

# BALLINGER DAILY LEDGER

VOLUME 18 NUMBER 170

BALLINGER, TEXAS, FRIDAY, OCTOBER 26, 1923.

MEMBER ASSOCIATED PRESS

## CHANCE FOR SOMEONE TO WIN AUTOMOBILE

The Ledger's big subscription campaign in which more than \$1,250.00 worth of prizes, including two autos, are to be given away, will be off with a rush within a few days. The preliminaries for each candidate to get in the field and work for votes are being worked out. Quite a number of ladies have been nominated, and a few are out after votes already, but the drive will not get under way before early next week.

This is an unusual campaign in that it will be of short duration. Candidates will not have to work long. The two autos are going to be given away on December 1st, together with the other prizes, and the lady who gets in the race and works for votes will pick up \$600 within one month, or an automobile valued at that sum, and which can be cashed without any trouble, if the winner does not want the car.

It is a big opportunity for some lady (married or single) to win an auto. Your friends will help you, if you get in the race. The Ledger is back of the proposition to guarantee fairness, and the paper should be in every home. We are giving away these autos to get subscribers, and we are going to make an effort to put the Ledger in every home in the county.

The lady who gets in the race and works will be riding in an auto, and what better Christmas present could you want—and it will be delivered on December 1st. Don't wait to see who is going to be in the race. Get in and get a good start while others wait.

Call at The Ledger office, or ring 27 and call for the Contest Manager, and you will be furnished with all the information.

### TALPA MAN KILLED BY TRAIN AT SNYDER

Press reports from Snyder say that Walter Eason, age 22, of Talpa, fell between the cars of a freight train at Snyder Wednesday morning and was cut to pieces. The young man attempted to board a fast moving freight train when he slipped and fell between the wheels and was instantly killed.

### WHEN WINTER COMES

During the Winter the complexion suffers from cold and exposure. To be sure of comfort during the winter months, be prepared by having your Rexall Store show you the best methods of protection of the complexion against the ravages of winter.

Sold only at  
**J. Y. Pearce  
Drug Co.**

The Rexall Store

## AUTO THIEVES WORK HERE 'ON CIRCUS NIGHT

J. E. Dankworth lost his new Ford coupe Wednesday night, and several cases of auto looting were reported to the officers Thursday following the big crowd here for the circus Wednesday. Extra castings, motor meters, and tools were missing from several cars at the show grounds when the owners left the show Wednesday night.

Mr. Dankworth used his car on show night, and parked it in the garage about ten-thirty o'clock. That was the last time he saw the car, but he did not miss it until late Thursday when his father called his attention to the vacant garage and asked the young man where his car was. It was raining Thursday and having no occasion to use the car, Mr. Dankworth did not know it had been stolen until the thief had gotten almost a twenty-four hour start.

Mr. Dankworth purchased the car, a brand new 1924 model coupe, and fully equipped, about two months ago, and had not driven it over three hundred miles. He says there was not a scratch on the car as he had taken particular care of it. He had no insurance and the loss falls heavy on the young man.

### BAPTIST BANQUET IS POSTPONED

The Baptist Jubilee Banquet, which was announced for tonight in celebration of the completion of their new building, has been postponed on account of the rainy weather. It will be held in the early part of next week. Definite announcement will be made Sunday.

## DEATH CLAIMS DR. STEINMETZ

(By Associated Press)  
SCHNECTADY, N. Y., Oct. 26.—Dr. Charles Proteus Steinmetz, famous electrical inventor and supervising engineer for the General Electric Company, died at his home here today from a physical breakdown.

Dr. Steinmetz recently returned from a trip to the Pacific coast, and it is believed that his collapse was due to the long trip.

One of the most recent feats of Dr. Steinmetz was the production of an artificial indoor thunder-storm, including the bolt of lightning which accompanies such storms. The wizard controlled the electrical storm which he produced and which had all the characteristics of a natural thunder-storm, except the clouds.

