

# Ballinger Semi-Weekly Ledger

Twice a Week

Tuesday and Friday

VOLUME NO. 51.

BALLINGER, TEXAS, TUESDAY, OCTOBER 13, 1931.

NUMBER 7

## Rains Drench County; High Water on Roads

Rain falling in Runnels county Sunday night and early Monday morning ranged from 6.25 to 1.50 inches. The lightest precipitation in the county was reported from Rowena where the measurement showed only one inch. Ovalo led all West Texas points with more than six inches and traffic over highway 4 was halted all Monday morning on account of high water covering the right-of-way. Winters, Wingate, and the section between reported approximately five inches and at Bradshaw six inches was recorded. Other points in the northern section of the county received from 2 to 5 inches and all streams were at flood stage within a short time after the hard rains.

Practically all this part of West Texas was thoroughly soaked as the report given below will show. Fields were drenched with water and in many water was standing late Monday evening. Brady reported less precipitation than any town in this vicinity, only half an inch falling there.

The mail due here at 10 a. m. by truck from Abilene was delayed until after noon on account of high water, and many automobiles were forced to wait on the road for streams to run down before they could proceed. A number of local motorists who started to Abilene Monday morning returned here before noon because the highway north of here was impassable.

Following is the report compiled in the local office of the South-west Telephone Company Monday:

Abilene 2.16  
Ballinger 1.50  
Benoit 2.50  
Blackwell 1.87  
Bradshaw 6.00  
Brady .50  
Bronte 2.00  
Brownwood 2.57  
Coleman, good  
Eden 2.00  
Hatchel 2.00  
Leaday 3.00  
Menard, shower  
Miles, big rain  
Millersview 3.00  
Norton 2.75  
Olfen 2.00  
Ovalo 6.25  
Paint Rock 2.28  
Pony 2.00  
Rowena 1.00  
San Angelo 1.36  
Santa Anna 2.00  
Stacy, good rain  
Talpa 2.00  
Wilmeth 2.00  
Wingate 5.60  
Winters 3.00

Calling Cards, printed on short notice. Phone 27, we do the rest.

## Child is Seriously Injured by Auto

The young son of Mr. and Mrs. Troy Warren was seriously injured Saturday afternoon about 3 o'clock when he was run over by a motor vehicle on Broadway near the Banner Ice Company's downtown station. Just how the injury was inflicted is not known as there were no eye-witnesses. Herbert Adami, employee of the ice company, saw two Mexicans pick up the lad from the street and lay him on the lawn in the center of Broadway, and then drive away. Adami excitedly ran to the boy, stopped a passing car and sent the youth to the Halley & Love Sanitarium, but in his confusion did not note the number of the light truck driven by the Mexicans and does not know whether the boy was struck by them.

An examination showed the boy's left arm broken in two places and a bad wound on his face. His wounds were dressed and he was returned to the home of his parents where he is resting well.

Two Mexicans were brought to Ballinger Saturday from Norton and affray charges were filed against each. One paid his fine and returned to his work, while the other was still being held here Monday morning.

A Mexican was arrested and lodged in the county jail Saturday, and charges of driving a car while intoxicated were filed against him. He had made no bond Monday morning and will still be held here.

A white man was arrested for drunkenness by city officers Sunday.

## BRONTE LEGION POST ELECTS NEW OFFICERS

Members of the Bronte American Legion post met October 7 in regular session for election of officers for the ensuing year, and enjoyed a social hour following transaction of business. The new officers will take their places on Armistice Day and will be in charge of the program for that holiday.

H. O. Witt was elected post commander; T. H. Rogge, vice-commander; B. P. Williams, adjutant; G. E. Chisholm, finance officer; Herman Glenn, sergeant-at-arms; and N. W. Pitts, chaplain.

Scratch Pads, 20c per pound, at Ledger office.

## Towns Plan Visits To Fair Thursday

Ballinger will be swarming with visiting delegation and bands on Thursday of this week, third day of the 1931 Runnels County Fair. Sunday papers showed what is being done in other cities in this section to work up delegations for the fair here and indications are that not less than six bands and 1,000 extra people will be here for the day.

Thursday is official Delegation Day at the fair and invitations have been sent to a number of cities inviting their participation in the parade set for 1 p. m. and other events at Fair Park.

One of the largest musical organizations to take part in the midday parade will be the Abilene high school Eagle Band. This group of 56 musicians will lead the large Abilene delegation in the procession. Last week at Coleman Abilenians led in numerical strength of all visiting delegations and Sunday's Abilene Reporter-News stated that an even larger delegation will visit the Runnels County Fair.

The Abilene group will meet strong competition from the San Angelo delegation. A large band and several hundred boosters are promised from that city. Bronte will send its blue ribbon band to accompany a crowd of Bronte citizens. The Sweetwater gold medal band will lead the delegation from Nolan county. Coleman will repay the visit of the Ballingerites to their fair with band and delegation listed for Thursday's parade. Miles will send its band and delegation. Paint Rock, Winters, and perhaps Brady will be represented in the festivities. The largest attendance from Winters, however, will come Friday when fans from that section follow their football team here to meet the Santa Anna Mountaineers in a conference grid game at Fair Park. Friday is School Day at the fair.

The Ballinger Band and the Dodson Brothers Shows Band will also take part in the feature parade Thursday.

## To Deliver Freight And Express Daily

J. J. Beck, Santa Fe agent here, announces that a new service has been started for all freight customers in Ballinger and hereafter all shipments will be picked up and delivered to Ballinger firms. A contract has been made with a local firm for this delivery service and there will be no drayage charge to the patron. At the same time, W. H. Jackson, local agent for the American Railway Express Company, announces that effective October 9 delivery and pick-up service was inaugurated here by this company to include all sections of the city.

