Americans and Allies Advance Despite Opposition--British Capture Fortifications

London, Nov. 5.—The American troops of the first army resuming their attack early this morning, forced a crossing on the Meuse river at Brielles and Clery Le Petit, and made good progress against the enemy, says dispatches from the American front today.

The report states that the Germans retired only after the most desperate resistance had failed.

London, Nov. 5.—The British captured Le Quasony, an important fortified town eight miles southeast of Valenciennes, yesterday, together with its garrison of one thousand men. Gen Haig announces.

The British wiped out the sharp salient and made an additional advance of from three to four miles after overcoming strong resistance. Four other villages were taken. As the enemy draws back they offer stronger resistance.

Paris, Nov. 5.—The first French army launched a new attack on a forty mile front between Peron and the Aisne river this morning. The French also pushed forward between Peron and the junction with the British army at Sambre

river, extending the attack on a front fifty-five miles. The British struck simultaneously with the French army, both armies making successful gains at important points. The Germans offered stubborn resistance and suffered heavy losses.

SHIPS 2120 STEERS TO KANSAS MARKET

Gerome W. Shields, pioneer cattleman, has returned to San Angelo from Chaney, Kansas, where he sold and shipped to market 2120 three and four year old steers. The cattle had been pastured in the Osage country near the Oklahoma line for more than a year.—San Angelo Standard.

Better Interest In The Election

An under current in politics throughout the nation has created more interest in the general election this year than usual, and a larger vote than usual is being polled at the local boxes. However, the vote is small when compared to the voting strength of the district and the vote cast in the primary and other elections.

Up to noon today about 100 votes had been cast in the two local boxes, the west box voting about two to one to the east or north box. Of course the vote is largely Democratic, but there is considerable speculation as to the result of the vote on the two amendments. It is probable the free text book amendment will lose in the cities and win in the rural districts.

McADOO ANNOUNCES FIFTH LIBERTY LOAN

Secretary of the Treasury McAdoo has announced that, no matter what the results of the pending overtures for peace may be, there will be another Liberty Loan. To use his expression, "We are going to have to finance peace for a while just as we have had to finance war."

There are over 2,000,000 United States soldiers abroad. If we transport these men back to the United States at the rate of 300,000 a month, it will be over half a year before they can all be returned. Our army, therefore, must be maintained, victualled, and clothed for many months after peace is an actuality.

The American people, therefore, having supported the Liberty loan with a patriotism that future historians will love to extol, will have an opportunity to show the same patriotism in financing the just and conclusive victorious peace whenever it comes.

Not for a moment however, is the Treasury acting on any assumption that peace is to come soon. Until peace is actually assured the attitude of the Treasury and the attitude of the whole United States government is for the most vigorous prosecution of the war, and the motto of force against Germany without stint or limit will be acted up to until peace is an absolute accomplished fact.

One more Liberty loan, at least, is certain. The fourth loan was popularly called the "Fighting Loan," the next loan may be a fighting loan, too, or it may be a peace loan. Whatever the conditions, the loan must be prepared for and its success rendered certain and absolute. Begin now to prepare to support it.

NEW TRAIN SCHEDULE AGAIN REPORTED

It is reported here that the long looked for change in passenger trains schedule will take place on Sunday Nov. 17th. Nothing official has been given out and it is not known what the change will be. The cancellation of the morning Santa Fe and morning A. & S. trains are reported to be included in the change.

R. B. Creasy returned home, Tuesday, from Dallas where he had been on business.

Kyle Biggs, a sailor boy, came over from Brady Tuesday to visit his grand parents, Mr. and Mrs. I. N. Roark. He came home from the navy at Boston, Mass., to recuperate from pneumonia.

L. J. Wardlaw, Jack Wardlaw, I. C. Adams, Phil Baker and Sid Martin were Sonora visitors to San Angelo Sunday and Monday, all stopping at the Landon. L. J. Wardlaw came in Sunday from San Antonio and other points. His brother, Jack Wardlaw went to Ballinger Monday morning.—San Angelo Standard.

64 FLU CASES AT ANGELO IN TWO DAYS

Little if any improvement in the Spanish influenza epidemic is evidenced. Mrs. Oscar Wilson, chairman of the Red Cross committee that is co-operating with the health authorities, report the sixty-four cases developed during the forty-eight hours ending at noon Monday. Between Saturday midday and the same time Sunday, twenty-six people became ill, while thirty-eight were stricken between Sunday noon and Monday noon. No pneumonia developed, and only one death occurred during the two days.—San Angelo Standard.

