand, the gas pressure and oil increase demanded that precaution be taken to prevent fire and drilling was suspended to move the boiler.

Those in close touch with the development are well pleased with the progress being made in developing the field, and the opinion prevails that the greatest oil field in the southwest will find its center in Ballinger.

Drilling east, west, south and north of Ballinger for the past two years has brought in oil in small quantities. This has kept up development and caused large oil companies to become interested in the field.

The well just brought in is owned by the Gulf Producing Co. The Texas Co., have men on the ground and are taking

many leases, the price being paid far beyond what any one ever dreamed of.

That other drilling will be put under way here within a short time is freely predicted, and it is rumored that a well will be drilled near the city.

GOOD INDICATIONS AT SCHULTZ WELL

Oil was struck in the Schultz well at a depth of 1442 feet last Friday. This well is south of the Russell well and is near where oil was found and the well abandoned several months ago on account of an accident.

LOCAL COMPANY STOCK SALE QUITS

The Runnels County Oil & Gas Co., which has been promoting a company and drilling a well near Rowena, eight miles west of Ballinger, have taken their stock off the market. This company has a well down to a depth of 1500 feet and are very optimistic for a rich find.

DRAWS MAP OF NEW OIL FIELD

H. M. Josey has completed a map of the Ballinger oil field, which will be put in blue print as quick as the work can be done and copies of it made ready for distribution.

The map takes in about one-fourth of Runnels, Concho, Tom Green, Coleman and McCulloch counties with the Russell well in the center of the big field which has just been discovered.

Heretofore in order to handle the oil lease business and keep tabs on developments in this field it was necessary to handle four maps, one each of the four counties, and the new map will not only be convenient but is right up to date showing the different land surveys, etc.

It is a clever piece of work and shows the skill of Mr. Josey as a draftsman.

OIL BELT HIGHWAY SHOULD BE BUILT

No time should be lost in laying the foundation for an oil belt highway leading from Ballinger to the Russell well. To develop that oil field tons of material will have to be transported to and fro.

Within a short time a little town will spring up around the Russell well and large number of men employed in drilling and carrying on the work. Ballinger must have this trade, because Ballinger is the nearest and most logical railroad center.

Just as a suggestion we would say that Runnels and Coleman county should combine their interest at once and construct a highway through the oil belt from Coleman southwest through the Valera oil field and through the Russell field on to Ballinger, and here it should connect with a highway direct into the heart of the Rowena field.

No time should be lost in connecting the Schultz field with Ballinger by a first class highway.

The travel over these routes will increase at such rate as to make good roads an absolute necessity. The building of a highway with such an abundance of good material right at hand will be a small matter when it is taken into consideration that the road leads to the richest oil field in the southwest, if not in the United States.

Good roads are only one of the good things that will come with the development of the oil industry here.

By The United Press

Paris, Sept. 30.—Bulgaria is out of the war. Having accepted all military terms imposed by the allies, she has ceased to be an active participant and the Bulgaria army is taking a much needed vacation, and no doubt a permanent vacation.

These facts were learned here today when it was officially announced that the allies had dictated the terms of the armistice, that same had been signed by allied representatives and accepted by the Bulgarian delegates.

With the American Army, Sept. 30.—The Americans on a front of six thousand yards, caved in the German Hindenburg line of defense yesterday, penetrating a distance equal to anything captured in several days.

The Yanks reorganized for another drive early today and swung sharply to the left, threatening, at this hour, the enemy lines through enveloping movements.

London, Sept. 30.—The British entered the northern suburbs of Cambrai, Gen. Haig reports, and have also reached the junction of the Arras-Baupaume-Cambrai roads on the western edge of the city.

Paris, Sept. 30.—The Champagne offensive after a night without infantry action, was resumed by the French at day break this morning. The French attack gained good headway, the enemy falling back without resistance and leaving behind valuable material.

Robert Brown, Western Union messenger boy, who was recently hurt when run over by an auto, is back on the job. He has not fully recovered and is carrying one arm in a sling.

The Flavor Lasts

NO CASE OF "FLU" AT CAMP TRAVIS

Camp Travis, Sept. 30.—"No cases of Spanish Influenza have been discovered in Camp Travis, Texas. Influenza of a mild form has been noted in a few cases during the past few months, but in no instance has the influenza been of the virulent type now reported prevalent in the East." This was the statement today of Lieut. Colonel L. W. Little, Chief Surgeon of the Eighth Division, located at Camp Travis.