The delivery service plan has been considered by Santa Fe officials for some time and beginning this month Mr. Beck was notified to start the innovation. Those receiving freight will have it delivered to their place of business hereafter and the same truck will pick up any outgoing freight upon notification of the Santa Fe freight depot. Mr. Beck feels this will prove a big improvement for railroad service.

Express shipments will be delivered to any residence in the city limits of Ballinger. Mr. Jackson advises. He had been endeavoring for several years to secure this service for Ballinger. Recently a map was drawn by J. E. Powell for use in securing this service, and after officials studied the situation granted the request. The express company has been maintaining a truck for downtown deliveries, and realizing that the entire city could be covered without additional equipment Mr. Jackson soon prepared a plan for inauguration of the fuller service which was accepted by higher officials.

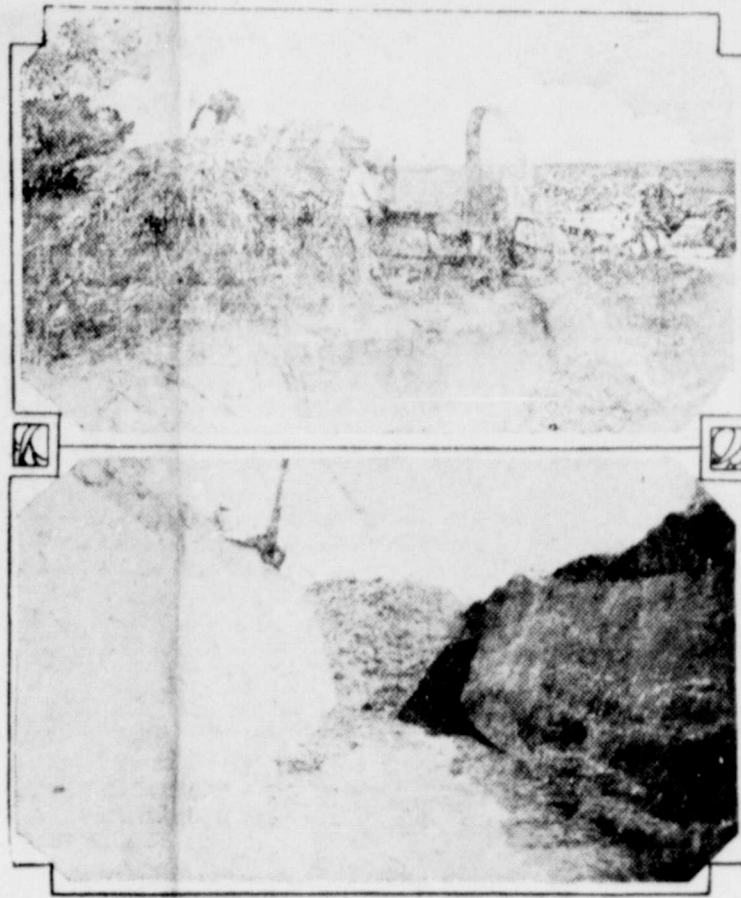

It is pointed out that the two new delivery services will provide considerable saving in time and money for patrons of the two transportation companies.

Mrs. H. H. Carter, of Eagle Branch was in Ballinger Saturday and in the future will act as correspondent for The Ledger in that community.

Mr. and Mrs. H. M. Jones, of Brownwood, visited relatives and friends here Sunday.

Billie Cordill transacted business in San Angelo Sunday.

## Farmers Digging in for Winter With Trench Silos

It cost \$86.25 for man, horse and tractor labor for Wright Brothers, Bexar county dairymen, to build this 180-ton trench silo, and 88 cents per ton to fill it with the crop from 20 acres of hegar. Built in a hillside, the silo is 140 feet long, averages 13 feet in width at the top, 8 feet at the bottom, and is 9 feet deep. It was dug with plows, slip scrapers and fresas and the walls smoothed down with hoes, according to O. W. Thompson, assistant county agent, and the cut ensilage was packed down by tractor during the filling process. When filled the silo was covered with a six-inch layer of oat straw, thoroughly wet down, and covered over with six inches of dirt. A terrace thrown up around the silo keeps water from running in.

County agents in every section of Texas reported dairy demonstrators digging and filling trench silos in August because of the urgent need to cut production costs of dairy and other livestock products. They are finding this

method cheaper than providing barn space for the bumper feed crop, less wasteful than stack storage, and more productive of dollars than either. The cost of construction is running about 50 cents or less per ton capacity, and the cost of filling with corn, hegar, milo, kaffir or sweet sorghums less than \$1 per ton. Most farmers plan to feed the ensilage out during periods when pastures are short, the county agents say.

While trench silos are more wasteful than other types, in need of yearly repair of walls, and apt to fill up with run-off water unless precautions are taken, they are so cheap to build and easy to fill that they are considered entirely practical by livestock and engineering specialists in the extension service of Texas A & M College and United States department of agriculture. Among the counties reporting trench silos recently constructed are Bexar, Hopkins, Harrison, Mitchell, De Witt, Guadalupe, Travis, Johnson, Titus, Gray, McLennan and Lamb.

## Live-at-Home Fair To be Turned into Club Pantry Show

Some time ago it was decided to hold the Live-at-Home Fair during the last three days in October, but since that time conditions have undergone many changes, and instead of holding the regular fair, plans are formulating to hold a pantry display for the home demonstration club women of the county.

