House Flares Up Over New Penitentiary Bills

(By Associated Press)
AUSTIN, Jan. 31.—Discussion of the prison bills of Texas grew bitter in the House committee of the whole today as Representative Harry Graves, of Georgetown, resumed explanation of his bill to centralize prison activities at Huntsville. The Senate continued its round table discussion of the question.

Acrimonious questions were asked Graves, and answered in a like manner. Speaker W. S. Barrow called on the sergeant-at-arms to restore order several times. The first flare-up came when Representative George Puri accused Graves of debating the Wallace, or administration bill when under the rules he is only permitted to explain his own measure.

REWARD OFFERED FOR RETURN OF SILVER SET

GALVESTON, Jan. 31.—A liberal reward has been offered for the return of the Jefferson Davis silver set stolen recently from the Artillery Club here.

The set consisted of a tray, coffee urn and two goblets given the club by Jefferson Davis, president of the Confederacy in token of his appreciation of the part the company played in the battle of Galveston, Jan. 1, 1863. The inscription consisted of his name and a compliment to the artillerists for their bravery.

FIRE DOES SLIGHT DAMAGE AT A. L. SPANN RESIDENCE

Fire, caused by placing a can of gasoline near an automatic water heater, did only slight damage at the A. L. Spann home, 1109 Eighth Street, about 3 o'clock Friday afternoon.

Gasoline was being used for cleaning a bath-tub and in some way was placed near the flame of the water heater. The blazing gasoline was thrown into the yard, setting fire to some clothes drying on a line.

Charges Robbery Against 2 Youths

(By Associated Press)
FT. WORTH, Jan. 31.—Charges of robbery with firearms will be filed against two young men, both 18, captured here last night in the act of robbing a drug store.

Officers expect to take the youths, who kept a scrap-book containing newspaper clippings of their activities, to Dallas to answer other robbery charges.

PARENT-TEACHER MEET WEDNESDAY

The regular meeting of the Ballinger Parent-Teacher Association will be held Wednesday at the high school auditorium. Members of the organization are requested to be present.

Measuring Navies Before Committee

(By Associated Press)
LONDON, Jan. 31.—Plans of the five-power naval conference to let a special committee consider two rival methods of measuring navies, global and categorical, were sidetracked today at least for the present.

Faced with an apparent hitch in the British effort to choose committee members to speak for both Great Britain and her dominions, the full conference continued today with the work previously assigned the committee and decided to hold another meeting on the same subject Tuesday.

Baseball Figure Dies Suddenly

(By Associated Press)
HICKMAN, Ky., Jan. 31.—Joe Cantillon, a prominent figure in the baseball world for fifty-two years, died here today as the result of a stroke of apoplexy suffered several days ago.

Missouri Youth Pays for Murder

(By Associated Press)
BOONVILLE, Mo., Jan. 31.—Lawrence Mabry, 19, was hanged here today for the murder of William Busch, a law student, in Sedalia on February 4th, 1928.

John G. Key, of Winters, was in Ballinger Friday attending to business matters and ordered The Ledger to his address for 1930. Mr. Key stated that he wanted to get all the political news during the coming year.

Bomb Wrecks One New Orleans Car

(By Associated Press)
NEW ORLEANS, Jan. 31.—The sixty-fifth bombing of New Orleans street cars since the recent industrial trouble began tore the floor boards from a trolley last night, and shattered windows.

Mr. Angelina Manzoni, 55, suffered from the shock. The crew of the car was not hurt.

YOUNG SALMON ARE RAISED ON CANNED MOTHER FISH

(By Associated Press)
PORTLAND, Ore., Jan. 31.—A cannibalistic trait of new-born salmon to feed on the deceased mother's carcass has solved Washington's problem of food for the small fish, which are reared on the communistic plan by the state each year.

Walter Hafford, of Stevenson, Wash., member of the Washington department of fisheries and game, studied the cannibalistic trait and as a result the state of Washington each year cans millions of salmon mothers.

Cline to Address 1930 Senior Class

May 16th has been set for commencement at the Ballinger high school this year, and Walter Cline, of Wichita Falls, has accepted an invitation to address the class this year. The program will be given in the high school auditorium at night and the public will be invited to hear it. Mr. Cline was to have addressed the class last year and made a desperate attempt to get here for the engagement but due to heavy rains and bad roads he spent the night at a farm home near Ballinger after his car went "dead" in a nearby creek. In accepting the invitation for this year, Mr. Cline wrote Supt. H. C. Lyon that he would leave Wichita Falls in time to arrive here before the hour for the program. Mr. Cline spoke here this month at the annual membership banquet of the chamber of commerce and Ballinger citizens will be glad of the opportunity to hear him again.

