VOLUME 25. NUMBER 30

BALLINGER, TEXAS, FRIDAY, MAY 23, 1930.

MEMBER ASSOCIATED PRESS

FERGUSON LOSES SUIT; "MA" ENTERS RACE

Highway 30 is Accepted; Grading Started on No. 4

All work has been completed on highway No. 30 from Ballinger to San Angelo and the job has been accepted by the state. Finishing dirt shoulders and smoothing the surface on bridges and culverts along the route was completed this week.

Interest now has shifted to the south portion of highway No. 4, from Ballinger to the Concho county line. Grading began two weeks ago at the Concho county line. Approximately 2 1/2 miles of the right-of-way on this road has been torn up and is being graded to the required roadbed. A crew also has been working on the bridge across the Colorado River at the foot of Seventh Street for several weeks. No great amount of progress has been accomplished on this project due to high water most of the time, however, a number of carpenters have been busy building forms for the piers and much material has been placed on the ground.

Travel from Ballinger to Paint Rock at present is being routed by Bethel. This detour leaves the old highway a short distance south of the city and does not return to the highway again until within a short distance of the county line. All the grading will be done from the Concho end of the road this way. Included in the grading contract are drainage structures along the route.

A number of complaints have been registered regarding the location of highway No. 23 from Ballinger to the Coleman county line. This location is north of the Santa Fe railroad and will make necessary new right-of-way for a considerable distance.

Big Crowd Attends Baptist S. S. Picnic

Members of the Ballinger Baptist church and Sunday school gathered Thursday afternoon at 3:00 o'clock at "Slicky" on Elm Creek for a basket picnic. More than 200 were present at the beginning of the entertainment features and many children spent the afternoon in frolic and games. The entertainment committee had provided swings for all the kiddies and every tree limb that offered a good location was used to suspend a swing.

Large containers filled with red lemonade were kept cool during the afternoon and everyone was urged to drink all he could. Games of many kinds were played, young and old entering into the fun and participating in the diversions.

A feature stunt of the day was the "mother Hubbard" race staged late in the afternoon by a number of male adults of the Sunday school. Frank Cameron was winner in this contest. Rev. J. H. McClain took second place, and the race between this pair was worth witnessing as described by those present. The dresses must not have been in their way much according to the time made by the runners. Cameron completed the fifty yards in less than one minute, with the pastor coming in a few split-seconds later.

At 7:00 o'clock the women announced the basket lunch was ready. A long table was filled with every known good thing to eat and men, women and children lingered long trying to make way with the delicacies. After all had finished the women packed several large boxes of food which were turned over to the charity board for needy families in town.

The crowd was not hardly as large as had been expected but those present tried to make up for those who failed to attend and it was not necessary for anyone to say he had had a good time when preparing to depart.

Read today's news in The Ledger today.

Sherman Cases Moved to Dallas

(By Associated Press) SHERMAN, May 23.—Thirteen men indicted for mob rioting here on May 9th were transferred to the Dallas county jail today after a change of venue was ordered to criminal district court No. 2, of Dallas, following a conference of city and county officials with Col. L. E. McGee, commanding the national guard detachment sent here to restore order.

No action has been taken by the grand jury in the cases of fourteen other men arrested for questioning.

Dead Line is Near To Get On Ticket

(By Associated Press) AUSTIN, May 23.—The dead line for state candidates to file their applications with the state Democratic Executive Committee is less than ten days away, meaning doubtless that with the exception of some probable aspirants for Governor seekers of most of the offices are all in.

The state executive committee will meet June 9 in compliance with the election laws and certify to the county chairman the names of the candidates in July 26 primary. Also at this meeting will be chosen the site of the state convention on September 2.

June 14 is the last day for county, precinct and district candidates to file request to have names placed on the ballots. This rule applies to candidates for district offices in districts composed of only one county. June 16 the county executive committee will meet to determine the order of the names on the ballots and estimate expense of the primary. Assessments to meet expenses must be remitted by candidates not later than June 23.

The first campaign expense report must be filed during the period between June 26 and July 1. Also during the same period—June 26 to July 1—voters who are absent from their counties may appear before a notary public and request a ballot. Voters who intend to be absent from their home county on primary election day must appear before a county clerk and vote an absentee ballot between July 16 and 23.

On August 2 the county executive committee will meet to canvass the returns. County conventions will be held on the same day, on August 11 the state executive committee will meet to canvass the returns and the second, or run-off primary, will be held August 23.

Democratic and Republican primaries will be held on the same day under the law which requires all parties whose candidate for governor received at least 100,000 votes in the last preceding general election to nominate their candidate through primaries. It will be the second time the Republicans have nominated in this manner, the other time being four years ago. Prior to the last general election, the Republican candidates for state offices did receive as many as 100,000 votes.

G. C. Tatum, of Miles, was assessed a fine of \$10 and costs totalling \$26 in justice court here Friday morning on charges of running past a barricade on highway No. 30, near Miles, on May 13.

Mr. and Mrs. Carl Black and baby, of Cisco, are here for a week's visit before going on to Big Spring, where Mr. Black has been appointed manager of the Western Hardware Co.

Large Crowd Hear Band in Concert

A large crowd heard the concert rendered by the Ballinger Band on the court house lawn Thursday night. The program was one of the best played recently by the local musicians. Director H. H. Carsey has been putting the boys through some intensive training for the past ten days in preparation for the band contest at Abilene next week.

