BALLINGER TEXAS, WEDNESDAY, MARCH 12, 1930.

MEMBER ASSOCIATED PRESS

N. O. Waterfront Again Fire Swept

(By Associated Press)
NEW ORLEANS, Mar. 12.—Fire of undetermined origin, the third to start mysteriously on the New Orleans waterfront in three weeks, destroyed 400 bales of cotton in a warehouse today.

After the fire was brought under control the police began an investigation to determine if the recent blazes were of incendiary origin.

The first fire destroyed a wharf, did property damage of \$3,000,000 and took a toll of six lives. Yesterday another fire destroyed a wharf.

Two Negro Women Burn to Death

(By Associated Press)
CANTON, Miss., Mar. 12.—Annie Harter, 60, and Martha Cheatham, 90-year-old negroes, were burned to death in a fire which caused a property loss of \$100,000 today. Seven business houses were destroyed.

Genuine "A" Student
URBANA, Ill., Mar. 12.—(AP)—A genuine "A" student is G. Forrest Drake of Rockford, Ill., senior in engineering at the University of Illinois. Drake obtained his 130th hour of "A" grades during the last semester and has had a straight "A" average for seven semesters.

Elo Michaels, Miss Michaels and Miss Estelle Alexander, teacher at Wingate, were among those who attended the presentation of the Passion Play at San Angelo Tuesday night.

Col. G. G. Odom, County Pioneer Dies at His Home

Col. G. G. Odom, for 54 years a resident of Rannels county, died at his home on Ninth Street, Wednesday morning at 11:20. Mr. Odom had been seriously ill for several weeks and for a number of days, little hope for his recovery was expressed by his physician.

Col. Odom, as he was called, was one of the best known characters in this section. He was a real pioneer of this country and for a large part of his life worked with cattle on the open range. He continued to ranch until a few years ago but his love for the old cowboy days never weakened and he was a constant attendant at gatherings of the Old Trail Drivers Association and other pioneers.

Mr. Odom had had a big place in this city's growth. He loved Ballinger and leaves behind him many marks that will linger long after he has gone. Aside from his activities in business he was a faithful member of the Ballinger Methodist Church and until a few months ago was always present at services. He gave liberally of his means to the support of that institution and two lovely art glass windows grace the new building as a memorial.

Col. Odom had many friends. In the fifty-four years he resided in this country he has formed the acquaintance of practically everyone and to know him was to like him.

Decedent was very low a few weeks ago when his son-in-law and closest friend, John F. Currie, passed away. Following this tragedy he rallied for a time and some hope was felt that he would be able to be up soon and take his place in the business world again. He began to fail several days ago and the attending physician expressed doubt at that time that his patient would ever regain his health.

Mr. Odom had large interests in Rannels county, including residence property here at Ballinger and in land all over the county. He also had other business interests at Ballinger principal of which was in the Farmers & Merchants State Bank of which he was president.

Decedent is survived by his faithful wife, two daughters, four brothers and three sisters. His daughters, Mrs. John F. Currie and Mrs. Conda Wylie who reside in Ballinger, were present during his illness and death. The sisters are Mrs. H. H. Luckett, of Ballinger; Mrs. C. A. Dalley, of Bonte; and Mrs. W. E. Arm-

Lange No. 1 Closes Down this Week

The Boyce et al No. 1 Lange well closed down this week after reaching a depth of 2504 feet. This well is located two and a half miles directly east of the Vacuum field and had been drilled for the past several months. Drillers made no statement other than that they were shut down awaiting further orders.

The D. O. Johnson No. 1, being drilled by Gibson & Johnson, has reached a depth of 1500 feet. The Johnson well, two miles north of Ballinger, was spudded in since the first of the year. For some time drilling was only done in daytime but a light plant is now in operation and shifts are running full twenty-four hours daily.

Oil operators are watching the log of the Johnson well with keen interest. Being located between the Serratt No. 1 and the Vacuum field where geologists believe is a fine structure, a showing of oil is expected at a depth slightly below 2500 feet. The Serratt well produced a good showing of oil at about that depth and a number of wells in the Vacuum field produced at the same depth.

The drillers have made excellent progress on this well, however no casing has been set to date.

Great Lakes Lower
SAULT STE. MARIE, Mich., Mar. 12.—(AP)—Lakes Superior, Michigan and Huron all were lower in January than in December, according to the United States lakes survey. Lake Superior showed a drop of two-tenths of a foot. Lakes Michigan and Huron dropped slightly less.

