The public is likely to learn soon the true story of "Black Friday," Sept, 24, 1869, through the medium of the United States District Court, at New York, in the proceedings in bankruptcy of Albert Speyers, broker for the Fisk and Gould combination of gold bulls. The sales involving a difference of between sixty per cent. and one-eighth of one per cent. premium, is a question which must come before the court in the proceedings growing out of the case.

CHASE COUNTY HORTICULTURAL SOCIETY.

The society met at the Court house, in Cottonwood Falls, on Saturday, Nov. 16, persuant to adjournment.

President Freeborn in the chair.

The committee on constitutions and by-laws, reported progress and asked leave to continue the time for their report until the next regular meeting. On motion leave was granted.

On motion of H. C. Varnum, the present officers were continued in office until the regular election of officers.

On motion of Samuel Baker, the Secretary was invited to address the society at its next regular meeting, on the subject of horticulture.

The subject of grape growing was discussed by the members present, at some length.

Mr. Baker stated that the Deleware was very successful with him.

J. W. Byram said he had not been successful with the Deleware but considered the Concord and Ive's seedling the best standard grapes; with Dracut Amber and Hartford Prolific, for early varieties.

The President considered Ive's seedling probably best with him. He said his Concord rotted badly this season.

Mr. Baker's grapes had rotted to some extent but his vines suffered more from the grapes being punctured by some insect which caused them to dry up on the vines.

Mr. Freeborn considered it done by wasps, which was generally concurred in by the members present.

On motion, the Society adjourned to meet on Saturday, December 7, at 2 o'clock p. m.

All persons friendly to the cause of horticulture are earnestly invited to be present. Come one and all, and let us have a society worthy of the county and the Cottonwood Valley.

J. W BYRAM, Secretary.

ABOUT PAYING TAXES.

For the information of those not familiar with our tax laws we state that taxes are due and payable November 1st, and that December 20th is the last day upon which payment can be made without penalty.

Before December 20th half or full payment may be made, at the option of the taxpayer, but if payment is deferred until after that date full payment must be made with penalty.

As an inducement to full payment, a rebate of 2½ per cent. will be allowed; and as a reward for prompt payment of half the taxes charged, the time for payment of the remaining half is extended six months, or until June 20th without penalty.

In default of payment, penalties of five per cent. each will be attached December 21st, March 21st and June 21st, and sale of the property will occur on the first Tuesday in September next following.

The same rule applies to taxes on personal property, excepting in cases of default, in which event writs will be put into the hands of the sheriff for collection, on the 10th of January, for default in payment of first half, and the 10th day of July for default in second half.

KENTUCKY'S PATRIARCH.

Charles Addington, Esq., was born in Culpepper county, Virginia, October 10, 1777, and moved to Scott county, Kentucky, where he now lives, about sixty years ago. He has been married three times, first in 1803, second in 1840, and the third time in 1870. He raised 7 sons and 8 daughters, and has 167 grandchildren, 450 great grand children, and 39 great great grand-children now living. On his centennial anniversary his relatives and friends gave him a grand dinner, at which about 2,000 persons attended. The old gentleman, while enjoying the bountiful repast, told of many pleasant recollections of the past. He had been a consistent member of the Baptist church for fifty years, and the family have the reputation of being orderly and law abiding citizens. Not one has ever been known to be guilty of any penal offense. They have held public offices of trust with honor and dignity, and are noted for their mathematical talents, many of them teachers in the best schools.—*Mount Sterling Gazette*

HAWKEYE PUBLISHING CO.,
BURLINGTON, IOWA.

PROSPECTUS OF THE 9TH VOLUME, 1878-79.

THE ALDINE,

THE ART JOURNAL OF AMERICA

SOLD ONLY TO SUBSCRIBERS.

Complete in 24 Parts, 50 Cents each.

ISSUED MONTHLY.

It is the purpose of the publishers to persevere in their efforts to keep the Aldine, as an exponent of Art work, free from competition, and to spare neither thought nor expense to still further beautify and improve the broad pages of the work.