Supt. Lyon stated that the class this year would number more than sixty and that an entire week would be taken up with commencement activities.

Sunday, May 11, will be baccalaureate night but the speaker for this program has not been secured to date. An invitation has been extended to a man who is wanted here on this date and school officials are hopeful that he will accept.

The annual expression recital will be presented on Monday, May 12.

The Senior Class play will be offered in the high school auditorium on the night of Tuesday, May 13.

The central elementary graduating exercises will be held on Wednesday, May 14.

Senior Class Day is set for Thursday, May 15.

Commencement is Friday, May 16.

One other recital will be given in connection with the commencement season. Miss Louise Doss will present her music class in a recital, the date for which however, has not been set.

Game Season Will Close Friday 31 Around the World in 10 Days Is His Goal With a Plane

Friday, January 31st, is the last day for hunters and trappers to operate in this section. After sundown on the last day of January there will be no more hunting and trapping. Trappers may look at their traps Saturday morning but that will be the last for this season.

Wild ducks, geese, brant, snipe, gallinules and mud hens are the last of the migratory birds to be hunted this winter. The quail season closed on January 16th. Since that time hunters have spent most of their time hunting ducks and many have reported these fowl plentiful and have brought in the proof. During the recent extremely cold weather ducks flocked to the rivers in this section because all other water was frozen over.

Trappers further west have reported the best season for fur-bearing animals of any in many years. Little trapping is done in this county but houses buying pelts and furs at San Angelo report big business during all months of the season.

The hunting season began in Runnels county on September 1st when the dove season opened. Since that time there has been much game killed and while many will regret the closing of the season on all game they will now commence planning for the fishing season which will soon open.

Favorite Vocations For Local Students

Students of the Ballinger high school have been issued questionnaires recently to learn what vocations they expect to follow when their education is completed or what vocation their parents have in mind for them. Tabulations on the questionnaire show some interesting results. This information is asked by the faculty so that courses may be arranged and studies given pupils that will help them most in their life's work.

Many pupils in the local school did not make any reply to the questionnaire because they probably had not yet made up their minds on their future intentions. Supt. H. C. Lyon tabulates these answers and they greatly assist in advising students what courses to take now and later when they enter college.

Following is the result of the questionnaire just tabulated: doctors 5, clerks 2, salesmanship 1, cartooning 2, railroading 1, government work 1, mechanic 1, inventor 1, tailor 1, architect 4, professional athlete 1, druggist 2, lawyer 4, electrician 1, musician 2, art 2, radio 1, teacher 17, business 33, chemist 1, printer 1, nursing 4, farming 5, engineering 13.

A close study of this list will reveal some interesting facts. The small number favoring farming as an occupation in this agricultural region, and the number of vocations listed cause surprise. A close study of the list show that many have been influenced by their parents' occupations or that of close friends, while others list their favorite vocation as the work they have been engaged in or are perhaps now making a special study of.

Lubbock Citizens Farm Bureau Stung by Promoter Elects President

(By Associated Press)
LUBBOCK, Jan. 31.—After an investigation of a recreation promotion scheme, charges of misrepresentation today were filed against A. L. Block, Dallas promoter.

The names of 111 Lubbock citizens were listed as subscribers to the proposed \$100,000 recreation club.

Approximately \$1,900 in cash and \$10,000 in notes are said to have been obtained by the promoter.

W. W. McKissack, who lives in the Oxien community, was a business visitor in Ballinger Friday.

Harry A. Husted, Cleveland manufacturer (left), who, in a Fokker F-32 plane, hopes to encircle the world in 10 days. James Doles (right), Western Air Express flier, will be chief pilot. Map shows tentative route.

(By Associated Press)
CLEVELAND, Jan. 27.—A modern Jules Verne steps forward to encircle the world in ten days by airplane.

The Jules Verne of another day pictured man girdling the world in 45 days; Mears and Collier completed their globe tour in less than 24 days; Harry A. Husted, Cleveland manufacturer, hopes to pale wild fancy and solid achievement.