Rehearsals are held each morning at the national guard armory. Special training by sections is being given on the numbers to be played in the competition. Mr. Carsey stated that those who are not able to play their parts will not be used in the personnel of the band on the contest stage.

At the Abilene contest the local band will be limited to high school students only and will be rated as a third-year band, class B. One year ago the Ballinger Band won first place in a high school contest held at Simmons University. For this victory the organization was awarded a silver loving cup which it must defend in the same division this year.

The band will be smaller this year than in any previous year as only about 25 men are eligible to play the music selected for the contest. Instrumentation may hurt in this grade, however the band is well balanced and will perform like a veteran group.

The band will also take part in a number of parades while attending the West Texas Chamber of Commerce convention, especially on Friday, May 30th, when the Ballinger delegation visits Abilene. For the remainder of this week and next the band will drill on street work under a drum major.

WANTS AUSTIN CITIZENS TO HELP AT LEAGUE MEETINGS

(By Associated Press) AUSTIN, May 23.—A plea that Austin residents cooperate more fully with the University Interscholastic League officials in handling the state tournament of the association has been made by Roy Bedichek, head of the league bureau.

Bedichek announced the 1931 tournament of the league would be held May 7, 8 and 9 and requested that the entire week be kept open to accommodate delegates and visitors to the meet. Approximately 3,000 students and visitors attended the yearly tournament.

Bedichek requested the Chamber of Commerce not to schedule other conventions the week the Interscholastic Leaguers were in town because of the limited accommodations facilities.

He stated that rapid growth of the organization made it practically impossible to obtain lodging for the delegates if other conventions were being held simultaneously.

Be wise and advertise.

Angelo-Corpus Road is Issued a Charter

(By Associated Press) AUSTIN, May 23.—The Corpus Christi, San Angelo and Roswell Railroad Company was chartered by the state department here today, with a capital stock of \$350,000. The home office of the road is at Corpus Christi.

It is proposed to construct a line from Corpus Christi to San Angelo through Nueces, Live Oak, McMullen, Frio, Medina, Uvalde, Kerr, Kimble, Menard, Concho and Tom Green counties.

High Waters Rise Near Shreveport

(By Associated Press) NEW ORLEANS, May 23.—Work-in relays, men continued today to fill sand-bags and haul dirt to combat the steady rise in Red River between Shreveport and Alexandria, while other Louisiana and Mississippi streams apparently are receding.

After taking the life of Andrew Aldredge, who was drowned while swimming in a swollen creek, near Shreveport, water from Cross Bayou continued to back toward the city limits but is not expected to enter the city, which is entirely surrounded by water.

Chinese Bandits Continue Raids

(By Associated Press) SHANGHAI, May 23.—Five hundred bandits today looted two towns in the northern portion of the province of Kiangsu, killing a hundred villagers and kidnapping four hundred persons for ransom.

McLELLAN PRISONERS ESCAPE; RECAPTURED

(By Associated Press) WACO, May 23.—Four prisoners who escaped from the McLellan county jail here this morning were recaptured an hour later.

The profit sharing plan of mine workers in Nova Scotia has been discontinued.

Man Shoots 3 of Kin Then Hangs Himself

Reeser is Speaker At Tulsa Oil Meet

(By Associated Press) TULSA, Okla., May 23.—E. B. Reeser, president of the American Petroleum Institute, is scheduled to speak at the opening sessions of the Midcontinent Oil Scouts and Land Men's Association, and the Midcontinent District of the American Petroleum Institute, division of production, today. The two organizations are meeting here for two-day sessions.

Wirt Franklin, president of the Independent Petroleum Association, also is expected to attend the gathering.

Vote May Extend Ministry to Women

(By Associated Press) DALLAS, May 23.—The general conference of the Methodist Episcopal Church, South, today voted 174 to 159 to extend equal rights in the ministry to women.

The question of whether a majority vote of the general conference is sufficient to establish the new practice was raised immediately. The college of bishops decided the proposal was a proposed constitutional change and would require a two-thirds vote of the general conference or three-fourths vote of the annual conference.

Adjournment of the conference is to be taken tomorrow.

Herman J. H. Pake has been ordained in the Bethany Lutheran church at St. Louis for 39 consecutive years.

Man Shoots 3 of Kin Then Hangs Himself

(By Associated Press) WILKES BARRE, Penna., May 23.—Ernest Snyder, 60, wealthy fruit grower, today shot his son-in-law, daughter and grandson before hanging himself in his garage here.

Heavy losses in the stock market crash is claimed to have been the motive for the murders of suicide.

Besides Snyder, the victims are Charles Shepherd, 35; Mrs. Madge Shepherd, 32; and Ernest Shepherd, 6. All were shot through the head as they slept.

MAY TERM OF COUNTY COURT WILL CONVENE HERE MONDAY

Jurors have been summoned for the regular May term of Runnels county court, presided over by Judge Paul Trimmier. Proceedings will start Monday morning, May 26.

Cases on the docket this session include three charges of petty theft, one truck law violation, and one of damaging property.

Zeppelin Moored Safely in Brazil

(By Associated Press) PERNAMBUCO, Brazil, May 23.—The Graf Zeppelin, moored safely today after its first trans-Atlantic flight, is expected to take off for Rio Janeiro after sunset this evening on the third lap of its 18,000-mile journey from Friedrichshafen, Germany to the Americas and return.

