

BALLINGER DAILY LEDGER

VOLUME XVII. NUMBER 189

BALLINGER, TEXAS, TUESDAY, OCTOBER 24, 1922.

MEMBER ASSOCIATED PRESS

SAYS POLITICS ONLY QUESTION IN CASE

YOUNG MAN SHOT; REFUSES TO TALK

A young man about eighteen years old was brought to Ballinger on the midnight Santa Fe passenger train Monday night and placed in the Halley & Love sanitarium, where a gun shot wound in his right thigh was dressed and where he received medical attention.

Dr. A. S. Love received a message from Talpa a short time before the train arrived at Ballinger, asking him to meet the train with an ambulance. The call came from a member of the train crew, probably the conductor. Dr. Love called the King-Holt ambulance and the train crew turned the young man over to the doctor and the ambulance driver.

Details of the shooting, or who did it, are not available, as the young man refuses to talk. As he was placed in the ambulance a man was heard to ask him to give the address of his mother, which the young man declined to do. Later he gave his name to the doctor at Winerick, and stated that his father was dead and that his mother lived at San Angelo. Further than this he would not talk, and declined to say how, why, or by whom he was shot. Members of the train crew gave out no statement here further than to say that the young man was shot at Valera, and when the train reached Talpa the sanitarium here was notified. Up to that time it is said that the young man had refused to say who he was, or where his people lived.

An unconfirmed report circulated here Tuesday morning, indicated that the young man was beating his way on the train, and some member of the train crew, or

officer of the road, thinking that he was attempting to hold up the train, shot him. Local Santa Fe attaches knew nothing of the affair, and no further report had been heard from the crew in charge of the train which brought the young man to Ballinger.

The young man was resting well Tuesday afternoon, and the physician stated that he was only suffering from a flesh wound, and unless complications should develop he will be out in a short time. It is expected that an official report will be made in the case by those who brought the young man to Ballinger.

FIGHTING FOR BOOZE ON SHIPS

(By Associated Press)
NEW YORK, Oct. 24.—Counsel for the foreign and American steamship companies, whose suit to enjoin carrying into effect the Daugherty liquor ruling, which was denied by Federal Judge Hand, will probably appeal to the United States Supreme Court for a supercedas stay which will hold up enforcement until the supreme court acts on the appeal from Judge Hand's decision. This was announced today by counsel for the White Star Line and five other foreign lines.

BRITISH LABOR PARTY HOLDING MEETING

(By Associated Press)
LONDON, Oct. 24.—A dozen of the most prominent labor men in the British Isles met here today to decide upon a policy of the Labor Party at the coming elections. The proceedings of the meetings are being kept secret, but it was decided, however, that the Labor Party would not affiliate with any other party.

TOO MANY FORDS

A heading on an article in The Ledger yesterday said: "Turns Out 5,000 Fords Per Hour." That's entirely too many Fords, and the heading should have said "5,000 Fords Per Day," and that is going fast enough to give every man, woman and child in Ballinger and Winters a Ford in one day, and in four days Ford could supply every person, including little, big, young and old, in Rannels county, with a fivver.

A small want ad in The Daily Ledger often saves you money.

Rev. Jess. Mitchell and M. C. Atkins were appointed to assist the band boys in raising their budget of \$125.00 per month.

D. F. Eaton reported that the exhibit program had been very successful, thousands of people viewing the Rannels county exhibits of agricultural, mineral and manufactured products at the Abilene and San Angelo fairs. Prizes aggregating \$210.00 have been won with the exhibits. Mr. Eaton recommended that exhibits be taken next year to Ft. Worth, Dallas and Waco, as well as the West Texas fairs.

The Secretary reported that the Southwest Business Conference at Dallas had been a very instructive one and recommended that Ballinger business men attend the 1923 session. The Nazarene Assembly which had just come to a close was reported as a successful session with all of the delegates pleased at their treatment while here.

Secretary Williams read a letter from John A. Norris, chairman of the State Board of Water

ARMISTICE DAY FOURTH OF S. A. QUOTA RAISED

The first meeting of the Y. M. B. L. board in its new quarters was marked by the presence of twenty of the directors and a spirited meeting filled with interesting reports and talks on several important projects.

