NO MEXICAN TROOPS CROSS TEXAS UNTIL AMERICANS SAFE

Austin, May 30.—Acting Secretary of State Polk, wired Governor Hobby today that the passage of Mexican troops over Texas soil had been denied pending the guarantee that the lives of Americans in Mexico would not be endangered. The State Department made the second request of Mr. Hobby yesterday for permission for Mexico to move troops from Sonora to Juarez through Texas, and Gov. Hobby refused to grant permission unless the lives of Americans were first made safe.

DEFENDS U.S. FROM DEPUTY'S CHARGES

Rio Janerio, May 29.—The news paper Razao today took issue with the elements that are fostering anti-American agitation in Brazil.

Referring to the speech of Deputy Mauricio Laerda in the chamber some few days ago, the Razao said:

"We do not approve of Laerda's support of agitation against the United States which was begun by Madeiros Albuquerque, who, using his journalistic prerogatives, launched accusations against that nation which has always been a friend to Brazil.

"Albuquerque is a private citizen and is unable to create difficulties. However, the deputy's opposition to France transfer of her Brazilian loan to the United States changes the aspect of the case. It is absurd to deny the right of England and France to transfer their loans. The war has changed financial dominion from London to New York. Transfer of the loan is to our advantage because it is against the interests of the United States to lower the value of Brazilian money, since we would be obliged to overpay for their products and they would have to overpay for ours. Knowing the critical financial conditions in Europe, transfer of the Brazilian loans to the United States is wise and reflects credit on Brazil's financial standing."