Husted, arranging charges in the Fokker F-32 he has ordered for the trip, plans to leave the west coast Jan. 15, off the beaten path over boldly projected routes.

The flight over the Pacific may be non-stop, with a refueling over the Hawaiian Islands and first stop in China. He then will fly northward through Siberia, heading for Moscow, Paris, England, New York and the West.

"Newer developments in multi-motored airplanes, in the manufacture of fuel and oil, and in refueling," he said, "will make ocean hops in heavier-than-air craft regular ventures in the future."

James Doles of Western Air Express will be chief pilot. There will be plenty for the crew of four to do beside operating the ship. Husted will have maps to check the layout of strange countries. In the nose of the fuselage will be still and motion picture cameras, half-tone and colored, and over every inch of the way he hopes to keep them clicking.

These will be the first pictures of a world-girdling flight and, because of their educational value, several hundred thousand feet of them will be given to the bureau of education in Washington.

There will also be "household duties." Husted will be the cook. He can cook everything, he said, except pies.

Catwalks around each of the four Pratt and Whitney Wasps will permit overhauling of motors in flight. The engines will be mounted in two tandems.

The fuel and oil will be of special type and the plane, which will weigh 12,570 pounds, will be able to carry 15,500 pounds of fuel. Between 60 and 88 gallons an hour is the anticipated gasoline consumption.

(By Associated Press)
DALLAS, Jan. 31.—J. E. Montgomery, of Tynan, Bee county, today was elected president of the Texas Farm Bureau Federation in convention here. A resolution was adopted which makes the president a full time executive on a salary basis.

Frank Frist, of El Paso, was named vice-president of the organization.

Mayor E. P. Scarbrough and Judge C. L. South, of Coleman, were in Ballinger Friday attending to business and meeting friends.

Be wise and advertise.

State Witnesses Say Believe Brady is Sane

Dallas Youth Held On Murder Charge

(By Associated Press)
DALLAS, Jan. 31.—Walter Kidd, 21, is charged with murder, and two other men were bound over to the grand jury today in connection with the fatal shooting early today of Mike Murphy, local cafe owner.

Murphy was shot four times, and was dead when the police reached the cleaning establishment where the shooting occurred.

Legion to Stage Open House 10th

The Pat Williams Post of the American Legion has announced "open house" to be held at Legion Hall on Monday night, February 10th. Invitations will be sent to all former service men in the county whose names and addresses can be secured, requesting them to attend this meeting.

Refreshments will be served to all visitors and a musical and entertainment program will be presented in the auditorium. The regular entertainment committee, composed of Frank Cameron, L. R. Tigner and Guy Swann, will arrange the house and refreshments for the occasion, while the amusement committee, composed of Troy Simpson and R. W. Earnshaw, will prepare the program.

The ladies of the Auxiliary will be expected to take part in the "open house," and will be asked to furnish either handwipes or doughnuts for the refreshments.

Post Commander J. W. Macune is anxious to have a large attendance of Legionnaires of this section and will use a few minutes of the program time to submit some very important matters to the ex-service men. Plans will be discussed at this meeting for the taking of a large delegation to the district convention at Brady late in February.

Tom Caudle, post adjutant, early next week will begin mailing invitations to out-of-town ex-service men in an effort to notify all the "buddies" of the meeting here February 10. The meeting will not be tiresome with business matters and only a few items will be presented by the commander. Most of the time will be taken up with entertainment numbers and fun. The refreshments after the program is completed and the remainder of the evening will be spent in reminiscing and playing games.

The local National Guard company will move from the Legion Hall on February 1st, and as soon as the militia has vacated several changes will be made in the operating of the hall and in the interior arrangements. The Legion post plans to stage a series of entertainments to which the membership and general public will be invited.

(By Associated Press)
AUSTIN, Jan. 31.—By testimony of his friends of many years standing the state attempted to prove today that John W. Brady, charged with the killing of Miss Lehlia Highsmith, capitol stenographer, is sane.

Dr. Eugene Barker, University of Texas professor, a state rebuttal witness, testified that during fraternal meetings of the Town Gown Club he heard Judge Brady quote learned Latin maxims, and had seen nothing to make him believe that Brady was insane. Dr. Barker also declared he saw nothing to indicate that the defendant was insane at a meeting of the club Thursday night before the girl was stabbed fatally.