Dr. Charles P. Steinmetz was probably the best known and most famous electrical engineer with the exception of Thomas A. Edison. His salary was said to have been set by himself each year, as allowed him by the General Electric Co. He emigrated from Germany a number of years ago, coming to this country after stepping ashore in Switzerland, and he was said to have left Europe because of the greater possibilities for electrical development in the United States.

### NOTICE TO MY FRIENDS AND ALL OTHERS

Someone has nominated me in The Ledger's big auto contest, and I have decided to work for one of the cars. I will appreciate all the help you can give me, and I thank you in advance for it. I will try to call on you, but in case I do not I will appreciate it if you will ring Phone 425 and save your subscriptions for me.  
(Miss) EUNICE PHILLIPS.

### Our Pet Peeve

## BAPTIST CHOIR

The choir of the Baptist Church will give a program of sacred songs Sunday night, 7:30. Anthems by the choir and songs by the male chorus. The pastor will speak fifteen minutes. The general public is invited.

## Big Parade to Feature First Day County Fair

The first day of the Rannels County Fair will be featured by a big parade, according to announcement of E. Shepperd, who is in charge of the work of soliciting interest in this part of the program.

The committee has put up some prize money for the best floats, decorated cars, both individual entries and entries made by firms, churches, or any other organization, and efforts will be made to make the parade the most elaborate of the kind ever pulled off in this city.

Much interest is being shown in this part of the program, and while the canvass has not been completed, quite a number have agreed to dress up their autos or enter decorated floats in the parade. One church and one Sunday school were among the first to sign up for a place in the parade.

Three bands will take part in the parade. The Ballinger Booster Band, the Junior Band and the Dodson's Carnival Band will furnish the music for the parade, and with the livestock, fire department, and in fact many business firms, individuals, organizations, including the schools, etc., the parade will be a big feature of the fair.

The parade is staged for the first day at 1:30 o'clock, and will mark the official opening of the 1923 fair. The prize winning cars will not only receive cash, but will receive special mention, and

be photographed for advertising purposes, and in addition to helping to make the fair a success, those entering the parade will stand a chance of winning both money and valuable publicity.

The details of the big show are being worked out in all departments. Premium lists are being scattered broadcast, and many inquiries are coming in concerning exhibit space, etc. Arrangements for the entertainment feature of the program have been well worked out, and the big free acts, with something going on both day and night, offers amusement for all ages and all classes.

## AMBASSADOR TO LONDON

(By Associated Press)  
WASHINGTON, October 26.—Frank Kellogg, former United States Senator from Minnesota, has been selected as American ambassador to Great Britain, and will succeed George Harvey, who recently resigned. Kellogg is 66 years old. His appointment is expected to become effective in the near future.

Mrs. S. F. Gartman, of Goldthwaite, is in the city visiting her daughter, Mrs. J. C. Cook.

## WALTON MEN TRYING TO OUST NEW GOVERNOR

### ASKS U. S. TO TAKE HAND IN SETTLEMENT

(By Associated Press)  
PARIS, Oct. 26.—The French government is willing for an international conference of experts to be named by the reparations commission and assembled to consider the question of reparations in conformity with the Treaty of Versailles.

It was said in official circles here today that the French government would be most happy if the United States government would name an expert to participate in such a conference.

It is announced that Premier Poincare, in the name of the French government, has already informed Secretary Hughes that he would accept an international commission of experts to determine Germany's capacity to pay the debt, but says that the commission must be named by the reparations commission.

The British government has not yet accepted this proposition.

Mr. and Mrs. W. T. Routh and daughters, Misses Evelyn and Edna, returned home Friday from a two weeks' auto tour of South Texas, visiting quite a number of places, and returning by the way of Austin. It began raining on them at Brownwood on the return trip.