According to the decision of the board, Armistice Day will also be Ford-Dodge Day in Ballinger, and an appropriate program will be arranged, featured by a parade of Fords and Dodges in which merchandise prizes will be given for the cars coming from the greatest distance, bringing the biggest party, the muddiest car, best equipped car, best decorated car, cars carrying the tallest man, fattest woman, girl with the reddest hair, etc., ad lib. This event has proved very popular in Eastern cities and is expected to draw huge crowds to the city on November 11th.

The committee in charge of the celebration will consist of R. L. Harwell, R. T. Williams, R. E. George, M. McGregor, Jno. A. Weeks, J. M. Pyburn, Harry Gardner and M. C. Atkins.

Louis Cohen presented some interesting figures on the possibility of installing a "white way" along principal residence streets. Mr. Cohen's plan is for the property owners to furnish the standards and cable which the city will install and furnish with current free of charge. On this basis, Mr. Cohen states that our residence streets can be lighted for \$196.00 a block. The board voted unanimously to endorse the project, and suggested the following committee of Eighth Street residents to start the ball rolling on that street: L. Cohen, John A. Weeks, Roy Reeder and Claud Stone.

Rev. Jess. Mitchell and M. C. Atkins were appointed to assist the band boys in raising their budget of \$125.00 per month.

D. F. Eaton reported that the exhibit program had been very successful, thousands of people viewing the Rannels county exhibits of agricultural, mineral and manufactured products at the Abilene and San Angelo fairs. Prizes aggregating \$210.00 have been won with the exhibits. Mr. Eaton recommended that exhibits be taken next year to Ft. Worth, Dallas and Waco, as well as the West Texas fairs.

23 CENT COTTON IS COMMON

Cotton continues to climb and 23 cent cotton is common cotton on the Ballinger market. The market registered a gain of about two dollars per bale Tuesday, after suffering a slight decline for the previous day.

The weather for the past ten days has been unfavorable for gathering the fleecy staple, and what promised to be a small job a few weeks ago is being delayed, and gins are not rushed as would have been the case with favorable weather for picking.

Many pickers are returning East, or going to the country. Northernst of Ballinger, where there is a demand for pickers. Twenty-odd negroes shipped out in one bunch for Slaton, and smaller squads have gone to that country within the last few days.

The next ginner's report in Rannels county will show about 35,000 bales ginned.

GREENVILLE—Judge H. L. Car, inter of Greenville is circulating a petition to be presented to the City Council to call an election to issue bonds not exceeding \$25,000 to purchase the Hunt County Fair grounds for a city park, and for use each year for holding the fair.

AMERICANS GAIN OIL INTERESTS

(By Associated Press)
LONDON, Oct. 24.—Agreements for American oil interests to be represented jointly with French and British companies in Mesopotamia are being completed. Oil concessions formerly owned by German and British concerns, and the German interests which were later transferred to the French, will be handled jointly by the commission. The Americans obtained an interest through sealing down the Franco-British shares.

ROADS RETURN TO NORMALCY

(By Associated Press)
ST. LOUIS, Oct. 24.—Passenger trains on the Cotton Belt railroad system which were cancelled during the shopmen's strike and on account of the coal shortage, will be restored tomorrow, the general officers of the road announced here today. The trains to be restored include trains between Fine Bluff, Ark. and Texas points and connecting trains between Memphis, Tenn. and Texas points. The old schedules will be resumed.

(By Associated Press)
CORNICANA, O.—The only real question at the junction case on trial seeks to keep the name of B. Mayfield off the ballot, whether the democrats shall send their representative to the United States senate from Texas or whether the republicans shall send their man to the senate. W. P. McLean, Jr., counsel for Mayfield, said today in opening argument for the defense.

Mr. McLean declared that the Texas senatorial race was being watched in Washington, and said that the republicans there were saying to the Texas members of the republican party, "now is your chance."