R. L. Batts, University of Texas regent, said he had known Brady for forty years, but had never heard him talk irrationally.

It was learned before the morning session was over that the defense expects in rebuttal to call witnesses of its own in an attempt to strengthen the insanity contention which District Attorney Henry Brooks has attacked.

Clayton W. Powell, of Coleman, was here Friday on business for the Martin Buick Company. Discussing baseball Mr. Powell expressed himself as very hopeful that the West Texas League might in some way be made to function. He believes it would be more advantageous to have Menard and Brady in the league instead of Big Spring and Midland.

Mr. and Mrs. E. O. Keaton, of Abilene, were here Thursday visiting Mr. and Mrs. W. D. Gregory and other relatives.

Oil Well Fire Takes 2 Victims

(By Associated Press)
WICHITA FALLS, Jan. 31.—An oil well fire near here yesterday claimed its second victim today when T. C. Holbrook died of burns.

Johnny Bragden, 17, died last night.

Six others were injured in the conflagration.

The flames destroyed the superstructure of the Henry Hobbs No. 2-Hodges well.

WEATHER FORECAST

(By Associated Press)

New trains operating between Paris and Monte Carlo have dance floors and bars for their passengers. This is a route that many tourists, especially Americans, travel, and the entertainment proves valuable to the line and is responsible for many using the railroad instead of automobiles for the journey.

Being a good citizen nowadays is a large order. In every town additional organizations are launched annually which demand membership and usually the men who support the new organizations are the backbone of several others that they have belonged to for years and with each new one comes new duties which must be performed. In addition to a man's business there comes the chamber of commerce, his church, a lodge or two, retail merchants' activities, fair work, civic clubs, and special committee work. If there is any time left he feels that his family is entitled to it and the candle is being burned at both ends by the average business man in every town. A few flatly refuse to do any of these jobs, and they are called "deadbeats," but sometimes we wonder if their contentment, home ease, and absence of worry are not worth more than all the activities mentioned above. The world must progress, however, and as new things come someone must look after the necessary details for this progress.

Ballinger citizens have overlooked one thing for many years that would be of great benefit to the city. A yard and garden contest should be staged here this year and an effort made to enlist most of the home owners in the movement. For several years such a contest has been conducted at Brady and a drive over that town during the summer is proof of what has been accomplished in beautification of that community. As a result nationally affiliated yard and garden clubs have been formed and the beautification is being extended this year to the municipal park and along highways leading into that town. Ballinger citizens boast of their attractive yards but there is still much room for improvement and a contest would bring about enough enthusiasm that yards all over the city, even though not entered in the competition, would be improved. The chamber of commerce has a civic committee and we believe that that body could do nothing finer than to launch a well regulated yard contest. In most cities yards are placed in two classes and compete for cash premiums. Those who enter their yards in the contest will strive hard to win and those who do not enter will be forced to beautify their premises to be in keeping with their neighbors. When a contest is inaugurated it causes citizens to drive over the town often to inspect other yards and people who have unsightly places will soon become ashamed of their premises and commence to improve them. Beautiful lawns, flowers, shrubs, trees and well-kept curbs are good advertising for any city and will prove of great benefit in many ways.

SUNDOWN STORIES

CARELESS SLUSH

By Mary Graham Bonner
"You're going to meet the most careless family," said the Little Black Clock as they started off, "and I've turned the time back to yesterday afternoon."

"Yesterday afternoon," repeated John. "It was a dreadful day, everyone said. I liked it. It was fun. I came in from playing soaking wet."

"I got wet right up almost to my knees," said Peggy.

The Little Black Clock grinned. They started off and after walking a little distance they found themselves in an old yard and all around were some very queer objects.

"They wore dresses and suits that didn't fit, and they looked as though they had been soaking wet and hadn't bothered to get dry before they had got quite wet again."

"Hello, friends," said the Little Black Clock. "I know you'll enjoy these two other friends of mine."

"And"—turning—"John and Peggy, you must meet my friends, the Slush family."

So that explained their way of dressing and the way they looked.

They all spoke to each other, and then the members of the Slush family said:

"Let's have some good slushy playing. We'll build all sorts of things—house with rivers running between them, barns with brooks

nearby. Oh, we can have a splendid time."

So John and Peggy played with the members of the Slush family and they enjoyed the careless ways of the Slush creatures. They couldn't even speak of it if they stepped through snow that was so watery they they got drenched.