The people of Runnels county have come to appreciate above everything else the live-at-home program and what it means to our county. While plans have not been completed, it seems to be the general opinion that the usual full program not be undertaken but that we, without fail, recognize in substantial manner the great work being done toward a strictly live-at-home program.

While the time is limited, every effort will be made to have definite plans out in plenty of time for the people of Runnels county to stage a real show without a big lot of time and expense. Keep your eyes open for announcement of something different and something that will please the citizenship of Runnels county and command the heartiest support. Winters is for a real live-at-home program and will set to the task of putting on a real program and inviting everyone in the county to participate.

## SOCIETY GATE-CRASHERS BOTHERED WASHINGTON, TOO

WASHINGTON, Oct. 13.—George Washington had his troubles with social gate-crashers. His diary, March 25, 1760, says: "Mrs. Possey and some young woman whose name was unknown to anybody in this family dined here."

The tangelo, a citrus product of Florida, is a cross between the tangerine and grapefruit.

## Cotton Ginnings Up to Saturday 38,839 Bales

### Applications Made For State Aid

Trustees of Runnels county held meetings Friday and Saturday of last week to make out applications for state aid for the schools of this county. The work was finished here Saturday when nineteen boards assembled here in the office of County Superintendent R. E. White and signed application blanks. Supt. White stated that all the applications were sent to Austin Monday of this week.

Speaking of the reports, Mr. White declared they looked fine and were much better than anticipated. One of the most encouraging items was revealed when it became known Saturday that school taxes assessed in the rural districts this year were only \$26.90 less than the total assessed for last year. Supt. White was delighted with his inspection of the tax rolls which were completed and returned last Friday.

Thirty-eight schools in the county will ask state aid this year. All these applications have been completed and are now in Austin. This completes the work of making applications which are approved by the county board of education.

The condition of the schools of the county is good, according to Mr. White, and very little equipment will be needed in any school for the 1931-32 terms. A few stoves must be repaired or replaced and practically all other expenses will be incidentals that are used daily. The buildings and equipment are in good condition and heavy enrollments are expected next Monday when 14 more schools will open. A few schools have postponed their opening dates for a few weeks but practically all will be open by the first Monday in November.

Mrs. Ernie Wyers Wood, famous for permanent waving, Paris de luxe \$20.00 Beautiful Wave with ringlet ends. To show skill, first 10 ladies \$3.00. Genuine supplies. All waves guaranteed. Room 103, Central Hotel. 13-14-

Runnels county had ginned 38,839 bales of cotton up to Saturday night, October 10. A report was compiled Saturday night and Sunday by the Winters and Ballinger oil mills and represents the ginnings to date as all gins of the county were stopped Monday morning on account of rain which fell Sunday night.

Those keeping tab on the crop in this county still estimate the production at upwards of 65,000 bales. Some believe the crop in the southern portion of the county is about 65 per cent gathered while the northern section has taken about 50 per cent of its production to the gins.

Farmers coming to Ballinger Monday stated that the damage from rain and wind Sunday night was light. Little cotton was knocked to the ground by the rain but some was reported already on the ground from high winds recently.

There are many pickers in the county at this time, however some sections are still seeking more help and as soon as good weather returns the rush will be resumed. The city was jammed with pickers Saturday, cashing their weekly checks and buying supplies for their camps on farms in the county.

Following is the ginning report compiled at the close of business Saturday night:

Ballinger, 6,535  
Rowena, 5,722  
Miles, 5,233  
Winters, 9,417  
All others, 11,932  
Total, 38,839 bales.

L. F. Smith was in Ballinger Monday and reported a fine rain at his place with little damage to cotton still in the fields.

## Five Year Cotton Plan Is Outlined by Talbot

By W. E. Talbot

The cotton problem is not going to be solved through legislation, an act of providence, or chance. It is going to mean the concerted effort of the people of Texas to solve it along economic lines. Cotton is not the farmers' problem alone. It is also the problem of the bankers, the merchants, and the manufacturers—in fact, the entire citizenship of this state. Our export market has decreased, and will continue to decrease as new fields are developed in Egypt, the Sudan, India and Russia. Our staple has deteriorated, and some of our lands have become depleted.

The following plan asks no aid of legislation, but the cool, calm, deliberate action necessary to bring about a solution of this problem.

First, divide Texas into twenty-eight districts based on trade territory to their largest city. The bankers of this area to organize to control acreage by agreement on loans, funds to be loaned for the following purposes, based on a reduction for the coming year of 33 1-3 per cent of amount planted in 1930. These funds will be loaned to buy fertilizer and better grade seed, which with intensive cultivation, will increase the length of the staple and more yield per acre.

That the chambers of commerce organize the merchants and the citizenship to consume

cotton in every conceivable form. That the department of agriculture discontinue counting in the carry-over, those millions of bales of untenderable cotton that have deteriorated to the point that they will not do this, that the farm board take this cotton off the market.

That assistance in the way of loans be given farmers by the banking interests modeled along the line of the agriculture and livestock bureau of the Dallas Chamber of Commerce, to encourage the raising of livestock and feed crops.

That to encourage the farmer in the raising of vegetables, berries and fruits, canneries be established to give him a market and a profit on these crops. That the farmer be encouraged to raise both poultry and rabbits, not only for his own consumption, but that the surplus may be handled by packing and selling to other communities. That creameries also be developed in these trade areas, and new industries brought in to utilize the raw materials produced in these communities.

