Five are Charged With Murder at Fort Worth

(By Associated Press)
FT. WORTH, March 15.—Murder complaints were filed today against four men and a woman in connection with a shooting here last night in which Lee Ferguson, 20, was fatally wounded.

H. L. Hancock, one of the five who went to the party uninvited, admitted firing his gun, but said he didn't know anyone was hit.

Hancock stated he and his companions had been drinking.

Twenty-six Schools Compete in Meet

The most successful interscholastic meet ever staged in the county continued Saturday with more than 600 already registered to participate in the various events to be held. All day Friday eliminations continued in the high school buildings and on the campus with a number of winners being announced Friday night.

Winters boys were first place winners in debate, Ballinger taking second.

Picture memory contest—Sweet Home, first; Winters, second; Rowena, third.

Music memory—Rowena, first; Ballinger, second; Winters, third.

Volley ball—Ballinger, first; Winters, second; Miles, third.

Class A girls' playground ball—Ballinger, first; Miles, second; Winters, third.

Ward girls' playground ball—Ballinger, first; Winters, second; Content, third.

Class A boys' playground ball—Ballinger, first; Winters, second; Rowena, third.

Ward boys' playground ball—Rowena, first; Ballinger, second; Ballinger, third.

Rural girls' playground ball—Bethel, first; Blanton, second; Content, third.

Rural boys' playground ball—Blanton, first; Maverick, second; Winters, third.

Winters girls won the debate held Friday night at the high school auditorium and were also first in extemporaneous speaking with Miles second and Ballinger third.

Included in the entries made before Friday morning were two Class A schools, eight class B schools and fourteen rural schools.

Saturday was scheduled to be a full day and a larger crowd than that of Friday was present early Saturday morning to commence contests in the various events at the high school. Much interest was manifested in the senior track and field meet Saturday afternoon at Fair Park. This series began at 1:30 Saturday afternoon and competition was keen in all events. Officials were of the opinion that it would take until late in the afternoon to decide first place winners and champions.

SENATE REJECTS DUTY ON HIDES

(By Associated Press)
WASHINGTON, March 15.—The Senate today rejected the proposal for a ten per cent duty on hides, now on the free list.

Finding Roosevelt elk not sufficiently prolific Washington and Oregon districts repopulated their forests by importing the Yellowstone or Montana variety.

Dr. J. W. Macune returned home Friday afternoon after spending the week in Dallas attending to business.

Slayer of Husband Over 15c Ice Bill Arraigned

(By Associated Press)
FT. WORTH, Mar. 15.—A charge of murder was filed today against Mrs. T. B. Thompson, 53, who told police she shot her husband, 54, last night after an all day quarrel over the question of which one should pay a fifteen cent ice bill.

Mrs. Thompson said her husband threatened to beat her and started to get his shot-gun. She snatched up a pistol and fired four times, one bullet taking effect.

Rains Cover Many Counties in Texas

(By Associated Press)
DALLAS, March 15.—Farmers of Northwest Texas are more optimistic over crop prospects for the season after many weeks of drought were broken last night by rains scattered over a wide area.

An inch rain fell at Amarillo where the last was two months ago. Stamford reported the first rain since October 19th.

Certain sections of Runnels county received heavy rains Friday afternoon and Friday night. No rain report was tabulated because of the fact that few of the towns in the county received any considerable precipitation, most of the heavy rain falling in rural communities where no calls were made.

The rain started a few miles south of Ballinger and in a narrow strip from two to three inches fell. This stretch is reported to have extended from around Olfen to as far east as Leaday. Parties arriving in Ballinger Saturday morning reported that many fields south of here were standing full of water and streams were up.

Near Blackwell and south of Bronte another heavy shower covered a small area and streams in the vicinity were on rises Saturday morning, twelve hours after the fall.

Scattering rains were reported from Christoval to Rowena with roads muddy for a few miles and dry for a few. All West Texas was visited by threatening weather and light showers similar to the condition prevailing here Friday afternoon.

Many points in Northwest Texas reported good rains.

OLD INSURANCE POLICY TO BRING WIDOW \$10,000

(By Associated Press)
SAN ANGELO, March 15.—An old life insurance policy for \$10,000, found in a trunk in a garret of a home in Rocksprings, where it had lain since a few days after the death of A. H. Greene in San Diego, Calif., in 1922, has been adjudged still in force by San Angelo insurance men.

As a result, the policy has been sent to Mrs. Greene in Los Angeles.

The policy was found when relatives of Mrs. Greene decided to look in an old trunk left in the home at Rocksprings. Mrs. Greene had believed the policy void because another for \$2,000 held by Mr. Greene had been neglected prior to his death. The \$10,000 policy however, was paid up for 21 years, insurance men said.

HOUSTON PREPARES TO ENTERTAIN PRINTERS

(By Associated Press)
HOUSTON, March 15.—Fourteen committees have been appointed to make provisions for the annual convention of the International Typographical Union to be held here in September.

Some 2,000 delegates are expected. It will be the first time that the convention has been held in this section.

A "get together" meeting, a trip to Galveston on the Sunday prior to the convention's opening, and a trip down the ship channel to the San Jacinto Battleground will be features of the entertainment program.

SILVER TEA

A St. Patrick's Day Tea will be given by the Conquest Class of the Eighth Street Presbyterian Church at the home of Mrs. G. P. Teague, 1101, 8th Street, Tuesday March 18th, from 3 to 7 p. m. 15-2d

Miss Evelyn Routh is reported to be resting well at the Ballinger Sanitarium after an emergency operation performed early Thursday morning.

Lee Grows Weaker; End Expected Soon

Auxiliary Head Brings Message

Mrs. F. H. Carpenter, state president of the American Legion Auxiliary, visited Ballinger Friday afternoon and night and met at Legion Hall with members of both Legion and Auxiliary at 8 o'clock Friday night.