Second Blast Victim Is Dead at Eastland

(By Associated Press)
EASTLAND, Mar. 12.—S. B. Jones died today of injuries suffered yesterday in the explosion of a locomotive of the Eastland, Wichita Falls & Gulf Railroad.

L. C. Roper died here last night of injuries received in the same accident.

H. E. Fox, the third man injured in the blast, is expected to recover.

Condemned Slayer Takes Own Life

(By Associated Press)
McALESTER, Okla., Mar. 12.—Charles Fray, who was scheduled to die in the electric chair on March 28th for the murder of his wife, Lucille, cheated the chair by hanging himself in a cell on "death row" today.

Ballinger Crowd Sees Passion Play

Many Ballinger people attended the production of the Freiburg Passion Play in San Angelo Tuesday night and returned praising the production. The matinee given Tuesday afternoon for the benefit of school children and teachers of this section of West Texas resulted in a full house and more than 1000 being turned away after the municipal auditorium was filled. An announcement was made at the Tuesday night showing that a special matinee had been arranged for Wednesday afternoon for student teachers in order to allow those who were turned away to see the show at a low price.

A number of people from Ballinger were forced to return home without seeing the performance Tuesday afternoon when parties from here were being arranged to attend the performance Wednesday afternoon.

In the first three showings of the Passion Play over 6000 people have attended. More than 100 Ballinger people were present Tuesday night and a large number of others will go to San Angelo Wednesday evening for the final performance.

Most of the road to San Angelo is in excellent condition and the only detour is just west of Rowena.

Cong. Upshaw Here On March 23rd

Congressman Will D. Upshaw, frequently referred to as the "Georgia Cyclone" will speak in this city at the First Methodist Church, 7:30 p. m. Sunday, March 23rd on the subject "America's Greatest Battle."

Mr. Upshaw is vice-president of the Southern Baptist Convention, but is brought to our city under the direction of the Anti Saloon League of Texas.

His career has been a remarkable one. At that age when youth generally making their preparation for life's work, Mr. Upshaw was stricken down by an accident and lay for some ten years flat on his back in a plaster cast. When he had sufficiently recovered to leave his bed he entered upon his preparation for life.

As a prohibitionist Mr. Upshaw, consecrating himself to the cause early in life, has never stepped the issue for political preferment. As an orator he is recognized as one of the most entertaining speakers on the platform. Some have accorded him a place along with William Jennings Bryan among the dry leaders of the nation. His command of the English language is wonderful. Citizens of Ballinger are invited to hear this speaker, who will bring inspiration to every friend of temperance.

Half Million Fish Saved
MADISON, Wis., Mar. 12.—(AP)—More than 500,000 fish have been saved by conservation fisheries men in the last few weeks from the backwater sloughs of the Mississippi River on the property of the Delta Fish and Fur farm, a report to the conservation commission office says. The fish, trapped in the sloughs, have been returned to the open river.

Teachers Meet at Brady April 11-12

Programs have been received in Ballinger for the 23rd annual meeting of the Mid-Texas Educational Association which will be held at Brady on April 11 and 12. F. E. Smith, superintendent of the San Angelo schools, is president of the association this year, and in sending out the program urges that all city and county superintendents close their schools so that every teacher may attend.

This organization met in Ballinger last year and more than 600 teachers registered for the occasion.

The Brady program includes some of the best known educators in the South and each session will be of particular interest to all in the teaching profession. Entertainment features on the program appear to be high class and each session opens with an elaborate musical program prepared for the occasion.

Supt. H. C. Lyon, of Ballinger, will appear on the program twice during the sessions. At 2 o'clock on the opening day he will address the teachers on "Character Education for Intermediate Children." His second address, on Saturday, will be "The Requirements of a Good High School Teacher." This address will be from the students' viewpoint, and in preparing the theme Mr. Lyon sent out questionnaires to all local high school pupils to get facts upon which to base his remarks.

Teachers from twenty-one counties will participate in the convention and according to Mr. Smith indications point to large delegations from each of these counties.

Prisoners Escape From County Jail

(By Associated Press)
WACO, Mar. 12.—Officers of Central Texas are on the lookout today for three men who escaped from the McLennan county jail here last night with the aid of a smuggled pistol and drove away in a stolen automobile.

