# Lower Rubber Mark HICKS AGAI SAVINGS

NCE MORE, through economies offered by modern merchandising and declines in the rubber market, the Hicks Rubber Company stores and associated stores take the lead in announcing lower tire prices.

Linking Dayton quality and Hicks service—the finest tire and the largest distributor—the Hicks policy begins to operate when the raw material is purchased and ends only when the finished product has given the maximum service

The state of the s Under our supervision, everything - expense, tradition and precedent—has been sacrificed in order to build the greatest tire value in the world. Tire history reveals no contract that is so far reaching, in giving you a super tire at a moderate price, as the contract between the Hicks Rubber Company and the Dayon Rubber Manuecturing Company 

So close had contact between the factory and the consumer been brought, so much of the usual warehousing and distribution expense has been eliminated by the Hicks policy of having carloads of Dayton tires shipped direct to individual stores, that we have been enabled to take tires designed to be high priced and consistently reduce them to reasonable levels.

Hicks modern merchandising, with its centralized buying power and its inevitable reward—large sales volume -has revolutionized the tire business in the Southwest and mode the name of Hicks synonymous with better tire

In line with our policies, in view of rubber market declines, and in response to public demand, this announcement of tire price reduction is made-not only on the super-standard Davton Thorobred All-Black tire that has mon in place of leadership over highly-advertised firstline tires, but on the famous Dayton Red Strine Stabilized tire, safest and longest running tire on earth.

Thus the Hicks Rubber Company stores and associated stores again keen faith with the public, which has alrays kept faith with us, availing it alfof Hinks money-saving apportunities and giving us the great sales volume that faith and service has visioned.

ELIZABETH ARDEN
method — which keeps
your skin healthy —
will keep it lovely too

No CREAM transforms the skin. But scientific care, which encourages swift circulation through the tissues and keeps the skin cells vividly healthy, will make your skin clear, soft and firm. This is the foundation of the Elizabeth Arden method. Cleansing the skin-with Elizabeth Arden's Venetian Cleansing Cream-removes impurities which clog the pores and cause blackheads. Brisk patting-with Ardena Skin Tonic and Special Astringent tones the skin and firms the contours. Nourishing-with Orange Skin Food or the delicate Velva Cream-fills out the skin cells and so corrects lines and wrinkles. Followthis same method in the care of your skin at home.

Elizabeth Arden's Venetian Toilet Preparations are on sale as