An open house had been advertised for everyone by the local Auxiliary but due to the threatening clouds, only a small crowd was present.

The crowd assembled in the auditorium at 8 o'clock and an excellent program was presented. After the singing of one verse of "America," an orchestra favored the crowd with several numbers.

A stringed quartet offered a group of selections which made a big hit with the audience. The quartet was composed of J. D. Motley, Owen Burden and two sisters.

"Johnnie and Jimmie" the two boys from Blanton who have been scoring a big hit in this section and over nearby radio stations, appeared in a group of vocal and instrumental selections and each number received hearty applause from the crowd.

Mrs. A. McGregor sang two numbers which were done in her usual pleasing manner. For her number Mrs. McGregor sang "Lonesome Road."

Following a few words of welcome from Troy Simpson representing the Legion and Mrs. Ira L. Sims for the Auxiliary, Mrs. Carpenter was introduced.

After expressing her delight at being able to visit the local unit, Mrs. Carpenter declared that she did not come here to tell anything but to learn something. She said that the Ballinger unit was looked after every piece of work assigned it, always answering every call made of it and that she wanted to come here and learn how the organization functioned and then take the message on to others who were unable to do their work so well.

Mrs. Carpenter invited her auditors to ask questions when they wanted to and many times during her talk someone used this privilege to unravel some puzzling matter.

The speaker used most of her time in telling of the twelve months program of the Auxiliary. This program has a subject for each month and a chairman to look after each of the twelve duties. The program is constructive and educational, requiring much study to properly put it over.

Mrs. Carpenter explained the work now being done by the Auxiliary at hospital centers, particularly at Legion, Texas, where so many families gather near the men in the tubercular institution. Work among the women and children is constantly carried on and a large nursery is maintained where children can be left and wives allowed to visit their husbands. Doctors at the institution claim that this helps to keep patients contented and that they respond to treatment better. While children are at this nursery they are taught kindergarten courses and it has been declared the most novel project in the entire United States.

The visitor told of the poppy plant at Legion where patients make the little red poppies that are worn on Armistice Day. She expressed the hope that some time soon patients would be allowed to make all the poppies

(By Associated Press)
WASHINGTON, March 15.—Representative R. Q. Lee, of the 17th district of Texas, is in a critical condition today from the effects of a stroke. He was reported to be weaker this afternoon by hospital attendants, doubt being expressed that the congressman would live through the day.

Large Crowd to Angelo Sunday For Legion Meet

A number of Ballinger people will leave here early Sunday morning to attend the American Legion fifth division convention at San Angelo. This division is composed of the 16th, 17th and 18th congressional districts, and several thousand delegates and visitors are expected in that city Saturday night and Sunday.

The program began at 1:30 Saturday afternoon with registration at the Hilton Hotel. Band concerts, parades and dances were to make up the entertainment features for the rest of the day until midnight.

The program for Sunday will start at 10 a. m. when the resolutions committee meets. Divine services will be held at the First Methodist Church at 11 o'clock, the sermon to be delivered by Rev. Geo. Green, of Sweetwater, division chaplain. Pastors of San Angelo also will take part in the services.

At noon Sunday a banquet will be held at the Hilton with a number of prominent men on the program. R. L. Bobbitt, of Austin, will make the principal address. State Commander Ernest Cox of Austin, Jimmy Alfred, of Wichita Falls, and E. E. "Pat" Murphy, of San Angelo, also will be heard.

At 2 o'clock each of the three districts will hold a one-hour caucus and at 3 p. m. the division meeting will be called to order with John C. Wilson, division commander, in charge. The main speakers on this program will be Col. Bill Easterwood, of Dallas, and Read Johnson, of the U. S. Veterans Bureau, Dallas.

Only a few from Ballinger will attend the Saturday session, but a large representation will be present all day Sunday.

NOVELTIES TO BE SHOWN AT COLLEGE ON MAY 10th

(By Associated Press)
COLLEGE STATION, Mar. 15.—Frying eggs without fire, a talking skull, a mechanical talking man, diving ducks, a tin can motor and arc lighting through the human body are just a few of the many things that will be demonstrated in the electrical engineering program on Engineering Day at A & M College of Texas May 10. Elaborate preparations to make an outstanding event of Engineering Day to be observed at A & M for the first time this year, are well under the guidance of executive committee of students of which A. F. Deane, of Kingsville, is chairman, and S. L. Mosley, of Italy, is secretary. All departments of the school of engineering are to participate in the exhibits, demonstrating engineering activities at the college.

One of the exhibits in store for the electrical engineering show is that of a portable talking picture machine. This machine requires the use of five large trunks for transportation. Demonstration of the machine, so arranged that inspection will be easy for visitors, will be held throughout the day.

Be wise and advertise.

Be wise and advertise.

they could but at present there is only sale for enough flowers to allow the men to work about half of the time. The men are paid for each poppy they make, and she told how they begged to be allowed to make just fifty more, to get some money to help their family who must live while they are near the hospital.

Following the program the crowd went to the first floor where they were served ice cream and cake. The meeting lasted for some time as the members talked and mingled in a social way.

Pen Committee To Work Sunday

(By Associated Press)
AUSTIN, Mar. 15.—Voting to lay the framework of a bill to provide for rehabilitation of the prison system on present state owned lands, the Senate and House free conference committee prepared today to work Sunday in an effort to have the bill ready for the legislature Monday.

The Senate section of the committee voted to start the work of the conference by consideration of a plan to use state lands while the House group favored the action by a three to two vote. Senator Charles Garner, of Bryan, who had voted consistently for the central location, swung over to the side of his colleagues with the statement that he was trying to expedite matters and get the bill out of committee in time for consideration on the floors of both houses.