The suit is expected to close today, or will be in the hands of the jury this afternoon. When court resumed this morning attorneys for the plaintiff had two hours for argument, and this was to be followed by three hours' argument by the defense.

Mr. McLean spoke for two hours and forty-five minutes. Luther Nickels, chief attorney for the plaintiffs, will present his argument this afternoon. He has been allotted two hours' time, and the case will then go to the jury.

WOMEN VOTERS IN CONVENTION

(By Associated Press)
HOUSTON, Oct. 24.—Women from all sections of Texas are here for the third annual convention of the Texas League of Women Voters, which opened today. Mrs. Jessie Daniel Ames, of Georgetown, is presiding.

Child labor laws, condition of women in the various lines of industry, prison reform, consideration of the Sheppard-Towner maternity bill, are some of the subjects scheduled for discussion.

MAN WALKS IN SLEEP; IS DEAD

(By Associated Press)
DALLAS, Oct. 24.—Thomas B. Houser, age 32, of Royce City, was found in a hospital here this morning from injuries sustained when he fell from the balcony of a coming house last night. It is thought that Houser was walking in his sleep and walked out on the balcony. No one saw him fall, and he was picked up later.

A small want ad in The Daily Ledger often saves you money.

NEW CHAPTER IN INNES CASE

(By Associated Press)
ATLANTA, Ga., Oct. 24.—Victor Innes, suspected of complicity in the unsolved disappearance from San Antonio, of Miss Beatrice Nelms and Mrs. Eloise Nelms Dennis, was today released from prison after serving seven years. Innes was immediately rearrested by federal authorities on the charge of using the mails to defraud the public.

Innes has been serving a term on charge of larceny in connection with the trust fund of the Nelms sisters. The Nelms sisters disappeared about eight years ago. The trial was attempted in Texas, but the inability to produce corpus delicti caused the case to be ruled out of court. Innes was formerly a lawyer in Portland, Oregon.

 The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it and otherwise credited in this paper and also to local news published herein.

As a rule the man who respects the moral laws of a country respects all laws, and he does not let fear of punishment be his guide in choosing between right and wrong.

The world is getting better. The National Restaurant Association in session at Washington a few days ago, passed a resolution saying: "All food, including hash, will be inspected and examined before it is served."

The bolters and republicans may be able to keep Mayfield's name off the ticket, but there is no law under the sun which can keep about a half million men and women from going to the polls and writing it there November seventh.

Comment upon its actions by a number of papers throughout West Texas indicates that the West Texas Chamber of Commerce erred in awarding the contract for printing its monthly magazine to a printing company down in the Southeastern part of the state. The paper is to be printed at Sugarland. In this deal the West Texas Chamber of Commerce is setting a poor example for West Texas.

HOW'S THIS?

HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh or Discharge caused by Catarrh.
 HALL'S CATARRH MEDICINE consists of an ointment which quickly relieves the catarrhal inflammation, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces, thus assisting to restore normal conditions.
 Sold by druggists for over 40 years.
 F. J. Cheney & Co., Toledo, O.

MAKING A NEWSPAPER ONE HUNDRED PER CENT

The proposition put over between the business men of Ballinger, or a certain number of business men, and The Ledger, to send The Banner-Ledger to every home in Rannels county, is the subject of much comment by other newspapers, and the Brady Standard, one of the best semi-weekly publications in Texas, says:

"Just what a community can do towards making of a 100 per cent newspaper and at the same time derive 100 per cent benefit for itself, is very patently set forth in last week's issue of the Ballinger Banner-Ledger. By arrangements with the Young Men's Business League of that city, the Ballinger

paper will be sent into the homes of every citizen of Rannels county for the next three months. That is a wonderful advertising stunt for the home town merchants. It is a wonderful opportunity for the people to get acquainted with the merits of their home newspaper. Many people never realize just what an indispensable medium the newspaper is until they have read it awhile and then have to do without it. In these enlightened days and times, the citizen who does not read both state and local news, is placed hopelessly a straggler among his home community and home people. Ever since the art of printing was invented, the dissemination of news and information has continued one of the greatest educational forces of civilization. And, in this great work, the home-town newspaper plays a most important part, however, humble that part may be.