By the people of these areas supporting and pledging their patronage to these industries, and by inter-trading, as far as possible, they will retain in their own community the profits from the raw materials to the finished pro-

(Continued from Page 2)

# Rural

## BLANTON NEWS

The fine rain which fell Sunday night was much needed in this vicinity due to need of stock water as most of the creeks and tanks were dry. However, there is still lots of cotton to be gathered which was slightly damaged by the heavy rain.

Sunday school and B. Y. P. U. were well attended Sunday and good lessons reported.

Mr. and Mrs. R. L. Boothe and family were guests in the Lester Dietz home at Crews Sunday.

Mr. and Mrs. Dankworth, of Ballinger, were guests in the J. W. Reese home Sunday.

Mr. and Mrs. John D. Harvey, of Rankin, visited in the R. W. Malone home last week.

D. L. Brevard, of Bolton, is here visiting friends and relatives.

Mrs. Raymond Ingram and children spent Saturday night with Mrs. T. L. Foreman.

Mrs. J. P. Boothe, Miss Pearl Holton and Mrs. P. P. Holton visited in San Angelo Thursday.

Mr. and Mrs. R. C. Foreman visited relatives at Hagan Sunday.

Aulcey Carter of Eagle Branch, and Miss Hazel Smith of Crews, were united in marriage Tuesday night.

Mrs. Nick Ward and little daughter, of Winters, were guests in the Jim Elkins home Sunday.

There are quite a number from this community planning to attend the Runnels County Fair at Ballinger and our school plans to take part in the school parade Friday.

School began Monday with only a small attendance. Pupils are urged to come and take out their books even if they cannot attend right now.

H. B. Fowler is planning to enroll in the Ballinger high school next Monday.

Cotton picking has been progressing rapidly in this community, but according to the weather we don't know how it will progress this week.

Everyone in this community is in sympathy with the Damron family over the accident to their father, Rum Damron, who was seriously hurt in a car wreck last Sunday morning.

To correct an error that was made in the wedding date of Aulcey Carter, of this community, and Miss Hazel Smith, of the Crews community, they were married in the late afternoon of October 5, in Ballinger. Mrs. Carter is the daughter of Mr. and Mrs. Walter Smith of Crews. The groom is the son of Mr. and Mrs. H. H. Carter, of Eagle Branch. A number of friends gathered at the home of the groom's parents Wednesday night and chivared them, with the bride's parents present.

People here are glad to welcome Mr. and Mrs. Jim Berry back home again. They have been absent from this community for the past two months.

School here will open October 19, according to a decision of the trustees.

The Helpers Club, which was organized in April with nine members, has grown rapidly, en-

rolling at present 23 women as members. The club meets twice each month on Wednesday afternoons, at the homes of those who are in need of their help. The last meeting day was Wednesday, October 7, in the home of Mrs. Harvey Bradley. Quilting and sewing were the tasks that day. After the work was finished refreshments were served. The house was called to order by the president and secretary. A business session was held and adjourned.

We are sorry to report that Mrs. Ed Talley has been called to the bedside of her mother, Mrs. White, of Harmony, who is ill.

Mrs. Wayne Mitchell and children, are staying in Winters during the week where Miss Inez and J. W. are going to school. They return to their farm home and spend the week-end with Mr. Mitchell.

Guests in the Hubert Galloway home Sunday were Mr. Galloway's sister and her husband, Mr. and Mrs. Hendricks, of west of Winters.

Mr. and Mrs. Aulcey Carter visited in the home of Mrs. Carter's parents, Mr. and Mrs. Walter Smith, of the Crews community, Saturday night and Sunday.

Everyone is rejoicing over the fine rain which fell here Sunday evening and night. The rain was a fine, seasonable one and will be good for those who have their grain sowed and for those who are going to sow in the next few days.

## SHIPMENTS IN SOUTHWEST TO SHOW ONLY SLIGHT LOSS

WICHITA FALLS, Tex., Oct. 13.—Commodity shipments in the Southwest for the final quarter of 1931 will be only slightly less than they were in the same period of 1930, according to the report of the commodity committee of the Southwest Shippers' Advisory Board in a one-day session here.

Cotton shipping problems this fall appear to have adjusted themselves because of the economic situation, it was declared. Shipments of cotton and grain are expected to be exceptionally heavy. Total car loadings for the year will be about the same as in 1930, the committee's figures showing a probable decrease of 1.8 per cent. Cotton, grain, hay and grain products are expected to show an increase.

Decreases are expected in the following commodities: Cottonseed and products, excepting oil, 10 per cent; coal and coke 15 per cent; gravel, sand and stone, 5 per cent; lumber, 10 per cent; petroleum and products, 6 per cent; machinery and boilers, 5 per cent; cement, 15 per cent; brick and clay products, 15 per cent; lime and plaster, 25 per cent; farm implements, 40 per cent; automobiles, 25 per cent; chemicals and explosives, 10 per cent and canned food products, 10 per cent.

Commodities expected to remain about the same are wholesale drugs, fertilizer, glass and products, iron and steel, livestock, paper, perishable products, rice, salt, sugar, molasses and cane and sulphur.

Prospective shipments for the fourth quarter of 1931 were estimated at 494,231 car loadings, as compared with actual loadings of 502,175 cars in the fourth period of 1930.

St. Petersburg, Fla., claims to have established the first open-air postoffice in the United States.