The House gave unanimous consent to the printing of the minority report on a bill to levy a tax of a cent a barrel on crude oil passing through pipelines, after a majority of the revenue and taxation committee last night voted to give the measure an adverse report.

AUSTIN, March 15.—A debate on Representative McDonald's bill to prevent Texas farmers from planting in cotton more than sixty per cent of their acreage under cultivation started in the House today.

A point of order was raised that the bill was unconstitutional because it would deprive citizens of their free property rights.

Birch Accepts Local Challenge

Added interest has been created in the appearance here next Tuesday night at the high school auditorium of Birch, the famous magician. The H. H. Hardin Lumber Company has constructed a large wooden box of one-inch material, strongly built, and has challenged Birch to be placed in the box, have the lid tightly nailed on and the box tied up with ropes and make his escape. Birch has accepted the defl, and the box now on display at the offices of McCarver & Lynn, will be taken on the stage for the experiment Tuesday night.

According to terms of the agreement between the two parties, the box built here, will be placed on the stage and after a local committee inspects it, Birch will be placed inside, nailed up, and tied with ropes. Birch declares he will escape from the box, leaving the lid still nailed on, in one minute.

This will be just an added feature to the program of mystery to be presented by one of the foremost magicians of the present era. In addition to this feat Birch will bring a live pony on the stage and make it completely disappear in one minute. He will cause fire to burn in his eye and do many other unexplainable stunts.

This attraction is brought to Ballinger under the auspices of the Parent-Teacher Association. This is one of the smallest towns in the state where Birch is giving a performance and Ballinger citizens are fortunate in being able to see the presentation at the very low price charged.

Three Nations Agree On Naval Limitations

Guardsmen Hunt Bank Robbers

(By Associated Press)
DENVER, Mar. 15.—Colorado national guardsmen were ordered to hunt today for the Manter, Kansas, bank bandits, when an infantry company was assembled. A national guard airplane also was sent to aid in the search. The bandit trio entered the bank yesterday, took \$4,000, and escaped in an automobile. The men met Deputy Sheriff Charles Hickman who had been warned of the direction the robbers took, shot him fatally, and wounded two other officers.

A man reported today that he also was robbed by the trio, who are still at large.

Bryant's Name Sent to Senate

(By Associated Press)
WASHINGTON, March 15.—The nomination of Randolph Bryant for reappointment as United States attorney for the eastern district of Texas was sent to the Senate today by President Hoover.

RED-HEADED STUDENTS PROUD OF THEIR 'TOPS'

(By Associated Press)
FT. WORTH, Mar. 15.—Red-headed students at Texas Christian University are proud of their "tops," they told a reporter who conducted an investigation for the staff newspaper. They resent, however, the widespread belief that red-headed persons have more temper than the ordinary individual.

"If there is anything at all to this idea of temper and red hair, it is because people overtax the patience of those who are red-headed and make them fussy and quick tempered," said E. L. "Red" Moore, football star from Graham. "I don't believe, however, that red-headed persons are more impulsive than other types," said Miss Virginia Lou Saunders of McKinney. Miss Elizabeth Ruff of Brownsville assumed a fatalistic attitude. "I have red hair, I couldn't help it, so I guess I like it," was her comment.

Atlanta is the seventh capital of Georgia. The first was Savannah.

(By Associated Press)
LONDON, Mar. 15.—A hundred per cent agreement among the United States, Great Britain and Japan was said in the five-power naval conference circles today to be an accomplished fact as far as the delegations were concerned.

Approval by the home governments of American-Japanese settlement which was closed yesterday, was said to be the only thing remaining to enable the three delegations to end their naval conference difficulties.

Nightwatchman is Shot by Robbers

(By Associated Press)
DALLAS, Mar. 15.—James Cotner, aged night watchman, of Nevada, Collin county, was shot and wounded by burglars he surprised in a store there last night, dying here today.

Cotner was brought to Dallas shortly after the shooting.

TAXICAB COMPANIES ARE PADLOCKED IN HOUSTON

(By Associated Press)
HOUSTON, March 15.—Padlocking taxicab companies whose owners or employes dabble in the liquor traffic has been suggested by Federal Judge J. C. Hutcheson, Jr. here.

"It's plain that they are just dodging around. If you could get injunctions against them and lock up the place, and the taxicabs, too, we might persuade them to let the liquor business alone," the judge told the government's attorney after hearing two cases where testimony had indicated that drivers had delivered whisky on orders telephoned to their companies.

HOUSTON, March 15.—S. J. Puckett, a farmer convicted in federal court of transporting liquor, would have lost the offending automobile, as usual, except for one little detail. It was decided that the machine was not worth more than \$7.50 and, if seized, would cost the government more than that in its disposition.

Rain at last but not enough. Farmers coming to Ballinger Saturday were thankful for the small amount of rain received Friday but in most cases reported light showers and not enough to do any good.

Ballinger has successfully entertained again and more than 1000 school children have been for two days as guests of the Ballinger schools.

Cotton raisers do not have much to look forward to if editorial writers in state papers are correctly informed. All seem to be of the opinion that unless cotton acreage is cut 25% to 30% all over the South, the price of cotton will drop to ten or twelve cents and maybe as low as seven or eight cents.

"Dobbie," Hero of the Western Air, Cashes in for More Pay than Hoover

SAN FRANCISCO—The meteoric rise of Hugh Barrett Dobbs, "Dobbie," conductor of the Shell Happytime, from Pacific Coast stations of the N. B. C. network every morning, reads like a chapter from "Aladdin's Wonderful Lamp."

HUGH BARRETT DOBBS

Five and a half years ago, Dobbs, an unknown and unheralded personality, walked into the studio of KPO and applied for an audition. The result was an immediate "clicking" and Dobbs began a broadcast known as the Health Exercise period.