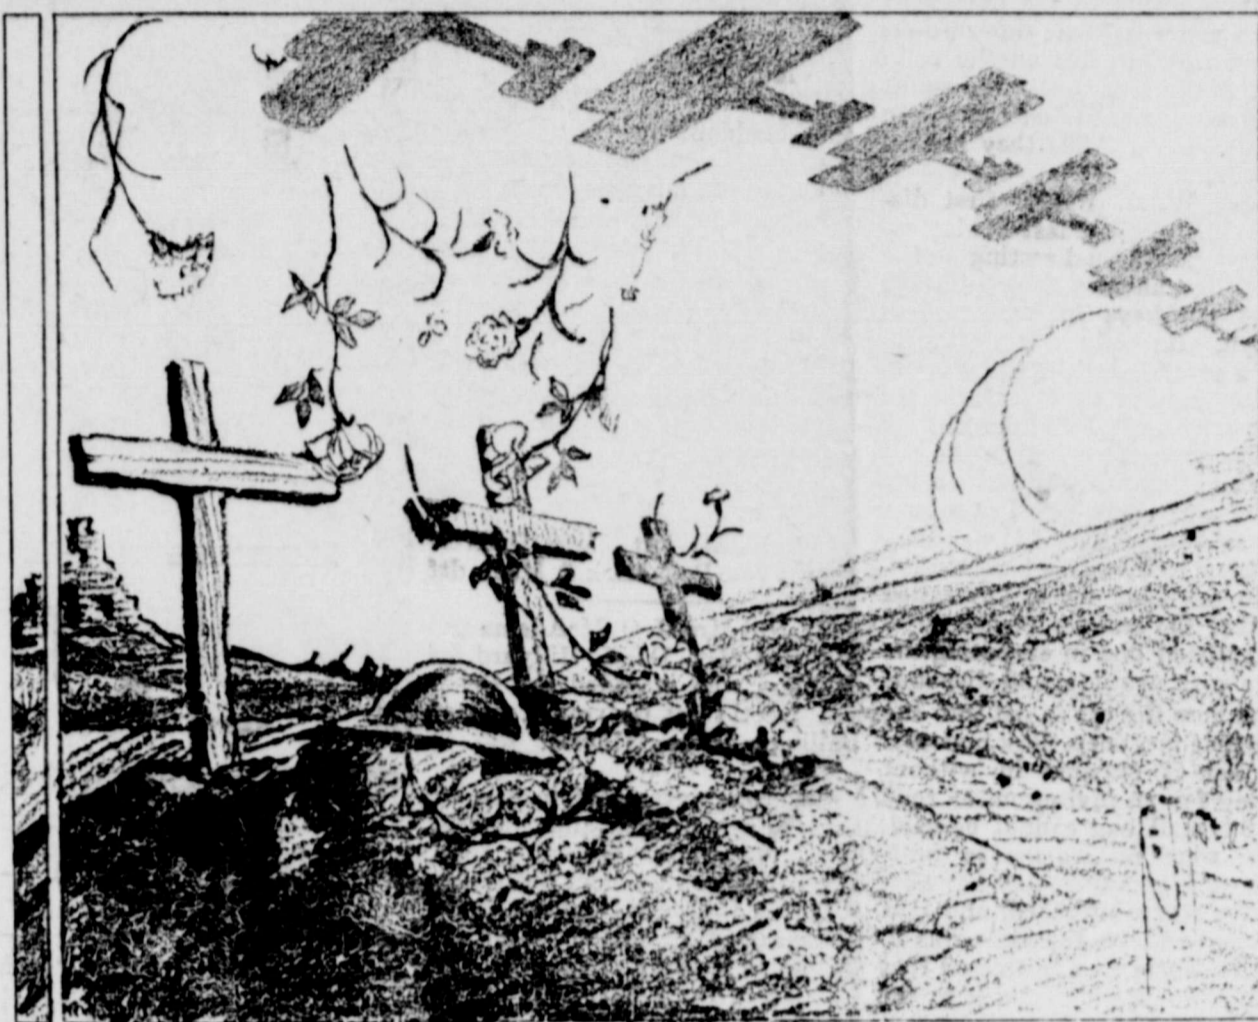

The Razao ridiculed the charges of American imperialism, declaring that Brazil is not threatened with conquest.

Among other things, Laerda declared in his speech that sincerity of the Monroe Doctrine must commence with cancellation of international expansion and restoration of California and Texas to Mexico.

"If the doctrine defends America from Europe, who will defend America from America?" he asked. "American capital is aggressive and the dollar has always

COL. BAKER SAYS THE DIVISION DID A FINE JOB WHILE IN FRANCE

New York, May 30.—The first units of the Thirty-sixth Division of Texas and Oklahoma troops, arrived here today on the transport Great Northern.

"These troops did fine work," Colonel Baker said, as the boys marched down the gang plank on to American soil again. "Although they were in action many weeks and went through some hard fighting, the Texas-Oklahoma boys suffered comparatively few casualties," said Col. Baker.

Within the next few weeks this county will receive the free text books which are to be issued to the school children at the beginning of the next term of school.

The books for the common school districts of the county will come to Superintendent Bagg, the books for the independent district of the county will come direct to the superintendent of the schools of such district, and orders must be placed with the state department of education for same.

No doubt all orders from the school district of this county have gone in, and the requisition will be filled in ample time to get all books here for the opening of school which will begin early next September.

MAY GET TRUCKS TO MOVE GRAIN

H. Giesecke suggested a few days ago that an effort be made to get government to release a number of army trucks to be used for hauling grain to market in this county, and acting on the suggestion the editor of this paper immediately took the matter up with Congressman Blanton, calling his attention to the shortage of teams and hands in this country.

A short time ago the government announced that 1250 army trucks would be distributed in Texas for road work. The grain movement here at present is a great deal more important than road work, and by all means the idle trucks, which we understand are parked by the acres around every army base, should be turned loose and put to a good use.

That this same idea has been called to the attention of the agricultural department is shown in a telegram from the manager of the Fort Worth Chamber of Commerce to Clarence Ousley at Washington. Mr. Gumm wired Mr. Ousley as follows:

"West Texas now assured the largest grain crop in history, and unless Government can provide for release of large number of army trucks for ninety days' service to move this crop from threshing to railroad it will be impossible to save the entire crop. Teams shortage very acute and impossible to obtain sufficient labor without trucks. People willing to pay for this service. Threshing begins about June 10. Believe this matter imperative. Would appreciate your immediate attention."