While urging the necessity of cultivating a taste for the beautiful in Nature and Art, the Aldine has not been unmindful of the force of example and illustration, therefore it has been a constant study to show, in the pages of the work itself that improvement so certainly consequent upon sincere devotion to such subjects. As in the past, so in the future, the Aldine will continue to be an example of the progressive and refining influences of connection and association with the beautiful and true.

The volume now in preparation, while it will not suddenly depart from the general course of its predecessors, will yet present many modifications and improvements, the result of study and experience in fitting the Aldine to worthily maintain its position as "The Art Journal of America."

In the more mechanical department of the arrangement or make up, changes, in themselves slight, will largely enhance the general beauty of the pages, which had already won admiration so hearty and universal.

Editorially, the Aldine will deal broadly and fairly with Art in general and American Art in particular. Carefully prepared papers will keep the reader well informed on all Art topics of the important Art centers of this country and Europe. The important exhibitions will receive full and timely notice; and artists whose achievements have won for them the right, shall be introduced and given a proper personality by sketches, biographical and critical. It will be the purpose of the Editor to earn for the Critical and Literary Departments of the Aldine a recognition in every way worthy of its established and admitted preeminence in Art illustration.

The Art Department of this volume will be richer in representations of American natural, scenery than any of its predecessors. To aid a popular decision on the claims of rival localities to the title, "The Switzerland of America," our artists are exploring the wonders of those regions of our country which have more recently been brought into notice. The Yo Semite and the Yellowstone, the Sierras and the Rockies shall be brought home to the patrons of the Aldine—but not to the exclusion or neglect of our glorious old Alleghanies and their more familiar surroundings.

Experience, and capital largely increased by the liberal patronage of an appreciative public, has made possible the introduction of greater system and plans in selecting the Art exhibits, so as to better cover all desirable ground, enabling an harmonious and judicious combination and progression so to speak, through the wide world of Art, Examples by figure, animals and landscape painters of every school—ancient and modern—American or foreign, will appear with all the old refreshing variety, but with an added advantage of more deliberate arrangement and defined purpose, to instruct and inform as well as to delight,

The publishers have entire confidence that the public will continue the evidence of their appreciation of these efforts to maintain an Art publication that shall be characteristic and worthy of the progress and liberal tastes of Americans, and they anticipate with pleasure the opportunity for a practical verdict on their past achievements which the commencement of a new volume affords.

PLAN OF PUBLICATION.

The Aldine volumes will, in future, be completed in 24 parts, at 50 cents each, published monthly and sold only to subscribers for the complete volume. Subscribers will pay on delivery for the parts actually received, and no canvasser or deliverer is authorized to vary these terms in any way or to make any representations on the faith of the publishers outside of the regular prospectus. The Aldine will not be sold by book or newsdealers generally.

Any person desiring to act as the agent for any particular locality, should apply promptly, giving full particulars as to business, references, and territory desired. Liberal arrangements will be made with the best parties.

COTTONWOOD FALLS:
FRIDAY, NOVEMBER 22, 1878

Congress will meet one week from next Monday.

The New York *Sun* says: "Mr Tilden will not again be the Presidential candidate of any party."

Had the Greenbackers voted for Blair in the Second District, Haskell would have been beaten by about 2,500 votes.

It is said that Col. Isaac A. Eaton, of this State, will be a candidate for Sergeant-at Arms of the United States Senate.

The Lawrence *Standard*, the leading Democratic weekly of the State, has put on an entirely new dress, and presents a decidedly handsome appearance.

The complete returns show that 74 Republicans have been elected to the Kansas House of Representatives, 29 Democrats, 15 Greenbackers, 7 independent Republicans and 2 Prohibitioists.

Already have the Republicans begun to move upon the silver bill Silver coinage is to be stopped again, and the single standard of gold is to be made the future monetary standard of the United States.

Ehrichs' Fashion Quarterly for the winter, replete with choice reading that will please the old and young, is on our table. Price, 50 cents per year. Address, Ehrich & Co., 287 to 295, 8th Avenue, New York.

November 15 the fast (?) mail brought the Topeka *Commonwealth* of July 12, to this office. Now Topeka is 82 miles from here, and that paper was 126 days in reaching its destination, making something over a half mile a day.