Success was so outstanding that he evolved the idea of conducting mythical cruises to the ports of the weary, the shut-ins, the convalescents—carrying to them a shipload of happiness and gloom chasers.

His work attracted the attention of E. H. Sanders, an executive of the Shell Oil Company and one of the West's greatest visionaries. He engaged Dobbs to broadcast for the Shell company. He soon earned the recognition of his dialers as the West's greatest radio personality.

SUNDOWN STORIES

THE VOICE

By Mary Graham Bonner To be sure the Little Black Clock had only turned the time ahead a little but now it seemed as though Lady Springtime was not going right off of her visit to the fields and the gardens, the woods, the groves, and along streams and lakes and rivers.

A voice had called her asking her to wait a minute. So she had waited.

"I couldn't bear to let you go without a word," said the voice. It was a chilly voice.

"Hello, Winter," Lady Springtime said, as Winter came toward her. "Haven't you gone yet?"

"I'm going soon," Winter said, "but it's the only time of the year when we get a chance to have a little chat."

"So Winter and Lady Springtime chatted and people said that they were afraid that the spring was going to be backward this year.

They had such a lively talk. Sometimes the air seemed quite mild. That was when Lady Springtime was talking.

Again it seemed quite sharp and cold. That was when Winter was talking.

"I do admire your snowy suit," Lady Springtime said. "It is so becoming to you. It wouldn't look well on me, but I do think it just suits you."

"Well, the leafy, flowery costume you wear wouldn't be becoming to me," Winter said, "but certainly it looks lovely on you. And, by the way, won't you give a message to Summer?"

"Certainly," said Lady Springtime.

"I never see her, but please tell her it's just because of our different ways. I haven't any hard feelings toward her at all."

"I'll tell her," laughed Lady Springtime, and Winter seemed pleased to her it for he thanked Springtime so cheerily.

(Monday—Winter's Packing)

mail shall be marked as above and enclosed in another envelope addressed to Gibb Giehrst, State Highway Engineer, Austin, Texas. All bids received will be returned to the bidder. Conditional bids will not be considered.

NOTICE TO CONTRACTORS

State Road and Bridge Construction. Letting No. 42, 1930. Runnels County.

Job No. 200—J. F. A. P. No. 590—B. Hwy. No. 4. Length 118 Miles.

Sealed proposals addressed to the State Highway Engineer of Texas, for the improvement of certain highways in Runnels county, will be received at the office of the State Highway Engineer at Austin, Texas, until 10 o'clock, A. M. March 17, 1930, and then publicly opened and read.

Description of Work to Be Done. Work consists of construction of steel and reinforced concrete bridge across Colorado River, on State Highway No. 4, in Runnels County.

Approximate Quantities. 504.7 C. Y. Unclassified structural excavation.

680.75 C. Y. class "A" concrete for slabs and girders.

522.67 C. Y. class "A" concrete for sub-structure.

162.99 C. Y. class "B" concrete for sub-structure.

1984.70 lbs. reinforced steel.

164000 lbs. structural steel for trusses.

39620 lbs. structural steel for bents.

500 Lin. Ft. 14" Sq. precast concrete piling.

847 Lin. Ft. concrete railing type "D."

33 Lin. Ft. concrete railing, special.

Time for completion to be 100 working days.

Detailed plans and specifications of the work may be seen for examination and information may be obtained at the office of G. M. Garrett, Resident Engineer, at Ballinger, Texas, and at the office of the State Highway Department, State Office Building, Austin, Texas. Plans and proposals may be obtained from the office at Austin, only.

A certified or cashier's check for \$2,000.00, made payable without recourse to the order of the State Highway Commission of Texas, must accompany each proposal, as a guarantee that the bidder, if successful, will enter into contract and make bond in accordance with requirements of the specifications. The right is reserved by the party of the first part to reject any and all proposals or to waive all technicalities.

Proposals shall be submitted in sealed envelopes and marked, "Bids for the construction of F. A. P. No. 590—B, in Runnels County." Proposals submitted by

HOW'S your HEALTH

SENSE IN EXERCISE

Sense in exercise is rare indeed. There are some to whom exercise appeals as the mainstay of life and health. There are others who look upon all unnecessary muscular effort as something to be earnestly avoided.

Exercise is, of course, not the most important item in health promotion, but it is important enough so that its neglect will lead in time to appreciable changes in both the structure and function of the human body.

The function of muscular exercises may best be grasped in the light of their contribution to nutrition. It is common knowledge that man lives on the food he takes into his body. This food must be properly prepared and distributed before it can be utilized by the millions of cells that make up the human body.

Preparation of the food begins with its cooking and is carried further by the mouth, stomach and intestines. The food is broken down physically and chemically. As it reaches the appropriate state it is taken up and distributed by the blood system.

Ultimate consumption of the food is carried out by the individual cells of the body. The task is distribution of prepared food to each and every cell.

This is in part accomplished by the blood system, but in the last analysis by the so-called lymph system. Blood as such does not come in direct contact with the cells outside of its own system. But in a manner still undefined by science the fluid part of the blood, that is, the lymph, escapes from the blood system and bathes all the cells of the body. It is this lymph that transports ports with it the food for the cells.

Now the crucial point in this consideration is that blood is kept in circulation by the contractions of the heart, but lymph by the contractions of all the muscles in the body.

Exercise, that is, muscular movement, therefore promotes lymph circulation. This in turn serves to bring new food to the cells, and to carry away waste.

It is this fact that explains why a muscle will grow bigger when exercised. It is this, too, that accounts for the value in massage, or, as it is sometimes termed, passive exercise.

All this week at the Ballinger Courts No. 3, Clairvoyant Reader, 12-4td."

