

Chase County Courant.

"How to the Line, Let the Chips Fall Where They Will."

VOL. 5.

COTTONWOOD FALLS, KANSAS, APRIL 18, 1879.

NO. 27

The Chase County Courant,

W. E. TIMMONS, - Ed. and Prop.

EDITORIAL NOTES.

New York was shook up by an earthquake, April 14.

Chief Moses and other Oregon Indians are in Washington City.

The French Government is pardoning the communists by the hundreds.

Gen. Richard Taylor, of the Confederate army, died in New York, April 12.

Horace Maynard, U. S. Minister to Turkey, sailed from Philadelphia, April 14.

April 15, Senator A. G. Thurman was elected President of the Senate pro tempore.

The town of Collinsville, Ill., was visited by a destructive cyclone, April 15, and one person was killed.

A hail storm occurred at Pensacola, Fla., April 14, a thing unknown before. Some of the hailstones were as large as eggs.

The Commissioner of Indian Affairs received a telegram from Ft. Sill, April 14, saying there is not the slightest foundation for the reports of a Cheyenne outbreak.

While the Czar was taking his morning walk, April 14, near the palace, four shots were fired at him. He was unhurt. The man, Alexander Alovief, who did the shooting was arrested.

The officers of the Chinese Six Companies deny that they have any control over their people's labor, and that they have ever brought or caused to be brought one of their countrymen to this country.

By a vote of 35 yeas to 28 nays Chas. H. Bell was declared entitled to a seat as Senator from New Hampshire by virtue of appointment by the Governor. The vote can not be considered a party vote, several Democrats voting in the affirmative, and some Republicans, among them Carpenter, voting in the negative.

Hemp seed is certainly not a specific for abortion, but the almost universal testimony of those who have used it is favorable. Its properties are mainly tonic, and it possibly aids in preserving a healthy condition of the organs of generation, and in this respect may prove beneficial. At all events, its moderate use can do no harm, and we should not hesitate to recommend it; but in cases of epidemic abortion, it has proved of no value whatever.—National Live Stock Journal, Chicago.

The Library Magazine for March, just issued, will delight all who appreciate the highest class of literature. Think of it 128 elegantly printed pages, all for 10 cents, or \$1.00 a year! The leading article, "Chapters on Socialism," from unpublished manuscript of the late John Stuart Mill, is certainly the ablest writing which has recently appeared on this topic. R. A. Proctor's article on "Artificial Somnambulism" will attract both those who are curious and those who are interested in science. Thomas Hughes gives an entertaining sketch of the once famous but nearly forgotten Wm. Cobbett. Bonamy Price, Professors Blackie, Jebb and Ward supply able articles of special interest to scholars and students of the classics and history. Fraser Tytler contributes a little poem, "Contentment," that is sure to go the rounds of the press, as also will Algernon Black's "Five New Anecdotes of Charles Lamb." AMERICAN BOOK EXCHANGE, Publishers, New York; sold only by them direct.

STATE GIBLETS.

The State Teachers' Association will meet at Lawrence, in June next.

Immigration is pouring into the State by the hundreds and thousands.

A stable burned down in Tepeka, April 14, four horses perishing in the flames.

Quite a number of cattle have died, this spring, in Lyon county, from black leg.

The tenth annual fair of Riley

county will be held Sept. 22, 23, 24, 25 and 26, 1879.

The Manhattan Industrialist, published at the State Agricultural College, has entered its fifth year.

A young man, named Arthur Scott, was killed by lightning, on the 8th instant, in Labette county.

Six of the nine prisoners confined in the jail at Tepeka made an unsuccessful attempt to break out, April 10.

Major T. C. Bowles, Superintendent of the Deaf and Dumb Asylum at Olathe, died at that place, on the 8th instant.

Two men, a boy, and three mules they were riding were recently overtaken by a prairie fire in Lincoln county, and burned to death.

Joseph Patterson and his two sons, aged 15 and 17 years, residing 14 miles west of Great Bend, were killed by lightning, during a storm, April 13.

Broom corn seed sown on new breaking, without any further attention, will return a farmer from \$8 to \$10 an acre. It should be sown in June.

Hudson & Ewing, of the Kansas Farmer, propose starting an evening Republican paper at Topeka. It is to be called the Capital; and the first number will appear on the 21st instant.

L. S. Bohan, a St. Joe commercial traveler, while trying to climb on to a moving freight train on the Central Branch railroad, April 14, at Wetmore station, fell beneath the caboose, and was run over and killed.

The Leavenworth Appeal, one of the best papers in the State, is now publishing a morning daily. We are pleased to note this sign of prosperity in that paper which is deserving of a good support from the people of Leavenworth.

Two ladies, Mrs. Mary Shear and Mrs. Conrad, were riding in a wagon in Atchison county, last Sunday, when the mules attached to the vehicle became frightened and started to run, throwing the ladies out and injuring them so badly that Mrs. Shear died that night, and Mrs. Conrad is not expected to recover.

Mr. E. L. Smith, the telegraph manager at Topeka, who was imprisoned because he refused the State Legislature's demand for copies of messages sent from his office, has received from President Green, of the Western Union Telegraph Company, a letter formally thanking him for his course, and enclosing a check for \$250.

Wednesday of last week Judge R. M. Ruggles, of Emporia, went to Americus on business connected with his farm. While in Americus his team ran away, throwing him from the wagon, and breaking his right leg just above the ankle. At first it was thought amputation would be necessary, but the physicians concluded to try and avoid, if possible, such an extremity.

ABOUT THE INDIANS.

The report that the Northern Cheyennes have left their Agency is partially untrue, and while there appears to be great discontent among them, no organized movement has yet been discovered. Small bands are almost constantly away from the Agency, and many of them return minus their arms. The best posted men on the frontier anticipate little if any trouble at the present, as the meagerness of the grass renders a raid highly inadvisable. The reports circulated at present are generally in the interest of parties hoping to gain by an Indian raid, or stockmen seeking to discourage settlers who contemplate a settlement on the frontier in the counties of Barbour, Comanche and Clarke. Gov. St. John is at present at the south line of the State perfecting arrangements for a patrol for the frontier, and every effort will be made to secure the most reliable information and give settlers on the frontier ample warning of any real outbreak.