The Louisville *Courier Journal* has suspended the daily publication of its tabular statement of deaths from yellow fever, winding up with the statement that fully 14,000 persons have been swept away by the Southern pestilence.

John J. Ingalls, S. C. Pomeroy, Geo. T. Anthony, B. F. Simpson and W. A. Phillips are all Republican candidates for the United States Senate, from this State; but it would not be surprising if some dark horse would step in and beat them all.

Are we not mistaken about hard times? Can any country be hard up which consumes annually 50,000 gallons of whisky, 10,000,000 barrels of beer, and 2,000,000,000 cigars? Yet these are the exact figures gives by the Commissioner of Internal Revenue, and this is an official statement of such consumption.

Mr. Peter Cooper did not favor the political aspirations of his son, the Mayor-elect of New York. He expressed the hope that no one would be moved to vote for him because he was the son of Peter Cooper; and even went so far as to state that the aforesaid son was "a decidedly unreliable man, unfaithful to his friends, and one in whom no confidence could be placed." The Cooper household must have had some tremedous family jars.

The Greenbackers have proven to be a disturbing element of no mean strength throughout the country, but their extreme views and irrational desires have drawn in none, but driven many away. True, they have gained local victories in many places, but they have been able in no instance to exercise any influence on National affairs, save to strengthen the opposition to them, and give the Republicans on a hard-money platform more power in the next Congress than they otherwise would have.

The fact is now well known that upon 1,200 exhibits at the Paris Exposition of 1878, the United States have received 750 awards, divided as follows: Grand prizes, 10; diplomas of honor, 30; gold medals, 135; silver medals, 200; bronze medals, 220; honorable mentions, 156. This is the largest list of awards yet given the United States at any foreign exhibition. At Paris, in 1867, the United States had 536 exhibits, and 291 awards. At Vienna, in 1873, the exhibits numbered 643, and the awards 375.

The Democrats will have a majority in both branches of the 46th Congress. They have have not before controlled both branches since the first Congress which sat in Buchanan's Presidential term. The intervening period of twenty-two years has been marked with some of the most astouding events in the history of the country. They are full of lessons and of warnings to the Democratic party. When, after the 4th of March next the Democracy find themselves in a majority in both Houses of Congress for the first time since the advent of Buchanan, will they profit by the teachings and the admonitions of the past, or the contrary?

It is very well to say: "No North no South, no East, no West." The words, when Daniel Webster used them, were not a more rhetorical phrase, but they were full of meaning. They were the pith of a political sermon, enforcing the duty of supporting the Constitution as resting upon all parts of the country alike, while the ægis of its protection extend equally over all. In the view of the Constitution we were all one country—no North, no South, no East, no West; but, curiously enough, this doctrine has since been cited in defense of sectional movements and sectional measures; and even now we hear much talk of a broad National policy by those who mean nothing more nor less than the re-establishment of the old, narrow, sectional rule of the South. Of this the people of the North are apprehensive, and there can be no use in concealing the fact. The chance of the Democratic party in the next Presidential election depends very mucd on the spirit manifested by the Southern members at the approaching session of Congress.

In all the great States of the Union, the Republicans are in a hopeless minority. Leaving out of the count a few small States like Nevada, Rhode Island, Nebraska and Colorado, they have only carried the others which they place in their column, by narrow pluralities In the light of the recent elections, if the opposition unite, the Republican party can stand no possible show of success in the great States of New York, Pennsylvania, New Jersey, Ohio, Connecticut and Illinois. What States the Democrats have carried they have carried by majorities—by a greater vote than all the opposition combined. The Republicans have won success in the States we have named, and in others, simply because the opposition was divided. An analysis of the vote cast on the 5th instant demonstrates beyond the shadow of a doubt that the Republican party is a helpless minority party. The Republican party of 1878 is no greater, and by no means as great, as it was in 1876, when they fell short of a majority by over a quarter of a million of votes. Talk about a solid North, but let the opposition to the Republican party unite, and it will be solid indeed—solid for the Democratic candidate for President in 1880. The Republican party has won some victories this year, but it was done by pluralities, not by majorities.