CONNELLY'S BAKERY

Telephone 25

Sheriff's Sale THE STATE OF TEXAS, County of Runnels:

Notice is hereby given that by virtue of a certain Alias Execution issued out of the Honorable District Court of Taylor County, of the 4th day of February, 1930, by Belle Wellborn, District Clerk of said Taylor County, for the sum of Nine Hundred Fifty-Two and 30-100 Dollars and costs of suit, under a certain judgment, in favor of W. H. Williamson, in a certain cause in said Court, No. 8192-A and styles W. H. Williamson vs. Will C. Dibrell, and Lessie M. Dibrell, jointly and severally, placed in my hands for service, I, R. E. McWilliams, as Sheriff of Runnels County, Texas, did, on the 11th day of February, 1930, levy on certain Real Estate, situated in Runnels County, Texas, described as follows, to-wit: All that certain lot and parcel of land consisting of one hundred and five acre tract out of the three hundred and fifty-two acre tract conveyed by Chapman P. White and wife to Sam H. McDermott by deed duly recorded in Volume 102 Page 18, Deed Records of Runnels County, Texas, being out of Survey No. 66 and 67, granted to the T. & N. O. Ry. Co., beginning at a stake and stone mound for corner twenty feet south from original north-west corner of section No. 67; Thence east 789 varas to a stake and mound for the northeast corner of a three hundred and fifty-two acre tract; Thence south 731 varas to southeast corner of this tract, a stake; Thence west 789 varas to southwest corner of this tract, a stake; Thence north 352 acre tract; Thence north 751 varas to the place of beginning; and levied upon as the property of Will C. Dibrell and Lessie M. Dibrell, and that on the 1st day of April, 1930, at the court house door, of Runnels County, in the town of Ballinger, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said Alias Execution I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Will C. Dibrell and wife, Lessie Dibrell.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Ballinger Daily Ledger, a newspaper published in Runnels County.

Witness my hand, this 25th day of February, 1930.

R. E. McWILLIAMS, Sheriff, Runnels County, Texas. By John D. White, Deputy.

BETWEEN WAVELENGTHS

By C. E. Butterfield

Letters from soldering iron fans again are increasing the sale of stamps by the hundreds. Listeners who got their start in radio by putting together their own receivers, have undergone somewhat of a revival. What with pentode tubes, direct coupled amplifiers and a few other new wrinkles, they are confronted with more new things in a comparatively short time than they knew existed.

The letters are the result of anxiety to find out all possible about improved devices that 1930 has brought to attention. Fans who had thought that the pleasure of experimenting was to be theirs no longer, are ready to go back to trying 'em out again.

The advent of the AC receiver rather caused a halt in the fire-side tinkering due to what seemed to be complicated circuits. After two years AC circuits have been simplified to a considerable extent the latest being the direct coupled amplifier. The assembly of this unit is as simple as putting together the early model two-tube battery receivers.

the pentode, which, its designers say, will result in further steps toward set simplification, has revived the urge for experimentation. Being somewhat different it offers numerous opportunities for trying various circuits in an effort to get out of it some of the things claimed for it.

One of these lies along the lines of using the tube in the direct coupled amplifier where it is said to show a gain of 3 to 1 over that of the screen grid, which is used in the first socket.

Southern branch of the University of California is being built on a 6,400-acre campus at a cost of \$10,000,000.

Ban On Prisoners Gives Russell First Vacation

(By Associated Press)
HILLSBORO, Mar. 15.—Decision of the state prison board not to accept any more convicts until the number had decreased to normal gave "Bud" Russell the first vacation he has had in a long time and a chance to make one of his infrequent visits to his home at Blum, in Hill county.

Russell had been transfer agent for the penitentiary for 21 years. During that time he has transferred 34,900 prisoners from county jails to the penitentiary and has returned to the penitentiary 2,300 escaped convicts captured in Texas and other states. After lodging these prisoners in the penitentiary he said he later transferred at least 75 per cent of them to the penal farms.

Russell estimated that he had handled, in all, at least 65,000 prisoners. No prisoner has ever escaped from him, and he has never found it necessary to shoot one.

Most of Texas Needs Rain Now

(By Associated Press)
AUSTIN, Mar. 15.—While the supply of moisture has been sufficient so far, rains now would be beneficial to Texas crop areas, Carl H. Robinson, statistician for the United States Department of Agriculture, said in a monthly crop report of that department.

The report said that the past few weeks had been favorable for spring plowing and planting and that work had advanced rapidly during that period.

After a considerable acreage of fall sown oats in the north central part of the state was killed by the unusually cold weather of the past winter, most of it was replanted to spring oats, the report said. Wheat was said to have escaped apparently without any serious freeze damage. Robinson asserted that feed requirements had been unusually large through the winter resulting in low supplies of feed on farms and in the importation of feed to many localities.

Land values were reported to have declined in most sections of the state, only a few favored localities showing an increased value. The Northwestern district shows the least decline in values, the report revealed. The demand is slow in all sections and few sales are being made, it continued.

"Wheat is in generally good condition," the report said. "It is estimated that 2,927,000 acres were sown in the state last fall compared with 2,710,000 acres in 1928. With average abandonment and average yield per acre about 30,000,000 bushels should be produced. The national acreage is two per cent larger than that of last year. In Texas farm stocks of wheat on March 1 were 6 per cent of the past season's crops compared with 7 per cent on March 1, 1929. The national carry-over was considerably smaller than usual."

"Farm stocks of oats in Texas represents 15 per cent of last year's production compared with a 20 per cent holdover the previous year. The farm carryover of oats for the entire country was smaller than at the same date last year."