(Tomorrow—Slush Family Explains)

HOW'S your HEALTH

STAYING OUT IN THE SUN

Benjamin Franklin, in his autobiography, describes the effects of the air and sun bath in most glowing terms.

Old Ben, like most of us, found the morning cold shower a little too harsh, and looking for a good substitute, hit upon the air and sun bath.

Every morning he religiously took his sun bath, sitting out in his back yard, and shocking the neighbors. It did him a great deal of good, for, despite his arduous life he seldom was sick.

The cave man built his cave, or chose that Nature had fashioned for him facing the sun's path.

The Romans had the solarium, for sun baths. The Greeks and Egyptians fully appreciated its value.

In the last quarter of a century the effect of the sun on the body has been carefully studied. First it was used to treat tuberculosis—especially that type of tuberculosis found in children and which most commonly effects the glands of

the neck, the bones and the joints.

For many years this kind of tuberculosis was treated by the surgeon; then, instead of cutting, we used to put plaster casts around the diseased parts. Quite after the results were good, but too often the little sufferer was left with ugly scars and stiff joints.

Then Dr. Rollier tried what he called heliotherapy—that is, curing by sunlight and air. His results were better than those obtained with other methods.

Encouraged by this experience, the entire matter of sunlight was studied. Our studies are still being continued, but enough has been found out to show that sunlight is of the greatest value.

Heal Those Sore Gums

Adroit Make-up Used for "Show Boat" Stars

With the filming of the picture taking five months and the characters in the story aging forty-five years, the Universal star picture, "Show Boat," will present to theatre-goers at the Palace Theatre starting Sunday afternoon, the acme of perfection in the art of adroit make-up.

The popular novel by Edna Ferber from which the story is taken covers almost half a century. The principal characters, most of whom are carried through to the end of the picture, are first seen in the Cotton Palace Floating Theatre on the Mississippi River.

After introducing Magnolia, daughter of the captain-owner of the Show Boat as a child of five, fifteen years elapse and Laura La Plante, star of the production, enacts Magnolia at the age of 20. Most of the story takes place at this period. There is a final

sequence in which Miss La Plante appears at the age of fifty. This is the first time she has ever appeared on the screen in elderly make-up.

In the youthful sequence Joseph Schildkraut is introduced in the role of Gaylord Ravenal, the river gambler who joins the Show Boat troupe. In the end, he, too, has aged.

Alma Rubens, as Julie, a member of the troupe in the beginning and the keeper of a notorious resort in Chicago in the main body of the story, also ages fifteen years. And Emily Fitzroy, as Parthenia Anna Hawks, mother of Magnolia, starts at thirty-five and passes away at eighty.

This story, one of extreme color and romance, was, in novel form, a best seller for many months. As a Florenz Ziegfeld musical comedy, it was a sensation. On the screen it is making history. Other members of the cast are Elise Bartlett, Jack MacDonald, Neely Edwards, Jane LaVerne, and others. Harry Pollard directed the picture.

"Don't get up.. I'll get breakfast downtown"

HELEN was puzzled. Lately, Bob seemed actually anxious to eat downtown, and at first, after they were married, he enjoyed so much those happy half hours in breakfast nook.

He suddenly began telling her she looked tired in the morning and he insisted she stay in bed and sleep when she didn't want to.

Why? Why? Her breakfasts were as good and as varied as ever. She took pride in them. She took pains with the coffee...

Come to think of it, the coffee was peculiar and never the same.

Helen went to the telephone and told her troubles to Janet Thatcher.

"Why, of course, it's the coffee, Silly," Janet laughed. "Listen; you try White Swan Coffee on Bob this evening at dinner and I'll wager he'll be eating breakfast at home from now on."

Janet was right. Of course, you would rather breakfast together at home. Everyone would when White Swan Coffee is served. Its tempting aroma and satisfying flavor lend a zestful spirit to the start of every day.

Modern roasting ovens bring out the natural flavor of the selected coffees which are so artfully combined and balanced in achieving the full, rich quality of the White Swan blend.

Supervision as exact as that in your own kitchen is enforced in each important process.

After roasting, White Swan is packed in sealed tins for shipment. No chances are taken with the freshness of its flavor. Prompt distribution is effected from 22 strategically located Waples Platter Houses. Fleets of motor trucks operate over a system of routes, making regular deliveries from all the units of this institution of the Southwest to its 10,000 dealers.