Washington, May 29.—Secretary of War Baker was urged today in a joint petition signed by Senators Culberson and Sheppard and Representative Lanham to authorize the employment of army trucks to assist in harvesting the wheat crop of West Texas and the Panhandle. Because of a scarcity of laborers and teams a large portion of this crop threatens to be a total loss for lack of sufficient harvesting facilities.

The trucks would be used to haul the grain from the threshing machines to the railroads.

The West Texas Chamber of Commerce telegraphed Lanham for assistance two days ago. Lanham immediately got in touch with assistant secretary Ousley of the department of agriculture. The two officials found there was no existing authority whereby the request could be granted. It was

READY TO EXTEND HAND OF CHARITY

"I want to endorse what you said about the unfortunate woman in our midst" said C. A. Dooze Friday morning, "and you can count on me for five dollars on a fund to help her."

A few minutes later Ben S. Long walked into the office and said, "several of us were discussing what you said about raising money to help the unfortunate woman and a suggestion that we make up a fund met with speedy action, and I have five dollars and ten cents here which different parties gave me."

When there is such work to be done some body must do it and Mr. Long kindly consented to circulate among the good people and half dollars, quarters and whole dollars, were planked down by most every one the charity proposition was presented to. Many said: "yes I want to help that woman." A few said "nix" I don't believe in helping such trash."

Some of those who refused to contribute we regret to say, are apparently able to chip in a little and are religious pretenders. Perhaps they have never found any thing in the bible that justified giving to such causes.

The woman and baby are in the sanitarium at the expense of the county, and the woman is in a serious condition and may not recover. When she recovers, if she does the sanitarium will discharge her. The county will also discharge her and it will be this money that will carry her until she can get work.

The money being contributed will be placed in the hands of a committee of ladies to be used for the woman in just such way as the committee sees fit. If you want a hand in the help, leave your contributions at The Ledger office.

A life is never made better by knowing. If you cant help, keep quiet; don't knock a soul that's down and out.

then decided to take the matter to secretary Baker with an urgent appeal that relief can be given. This was done today.

Secretary Ousley is deeply concerned at the prospective loss of so much valuable wheat and is cooperating with the Texans to the fullest extent.

Mrs. Joe Blagg returned to her home at Brownwood, Thursday after an extensive visit with her parents, Mr. and Mrs. Claude Wilmeth.

The amendment to increase the governor's salary should be re-submitted when the campaign is on to elect a new governor. Every voter will want his governor to get a good salary, and the amendment would unanimously be adopted.

Brownwood held a mass meeting yesterday to take steps to relieve the distressed circumstances in which the recent hail storms left the farmers of that county. The greatest need of such farmers is physical help to aid them in getting their crops replanted.

Some people in Ballinger who have been waiting a life time for something to turn up may yet receive what they have been waiting for. Finding oil here would really bring wealth to some who are now comparatively paupers. However, if oil should not be found there are some speculators who will find themselves in the paupers class.

Some of our readers think that we should be a little more modest and not print news of certain nature. It is generally the reader who gulls down such news and has a hankering for more who pays the paper in criticism. Any child who is old enough to read is old enough to know right from wrong, and the quicker the consequences of wrong is impressed upon them the better prepared will they be to go around the pitfalls of life.

Suggestion for a Camping Trip
Buy a bottle of Chamberlain's Colic and Diarrhoea Remedy before leaving home. As a rule it cannot be obtained when on a hunting, fishing or prospecting trip. Neither can it be obtained while on board the cars or steamships and at such times and places it is most likely to be needed. The safe way is to have it with you.

**AMERICAN BOXERS
WIN CASH IN LONDON**

London, (By Mail)—American boxers are reaping a harvest in dollars and popularity in Great Britain and simultaneously boosting the prestige of American boxers.

