Fort Worth, July 17.—Owen White, a returned soldier, shot his sweetheart, Estelle Ray, and then killed himself here today when the girl refused to marry him.

STATE HEALTH WORKER IS TO BE HERE FRIDAY

Mrs. J. L. Landrum, of the State Department of Agriculture, who is the state chairman of the organization for fire prevention in Texas, and who is president of the Texas Federated Women's Clubs and John I. Anthony of the Texas Public Health Association, were in Ballinger for a few hours Thursday, and while here made arrangements to meet a committee from the Civic League on Friday in the interest of public health work. Mrs. Landrum stated that she would arrive in Ballinger Friday morning from San Angelo, and would remain in Ballinger until the afternoon train, and is especially anxious to meet a large number of the women of the Civic League, to discuss matters of importance. As she can only spend a few hours in this city, Mrs. Landrum urges as many as possible of the ladies to meet with her.

CLEAN UP WEEK

M. C. Falls, who is superintendent of buildings and grounds of the Runnels County court house, is making this his clean up week, by scrubbing every office in the court house, and otherwise cleaning the building. Mr. Falls is one of the most efficient as well as the most industrious superintendents that has ever supervised the building and grounds and the surrounding premises will verify this statement.

RUNNELS COUNTY DRILLING REPORT

Ed Eubanks foreman of the Russell drilling crew, was in Ballinger Thursday morning, and reported that the Russell No. 2 is down over two hundred feet, and that drilling is being pushed as fast as possible.

The drillers were delayed about three hours on the first night when the cable snapped and the bit was lost in the hole. The gas pressure in the first Russell well is increasing daily, and the oil is getting stronger. The Sinclair Gulf well on the Padgett land, near the Russell, is drilling at 2400 feet in shale. Nelson Brothers expect to spud in on their Mustang location next week.

D. G. Laey, who is to drill the Russell No. 3 is in Ballinger getting things in shape to spud in his well in a short time. He announced that he intends to cut off a block of five hundred acres from his tract and organize a corporation to drill the well. He also says that it will be necessary to drill at least two wells on his tract, in order to make a thorough test of the field, and that if either of these prove to be good wells, he will drill others later.

The Hightower well in the north end of the county was shut down Wednesday for boiler repairs, but

Say American Rights in Mexico are Endangered

the drillers expected to resume drilling Thursday. This hole has passed the 2400 foot mark, and is striking entirely different formations from those in the Russell. The Sinclair Gulf Company's McNay well, near Wingate is drilling at 600 feet. Machinery is on the ground for the Tad Richards well near Truitt.

The boiler for the Safety First well is on the track here, and other tools are on the way. Mr. Hunter says that after all tools are on the ground it will be probably several days before he can spud in, but that he expects to spud before the first of August.

The Drillers at the Pfluger well at Rowena are sure that they will remove the bit from the hole sometime Thursday and will resume drilling as soon as possible. This well has been shut down for some time on account of the losing of two bits and a spudder in the hole but the spudder and one of the bits has been removed and the drillers have succeeded in getting the second bit in an upright position so that it can be easily removed.

Drilling has been resumed in the Schumaker well at Tenyson at 900 feet. This was abandoned some time ago, but was opened up again this week, and will be pushed to completion.

There is very little trading in leases at present, but we are reliably informed that one man who

Austin, July 17.—The National Association for the Protection of American Rights in Mexico was commended in a resolution adopted by the senate today. The resolution states that foreign lives and property in Mexico are constantly endangered and subjected to many indignities.

VISITING OLD HOME

A. L. Farris of Denton, came in today to look after some business affairs and visit old friends. He informed us that his wife had two daughters were well and like Denton very much. His oldest daughter Miss Pearl is now in Columbia University, New York taking special work in science. She will teach in the Cleburne High school next year. Miss Verda is spending the summer at home and will teach next year in the High school at Albany, Texas. Mr. Farris and L. C. Alexander own some land in Concho county jointly and he came out to share in the dividends made from the farm in 1917 and 1918.

FORMER CANDIDATE FOR GOVERNOR HERE

Col. John W. Simpson of Dallas, who was at one time candidate for Governor of Texas on the Republican ticket, and who owns some land in Concho county, was in Ballinger Thursday for a few hours, going on to Paint Rock to look after his business there. Col. Simpson is the father of Sloan Simpson, who is the chairman of the Republican State Executive Committee, and is prominent in political affairs of the state.

RESOLUTION ASKING HOBBY TO RESIGN LOST---108 TO 6

ANGELO GIRL DROWNS IN CONCHO RIVER

Miss Ethel Corbin of 65 East Avenue E was drowned Tuesday afternoon about 3:30 o'clock while in bathing in the Main Concho river at Four Mile Falls, east of the city. Unaware that the water in the big hole directly below the dam was anywhere over her head, she is thought to have attempted to touch bottom to rest. Finding the stream too deep she screamed for help and became exhausted and lost her life before aid could reach her.

Officers in town were at once notified and Sheriff Hawley Allen, Chief of Police George Cunningham, Fire Chief John Parker, Jess Key, Sam Kelly, Ira Green and others rushed to the scene in automobiles. Several in the party dived for the body, and Jess Key touched the girl the first time he went down. The body was lying on the bottom, face upward. Coming up Mr. Key summoned assistance and quickly brought the remains to the surface.—San Angelo Standard.