The best of modern method and time-tested custom are thus combined with the skill acquired by more than a half century of experience in developing the famous White Swan quality.

Now, and whenever you need a fresh supply, White Swan Coffee is available at your grocer's freshly packed in one and three pound cans.

Many Forms of Health Troubles Ended by Konjola

New Medicine Goes to Very Source of Common Ailments; Crowds Calling Daily at Weeks Drug Store.

Local men and women in all walks of life are daily visiting the Weeks Drug Store to find out for themselves about the unusual merit of this celebrated medical preparation, Konjola, which is

G. H. MOSBY
Discovered of Konjola

being introduced to the people of Ballinger and vicinity for the first time. Countless modern people, regardless of their wealth or position, are suffering the same common ailments that arise from an unhealthy inner-system.

Human suffering afflicts the great the same as it afflicts the mass of people. This new Konjola goes to the very source of common ailments. By helping Nature Konjola is far above many of the older known remedies. In this new day of science, a medicine must cleanse the system of all toxic poisons, and this must be done through the stomach, liver, kidneys and bowels. The same medicine must strengthen and invigorate these organs to more healthy, normal action. It takes a liquid to do these things. In making Konjola, the juices from twenty two of the finest medicinal plants and herbs have been selected. It is scientifically made in one of the largest modern laboratories.

One of the first cases for which Konjola was used was kidney trouble—getting up frequently at nights. The man who took it came back the fourth day and said he slept all through the previous night. It was learned afterward that he had been doctoring over ten years for his trouble. Another man had been crippled with rheumatism, swollen joints, stiff, aching limbs and agonizing pains. He had not left his home for eighteen months. He completed a few weeks' treatment of Konjola and said he talked several blocks for the first time in two years. This, of course, was about three weeks after he completed Konjola. From this case, it was determined that Konjola would do wonders for neuritis. One lady who had tried nearly everything for this trouble said that five bottles of Konjola had completely ended every ache and pain. She had previously taken mineral baths, electrical treatments and medicine upon medicine without results. All of these are actual cases and can be verified by the signed statements in our possession.

Another lady was treated with Konjola for stomach trouble. She said in five years she had spent several thousand dollars on her health. She was bed-ridden three days out of five, but shortly after she began with Konjola, she could eat heartily of many things she had not dared to eat in years. Her food agreed with her and she continued with Konjola for a few weeks longer and gained 20 pounds. One lady told us that this new medicine did her more good than four years of special dieting. She took Konjola for nervousness and a general run down system. When Konjola is taken into the human system, there are 22 ex-

tracts from natural plants that have a certain individual duty to perform on the functionary organs—stomach, liver, kidneys and bowels. The cleansing and invigoration of these organs is what brings such amazing relief and new feeling of health after long cases of suffering.

Konjola is now sold in Ballinger at Weeks Drug Store, where many prominent people are calling daily to find out about this surprising new medicine.

HATCHEL NEWS

The people of our community have been witnessing some of the coldest weather that has been seen for several years. All the old timers say that it has been quite a number of years since they have seen such a bad winter, but maybe the bad weather will bring a good year for us farmers in the future.

On last Sunday the Bales family gathered at the Bales home north of Hatchel to honor the birthday of Mrs. T. L. Gill of Ballinger who is a daughter of Mr. Bales. It proved to be a great day for the family especially the boys, but so far they have lived over it without any one being sick. Those present were: Mr. L. M. Bales, Mrs. Ethel Hatchel, Mrs. and Mrs. Clinton Gill and family, Mr. and Mrs. Joe Gill and family of Ballinger, Mr. and Mrs. Marcus Bales and family, Mr. and Mrs. Mord S. Tucker and family, Mr. and Mrs. Wirt Bales and daughter and Miss Elouise Smith of Ballinger.

On next Friday night at the school auditorium will be a play "The Old Maids Club" given by the P-T-A of Hatchel. The characters have been picked with great care in order to get the ones who could bring out their parts best. There are sixteen women and two men in the cast and it is a scream from start to finish. If you have had the grouches and think you can laugh give us a trial Friday night, and we are sure you will feel better after hearing these old maids trying to get husbands. There will be no charges for admission. Come bring your friends and spend a great and glorious evening at the expense of our P-T-A.