Eddie McGoorty leads in the matter of coin-gathering, the St. Paul, Minn., man having engaged in several bouts which are estimated to have netted him around twelve thousand dollars. His last bout, May 12th, with Harry Reeve at the National Sporting Club, was for an \$8,000 purse.

Joe Lynch, the New York bantam, is believed to have cleaned up between five and ten thousand. Augie Ratner, middle weight, also of New York has profited to the extent of several thousand dollars while Eddie Shevlin, the American navy boxer has added considerable to his bank roll.

If the success of McGoorty, Lynch and Ratner here is any basis for comparison of American and British fighters, Americans have the edge. All three have met and beaten the British champions of their weights.

McGoorty and Ratner have both defeated Boy McCormick, the British light heavy weight holder on the Lord Lonsdale championship belt.

Lynch holds a twenty round decision over Tommy Noble, the British bantam champion.

Shevlin has not fared so well. He has lost two decisions to Britishers, but his gameness has earned him a lot of commendation and prospects of future lucrative matches.

Terry Martin of Providence, R. I., is another Yankee scrapper who is faring well over here. Martin, whose manager is Bob Warner, the Boston ice skater, got a bad start at Liverpool, when he lost to Joe Symonds, ex-bantam champion of Britain on a foul but he made up for it in the first week of May by walloping the tar out of Chris Langdon, a Welshman, at the National Sporting Club. Martin is being pressengaged for a match with Noble or Jimmy Wilde, but his chances are not considered exceedingly bright against the latter. Wilde will be a hard man to get into a ring with an American after his nearly fatal experience with Lynch unless he is offered an easy-mark or a healthy bank roll.

Dizziness, vertigo, (blind staggers) sallow complexion, flatulence are symptoms of a torpid liver. No one can feel well while the liver is inactive. HERBINE is a powerful liver stimulant. A dose or two will cause all bilious symptoms to disappear. Try it. Sold by Weeks Drug Store.

Miss Maryvate Smith left for Galveston, Thursday afternoon, where she goes to visit her sister, Mrs. F. H. Taberville. She will stop for a short visit in Brownwood.

**BIG SNAKE STORY
FROM DRY TOWN**

Mr. Burleson should look into an incident that occurred in the Brady postoffice this week, if reports, coming from Brady are correct. The Brady Standard vouches for the following story:

The Brady postoffice force is out with the biggest snake story of the new season, and the story is vouched for by every member of the force. Due to the excitement of the moment, their descriptions vary somewhat, but on the main point of the story—the killing of a big chicken snake on one of the typewriters—on this they are all agreed.

Clerk W. A. Wilder first discovered Mr. Snake last Friday evening, with its head resting on the typewriter and its fangs darting about the keys in business-like fashion. Its body was resting along a counter and its tail was exploring various documents in the government files. Wilder did not stop to ascertain whether the reptile was attempting to write a letter of greetings to Postmaster General Burleson or if it was merely trying to dictate a business letter to the local force, but called together the balance of the force, who assisted him in executing the snake with neatness and dispatch.

Just how the snake got into the postoffice is a deep, dark mystery. Whether it crawled in without waiting for an invitation, or rode in on a mail bag cannot be said. There were no stamps or postmark on it nor was there any post age due stamp attached, and if it bore any address the same was illegible. Some wag suggested that Postmaster Reagan send it to the dead letter office, but on account of the severity of proper representatives under present prohibition laws, it was deemed more advise-

able to bury it.
The size of the snake is in dispute. Assistant Postmaster Oscar Westbrook makes a modest estimate of four feet. Wilder says five feet looks right to him, and Postmaster Reagan says he is willing to bet his hat six feet would be nearly correct. The editor from descriptions furnished, finds it about as big around as a whiskey bottle.

The abundant rains promise to make all of the angle worms grow into big, fat snakes, and is likely that other snake stories will be added to the chapter before the year closes.

FIFTY THOUSAND SIGN FOR LAND

Soldiers in Camps Organizing Farmers' Forums Are Being Aided by Army Y. M. C. A.

