BANDITS ROB MAIL CARRIER

BAXTER SPRINGS, Kans., June 17.—Four bandits held up Guy Shields, an armed mail messenger, here today, and took him a half mile West of town, where he was dumped out of the car and the bandits escaped with five sacks of mail.

Shields walked back to the city and gave the alarm. He stated that the last he saw of the bandits they were speeding West in the car they took from him and in a large touring car which the robbers were using. A posse was formed and is scouring the country.

BALLINGER BOYS GOING TO TRAINING CAMP

Jones Taylor, of this city, who filed application for attendance at the Citizens' Military Training Camp to be held in the 8th Corps Area this summer, has been notified by the Commanding General at Fort Sam Houston that his application has been received and will be given due consideration. He states that he will know by about July 1st whether or not he has been accepted for the government's one month free outdoor vacation.

These camps are for the purpose of partially training the young men of this country in military drill and outdoor life. All classes of young men will be mingled together in the camps which will bring about a closer social and national unity and promote the spirit of American citizenship. Attendance is purely voluntary and does not in any way obligate any one attending.

Quite a number of Ballinger boys have filed application for attendance, and others are working on their parents for permission to spend a month in the army camp.

EDEN TO HAVE BIG BLOWOUT ON 23RD

Circulars are being distributed in Ballinger by representatives from Eden advertising an old fashioned barbecue, to be held on June 23rd, Thursday of next week. This will be one of the first to be held this year in this part of the country. The Farm Bureau at Eden is staging this barbecue and it is expected that a big crowd will be present, representing many of the adjoining counties.

The performance will take place on the camp grounds known as the Pfluger Motte. Amusements for the occasion will be speaking, goat roping, bronc riding, horse races, and dancing. On Thursday, Friday and Saturday, there will be a baseball game staged every afternoon. Many tourists will be attracted to Eden by the splendid shade and water around Eden.

STUDENTS AT NORMAL BUSY

Complying with the request of the editor of The Ledger, that the public be given the benefit of the activities of the local normal and summer school, the normal appointed a reporter for the school Friday morning, naming Miss Mary Barth to look after the news of the normal.

The enrollment has climbed to a most satisfactory mark, and the students are rapidly settling down for a busy and successful session. The convention met in the chapel Friday morning and completed organization, and discussed general questions.

In the way of entertainment features the normal has taken up the matter of organizing a swimming club and there will soon be a demand for bathing suits, and the normal will not be allowed to become a dull affair by all work and no play. The regular sessions will be held and the program carried out to the letter, but there will be ample time between sessions for a little fun.

The attendants at the normal are looking forward to next Tuesday night, when the local entertainment committee will stage an entertainment at the Ballinger Club for the visitors. The first entertainment arranged will be given tonight at the Carnegie Library, when the Library will be thrown open for a forty-two party. Local citizens will assist in entertaining the visitors at this party.

CEMETERY CHECKS COME IN RAPIDLY

It is very gratifying to the Cemetery Association committee the way the people are responding with their donations. Many have mailed their checks in to the secretary, Mrs. G. M. Vaughn, and others have left their money with E. Shepperd. It is very thoughtful to send their money in and thus save taking the time of a solicitor.

Let's keep the good work going until the needed improvements are made.

P. I. GOVERNMENT IS BANKRUPT

WASHINGTON, June 17.—The Philippine government is facing bankruptcy, Major General Leonard Wood, and former Governor Forbes, declared in a cablegram transmitted today to Congress by Secretary Weeks, who asked that immediate action be given in a bill authorizing the island government to increase the limit of indebtedness from fifteen million to thirty million dollars.

General Wood and Gov. Forbes, who are investigating conditions in the Philippines for President Harding said that the National Bank, with which the Philippine provinces and the municipalities are required to deposit all their funds is practically insolvent.

BELTON NEGRO GIVEN 60 LASHES BY KU KLUX

BELTON, Tex., June 17.—A negro named Collins was seized by a small group of masked men here last night and spirited away in an automobile to the cedar brakes near the city where he was given fifty or sixty lashes with a whip. Later he was returned to Belton and told to walk the streets until midnight and then leave town never to return.

When the negro was dumped out of the car and told to walk the streets until midnight, he carried a placard on his back which read, "whipped by Ku Klux Klan."

The negro had just been released from jail where he had been held several days charged with insulting a white woman. The grand jury failed to indict him and he was released from jail yesterday afternoon.