We are very glad to report that Mr. and Mrs. Key Williams who are at Fort Worth with their small son, writes that he is improving every day. We hope to soon see them at home with their baby well and strong.

There has been quite a good deal of sickness in our community the last few weeks but it seems to be holding up at present.

Mrs. Jack Mathes has been ill for several days, but is improving fast.

Mrs. Tom Ferguson was confined to her bed a few days ago, but is up at present.

Mr. Jim Hinkle was quite sick for a few days last week, but is up now.

Mrs. Haywood Tierce gave a birthday dinner Sunday, honoring her husband's birthday. She invited the homefolks and several friends and the day was made a very pleasant one.

Several of the Hatchel people spent a very pleasant evening Sunday in the home of Mr. and Mrs. Marcus Bales.

NORTON NOTES

Mr. and Mrs. R. B. Hambright and daughter, Mrs. Grady Barrett spent last week-end with Mr. and Mrs. L. B. Hambright, at Big Spring.

Mrs. W. W. Mitchell is spending this week with her sister, Mrs. Charles Rhodes, at Lubbock.

Mr. and Mrs. Bob Mann, of Hale Center, Texas, are visiting Mr. Mann's parents, Rev. and Mrs. W. T. Mann.

Mr. and Mrs. Robert Cook and Mr. and Mrs. Marion Thompson spent last week-end with Mr. and Mrs. H. D. Ashby.

Mr. and Mrs. B. F. Curry, Jr. are at home again after spending several months at San Angelo.

L. G. Brewer had business in Ballinger Tuesday.

T. R. Setser and J. R. Minchew made a business trip to Winters Monday.

Rev. Swearington had business in Winters Tuesday.

BELIEVES RECENT COLD KILLED MANY INSECTS

(By Associated Press) SAN MARCOS, Jan. 28.—Destruction of insects during Central Texas' coldest winter since 1889 has led farmers to look for bumper crops during 1930.

Temperatures have slid as low as four degrees above zero and there was a snowfall of six inches. Snows and hard freezes make life miserable for even the boll-weevil, farmers say, and are sure death for lice, another insect which costs the cotton raising section heavily.

Ranchmen in the hill section reported some loss to live stock.

CAMERON COUNTY SELLS HIGHWAY BOND ISSUE

(By Associated Press) BROWNSVILLE, Jan. 28.—The fourth million dollar series of Cameron county bonds has been sold at 95 cents plus accrued interest.

The bonds are part of a \$6,000,000 issue and are primarily for building of the Boca Chica road. Work on the road is expected to start as soon as the right-of-way is obtained.

Deaths

Mrs. M. A. Bass
Mrs. M. A. Bass, 75 years 6 months and 15 days, died at her home in Norton at 7:30 o'clock Thursday morning. She had been suffering from a severe cold but her condition had not been considered serious until a few days before her death. She had made her home in Norton for many years and before the passing of her husband the two were associated in many activities in that section. She was a friend to everyone, especially the children. Decedent had been a member of the Baptist Church since childhood and was a loyal attendant at all church services until her health began to fail. Mrs. Bass leaves five sons: W. P. Duke, of Norton, who has made his home with her since her husband died about a year ago; N. O. Duke, Longview; J. A. Duke, Kerrville; C. D. Duke, Logan, New Mexico; and J. S. Duke, Waco.

Funeral services will be held from the Norton Baptist Church Saturday morning at 11 o'clock, with the pastor of the church officiating. Interment will follow rites at the church, the body to be laid to rest in the Norton cemetery. Undertakers from the Higginbotham Funeral Home were in charge of arrangements.

Bearcat Quintet Defeats Maverick

Coach Harley Davis led his Ballinger Bearcats to Maverick Wednesday afternoon and walked off with the big end of a 26-11 score.

The Bearcats showed class for their third game of the season and everybody was in there hustling. Due to the cold weather the game started off slow and at the half the score was 5-4 for Maverick, but when the Bearcats got warm they were long gone.

Underwood, with twelve points, was high point man. He played a brilliant game on both offense and defense. Feist also played a good game and scored six points to help the Bearcat cause. On the defense Reneau, Greenhill and Coker flashed. It would be impossible to pick a star, for every Cat who went into the game showed his stuff and figured in the victory.

The Bearcats showed great improvement over their games of last week, and as the season grows older they are expected to have a class A club.