Farmers' forums composed of soldiers desiring to establish homes and farms on land provided by the government are being organized in the military camps of the Southern department, comprising Texas, Oklahoma, Louisiana, Arkansas, New Mexico and Arizona by the educational department of the Army and Navy Y. M. C. A. Groups of soldiers comprising the forums meet regularly in the Y. M. C. A. buildings and discuss the questions involved in their efforts to get lands in various states and the ways and means of developing the lands after they get them. Literature from the department of the interior and the agricultural departments of the states being studied is obtained and a digest of it given to the groups by different members.

S. N. Craig, representing the department of the interior, has been largely instrumental in formulating the plan of operation followed by the soldier farmers and farmers-to-be. A series of addresses was given by him in the camps of the Southern department in the "Y" buildings, during which he outlined the course to be pursued by the government in assisting soldiers to locate on unused government lands in various states. More than 50,000 soldiers have signed the applications for the government land which will be available after congress has passed the bill containing the recommendations of Secretary of the Interior Lane, according to Mr. Craig.

"It is gratifying that so many of the soldiers have indicated their desire to take advantage of the opportunities to be provided under the provisions of the new law," said Mr. Craig. "The ultimate success of the plan depends upon the follow-up work that will be done by the farmers' forums in the various camps being organized with the aid of the Y. M. C. A. leaders."

Camp Travis, San Antonio, Tex., organized the first farmers' forum.

DEMobilIZATION OF "Y" MEN NOW AT A STANDSTILL

Only 400 Remain in Southern Department—Activity on Mexican Border.

San Antonio, Tex.—Demobilization of Army Young Men's Christian association secretaries in the Southern Military department has about reached a standstill for the present, according to J. H. Eckford, departmental supervisor of personnel. About four hundred wearers of the Red Triangle remain in the six states composing this department, more than six hundred having been released since the signing of the armistice. It is believed that, with the numerous camps in the department demobilized down to practically the smallest possible working force, equipped with the demands of the regular army men and the returning soldiers from overseas, there will be a need for at least four hundred secretaries for at least several weeks.

Seventy secretaries are serving the towns and outposts along the Mexican border, this phase of Y. M. C. A. activity having been materially enlarged since the armistice. Apparently 2,000 miles of border territory is now being covered, the greater part of it by itinerants in light delivery cars, in which the secretaries carry a full supply of books, stationery, portable motion picture machines, athletic equipment. In a number of the isolated villages where troops are stationed the Y. M. C. A. hut is the only entertainment feature and the soldiers share their privileges with the civilian populations. Every border outpost is now being reached by the "Y" men, and the work will continue as long as there are soldiers to serve.

Y. M. C. A. ENLARGES WORK IN RUSSIA

Doubles Personnel in Non-Bolshevik Sections—Large Sums Being Expended.

An urgent cable has been sent from Vladivostok to the Y. M. C. A. national war work council headquarters in New York requesting that 200,000 feet of up-to-date English comedies and dramas and an enormous repertoire of Russian titled films be rushed to that part in addition to 725 reels of committee on public information educational films.

In response to appeals made by the Omsk government and other allied authorities, the Y. M. C. A. has doubled its personnel in non-bolshevik Russia, and has enlarged the scope of its work proportionately. There are now 97 American Red Triangle workers in Siberia and 50 on the arctic front in European Russia. In addition there are more than twice this number of Russian and Czech secretaries.

The national war work council is now expending \$150,000 a month for Y. M. C. A. work among allied and American troops in Siberia, and an additional \$50,000 a month among the troops in northern Russia.

The psychological time is here. Shall we have continued prosperity? No question about the answer. Therefore, keep industry going. Speed up peace production as we did war work in 1918.

Remember the manufacturer can not make, nor the merchant sell, unless the public buys.

Buy! Buy now! Take up the slack caused by the stoppage of war activities. Let readjustment pass with least possible hardships. If you buy, somebody sells, somebody produces, and there is work for all.

Continue to do your share, Keep everyone at work. Give the returning fighter his chance,
