#### Rural Homemakers Speed Kitchen Remodeling

Above: kitchen storage space was furnished by built-in cabinets in Mrs. J. Ross Fleetwood's kitchen in Boone county, Missouri. Shelves in supported are spaced to fit utensils.

CREATING a bright, efficient kitchen from a dingy, inconvenient one is the first postwar improvement many farm women want in their homes, according to the Rural Home editor of nationally-circulated

"Among handy devices that can do lots toward kitchen convenience is a pulled out board that makes it possible to sit comfortably to many tasks," she writes in the magarine read by 1,300,000 farm famillies. "Lap-board can silde into a slot in a built-in cabinet at a convenient height for the person who

uses it.

"A double-basin sink with swinging faucet, single drainboard and
high splash back eliminates need for
dishpass. It also gives plenty of

space for vegetable preparation, par rinsing and numerous mealtime jobs. With a drainboard it's easy to let dishes dry by themselves. If sink has no porcelain back, a linoleum splash back 10 to 12 inches high is ideal.

"Space underneath sink should have shelves for cleansing materials and room for trash containers. A door with ventilation holes will allow under-sink moisture to escape. Also needed are toe-space for standing at the sink and knee-space for sit ting down."

A hardwood counter top beside th refrigerator is useful as a cutting chopping block and as a pastry board, she adds. It's always ou and ready. Might be made of heavy hard made.

#### Collecting Picture Cards Serious Hobby of Many

Collecting picture post cards, which was indulged in halfbeart-edly 30 years ago by almost every American family, is today a serious hobby carried on by 5,000 individuals who have a national organization and support two magazines. Of their many outstanding collections, the largest is that of a Californian of Sierra Madre which contains 1,000,000 cards and is valued at \$200,000.
