Mrs. Bonaparte was a very peculiar old lady. She rejected all religious faith, satirized marriage, was close in money matters to the Barber & Hairdresser, point of penuriousness, and though she could not help despising her weak, mean-spirited and treacher ous husband, she was a great admirer of Napoleon and a devoted Cash Capital and Surplus, \$116,500 imperialist, living and dying in the hope that her descendants would yet become emperors of France. During a large part of her last illness she resolutely refused to see any clergyman, Catholic or Protestant, calling herself Presbyterian to Catholic priests and Catholic to Presbyterian ministers; but on Tuesday she yielded and requested the presence of a minister, and a Presbyterian clergyman was sent for. Later in the day Moody, the revivalist, prayed with her, and up peculiarities of character, apart to the hour of her death spiritual

Mrs. Bonaparte was a rare character, and she was remarkable among women for her exceptional experience. The memoirs of her life and her associations with the prominent characters of the first quarter of this century, which she is said to have left, will therefore possess an unusual interest.

## LAW COVERNING TOWNSHIPS AND TOWNSHIP OFFICERS.

The following law in regard to townships and township officers may be of benefit to our people, so we publish and invite a careful perusal of the same: AN ACT.

To amend chapter 92, of the law of 1875, relating to townships and township officers.

Be it enacted by the Legislature of the State of Kansas.

Section 1. The annual township elections, in the several townships, shall be held on the first Tuesday in February of each year: Pro vided, that the several township officers, whose terms of office would expire upon the election and quili feation of their successors in office at the November election, A. D. 1879, shall continue to hold their several offices until their successors are elected and qualified at the

election provided for in this act. Section 2. That section two be Commissioners shall constitute a

The Senate rejected the nomina tion of E. B. Turner to be United States District Judge of the Northern District of Texas.

Mr. Charles H. Miller has sold the Leavenworth Public Press to Messrs. Joseph Clarke and James F. Legate, two experienced newspapers men, who will make that paper even better than it now is, and it is at present one of the most readable papers in the State.

The scanty Democratic majority in the Lower House at Washington has been reduced by the departure of Lay and Bland, of Missouri, and Acklen, of Louisiana, on account of ill health. Alexander Stephens is also feeble, and able to attend the session but a short time daily.

The first number of Rounds' Printers' Cabinet for 1879 bas arrived, with its usual bright appearance. It is full of excellent information and hints to printers. The publication is deserving of encouragement and aid from every one connected with the "art preservative of all arts."

The wanton assassination of Porter by Currie, at Marshall, Texas, is nowhere more bitterly condemned than in the State of Texas. Curric has secured the ablest counsel, but his conviction is considered a certain event. The Galveston News says; "It is to be hoped that the Legislature will pass a law by which the murderer can get a speedy trial, if it should result in his being translated to heaven at the end of a rope. Unless something of this kind is done, the unfortunate tramp, who sighs for rest and three meals a day for a few years, will be compelled to commit murder in order to get it."

The growth of the nails is more rapid in children than in adults, and slowest in the aged; it goes on faster in summer than in winter, so that the same nail which is renewed in one hundred and thirtytwo days in winter, requires only one hundred and sixteen in summer. The increase of the nails of the right hand is more rapid than those of the left; moreover it differs for the different fingers, and in order corresponds with the length of the finger, consequently it is the fastest in the middle finger, nearly equal in the two on either side of this, slower in the little finger and siowest in the thumb. The growth of all the nails on the left hand requires eighty-two days more than those of the right.

SUN SPOTS.

Famine, pestilence and most all calamities are accounted for now-adays by spots upon the sun, but we never heard the theory advanced until recently that bankruptcies in trade and collapses in the world's commerce are caused by sun spots. As in so many discussions of this FIRST-CLASS PIANO-FORTES, character the disputants, write that they believe this or they believe that, or they tell of what Professor Germany wrote, or of what they read in Dr. French's works, but rarely one gives what he has seen or found out for himself; but the Scientific Farmer, an excellent Massachusetts agricultural magazine, has one correspondent who has been directly to work at finding out from the sparrows themselves just what they do eat. Between September 17 and October 10, fifty-six sparrows were dissected as soon as killed, but not a sign of any insect whatever was observed in the craw of any one. Seeds of various kinks made up the whole contents, with the exception of a few small stones in each.