Increasing industrialization of Australia is creating new opportunities for sale of American products.

(By Associated Press) AUSTIN, May 23.—Mrs. Miriam A. Ferguson, Texas' first woman governor, will replace her husband, former Governor James E. Ferguson, as gubernatorial candidate in the Democratic primaries.

Ferguson, held ineligible by the special state supreme court, announced his wife's candidacy after the court decision was published, saying "Ma's" platform would be issued after the supreme court had passed on the motion for a rehearing of his case.

Ferguson requested the special court members to remain here until he could present the motion for a new trial, which he promised to have ready before Monday.

AUSTIN, May 23.—Former Governor James E. Ferguson is ineligible to hold office again in Texas, the special state supreme court said today in denying his application for a mandamus to compel the state Democratic executive committee to put his name on the primary election ballots.

The court held the amnesty law passed by the legislature in 1925 designed to restore Ferguson the right to hold office after his impeachment by the Senate in 1917 was invalid. Further it was held that the constitution provided judgment in an impeachment as removal from office, disqualification from again heading an office "of trust, honor or profit."

Judge C. L. McCarter, of Brownwood, was here Thursday and spent the night with his brother-in-law, Judge T. T. Crosson.

WEATHER REPORT

(By Associated Press) West Texas—Fair and cooler in the southwest portion tonight; Saturday fair and warmer. East Texas—Cloudy and thunder showers tonight, and cooler. Saturday cloudy in the south portion, fair and warmer in the north portion.

What a Proof

of efficiency and economy!

Not ONE owner has ever paid a cent for service.

What a Proof

Of Trouble-free Operation! In a dramatic test to demonstrate the trouble-free operation of General Electric Refrigerators, the entire mechanism was submerged in water—and it still ran on!

What a Proof

Of Durability! In General Electric Laboratories, tests were conducted to discover the durability of the doors, latches and hinges. The tests were stopped after a period equivalent to 30 years of wear!

What a Proof

Of Reliability! The General Electric automatic freezing control was tested every half minute for a period equivalent to 465 years. At the end of that time it was still going strong!

Not a cent paid for service by a single owner. What a proof that the refrigerator which costs you less to own is the General Electric! What a proof that the Monitor Top—that small round casing on every General Electric Refrigerator—is your unflinching safeguard against trouble, worry and expense. In the Monitor Top the entire mechanism, with a permanent oil supply, is sealed in

steel, so that moisture, dirt, rust and trouble can never get inside. Operation cost is but a few cents a day. And not one owner has ever paid a cent for service. What a proof of General Electric economy! Prices start as low as \$205 at the factory—and most people buy on our easy time payment plan. What a proof that any family now can own a General Electric.

THE IMP

By Mary Graham Bonner
 "We're going to see an imp tonight," said the Little Black Clock.
 "That's fine," said John. He felt he would like to see an imp very much indeed. Sometimes his daddy called him an imp, and Peggy was pleased, too, for sometimes he called her an imp.
 They thought they would like to see an imp very, very much. "I've turned the time back a few hundred years or so," the Little Black Clock said.
 "A mere nothing," laughed John.

But as the scene changed and the children waited they did not see anyone or anything looking like an imp.

They turned and looked at the Little Black Clock.

He looked as though he were trying to keep from laughing. Evidently he could see the imp coming from a distance.

But no one appeared. What could the Little Black Clock mean?

Now he was laughing very hard. "You must forgive me," he said, "if sometimes I, too, like to play a little joke. That tiny shoot from the big tree, yes, the little one, is the imp. In the olden days—the days to which I've now turned the time—that was what anyone meant when they said IMP."

HOW'S your HEALTH

Edited by DR. JAGO GALDSTON for the New York Academy of Medicine

TYPHOID

With the summer, there comes the call of the open road and—typhoid. This disease, common and prevalent that at least one in every three hundred persons suffered infection, has now been very substantially reduced. It is still, however, prevalent in certain of our smaller communities.

Typhoid is always a serious disease, with an estimated fatality mark of ten per cent. A large portion of those surviving suffer long lasting impairment of their health. From two to four per cent of those at one time sick with typhoid, constantly have the germs of the disease within them. Such persons are called carriers and they become a menace to those about them.

The disease was first described in 1643 by an English physician, Thomas Willis. In 1856, William Budd, another physician, stated that the disease was transmitted from person to person through the avenue of excretion.

The germ causing typhoid, a very minute active bacillus, was first seen by Eberth in 1880 and its relation to typhoid was definitely established in 1900. This knowledge, plus the information

that has been gathered on the manner of the spread of the disease, enabled us to overcome this scourge, which, in the Civil War and the Spanish American War, was responsible for more deaths among the soldiers than the enemies' bullets.

In 1900, out of every 100,000 persons in the United States, approximately thirty-one died of typhoid. By 1920, the rate was reduced to less than one-sixth. This was accomplished chiefly through the purification of water, through the sanitary handling of milk and through proper care and isolation of those infected.

War Chariots in Near East

BALTIMORE, May 23.—(P)—Introduction of chariot warfare into the Near East is credited by Dr. William F. Albright, of Johns Hopkins, to a period contemporaneous with the patriarchs of the Bible. The charioteers seem to have been Indo-Europeans, who with this then new weapon, established a military aristocracy.

