EDITORIAL NOTES.

Chas. McGill will be hung at Cleveland, Ohio, today, for murder.

Hon. I. P. Christianity has resigned as United States Senator from Michigan.

Several murders were committed in different parts of the country since our last issue.

The President has approved the bill to make the 22d of February a holiday in the District of Columbia after the present year.

In the fourteenth century the "Black Death" plague left 80,000,000 dead. The number of its victims in the nineteenth century may not be less.

Secretary Sherman has received the report of the commission for the selection of a site for the Kansas City Postoffice. They have selected a location on the corner of Ninth and Walnut streets in that city. Their report will be confirmed.

Memphis has adopted a plan of settling old debts that bids fair to become quite popular in many parts of the country. Dallas, Texas, has no further need of a city government, and proposes to abolish it, and wipe out the municipal debt at one blow.

A preacher in Kentucky the other Sunday, becoming exasperated, paused in his discourse to say: "Ladies and gentlemen, if you give me your close attention I will keep a lookout on that door, and if anything worse than a man enters I will warn you in time to make your escape."

Mr. J. C. Martin, of Kingman county, has introduced a bill in the House to have all the laws of a general nature published in two newspapers in each county in the State. As the case now stands every man is supposed to know each and every statute, when in fact he has no means of ascertaining what is law, unless he purchases a copy of the revised statutes, at a cost of \$10 or \$12; but if these laws were published in the county papers, every one could become thoroughly acquainted with them at a comparatively small increase in the State expenses; and for this reason alone the bill should pass.

A dispatch from Kansas City, Feb. 11, says a terrible accident occurred about 7:30 o'clock this morning at the foot of Grand Avenue, in the cut being made for the Chicago and Alton railroads. As the train cut, with its almost perpendicular walls, ninety feet high, caved in and buried the men and their teams under 6,000 feet of earth. There were four teams in the cut at the time, and ten men working at each team. Besides these there were the foreman, James McCarthy, and his clerk, and two men with picks. Six men were taken out dead and three badly wounded, one of whom afterwards died.

STATE CIBLETS.

The Russell Record was dressed in blue last week.

Parsons has a daily paper, called the Infant Wonder, which is a quite lively little sheet.

Both Houses of the Legislature have appointed committees to investigate the late Senatorial election.

D. C. McCray of the McPherson Freeman has stepped "down and out," and H. D. Kelly is now running that paper.

Eckles, white, has resigned as Chaplain of the House, and Henderson, colored, has been elected to fill the vacancy.

The Supreme Court has decided, in the Scrafford habeas corpus case, that the fact of the case going over from one term of court to another, during the trial, did not operate as an acquittal of the defendant. Scrafford's attorney will now apply for a new trial.

DISTRICT COURT.

S. R. PETERS, JUDGE.

Since our last report the following cases have been disposed of as follows:

State of Kansas vs. John and Joy Carson, stealing cattle; dismissed.

S. P. Watson vs. M. K. & T. R. R., quit title; judgment for plaintiff Heirs of Amos Noyes vs. M. K. & T. R. R., quit title; judgment for plaintiff.

H. Harris vs. Wm. R. Tiger; judgment for \$38.

D. K. Carter vs. Pat Stapleton, Rod Overseer; injunction made perpetual.

John Johnson vs. Wm. Jeffrey et al, injunction; settled.

Emilie Eikenbury vs. Bazaar Township, damages; judgment against plaintiff.

J. P. Dean vs. S. D. Hudson et al, forcible entry; judgment for plaintiff.

Charley Clusman vs. Board of County Commissioners, road damage; judgment for \$4.63.

Lucy A. Park was allowed to purchase a certain tract of school land.

David Shaft vs. W. A. Morse; judgment for \$8.17.

A FACT FOR THE SCIENTISTS. A recent powder mill explosion in the vicinity of San Francisco furnishes an interesting fact for the scientists, and gives rise to the question whether the phenomena of earthquakes may not be due to other causes than those to which they are now attributed. We find the following item in the San Francisco Bulletin: "It is worthy of note, in a scientific point of view, that the stroke of a hammer driving a nail in a piece of wood, which exploded the Giant Powder Works, also shook a city. There is no part of San Francisco in which the concussion was not felt, though the works were located five miles from the center of population. This morning it is reported that the shock was noticed at San Jose, fifty miles off. The general effects were precisely similar to those produced by an earthquake. The direction of the motion was not the same in all places. Topographical elevations may account for deflections, but the general movement was North and South. Here we have a force external to the earth producing phenomena precisely similar to those supposed to emanate from the interior. The coincidence, to say the least, is very remarkable. No one accustomed to earthquakes experiencing the shock of Wednesday would have set it down for anything else but an internal concussion."