"Here is the plan of the Ballinger live-wires—it is well worthy of study and emulation:

"The placing of The Banner-Ledger, our weekly paper, in the home of every family in Rannels county makes the paper a one hundred per cent newspaper, and offers an advertising medium no other county in the state can boast of.

"By an agreement between the publishers and the Young Men's Business League arrangements have been made to send the paper to every family in the county. To do this the business men of the city through the business league, will pay for 1,000 extra copies of The Banner-Ledger for a period of three months, from October 5th to January 5th.

"The publishers have contracted to complete their mailing list by adding the 1,000 subscribers, and mailing the paper to them each week. While the publishers have granted a very low rate the proposition is one that will be of mutual benefit.

"The publishers with the one hundred per cent subscription list, can offer the advertisers a much larger advertising medium and at the same advertising rate, and the advertisers can reach a greater number of customers without additional cost, and in the end the publishers will profit by retaining many of those who received the paper for three months as regular subscribers.

"The paper will go to the one thousand additional subscribers free of cost to them, and will serve to bring them in close touch with the Ballinger markets.

"The weekly Banner-Ledger is declared to be one of the best weekly papers published in Texas and the substantial citizens of the county realizing the value of the paper thru the three months' complimentary subscription, will readily renew and become regular readers."

A Good Physic

When you want a physic that is mild and gentle in effect, easy to take and certain to act, take Chamberlain's Tablets. They are excellent.

QUEER FEELINGS AT MIDDLE AGE

Women Should Know How Lydia E. Pinkham's Vegetable Compound Helps at This Trying Period

Sheboygan, Wisconsin.—"I was run down, tired and nervous. I could not even do my own housework, could not sleep at night and all kinds of queer thoughts would come to me. Finally I gave up going to the doctor and a friend told me of Lydia E. Pinkham's Vegetable Compound. After the first bottle I could sleep better and I have kept on improving ever since. I have taken seven bottles now and am so happy that I am all over these bad feelings."—Mrs. B. LANSKA, 1639 N. 3rd St., Sheboygan, Wisconsin.

For the woman entering middle age Lydia E. Pinkham's Vegetable Compound can be of much benefit. During this time of life certain changes take place which sometimes develop into serious trouble.

Melancholia, nervousness, irritability, headache and dizziness are some of the symptoms. Lydia E. Pinkham's Vegetable Compound is a natural restorative, especially adapted to assist nature in carrying you safely past this time. Why not give it a fair trial?

Mr. and Mrs. LeRoy Nicholson are entertaining a fine girl baby at their home on Broadway. The young lady arrived Monday evening.

McKINNEY—A large arch containing the letters "Welcome to McKinney," will be placed on South Tennessee Street, to be of concrete and steel, costing approximately \$1,200.

"HORSE-POWER" UNIT WRONG

Mistake That Can Be Definitely Traced to James Watt Was Never Officially Corrected.

"H. P.," as you know, stands for "horse power," and if, therefore, your motorcycle is a four and one-half h. p. one, you know that what is meant is that the engine has a power which is equivalent to that of four and a half horses.

Not so! You would be incorrect to the extent of no less than 40,000 pounds, remarks a London Answers writer.

The h. p. unit of power is a fraud, and the late James Watt of engine fame is responsible. He was a very careful engineer, in theory and practice, and he discovered, by many experiments, that the raising of 22,000 pounds one foot per minute was a good average horse-power.

But "horse-power" today is reckoned at 33,000 lbs. per foot per minute—11,000 pounds in excess! That is due to the fact that Watt, in his anxiety to encourage business, offered to sell engines which would develop 33,000 pounds per foot as a horse-power—a third more than the actual.

It would seem that he meant ultimately to be honest, but he died before that happened, and so bequeathed to the world, which has accepted it, a false unit measurement of horse-power.

Engineers, of course, know of the error, and make due allowance for it; but the average individual does not. Your 10 h. p. car is, therefore, in fact, but a 6-2-3 one, and its power is equal to raising 22,000 pounds a foot in a minute, and not 33,000.