CHIEF BIG SNAKE AND FAMILY

The above group are members of the Jules Allen Indian Show appearing at the Runnels County Fair this week. Chief Big Snake is the hereditary chief of the fun makers of the Acoma tribe, who dwell on top of the high mesa called Acoma, "the City in the Sky," established many years ago by this tribe of Pueblos. It was the last of many villages in New Mexico to be taken by the Spaniards. In addition to the Indian dances and ceremonies given by the Indian members of this troupe, Jules Allen, the original singing cowboy, will sing the folk songs of the cattle country, a country well known to him, and he sings the songs as they were sung years ago. Thirty-one years ago Jules worked in the lower end of El Paso county on the Rio Grande border for John Forwalt, who was the first sheriff of Runnels county, so he must know the old ones.

## 36th Division Plans Reunion at Dallas

Present officers of the National Guard of Texas, composing the 36th division, are acting as publicity agents for the coming reunion of this division to be held in Dallas on October 24. Captain Ross Murchison, commander of local guard unit, received material Monday of this week giving all facts regarding the gathering to which all war-time members of the 36th and all present soldiers of the division are invited.

General John A. Hulien is sending out information on the great gathering to which all the ex-service men and present members of the division are invited. In a bulletin the general lists the following which will give those planning to attend needed information:

"1. A reunion of the veterans of the 36th division will be held at Dallas, on October 24 and 25.

"2. Major General William R. Smith, war-time commander of the division and now superintendent of the Military Academy at West Point, will reach Dallas on the morning of the 24th to attend this reunion.

"3. Headquarters for the reunion will be in the Adolphus Hotel. Visitors may register either at the hotel or at the convention tent in the fair grounds.

"4. Among other activities for the reunion will be parade, a grand military ball Saturday night at the Adolphus and a meeting of the veterans.

"5. All World War veterans of the division and all present mem-

bers of the division are cordially invited and urged to attend this reunion. All unit commanders are requested to give this notice the widest possible publicity through the local press and otherwise and to consider themselves members of the invitation committee and do all they may be able to do to secure a large attendance.

"6. In addition to past and present members of the 36th division, all veterans of the World War are cordially invited to come to Dallas and join with us in the reunion of the 36th division.

"7. I am informed that a large number of our division veterans living in Oklahoma expect to attend the reunion and it is hoped that every Texan that can possibly do so will make it his business to meet his war time comrades in Dallas."

## VACATIONS FOR HORSES IS SOVIET FARM PLAN

SAMARA, U. S. S. R., Oct. 13.—Horses, like human workers in soviet Russia, are to be given regular days of rest from their arduous duties in social reconstruction.

A recent official inspection revealed that the horses on collective farms were receiving inadequate care and rest.

Therefore it was decreed that each draft animal was to have a vacation of seven or eight days, the rest periods being spaced so that 10 to 15 per cent of the horses would always be on leave.

State Senator Benjamin Berkeley of Alpine, Texas, can travel in a straight line 600 miles without leaving his district.

## Five Year—

(Continued from page 1)

This plan followed out for five years would mean the creation of an industrial structure to parallel the agricultural structure, and one consumer from the other; would build up a plan of diversified farming and production of long staple cotton for which we have always had a ready sale. This plan is in the hands of the bankers and the chambers of commerce and other interested groups where it belongs.

This can be done without any legislation if the people of these areas can be organized along these lines. When dire starvation faces the exclusive raiser of cotton, it does look as if this plan could be put into force for their own protection.

The trade centers of the trade territory above referred to are as follows: El Paso, Amarillo-Lubbock, Abilene, San Angelo, San Antonio, Laredo, Corpus Christi, Brownsville, Brownwood, Fort Worth, Wichita Falls, Denison-Sherman, Dallas, Cleburne, Waco, Temple, Austin, Houston, Corsicana, Palestine, Greenville, Paris, Texarkana, Marshall, Tyler, Beaumont, Nacogdoches, and Galveston.

If this plan should be carried out for five years, first, buying home town merchandise, then of the trade territory, then of the state of Texas, we would build up a prosperous community; cotton will not be the main crop, and will be adjusted by the law of supply and demand. Then we will have a distribution of wealth to a greater number of people, and our communities will be self-contained.

L. J. Campbell is back on his chair at the Ideal Barber Shop after being out several weeks with an eye infection.

Scratch Pads, 20c per pound, at Ledger office.

## To "Point-Up" Appetite Just Stimulate Bowels

Whenever the end of the day finds you out of sorts, food doesn't tempt you and you don't digest, breath is bad, tongue coated, just chew a candy tablet before bedtime. Tomorrow you'll be a new person!

A candy Cascaret clears up a bilious, gassy, headachy condition every time. Puts appetite on edge. Helps digestion. Activates bowels.

Cascarets are made from cascara, which authorities say actually strengthens bowel muscles. So, take these delightful tablets as often as you please; or give them freely to children. All drug stores sell Cascarets for a dime, and no dollar preparation could do better work.

## Carnival is Ready For Fair Crowds

Dodson Brothers Shows arrived in Ballinger late Sunday evening over the Santa Fe and started at once setting up on the fair grounds, preparing for their last week's run of the year here. The organization is one of the largest ever to visit this section of the state, two entire train loads being pulled in here Sunday and switched onto a siding in the Santa Fe yards.

The intersection of Tenth Street and the railroad right-of-way was the place selected to unload and the highly colored wagons were pulled down Tenth to the carnival grounds. Setting up began Sun-

day night and Monday morning all hands were busy getting the big tops up and the rides ready for operation Monday night.

The entire carnival lot is packed with shows, some the largest ever set up here, and the rides scattered all over the grounds will have a strong appeal for the children and some adults as well. There are places of fun, educational shows, rides new and old, and concession stands galore. The "Million Dollar Midway" will be ablaze with lights and cotton burls are being spread all over the midway so patrons will not be troubled with mud. The shows will be open full swing each afternoon and night during this week.