Canadians are planning to send foreign trade missions to the Orient and Latin America next winter.

West Texas has experienced all kinds of weather this year. The old saying that everything is possible in West Texas has proven itself true. Heavy rains and sandstorms on the same day have been frequent and summer weather one hour and a change to overcast weather in another has been experienced.

It is about time for severe sandstorms to stop in this section of the country. Crops are rising up above the ground now and swift blowing sand will cut them down like a knife. Some loss has already been reported from this cause. June should issue in a long period of fine weather.

The population of Runnels county will not in any way affect the fees of county officials. All offices will go on the fee system this year anyway and the same fee will be allowed up to a population of 37,500. A fee on poll taxes would affect the collector above the 25,000 mark but the county is under that number and no change will be made.

Summer tourists should start the money rolling in on the gasoline tax pretty soon for use by the highway commission. During winter months this tax becomes much less due to the small amount of travel by the general public. Many are beginning to plan summer trips and a large part of them will use their own cars to take a vacation. There is a large amount of road work planned in Texas and counties have provided their part of the bond money to build highways. All that is required before contracts are let is finances for the highway commission.

HEADACHE?

Why suffer when relief is prompt and harmless:

Millions of people have learned to depend on Bayer Aspirin to relieve a sudden headache. They know it eases the pain so quickly. And that it is so harmless. Genuine Bayer Aspirin never harms the heart. Look for the Bayer Cross stamped on every tablet.

Announcing

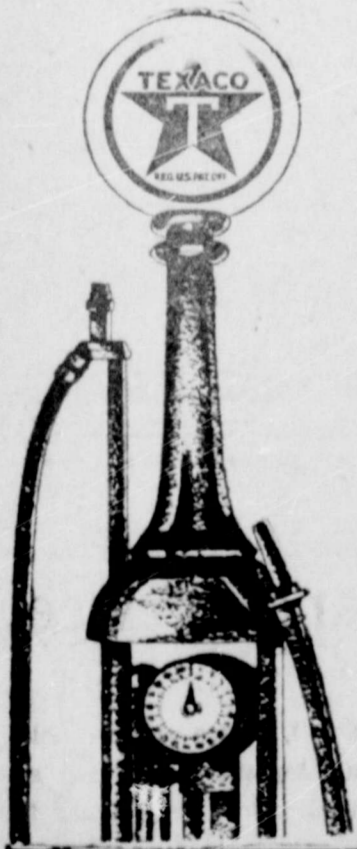

TEXACO-ETHYL

THE "DRY" ETHYL GASOLINE

The Texas Company announces that now Texaco, the original "dry" gas, is available with the Ethyl compound. It means the linking of two famous names in motor fuels to produce one of the finest premium anti-knock gasolines ever offered the motoring public—Texaco-Ethyl!

The Ethyl compound in itself cannot perform miracles. It's the gasoline base that makes the difference in Ethyls. The better the fuel you begin with, the better the resulting Ethyl Gasoline.

The *new and better* Texaco, the original "dry" gas that vaporizes instantly, *plus* Ethyl, *equals* the last word in automobile fuels. Texaco, the driest of dry gases, permits complete and uniform diffusion of Ethyl through the manifold into the cylinders. It creates higher standards of pick-up, power, speed and mileage for any car, old or new. This new premium grade is now available at Texaco Service Stations to all motorists who desire a superior anti-knock gasoline. Try it today!

Texas Cotton Co-op. Will Start Membership Drive

(By Associated Press)
DALLAS, May 23.—The Texas Cotton Cooperative Association has announced dates for addresses in Texas by Carl Williams, section member of the Federal Farm Board, and has made public its plans for a statewide membership campaign which will start simultaneously with the tour of the Farm Board member.

The campaign will open the first of June, and Williams is to arrive in Abilene for an address before the West Texas Chamber of Commerce convention May 30, following with addresses before farmers' and business men's mass meetings at Paris May 31, Waco June 2 and Corpus Christi June 3.

Sweeping changes were made in the Texas Cotton Cooperative system during the recent annual meetings of members and directors. The old Texas Farm Bureau Cotton Association, after ten years of pioneering was reorganized into the Texas Cotton Cooperative Association and its sales plans placed on an entirely different basis. Instead of contracting to deliver all his cotton for sale by the association, the member will now contract for delivery of only one bale in every two, and this amount only until he has delivered ten bales. After delivery of the tenth bale, he may sell all the remainder on the open market, if he so desires.

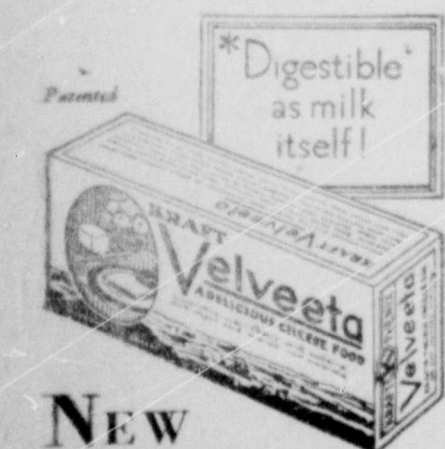

A "decentralized membership" program is another new feature, with district and branch offices at larger points, and receiving agencies at smaller points, to allow the members to carry on his dealings in person with association representatives near his home, rather than by long distance relations with state headquarters as before. On the other hand, sales will be on a more centralized basis than ever, the Texas association being one of twelve, covering the entire cotton belt, which will sell their cotton through the American Cotton Cooperative Association, sent up and supervised by the Federal Farm Board.