How Better Than Pills?

The question has been asked—In what way are Chamberlain's Tablets superior to the ordinary cathartic and liver pills? Our answer is, they are easier and more pleasant to take and their effect is so gentle that one hardly realizes that it is produced by a medicine. Then, they not only move the bowels but improve the appetite and strengthen the digestion.

Chas. Ferguson left Tuesday morning for Fisher county, where he will be for a couple of weeks on business. Mr. Ferguson says that he will be at home in time to cast his ballot for Earl Mayfield for United States senator.

E. C. and C. J. Holt, of Altus, Oklahoma, are here visiting their brother, W. A. Holt, and sister, Mrs. E. E. King.

CALLS MEETING TO PLAN FOR ARMISTICE

The committee in charge of the big Ford-Dodge parade in Ballinger as a part of the Armistice Day celebration is mailing out cards to a large number of business men urging them to meet in the offices of the Y. M. B. L. Thursday night at 7:30. The Ford-Dodge Day in Eastern cities has proven a big

drawing card, and the committee is determined to make this event a huge success in Ballinger. All the details of the parade are to be closed at the Thursday night meeting and arrangements made that will bring a huge crowd to this city on that day to assist in the Armistice celebration.

Eagles Change Color.
The young eagle is clothed in three
kinds of garments before it reaches
maturity. During the first year it is
black, the second year slate-colored,
the third year brown and white. It
might be said that the bald-headed
eagle is not bald. It is so called from
the white ruff of feathers about its
head. The three different appearances
of the young eagle one time provoked
a strange misunderstanding among
bird observers. It was thought that
they were three different species—the
black, the George Washington and the
bald. The eagle is one of the Fal-
conidae, which includes hawks and all
similar birds of prey.

Great Authors Write Badly.
All great authors write badly. That
is well known. At least the pedants
say so. Great writers are impetuous.
The vigor of their vocabulary, the in-
tensity of their style, the daring of
their phrases disconcert the pedants.
To the pundits good writing apparently
means writing according to rules. But
born writers make their own rules, or
rather make none. They change their
manner at every moment as inspiration
dictates; sometimes they are harmoni-
ous, sometimes rugged, sometimes in-
dulgent and sometimes piqued. So,
according to the common notion, they
cannot write well.—Anatole France.

One of Noah's Pets.
It was swatupy around Denver 2,
000,000 years ago, according to Prof.
J. D. Higgins, director of the Colo-
rado Museum of Natural History. The
traveler who wants to hobnob with
the monsters of long ago can do so in
the city park collection. In Denver,
where the skeleton of an animal close-
ly related to the present-day rhinoc-
eros is on exhibition, one-half of it
covered with an imitation hide.

Natural Qualification.
"Oliver Twist was always asking
for more," remarked Senator Nor-
gum.
"Yet he became a worthy citizen,"
observed the admirer of Dickens.
"Yes. Probably he grew up even-
tually to be a tax collector."

**JONES A WHIRLWIND
IN NEW FOX PICTURE**

Charles Jones carried the patrons
of the Maeroy Theatre with
him with a rush yesterday, when
he appeared for the first time
here in the Wm. Fox feature,
"Pardon My Nerve!"
Jones' popularity is increasing
with every new picture he makes.
He is a fine, clean-cut type. When
he fights he fights, and when he
makes love he does it in that pec-
uliar Western way of his that is
captivating because it is utterly
manly. (There is no sentimental
mush about him. He wins 'em
with the deeds he does.)
In this picture he captivates
two; but, being a law-abiding citi-
zen, he marries only one.
The story of "Pardon My
Nerve!" is admirably put to-
gether and holds the interest
tense from beginning to end. And
with all his daring, his nerve, his
stunts, Jones stops every now and
then to frolic and gives his audi-
ence a laugh.

**WASH KIDNEYS
IF THEY HURT**

Take Salts to flush Kidneys if
Back pains you or Bladder
bothers.