Florida's state bird is the mockingbird. The orange blossom is the state flower.

# FAIR PRICES

Reduced prices on practically every article in the house during Fair Week. Here are some samples:

- 5-piece Bed Room Suite ..... \$34.95
- 2-piece Living Room Suite ..... \$49.84
- 8-piece Dining Room Suite ..... \$42.50
- Heavy Fibre Rockers ..... 8.35
- 5-piece Breakfast Suite ..... \$12.75

All other sizes equally inexpensive

**Electric Refrigeration Offers . . .**  
*Correct Temperatures for All Foods*

FRESH fruits and vegetables keep best in a cold, moist temperature . . . other foods can be refrigerated most effectively in a cold dry temperature . . . while milk, cream and other beverages should be kept in a dry atmosphere, slightly colder than the temperature required for other foods. Modern Electric Refrigerators give you all these various types and degrees of cold, in the same cabinet—thus providing the ideal of dependable and scientific refrigeration.

The unfailing accuracy of this automatic refrigeration will save money for you every day. Spoilage will be reduced to a minimum, and because constant temperatures of less than fifty degrees effectively retard bacterial growth, the danger of slightly-tainted foods will be avoided.

In addition to these important superiorities, you will appreciate the many exclusive advantages offered by the new Frigidaire. Ask a salesman to arrange a complete demonstration for you. . . . He will show you how modern Electric Refrigeration is an actual necessity in the home of today. A small down payment will place one of these efficient Electrical Servants in your home—after which the substantial savings will make your monthly payments!

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?

**West Texas Utilities Company**

Citation By Publication STATE OF TEXAS. Sheriff or any Constable Runnels County, Greetings: are hereby commanded to on R. C. Mullins and G. S. by making publication of citation once in each week our consecutive weeks prior to the return day hereof, me newspaper published in county, to appear at the regular term of the District of Runnels county, to be at the Court House there- Ballinger, on the 5th Mon- a November A. D. 1931 the being the 30th day of No- A. D. 1931, then and there- ver a petition filed in said on the 19th day of August 1931 in a suit numbered on docket of said Court No. wherein Martin-Glover, is ff, and H. W. Robinson, Sr., lie Production Company, R. llins, G. S. Davis, C. Riggs, e and United Production

Company, Inc., are defendants, said petition alleging That on September 17, 1925 H. W. Robinson, Sr., being indebted to the Guaranty Bond State Bank of Miles, Texas, executed his note for \$3500.00, payable one year after date, with 10 per cent interest and 10 per cent attorney's fees, and joined by his wife executed a deed of trust conveying to A. O. Dannelley, Trustee, Section 1, Block A-40 Public School Land, situated in Andrews County, Texas, to secure said note; that on February 18, 1929 said H. W. Robinson, Sr., executed a renewal note to said bank for \$2995.00 to cover the balance due at that time on said first above described note, said last note becoming due in ninety days and bearing interest at 10 per cent from maturity and 10 per cent attorneys' fees, and to secure said renewal note said Robinson and wife executed a new deed of trust to R. L. Hol-

land, Trustee for said bank, conveying to him said section of land, same being a renewal and extension of the first mentioned deed of trust on said land. That on May 17, 1930, there being then due on said indebtedness, the sum of \$2795.00, said defendant Robinson executed a renewal note for said sum, said renewal note falling due on the 18th day of August, 1930, and bearing 10 per cent interest from its date, and providing for 10 per cent attorneys' fees if collected by law; that on February 5, 1931, said bank sold, assigned, transferred and delivered to plaintiff said note and the deed of trust lien securing the same. Plaintiff sued defendant Robinson for said debt, and prays for a foreclosure of its deed of trust lien against him and all other defendants herein. Herein fail not, but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

MOVIES

Joan Wears Odd Makeup in New Picture

Joan Crawford hides her beauty behind a grotesque makeup in the opening scenes of "Laughing Sinners," her new Metro-Goldwyn-Mayer starring vehicle, which will be shown at the Palace Theatre here for two days commencing Wednesday. In these scenes Joan performs a "rube" dance number in a roadhouse, donning an eccentric make-up for the act, farmer's overalls, big straw hat, her face hidden by a clown's nose and spectacles. The purpose of the make-up is to accentuate the pathos in the dramatic incidents that follow immediately, disclosing the broken heart of the mad-cap night club entertainer. Harry Beaumont directed the film from the Kenyon Nicholson stage hit, "The Torch Song."

was shot and various symbolic backgrounds. The whole pageant of Lincoln's life passes in review, with the romance of the martyred president and Ann Rutledge stressed in an important and entertaining way. Heading this tremendous cast of 112 are Walter Huston as Lincoln; Kay Hammond as Mary Todd Lincoln; Una Merkel as Ann Rutledge; Ian Keith as John Wilkes Booth; Jason Robards as Herndon, Lincoln's young law partner; Hobart Bosworth as Robert E. Lee; Frank Campeau as Phil Sheridan; and Lucille La Verne, playing an important character role.

SAYS COST OF PRODUCING BUTTER FAT NOW HALFE

AMARILLO, Tex., Oct. 13.—The cost of producing butter fat has been cut in half by leading dairy farmers of the Panhandle-Plains since 1929. Records kept in the News-Globe Master Dairy Farmer contest show that the average cost among 14 herds entered in 1929 was 29.8 cents per pound. Among 16 herds entered this year, the average cost per pound was 14.3 cents.