The prisoners are: Emery Abernathy, 24, Hillsboro; William Turner, 21, Waco; and Clyde Barrow, 18, of Dallas.

Topsy-Turvy Man
BERLIN, Mar. 12.—(AP)—Prof. Carl Lewin has found a man whose heart, liver, appendix, spleen and stomach all are on the wrong sides. The man is healthy, Lewin says, but of deficient intellect.

Sponsor Improved Art
NEW YORK, Mar. 12.—(AP)—To foster better architecture the American Institute of Architects is sending to high and vocational schools an exhibition showing samples of modern architecture.

Ft. Worth Girl is Beauty Winner

(By Associated Press)
MIAMI, Fla., Mar. 12.—Janet Eastman, 20, a blonde, of Fort Worth, Texas, last night was named "America's Sweetheart" in competition with forty-three other girls at the first annual bathing beauty contest here.

Miss Eastman will represent the United States in the international beauty contest at Rio Janeiro, Brazil.

Says Women are For Dry Support

(By Associated Press)
WASHINGTON, Mar. 12.—Friends of prohibition placed before the House judiciary committee today the view that the womanhood of America was lined up in solid support of the eighteenth amendment, and prepared both now and anytime to combat moves looking to its repeal.

Mrs. Henry Peabody, chairman of the Woman's National Committee for Law Enforcement, took charge of the witnesses who argued those opposed to the prohibition law had failed to provide a "workable solution" in the event the dry statutes are repealed.

Farm Board Gets Hundred Million

(By Associated Press)
WASHINGTON, Mar. 12.—An additional \$100,000,000 for the federal farm board recently requested by the board was approved today by the Senate.

The fund was added as a rider to the first deficiency bill after a sharp debate over the policies of the farm board during which cooperation of the body with the Canadian wheat pool in opposition to English, French and Italian growers was urged.

The entire bill, carrying \$173,000,000 to meet emergency government expenses, was passed by the Senate.

Mrs. Iva Coleman, of Abilene, was here Wednesday attending to business for her mother, Mrs. J. A. Garrett. Mrs. Garrett has moved to Abilene to make her home with her daughter.

Mayor in Austin With City Bonds

Mayor W. C. McCarver left Tuesday afternoon for Austin where he will be for several days attending to business for the city commission of Ballinger.

The commission was in session early this week signing the first issue of bonds to be received here. This issue was for \$42,500 and called the refunding issue. As soon as the bonds are sold and the money in hand it will be used to retire all outstanding warrants.

The \$110,000 issue of waterworks bonds is due to be received here from Atlanta in a few days and will be signed and sent to Austin for approval by the attorney general. This issue is expected to be sold on March 15th and all possible preliminary work will be done before that time so that actual work can start as quickly as possible after the sale is completed.

Farmer's Slayers Both Sentenced

(By Associated Press)
BOSTON, Tex., Mar. 12.—Bud Goodwin, 21, was sentenced to twenty years imprisonment today as an accomplice in the slaying of Lloyd Elliott, 23, farmer.

His brother, Dave Goodwin, 40, convicted of the slaying of Elliott by a jury last night, was sentenced to death in the electric chair.

Del Rio—Surveying has been started on a natural gas line from this city to Eagle Pass.

Sulphur Tax Splits House and Senate

(By Associated Press)
AUSTIN, Mar. 12.—Senate and House conferees on the proposed sulphur tax, on the verge of definitely falling to compose the differences between the two branches of the legislature today, left the meeting without setting a time to reconvene.

The Senate members of the committee declared they would not stand for a greater tax than fifty cents per ton on the product. Representative Phil Sanders, as spokesman for the House, replied that if that was the case the committee might as well discontinue its meetings. The House had previously voted for a dollar a ton tax on sulphur.

Killers' Appeals Are Affirmed

(By Associated Press)
AUSTIN, Mar. 12.—The sentences of life and twenty years confinement against R. J. West and Tom Hernandez, respectively, for the murder of Harry Williams, Laredo newspaper reporter, were affirmed by the Court of Criminal Appeals today.

Brady citizens are all stirred up over the "Brady Beautiful Contest." This is a drive in that city for better yards and gardens, which for a number of years has been staged with signal success. Various organizations offer cash prizes for the best three yards but the money awards are not so much an incentive to beautify as the pride the citizens have learned to take in their yards. Cards have been mailed to all citizens and homeowners asking them to enter and several hundred have signed to take part in the contest this year. Several residential districts of the city have signed solidly and the town will be made much more attractive by this citywide effort. Such a move has been advocated in Ballinger and should it find someone to foster it, the contest would prove of interest to a large number of people. Ballinger yards receive much attention during the spring and summer and with the proper encouragement would equal that of any city in the state.