Original Hun Peace Terms Sounds Funny

London, (British admiralty wire less)—Now that Germany wants peace is it a useful reminder to give briefly the terms which four years ago Count Von Bernstorff, then German ambassador in Washington, declared as fit to be imposed on France. They are:

All French colonies and all north eastern France to be taken by Germany.

An indemnity of 400,000,000 or pounds (\$2,000,000,000) to be paid.

A tariff to be established allowing all German goods to enter France free for 25 years without reciprocity for French goods entering Germany.

No recruiting to be allowed in France for 25 years.

All French fortresses to be destroyed.

France to surrender 3,000,000 rifles, 2,000 cannons and 40,000 horses.

All German patents used in France to be protected without reciprocity for French patents in Germany.

France to cut herself adrift from Russia and Great Britain.

France to make an allowance with Germany for 25 years.

D. M. Crockett was here from Norton Tuesday. He recently returned from Humble, Texas, where he had been for some time at work. He is back to try his luck in this country for another year.

Elder W. D. Black, at one time a Church of Christ preacher in this county, was a passenger on the Santa Fe Tuesday, en route to his home at Thorp Springs, from Big Lake, where he went to hold a meeting. He stated that the flu closed his meeting.

T. J. Weathersbee, of Rotan, is here this week looking after property interest. Mr. Weathersbee formerly lived in this county. Notwithstanding that he is blind and can not see a ray of light, he made the trip to Ballinger alone and gets about town with as much ease as the average man with two good eyes.

Paris, Nov. 5.—(6:30 p. m.) — Premier Clemenceau announces that the armistice terms to Germany are based on conditions laid down by Marshal Foch.

These conditions, Clemenceau says are based on those given Bulgaria, Turkey and Austria-Hungary, and briefly are as follows:

First, Military guarantees of the security of the Allied troops.

Second Maintenance of the Allied military supremacy in case hostilities are renewed.

Third, The disarmament of the enemy as much as is necessary to prevent a renewal of hostilities.

"We have won the war, though we may have to wait" says the Chamber of Deputies. The announcement was cheered repeatedly

Red Cross Nurse Writes From England

Miss Florence Parr, daughter of L. K. Parr, a graduate of the Ballinger Training Schools for Nurses, writes to her mother, the letter being dated "England" Oct. 9. The letter in part says:

My Dear Mother:

I am getting along just fine and getting plenty to eat. This is a most beautiful place.

Mother dear, don't write me here; I don't think I will be here very long. Don't worry for I am well and happy and getting along just fine and enjoying many sights. But one thing quite funny, I can't count English money. So it is very interesting learning all these new things.

They have the most beautiful flowers here you ever saw and it seems funny to see wild flowers this time of year.

I met a boy from Houston, Texas, yesterday. It is surely nice to meet some one from Texas, dear old Texas.

Now, mother dear, don't worry for I am perfectly safe, and I do want you to look well when I come home. Tell daddy dear to take care of himself and not to work hard.

With lots of love and kisses for all the family,

From your loving girl,
Florence.

"Come and see"

In these days of conservation we all try to make a dollar go a long way.

When we buy shoes we want them to give us long wear. And when we buy clothes we like to have them last a reasonable time.

The same with your car. New cars are scarce anyway, and you want the old car to give you maximum value.

There is one sure way to do this and that is to take proper care of the car.

This means that you should keep a careful eye on it and remedy every little trouble before it gets big. A doctor can do a lot of good in one call if he called soon enough.

EDITS

Some people frown upon agitation, but a little agitation some times helps things. It all depends upon what you agitate.

The shop early slogan has been started. The demand for early shoppers is greater than usual. The Christmas shoppers who wait will be and should be shut at the eleventh hour.

Start a bat roost and help rid the country of disease, is the admonition of a San Antonio doctor. Bats are enemies to malaria, so mosquitos and bats can not live in the same country. It seems that everything is placed here for a purpose.

Since the kaiser's valuables are being sent to Genya, Gen Pershing should make that point the American's objective, and instead of planting Old Glory on the palace in Berlin, plant it on "Buonas" on the Lake of Zug. Do it and not wait for Switzerland's consent.