At the same time, the average production for each cow was raised from 234.6 pounds of butter fat for the 10-month period of the contest to 302.4 pounds. There were five herds in 1929 that averaged less than 200 pounds to the cow. The low herd this year produced an average of 218 pounds.

A decrease in the production per cow has been found in only two herds in three years, while every herd entered in the contest has shown a reduction in the cost of butter fat. The lowest cost for butter fat production this year was 9.7 cents per pound. The highest average for the production this year was 42.47 pounds. In 1929 the highest average was 321 pounds, this year's figures being an increase of more than 100 pounds per cow.

Because of the low market price of butter fat, attention is being given in the annual con-

test to the feeding of home god dairy farm should also Stressing the point that a good dairy farm should also have hogs and chickens, and neat, carefully kept surroundings, the News-Globe contest is offering 100 points for improvements and appearance aside from dairy equipment. The fourth contest period will begin November 1. New counties and new dairy farmers will be represented.

FEEDING OF STOCK IN TEXAS TO BE HEAVY

LUBBOCK, Tex., Oct. 13.—Fully as many cattle and sheep will be fed this fall and winter in Texas on full feed by farmers and feeders as were fed last winter, in the opinion of A. L. Smith, livestock husbandman of the extension service at Texas A. and M. College. Last year, Smith said, county agents of 82 counties, many of them in West Texas, reported to him between 70,000 and 80,000 animals in the feed lots of farmers and some small commercial feeders.

Of these the South Plains counties, including Bailey, Lamb, Hockley, Lubbock, Lynn and Dawson, contributed around 10,000 calves and several thousand sheep.

"There will be as many animals fed—if not more," said Smith. "Last year farmers found that it cost eight to ten cents a pound gain. The cost this year will be cut nearly in half I am anticipating that the gain should not cost more than five cents a pound, based on the present price of feed."

"With the huge feed crop here on the plains there is no reason why a feeder, if he buys his calves or hogs right, cannot feed out and make more money than he can selling direct his feed crop."

John Carter, of Ballinger, has accepted a situation with the Heart of Texas News at Brady and left for that city Sunday.

UNDEVELOPED FILMS CAN NOT LEAVE MEXICO

HARLINGEN, Tex., Oct. 13.—Tourists in Mexico should have their exposed camera films developed as quickly as possible to avoid delay in waiting for them or abandoning them, according to Robert W. Pollock, manager of the Rio Grande Auto Club. Mexico does not permit undeveloped film to leave the country now, in order to intercept views of desolation, poverty and military areas. It is not desired to have unfavorable views leave the country for fear that the impression will be left that they are typical.

When your child tosses and cries out in his sleep, it means he is not comfortable. Very often the trouble is that poisonous waste matter is not being carried off as it should be. SAM BY FREEMAN LINCOLN

Chapter 34 THREE PINS AND A PHONE CALL

EAK congratulated her when she told him about it in his te immediately afterward. "That clever," he said, shaking his d in admiration. Fourth's coming home this after- n, you know, Peak," Sam said hat do you think I'd better say im about this business? Do you ik I ought to say anything?" No, I'd ignore it entirely if i e you. Fourth won't admit that was responsible for Martha's go- away. He just says that he ed her money when she asked for it. That's his story, and a good one. He'll stick to it. good! He can stick to it for t, so far as I'm concerned. ourth's home-coming proved to

"Oh," He had her complete at- tion at last. "What's the mat- ter?" "I can't tell you over the tele- phone. You must meet me at my apartment right away. It's very— " "Don't tell me again that it's im- portant," Sam bit her lips. Then she suddenly gave in. "All right, I'll come. I'll come immediately but if I find you're wasting my time, heaven help you!" Sam dismissed her dressmaker, changed her clothes, and drove to town. She was definitely puzzled and vaguely troubled over the whole affair.

Nelson met her in the tiny en- trance hall. He nodded gravely. "Thanks for coming, Sam. hated to ask you, but—" Sam laughed. "I think you're go- ing to say that it's important. All right. Let's hear about it as soon as possible." Sam walked into the living room, and as she crossed the threshold she nodded to the per- son who was sitting in the shadows beyond the window. "Hello, Mar- tha," Sam began cheerfully. "Are you—" Suddenly the words died in her throat and she stood perfectly still. The person in the chair was not Martha. It was Eugenie Frya. Nelson coughed nervously. "Mar-

th isn't here, Sam. You know Mrs Frye, don't you?" Eugenie got to her feet and smiled. "Miss Sherrill and I know each other pretty well, I guess. How are you, Miss Sherrill?" Sam gasped. "But—" "You're surprised," Eugenie nod- ded calmly. "I don't blame you. You didn't know that Mr. Aldersea and I even know each other." "No," Sam could only shake her head weakly. "I didn't know." "How could you? Yesterday was the first time we got together. It's funny how things happen." "Sit down, Sam," Nelson's ner- vousness seemed to be increasing. He indicated a chair and then sank down into a corner of the daven- port. Eugenie also sat down, and the three regarded each other silently. Eugenie was the first to speak. "Well," she said briskly, "let's get on with this. Miss Sherrill is won- dering a lot of things, and I don't blame her." Sam said faintly: "I don't under- stand." "Of course not, but you will when we explain." Mrs. Frye frowned thoughtfully. "Have you any idea what I'm going to talk about, Miss Sherrill?" "I think so," said Sam in a low, troubled voice. "I think you're go- ing to talk about Fourth." "That's right. We're going to talk about your step-father, and what we're going to say may sound sort of surprising. It may sort of bowl you over." "No. It won't bowl me over." Sam shook her head and looked straight into Eugenie's eyes. "I think I know what you're going to say. You're going to tell me some thing about Fourth's invention, aren't you? You've found out something about it—that it's not on the level, probably." (Copyright Freeman Lincoln)

CHAMPION HOG CALLER SAYS IT IS AN ART

AMARILLO, Oct. 13.—There is an art to hog calling, says Joe Lillard of Arlington, Tex., breeder of prize-winning hogs.