Why all this talk about redemption? What does any loyal American want with money that has to be redeemed? Is he afraid that the government will go down? If our citizens will take a sober view of these matters we are disposed to believe that they will see the wisdom and prudence of having money that is based on the credit of the nation. This will make every citizen a patriot, because he will understand if he aids in destroying the government he aids in the destruction of his own money and property. If every dollar in this country is based on the credit of the nation then every citizen in the nation will be interested in maintaining the government. The credit of the government is now so good that foreign money lords are eager to buy our bonds, and they are based on the credit of the government, for there is no law by which a foreign citizen can sue and collect a debt off this nation. If they were to get judgment what property would they attach and sell? Who would undertake to collect such a debt? This nation sold its bonds to such parties as were willing to trust to the honesty of the people to pay the obligations of the nation, they were therefore sold and bought on the credit of the government. Let us therefore make all of our money national in its character and base it on the credit of the entire resourses of the nation and the honesty of the people, and we shall have the best money in the world and the strongest nation on the globe.—*National Citizen-Soldier.*

CHASE COUNTY.

To Those Wanting Information.

Letters reach us, from parties in the East, almost daily, asking for information about Chase county. The questions are numerous and it would require too much labor and money to answer them all. So we have decided to give the advantages offered to farmers, stock raisers and business men as briefly as possible:

In the first place, money is a necessary article in Kansas, as well as elsewhere and you will need some to commence with Pluck and energy are, also, necessary articles.

As good land as man ever tilled can be had here for almost nothing. Healthier country can not be found. Winter wheat is an almost sure crop; corn yields largely; other grain as well as anywhere else. To give an idea of the way wheat and corn yields in Chase county, we give the following showing for 1875: Wheat, acreage, 6,013½; yield, 132 102 bushels; value of product, $138 641 58; Corn, acreage, 27 070; yield, 1,136,940 bushels; value of product, $227 388

Irish potatoes yield 80 bushels to the acre; sweet potatoes 163 bushels; broom corn, 870 pounds; rye, 22 bushels; barley, 22 bushels; oats, 35 bushels; tobacco, 650 pounds. Thus, it will be seen, that farming pays in Chase county

Farm laborers are paid, per month, with board, from $12 to $26.

Vacant lands sell at from $1 50 to $9 per acre.

Persons that have any knowledge of stock raising will see, by the large corn product, that this is the place for them to make money. Cattle do well; horses and hogs could not do better. Hogs are hardly ever troubled with the diseases so common in the East. Cattle winter well; in summer our unlimited range furnishes ample feed.

It is conceded that Chase county is the best location for sheep-growers in Kansas; and we honestly believe it to be a fact. Men of competency and practical experience in sheep-raising give it as their opinion, that wool of the Merino and other fine varieties can be profitably raised here, at a cost of ten cents a pound. It is believed that the finer wooled will pay the best, as a great deal of expense is saved by being able to run them in large flocks. There is generally a fair competition for the purchase of wool. Our grasses are good and nutritious, and herbs and shrubs plentiful. Our upland is rolling. The business of sheep-growing is bound to be an important one in this county, and the time will soon come when our hills and vales will be dotted over with sheep, as well as cattle

Dairy farming is a branch of industry that will pay in this county. It costs very little to feed milk cows. Butter and cheese have a ready sale.

Chase county has thirty-six good schoolhouses, in which school is held, at least, eight months in the year, thus affording better educational facilities than can be found in the older States.

We have Congregational, Catholic, Methodist, United Presbyterian, Quaker, and other religious denominations worshiping in this county.

Lodges of Masons, Odd Fellows and other benevolent societies are in flourishing condition in this city

Chase county building stone has justly gained the reputation of being the best in the West; and can be found upon almost every quarter section in the county.

To parties having money to invest in manufacturing establishments we can say that Chase county has from seventy-five to one hundred miles of the best water-power in Kansas, with material to build dams and mills everywhere. The streams are clear and swift-running, with rocky beds. Money invested in utilizing our water-power will yield tenfold

Chase county has room for a woolen mill, which, we think, would pay. Also, a paper mill; and three or four cheese factories. Besides, unlimited room for all other industries.