As good land as man ever tilled can b had here for almost nothing. Healthier country can not be found. Winter wheat is an almost sure crop; corn yields largely; other grain as well as anywhere else other grain as well as anywhere cise. To give an idea of the way wheat and corn yields in Chase county, we give the following showing for 1875: Wheat, acreage, 6,0183; yield, 182.102 bushels; value of product, \$138.641 58; Corn, acreage, 27.070; yield, 1,136,940 bushels; value of product, \$297 393

3227.388.

Irish potatoes yield 80 bushels to the acre; sweet potatoes. 163 bushels; broom corn, 870 pounds; rye, 22 bushels; barley, 22 bushels; oats, 35 bushels; tobacco, 650 pounds. Thus, it will be seen, that farming pays in Chase county. Farm laborers are paid, per month, with board, from \$12 to \$26. Vacant lands sell at from \$1.50 to \$9 pe

It is conceded that Chase county is the It is conceded that Chase county is the best location for sheep-growers in Kansas; and we honestly believe it to be a fact. Men of competency and practical experience in sheep-raising give it as their opinion, that wool of the Nerino and other fine varieties can be profitably raised here, at a cost of ten cents a pound. It is believed that the finer wooled will pay the best, as a great deal of expense is saved by being able to run them in large flocks. Lodges of Masons, Odd Fellows and other benevolent societies are in flourishing condition in this city. Chase county building stone has justly gained the reputation of being the best in the West; and can be found upon almost

every quarter section in the county.

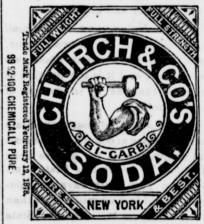

To parties having money to invest in manufacturing establishments we can say that Chase county has from seventy-five to one hundred miles of the best water-power in Kansas, with material to build dams and mills everywhere. The streams are clear and swift-running, with rocky beds. Money invested in utilizing our water-power will yield tenfold.

Chase county has room for a woolen mill, which, we think, would pay. Also, a paper mill; and three or four cheese factories. Besides, utilmited room for all other industries.

For Diseases of the Throat and Sungs

such as Coughs. Colds. Whooping Cough,

Bronchitis, Asthma, and Consumption.

The reputation it has attained, in consequence of the marvellous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every section of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. All who have tried it, acknowledge its superiority; and where its virtues are known, no one hesitates as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affections. CHERRY PECTORAL always affords instant relief, and performs rapid cures of the milder varieties of broughial disorder, as well as the more formidable diseases of the lungs.

As a safeguard to children, amid the distress ing diseases which beset the Throat and Chest of Childhood, it is invaluable; for, by its timely use, multitudes are rescued and restored to health. This medicine gains friends at every trial, as

the cures it is constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it never will.

Eminent Physicians throughout the country prescribe it, and Clergymen often recommend it from their knowledge of its effects.

## CABINET OFFICERS IN CON-

GRESS. The bill introduced by Senator Pendleton providing for scats in Congress for Cabinet officers, is a modification of the bill introduced by him when a member of the House in the Thirty-eighth Congress. The subject was then referred to a committee, and a report made which contained a bill, rules of proceedings, and statement of practice in this respect in all countries where Cabinets exist. Mr. Pendleton made an able and very interesting speech at that time, but Congress was too much engrossed with other matters to give it the consideration it deserved. In pushing the matter, he will have a strong support in both parties.

THE CURRENCY QUESTION. Notwithstanding the fact that thousands of our people are worry ing themselves almost to death over the vexed question, even to the extent of neglecting their busi ness, their homes and their duties to their families, there are still thousands upon thousands of smart hard working, intelligent men pouring into the great Arkansas Valley, the Garden of the West, where the Atchison, Topeka and Santa Fe Railroad offers them their choice of 2,500,000 acres of the finest farming land in the world at almost their own prices. If you do not believe it write to the undersigned, who will tell you where you can get a cheap land explor expense, you can see for yourself and be convinced.

Last Saturday, Mr. Martin Kelley, on Diamond creek, was burning some brush, and the fire got away from him, setting fire to the prairie and burning 160 rods of rail fence for Mr. J. S. Doolittle, and 40 rods for Mr. Matt. McDonald. Persons should be very careful about how they start fires when the wind is blowing.

That party who said the chang ing of the character Theophilus, in Mrs. Jarley's exhibition, from a white man into a Negro, was an "innovation" should read up a little on that subject. It our memory serves us aright, Little Nell, and neither a white nor a colored man, had charge of the waxany "innovation" that "really changed the entire nature of the performance, completely throwing in the first importation of the show into this city; but as the exhibition was getten up for the amusement of the people, we do not see that it makes much difference whether there was an "innovation" or not, as long as the people were pleased.