## TEXAS RAILROAD PRESIDENT DEAD

(By Associated Press)  
TEXARKANA, Oct. 26.—William Buchanan, age 74, president of the Louisiana & Arkansas Railroad, and one of the wealthiest men in this section, died at his home here early today, following an illness of several months. Mr. Buchanan recently created the Buchanan Foundation with a million dollars, the entire fund to be used for charity and for the alleviation of suffering and distress among the poor of Bowie and adjoining counties.

Mrs. W. Bristow Gray, of Brownwood, visited in Ballinger and attended the Woman's Auxiliary Conference at Paint Rock Thursday.

Use Ledger Classifieds

(By Associated Press)  
OKLAHOMA CITY, Oct. 26.—As a counter offensive in the impeachment litigation over the governor's office, the supporters of Gov. J. C. Walton are said to be planning to present impeachment resolutions against Acting Governor Trapp, who succeeds Walton as governor. The impeachment resolution being prepared by the Walton supporters also includes charges against members of the Senate and other state officials.

More bills were voted against Walton today. Virtually without debate the lower house of the legislature added four articles to the impeachment bill against Walton. The articles voted today charge him with the abuse of his pardoning power, and also abuse of the parole authority, illegally issuing deficiency certificates when a deficiency in funds did not exist, with illegally appointing a large number of "irresponsible persons" on the state police.

The House also approved the charges that the governor violated his official oath in that he made a false report of expenses of his primary campaign, and abridged freedom of the press by placing a military censor in the offices of the Tulsa Tribune and Henryetta Free Lance.

The Fort Worth Star-Telegram an up-to-date newspaper daily and Sunday, till December 1st, 1924, \$7.45. You get one month free. Underwood News Co. 26-11d

## SHOOTS WIFE WHO DIDN'T LOVE HIM

(By Associated Press)  
HOUSTON, Oct. 26.—E. B. Moy, age 37, garage proprietor, is in the city jail here today charged with murder as the result of the fatal shooting of Mrs. Moy, age 34, last night. Moy surrendered to an officer after the shooting, but declined to make a statement. The twelve year old son of Moy, who witnessed the shooting, the officers said, told them that his father fired three shots at his mother after asking her if she loved him and after she replied, "not after you beating and cursing me all these years."

Mrs. Frank Thomson and Misses Williams, of Eldorado, passed thru Ballinger Thursday afternoon, en route to Brownwood, where they will visit and attend grand opera Saturday night.

## Chocolate Milled from Monday till Thursday

THERE is no mystery about the excellence of Norris Candies. They are better because of the way they are made.

For instance, the chocolate. On Monday noon, let us say, a batch of selected cocoa-beans goes into a ponderous "miller."

Then, day and night, until noon of Thursday, this chocolate is milled and re-milled, over and over again. This repeated pulverizing makes the chocolate exceedingly fine, and wondrously smooth in consistency. Every chocolate-covered piece in a Norris Variety Box is coated with this uniformly super-smooth chocolate, never varying in its quality.

And every other ingredient in Norris Candies is treated with the same thorough determination to make these candies as good as can be.

Then the Norris Variety Box encases these jewels of the candy-maker's art with fitting daintiness and beauty, that the box shall give promise of the delights within.

MEMBER OF THE ASSOCIATED PRESS. The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or otherwise credited in this paper and also to local news published herein.

Rain Thursday and Thursday night, with a continued drizzle Friday, has tied up traffic again, and put cotton pickers out of business.

PICKING A PRESIDENT. It is anybody's guess as to who the next president will be.

There is a mix-up in national politics at this time which makes the outcome of the 1924 campaign just a little more of a gamble than usual.

The republicans are split on the present chief executive. Some are backing Coolidge, and some will bolt the G. O. P. if Mr. Coolidge is made the standard bearer for the '24 campaign.

The democrats are being threatened with a wet candidate, and the making of a third party with Henry Ford as the leader is looming up big.

The klan question, the labor question and the liquor question are questions which at this time will no doubt figure in the building of a platform.