AMERICANS MADE TO JOIN GREEKS

SMYRNA, June 17.—American citizens are being pressed into the Greek army by agents of the Athens government, George Horton, United States Consul General here, has protested to the governor general.

For many months Americans, many of whom served in the French army, have been forcibly taken from the homes, or from vessels arriving from the United States, and compelled to join the Greek forces.

There have been scores of such cases in Athens, Smyrna, Iatras, and Salonika. Only those able to escape are those who get in communication with the American consular officials and obtain redress.

Consul General Horton has appealed to Washington to make pre-emptory demands on the Greek government to discontinue this breach of agreement between the two countries.

KEEPING FAITH WITH AMERICA

LONDON, June 17.—Austin Chamberlain, government leader in the House of Commons, today declared before the house in regard to the renewal of the Anglo-Japanese treaty, that "although I do not wish to in any way prejudge the action of the imperial conference, it is right for me to say at once that we will not be a party to any alliance directed against America, or under which we can be called upon to act against America."

Ed Schuehard left Thursday for East Texas, where he goes on his vacation.

GETS HIGHWAY AID AT COLEMAN

Coleman business men will cooperate to the fullest extent with Ballinger in financing the marking of the Central Texas Highway from Shreveport to El Paso thru those two cities. This was the answer given to Secretary Williams of the Y. M. B. L. who met yesterday with a group of Coleman citizens.

The Coleman business interests are alive to the trade possibilities involved in mapping, marking and advertising the proposed route, and will also cooperate with other towns on the road in organizing and maintaining a Central Texas Highway Association to keep the road well advertised among the travelling public, and to promote better roads and better travelling conditions.

The future promises to develop sharp competition between this road and the Bankhead Highway, and it is pointed out that unless everything possible is done to perfect and improve the highway and to provide every possible convenience for tourists that the Bankhead will eventually get all the travel.

San Angelo guaranteed the Auto Club of Texas \$1000, and Dublin has \$500 ready for the organization to be used in marking the route. Ballinger, Coleman, Valera, Talpa and Rowena have agreed to raise \$500 among themselves, and from present indications ample money will be had for the work which the Auto Club proposes to do.

MEXICO OIL MEN ENTER PROTEST

WASHINGTON, June 17.—A protest against the payment of the recently imposed twenty-five per cent increase tax on petroleum from Mexico, will be made to Secretary Hughes next week. Representatives from the Association of Producers of Petroleum of Mexico, are coming here to take the matter up with the state department. It was announced today that a conference had been arranged and will be attended by important Mexican officials and members of the petroleum association.

GIRL WITNESS

STABLES COURT CLEVELAND, June 17.—Testifying for the state today in the perjury trial of former Judge William McGannon, Miss Mary Neely startled the court spectators when she said, "I saw Judge McGannon shoot Harold Kagy." The state is seeking to prove that McGannon swore falsely when he said that he was not present when Kagy was killed last year.

ARRESTED NEGROES FOR TULSA RIOT

TULSA, Okla., June 17.—The arrests of negroes charged in sixty indictments for inciting race rioting began today. The negroes are charged with being responsible for the race riot which cost many lives and fires which destroyed millions of dollars worth of property.

DENVER, June 17.—A demand that Congress act to protect the nation's interest against the "steering menace" of Japanese immigration and "Jap-ization," was made in a resolution submitted today by the annual convention of the American Federation of Labor.

The labor leaders in the convention here declared that the resolution was the most drastic measure on the Japanese question ever considered by organized labor. It calls for the absolute exclusion in the future of all Japanese immigration, not only male, but female, and skilled and unskilled Japanese laborers, farmers and men of small trades and professions, as recommended by Theodore Roosevelt.

The measure as outlined in the resolution would grant permission for Japanese to come to this country to make their residence for temporary purposes, such as students, tourists, artists, commercial men and teachers. The resolution if adopted into a law would not permit any Japanese to come here to make his or her permanent home, or follow trades, and professions in competition with Americans, and under no circumstances would Japanese farmers be allowed to become citizens of the United States even for a limited time.

ROAD DRAGS RUNNING SLOW—ROADS ROUGH

There is considerable complaint among travelers because the road drags were not put to work at the proper time following the recent rains, and the road beds have been left rough. Dirt roads are good roads in this country, and can be maintained at little expense, if the commissioners will arrange to have drags on the roads at the proper time following rains. Road drags can be operated at little expense and no road money can be more wisely invested.