MODERN SOCIALISM.

It is not generally known that the late John Stuart Mill, perhaps the ablest of modern writers on political and social science, commenced in the year 1863 a book on Socialism, which, it had been completed, would probably have

been recognized as the greatest of his works. Manuscript chapters of the incomplete work have recently been brought to light, and are found so nearly complete in themselves, and so ably to discuss questions now most prominent in the public thought, that a London Review, and also the Library Magazine of New York are publishing them. They are announced to appear in book form on April 25th, published by the AMERICAN BOOK EXCHANGE, New York. The price, post-paid, in cloth, will be 50 cents, or in paper 25 cents. It is a work which all students of political and social topics, and all enlightened citizens, will be glad to read.

Reference made to thousands of students who have completed under our instruction. For circulars giving full information concerning time to complete board, course of instruction, etc., address J. W. JOHNSON, President. CUT THIS ADVERTISEMENT OUT. Short Hand Writing taught by mail, 150 words per minute guaranteed. Every lawyer, doctor, business man and accountant and lady should address "The St. Louis Phonetic Institute" for a circular.

THE PRAIRIE FARMER FOR 1879.

THE LEADING AMERICAN AGRICULTURAL & HOUSEHOLD WEEKLY.

For Town and County, For Old and Young.

(Established in 1841.) THE PRAIRIE FARMER, now in its thirty-eighth year, is the leading agricultural and household weekly of America, and acknowledged authority throughout the United States and Canada upon topics of AGRICULTURE, HORTICULTURE, STOCK-RAISING, ETC. Being published weekly, the more progressive facts of agriculture and agricultural science are grasped by an efficient editorial corps and promptly placed before its readers in the most attractive and readable form. ITS LIVE-STOCK DEPARTMENT. A greater amount of reliable live-stock intelligence is given in its columns during the year than in any other publication. ITS VETERINARY DEPARTMENT. Is conceded to be thoroughly reliable and most practical. All queries by subscribers are promptly, cheerfully and fully answered by one of the most accomplished veterinarians in the United States, under whose direction this department is conducted. HOUSEHOLD AND GOOD HEALTH. Useful articles in each of these departments, prepared expressly for this paper, form a prominent feature. ITS MARKET REPORTS. Including live-stock, grain and general markets are carefully prepared by a special reporter, up to the hour of going to press. THE AIM OF THE PUBLISHERS. Will be in the future as in the past, to make every department full and complete so far as practical talent can accomplish the end—that of making the PRAIRIE FARMER the best agricultural and home journal in America. Terms, \$2.00 per year in advance, including the balance of 1878 free, to new subscribers from time subscription is received. Specimen copy free to any address. Liberal cash commission allowed to agents, who are wanted every where to organize clubs, and to whom canvassing outfit will be furnished free upon application to PRAIRIE FARMER CO., Chicago, Ill.

WHITE BRONZE

MONUMENTS AND STATUARY,

CEMETERIES, PUBLIC AND PRIVATE GROUNDS.

A Few of the Advantages White Bronze Possesses over Stone Monuments and Headstones.

- 1st. Age will not impair their beauty.
- 2d. There being no deterioration in their value, you always have in them your money's worth, while, with marble, or even granite, what you obtain at great expense, may, in a few years, become of little or no value, as defective headstones and monuments in every cemetery bear witness. It is not then the point of wisdom to invest where you will always feel satisfied with your purchase, and also give the same satisfaction in coming generations?
- 3d. The designs are far more elaborate and beautiful than can be made in stone at double the cost.
- 4th. Beautiful emblems full of meaning can be selected from our large list without extra cost.
- 5th. The most delicate lines and sharpest letters will not chip nor lose a particle of their beauty.
- 6th. The inscriptions, without additional expense, are all in raised or black letters which can not be broken off, even with an axe; while the action of the frost and constant disintegration on raised letters of stone ultimately obliterates them.
- 7th. The Tablets are changeable, and the old can be removed for new as occasion requires, with but trifling expense. Purchasers of these monuments do not need to send for a stone cutter to erect in the cemetery, and costing from five to ten dollars extra—simply send for the inscription plate, giving the number of monument and tablet required which will come by express; then with the aid of the socket wrench (which comes with every monument) the old tablet can be taken off with ease, and the new one put on, and not requiring the labor of five minutes, they return the old tablet to the manufacturers and receive credit for it.
- 8th. Our monuments being double fronts or shafts, inscriptions can be put on the backs equally as well as on the fronts, and this for two or even four graves.
- 9th. The Shaft Monuments have from four to eight Tablets. As all are filled, when made, with inscriptions, notices, or emblems, which can be removed as desired without marring the beauty of the monument.
- 10th. The price, we think, will average about the same that marble is usually furnished. If Stone Monuments were as beautifully carved, as the White Bronze are modeled, they would cost double the price of many of our designs. The durability of the White Bronze Monuments enhance their value to that of stone beyond comparison.
- 11th. They are easily—and if properly set, are as firm as if grown to the earth, and as enduring as the everlasting hills.
- 12th. They are boxed and shipped complete to set in cemetery, and not being as heavy as stone are more easily handled, and freights much less. In fact they have all the virtues without the vice of all monuments of stone, and we now feel that we can truthfully and conscientiously say without fear or favor, and back it up by scientific facts, as well as historical data, that the White Bronze Monuments are the BEST IN THE WORLD. Thousands of purchasers already bear witness to the above. For full particulars call on or address,

O. H. DRINKWATER,

AT CEDAR POINT, KANSAS;

Notice by Publication.

STATE OF KANSAS, County of Chase, ss. In the District Court for said county. J. A. Young, plaintiff, vs. J. C. Blandin, defendant.