More women will go to the polls in 1924 than ever before in the history of the nation. Who knows what issue will control them? The American Legion is not in politics, but its members must be pleased.

The party which builds the platform to suit the factions with the largest following must have back of it some of the most skilled political architects in the history of the world.

Picking a president is a task to which the people will find themselves hard put before the campaign hardly gets under way.

THE RIGHT ROAD. It is strange but true that the man who will finance his business sensibly and carefully, who will buy and sell a house with acumen and wisdom, who will choose his bank with meticulous care and guard his personal financial affairs with the utmost skill, frequently throws caution to the winds when considering the raising and spending of money for roads.

It is so pitifully easy to arrange to have somebody else pay for a road! A bond issue to run fifty years put the burden of paying on the men and women who come after us, while we use the road.

This is bad enough, as a matter of unsound economics, but it is worse when the money so raised is so unwisely expended as to produce a road which wears out long before the bonds become due.

In such cases, and there are many of them; the body politic finds itself in the position of paying for roads which no longer exist, and faced with the additional necessity of rebuilding the road and maintaining it as well as paying the interest and finally the principal, on the bonds which built roads which wore out.

There are cases where long term

bonds are justified and necessary. But there are no cases where the expenditure of such funds is justified for anything less than a permanent road, so located, so built, so planned as to length, gradient, width, and location as to make it of service to the people to come as well as those who now use it.

It has been said that there is nothing permanent about any road except its location, but this is only true when maintenance is an afterthought. It is as unsound to build a road and let it travel to pieces as it is to build a house and let it go unpainted and uninsured.

Paint the house, insure it, repair it, and it may stand a hundred years or more. Maintain the road as it is used, and it should last indefinitely. Only such roads should be built with bond issue money, and only such roads should be built with money derived from town or county or state bonds, as will serve town, county, and state for all time to come.

To do otherwise is to betray the trust of the helpless unborn.

RED PEPPER HEAT BREAKS BAD CHEST COLDS OVER NIGHT. Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub," is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.

Avoiding Plague of Rats. The bad results of carelessness in leaving breaks in the basement walls of a building originally intended to be rat proof are shown in a case recently reported to the biological survey of the United States Department of Agriculture.

In the course of a rat campaign in Portland, Ore., in which the rodent-control men from the department were backed by the city bureau of health and the chamber of commerce, a building with unrepainted breaks of this sort was visited. The owner was advised to clean up all the rubbish in his basement, repair the breaks in the cement wall, use barium carbonate on Hamburg steak to poison the rats, and also to set some traps.

ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved - Dangerous and Sickening Qualities Removed. Perfected Tablet is Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities.

Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the larger, family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—(Adv.)

You can't peddle any of the "beauty unadorned" stuff to a girl who has just draped her lovely neck with a rich fur boa.—Milwaukee Journal.

KIDDIES' COLDS should not be "dozed." Treat them externally with VICKS VAPORUB. Over 17 Million Jars Used Yearly.

You never can tell. The more henpecked a man is, the more he crows when he is away from home.—Illinois State Journal.

Never play football with your mouth open. When you brush your teeth you may find an extra ear.

Women should learn football. It would help in bargain counter rushes and opening tight windows.

Everybody should know football. A good football player can trip a collector and step in his face.

School children should remember to buy their Theme Paper from the Ballinger Printing Company.—3 for 25c—8 for 50c.

Town Forests a Blessing. The memorial town forest in one of the greatest blessings that can come to any New England community.

No town is too poor to have its forest park, donated by public-spirited citizens and developing into a source of direct profit to the town, observes the New England Homestead.

Much of the local tax can be paid out of the revenue from the town's memorial forest, as the generations go on. Many a farmer will gladly donate to the town waste land or sprout land that may be worse than useless to him but joined with other tracts can be transformed into a good thing for the community.

Other farmers and citizens will give more valuable land, or standing wood, or cash with which to help add to the town forest. A map of it, with names of donors or memorials, printed in the town report, will add to the public interest.