"It is estimated that 27 per cent of last year's corn crop remains on Texas farms, which against the 86,127,000 bushels harvested last season. A year ago 33,715,000 bushels were on the farms. For the United States, the stocks amounted to 989,469,000 bushels with 1,021,873,000 a year ago, and 1,125,166,000, the ten-year average on March 1. Less than the usual amount of corn was shipped out of the counties where grown. The percentage of the 1929 crop which was of merchantable quality was 77 per cent for the nation compared with 83.1 per cent last year and 80.2 per cent, the ten-year average."

"The ratio of farm labor supply to demand is 126 per cent against 114 last year, 116 in 1928, 112 in 1926 and 94 in 1924. Apparently farm operators are doing more of their own work in order to produce crops at the least expense possible."

This is Paris

It Costs More To Ride
 By Hazel Reavis

PARIS, March 15.—Paris is spluttering in speech and print over the increased cost of saving shoe leather.

Whether by taxi, bus or subway the price of being hauled is a few sous more than it used to be. It now costs three cents to ride second class in the underground system; five cents, less a sou in first class.

What annoys people most is that tickets for the boosted rate were printed and distributed before the public ever got a hint that the increase was coming. It was announced one day, voted almost immediately and put into operation the next day.

"Voilà! If only we could get a telephone number that quickly," moans the Frenchman.

Less Noise
 At the same time taxi fares were raised, new parking restrictions became effective. One result of the new regulations has been to lessen the noise of Paris, always one of its most noticeable characteristics.

There is less toot-tooting and honk-honking now.

Instead of cruising around wearing out their horns and vocabularies, taxi drivers find themselves a place in a long line of waiting taxis and go to sleep with a newspaper over their head.

Cabs are no longer allowed to cruise within certain limits which makes them harder to find on the boulevards.

Ritzing Around
 Five-thirty at the Ritz. "A googleoff and a champagne cocktail."

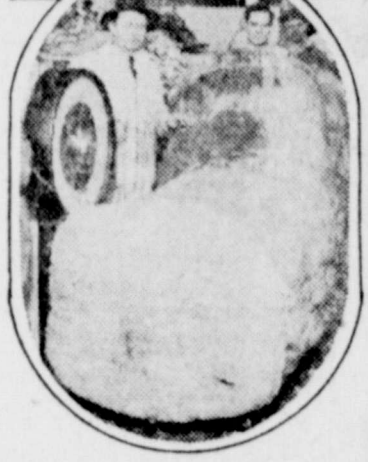

But if the buyer knows her business, she orders the googleoff, free-for-all spelling of the sweet Russian bread which is served toasted at the hotel where Oliver's word is law.

Paris is entertaining New York and Chicago buyers, here to discover the summer style secrets and hustle convertible ideas back to retailers and manufacturers.

At 1:30 o'clock any day during the first weeks of February and August you can almost call the roll of America's high salaried buyers at the famous restaurant in the Rue Daunou.

Shrine Pleases Descendant
WASHINGTON, March 3.—(AP)—No one is more pleased by acquisition of the old home of President James Monroe as a national shrine than his descendant, Mrs. Rose Gouverneur Hoos. Mrs.

Rabbit Foot Brings Him Luck: He's Fur Favorite of Fashion

From Australia, New Zealand, Japan, China, Belgium and France, the chief rabbit-producing countries, though America produces large quantities annually.

"The rabbit industry in America is as yet relatively undeveloped, considering its potential importance. The use of American rabbit skins dates only from recent years, although domestic rabbits are as fine as those of Europe and Asia."

"The greatest commercial use of rabbit-skins is for women's felt hats. All wild rabbit skins are used for felts, and large quantities of tame rabbit-skins as well. In addition, the skins of the tame rabbits are used for fur garments, a variety of trimmings on cloth coats, glove linings, and robes."

"The supply of wild rabbits in this country is varied, including two kinds of jack rabbits, the cottontail, snowshoe, and marsh rabbits. Tame rabbits produced in abundance here are the white, fawn, chinchilla, grey, and mixed rabbits. The latter include many variations. Breeders are constantly experimenting in the production of new species of rabbit which will fill fashion demands."

Rabbit shipments from the raw fur house to the manufacturer are made in car-load lots, shipments of several hundred thousand skins at one time being an average single consignment. These shipments are gathered together, graded, and grouped according to size, color, quality, and condition of fur, from thousands of small shipments from all parts of the United States.

Rabbit-skins, both wild and tame, are obtained from trappers, breeders, and from butchers who purchase the same rabbits and sell both meat and skin.

Hoes is largely responsible for the collection of gowns worn by "first ladies" now on display in the national museum.

Cycles 25,000 Miles
SAVANNAH, Ga., March 15.—(AP)—Riding to fires doesn't take in enough territory, says Leslie Seward, Savannah fireman. He averaged better than 2,000 miles a month in 1929, totaled 25,082 miles and won a trophy in the "century contest" sponsored by the Century Club of America.

"Gigolos" Thrive in Dance Places of German Capital

By Charles R. Berlin
 (Associated Press Staff Writer)
BERLIN, Mar. 15.—Professional dance partners, commonly known as "gigolos," are probably nowhere as numerous or prosperous as such in Berlin.

The fact that Germany has over 2,000,000 more women than men explains the abundance of these light-footed experts in scores of jazz emporiums. Berlin recently crowned its "King of the Gigolos" and a song about him has become a popular hit.

The Berlin gigolo, or "Eintaenzer," as he is dubbed in German, is rarely a Teuton. Germans generally are not good dancers. Neither are they sufficiently romantic—a most essential qualification for a successful gigolo.

Most of Berlin's gigolos hail from Russia. Scores of them were formerly dashing young Cossack officers. Not a few pride themselves on being descendants of the Romanoff family.

Some are even successful in making their matronly partners believe that they are grand-dukes or princes.