THE DUTY OF THE LIVING

Those good women, and others, who have worked so faithfully for many years in keeping up the cemetery and from time to time making improvements which have added to the beauty of the city of the dead, deserve much credit for their work, a work which they have done so well, but all will endorse and support the organization just perfected by chartering the association and placing it on a permanent business basis.

The Ballinger Cemetery Association has been incorporated, and its affairs will be in the hands of a board of directors elected from time to time. The title to the property has been transferred to the new association, and a program of improvement has been outlined.

The new board has launched a campaign for raising money to carry on needed improvements. Support for this work will of course be expected from those who own lots in the local cemetery, or who have loved ones resting there, but the support should not be confined to these.

The resting place of our loved ones is sacred to many, and to neglect it would be nothing short of sacrilege. The new board desires to make the burying ground a credit to the citizenry, and to do that it will require cash. Water mains must be extended and the water supply increased for the benefit of those who wish to grow trees and flowers over the graves of those who have passed over the river. The deep sand driveways must be clayed in order that funeral processions can move. With each one doing their duty this work will move on without delay.

It is a most worthy cause, and one we believe will receive the most liberal support of the living.

J. L. Fuller

Johnnie was born in Paint Rock in 1892. (Note: He was really born in Paint Rock—that's not a joke). He broke into amateur baseball with the Brady club in 1907. Some say he started the same year as Pop Anson, but there is no truth to the report. He played at A. & M. in 1911, and at Howard Payne in 1914. His first professional engagement was with Temple in the Middle Texas League the same year. During 1914, he went up to the Austin club of the Texas League. At the opening of the 1915 season, he went to Shreveport, and was later transferred to Brenham of the Central Texas circuit. In 1916, he played with Mexia of the

Central Texas League. 1920 found him with the Gorman club of the Oil Belt League, who later sold him to Cisco, where he finished the season. Johnny refused to report to Cisco this year, and Manager Kelly agreed to give him to Ballinger after this city broke into the circuit. He is a cat at getting on first base—the pitchers just can't keep him off.

HOME RUN STOPS SHUT OUT GAME

Cantrell's long drive over right field wall in the eighth inning in the first game with the Abilene Eagles yesterday saved the locals from the humiliation of what up to that time looked like a shut out. Another homer by Liles in the ninth, bringing in Lanford who had just preceded him with a safety to first and a later run by York, netted the locals four runs while the visitors booked up seven scores in the first five chances and a home run in the eighth by Milam.

Blevins started the mound work for the Bearcats. He walked Comstock, the first man up, was hit by White, second man up, Hartrick was thrown out at second, Kizziar walked, Griesenbeck went to first on Fuller's error, Comstock and White scoring. Milam fanned and Kizziar was thrown out at second. Blevins was pulled out when he walked the first man up in the second, and Cantrell held the mound for the remainder of the game, allowing eight hits.

Ferguson was touched for a hit by Fuller, first man up for the locals, but the Bearcats were held hitless thereafter until the fifth inning and had eight hits to their credit and eight errors charged against them at the close of the game.

The locals appeared on the lot with the strongest lineup this season, but errors at critical times, gave the visitors a winning lead. The twirler for the Eagles received almost perfect support, having an errorless board up to the ninth inning when Kizziar dropped a fly at first and White fumbled at short.

BRISCOE MADE BEARCAT MGR.

Vernon Brown requested the Ballinger Baseball Club to relieve him as manager of the local team when the club reached home this week, and the resignation was accepted and "Briek" Briscoe immediately elected to succeed Brown. Briscoe is the fastest shortstop in the league, is popular with the club owners. He will take charge immediately and direct the diamond work in the future, as well as filling the place of business manager, succeeding Leroy Nicholson, who is a director and one of the principal stockholders of the local club.

The locals are gradually working out a team to go in to the second lap of the season with, and several changes will probably be made before the close of the first half on June 30th.

Every fan is interested in seeing Ballinger enter the race for the first place in the second half of the season with the strongest team it is possible to get together, and the directors and management of the club are working to that end.

While the locals are still at the bottom, they have made a good gain since this city took over the Mineral Wells franchise, and have been playing under the greatest difficulties and most adverse circumstances, incident to crippled men, and other unfortunate circumstances.

BRONCS SITTING IN FIRST PLACE

SAN ANGELO, June 17.—The Bronchos, opening a decisive five game series to be played within three days with Sweetwater, drubbed the Swatters 9 to 5 Thursday afternoon and thereby gained the leadership in the West Texas League. The two clubs had been tied.