Flush your kidneys with salts
occasionally, says a noted author-
ity, who tells us that too much
meat and rich food may form
uric acid, which almost paral-
yzes the kidneys in their efforts
to expel it from the blood. They
become sluggish and weaken;
then you suffer with dull misery
in the kidney region, sharp pains
in the back or sick headache,
dizziness, your stomach sours,
tongue is coated, and when the
weather is bad you have rheu-
matic twinges. The urine gets
cloudy, full of sediment, the
channels often get sore and irri-
tated, obliging you to seek relief
two or three times during the
night.

To help neutralize these irri-
tating acids, to cleanse the kid-
neys and flush off the body's
urinous waste, get four ounces of
Jad Salts from any pharmacy
here; take a tablespoonful in a
glass of water before breakfast
for a few days, and your kidneys
may then act fine. This famous
Salts is made from the acid of
grapes and lemon juice, combined
with lithia, and has been used for
generations to flush and stimu-
late sluggish kidneys; also to
neutralize the acids in urine so it
no longer irritates, thus often
ending bladder weakness.

Jad Salts is inexpensive, can-
not injure and makes a delict-
ful effervescent lithia water
drink.
E. L. Baker, special deputy
Grand Chancellor, of the K. of P.
Lodge, is here from Houston, in
the interest of the order. He is

arranging for a special meeting of
the lodge Thursday night at
which time about one dozen new
members will be initiated.

SPECIAL

The Economy BAKING POWDER

Is the quality leavener—for real economy in the kitchen, always use Calumet, one trial will convince you.

Its sales are 2½ times as much as that of any other brand.

THE WORLD'S GREATEST BAKING POWDER

K. OF P. DEGREE TEAM COMING

Next Thursday night promises to be a red letter night in the history of the K. of P. Lodge, of Ballinger. The degree team from Brownwood will be here, and under the direction of E. L. Baker, special deputy Grand Chancellor, of Houston, will initiate about a dozen new members, and also receive a number of transfers and reinstatements.

Mr. Baker has been here for several days and a number of the Knights of Pythias met Monday night and arranged for the special meeting Thursday night, and the Brownwood team has agreed to come over and put on the first and second degree work for the local lodge in initiating the new members.

The meeting will convene promptly at 7:30, and the work will require about two hours and a half, the lodge adjourning at eleven o'clock. All the local members are urged to be present promptly on time and help to give the visiting team from Brownwood a welcome as well as taking part in the initiatory ceremonies which will carry the new candidates through the ranks of Page and Esquire.

The Knights of Pythias order is one of the best and oldest secret orders in existence, carrying an old line insurance feature in the Endowment Rank, and it is filling a place of usefulness in the fraternal world, maintaining an orphans' home and administering to the needs of the unfortunate members.

A Remarkable Record

Chamberlain's Cough Remedy has a remarkable record. It has been in use for colds, croup and whooping cough for almost half a century and has constantly grown in favor and popularity as its good qualities became better known. It is the standard and main reliance for these diseases in thousands of homes. The facts that it can always be depended upon and is safe and pleasant to take are greatly in its favor when it is wanted for children.

GALVESTON—Galveston ranked fifth among United States ports in the volume of coffee received from the port of Santos, Brazil, during the fiscal year, according to figures contained in the official commercial bulletin of Santos. Exports from Santos to Galveston are given as 194,325 bags.

Mrs. L. F. Gressett and daughter, Mrs. P. C. Straley, and little Miss Francis Straley left Tuesday for Temple, where they will visit a few days.

DIVING HORSE TO BE COTTON PALACE FEATURE

Waco, Texas.—The great Carver show, featuring the world's greatest diving horse, ridden bareback by the Girl in Red, in a forty foot plunge into a tank of water, will be one of the free attractions at the Texas Cotton Palace this year, which opens on October 21 and closes November 5.

"Katawah," the diving horse, is declared to be the most perfectly trained animal in the world, while the Girl in Red, who is none other than Miss Jack Carver, enjoys the distinction of being absolutely fearless, in addition to the reputation she enjoys as among the best lady swimmers in the world.