Their partners usually wax violently anti-Soviet after they have listened to the heart-rending tales of how the Bolsheviks stripped them of fabulous wealth. This story usually softens the lady's heart to the extent of a fee of fifty marks instead of the regular twenty at the end of an evening during which his "divine" dancing made her feel 20 years younger.

Yet fifty marks, the equivalent of \$12, is by no means the best honorarium for slicing 20 years off a partner's life. To an amateur gigolo who gives up a 50-mark a week job as ribbon salesman to become a "jewelry expert" (gigolos are supposed to become such), such honorariums mean butter for their bread. But among Berlin's "Eintaenzer" elite are not a few to whom the "profession" has brought "cake" with which they embarked upon a life of luxury and ease.

Just how many of them reaped a harvest of gold, thanks to the open-handed gullibility of American widows or "grass-widows," is not a matter of record. Rumors, however, have it that American dollars have bulged many a gigolo's pockets since prohibition started the American exodus to the less arid capitals of Europe.

The Berlin gigolo's height of

ambition, of course, is "big game" and, the bigger the better. Age and resulting lack of feminine pliancy are no bar to a woman's being marked as a gigolo's prey. She must have but one qualification—money. How to make her part with her worldly riches is the gigolo's job and the most subtle capture first prizes.

Such a one was the notorious Alexander Subkoff, whose mastery of the art of "gigolism" won for him the hand of Princess Victoria zu Schaumburg-Lippa, sister of the ex-emperor of Germany. With her went a dowry which hereabouts was considered a fortune.

True to the traditions of his "profession," he squandered that fortune, stripped his victim of virtually her last penny and thus made a byword out of a name that once was a fetish in aristocratic circles.

MUCH SEIZED GOODS TAKEN AT LAREDO
 (By Associated Press)
LAREDO, Mar. 15.—A number of fine Mexican cigars and cigarettes, seized by the customs officials during the last few months as excess of allowances made tourists coming out of Mexico has been sent to the San Antonio headquarters by Chief Deputy Collector A. R. Kahn. The seized goods are sold at better prices in San Antonio than in Laredo, it was announced.

The customs authorities have on hand quite a quantity of liquor. The wet goods at certain intervals are poured into the federal cesspool, much to the disapproval of "dry" spectators.

Georgia's campaign against illiteracy has penetrated the state prison where classes have been organized.

ANGER HEADED OFF

Constipation Troubles Soon Go Away Following Use of Black-Draught.

Burke, Texas.—Mrs. Orea Crawford, of this place, tells of her use of Theodor's Black-Draught which she says covers a period of "a good many years."

"We use Black-Draught as a regular family medicine for constipation, and I try always to keep it in the house."

"I have found it a reliable medicine to give the children when they get upset from over-eating, or have colds, for after taking Black-Draught they get all right in a little while."

"I use Black-Draught for bilious, sick headache. I have found that a dose or two, taken at night, will give quick relief for constipation and the complications which follow when that condition runs on."

"A bad taste in the mouth in the morning, dizziness and a dull headache, all leave quickly after a few doses of Black-Draught. I find it is not safe to let such things run on. I try to head off the danger by taking Black-Draught in time. It is a dependable medicine."

At the first sign of constipation, take Theodor's Black-Draught. This purely vegetable medicine has been in use nearly 100 years. Sold everywhere. Try it. NC-223

COUNTRY AIR CLEARS HUSKY VOICE OF KYW
 (By Associated Press)
CHICAGO, March 15.—Getting away from the murky air of downtown Chicago to the atmosphere of the country has taken the hoarseness out of the voice of KYW.

The Westinghouse plant, first in Chicago, now has a new home near Glen Ellyn, 23 miles northwest of its former residence atop the Congress hotel. KYW's studios still are in the hotel.

Broadcasting from Glen Ellyn has eliminated the blurred reception of which fans in certain sections of the country complained. Engineers attributed it to the steel structures surrounding the downtown station.

The new station is called a "superpower job," and while only 10,000 watts will be used, it has much greater energy in reserve.

KYW is a landmark in radio history. It went on the air Armistice Day, 1921, when crystal sets were in vogue.

Mary Garden and Edith Mason, opera stars, sang on the first program, their voices being carried by remote control from the Auditorium where they were singing in "Samson and Delilah."

Wendell Hall, Art Linnick, Lee Simms, Mary Lee and Sally Menkes were early KYW entertainers.

Ed Borlowf, now of WENR, and Sen Kaney, now with NBC, were announcers.

MRS. MARRS APPROVES CHILD FOUNDATION MOVE
 (By Associated Press)
AUSTIN, Mar. 15.—Mrs. S. M. N. Marrs, president of the National Congress of Parents and Teachers, approves the project of the University of Texas regents to establish a foundation on Child Welfare and Parent Education.

"Many of the great universities of the North and East have been doing splendid work along this line," she said. "I am sure that the progress of Texas in other directions is comparable to that of those regions."

"The educational work of the Parent-Teacher Association for many years has stressed the better understanding of children's problems by parents and teachers. It is a step in the right direction when we create in our educational institutions opportunities for the future teachers and to equip themselves for their responsibilities by study and research under guidance of trained nutritionists, psychologists and doctors."

Forty per cent of apples imported by Belgium are grown in America.

NIGHTWATCHMAN HAS LONG BEAT TO COVER NIGHTLY

(By Associated Press)
TRINIDAD, March 15—Lloyd Harris of this little East Texas town doesn't need to learn golf or take the "daily dozen" in order to get his exercise.
Harris is nightwatchman on the levee protecting the lake which furnishes the water for the operation of a huge electric power plant here.

The levee is two and one-eighth miles long and Harris has to make at least four round trips between 7 p. m. and 7 a. m. He works a seven-day shift. Has to make telephone calls at stated intervals and an investigation is started if he is more than a few minutes late on any of his calls.
In the two years he has been on the job Harris says he has walked at least 12,410 miles. His walking is over, however, when quitting time comes. His wife brings him to work and takes him home in the family car.

