WATCH OUT

HIS warning is printed to put the public on guard against a deception which may be practised against those who seek genuine Bayer Aspirin for pain, headaches or colds.

We take this means of warning you, so you may be able to protect yourself and family against results of such deception. BEWARE!

Other preparations, we are informed, have been offered at times to those who ask for Bayer Aspirin; and even represented in some cases as being "the same as Bayer Aspirin.

Watch Out! Remember that years ago doctors warned the public against "headache remedies," some of which are heart depressants and unsafe for many people to take.

Then remember how Genuine Bayer Aspirin came. And was acclaimed the world over by leading men of science as SAFE relief for pain, and was prescribed without hesitation by eminent physicians. For genuine Bayer Aspirin does not harm the heart. What folly, then, in the light of these things, to dose yourself