Austin, July 17.—The House today defeated the resolution of Representative Pope, asking for the resignation of Governor Hobby because of the alleged disclosures in the Blue Ridge farm investigation. The vote was one hundred and eight to six.

WOOD AND SIMPSON ARE ON WAY HOME

Mrs. W. B. Wood received a message Wednesday advising her that her son, Diez, who is with the 21st Field Artillery Band, sailed from Brest Monday on the U. S. S. Rotterdam. Troy Simpson is also with this organization, and a number of boys from Coleman and Brownwood. They are expected to arrive here about the first of August.

Did He Fish on Sunday?
District Clerk, C. C. Cockrell spent several days the latter part of last week and the early part of this week down on the Colorado river fishing, shooting squirrels and other recreating. He was also visiting the home of his brother-in-law, G. W. Wilson, who resides on the river.

He was out over Sunday and from all indications it might be fairly inferred that he fished on Sunday, but on being interviewed as to his trip he maintained a stolid silence as to what occupied his time on Sunday. Of course, the accused is entitled to the benefit of the doubt, but public opinion doesn't always extend that latitude to individuals. However, the facts, he is much improved and resumed his work at the court house much refreshed.

Loss of Appetite
As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the stomach ample time to digest and the stomach a period of rest before a second meal is taken. Then if you eat no more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation as is often the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it.

Prof. O. A. Fleming, who was elected city superintendent of the Ballinger schools, arrived in Ballinger Wednesday, and is getting affairs in shape for the opening of school in the fall.

Fight on Daylight Saving Renewed Value of Texas Wheat Increased

Washington, July 16.—Republican leaders of the house, supported by party leaders in the senate agreed today to attempt re-passage of the agricultural bill with its daylight saving repeal rider, despite the president's veto.

Provisions of the daylight saving law authorizing the interstate commission of commerce to fix a standard time zone, however, would not be discarded under the proposal.

In line with this decision, made by the republican legislative steering committee and after assurances had been obtained that the rules committee would authorize the daylight saving repeal being incorporated in the appropriation bill, Chairman Haughen of the house agricultural committee late today reintroduced the agricultural bill.

House leaders, although doubting that the remodeled measure, with the repeal provision, would meet objections of President Wilson, said that many democratic members would join with a majority of the republicans in passing the new measure.

Washington, July 16.—President Wilson today signed an order increasing the guaranteed price of the 1919 wheat crop to \$2.30 per bushel at Galveston and New Orleans.

At the same time a presidential proclamation was issued declaring that in order "to protect the United States against undue enhancement of its liabilities" under the law guaranteeing wheat prices that on and after July 1, no wheat or wheat flour should be imported into or exported from the United States except under prescribed limitations to be set by what administrator Julius H. Barnes.

It is expected the higher price established for wheat at Galveston and New Orleans will divert a part of the crops flow to export from Atlantic terminals and thus relieve the strain on common carriers and terminal facilities.

In addition to executive orders the president approved the licensing plan put into effect by director Barnes providing that all persons handling wheat, with the exception of growers, bakers, who consume less than fifty barrels of flour per month and common carriers, must be licensed.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadersville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. . . I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few doses of Black-Draught."

Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose. All druggists. J. 69

BIG SUIT FILED IN FEDERAL COURT

Judge A. K. Doss filed a suit in the Federal Court at San Angelo to recover \$10,000.00 War Risk Insurance for the death of Carl Hinkle. It will be remembered that Carl Hinkle died while in the army camp at San Antonio some months ago and was buried here.

It seems that Carl signed up the application for the insurance four days before his death in the camp and the director of War Risk Insurance refused payment of the policy because he classed it as "Death Bed" insurance. Mr. Linsey, Ex-Mayor of Dallas turned the claim down, while he was acting as director of war risk insurance and invited a suit in the federal court to settle the question. Carl's father is prosecuting the suit by Judge Doss as his attorney. The result of this suit will be watched with some interest, as its decision will determine quite a number of other similar claims.

**LIGHT OIL SHOWING
IN CARLSBAD WELL**

A light showing of oil at a depth of about 820 feet was found late Tuesday in the deep test well of the San Diego and Texas Oil Company on the T. J. Clegg ranch near Carlsbad, according to an announcement made by the president of the company W. L. Frevort of San Diego, Calif. The sand that was tapped is the first oil sand that has been reached in the present well, but it corresponds to showings that have been found in the other wells that have been drilled by the company in the same vicinity. The sand was reached in this well at a higher level than in the others, however, in line with predictions of the company's geologist, because of the inclination of the strata through which the drills have been sunk.—San Angelo Standard.

Summer Complaint in Children

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell of Butler, Tenn., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose."

Mr. Melton is on his way to New York to buy goods for his store, and stopped in Cuero to visit his father a few days.

OUTING PARTY

In honor of Miss Eddie Storm of San Antonio, who is visiting at the home of J. F. Currie and wife, a pleasant little outing party was enjoyed on Elm Creek near the Runnels crossing Wednesday evening.

After a swim in the cool waters of the stream, a sumptuous spread was enjoyed on the banks of the creek.

After supper some pleasant hours passed telling fortunes and looking for the "man in the moon" by the girls.

Those in the party were Mr. and Mrs. J. F. Currie, Judge and Mrs. A. K. Doss, and children, C. P. Shepherd and Misses Eddie Storm, Nell Alexander, Mamie Gregory and Ada Allen.