Soon it will be time for the school trustee election. No candidates have announced to this date and no comment on the streets points to any who contemplate such action. The schools have been progressing nicely under the direction of the present board and patrons have given little or no consideration to this matter. In case the old members consent to run again and without opposition, voters should keep the date in mind and go to the polls. Many times here when there is no contest in an election, the vote is very small, and it would be an easy matter for a small group to write names on a ticket and elect an undesirable board. Regardless of who is in the race decide now to cast your ballot.

Negative Root Tip

AUSTIN, Mar. 12.—(AP)—The tips of an onion's roots, says Gordon Marsh of the University of Texas, usually show a slight negative charge of electricity. Higher up the root is positive.

SUNDOWN STORIES

AN OLD LIBRARY

By Mary Graham Bonner
"I just must show you an old, old library," said the Little Black Clock. "I've turned the time much farther back than I did last evening when you saw what table manners were like years ago."

"Tonight I've turned the time back to the days when the children of Babylon were reading their books, thousands of years ago."

"Oh, how queer the world always looks when you do this," said Peggy. "It always seemed so strange to her to see the world in its early, early days when everything was just beginning."

But then, as she had often said, it seemed almost as strange when the Little Black Clock turned the time ahead and they saw how different things looked in the future.

Now they saw a number of children and they were reading. In fact one of them was reading aloud, but John and Peggy could not understand the way she was doing it.

The story had been written in strange character-writing on a tablet which looked like a brick. "Yes, the story is written on brick," explained the Little Black Clock. "It was written on a clay tablet first and then it was baked in an oven so that it would become good, firm, hard brick."

"That's the way the books are made—brick books—and you're seeing some of the first readers and some of the first library books in the world, for this is a school library and the children are studying."

The other children did not appear to notice John and Peggy. John and Peggy knew that they would notice outsiders who might come in when they were having lessons!

"Oh, they feel it is so important to learn," the Little Black Clock said.

"And all that time ago," Peggy

remarked. "All that time ago," the Little Black Clock repeated.

(Tomorrow—"The Horse-Contract")

HOW'S your HEALTH

Edited by Dr. Inge Quidston, Academy of Medicine, New York

LITTLE, BUT MIGHTY
Vitamins might be characterized in some such fashion, for the one very positive fact we know about them is that in exceedingly small amounts they are capable of producing extraordinary effects.

Vitamins—the term is made up of the Latin root vita, meaning life, and the English amin, meaning a nitrogenous substance—are known also as "accessory factors" and "unknown dietary factors." They are essential to life and very fundamentally effect growth and normal function.

The history of vitamins begins about 1896 when an English scientist named Hopkins concluded that over and above the so-called fundamental elements of food, that is, carbohydrates (sugars and starches), proteins (animal and vegetable flesh foods), fats, and salts, there were certain other still unknown dietary factors required to sustain animal life.

He called these "accessory food factors."

Later a Dutch chemist discovered that a diet of polished rice when fed to fowls could produce a diseased condition in nerves, a

so-called polyneuritis, which closely paralleled certain disease conditions observed in rice-eating populations.

Still later it was shown that if the husk-covering of rice were fed to bird or human polyneuritis sufferer, even in astonishingly small quantities, the condition could be cured.

These studies were carried further by a host of scientists, resulting ultimately in the demonstration of a number of vitamins designated as fat soluble A, water soluble B, water soluble C, vitamin D, vitamin E, and most recently vitamin PP.

Each of these vitamins appears to exercise a powerful influence over animal life. Their absence results in a variety of abnormal

physical and functional conditions.

Great Magician Coming Mar. 18

Announcement was made today that Birch, whom Howard Thurston, reigning king of magic, has publicly declared to be the only magician sufficiently talented to be considered his logical successor, when he retires from the stage in two or three years, will play an engagement in this city on March 18, at the high school auditorium.