The Flower Beds. Use discretion in laying out your beds and in selecting the plants. Keep the flowers along the borders. Don't clutter up a beautiful expanse of soft bluegrass lawn with round or square beds.

Select the flower seed so that you will have blossoms throughout the summer. There are flowers that are constant bloomers and you can select the others so that one kind will follow another. Of course, the flower beds should be used in connection with shrubs.—Farm Life.

Looking for needles in haystacks will train a football player's eyes to see the point.

Never feed a football player on raw meat. It is dangerous. He may bite off his girl's nose.

Learning football is no easy matter. Arguing with traffic cops and ice men is fine training.

Ledger win ads pay.

With the High School Classics

By MARGARET BOYD

... even as the pulse and water was blessed to the children Shadrach, Meshach and Abednego.—[vanhoe]

Friar Tuck here refers to one of the earliest recorded bits of dietetic research. More than twenty-six centuries ago, Nebuchadnezzar, king of Babilonia, directed that the most promising children among the captives that he had brought home with him from Jerusalem should be given a three-year course in the learning of the Chaldeans.

In order that the students should have the benefit of the best food available, he ordered that they be fed with food from his own table—showing that the subject of the proper nutrition of school children is not so new as we sometimes imagine. Four of the Jewish captives thought the king's diet a poor one, and secured permission to live upon what they thought a better diet.

At the end of the three years the four had made greater progress in their studies than any of their fellows, and were in better physical condition than any of those who had eaten the prescribed diet.

Interesting as this experiment was, it by no means settled the question as to what constitutes a correct diet.

Some decades ago, Voit, working on the subject of metabolism, proved that for every gram of protein eaten there must result a production of 4.1 calories of heat; for every gram of fat, a production of 9.3 calories of heat; and so on. At once the enthusiasts thought the diet question settled for all time.

All you needed to do, they said, was to determine how many calories of heat you needed per day, and then eat enough to produce that many calories. An egg would produce 100 calories of heat and an apple would produce 100 calories—you could eat either. Then somebody discovered that the diet must be balanced—so much protein, so much fat, and so much starch.

Still later, some one discovered a vitamin—they have found four of them up to date—and proved that one could not hope to remain in good health unless the food eaten contained enough vitamins. Just at present the correct diet seems to be back where it was a quarter century ago—we eat more lettuce and less cold slaw, more spinach and less dandelion and pokeweed, more citrus fruit and less home preserved fruit juices—but the essential values are the same.

In view of our present voluminous writings on the subject of diet, it is interesting to turn back to the times of Socrates and find out what that philosopher thought a proper diet for a genuine and healthy people. He made the basis of such a diet bread and cakes of wheat and barley, and added "something to relish their food: salt, no doubt, and olives and cheese, together with the country fare of boiled onions and cabbage. We shall also set before them a dessert, I imagine, of figs and peas and beans; and they may roast myrtleberries and beechnuts at the fire, taking wine with their fruit in moderation."

**"THE INNER MAN" AT FO-TO-SHO TODAY**

Wyndham Standing comes to the Fo-to-sho Theatre today and tonight in his second Playgoers release "The Inner Man," adapted from a novel by Charles Mackay. In it Mr. Standing further bears out his reputation for versatility, appearing in a role entirely new to him.

"The Inner Man" the story of an absent-minded professor of mathematics who is the despair of his father, who cannot understand why his son cannot be of assistance to him in his business troubles. The elder Barclay has just been acquainted with the unpleasant fact that his best silver mine has petered out. At the same time, the patience of young Barclay has petered out—he has been called mollycoddle too often.

So he gives up mathematics to seek seclusion in the neighborhood of his father's mine in the Kentucky hills. Instead of seclusion he finds a man's job all cut out for him, and by the time he gets through with it he has proved himself a man any father could be proud of.