The above named defendant will take notice that he has been sued in the District Court of Chase county, Kansas; that the name of the parties to said cause are J. A. Young, plaintiff, vs. J. C. Blandin, defendant; that the petition in said cause, on the 4th day of March, A. D. 1879; and said defendant is hereby notified that he must answer the petition of the plaintiff in said cause, on or before the 9th day of June, A. D. 1879; or said petition will be taken as true and judgment rendered accordingly, in favor of said plaintiff and against said defendant, upon an account for services rendered about the business of dentistry, for the sum of \$50 and interest thereon, at the rate of 7 per cent per annum, from January 31, 1878, and costs of suit, at that the south half (1/2) of the southeast quarter (1/4) of section sixteen (16), township, twenty (20), range nine (9) in Chase county, Kansas, leased, more by virtue of an order of attachment heretofore issued in this cause, be sold and the proceeds applied in satisfaction of any judgment that may be rendered in this action.

W.E. TIMMONS, Editor and Publisher.

COTTONWOOD FALLS:
FRIDAY, APRIL 18, 1879.

Immense shipments of American coal are now made to France, Spain, Austria and Italy.

On May 28 the centenary of Thomas Moore is to be celebrated in his native city of Dublin.

The Republicans of Kentucky met in State Convention, April 10, in Louisville, and nominated Walter Evans for Governor, defeating Gen. Eli H. Murray.

The Howard City Courant, an excellent local paper, got out a daily during the sitting of the District Court. We wish that paper all the success it so well deserves.

By order of the Italian Minister of Agriculture, eucalyptus trees will be thickly planted in spots throughout the Campagna in order to give the sanitary properties of the foliage a fair trial.

The limit of brutality in pedestrian exhibitions by women has probably been reached in Cleveland, where Millie Roze was dragged repeatedly to the track by her husband, and compelled, with blows and kicks, to complete the task of walking 3,000 quarter miles in 3,000 quarter hours.

When reinstated to his old rank as Colonel in the regular army Fitz John Porter will have the right to claim \$130,000 for back pay and allowances. His friends say he will not avail himself of the privilege. Gen. Porter is sufficiently satisfied with his absolute vindication, and cares nothing for the money of which Pope's cowardly treachery deprived.

A French surgeon has performed a remarkable feat in the art of the transplantation of teeth. He extracted an incisor (projecting under the tongue) in the lower jaw of a young woman of 26, and planted it in the upper jaw in place of a decayed tooth just removed. In a few weeks the tooth was firmly fixed. This successful experiment opens up a new field for dentists.

A marriage notice in an exchange commences Lynch-Pynn, which is quite appropriate for a married couple, as any fellow can see.—*Lancet and Kentuckian.*

Was that you spoke? You create quite a hub bub over a small thing. It is a wonder you don't tire of so much fun. You should be boxed for perpetrating such a joke. However, as we are a band of brothers, we will let you whirl.

The Blue beat the Grey in the field, but the Grey at last prevails over the Blue in the Capitol. There are nineteen ex-Confederate officers in the Senate, all Democrats, and only four ex-Union officers, all Republicans.—*Atchison Champion.*

Well, whose fault is it? If the Republicans think it necessary to have more ex-Union officers in the Senate to match the nineteen ex-Confederate officers, they should have sent them.

Rudolph, future Emperor of Austria, promises to be an accomplished and scholarly sovereign. He is an excellent linguist, a good scientific student, and has also fine literary abilities. As he desires to speak the language of every race he will one day have to rule over, he is now studying Turkish, that he may not be at a loss if he ever finds himself in Bosnia. He speaks ten languages already, seven or eight of which are used in the Austro-Hungarian Empire. He is very popular with his soldiers, whom he always addresses in Czechian.

Col. Keller, of the Memphis *Avalanche*, gives the following as his views concerning the exodus of the colored people from the South to the Northwest. He says the movement began three years ago in Tennessee; that agents of the Little Rock and Fort Smith Railroad Company came into his State, who at first needed labor to construct the road, and had a large land grant franchise to dispose of for homesteads. Those agents went among the colored people, offered them cheap homes and remunerative labor; and the result was that at that time there was a great migration of the people of Tennessee to Arkansas. He thinks the new migration now going on to Kansas is brought about by the same agency; that it is a move made by railroad companies who have roads to construct and also lands to dis-

pose of. They want cheap labor, and they have cheap lands to sell. They have their agents in the South, and the inducements offered are such that the colored people, who like change, eagerly take advantage of the inducements offered by the railroad companies.

A brother-in-law of the late Jas. Fisk, Col. Hooker, of New York, and who certainly is a no less eccentric genius than Fisk, has devised a most brilliant scheme to elect a Republican President in 1880. His plan is to colonize 100,000 colored men in New York, 50,000 in Ohio, and 75,000 in Indiana before next fall, and then have them carry those States and the Union for the Republican party in 1880. Col. Hooker is now in Washington for the purpose of laying this plan of his before the Republican Congressional campaign committee. He thinks a million dollars can be raised in New York in a day to carry out his scheme; and his idea is to go into the South and boldly advertise his scheme, and get as many reliable recruits as possible, and then ship them North to be distributed by agents among the farmers of the States in which they are needed. One hundred thousand to New York, fifty thousand to Ohio, and seventy-five thousand to Indiana will be sufficient, Col. Hooker thinks, to turn the scale and give these three States over to the Republican party. This is indeed a brilliant scheme; but Col. Hooker should remember that "the best laid plans of mice and men gang all aglee."

A little incident which occurred in the United States Senate at the time the Republicans were trying to oust Butler and put in his stead Corbin, just before the end of the last session, may be of interest to our readers. Mr. Bruce is the colored Senator from Mississippi, and was standing in the cloak room at the time the vote was being taken. What then occurred is thus related by the *Charleston (S.C.) News and Courier*: "While the vote was being taken in the Butler-Corbin case the other day, the handsome and aristocratic mulatto Senator from Mississippi remained in the cloak room in conversation with a friend. Mr. Corbin searched him out and said: 'Mr. Bruce, they are taking the vote; but Mr. Bruce made no reply, and continued his conversation. Soon afterward, Mr. Corbin, with increased earnestness, gave him the same information, when the Senatorial representative of the colored race coolly informed him that, if he voted at all, it would be to keep Gen. Butler in his seat; and yet Bruce was not buldozed nor intimidated, and only acted just as independent colored people in South Carolina dare now do, who fail to support the representatives of radicalism. The radicals soon learn that the men do not wear their collars. By the way, Mr. Bruce did good service in the tobacco fight, and will leave the Senate carrying with him the respect of those with whom he served.'