Zaplaek, a rookie pitcher, walked Truesdale, then hit Scoggins in the first inning and was jerked in favor of Lefty Rieburg, who was pounded for nine hits that netted as many runs. He was relieved in the sixth inning by Manager Popboy Smith, who held the Nags scoreless from there out. Herbert Hill kept five blows well scattered and received errorless support, despite the substitution in the second frame of Higginbotham for Scoggins, shortstop, who was spiked in the hand by Neelp, sliding back to second. "Stitz" may not be able to play during the remainder of the series.

Fresh from four straight victories at Ranger, the San Angelo club was met at the train by the band, which furnished music thru out the contest. Nine hundred fans howled their delight as Hill took the sweat out of the Swatters. The umpiring of Price was excellent and drew no protests, which is complimentary to Sweetwater as well as to the arbiter.

The clubs play double headers both today and Saturday. The first game this afternoon will be the playoff from the sixth inning of the 5-2 Angelo victory which Sweetwater protested here May 10. Play will start with a Sweetwater runner on second and two out.

Thursday's score by innings:
Sweetwater 030 001 100—5 5 2
Angelo 202 212 00x—9 12 0
Batteries: Sweetwater, Zaplaek, Rieburg, Smith and Whitney. San Angelo, Hill and Kelly. Umpire, Price. Time, 1 hour 55 minutes.

HOT LINERS

The Majors suffered yesterday from their usual batting slump. Eight games netted only 200 hits!

Speaking of horseshoes, this Abilene club is covered with them. Witness Milam's lucky poke when White should have been out trying to steal home.

And Hartrick getting hit on the leg when King's long throw to cut him off at the plate, which also allowed Kizziar to score.

And the way every ball hit by a Bearcat travelled like a bullet to some fielder's hand.

Except, perhaps, Brick's long fly to center. Hartrick deserves credit for that catch.

Liles is now Grand Exalted Master of the Babe Ruth Club. The little fellow weighs 193 when he gets his full weight behind a blow.

It looks mighty good to see John King in our outfield. He is a fast traveller, has a fine peg to

the plate, and hits 'at ole apple on the nose. Keep your eye on Jim—he's no Bearcat—he's a Wild Cat!

Cantrell kept poking away at that right field fence, until he finally got one over.

"Peek" Williams has been unconditionally released by the management.

Jack Dempsey is going to wear a forget-me-not under his belt when he meets Carpentier in the squared circle. And Georges will likely place one on his chin.—Exchange.

PRODIGAL SON IS SERMON SUBJECT

Evangelist Kircheville spoke to a very appreciative audience last evening on the subject of "The Prodigal Son."

Considering the unfavorable weather calculated to greatly effect the attendance the meeting bids fair to be a genuine revival. The people are coming and are keenly responsive to the earnest appeals of the preacher to stand for God and His righteousness.

The evangelist discoursed as follows on the above subject: "The young man left his father's house and went into a far country." Reflecting on this thought attention was called as to how far the evil forces of today are leading us from God.

The Prodigal "wasted his living," and as the natural result in the case of this young man, so it will be in the case of every mortal that is wasting their lives today. They will come to distress and sore want.

"He fed on the husks that the swine did eat." Think of the thousands of today who are feeding on the husks that are seemingly not aware that these things are for hogs. And the sad fact about the whole matter is: That people can so debauch their lives and fail to cultivate their taste and ideals until they are perfectly contented to stay in the hog-pen and to wallow in the mire of sin and shame.

"He came to himself." Thinking of the good things provided in his father's house compared to the filth of the life with hogs this young man came to himself. How careful our parents ought to be today. In the face of the great crime wave that is sweeping over our country to implant in the hearts of our boys and girls, "the true ideals of life." That when the evil forces assail them, they, though at times thrown off their guard, may be able to know from whence they have fallen and come to themselves.

"He arose and went to his father." In making this noble resolution and carrying it out he never even debated with the citizens of that far country whom he served. Young ladies and young gentlemen of today need to follow this example. Satan who would draw you far away from God and your best interests has no just claim on you. So I appeal to you to cut loose from serving him. Do not even allow him to debate the question with you.

"Let us arise and go to our Father." I appeal to the forces of righteousness to come and help in this meeting.

W. A. KIRCHEVILLE.

The Home of the Soul

In olden times, it was believed that the seat of the soul was the stomach, most likely for the reason that a man is never so completely used up as when his stomach is out of order. For the cure of ordinary stomach troubles, there is nothing quite so prompt and satisfactory as Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. Give them a trial. They cost only a quarter.