Because of the prevalence of the virulent type in the East every case of influenza in any form is reported directly to the Surgeon General in Washington. Cases, numbering thirty seven, reported from Camp Travis, however have been of the very mild type and not to be classed as Spanish influenza. Every precaution has been taken and is being taken to prevent the introduction or spread of the infection now reported in many other camps.

There has never been a death reported from influenza from Camp Travis Base Hospital or from among the soldiers at Camp Travis, notwithstanding the fact that there has been a total of from 25,000 to 40,000 practically all the time. All suspected cases are being carefully watched from symptoms of the influenza of the Spanish type.

According to Colonel Little, the Spanish influenza is different from the usual known type of influenza in the virulence of the factors. Climatic conditions have much to do with the status of the disease. It is notable that Camps and cantonments of the United States west of the Mississippi River have been singularly free of influenza in any form whatever.

There is no reason for worry, as to the health of the soldiers in the cantonment at Camp Travis, unless a very unexpected outbreak of the influenza appears. This is deemed unlikely, because of the preventative steps already taken and the general health conditions existing.

AGRICULTURE, WAR, INDUSTRY

Soil-Product Exposition at Kansas City This Year to Be Big Event.

An educational and intellectual treat is in store for visitors at the Thirteenth International Farm Congress and Soil-Products Exposition, which will be held at Kansas City, Missouri, October 16-26. Many of the principal attractions are such as cannot be seen at any other fair or exposition. Among them are:

Large exhibits by the Governments of the United States, Canada and Mexico.

Complete collective exhibits, officially made by fifteen or more states and provinces.

Demonstrations and object lessons by a number of Federal and State Agricultural Colleges and Experiment Stations.

A premium list carrying nearly \$15,000 in cash prizes and trophies, designed to stimulate agriculture.

The combined annual sessions of the International Irrigation Congress (the Dry-Farming Congress) and the International Irrigation Congress.

Patriotic Food Show, staged by the United States Food Administration.

Championship contest of sweepstakes exhibits of Boys' and Girls' Clubs of a dozen states.

Official Government motion pictures.

Free lectures by the foremost agricultural educators and workers.

Agricultural problems, involving national and state policies, to be discussed and action taken thereon in behalf of the agricultural interests.

An "International Hippodrome," embodying a mammoth amusement program.

Music by bands of national and international renown.

AWARDS HUGE TROPHY CUPS.

International Farm Congress Offers Fifty Splendid Prizes.

Some of the silver trophy cups awarded by the International Farm Congress for prize-winning agricultural products are huge affairs, and cost as high as five hundred dollars. There are fifty of these cups in all, to be awarded at the Soil-Products Exposition, which will be staged by the Farm Congress at Kansas City, October 16-26. Any farmer may enter in these contests. There is no entry fee. Premium lists are free.

"Food Will Win the War"

We keep our stock complete, and are ready to help you fight the battles of life with pure, fresh, wholesome food. We can assist you in selecting substitutes for the articles of food our Government is asking you to conserve. You are not urged to eat less, but are at liberty to eat more different kinds of food, and conserve the food that will win the war.

"The Shooting of Dan McGrew"
with EDMOND BREESE

Mr. and Mrs. Roscoe Demoville were here from San Angelo, Sunday, spending the day with their parents.

J. McGregor will talk Liberty Bonds for four minutes at the Queen Theatre tonight.

NERVOUS RUN-DOWN WOMEN

Tells How Vinol Creates Strength

Duked, Tenn.—"I live on a farm and keep house for six in my family. I got into a nervous run-down condition so it seemed as though I would die. A friend advised me to try Vinol. I have been greatly improved by its use and am better and stronger, in every way."—Mrs. H. H. Goodwin

The reason Vinol was so successful in Mrs. Goodwin's case is because it contains beef and cod liver peptones, iron and manganese peptonates and glycerophosphates, the very elements needed to build up a weak, run down system and create strength.

J. Y. Pearee Drug Co., City Drug Store and druggists everywhere.

P. S.—For pimples and blotches try Saxon Salve. Money back if it fails.

LOST—in Court House or on walk leading to Hutchings Ave., five War Savings Stamps. Phone 27 30 1td.

Good for Billiousness

"Two years ago I suffered from frequent attacks of stomach troubles and biliousness. Seeing Chamberlain's Tablets advertised I concluded to try them. I improved rapidly."—Miss Emma Verbryke, Lima, Ohio.