SCALES ON ROAD TO TEST TRUCKS FOR EXCESS LOAD

(By Associated Press)
DETROIT, March 15—Determined to enforce the law that denies overloaded trucks the use of certain highways, the Michigan highway department soon will install pit scales along principal trunk roads.

State police will halt and weigh trucks suspected of carrying loads in excess of what the pavement will stand. The driver of an overloaded truck will be compelled to unload part of his cargo on the spot. He also may get a ticket for court appearance.

It is proposed to install scales in places where it will be impossible to avoid them by detouring.

Be wise and advertise.

MANAGER OF NEW RETAIL DRY GOODS STORE HERE

J. A. Killough

J. A. Killough who has been appointed by the J. C. Penny Co. as manager for the new store which will be opened in this city early in April is now here completing plans for the opening and receiving his initial shipment of stock.

Mr. Killough comes here from San Angelo where he was also connected with the Penny organization. The new store will be modelled after the last type of design adopted by the company for the convenience and service of customers and will present many new features adding to the facilities with which the wide range of women's and men's clothing, footwear, piece goods and other items in the large list of merchandise handled may be displayed.

The new store in this city is number 1423 in the chain of stores which covers every state in the union and which was started twenty-eight years ago in the town of Kemmerer, Wyoming. The rate of growth of the company may be seen from the fact that there were 517 stores after it had been in business 22 years, approximately 500 more were added in the next four years and last year the number of new stores were added totalled 372.

Total sales for 1929 were in excess of \$200,000,000 and estimates for 1930 anticipate over \$245,000,000 in sales for this year. J. C. Penny, the founder of the J. C. Penny Co., is nationally known as the man with over 1900 partners, because of the unique policy of the organization which makes every store manager a partner in the company.

HIGHWAY MEETING CALLED FOR ANGELO APRIL 15th

(By Associated Press)
DALLAS, Mar. 15—W. B. Marsh of Dallas, president of an association which seeks designation of a federal highway from Dallas to the Mexican Pacific coast, via Presidio, Texas, on the Mexican border, has issued a call for a mass meeting at San Angelo April 15th.

Delegations from all communities along the proposed federal route between Dallas and Presidio are expected to be present. The Washington-Dallas stretch of the proposed international transcontinental route already is designated as a federal highway and members of the association are asking that the designation be extended from this city to Presidio. The Mexican government has been asked to designate the route from Presidio to the Pacific. The proposed federal highway through the two counties would be 400 miles shorter than any transcontinental route heretofore designated.

Those attending the San Angelo gathering will consider the suggestion of the highway committee of the Dallas Chamber of Commerce that a motorcade over the route be sponsored in June.

We have new and better equipment and more competent bakers that's why "Mrs. Lewis' Bread" is better.

We will appreciate your patronage.

BUMPER ALLIGATOR HIDE CROP IS EXPECTED

(By Associated Press)
ORANGE, Mar. 15—A "bumper" alligator hide crop is predicted by trappers in this area. Thousands of alligator hides are shipped through here each year, and the experts claim that the marshes are literally filled with the saurians, despite unfavorable weather conditions existing the past winter.

Be wise and advertise.

Amusements

"Broadway" Coming to Palace Screen

The screen version of the celebrated Philip Dunning-George Abbott stage success, "Broadway," will have its premiere in Ballinger tomorrow afternoon, continuing through Monday and Tuesday. Glenn Tryon, Evelyn Brent and Myrna Kennedy are featured in the cast. It is an elaborate talking, singing and musical picture with an intense drama of the underworld of hijackers, night club life and bootlegging. The photodrama was directed by Dr. Paul Fejos, under the supervision of Carl Laemmle, Jr. It was made on an elaborate scale and is said to have cost \$1,500,000. Much of the action is laid in a night club. This interior is said to be the most striking scene of the year. The decorations and the general arrangement and lighting of this set have set new standards in cinematography.

Against its bizarre and modernistic backgrounds, a chorus of sixty trained dancers put on a show that is claimed to have no equal in the most gilded New York night club. The famous Coconut Grove Orchestra of Los Angeles under the direction of Gus Arnheim, supplied the music for the night club scenes, including both the singing and dancing numbers. Howard Jackson made the score and arrangement. The music is reproduced via movietone. The dramatic dialogue of the play, adapted by Edward T. Lowe, Jr., the scenarist, is said to be exceptionally well handled throughout the picture by the principals and other members of the cast.

The Crazy Man talks over Radio Station KRLD, 1040 Kilocycles, every Saturday at 6:45 p. m. Listen to him, it might do you good. S-dtf.

Girls, be Attractive to Men
Nature Intended You Should Be!

If your stomach and bowels do not function properly, the bloom of youth rapidly disappears. Doctor Pierce's Golden Medical Discovery usually meets the need. Your eyes sparkle—your complexion clears up and the bloom of youth is yours. All druggists. Write to Dr. Pierce's Clinic in Buffalo, N. Y., for confidential medical advice. There is no fee.

DID IT "RAIN FROGS?" THE QUESTION IS UP

(By Associated Press)
CHICAGO, Mar. 15—The question, "Did it rain frogs?" is up for discussion again.

Miss Mae Gilson of Chicago opened the matter by inquiring through the press whether anybody remembered a downpour of frogs in Minneapolis some years ago. She recalled the phenomenon but had difficulty convincing friends.

Minneapolis memories are still short on recollections but Detroit turns up two witnesses. S. Hulbert says "thousands" of frogs fell from the sky during a cloudburst at Trenton 30 years ago. J. H. McPhail says a similar occurrence happened at Detroit once.