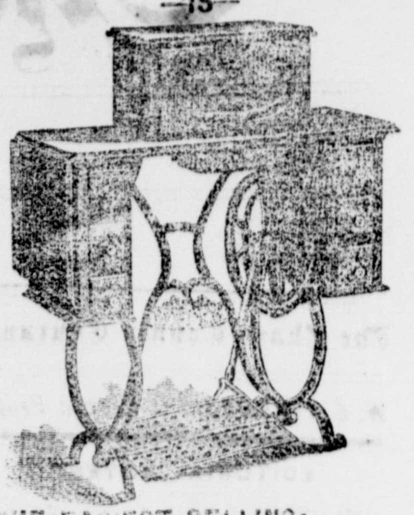
—IS—



THE EASIEST SELLING;
THE BEST SATISFYING
Sewing Machine.
Its introduction and world-renowned reputation was the death-blow to high-priced machines.
THERE ARE NO SECOND HAND WHITE MACHINES IN THE MARKET.
This is a very important matter, as it is a well-known and undisputed fact that many of the so-called first-class machines which are offered so cheap now-a-days are those that have been repossessed (that is, taken back from customers after use) and rebuilt and put upon the market as new.
THE WHITE IS THE PEER OF ANY SEWING MACHINE NOW UPON THE MARKET.
IT IS MUCH LARGER THAN THE FAMILY MACHINES OF THE SINGER, HOWE AND WEED MAKE.
IT COSTS MORE TO MANUFACTURE THAN EITHER OF THE AFORESAID MACHINES.

Ayer's Cherry Pectoral

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

The reputation it has attained, in consequence of the marvellous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every section of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. All who have tried it, acknowledge its superiority; and where its virtues are known, no one hesitates as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affections. CHERRY PECTORAL always affords instant relief, and performs rapid cures of the milder varieties of bronchial disorder, as well as the more formidable diseases of the lungs.
As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, it is invaluable; for, by its timely use, multitudes are rescued and restored to health.
This medicine gains friends at every trial, as the cures it is constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it never will.
Eminent Physicians throughout the country prescribe it, and Clergymen often recommend it from their knowledge of its effects.

OLLA PODRIDA.

One of the articles shipped from India to China is salted rats, which are, as is well known, highly appreciated in China as an article of food.

The St. Paul *Pioneer Press*, a Republican paper, says: "The Republican party might put train robbing and garroting into its platform and still carry Kansas."

The Berlin police have lately found that at least one-tenth of the population of that city live in cellars. The mortality among them is great. Half of the houses of the city are excessively crowded.

New discoveries of gold have been made in Siberia, near the source of the Konnisar; and a nugget of gold, weighing 147 pounds, the largest ever discovered in Russia, and probably in the world, has been found on the banks of the Upper Tounguska, about 100 versts above the river's mouth.

Judge Simmons, of St. Louis holds that street crossings are made for the convenience of persons on foot, and that it is the duty of the drivers of all vehicles including street cars, not only to check their speed when any person is on a crossing, but to stop where there might be the least danger of a collision.

The latest novelty is a "barometer handkerchief." The design printed on it represents a man with an umbrella. In fine weather the umbrella is blue, in changeable weather gray, and in rainy weather white. The secret lies in printing the design in chloride of cobalt; but the first washing removes the sensitive chemical and destroys the barometric properties.

Boston policemen are compelled to wear leather collars, the intention being to make them hold up their heads in a soldierly manner; but the leather rubs their chins, and the constraint grows exceedingly irksome after a few hours. The policemen complain loudly, but the Commissioners say that something is necessary as a check on the tendency to slovenliness.

The latest victim of college "hazing" is the son of Col. Robert Ingersoll, the outrage occurring at Cornell University. The young man was bound, gagged and suspended head downward. Next his mustache was shaved off, his face blackened and his clothes torn—all because he refused to conform with certain rules laid down for his government. It was a piece of ruffianism calculated to moderate Col. Ingersoll's views concerning the utility of future punishment.