WHY BEN VOTED FOR JEFF. The following letter which we clip from the Moberly Missouri Tribune, was received a few days ago by a gentleman of that city:

BOSTON, MA-S., Jan. 5, 1879.

DEAR SIR: I do not know as I ought to write to you to decide a bet, because you ought not to bet; but to set you right in the matter in which you seem to be interested, allow me to say that in the Democratic convention at Charleston, South Carolina, in the year 1860, I voted fifty-seven times, as I remember it, for Jefferson Davis, of Mississippi, afterwards President of the Confederate States, as candidate, for my vote and that of my colleagues were the only ones he had. I believed him to be a representative man of the South, and subsequent events have proved that I was right. And I believed then, and I believe now, that if he could have been nominated and elected, the war would have been saved and the attempted disunion prevented, for he would have been chosen to be President over thirty-two States rather than fifteen, and my experience has been that the North always got more consideration on questions of human liberty from a Southern statesman as President before the war than it did from a Northern doughface, and that remains true down to the present time.

NOTHING SHORT OF UNMISTAKABLE BENEFITS Centered upon thousands of sufferers could imagine and maintain the reputation which Ayer's Sarsaparilla enjoys. It is a compound of the best vegetable, mineral and iron, and is the most efficacious of all remedies for scrofulous, mercurial, or blood disorders. Uniformly successful and certain in its remedial effects, it produces rapid and complete cures of Scrofula, Sores, Boils, Humors, Pimples, Eruptions, Skin Diseases and all disorders arising from impurity of the blood. By its invigorating effects it always relieves and often cures Liver Complaints, Female Weaknesses and Irregularities, and is a potent renewer of vitality. For purifying the blood it has no equal. It tones up the system, restores and preserves the health, and imparts vigor and energy. For forty years it has been in extensive use, and is today the most available medicine for the suffering sick, anywhere.

The phenomenal arms and neck of Miss Boyle, a young English lady visiting Lady Thornton, at Washington, continues to excite admiration and remark.

An Iowa court has decided that drivers are under legal obligation to treat people decently who desire to pass them on the public road.

A TEST CASE.

The late action of the House of Representatives in rejecting the bill to appropriate \$65,000 for the rebuilding of the William and Mary College in Virginia, was a good omen to the Republican's creed about the payment of Southern claims by Democrats.

According to the boast of Senator Sherman in his speech at Mansfield, O., in 1876, the Republican Congress paid ten millions of these claims a year during the last ten years they had control of both Houses of Congress.

Yet we presume the average Republican new paper will continue to yell rebel claims against the Democratic party with as much gusto and zeal as the Democrats.

COUNTY PRINTING.

The seven-month Public Press, under the foregoing head, says: "Annually in every county within our State there is a struggle between the newspapers for the county printing, the awarding of which has been left in the hands of the County Board.

"We suggest that the position of county printer be made an elective office and that the people who must finally foot the bills be permitted to say through their ballots who shall control this department of the county business the same as that of Treasurer, Recorder or County Clerk.

"We would suggest, in case such a law should be passed, that the election take place annually, and that no paper nor the publisher thereof shall hold the office for more than two years, consecutively, provided there be any other paper published in the county, which shall have been in operation for six months prior to the election proposed.

said office at least one year; provided there be any other paper or papers in the county at the time of the passage of the act.

"THE INVESTIGATION."

Though the investigation of election frauds is still going on in Washington; the people of the great and prosperous west are not agitated very much over the title of Hayes to the Presidency—what they want to know is where to go to during the summer for recreation and pleasure—and as usual the Old Reliable Household and St. Joseph Railroad comes to the front and offers cheaper rates, close connections, and through cars from the Missouri River to the principal places of interest in the North, South and East.

THE NEEDHAM Musical Cabinet. THIS new and wonderful instrument enables any one, whether understanding music or not, to play any desired melody or harmony, sacred or secular, from the most plaintive dirge to the most lively dance music. It possesses a mechanism of marvellous simplicity, requiring but the intelligence of a child to manipulate, yet capable of reproducing, without limitation, the musical compositions of the PAST, PRESENT and FUTURE. The execution is faultless, clear in melody, harmony and rhythm, and the instrument is eminently adapted for Sunday Schools, prayer and religious meetings, home devotional exercises, and in all cases where good, correct music is required, and no musician is at hand to perform.