Due to the bad winter weather many games have been postponed and the games are coming close together. One other game is on the program this week, and four next week.

Ballinger fans are urged to attend the games and support Coach Davis' team. In this way it is believed the Bearcats can be boosted on to another championship.

The line-up in Wednesday's game follows:

Ballinger	FG	FT	Pts.	PF
Underwood, f	6	0	12	0
Feist, f	3	0	6	0
Morris, f	0	0	0	0
Reneau, c	2	0	4	0
Plynt, c	0	0	0	0
Greenhill, g	0	0	0	2
Coker, g-c	2	0	4	1
Davenport, g	0	0	0	0
Batts, g	0	0	0	0
Black, g	0	0	0	0

Maverick	FG	FT	Pts.	PF
J. Lee, f	1	2	4	1
H. Lee, f	0	0	0	0
Hutton, c	1	1	3	2
Burson, c	0	0	0	0

Thinks Orgatone Is Very Fine Hill Announces For Re-election

Mrs. Cope, of Breckenridge, says That it Has Completely Relieved Her Digestive Troubles.

"I have been bothered by digestive troubles for about a year but Orgatone is entirely relieving my ailment," said Mrs. Charles Cope, wife of a well known farmer who lives on route 1, Lreckenridge, Okla., while talking in an Orgatone representative. "I had a bad taste in my mouth every morning when I first got up," continued Mrs. Cope. "I was often inclined to be bilious and had a burning pain in my stomach and throat, I frequently had palpitation of the heart caused by gas on my stomach and had some trouble with constipation."

"I saw in the papers where so many people were finding relief for their troubles through Orgatone that I bought a bottle and after taking only two bottles I am more than pleased with it. I have no more trouble with the burning sensation in my stomach and the bad taste in my mouth is entirely gone. I am not bothered with the gas on my stomach and the bad taste in my mouth is entirely gone. I am not bothered with the gas on my stomach and the bad taste in my mouth is entirely gone. I think Orgatone is fine and I am glad to tell others about it."

Genuine Orgatone may be obtained in Ballinger at the Weeks Drug Store.

Old time Cowboy "Son-of-a-Gun," Mackin's Market, at Jones Grocery, Saturday. 25 cents per pint. 31-1td

Ballinger, Texas
January 29, 1930

To the qualified voters of Runnels County:

I hereby offer myself as a candidate for the office of County Attorney.

In asking you to re-elect me to this position for another term of two years, I do so with the sincere desire to render to you, the people of this county, the very best service that is within my power to perform. I have endeavored to furnish you this character of service for the past twelve months, how I have kept my pledge with you in this capacity, is for you to judge. I can only say that I have used every effort at my command to faithfully carry out, and execute that trust to all alike, without fear or favor, and I sincerely feel and believe that every person who has had dealings with me during my short tenure of office, will bear testimony of my fair and impartial dealing, and courteous treatment accorded them, as a public servant. I feel of course, that perhaps I have made some mistakes, and in all probability have not in some cases used proper judgment, but where is the official who has not. I know that in each instance, however, I have exercised that judgment and discretion, that seemed to me, best suited to that particular case.

I feel that each official is responsible to his constituents for the way he has handled the affairs of his particular office. I can not in this limited space render a full account as to the

administration of the affairs of my office, but will say that I have filed approximately 211 cases in County Court, of which there has been 110 pleas of guilty entered by the defendants; 80 cases are still pending, due principally to the fact that the defendants have not been arrested, from one reason or another, the majority of them being out-county cases. I have attended approximately thirty-eight examining trials, and have taken part in numerous other investigations. I have so arranged the grand jury work that the November grand jury deliberated only four days on thirty-four cases, and unless some unforeseen incident happens, the February grand jury should adjourn within two days at most. I wish to state also that I have had the co-operation of the Sheriff's department, and also other officers throughout the county, and have endeavored to render the same service to them, and will continue to do so. The office that I have the honor of filling belongs to you, and you will find a hearty welcome there at all times, and in fact I desire that you use my services at any time you feel disposed, and I shall render any assistance possible to you cheerfully.

On account of the demands

that are now being made upon my time in looking after the affairs of my office, and other matters incidental thereto, I may not get to see each of you personally, therefore I will appreciate it if you will consider this announcement as the personal solicitation of your vote and influence, however, I hope to meet each of you personally before the campaign is over.

Very truly yours,
ROY L. HILL