The country which harbors the arch enemy of America can hardly be the friend we would like to have. Switzerland should close her gates to the kaiser and return him to Berlin, and make it possible for the allies to administer a just punishment. Dozens of trunks containing the valuables of the kaiser are arriving in Switzerland, while thousands of lives are being shot out, and millions of lives have been shot out, to satisfy the greed of a beastly monarch. Let us have him, and Switzerland can have his trunks.

Winning of the war is paramount to everything else. Civilian laborers are necessary to back up the soldiers with ammunition, boats, airships, etc., but the gov-

ernment should not exact too much of the drouth stricken section of Texas which has already been forced to give up a big per cent of its laboring class. The labor board should cut the quota low in calling on these counties for war workers, and by all means use good judgment in selecting men who are not essential to the cultivating and harvesting of a big crop. This country needs a big crop. Prospects are good for a big crop. It would keep all hands and the cook busy to harvest a big crop. Food is of as great importance as bullets or more so, and this country is in a good way to produce the food. Let us do our best to furnish laborers for war work, but furnish them out of the class of non-producers.

**Physically Fit
At Any Age**

It isn't age its careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit. Watch the kidneys. When they break down under the strain and the deadly uric acid accumulates and chrysalizes, look out! These sharp crystals tear and scratch the delicate urinary channels causing excruciating pain and set up irritation which may cause premature degeneration and often do turn into deadly Bright's Disease.

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, high colored or scanty urine, loss of appetite, indigestion or rheumatism.

Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Go to your druggist immediately. Get a trial box of GOLD MEDAL Haarlem Oil Capsules, imported direct from the laboratories in Holland, where they have been in use for over two hundred years. They will give almost immediate relief. If for any cause they should not, your money will be refunded. But be sure to get GOLD MEDAL. None other is genuine. In sealed boxes, three sizes.

**MAY HOLD JOINT
INSTITUTE HERE**

Prof. J. J. Bugg is in receipt of a letter from county superintendent Griffin, of Coleman county, in which the proposition of Coleman and Runnels counties meeting together in the school teachers institute.

Mr. Bugg has the matter under consideration and after discussing same with other interested parties and with the local boarding houses and hotels, will go into details with the Coleman educator, and it is very probable that the two institutes will be held together.

Mr. Bugg stated Tuesday that it depended largely upon what kind of rate the local hotels and boarding houses offered, and what kind of accommodations could be had for the two hundred and fifty teachers which would spend a week in this city.

The institute for this county has been scheduled for December 16th and will be in session five days. The Coleman county institute was recently postponed on account of the influenza epidemic, and the thought of bringing the two institutes together suggested its self to the Coleman county superintendent and is favorably looked upon by the superintendent of this county.

Bringing two hundred and fifty teachers together will make an interesting institute. Methods and plans of work in the public schools can be discussed to a better advantage by a larger exchange of talent, etc. It is a proposition that the local citizens should encourage, and in turn the Runnels county institute could join the Coleman county institute next year.

About Croup

If your children are subject to croup, or if you have reason to fear their being attacked by that disease, you should procure a bottle of Chamberlain's Cough Remedy and study the directions for use, so that in case of an attack you will know exactly what course to pursue. This is a favorite and very successful remedy for croup, and it is important that you observe the directions carefully.

Greatly Benefited by Chamberlain's Tablets

"I am thankful for the good I have received by using Chamberlain's Tablets. About two years ago when I began taking them I suffered a great deal from distress after eating, and from headache and a tired, languid feeling due to indigestion and a torpid liver. Chamberlain's Tablets corrected these disorders in a short time, and since taking two bottles of them my health has been good," writes Mrs. M. P. Harwood, Auburn, N. Y.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadorsville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. . . I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

doses of Black-Draught." Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. SOLDIER'S OPINION OF SALVATION ARMY

Captain Thomas M. Campbell, Jr., now a captain in the U. S. Army and some where in France, in a recent letter to his father, former governor T. M. Campbell, of Palestine, Texas, made reference to the work of the Salvation Army, the Y. M. C. A., and other similar organizations now operating in France, and in that connection among other things said:

"The Y. M. C. A., the Jewish Welfare Board, the National Catholic War Council, the Salvation Army and other similar organizations and societies now contributing so much to the welfare and comfort of the American Army in France, certainly reserve all praise and the most complete patriotic cooperation of the people at home. I cannot in a letter undertake to outline their respective activities or the good they do, and while I do not wish to minimize the splendid work of any one particular organization, still, in view of the little publicity that has been given the Salvation Army I will say, that hereafter 'my hat is off' to the little army, now and always entitled to the profound respect and unstinted support of good people everywhere. The Salvation Army made no noise, but just quietly came over here apparently with nothing in mind but a determination to do good and the work they are doing is reflected in the popularity of the Salvation Army with the 'dough-boys.' The Salvation Army canteen is popular, it's atmosphere wholesome and ennobling. They have a welcome for all the boys and they are so willing and earnest in their work. Doing good is a business with them and they are handling it right. I have been in France nearly a year now and I have never heard an unkind reference to the Salvation Army by a soldier. You will rarely find them in large towns. They are nearly always in the little towns in out of the way places where the men really need them most. Like the meek and lowly Nazarine, they seem not to rejoice so much in praise or publicity as in the good they can do.

I could write more about all of these worthy organizations, and I will have much to tell you when I get home. But for the present just remember this: Help all these worthy enterprises and don't ever pass a Salvation Army drum without throwing a few silver slugs on that drum. When they come around to solicit a subscription from you give to them gladly and be proud that you had the opportunity, keep in mind the fact that the Salvation Army is giving the boys the doughnuts and the hot coffee over here. And they don't have to pay everytime they get anything either. Personally I wish the Salvation Army could be better known and that the great work of this wonderful organization could receive greater publicity."

Somebody's Dollars Will Do It—
I Wonder if They'll Be Yours

By Bruce Barton

I WILL tell you what will happen some night this winter in France. Some night when its cold and dark. There will be a rustling through the front line trench, where our boys stand guard. And a heavy laden Secretary will make his way along.

In his hands will be great steaming pots: in his pocket chocolate and cigarettes.

From one man to another he will go, passing a cup full of hot coffee to hands that tremble with the cold; bringing the comfort of a bit of sweet and a smoke.

Men will hail him cheerily, slapping him on the back; and when he has gone things will be a little easier in that trench because he has passed that way.

How much will it cost to make that trip, do you suppose? Counting the pittance that the Secretary is paid, and the cost of the chocolate and the cigarettes and all?

Five dollars? Twenty-five dollars? I do not know.

But whether it is five dollars or twenty-five, I'd like to think that it is my five or twenty-five—wouldn't you? That some night when it's cold and lonesome, my money and yours might send a Secretary out along that front line trench. Let's make up our minds that we are going to pay for a score of those trips. A score of the nights this winter shall be our nights

—nights when the boys greet joyously the chocolate and cigarettes that our money provided; and are happier because our representative has passed.

WAR FUND DRIVE WELL UNDER WAY

Geo. A. Cook, field manager for the United War Work Fund campaign, who is making Ballinger headquarters while in this district communicated with other counties in this district Tuesday morning, and received reports most encouraging from all the counties.

"Coleman county seems to be in the lead," said Mr. Cook, having the best organization for working and are not waiting for the campaign week, but are going after subscriptions now, and will make a special drive Saturday."

Mr. Cook also reports Menard and Concho counties active.

Menard will get in a few big subscriptions this week, and have a good start for the drive next week.

Mrs. D. E. Sims is in charge of the work in Concho county and reports to Mr. Cook over the phone Tuesday that Concho would go over the top.

A whirlwind campaign will be made in Runnels county next week, and an effort made to go over the top. Those who wish to encourage the work and give the committee a nice subscription to begin with can do so this week. Don't forget every one will be given a chance to help in this, and it is better to come early than to wait to be called on.

The budget made up for the work for the period expiring next June has been figured on a low basis, and the president appeals to the people to go over the top with at least fifty per cent more than the amount called for and in this way stay off another call early next summer.

THE ARMY MAN'S BANK

A banking hour in a Y. M. C. A. building of a Southern department camp. The army "Y" is the soldier's financial agent; it takes his savings and deposits them for him in a local city bank; it sells him Thrift stamps; it issues him express money orders, and in certain cases keeps money and valuables for him temporarily in the building. One "Y" man in each building is authorized to act as the agent of the express company to issue money orders to the soldiers. The banking service and the Thrift stamp sales encourage the army man to save his money, and this is made more possible by the free comforts, conveniences and entertainments offered by the Y. M. C. A.