**PLAY'S POWER LIES IN ITS SIMPLICITY**

Just as many great characters are made up of small but good qualities, so may a screen drama be simple yet powerful. This is said to be true of the Wm. Fox production, "The Town That Forgot God," which will be seen Thursday afternoon, where he next Monday and Tuesday, October 29th and 30th, at the Macrodays.

Theatre.  
 The locale of the story is just any small American community where red-blooded folk strive to get the most out of life. The characters are such as may be found in any such community not forgetting those characters which, in their own ego, have closed their eyes to the small kindnesses and have instead, sought to rule others through the small authority given them. In the portrayal of the life in this community the screen drama points out clearly and vividly the gross errors of a people content to believe alone in their own thoughts.

The story tells of a small boy, left an orphan, who becomes the property of the village. He is mistreated, kicked about, and has but one friend—a simple rustic—who at one time loved his mother. The time comes when the wrath of above is wrought on this town in the form of a flood—and the orphan boy who has been taught to have faith in his God, prays for the forgiveness of those who have sinned.

The flood scene is the most realistic climax to a play ever screened. It is said to have been produced at an immense cost—but that the results have justified the expenditure.

**A Good Thing—DON'T MISS IT.**

**BERLIN REPORTS WANT AID TO QUIETER TODAY FIGHT WEEVIL**

(By Associated Press)  
 LONDON, Oct. 26.—Yesterday's attempts to march on Berlin by the communists were frustrated by the police, says a Central News dispatch from Berlin today. Berlin advises that the situation is quiet today everywhere except at Hamburg and near Hamburg, where fighting continues. The report said that the marines had engaged in battle with communists this morning, and the communists lost three and sixteen were wounded.

(By Associated Press)  
 NEW ORLEANS, Oct. 26.—The federal department of agriculture was asked in a resolution presented today at the National Boll Weevil Association, to issue at the earliest possible date a bulletin or series of bulletins, giving in detail knowledge regarding the boll weevil and methods of control. The resolution also asked the department to arrange for distribution of such bulletins in order that the cotton growers might better fight the pest.

**A Good Physic**  
 When you want a physic that is mild and gentle in effect, easy to take and certain to act, take Chamberlain's Tablets. They are excellent.

**DANISH KING HELPS RESCUE MAN WHO FELL OVERBOARD**

(By Associated Press)  
 COPENHAGEN, Oct. 26.—King Christian is the latest candidate for the Carnegie medal.

During a yacht race between the royal yacht "Rita" and another boat, "Carina," a sailor from the latter fell overboard. King Christian, who was at the Rita's helm, saw the accident and immediately put his helm up and went about. The Rita quickly bore alongside the drowning man and the King with others rescued the sailor.

The race, which was the last of a series, was afterwards resumed and won by the Rita.

**NO ONE CAN TELL IF YOU DARKEN HAIR**

Gray hair, however handsome, denotes advancing age. We all know the advantage of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Remember what you were paying for Theme Paper when we started selling it for 10c. Now 3 packages for 25c or 8 for 50c, at Ballinger Printing Co. tfd

**MAE MURRAY**  
 "Fashion Row" is her newest Metro picture. It is now in production in Hollywood.

**T. L. EUBANK LAID TO REST AT WINTERS**

The remains of T. L. Eubank were laid to rest in the Winters cemetery at 3:30 o'clock Friday afternoon, and the many friends who had known him for more than fifteen years, gathered to pay the last tribute of respect to one of Runnels county's good citizens.

Mr. Eubank died at his home nine miles West of Winters at six o'clock Thursday evening, following an illness of several years. He had been seriously ill for several weeks, and the news of his death did not come as a surprise. E. M. Eubank, of Ballinger, had been at the bedside of his brother from time to time for the last week or two, going out every other night to assist in nursing him.

Deceased came to this county about fifteen years ago, and has been residing in the Winters section, where he made many friends who will be grieved over the loss to that community. E. M. Eubank and family, of Ballinger, went to Winters Friday to attend the funeral, and other relatives were present, including the aged father.