The Carver attraction has held an enviable position in the amusement world for a number of years. Dr. Carver is the originator of high diving horses, also the girl rider in the great leap. He is a living example of the humane method of training horses with sugar and kindness, having only to speak to his great diving horse, "Katawah," and the wonderful animal performs his every bidding. And for this faithfulness "Katawah" expects only a lump of sugar.

FIRE BURNS LEGION HALL AT SAN ANGELO

SAN ANGELO, Oct. 24.—Fire early Sunday morning destroyed the Coleman estate building on South Chadbourne Street, and left the local American Legion without a home, and destroyed the stock of the Central Grocery.

The fire was discovered about 4:30, and six men had narrow escapes. Vennie Haley, age 18, is in

the sanitarium suffering with burned hands and a gash in his head which he sustained when he leaped from the burning building. Five members of the cavalry recruiting party which came to San Angelo during the fair, had narrow escapes.

The origin of the fire is unknown. The Legion sustained a loss of about \$3,000, with only \$1,000 insurance. The loss on the building is estimated at about \$2,000 with \$400 insurance, while the grocery store lost about \$2000 with \$500 insurance.

To Gain a Good Reputation

The way to gain a good reputation is to endeavor to be what you appear. That is precisely the manner in which Chamberlain's Cough Remedy has gained its reputation as a cure for coughs, colds, croup, and whooping cough. Every bottle that has ever been put out by the manufacturers has been fully up to the high standard of excellence claimed for it. People have found that it can be depended upon for the relief and cure of these ailments and that it is pleasant and safe to take.

Poem Had Origin in Actual Life.

The famous poem about the boy who stood on the burning deck had its origin in an actual happening which constitutes a page in history.

It was during Napoleon's expedition to Egypt that England sent Lord Nelson to capture him and annihilate his fleet. At the battle of Abukir the French navy was crushed and Napoleon was forced to flee, all but four of his ships being sunk, burned or captured.

The French admiral had been killed. And on the deck of the flagship stood her captain, Louis Casabianca, who then had command of the fleet. He was wounded and the ship was burning, but he refused to leave his post. And in spite of commands and entreaties, his son, a boy of ten, stayed with him and died with him when the ship went down, supplying the theme for that famous epic of child heroism, "The boy stood on the burning deck."

Compass Plant Western Product.

On the prairies and plains of Utah, Texas and southern Minnesota there grows a wonderful plant which has proved useful to travelers wandering over these vast tracts of country. It is called the compass plant, or pilot plant, because of a peculiarity in the growth of the leaves, which grow alternately along the stalk, and point precisely north and south.

The Indians followed the direction given them by these pointing leaves, and told the white men about it. This plant belongs to the family of the Compositae, and looks very much like the sunflower. It has a strong, resinous odor, somewhat like turpentine, and sometimes goes by the name of "turpentine plant."

AMARILLO—One hundred street lights are to be installed on Sixth Street, the paved thoroughfare leading to San Jacinto Heights. Three iron poles, bearing one light each, will be erected on every block.

Be Wise and Advertise—

ROMANCE OF WORDS

"PECUNIARY"

IF, AFTER being promised a "pecuniary reward" for the performance of a certain service, a person were to receive a sheep, he would probably feel that he had been deceived or that the one who had made the promise had gone back on his word. But, in its primary meaning, "pecuniary" means "relating to sheep," being taken verbatim from the Latin pecunia which, in turn, is derived from pecus, sheep.

The transformation grew out of the custom of the Romans of measuring a man's wealth by the number of sheep which grazed over his pastures. A "man of many sheep" was the equivalent of a wealthy citizen, for sheep were valuable not only for their wool but also as an article of diet. Gradually, the root-word pecus was lengthened to pecunia, the equivalent of "money" or "worldly possessions," and its pastoral origin was almost completely obscured when transplanted into English. Should a restaurant, therefore, advertise a "pecuniary stew" it would not necessarily mean that dollar bills and gold pieces appear in the dish, but it would mean to be an etymologically accurate synonym for the old standby, "mutton stew." (By the Wheeler Syndicate, Inc.)