Corpus Christi will be the scene of the first membership drive, 41 counties of that district to begin organization June 3, with preliminary work already under way. As rapidly as possible the organization movement will be transferred to the other districts, in order to be ready for actual operation by the beginning of the cotton season.

CONTENT NEWS

Since our last report we have had another rain. These showers have fallen in too large volume to be of best advantage to the land, and some report damage by hail, but we are thankful for the water. Reports on our first big rain varied from 5 to 7 inches, and last Saturday night's reports ranged from 1 1/2 to 5 inches. The angry clouds Saturday afternoon and night caused all who have storm cellars to abandon their houses. One man says that he and his family made three trips to their cellar that night. No damage was reported except that caused by hail, and by the water washing larger openings in tank dams and in terraces that had not been repaired since the first hard rain.

Mrs. C. E. Coats was buying her

KRAFT Velveeta The Delicious New Cheese Food

Benediction—C. S. Brown
Recessional.
We were proud of our girls. They were very prettily dressed and they seemed at perfect ease as they marched in to their places, and as each, in her turn rendered her part of the program. We feel that our girls compare quite favorably with graduates of any school of the same class. We are not affiliated, but are working to that end.

third lot of garden seed Monday morning. Her first garden was ruined by the sandstorm and the hail Saturday night played havoc with the second planting. She is hoping to have better results this time.

Sunday, May 25th, is Methodist Day, and Bro. Chester Wikerson will preach.

School closed on Friday, May 16th. Quite a crowd attended the picnic dinner, and after dinner a ball game was played by the men and boys of the community.

The teachers have all gone their "several ways." Miss Cleo Blackwell and Miss Ruth Cook left Friday night. Mrs. A. J. Fisher went to her home in Abilene Saturday morning. Mr. and Mrs. E. J. Criswell left Saturday afternoon. They will attend school at San Marcos this summer. Miss Blanche Johnson went to Abilene Tuesday where she will make a short visit before going to Eastland to visit her sister.

Commencement Exercises
On Friday evening, May 16th, at 8 o'clock, the following program was given by the girls of the graduating class:

Processional—Mrs. J. W. Bright
Class song, "Song of Welcome"

Invocation—C. C. Simmons
Salutatory—Alma Aldridge
Class History—Edna Pierce
Piano solo, "Gondolier," by Oesten—Lorene Bush
Class Will—Erma Pierce
Class Prophecy—Lorene Bush
Valedictory—Molly Canady
Address—Mr. Weinbrenner, professor of chemistry, Howard Payne College, Brownwood

Attendance at the morning Sunday school was small, due to the condition of the roads after Saturday's rain. There was no Sunday school in the afternoon on account of the death of Glenn Parker, son of Mr. and Mrs. John Parker.

Two Funerals Held Monday Afternoon

Mrs. Haley was interred at Midway cemetery, following funeral services at Lawn held by Bro. Pearson. Mrs. Haley's death was a shock to her loved ones and friends. She was nursing in a hospital in Oklahoma and had been in good health, so far as they knew, until last Saturday, when she was stricken by ptomaine poisoning.

Glenn Parker, aged 21, son of Mr. and Mrs. John Parker of this community, was buried at 3:00 o'clock Monday afternoon at Midway cemetery. Services were held by D. R. Kent of Sweetwater.

Glenn's tragic death was a great shock to his loved ones and to the whole community. He was living with his brother, Alton Parker, near Content. Sunday morning he had been playing with his brother's children and had left the house with them, saying that he was going to a bee tree. A few yards from the house he stopped at a plough, and taking a trace chain went to a small mesquite tree and began teasing the children by pretending that he was going to hang himself. The little four-year-old

girl and her younger brother were the only witnesses to the tragedy. When she saw that he had fallen and was in a serious condition she ran to the house and called to her father to tell him. The father ran quickly to his room but was too late. It is supposed that his neck was broken by the fall. The body was hanging so near the ground that his knees touched the ground, and had Glenn not been strangled, or his neck broken, he could easily have stood and released himself. Alton and his wife did all they could to try to revive him, but their efforts were futile. It was an experience never to be affaced from his memory when this man had to lift his brother's lifeless body and remove the deadly chain from his neck.

Glenn's life's pathway had not been all smooth. Besides his very severe spell of pneumonia in 1925, which came near proving fatal, he suffered with chronic appendicitis and adhesions. His physician had warned him against too strenuous exercise, lest serious trouble might result. In spite of ill health, Glenn had a cheerful disposition, and he had many friends here as well as at Novice, where he graduated from high school two or three years ago. While in school at Novice, he lived with his grandparents, Mr. and Mrs. Brown. His is the first death in the family in fifty years. Not many families have such a record.

A large number of friends and relatives from other places came for the funeral. The mother has no fear but that she will be with her boy in the Resurrection, but she dreads the days of living here without him.

Mr. and Mrs. Parker and their family wish to express their sincere thanks to all friends for their help and kindness in this dark hour.

Mrs. Lon Willis, of Brownwood, was present at the funeral of

Glenn Parker Monday afternoon. It had been several years since some of her friends had seen her and they enjoyed being with her, if it was for only a brief time.

Mrs. Paul Hanson of Winters, is visiting with relatives and friends here this week.