RUNNELS COUNTY

WELL SHOWS OIL

Reliable reports from Runnels County indicate that somebody's "dops' bucket" has been upset again by the discovery of the Gulf Producing Company well on the Russell ranch. At around 2,300 feet the well is making about 2,000,000 cubic feet of gas and has a good showing of oil. Those who had it doped out that there was nothing in that section of the State are wondering how they missed it. The Russell well is about fifteen miles southwest of Ballinger, near the Coleman County line, located on the Brazoria County school land—Fort Worth Star Telegram.

Diarrhoea in Children

For diarrhoea in children one year old or older you will find nothing better than Chamberlain's Colic and Diarrhoea Remedy, followed by a dose of castor oil. It should be kept at hand and given as soon as the first unnatural looseness of the bowels appears.

Jim Parnell received a letter from his son, Doyle, in which the young man writes that he was sailing from New Jersey port for France.

G. P. Teague, son-in-law of C. C. Cockrell, came in Sunday with Spanish Influenza. The case is under quarantine and close treatment.

"TROUBLES NEVER COME SINGLY"

"Troubles never come singly," is an old saying that is proven true in another instance. Mrs. John Ballew received a telegram Thursday announcing the death of her aged father, "Grandpa" Lollar at Hempstead. Mr. Lollar was quite well known over the Mazeland community. He was an ex-Confederate soldier and had many warm friends here and in his home county of Milam—Winters' Enterprise.

A TEXAS WONDER

The Texas Wonder for kidney and bladder troubles, gravel, cures weak and lame back, rheumatism, and irregularities of the kidneys and bladder in both men and women. If not sold by your druggist, will be sent by mail on receipt of \$1.25. One small bottle is two month's treatment, and often cures. Send for sworn testimonials. Dr. E. W. Hall, 2926 Olive Street, St. Louis, Mo. Sold by druggist.

Judge J. B. Wade came in from Fort Worth, Sunday, to look after legal business and get in on the ground floor of the oil boom.

R. W. P. went to Dallas on business Sunday afternoon.

THIS WOMAN ESCAPED AN OPERATION

By Taking Lydia E. Pinkham's Vegetable Compound. Many Others Have Done the Same.

Troy, N. Y.—"I suffered for more than seven months from a displacement and three doctors told me I would have to have an operation. I had dragging down pains, backache and headaches and could not do my housework. My sister who had been helped by Lydia E. Pinkham's Vegetable Compound asked me to try it. I have taken several bottles and am now entirely well—so I do all my work—and not a trace of my old trouble. I have told many of my friends what wonderful results they will get from its use."—Mrs. S. J. SEMLER, 1650 5th Ave., Troy, N. Y.

Women who are in Mrs. Semler's condition should not give up hope or submit to such an ordeal until they have given Lydia E. Pinkham's Vegetable Compound a trial.

For suggestions in regard to your condition write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

Coming to Ballinger October 9th.

(9:00 a. m. to 10:30 a. m.)

COME AND SEE THE GUNS CAPTURED BY OUR BOYS AT CHATEAU THIERRY

FRENCH "SEVENTY-FIVE," AERIAL TORPEDO, DEPTH BOMB AND OTHER WAR TROPHIES MAKE UP INTERESTING EXHIBIT.

BLOOD-STAINED AND BULLET-RIDDLED UNIFORM OF HUN KILLED BY AMERICAN SOLDIER WILL SHOW YOU HOW OUR BOYS ARE TAKING CARE OF YOUR INTERESTS AT HOME—GAS MASKS USED BY OUR BOYS AS PROTECTION AGAINST THE DEADLY MUSTARD GAS.

Perhaps no other battle waged in the great World War will ever be as deeply impressed in the minds and hearts of the American people as that one fought at Chateau Thierry, when the American soldier covered himself with glory fighting fearlessly—courageously, as Americans always fight. Here the counter-attack of the American forces turned the tide of war in favor of the allies and since that time our forces have steadily pushed their line forward.

Your boy may have been with the American forces that started that never-to-be-forgotten repulse of the German shock troops on the spot that has been the scene of many a titanic struggle since the time of the ancients. Maybe it was your neighbor's boy or some other boy from your home town. He may have been one of the group who captured a machine gun crew of the enemy troops.

At any rate it will not be difficult for you to visualize the activities of your home town boys in that great American victory when you inspect the

Minnenwerfer, or Trench Mortar Gun.

captured by the Marines in that engagement, which is attracting more attention than any other object on the Liberty Loan War Relic Train, making a tour of the Eleventh Federal Reserve District in connection with the Fourth Liberty Loan Campaign.