ADIABOLICAL PLOT.
The *Lawrence Standard* published a short time ago an extract from a Southern paper, published at Okolona, Mississippi, called the *State*, giving vent to the most outrageous and absurdly treasonable sentiments, pretending to be a Democratic paper, and uttering those sentiments as the sentiments of the Democracy of the South. The *Standard* stated then, on the assurance of the Beloit (Kansas) *Democrat*, which had its information from a gentleman residing in that town, that the editor of the *State* was a Republican, and that this fire-eating editorial was a part of the programme of the Republican leaders to send their emissaries into the South to publish and circulate just such stuff and palm it off upon the North as an expression of Democratic sentiment in the Southern States, and renew the sectional hostilities of the war time.

Since that publication, the *Standard* has come into possession of facts which fully confirm that suspicion, and prove beyond a doubt that this *State* article was the beginning of a deep laid scheme to flood the country with that sort of trash, in the hope of deceiving the North into the belief that another rebellion is imminent, and that nothing but the re-election of Grant can save the country from another war.

The bloody shirt business is played out now, and we must have some new capital to work on or we can't elect Grant in 1880. So we are going to send ten or a dozen radical Republicans down South into different localities to begin the publication of red hot rebel sheets which are to speak in glowing terms of the Great Southern Confederacy, as not being dead, but merely sleeping, and lauding Jeff. Davis to the skies, as being a better and more patriotic man than Lincoln ever was, and declaring, in the most defiant terms, that he should yet grace the halls of Congress or the White House. This, and keeping up a bogus correspondence of a rebellious character, purporting to be from leading Democrats in the South, without any genuine signature, so that our speakers and newspapers can quote from them with telling effect on the North and West, is all that can save the Republican party for us in the coming campaign.

The correspondent pertinently says that "this scheme seems to me to be so hellish in its character and design, that it certainly should be exposed and nipped in the bud, as it would be a gross misrepresentation of the sentiments of our Southern citizens."

It is well stated in the above quotation that the "bloody shirt," as a political issue, is played out. The successful and successive passage of the Southern States, one after another, from Republican carpet-bag rule and its attendant "outrage mill," to the control of the people who live in them, with the swift concurrent declension of negro murders, riot and outlawry, has taught the people of the North the hollowness of Republican pretension to peaceful and patriotic purposes, and the utter incapacity of Republican leaders to deal intelligently with the great question of to-day—the preservation of the Union as a Democratic Republic. Hence this new scheme of villainy, which would by the perpetration of the most shameless and wicked conspiracy of deceit and fraud, again sow dissension and turmoil where all should be peace and harmony. It further substantiates a long established criticism, that to these men partisan supremacy is above all other considerations—that they are bent on rule or ruin—that they would rather "reign in hell than serve in heaven."

USEFUL RECEIPTS.

Rice Pudding Without Eggs.—Take 1 quart of fresh milk, a cup of raw rice, flavor and sweeten to taste; bake 2 hours.

Corn Meal Cake.—Four eggs, two cups of sugar, one cup of butter, two cups of corn meal, two of flour, two of sour milk or sweet milk, if sweet milk, use cream of tartar, and one teaspoonful of soda. This makes a very nice breakfast cake.

To Cure Bone Felon.—The *London Lancet* suggests the following simple treatment: As soon as the disease is felt, put directly over the spot a fly-blister about the size of your thumb nail, and let it remain for six hours; at the expiration of which time, directly under the surface of the blister, may be seen the felon, which can be instantly taken out with the point of a needle, or a lancet.

To Make Vinegar.—A first-rate vinegar may be made by the following cheap and simple process: Boil a pint of corn till about half done, for three gallons. Put it into jars or jugs and fill them up with hot water; sweeten with a pint of syrup—perhaps less would do. Set them in the sun, and in two or three weeks it will be first-rate vinegar. No one need to buy a poor article when a good one can be made with so little trouble.—*Ex.*

Remedy for Black Leg.—A correspondent of *Coleman's Rural World*, writing from Mountain Home, Ark., gives the following remedy for black leg in cattle. He says: "I have cured several of my own and also some of my neighbors' cattle of black leg. I lost five or six head before I could find a remedy. I will not describe the disease, for all stock men know how it affects cattle. By keeping a close watch I can tell very near as soon as they are taken, and then I give them three or four teaspoonfuls of soda, from one-half to one pint of sweet milk, and from one-half to one pint of molasses, all put into a bottle, and drench them; also, bathe spine and legs with spirits of turpentine. I do this when they are first taken. This remedy will cure it given in time; but will not if they have been sick some four or five hours. About three drenchings and one bathing of spine and legs will be enough for one day."

PILES. Of all kinds. Tumors, discharges of Blood or mucus, and all diseases of the Rectum quickly and perfectly cured by a simple and soothing Remedy. For information and price, Dr. J. F. Parker & Co., 121-6m 22 Ann St., N. Y.

LAW OF NEWSPAPERS.
1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.
2. If subscribers order the discontinuance of their paper, the publisher may continue to send them until all arrearages are paid.
3. If subscribers refuse to take or neglect to take their paper from the office to which they are directed, they are held responsible till they have settled their bill and ordered their paper discontinued.
4. If subscribers move to other places without informing the publisher, and the papers are sent to the former direction, they are held responsible.
5. The courts have decided that refusing to take a paper from the office is prima facie evidence of intentional fraud.
6. Any person who takes a paper regularly from the post-office, whether directed to his name or another's, or whether he has subscribed or not—is responsible for the payment.
7. Action for fraud can be instituted against any person whether he is responsible in a financial point of view or not, who refuses to pay subscription.
8. The United States courts have repeatedly decided that a postmaster who neglects to perform his duty of giving reasonable notice, as required by the Post-office Department, of the neglect of a person to take his paper from the office, addressed to him, renders the postmaster liable to the publisher for the subscription price.