Mr. Eubank is survived by a wife and two children, and these have the sympathy of their friends in their bereavement.

**How Better Than Pills?**

The question has been asked—in what way are Chamberlain's Tablets superior to the ordinary cathartic and liver pills? Our answer is, they are easier and more pleasant to take and their effect is so gentle that one hardly realizes that it is produced by a medicine. Then, they not only move the bowels but improve the appetite and strengthen the digestion.

It pays to see, that you see well. Drs. Kahn, optometrists.

**MOTHER!**

Clean Child's Bowels with "California Fig Syrup"

Even if cross, feverish, bilious, constipated or full of cold, children love the pleasant taste of "California Fig Syrup." A teaspoonful never fails to clean the liver and bowels.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

**Presbyterian Market**

Opens at nine-thirty Saturday morning at Pearce's Drug Store. Last market of the season. For special orders phone 72. 26-1td

**Hall's Catarrh Medicine**

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE consists of an Ointment which quickly relieves by local application, and the Internal Medicine, a tonic, which assists in improving the General Health. Sold by druggists for over 40 Years. F. J. Cheney & Co., Toledo, Ohio.

Have the children's eyes corrected with glasses. Drs. Kahn, optometrists. 22-6td

**Make Every Week Shoe Thrift Week**

You don't throw away your watch because the main spring breaks—why throw away your shoes because the soles wear through!

We can make your old shoes almost as good as new and save you almost half your annual shoe expense.

Be Thrifty—have 'em repaired.

**OCTOBER RAIN REACHES 5.95**

Rain Thursday and Thursday night brought the total precipitation for October up to 5.95 inches. One and twenty-five hundredths inches of rain fell in Ballinger Thursday and Thursday night, and prior to that time the rainfall for the present month totaled 4.70 inches.

According to a report compiled by the West Texas Telephone Co., rainfall Thursday was pretty general over the Ballinger trade territory, but was light at places. The report shows the rain was heavier in Ballinger than at any other point in this section of the state. Following is the report from adjoining towns:

- Abilene 1.01 inches
- Ballinger 1.25
- Benoit .75
- Blackwell, light shower
- Bradshaw, sprinkle
- Brady .80
- Bronte, light shower
- Brownwood .44
- Coleman .44
- Concho, light shower

**NO LONGER DREAD PIMPLES**

No better news could be given people who suffer the embarrassment and disappointments these skin disfigurers subject them to than the announcement made by the world's best-known skin specialists that a few years after the universal use of Black and White Ointment recently perfected will show a positive decline in such

skin diseases as pimples, blotches, eczema, rash, tetter, breaking out, etc.

This prediction is already coming true, judging from the tremendous demand for this Black and White Ointment. It is already selling at the unprecedented rate of nearly two million packages a year, and dealers everywhere are enthusiastically recommending it to their friends and customers. It is economically priced, in liberal packages. The 50c size contains three times as much as the 25c size.

Mrs. S. C. Royalty was stricken with paralysis late Thursday afternoon while out in the yard at her home in West End, and we regret to report, is in a serious condition. Mrs. Royalty is seventy-five years old, and has apparently been in good health until a few weeks ago.

Admission 10c and 25c

**The So-called Eye Doctor**

There is no such animal. He has had no medical training. Several diseases of the eye will cause blindness if not properly treated. He cannot recognize one disease of the eye out of ten; if he could recognize them all, he is not qualified by training or by law to give treatment. It tickles his vanity to be called "doctor." Local physicians have been fitting glasses for years. They have had all the required medical training and have had special training in addition. Their services cost you less than the services of the itinerant or semi-permanent "glass-fitter." Physicians have more and better equipment for the work; they are capable of recognizing and treating any disease of the eye that may be present; and they are qualified to fit glasses for any condition that requires glasses, and at a price lower than less competent men will charge you.