Second in interest is

This Space Paid for by HIGGINBOTHAM BROS. & CO., as a part of their endeavor to HELP WIN THE WAR

the big gun used first at Verdun, where it "gave the German the surprise of his life," as a returned war veteran puts it. It bears the marks of camouflage as it was used in that terrific drive of the Hun, which the French armies met and held at that famous spot which will go down in history as one of the world's great battlegrounds. It was at Verdun that the vision of the "White Comrade" spurred the tired and war-worn soldiers of France on to fiercer resistance against the foe, and where with their backs to the wall they fulfilled their vow, "They shall not pass."

Another object of particular interest at this time is

The Depth Bomb, Which is Included in This Exhibit.

This bomb is playing an important part in the transportation of United States troops overseas. It is carried on the torpedo boat destroyers which act as convoys to the troop ships, and are used in warfare against the German submarine. This weapon has been responsible for the sinking of more than one submarine which has attempted to frustrate the moving of United States troops.

Aircraft has become an important factor in modern warfare. Some of the most splendid and daring exploits of young Americans who are defending the principles upon which this nation was founded have been made possible by means of the aeroplane. Can you picture a heavy battle plane, equipped with a Lewis machine gun and carrying several aerial torpedoes, each weighing as much as 250 pounds, and a crew of five or six men? The Lewis machine gun which is used to a great extent in aerial warfare is among the interesting features of the war relic train, as is the aerial torpedo.

Captured German Rifles, Grenade Throwers and a Grantewerfer show the material which the Hun uses when he launches his conquest for world domination.

A Chauchat auto rifle machine gun, along with its magazine, ammunition carrier and other accoutrement of the French infantryman displays the sort of firearms used by the "Blue Devils."

Uniform Worn by Boche Bears Evidence

of good marksmanship of American doughboy. This uniform, blood-stained and showing the wicked slit of a bayonet thrust, will be exhibited along with the field equipment of the German soldier. These objects will be shown in conjunction with the outfit of the United States soldier, and will give a comprehensive comparison of the two, showing the superiority of the American fighting man, in the matter of equipment as well as a fighter.

That "an army fights on its stomach" is fully recognized when an inspection is made of the methods by which the soldier carries his rations. Food and ammunition are the two greatest factors toward the successful outcome of a military expedition. And these, or a portion of these, the soldier carries with him as he moves from position to position along the new line of battle.

There are other exhibits on the train that appeal to the patriotism of all American citizens. Every man, woman and child should make it a point to see these war relics. The week before the trains were made up in Dallas hundreds of people visited the building in which the objects were being assembled, and viewed the trophies. The Minnenwerfer gun was placed on display outside the headquarters of the Dallas Liberty Loan Committee and had about it a group of interested spectators every hour of the day. The greatest enthusiasm is being manifested throughout the district regarding the visit of the War Relic train. An efficient corps of speakers and attendants accompany the train which will be made up of four cars. There are two flat cars, carrying the large gun, trench mortar, etc., an automobile car to show the smaller relics and a sleeping car for the speakers and attendants.

OIL REFINERY IS NEXT BIG THING

Without giving any authentic authority for the report, The Ledger can say that a move is already on foot for securing building site for an oil refinery at Ballinger.

With the bringing in of an oil gusher near here comes the immediate demand for facilities for handling the oil, and capital is ready to furnish these facilities when it has been proven that there will be oil to handle.

It is rumored that the site of the old flour mill on Elm Creek just below the Cotton oil mill has been "spotted" as the logical place for a large refinery, and that parties are ready to push this feature of the oil development at the proper time.

This would make an ideal site for such an enterprise. Considerable material is already on the ground and railroad tracks connect the site with the main line.

The grade of the oil from the Russell well is said by experts to be of the highest quality, and will be greatly in demand by the refineries.

It is not probable that development along this line will begin until other wells are brought in, but so confident are the oil men that the field here will be a big one, that no time will be lost in preliminary work for developing all branches of the oil industry.

Chamberlain's Cough Remedy

This is not only one of the best and most efficient medicines for coughs, colds, croup and whooping cough, but is also pleasant to take which is important when a medicine must be given to children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their unqualified endorsement. Wm. Senry, Chillicothe, Mo., writes, "I have raised three children, have always used Chamberlain's Cough Remedy and found it to be the best for coughs, colds and croup. It is pleasant to take. Both adults and children like it. My wife and I always felt safe from croup with it in the house. Chamberlain's Remedy contains no opium or other narcotic."

BALLINGER CORN AND FEED MILL

This mill will do any grinding which may be brought to us, until including Saturday, Oct. 5th, when it will be closed down. S. B. Howard, Mgr. 30 6td pd.
