Man Dies After Struck by Auto

(By Associated Press) FT. WORTH, Feb. 6 .- Injured fatally last night when he was struck by an automobile driven by a youth who lived with him for several years, J. M. Satterwhite, 63, died in a hospital here

## France Wants to Keen Submarines

1.0NDON, Feb. 6.- French representatives at the five-power naval disarmament conference declared flathy today that France would not consider the abolition of submarines as suggested by Secretary of State Henry L. Stimson, of the United States.

With that issue before it, next Fuesday's plenary session of the conference promised to be one of the outstanding sessions of the gathering. Great Pritain and the United States favor total aboliticn of undersea craft while France and Japan are insistent on retention. Italian representatives are non committal on the

## Highway Werkers Making Good Time

Construction work on highway 30 south has been commenced again and the crews are making rapid progress. Operation of the mixers started Saturday at noon following the long siege of cold weather, and by Tuesday night half a mile of concrete had been

There were about five miles separating the two stretches of concrete running out of Rowena and Ballinger. Tuesday night. With good weather conditions prevailing for a few weeks the gap soon will be closed and the two laps connected.

The contractors have plenty of material on hand and a sufficient number of trucks operating from the plant to the two mixers to keep running without a shut-

As soon as this gap is closed the road will be opened at a slightly later date from Ballinger to a point about two miles west of Rowena. This will be more than half the entire distance from this city to the Tom Green county line. After this stretch is completed the material plant will be moved to a point between Rowena and Miles and both mixers operated on the other end of the road.

## Have You Paid for **Christmas Seals?**

The Runnels County Public Health Association conducted the sale of Red Cross Christmas seals the past year by mail, and to date a number of people have failed to remit for the stamps received or to return the seals. R. E. White, chairman of the county or, inization, mailed a letter this work to all who are delinquent in their settlements, requesting them to either send the remittance or return the stamps.

It is hoped that this will receive the prompt attention of everyone who receives a letter. Receipts from these seals are largely respensible for the health program carried on in this county and for that reason it is necessary that the county's full quota of these stamps be raised.

These stamps were mailed out shortly before Christmas and doubtless many in the rush of the season did not attend to the all reminders became lost. Attention is directed that while the letter and this notice is fresh on the mind would be a good time to send a check to the chairman to maintain the health movement in Runnels county.

Frank Grimes, of Bronte, was in a serious accident near here Wednesday afternoon when his was overturned, near the South Ward school building. The car was badly wrecked and Mr. Orimes received two cuts on one sand that required several stitches. Otherwise he was not injured and was able to return to his home as soon as the flow of blood was stopped.

## Taft Improved; Sons Expected

(By Associated Press) WASHINGTON, Feb. 6 .- The condition of former President William Howard Taft was described today as slightly im-

Robert, are expected at the stricken man's bedside today.

A sleeping potion was given Mr. Taft later in the day to aid him in obtaining more rest. Physicians base much of their hope in prolonging his life upon his obtaining rest at intervals

## Pro Officer Says Crime Increased

WASHINGTON, Feb. 6 .- Urging that United States commissioners be given the power to try slight or casual violations of the prohibition laws, Roscoe Pound, of the Hoover law enforcement commission, asserted today before the House judiciary committee that crime had increased enormously in recent years. From this great increase, Pound declared, federal court congestion had resulted.

Pond testified that "bargain or cafeteria" days on which prohibi-Ition law violators were tried by the wholesale to clear the federal court dockets had impaired the

## Legion Open House For Monday Night

Plans are perfected for the American Legion open house to be given at the hall on Monday evening. February, 10. Invitations are being mailed to ex-service men and their families in all parts of the county. The entertainment committee of the post and auxiliary have prepared reents which will be served to everyone following a short program in the auditorium startng at 7:30.

Dr. J. W. Macune, commander of the local post is anxious to get as many former Legionnaires as possible to attend this meeting. This is the beginning of a number of socials and entertainment features which will be staged by the Pat Williams post this year and the committee plans to make each one so attractive that members will look forward to the next open house. Business matters to be looked after Monday night will be few. Plans for the attendance of a large delegation at the district convention at Brady on February 22 and 23 will be discussed and committees named to organize the Ballinger

The district meeting for the Auxiliaries will be held at Brady on the same dates and both local organizations will work together in creating interest in the trip.

The program for the meeting here Monday night is being arranged and will be announced

## Dallas Planning For Grocery Meet

DALLAS, Feb. 6 .- Preparations are under way to entertain the largest gathering of wholesale grocers in Texas at the eighteenth annual meeting here of the Texas Wholesale Grocers association Feb. 19-20.

Representatives of the Federal department of commerce and the State Health department are to be given prominent places on the program. Henry King, leading jobber of Chattanooga, Tenn.s will deliver one of the principal addresses.

Ransome R. Gilbert of Washington, grocery specialist with the Department of Commerce. will talk on "Latest Methods of Warehousing," E. G. Le May of Austin, head of the food and drug division of the State Health Department, will discuss various phases of the Texas pure food laws and their andministration.

## Cattle Cutlook Given as Poor

(By the United States Department of Agriculture, Bureau of Agricultural Economics)

FT. WORTH, Feb. 6 .- (A) -- The outlook for beer cattle in 1930 appears less favorable than in 1929. Slaughter probably will be about the same and demand is expected to be slightly less.

The high phase of the price raisers who contemplate expanding production are faced with general tendency to increase cattle numbers and with a downward trend in prices over the cycle which has prevailed since the latter part of 1927 is expected to continue during 1930. However, average prices for all grades for the entire year may be somewhat lower than in 1928. Beef cattle will need to exercise great cautcling price level

The number of all cattle on 1928 and sinc . Then the tendency estimated number of cattle or farms Jan. 1, 1930 was 57,697,000. 1929, and 2,291,000 more than in

Although the number of cattle on feed in the Corn Belt on Jan. 1, 1930, was about one percent less than Jan. 1, 1929, the total supfed for market this year was somewhat larger than a year ago.

Because of the lateness of the movement back to the country it seems probable that a smaller 1, will be marketed during the first three months of 1930 than in tle during the first half of this year, however, are expected to be there is a concerted effort on the part of dairymen to cull their herds more closely than usual. market supplies of slaughter cattle other than fed stock during that period will be larger than in

There is no reason to anticipate any significant change in imports during 1930, although slaughter cattle and calves from Canada and stockers and feeders from Mexico increased slightly in 1929. Supplies of fresh and refrigerated beef entering the two major classifications, those United States during 1929 showed a decrease of about 25 per cent ditions and other influences compared with 1928.