Miss Elmo Bush, who was elected "Queen" by our home demonstration club at its last meeting, went to Winters Wednesday to enjoy the good time planned for the County Queens by the Chamber of Commerce.

Home Demonstration Club

A good time was enjoyed by the ladies who came to the school on the 19th. Mrs. Hollingsworth was with us and gave a pie demonstration. The only trouble with the pie was that it wasn't large enough. The quality was there. At the business session Mrs. Ray Dick, our president, was elected delegate to the summer short course at College Station. Mrs. Briton McMillan was elected alternate, and some hopes were expressed that we might send both of them. Miss Elmo Bush was elected "Queen" for the "Live-at-Home" Fair.

Mrs. Roy Blankenship and Mrs. Buriel Hudson were hostesses.

FINDS SNAKE IN VASE

(By Associated Press)
CONROE, May 23.—While replacing flowers in a large vase Mrs. Will Leigh discovered that the stems would not go down in the receptacle and on examination found that a five foot snake had coiled himself up in the vase.

Mrs. Leigh called her husband who killed the snake but was unable to explain how the reptile made his entrance into the house unless he came down like old "Santa."

RIO FIREMEN MUST CALL UP FOR WATER AT NIGHT

(By Associated Press)
RIO JANEIRO, May 23.—Firemen in Brazil's capital when called to fight a night blaze, must telephone for the water to be turned on before they can get into action.

On several occasions night fires in the downtown district have gained serious headway before there was enough water pressure. An explanation given by the water and sewer department reads:

"Our water supply is insufficient on occasions and on this account is turned off at night from the reservoirs so they may fill for the following day. Naturally, when the firemen call, it takes some time for full pressure to come up in the mains."

Be wise and advertise.

SUPER SERVICE

You Must Be Pleased

In a banker it's Integrity

in a cigarette it's Taste

GOOD REPUTATION and high standards—these are among the banker's chief assets. Likewise, Chesterfield's.

SMOKERS THE WORLD OVER stick to Chesterfield because of its thorough dependability of quality, its unchanging good taste.

GOOD TASTE!—What smoker would trade it for any number of cigarette claims? No Chesterfield smoker would. For here choice tobaccos are blended and cross-blended to a finer aroma and a richer, milder flavor to give you the utmost a cigarette can offer... "TASTE above everything".

We state it as our honest belief that the tobaccos used in Chesterfield cigarettes are of finer quality and hence of better taste than in any other cigarette at the price.

Roy Hill Heads Attorneys' Assn.

District and county attorneys met in Ballinger Thursday for the purpose of organizing what will be known as the West Texas District and County Attorneys' Association. The attorneys were invited here by County Attorney Roy L. Hill and while the attendance was not as large as had been expected those present were enthusiastic for forming an organization which they believe will be of great help to them in their official capacities.

Attorneys from a great distance attended the meeting, and all were very much elated over the new organization. Due to the several county courts being in session throughout the territory, which embraces the membership, several officials who had written in stating they would attend failed to reach Ballinger. The meeting was held at the court house, and after attorneys had expressed their ideas, and offered suggestions for the further plans of the organization, the members present went into executive session at 3:00 p. m. A constitution and articles of the association were adopted and approved, and the following officers were unanimously elected: Roy L. Hill, president; Alex Jung, county attorney of Gillespie county, vice-president; and Emsy Swalm, county attorney of Concho county, secretary-treasurer. An advisory committee was created, composed of the following members: Alex Jung, chairman; Walter U. Early, veteran prosecutor of the 35th judicial district; D. I. Durham, district attorney at San Angelo; Robert P. Brown, county attorney of Tom Green county; Fielding Hammond, district attorney at Burnet; and Carl Ruige, county attorney of Mason county.

All matters of interest to the association will be referred to the advisory committee for consideration before being submitted to the organization proper for approval. San Angelo was chosen as the next meeting place, and the meeting will be held there the first week in October of this year. Due to the fact that San Angelo is a central point for this district, a great assembling of the prosecutors is planned on this occasion, and a fine program will be prepared for the organization by Robert P. Brown and D. I. Durham, county and district attorneys, respectively, on this date.

President Hill pointed out that there are many problems that prompted the organization of the state's representatives, but most of all the work to be accomplished just now is a closer cooperation among the attorneys and their courts, and a drive for a simplified court procedure that will enable violators of the law to be brought to a more speedy trial and less delay in execution of sentence.

Notice by Publication of Final Account
The State of Texas,
To the Sheriff or any constable of Runnels County,
Greeting:
M. C. Atkins, administrator of the estate of Sam Jones Nelson, deceased, having filed in our county court his final account of the condition of the estate of the said Sam Jones Nelson, deceased, together with an application to be discharged from said administration, you are hereby commanded, that by publication of this writ for 20 days in a newspaper regularly published in the county of Runnels, you give due notice to all persons interested in the account for final settlement of said estate, to file their objection thereto, if any they have, on or before the August term, 1930 of said county court, commencing and to be held at the court house of said county, in the City of Ballinger, on the First Monday in August, A. D. 1930, same being the 4th day of said month, when said account and application will be considered by said court.

Witness, Ima McKown, Clerk of the County Court of Runnels County.
Given under my hand seal of said court, at my office in the city of Ballinger, this 23rd day of May, A. D. 1930.
IMA MCKOWN,
Clerk County Court, Runnels County, Texas.
A true copy, I certify:
R. E. McWilliams,
Sheriff, Runnels County.