The Russian papers have lately contained reports about a band of robbers which has appeared in the district of Paulovsk, in southern Russia, and has spread terror through all the neighboring region. It is said to be over 200 strong. The Captain is reported to be a peasant woman of singular beauty, who was previously connected with a gang of forgers of rouble notes. The Russian Government is so desirous of procuring the arrest of this female chief that it has set a price of $11,250 upon her head.

Calhoun was a Virginia infidel. He wrote a book against Christianity and peddled it throughout the State. Wherever a camp meeting was in progress, there he was to be found, selling his book and making speeches. Recently he fell among the encamped negro Methodist of Crab Bottom. They set about converting him. They surrounded him, drowned his voice with prayer and singing, got him on his knees, and finally brought him to repentance. He burned his books, and has taken the agency for a Christian publication.

Mackey, Fair and Flood are the great Bonanza Kings of California. All are of Irish birth. Mackey's income is estimated at $800,000 per month. Fair's at $500,00, and Flood's can not be fairly estimated, but it is sufficient to give him the control of the San Francisco Mining Stock Exchange, the fluctuations of which, in a single day, range from thirty to fifty per cent. The united fortunes of the bonanza triumvirate can not be less than $100,000,000, of which Mackey alone has $40,000,000. All are yet in middle life, and should they live a decade or more, it is thought they will be the richest men the world has ever seen.

THANKSGIVING PROCLAMATION.

The Governor has issued the following proclamation:

The civil and religious liberty, the shield of law and equality of rights guaranteed to us as a people are but fruits of a religious faith in the existence, wisdom and protecting care of a God, whose power and grace are equal to the protection and sustenance of all who fear Him and respect His commands.

The fathers, even before the Colonies became States and the States formed a Union, set aside one day in each year for popular thanksgiving and prayer to Him who gave law to their law givers, wisdom to their rulers, and law-abiding patience to the ruled.

This religious custom of the Colonies was followed by the States, and adopted by the Nation, and now, in harmony with a proclamation of the President of the United States, I, George T. Anthony, Governor of the State of Kansas, do hereby appoint and set apart Thursday, the 28th day of November, as a day of prayer and thanksgiving, to be observed by the people of this Commonwealth.

Let all be united on that day in a profound and grateful recognition of the Divine care of our State, so indelibly impressed upon every page of its history, so grandly realized in its marvelous achievements, and so happily enjoyed in the peace and prosperity of its citizens.

Let hearts, made grateful by plenty, dictate words of sympathy and extend an open hand of charity to the unfortunate and needy, to the end that this day may become precious in memory as a day full of joy, bright with hope, and fruitful of good deeds.

In testimony whereof, I have hereunto set my hand, and caused to be affixed the great seal of the State of Kansas. Done at the capital, this eleventh day of November, in the year of our Lord one thousand eight hundred and seventy-eight.

[L. S.] GEO. T. ANTHONY.

By the Governor.

THOS. H. CAVANAUGH,
Secretary of State.

BE KIND TO YOUR MOTHER.

If we had any advice to give to a young man, it would be this: "Be kind to your mother." Yet none can appreciate its importance, until, alas! she has gone forever. He will then learn that she was his best earthly friend. The world will forget you, will do you many wrongs—but your mother, never. It has been truly said: "The world will persecute you while living, and when dead plant the ivy of nightshade and slander upon your grassless grave; but your mother will love and cherish you while living, and, if she survives you, will weep for you when dead such tears as none but a mother knows how to weep." Cherish your mother, young man. You may not think much about trials and troubles; but when misfortune does come, you know to whom to go with the certainty of meeting a sympathizing friend—and that is your mother.

We know, from sad experience, that, although your dear mother's face is growing thinner, the gray hairs becoming more frequent, yet you will not suffer yourself to think that she is soon to be taken away from you forever; but that time will come sooner or later. Although you may be far away from her, when the tidings come to you, they will kill the laugh upon your lips, and instantly dash your joys away. Then it will be that every kindness you have shown her will come as ministering spirits of comfort, even as every sorrow you have caused her will come to make life bitter.

THE CURRENCY QUESTION.