CHASE COUNTY.

To Those Wanting Information.
Letters reach us, from parties in the East, almost daily, asking for information about Chase county. The questions are numerous, and it would require too much labor and money to answer them all. So we have decided to give the advantages offered to farmers, stock raisers and business men as briefly as possible:
In the first place, money is a necessary article in Kansas, as well as elsewhere; and you will need some to commence with. Pluck and energy are, also, necessary articles.
Good land as man ever tilled can be had here for almost nothing. Healthier country can not be found. Winter wheat is an almost sure crop; corn yields largely; other grains as well as anywhere else. To give an idea of the way wheat and corn yields in Chase county, we give the following showing for 1878: Wheat, acreage, 5,600; yield, 182,102 bushels; value of product, \$188,841 58; Corn, acreage, 27,000; yield, 1,136,940 bushels; value of product, \$277,288.

Cattle raisers yield 80 bushels to the acre; sweet potatoes, 160 bushels; broom corn, 870 pounds; rye, 22 bushels; barley, 22 bushels; oats, 35 bushels; tobacco, 650 pounds. Thus, it will be seen, that farming pays in Chase county.
Farm laborers are paid, per month, with board, from \$12 to \$20.
Acres of land sold at from \$1.50 to \$2 per acre.

Persons that have any knowledge of stock raising will see, by the large corn product, that this is the place for them to make money. Cattle do well; horses and hogs could do better. Hogs are hardly ever troubled with the diseases so common in the East. Cattle winter well; in summer our unlimited range furnishes ample feed.
It is conceded that Chase county is the best location for sheep-growers in Kansas; and it is not difficult to see why. Men of competency and practical experience in sheep-raising give it as their opinion, that wool of the Merino and other fine breeds can be profitably raised here, at a cost of ten cents a pound. It is believed that the finer wools will pay the best, as a great deal of expense is saved by being able to run them in large flocks. There is generally a fair competition for the purchase of wool. Our grasses are good and nutritious, and herbs and shrubs plentiful. Sheep growing is bound to be an important one in this county, and the time will soon come when our hills and vales will be dotted over with sheep, as well as cattle.
Sheep raising is a branch of industry that will pay in this county. It costs very little to feed milk cows. Butter and cheese have a ready sale.
Chase county has thirty-six good school-houses, in which school is held, at least, eight months in the year, thus affording better educational facilities than can be had in the older States.

We have Congregational, Catholic, Methodist, United Presbyterian, Quaker, and other religious denominations worshipping in this county.
Lodges of Masons, Odd Fellows and other benevolent societies are in flourishing condition in this county.
Our people having money to invest in manufacturing establishments we can say that Chase county has from seventy-five to one hundred miles of the best water-power in Kansas, with material to build dams and mills every where. The streams are clear and swift-running, with rocky beds. Money invested in utilizing our waters-power will yield tenfold.

Chase county has room for a woolen mill, which, we think, would pay. Also, a paper mill; and three or four cheese factories. Besides, unlimited room for all other industries.
For any further information, address (enclosing stamp),
W. E. TIMMONS,
Proprietor of the Courant.

One teaspoonful of this Soda used with milk equals four teaspoonfuls of the best Baking Powder, saving Twenty Times its cost.

HIGHEST HONORS at the Centennial World's Fair, 1876!

Shoninger Organs

PRONOUNCED UNANIMOUSLY AS THE BEST INSTRUMENTS.

Their comparative excellence is recognized by the Judges in their report, from which the following is an extract:
"The B. Shoninger Organ Co's exhibit as the best instrument at a price rendering them possible to a large class of purchasers, having a combination of Reeds and Bells, producing novel and pleasing effects, containing many desirable improvements, will stand longer in dry or damp climate, less liable to get out of order, all the boards being made three-ply, put together so it is impossible for them to either shrink, swell, or warp." The only organ awarded this rank.
This Medal and Award was granted after the most severe competition of the best makers before one of the most competent juries ever assembled.
New Styles and prices just issued, which are in accordance with our rule, the best organ for the least money.
We are prepared to appoint a few new Agents.
Illustrated Catalogues mailed, postpaid on application to

The White

THE EASIEST SELLING; THE BEST SATISFYING Sewing Machine.

Its introduction and world-renowned reputation was the death-blow to high-priced machines.

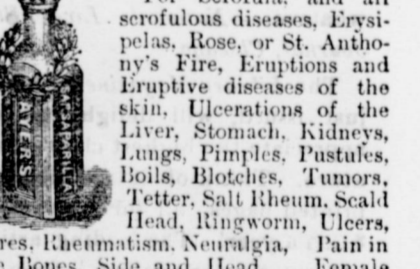

THERE ARE NO SECOND HAND WHITE MACHINES IN THE MARKET.

This is a very important matter, as it is a well-known and undisputed fact that many of the so-called first-class machines which are offered so cheap now-a-days are those that have been repossessed (that is, taken back from customers after use) and resold and put upon the market as new.
THE WHITE IS THE PEER OF ANY SEWING MACHINE NOW UPON THE MARKET.
IT IS MUCH LARGER THAN THE FAMILY MACHINES OF THE SINGER, HOWE AND WELM MAKE. COSTS MORE TO MANUFACTURE THAN EITHER OF THE FORESAID. ITS CONSTRUCTION IS SIMPLE, POSITIVE AND DURABLE.
ITS WORKMANSHIP IS UNSURPASSED.
Do not buy any other before trying THE WHITE.
Prices and Terms Made Satisfactory.
AGENTS WANTED!
White Sewing Machine Co.,
CLEVELAND, O.