The Birch show is one of the

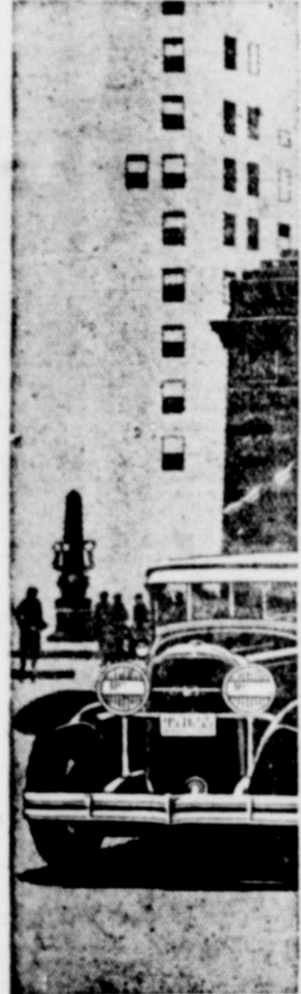

largest magic shows that has ever toured this country. Equipment, fittings, scenery and effects valued in excess of \$25,000 are carried and will be seen at the local performances, in which are included many illusions which baffle even the understanding and eyes of other magicians of prominence.

Perhaps the most interesting is that of the vanishing pony, in which Princess, a beautiful miniature horse, is caused to disappear into thin air. The current tour is Birch's 11th annual one and he has in that

length of time gathered together a most impressive program of mystifying illusions and manifestations of magic. His breadth of experience as a magician and his own attractive personality make him one of the most capable and pleasing entertainers ever produced.

The attraction comes to Ballinger under the auspices of the Parent-Teacher Association. The announcement of a challenge which will be made to Birch by a local man will be announced in a few days.

County Meet to Start At High School Friday

Tennis, playground ball and valley ball entrants will hold preliminaries at the county meet here Friday morning at 9:00 o'clock. All these events will be held on the Ballinger high school campus and boys debating preliminaries will take place at the same time in high school auditorium.

All the events with the exception of the debate will continue in the afternoon in the finals. Girls will hold their preliminary debating in the afternoon, Friday evening at 7:30 o'clock in the auditorium the contests will continue with extemporaneous speaking, and finals in both girls' and boys' debating.

Saturday morning much of the time will be given to literary events which will be held in the high school auditorium and at the Ballinger Baptist Church. These events will include the declamation contests for all classes and winners will be selected before the noon hour. Spelling, music memory, arithmetic and other events will be held in the

high school study halls and large class rooms Friday afternoon. At 1:30, the track and field meet will start at Fair Park and will be completed before night. Many entries have been received from schools all over Runnels county and more contestants are expected here than have ever taken part before in an interscholastic meet in this county.

A season ticket good for all events will be sold at the small charge of 25 cents for adults and 15 cents for students. Tickets are on sale at all schools and may be obtained at any of the buildings Friday and Saturday and at the Fair Park Saturday afternoon.

Supt. H. C. Lyon, of Ballinger, is director general of the league and has been kept busy recently receiving entries and complying with numerous other requests.

There are more than 35,000 volumes in the University of California library.

Austin—241 new corporations were organized in Texas in January, according to Bervard Nichols, editor of Texas Business Review.

One pound of tomato seed will plant about 15 acres.

Starlings in Iowa
KEOKUK, Ia., Mar. 12.—(AP)—Large flocks of a bird new to southeastern Iowa are identified as starlings in a report to the American Association for the Advancement of Science by Clyde E. Ehinger, M. D., a bird expert.

Be wise and advertise.

It Was One Big Surprise

San Angelo Woman Says She Feels 100% Better Since Taking Orgatone.

"I feel one hundred per cent better on two bottles of Orgatone and feel like a different person entirely," said Mrs. H. B. Clark residing at 1716 North Chadbourne Street, San Angelo, Texas, the other day.

"I was in a very nervous and run down condition," she explained, "from stomach disturbances and most everything I would eat would sour on my stomach and form gas that made me miserable for hours. My nerves were all on edge so I got little rest at night and when morning came I was most as tired as I was when I went to bed. I suffered a great deal with headaches and felt so wretched and no account I hardly had any energy or life left to do anything."

"I heard so many San Angelo people telling about the good that Orgatone had done them that I decided to try it. The way it took hold of my case was one grand surprise and I hardly know how to begin telling of all the benefits I have derived from using it. I can say though that it has made a new person out of me and I just feel good all the time. My complexion has cleared up wonderfully and I have no trouble with my digestion and I sleep like a baby. Orgatone has been a fine thing for me and I certainly am glad to recommend it from my own experience with it." Genuine Orgatone may be bought in Ballinger at the Weeks Drug Store.