Notwithstanding the fact that thousands of our people are worrying themselves almost to death over the vexed question, even to the extent of neglecting their business, their homes and their duties to their families, there are still thousands upon thousands of smart, hard working, intelligent men pouring into the great Arkansas Valley, the Garden of the West, where the Atchison, Topeka and Santa Fe Railroad offers them their choice of 2,500,000 acres of the finest farming land in the world at almost their own prices. If you do not believe it write to the undersigned, who will tell you where you can get a cheap land exploring ticket, and how, at a moderate expense, you can see for yourself and be convinced.

TO DEMOCRATS.

We desire to say a few words to our Democratic friends. We want to say this. We desire the name of every Democrat in the county. We want every man who votes the Democratic ticket to subscribe for the COURANT. It costs but two dollars a year. You can afford two dollars for the benefit of your paper. The COURANT has been here long enough for you to know that it is one of the permanent institutions of the county; but in order for it to be such a paper as you require, you must support it. Everybody, regardless of politics, has been good to the COURANT. Republicans have looked upon our paper as one of the wants of the place. The COURANT has done well, financially; the subscription has increased reasonably fast, but there are a great many people in the county who could be benefitted by reading the COURANT. Democrats who read this article must help to spread the truth. They must constitute themselves into so many agents, and solicit their friends to subscribe. Besides doing that, a great many Democrats can afford to take more than one copy and send it East to some friend, thereby advertising the county, thus assisting to invite immigration. We trust that our Democratic friends will assist us. We hope to be able to add from one to two hundred names to our subscription list before the close of the year.

BEE CULTURE.

The Kansas *Spirit*, in an article upon bee culture says there are ten thousand farmer's families today in Kansas who might, without employing extra labor outside their families, or subtracting any portion of time from necessary duties raise from fifty to five hundred pounds of honey apiece. The first amount would add in value to our products a million of dollars; the last amount ten million of dollars. These sums in an economical point of view are certainly worth considering. As a business bringing into profitable employment many who are now idle, it should not be neglected; and as a resource and recreation for the young, the culturing and moral influence would be most important.

The coming winter will furnish a good opportunity for our farmers to construct the necessary hives and make all such preparations for engaging in the business another season.

A. Morgan.

QUININE AND ARSENIC

Form the basis of many of the Ague remedies in the market, and are the last resort of Physicians and people who know no better medicine to employ, for this distressing complaint. The effects of either of these drugs are destructive to the system, producing headache, intestinal disorders, vertigo, dizziness, ringing in the ears, and depression of the constitutional health. Ayer's Ague Cure is a vegetable discovery, containing neither quinine, arsenic, nor any deleterious ingredient, and is an infallible and rapid cure for every form of Fever and Ague. Its effects are permanent and certain, and no injury can result from its use. Besides being a positive cure for Fever and Ague in all its forms, it is also a superior remedy for Liver Complaints. It is an excellent tonic and preventive, as well as cure, of all complaints peculiar to malarious, marshy and miasmatic districts. By direct action on the Liver and biliary apparatus, it stimulates the system to a vigorous, healthy condition.

"THE INVESTIGATION."

Though the investigation of election frauds is still going on in Washington; the people of the great and prosperous west are not agitated very much over the title of Hayes to the Presidency—what they want to know is where to go to during the summer for recreation and pleasure—and as usual the Old Reliable Hannibal and St. Joseph Railroad comes to the front and offers cheaper rates, close connections, and through cars from the Missouri River to the principal places of interest in the North, South and East. Through Day Coaches and Pullman Sleeping Cars are run from Missouri River points to Chicago, via Quincy, (and the Chicago, Burlington and Quincy Railroad,) making close connections with all lines to the North and East, also with the different steamboat lines on the Great Lakes. This is the *only* line offering a through Day Coach and Pullman Sleeping Car, from Missouri River to Toledo, Ohio (via the Wabash) without change making close connections with Rail lines to all points East, direct connections made with Boat for Put-In-Bay, (the Saratoga of the west). This is also the *only* line offering a through Day Coach from Kansas City to Indianapoils *without change*—making close connections with all lines East and South. Pleasure seekers, business men and the public generally should remember this fact and purchase their tickets accordingly; for sale at all offices in the west.