It is universally acknowledged to be without a rival in its department of Journalism. Each number contains 44 to 48 large pages, three columns wide, and is bound in a handsome cover, and is beautifully illustrated with elegant double-page engravings. It is devoted especially to Live Stock and the Dairy, and to the Farmer or Stock-breeder, as applied to domestic animals, which can not afford to do without it. It discusses the science of breeding, the merits of the various breeds, the most approved methods of feeding and handling, and everything pertaining to the successful management of live stock on the farm. It has an ably-conducted Veterinary Department, in which will be found articles on the laws of health and disease, as applied to domestic animals, which can not fail to be of great value to all who are interested in any kind of live stock. Questions relating to diseases of all kinds of live stock, and the remedies for them, are answered in THE JOURNAL, each month, for the benefit of subscribers. It contains separate departments, devoted to HORSES, SHEEP, CATTLE, SWINE, and the DAIRY, and its corps of editors, are recognized throughout the entire country as the MOST THOROUGH, ABLE and PRACTICAL writers in their respective departments, that are to be found in America. No expense is spared, on the part of its publishers, to make it a high-toned, reliable, practical and instructive journal, such as every intelligent farmer and stock-breeder will find worth many times its cost each year.
THE NATIONAL LIVE-STOCK JOURNAL is the largest as well as best Stock Journal published.
Subscription price \$2.50 per annum, postage prepaid. Posters, hand-colored illustrations with fine engravings of live stock, mailed free on application. To those who will make up letters, and a liberal commission allowed. Address all letters, registering those containing money, unless in shape of Postal Order or draft, to
STOCK JOURNAL COMPANY, Publishers,
Lakeside Building Chicago, Ill

Ayer's Sarsaparilla

For Scrofula, and all scrofulous diseases. Erysipelas, Rose, or St. Anthony's Fire, Eruptions and Eruptive diseases of the skin. Ulcerations of the Liver, Stomach, Kidneys, Lungs, Pimples, Pastules, Boils, Blisters, Tumors.

Tetter, Salt Rheum, Scald Head, Ringworm, Itch, the Bones, Side and Head. Female Weakness, Sterility, Leucorrhoea, arising from internal ulceration, and Uterine disease, Syphilitic and Mercurial diseases, Dropsy, Dyspepsia, Emaciation, General Debility, and for Purifying the Blood.
This Sarsaparilla is a combination of vegetable alteratives—Stillingia, Mandrake, Yellow Dock—with the Iodides of Potassium and Iron, and is the most efficacious medicine yet known for the diseases it is intended to cure.
Its ingredients are so skillfully combined, that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease.
The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it, prove their experience of its usefulness.
Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sarsaparilla over every other alterative medicine. So generally is its superiority to any other medicine known, that we need do no more than to assure the public that the best qualities it has ever possessed are strictly maintained.

The Chase County Courant.

OLLA PODRIDA.

The Cabinet, at Washington, April 11, decided to send a naval vessel to Samoa.

George Hass cut his wife's throat and then drowned himself at Shapala, Pa., April 10.

John P. Phair was hanged at Windsor, Vt., April 10, for the murder of Mrs. Ann E. Freize, on June 9, 1874.

By the breaking of a rope of the elevator at Grammercy Park hotel, New York, April 10, the engineer was killed.

During a thunder storm in Chicago, April 9, a very large meteor fell on the South Side, bursting into many pieces.

Business was almost entirely suspended in New York, on Good Friday. There were large congregations in the churches.

Thos. Watts, formerly of Bracken county, Ky., was drowned, April 10, at a point just above Memphis, a skiff containing himself and a companion being capsized.

A. Foster Elliott, Resident Secretary of the Liverpool and London Globe Insurance Company, and Vice Consul at Brazil, fell dead on the street in New Orleans, April 10.

The Missouri river is on its spring jamboree from the mountains to the Mississippi, and the high water at Omaha threatens to transport her smelting works to Kansas City.

Twenty days quarantine will be established May 1st against all vessels from or touching at the West Indies, Gulf of Mexico, south of Texas, or South American ports as far as Buenos Ayres, coming to New Orleans.

The water in the lower parts of Szegedin, Hungary, is still from 6 to 12 feet deep, and can not be pumped out in less than 100 days. The total loss of life by the inundation is now reported not to exceed seventy-seven.

The Mormon Conference at Salt Lake City closed April 9. John Taylor was re-elected president of the twelve apostles; Moses Thatcher Logan was elected to fill the vacancy as one of the apostles. No president of church as successor to Brigham Young was elected.

The inscriptions on the Dighton Rock, believed by many Boston students to have been made by Northmen, are now pronounced the work of Indians by the Royal Society of Northern Antiquarians of Denmark. Yet the rock is to be moved to Boston, and set up as a monument to the discovery of America by Northmen.

The late dull times have driven many men from mercantile pursuits and the learned professions into farming. The majority seek the West, but the East is also feeling the good effects of this movement in the reduced price of provisions. In New England the farmers are more numerous than at any previous time within the last twenty years.

There are 362 members of the present Congress. The occupations of the members are thus given: Lawyers, 241; merchants, 24; bankers, 12; farmers, 16; editors, 10; carpenter, 1; stone cutter, 1; miller, 1; railroad men, 5; manufacturers, 9; teachers, 3; lumber dealers, 2; miners, 2; insurance agents, 2; doctors, 7; professional office holders, 2; no profession, 18.

Maria Gillett, a grandniece of Gen. Ethan Allen, died a few days ago, aged 80 years, at the water-villet Shaker farm, where she had lived for fifty years. The Albany (N. Y.) Times says: "She retained the Allen mark, having been born with six fingers, the surplus member being removed in her infancy; and her children, of whom she reared two, exhibit the same peculiarity."

California, in her new constitution, makes some innovations on the time honored jury system. In civil actions three fourths of a jury may render a verdict. In criminal cases, not amounting to a felony, and in civil cases a trial may be waived by the consent of both parties. In civil cases and cases of misdemeanor the jury may consist of any number less than twelve, which the parties may agree upon in open court.

A party of seven Indians attacked Sergeant Kennedy, late signal observer at Deadwood, and a private soldier named Bader, of the Second Cavalry, on April 10. The two men were eating lunch at Mizpah, forty-five miles from Fort Keogh, their destination when fired upon. Bader was instantly killed, and Kennedy badly wounded. The latter crawled into the brush and kept the Indians off with a six-

shooter until assistance arrived. Bader was scalped. Kennedy will probably recover.