Natural Gas Production
WASHINGTON, May 23.—(AP)—The total production of natural gas in 1928, the latest year for which official figures are available, was 1,568,139,000,000 cubic feet. The figures are issued in a report of the American Chemical Society.

California forest fire protective agencies have started a campaign against the smoking flier who drops his lighted cigaret from an airplane while flying over forests.

Amusements

"Devil-May-Care," Romantic Film Starring Ramon Navarro.

Ramon Navarro, dressed in the handsome uniform of a lieutenant of Napoleon Bonaparte, making his escape from a firing squad; climbing into a beautiful young woman's bedroom; masquerading as a footman; duelling his way to fame and fortune—these are some of the sequences of "Devil-May-Care," Navarro's all-talking screen romance which will open Sunday afternoon at the Palace Theatre.

The new picture, adapted from the French play, "La Bataille des Dames," is said to be a perfect vehicle for the romantic Navarro. The story tells of the adventures of Armand, the exiled Napoleon's trusted lieutenant who schemes to bring back his liege to the throne of France. When he falls in love with Leonie, ardent royalist, complications begin.

Sidney Franklin, director of the production, is said to have set a new standard for camera excellence. Among the scenes which stand out are "shots" of a cavalry troop riding down a mountain road; the historic scene in which Napoleon bids farewell to his guard; a forest glade in which Armand and Leonie go horse-back riding; scenes in a French chateau and a scene filmed in technicolor in a reproduction of the gardens at Versailles.

The supporting cast of "Devil-May-Care" includes Dorothy Jordan as Leonie; Marion Harris as Countess Louise; John Miljan as the villainous de Grignon, and others.

Navarro sings a variety of attractive musical numbers in the picture written by Herbert Stothare and Clifford Grey. Songs are also sung by Miss Harris, who is well known as a "blues" singer, and Miss Jordan, who was formerly in New York musical comedies. The musical numbers range from sentimental love songs such as "Charming," "If He Cared" and "The Shepherd's Serenade," to the comedy songs, "Pompadour" and "Bon Jour, Louie," and the rollicking military

number, "March of the Old Guard," which Navarro sings with a large chorus.

PROFESSOR REWARDED
(By Associated Press)
AUSTIN, May 23.—Jefferson Davis Spell, adjunct professor of romance languages at the University of Texas, has been awarded a Harrison scholarship of \$1,000 by the University of Pennsylvania for 1930-31. Spell is an instructor in Spanish.

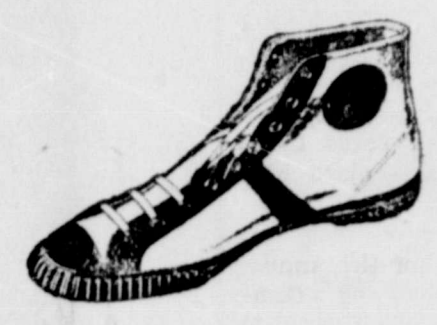

During the fiscal year of 1928 Los Angeles harbor ranked second to New York on tonnage of foreign exports, according to the federal shipping board.

OLD DOCTOR'S IDEA IS BIG HELP TO ELDERLY PEOPLE

In 1885, old Dr. Caldwell made a discovery for which elderly people the world over praise him today! Years of practice convinced him that many people were endangering their health by a careless choice of laxatives. So he began a search for a harmless prescription which would be thoroughly effective, yet would neither gripe nor form any habit. At last he found it. Over and over he wrote it, when he found people bilious, headachy, out of sorts, weak or feverish; with coated tongue, bad breath, no appetite or energy. It relieved the most obstinate cases, and yet was gentle with women, children and elderly people. Today, this same famous, effective prescription, known as Dr. Caldwell's Syrup Pepsin, is the most popular of all laxatives. It may be obtained from any drugstore.

CHEVROLET SIX

wins sensational ECONOMY TEST

averaging better than 20 miles per gallon in 200-mile run under observation of A.A.A.

Again the new Chevrolet—A SIX—has proved itself just as economical to run as any car you can buy, regardless of the number of cylinders!

In a recent 200-mile economy test, held in Los Angeles under the observation of the American Automobile Association, a 1930 Chevrolet six-cylinder Coach won first place. It averaged better than 20 miles to the gallon of gasoline! At the finish, the oil level in the crankcase was the same as at the start!

And the conditions under which the victory was won make Chevrolet's record even more amazing!

A Real Achievement in Economy!
The 200-mile course followed a winding route, rising from sea level to an elevation of 6000 feet. Crowded city traffic, steep mountain grades, soft sandy stretches—road conditions that usually require more-than-average fuel consumption—all were encountered in the run. And the victorious Chevrolet not only took first place in its class, but won the sweepstakes for all classes as well!

A Six is Dependable!
But, as every Chevrolet owner knows, fuel

mileage is only one phase of Chevrolet's sensational all-round economy. The smooth, easy power-flow of its six-cylinder motor saves the entire car from the wear-and-tear of constant vibration, prolongs its life and holds upkeep expense to a minimum. Many new factors of strength, stamina and reliability further contribute to low maintenance costs. And Chevrolet flat-rate service—which is available at over 10,000 Authorized Service Stations throughout America—provides the lowest charges in the industry for many service operations.