PLANS FOR UNITED WAR WORK SUNDAY

Sunday, November 10th, will be United War Workers Sunday, according to the plans of the church section of the United War Work Campaign of the Southern Department which comprises the State of Texas, Oklahoma, Arkansas, Louisiana, New Mexico and Arizona.

Sermons detailing the religious, educational, entertaining and other features of the activities of the Y. M. C. A. and other agencies serving the soldiers and sailors in this country and abroad will be preached in all churches. Catholics, Protestants and Jews will join in this observance of the day. In some cases where Orthodox Jewish hold their services on Saturday the observance of the day will be advanced.

Sunday schools, Christian Endeavor societies, Eworth Leagues societies of the Baptist Young Peoples Union and similar organizations connected with the church will use the whole or part of the time of their service to a consideration of the needs of the soldiers and sailors and the means provided by the welfare forces to supply the needs. In many cases a special patriotic service in which the service flag will represent the boy who has gone to the front from the church will play a prominent part.

While the epidemic of influenza has caused the closing of most of the churches for a time, it is expected that by United War Work Sunday all of them will have been reopened. This will be added reason for rejoicing and will increase the gifts towards the United War Work Campaign, according to the campaign leaders.

The seven organizations to benefit from the results of the United War Work campaign are the Y. M. C. A., the Y. W. C. A., The National Catholic War Council, which includes the Knights of

Columbus, the Jewish Welfare Board, the War Camp Community Service, the American Library Association and the Salvation Army. "Seven in name but one in aim" is one of the slogans used in the campaign.

From Pennsylvania comes a story of tentative plans of big oil interests for a pipe line from the Tampico oil fields of Mexico to Texas. The project is said to have progressed to making preliminary estimates of cost and discussion of plans and ways of accomplishing the enterprise. One of the problems that has yet to be solved is the question of whether such a line can be built over or under the Rio Grande River without further treaty stipulations between Mexico and the United States. It is thought that international jurisdiction would be necessary over the line.

The line would be only about six hundred miles long—no longer than the Oklahoma-Gulf trunk lines and shorter than the Oklahoma-Chicago lines. The cost of a double line, such as rumor says is contemplated, would be about \$30,000,000.

Need for the line is found in the demand for oil in the United States and in the possibility development of properties in the Tampico field in the absence of transportation facilities such as are expected to be available only by pipe line

Mrs. H. H. Ratchford and son Harvey passed through Ballinger Monday afternoon en route from Paint Rock to Austin, in response to a message stating that their son and brother, Wallace, was seriously ill with pneumonia having relapsed from influenza.

Spanish Influenza

Do Not Fear When Fighting a German or Germ!

By Dr. M. Cook.
The cool fighter always wins and so there is no need to become panic-stricken. Avoid fear and crowds. Exercise in the fresh air and practice the three C's: A Clean Mouth, a Clean Skin and Clean Bowels. To carry off the poisons that accumulate within the body and to ward off an attack of the influenza bacillus, take a good liver regulator to move the bowels. Such a one is made up of May-apple leaves of aloes, root of jalap, and is to be had at any drug store, and called "Pleasant Purgative Pellets."

If a bad cold develops, go to bed wrap up well, drink freely of hot lemonade and take a hot mustard footbath. Have the bedroom warm but well ventilated. Obtain at the nearest drug store "Anurie Tablets" to flush the kidneys and control the pains and aches. Take an "Anurie" tablet every two hours, together with copious drinks of lemonade. If a true case of influenza the food should be simple, such as broths, milk, buttermilk, and ice-cream; but it is important that food be given regularly in order to keep up patients strength and vitality. After the acute attack has passed, which is generally from three to seven days, the system should be built up by the use of a good iron tonic, such as "Irontic" tablets, to be obtained at some drug store, or that well known blood maker and herbal tonic made from roots and barks of forest trees—sold everywhere as Dr. Pierce's Golden Medical Discovery. avd.

J. S. Gambell is at home from Johnson County, where he spent the fall very successfully.

Mrs. Billie Nash, who came home to be with her sister and family, who are ill with influenza, returned to Bryan to join her husband, Monday afternoon.