THE POPULATION AND PRINCIPAL GRAINS AND GRASSES OF KANSAS.

Among the very many valuable statistics compiled in the First Biennial Report of the State Board of Agriculture of Kansas, the figures showing the product of wheat are among the most interesting. In 1866 Kansas ranked twenty-fourth among the States as a wheat producing State; in 1870, nineteenth; and in 1878 she moved up and took her position as first, producing 26,518,955 bushels of winter wheat on a cultivated area of 1,297,555 acres; and 5,796,493 bushels of spring wheat on an area of 433,257 acres. Total number of acres of winter and spring wheat harvested in 1878 was 1,730,812; from which were gathered by the farmers of the young State the enormous total of 32,315,358 bushels, or double the amount estimated by sanguine friends of the great possibilities of the climate and soil of the State as a wheat producing country.

The population of the State in 1875 numbered 529,742. In 1878 the population had increased to 708,497, an increase in three years of 178,756. Judging from the rate immigrants are pouring into the State, before the spring is fairly open, the increase the present year will fall but little, if any, short of that comprising the three preceding years. The trains running west are crowded with immigrants, on both the K. P. and A., T. & S. P. railroads.

Notwithstanding the unparalleled increase in population the productive capacities of the State seem to even outstrip her growth in inhabitants.

In connection with these interesting wheat statistics, the report states, on the authority of a chart of the wheat market of Chicago for the last twelve years, constructed by J. Z. West, and which is doubtless correct, that the price of wheat in November is always lowest and in May highest. Notwithstanding there is considerable difference in the quoted prices of a bushel of wheat in November and in May, the actual difference is very little, and when the shrinkage and waste which are unavoidable by drying of the grain, the depredations of rats and mice, together with the constant risk of fire and other casualties, it is advisable, as a rule, for farmers to dispose of their crops as soon after harvest as possible. The average gain, in various ways, in a series of years, will be found on the side of early sales.

Of corn there was a less acreage planted in 1878 than in 1877 by 242,000. The corn crop of the State amounted to 89,324,971 bushels, valued at \$17,018,968, and the value of the wheat crop is set down at \$18,441,066.

The rye crop of the State last year amounted to 2,722,008 bushels; valued at \$816,602.40. The barley crop amounted to 1,562,793 bushels; valued at \$562,260. Oats crop was 17,411,473 bushels; valued at \$2,937,900. Buckwheat grown on 4,582 acres, measured 85,928 bushels; valued at \$68,742. Irish potatoes, 4,256,236 bushels; valued at \$1,683,936.

The sorghum crop is assuming considerable importance in the State, 20,291 acres were planted to sorghum cane last year, from which was manufactured 2,333,566 gallons of syrup; valued at \$1,166,783.

The cultivation of castor beans is receiving considerable attention in the Southwestern tier of counties, the crop of 1878 being valued at \$448,618. Flax is also receiving considerable attention, being grown principally for the seed; the crop of last year amounting to 424,770 bushels; valued at \$424,770. The hemp crop amounted to \$29,244, and the tobacco crop to \$40,933.

Broom corn is advancing towards one of the leading crops of the State, 16,065,566 pounds having been produced in 1878; valued at \$602,458. The value of the Hungarian grass and millet crops is placed at \$1,782,555, and the clover and timothy meadow grass is valued at upwards of half a million.

The tame grasses, comprising timothy, clover, and blue grasses, are receiving considerable attention by the farmers of Kansas, and are found to do well.—Kansas Farmer.

Why is a newspaper like a toothbrush. Because every one should have one of his own, and not be borrowing his neighbor's.

Mr. H. J. Walker, pastor of the M. E. Church in this city, has moved his family and household goods here from Florence.

All parties indebted to the undersigned will please to call and settle their accounts, and avoid further costs.

Mr. A. J. Crutchfield, on Buck creek, has a sow that littered thirteen pigs, Thursday night, April 10, eleven of which are still living.

Hildebrand Bros. have let the contract for a two story, stone, business house, 24x50 feet, on the site of their present office, in Cottonwood.

The case of E. Holmes vs. Jas. J. Brown, which was taken to the Supreme Court some time ago, was decided, the other day, in Mr. Holmes' favor.

We have been eating asparagus at our house for the past week, and it came out of our own garden. What do you high-toned editors think of that?

L. Martin & Co. take all kinds of produce at the market prices in exchange for dry goods, boots, shoes, hats, caps and notions, which they are also selling very cheap for cash. Bring in your produce.

One of the members of the firm of Caldwell & Co. asked their freight hauler, the other day, why he wore such good clothes, and received the following answer: "I get your goods before you receive them, and why shouldn't I wear good clothes?"

The Emporia Greenbacker and Leader, of this city, are now devoting a good deal of their space, every week, to advertising each other. It don't take worth a cent, gentlemen; so you might as well let up on it, and try some other

ECONOMY! COOKING OR HEATING? New Excelsior Oil Stove. Advertisement for a new oil stove.

plan of mutual admiration to hood-wink the people.

Mr. K. Hagan and family went to Mr. Hull's, on the other side of the river from here, last Sunday, and his team, which was left standing, ran away, breaking the buggy to pieces, and not stopping until they had gone through Mr. Miller's board fence at Cottonwood, and into his yard.

While Mr. Wm. J. White, who lives on Mr. S. T. Bennett's place, on the Cottonwood, was eating his dinner, Wednesday of last week, a spark from the stove-pipe set his stable afire, killing a horse and mule for him, burning up a set of harness. In his endeavors to save his horses, Mr. White got badly burned about the face.

Mr. P. B. Groat, General Passenger Agent of the Kansas Pacific Railway, at Kansas City, Missouri, has our thanks for a copy of the "Kansas and Colorado Tourist," which is handsomely illustrated, and also for the Colorado Illustrated Monthly, both of which reflect great credit on Mr. Groat, and will prove very effective advertisements for Kansas and her railroads.