All this week at the Ballinger Courts No. 3, Clairvoyant Reeder. 12-4td.*

Mrs. Reeder is Hostess at Club Party

The signs and symbols suggestive of St. Patrick's Day were used in a pretty way on last Friday evening in the beautiful Reeder home on Eighth Street with Mrs. D. Reeder entertaining club members.

Tables daintily laid for the serving of a delectable three-course menu, were centered with snap-dragons and fern. Green hats, shamrocks and other symbols were used to adorn tallies and pads in which the scores were recorded in the bridge games. High score award was won by Mrs. Ira Sims, low score by Mrs. Geo. Pearce, while the consolation went to Mrs. Malcolm McGregor.

Guests were: Meses. Sims, Pearce, McGregor, Ralph Erwin, Geo. Holman, Leslie Baker, R. L. Harwell, John Gulon, Floyd Carr, Frank Pearce, Joe Simmons, Bruce Greasy, Victor Miller, Estes Lynn, Alex McGregor; Meses Nell Alexander, Louise Orgain, Winnie Trail; Messrs. Roy Reeder and R. L. Harwell.

WILMETH NEWS

There was the usual worship Sunday and Sunday night at the Baptist Church. Mr. Steele was in charge.

There will be prayer meeting Wednesday evening at the Baptist Church. Mr. Richards will lead. This prayer meeting is a community affair and all churches will join in these services.

We played Miles Friday. The score was 20 to 22 in our favor. We played Crews Tuesday and the score was 27 to 22 in our favor. This makes Mazeland county champions, and we are proud of our girls.

Scouts Present Rotary Program

Ballinger Boy Scouts furnished the program at the Rotary Club luncheon Wednesday. Scoutmaster K. V. Northington and Ross Murchison were present with Scouts Jack Lynn, Graham Fowler, Walter King, Sam Malone, Richard Edlitz and Marion Connelly. Jack Lynn and Sam Malone each spoke to the Rotarians on what the Scouting meant to them and various ways they had been benefited.

All the lads took part in demonstrations of first aid to humans and animals giving explanations on how to treat and remedy many injuries.

At the conclusion of the demonstrations Scoutmaster Northington gave a very interesting talk on his work with the boys. Mr. Northington told of beginning the work here about one year ago and how it had soon proved the worth of the organization. He quoted from President Herbert Hoover when he stated that one million of the fifteen

million boys in the United States now belonged to the Scouts and when the other fourteen million lined up the crime wave would be over. Mr. Northington produced records to prove that no Scout had ever been convicted of a felony in the United States.

He urged the moral cooperation of the business men, begging them to learn more of the work so that they could help in leading the boys in their work.

Claude Wilde, of San Angelo, made a short visit with the club and told the Rotarians that there would be plenty of seats for the final performance of the Passion Play in San Angelo tonight.

Added—ALL TALKING COMEDY

"SO, MY PROUD BEAUTY, YOU WOULD REPULSE ME, EH?" barked DALTON

"I would indeed," said the fairest flower of the countryside. "And how!"

"What is there about me, gal, to bring this disfavor down upon my head?" he demanded.

"Your voice, sir," she answered him haughtily. "The man who wins my heart must smoke OLD GOLDS in kindness to his throat—and to his listeners."

47 Years' Practice Taught Dr. Caldwell
Many things about Men and Women

DR. CALDWELL loved people. He studied the habits of his patients and tried to improve their ways of living. His observations over a long period of time convinced him many people were ruining their health by a careless choice of laxatives. Then he determined to write a prescription which would get at the cause of constipation and correct it quickly and safely.

How successful his efforts were is best shown by the fact that the prescription he wrote back in 1885 has become the world's most popular laxative! He prescribed a mixture of herbs and other pure ingredients now known as Dr. Caldwell's Syrup Pepsin, in thousands of cases where bad breath, coated tongue, gas, headaches, biliousness, and lack of appetite, or energy showed him that the bowels

of men, women or children were sluggish. It proved successful in the most obstinate cases. So men liked it. Old folks liked it because it never gripes. Children liked its pleasant taste. And everybody is pleased with the gentle way it accomplishes its purpose.

By 1888, the demand for this laxative was so great that the doctor permitted it to be bottled and sold by drugstores. Today you can obtain Dr. Caldwell's Syrup Pepsin from any drugstore in the world.