Everything Favors a Six!
Before selecting any low-priced car—consider these all-important facts: A Six is smoother, quieter and more comfortable. A Six is more flexible in traffic, and requires less shifting of gears. A Six stays young longer, assures extra thousands of miles of fine, dependable performance. And a Chevrolet Six, as every test and trial proves, is just as economical to operate and maintain as any car on the market.

Come in and see this Economy Champion—today! Know for yourself why it's wise to choose a Six!

HIGHLIGHTS OF CHEVROLET VICTORY

1. The occasion was the annual Gilmore Blue-Green Economy Run, in Los Angeles, California.
2. A total of forty-two cars were entered in the competition.
3. The course followed a roundabout route from Los Angeles to the Wrightwood Mountains starting at sea level and ascending to an elevation of 6000 feet.
4. Every type of road, grade and traffic condition was encountered in the run.
5. The victorious car, a 1930 Chevrolet six-cylinder Coach, was piloted by Mrs. Paul A. Lawrence of Los Angeles.
6. The total weight of the Coach, including driver and four passengers, was 3580 pounds.
7. This Chevrolet car traveled 36.71 ton-miles to the gallon of gasoline, averaging 20.5 miles to the gallon for the 200 miles traveled.
8. The oil level in the crankcase was the same at the finish as at the start!
9. The Chevrolet Coach not only won first place in its class, but in addition won the sweepstakes for all classes.

Weddings

Burkhart-Burris
Miss Josephine Burris, formerly of this city, and H. G. Burkhart, of Beaumont, were quietly married in the home of Mr. and Mrs. Homer C. Daniel, 201 Tenth Street, at 8:00 o'clock Thursday afternoon. Mr. Burkhart is a brother of Mrs. Daniels. Only a few friends and Miss Jewel Burris, sister of the bride, witnessed the ceremony which was performed by Rev. J. H. McClain, pastor of the Ballinger Baptist Church.

Mrs. Burkhart was the recipient of many beautiful and useful gifts from members of Sunday school classes conducted by R. E. White and E. E. King and from her many friends. Mrs. Burkhart formerly taught in the Ballinger city schools, but taught in San Angelo during the past term. She has many friends here who extend congratulations and best wishes.

Immediately after the ceremony, the joyful couple left for Austin where they will spend their honeymoon. Mr. and Mrs. Burkhart will be at home in Beaumont after the wedding trip.

Attention, Royal Arch Masons
Special meeting tonight, Friday, May 23, at 8:00 p. m. for the purpose of work in Royal Arch degree. All members are urgently requested to be present. By order of J. B. PACE, High Priest. Attest, J. McGregor, secy.

Births

Mr. and Mrs. Chas. Lankford, 1201 Palm Street, Abilene, are rejoicing over the arrival of a boy baby in their home Thursday. Mrs. Lankford before her marriage was Miss Virgil Dean Patterson of this city. Mr. Lankford also formerly lived here.

Fish Smothered in Ice
HUMBOLDT, Sask., May 23.—(AP)—Thousands of fish, smothered to death by the heavy blanket of ice and snow which shut out air from the water during the winter, were found on the beaches of Lake Burton, near here, when the ice melted.

Abilene Prepares to Handle Program for C. of C. Meet

(By Associated Press)
ABILENE, May 22.—Carl Williams, cotton member of the Federal Farm Board, will come from Washington to speak on the second day's program of the West Texas Chamber of Commerce convention here May 29-31. This address and the debate on the Farm Board resolution will be of great interest to the business men of all towns of West Texas which are interested in obtaining a marketing unit of the Texas Cotton Cooperative Association, a part of the Farm Board system.

Gov. Dan Moody is scheduled to deliver the principal address on the opening day of the West Texas Chamber of Commerce convention here May 29-31.

Fourteen resolutions, having to do with the development of West Texas and of the state, have been submitted for consideration at the West Texas C. of C. convention at Abilene May 29-31. These will be debated on the floor of the annual convention, voted on by member towns and the result will be the work program of the organization.

A carload of cots has been ordered to take care of the hundreds of band members expected to attend the West Texas C. of C. convention at this place May 29-31.

Business sessions of the annual West Texas Chamber of Commerce convention here May 29-31 will be held in a theatre just completed and equipped at a cost of \$400,000. It has 1600 upholstered opera chairs and splendid acoustics and is provided with

the latest devices regulating temperature.

While the twelfth annual convention of the West Texas C. of C. convention at this place May 29-31 is primarily for the purpose of transacting business, entertainment features have not been overlooked. The educational parade on the first day promises to be one of the most colorful ever held. The delegations' parade will take place on the last day. Many towns notified headquarters they were preparing unusual stunts. The program also includes balls, dinners, receptions and golf.

The registration fee for the visitors at the convention here

will be \$2.50 but this year no charge will be made for a woman accompanied by a registered escort.

The air circus on the last day of the convention will bring army planes from four government fields, including Duncan Field, the West Point of the Air. All varieties of pursuit, bombardment and demonstration ships will participate.

CAVERN TO OPEN JUNE 8

(By Associated Press)
BRADY, May 23.—Prominent state officials have been invited to officiate at the grand opening of Richland Springs Cavern June 8th. The cave is 23 miles east of Brady.

Arrangements are being made to serve an old style West Texas barbecue. A small charge will be made to view the cave. The management of the cavern expects to spend \$10,000 in improvements before the opening.