Mr. O. H. Drinkwater, of Cedar Point, brought Judge S. P. Young, of this city, quite a curiosity, last Monday, in the shape of a round, hollow rock about seven inches in diameter. The outside of it is covered with what appears to be crystallized shells; and the inside of it is also crystallized. Mr. Drinkwater says there are a great many of these rocks on the hills around Cedar Point.

We are glad to see that some of our merchants are acting according to our suggestion in regard to buying the produce which farmers may bring to town. "Rome was not built in a day." After a while we will have them believing that printers' ink is a necessity, and they will then be doing any amount of advertising; but until that is done we hope the farmers will still help bear the burden of advertising this county abroad and building it up, as they have done in the past, and for which they have our thanks.

Last Monday afternoon Mr. Joe Key took Messrs. Ambros Morris and Phenix Wright, both of Ohio, into the country to show them some land, and in crossing a ravine just south of Mr. Wm. Rockwood's, on Spring creek, the front wheels of the wagon went suddenly into a hole, and Mr. Key fell out of the conveyance, over the dash board, frightening the horses and causing them to run away. In the fall Mr. Key hurt his head slightly. Mr. Morris was thrown from the vehicle and had his left collar bone broken; Mr. Wright jumped out and was unhurt. The team came to town, no further damage being done.

Miss Mamie Nye, daughter of J. N. Nye, Esq., of this city, gave a birthday party, Monday night last, at the residence of her parents, on Main street. The Cottonwood Falls Brass Band were on hand and played several tunes, from the front porch up stairs. About 9 o'clock the invited guests were invited to an excellent repast prepared by Mrs. Nye. The beverages, wine and cider, were of the best quality, the wine having been presented for the occasion by Mr. Nye's old friend, Mr. C. Hegwein, who resides on the Walnut, in Butler county. After supper the party were invited to Caldwell's Hall, where Terpsichore had full sway until about 1 o'clock, a. m., when all dispersed, well pleased with the evening's entertainment. We wish Miss Nye many returns of her natal day.

A most valuable, and it is claimed the most important, of this journal ever issued, is the American Agriculturist for April. A simple, effective and cheap plan is set forth, by which every farmer can definitely learn the needs of his soil, and how to largely increase the profits of his labor. There is also a great variety of timely, practical articles for the field and garden, with a full hundred illustrative engravings, large and small. Among the noteworthy articles are: Caponizing, showing how any one can easily and safely perform it, and thus greatly increase the quality of

his poultry; Grapevines for every-body; Guernsey Cattle fully described; Prickly Comfrey, an important fodder crop; the work of the month laid out, with numerous hints; An interesting breed of fowls; Bee-keeping for Everybody; The House-fly fully described, its origin, etc.; Pearls, where they come from, how produced, and how obtained; Canadian lotteries and other humbugs exposed, etc., etc. Orange Judd Company, publishers, New York. \$1.50 a year; 15 cents a number, of newsdealers, or post-paid from publishers.

BILLS ALLOWED. The following bills were allowed at the regular session of the Board of County Commissioners, held April 7, 8 and 9, 1879:

Table listing various bills allowed, including names like J. P. Hayward, road viewer, and amounts.

STOCK RAISING.

One of the greatest wrongs perpetrated against the State of Kansas is the failure of the large majority who come here to engage in stock raising. Wheat growing has taken too much valuable time when we consider that stock raising pays larger returns and is affected by none of the mistakes which overtake wheat in its cultivation. Many will tell us that the cattle interest of this section is more than doubling every year and that at an early day the Cottonwood valley will be cultivated for its almost countless herds of fine cattle. This we must admit to be all true, and this is the very argument which proves that valuable time is lost in growing wheat. Wheat, as a crop, has been successful, but our argument is that it has not, and can not pay as large a return as cattle. Men come to this country to succeed, and when it is an admitted fact that stock raising pays better and will, in ninety nine cases out of every hundred, make a return highly satisfactory, we can not help urging them to put their money in growing cattle.

PILES. Of all kinds, Tumors, discharges of Blood or mucus, and all diseases of the Rectum quickly and perfectly cured by a simple and soothing Remedy. For information address, Dr. J. FABER & CO., 21-23 Ann St., N. Y.

WESTERN STAR CARRIAGES. Sedalia, Mo., 1879.

A full line of carriages, of first class material and workmanship, substantial and elegant, is now offered at prices to correspond with the times and with the decline in all other things. A good, well made, stylish buggy, with leather trimmings, oil tempered springs, sarven wheels for \$110; With leather top and rubber back and side curtains \$150; A Phaeton with lamps and fenders \$180, and all other carriages in proportion. All fully warranted. In nothing else has the decline in prices been so slowly accepted as in carriages. The dread of unsafe work, dangerous and dear at any price, has forced many to use carriages at very dear prices, or cling to the saddle. But now, by the use of perfected machinery, we can furnish a carriage strong as the strongest and at a fair price. The Anchor Brand Axles and the Sarven Wheels insure strength, and all can see that they are getting in other respects just what they want. We use the Anchor Brand Axles, the Sarven Wheels, Oil tempered Springs, the best Swedes Iron for the Iron Work and Second Growth Hickory for the Wood Work; and we offer a Buggy that will run with the greatest ease to both horse and rider, and that will out wear two clumsy vehicles made by ordinary workmen. We furnish just the article wanted and every test is wholly satisfactory. Piano, Coal Box or Drop Front Buggies, as preferred. Agents wanted. Where there are none, we will give the first purchaser the agent's discount of 30 per cent. Mode of buying: Deposit the price in the bank, and send us a certificate that you have done so, and the carriage will be sent as you direct. On its arrival, if you are not suited, you can return it by

HARDWARE TINWARE, WAGONS, ETC. ASA GILLETT, Dealer in HARDWARE, STOVES AND TINWARE, AGRICULTURAL IMPLEMENTS. THE BEST HARVESTERS MADE IN THE COUNTRY. ELWARD'S, WOOD'S AND M'CORMICK'S. CHARTER OAK STOVES. NAILS, IRON AND STEEL. WAGON AND WAGON WOODWORK, ETC. COTTONWOOD FALLS, KANSAS.