And Lillard ought to know, for he is four-time champion of the world. He recently defended his title at the Michigan State Fair at Detroit, and was declared champion for the fourth time.

The press didn't give Lillard—and his home state, Texas—a break when he won the championship. His home was given as Arlington, Mich., and some of his own friends did not recognize the picture sent out by the Associat- ed Press, showing him deliver- ing his reverberating "Yoo-eee."

While exhibiting some of his prize-winners at the Amarillo Tri-State Fair, Lillard gave re- porters a few pointers on the art. "Not just any old bozo can call hogs. It is an art that must be practiced and it takes years to perfect it.

"A fellow might learn it out in the back yard baying at the moon, but I doubt it. The best way to master it is with hogs. I learned it calling them to the slopping trough.

"Believe me, hogs will soon learn the difference between calls. And you can't call all hogs in the same kind of voice. Now take pigs, for instance. The call for them must be soft and plead- ing. If you call them in the same tone you would use calling grown hogs, they would run away in fright.

"But the call for hogs must be plenty loud and lusty. Make all the noise you can. Just make them hear and they won't be long getting to the feeding trough."

TO PLANT BLUEBONNETS

MISSION, Tex., Oct. 13.—Mis- sion hopes to become a city of bluebonnets and poppies. Boy Scouts have distributed free seed to Mission residents. The seed was provided by the Young Men's Business League.

At The Change A Critical Time In Every Woman's Life. "During a critical time in my life I took Cardui for several months. I had hot flashes, I would suddenly get dizzy and seem blind. I would get faint and have no strength. My nerves were on edge. I would not sleep at night. "Cardui did wonders for me. I recommend it to all women who are pass- ing through the criti- cal period of change. I have found it a fine medicine."—Mrs. Mattie Murphy, Poplar Bluff, Mo. Cardui is a purely vege- table medicine and contains no dangerous drugs. CARDUI Helps Women to Health

Eleven Principals Speak Lines in "Abraham Lincoln"

More than 112 principal speak- ing players are cast in D. W. Griffith's "Abraham Lincoln," the United Artists all-dialogue screen romance of the Emancipator's life, which opens a two-day en- gagement at the Palace Theatre Friday of this week.

For sheer numerical strength this is the largest cast ever assembled in a single motion pic- ture, exceeding even Griffith's "Intolerance," "The Birth of a Nation," and "Hearts of the World."

Ninety scenes and seventy sets are shown in the picture. The sets, designed by William Cameron Menzies, art supervisor at the United Artists studios, include a slave ship on the high seas; the birthplace of Lincoln; his various law offices; a Southern planta- tion; various rooms in the White House; battle scenes fr Sheridan's famous-ride and Lee's last stand; the Ford Theatre where Lincoln

was shot and various symbolic backgrounds.

Heading this tremendous cast of 112 are Walter Huston as Lin- con; Kay Hammond as Mary Todd Lincoln; Una Merkel as Ann Rutledge; Ian Keith as John Wilkes Booth; Jason Robards as Herndon, Lincoln's young law partner; Hobart Bosworth as Robert E. Lee; Frank Campeau as Phil Sheridan; and Lucille La Verne, playing an important character role.

MEMBER ASSOCIATED PRESS The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited in this paper, and also the local news published herein. All rights of republication of special dispatches herein are also reserved.

Fair Week was preceded by a big general rain all over this county Monday morning the fair grounds were under water and exhibitors were wading around in rubber boots, the usual footwear for the Runnels County Fair. The rain will be a great benefit to the fair providing the remainder of the week is not rainy as prior to Sunday's rain the grounds were in bad condition with dust several inches deep. Fire hose was used there Sunday to wet the ground but soon following a hard crust was formed and dust beneath was being kicked up.

Some cotton men still believe a new record will be set in this county for cotton production. Even the most conservative think the county's ginnings will run above 85,000 bales for this year and some place the total as high as 85,000. On October 10 38,839 bales had already been ginned and just how much more is to be picked is difficult to estimate. Estimates run from 50 to 65 per cent on that already gathered and if true the year's production will set a new record. The present record was set in 1925 when the county produced 71,291 bales.

Runnels county schools will soon all be open and the boys and girls of school age will be making their daily trips to these places of learning. It is believed that during the first few weeks mostly small children will attend as there is much cotton to be gathered yet and a large number of the upper classmen will be kept out of school to assist their parents in picking the crop. A few schools have postponed their openings until about the first of November when most of the cotton will be gathered and all the children can enter at the same time. Norton trustees are delighted with their plan of operating their school six weeks in July and then dismissing six weeks during the cotton picking rush.

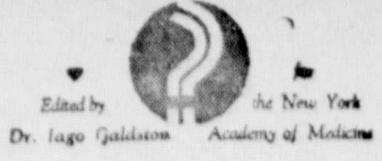

Rain in this county Sunday night and Monday morning was general but some communities received much more than others. The hard showers were sufficient to put out stock water where it was needed. The ground was thoroughly soaked and the season on pasture lands is good enough to start winter grass and weeds. Cotton not being injured by the precipitation, the county will benefit. Ballinger buyers believe the staple will be helped by the rain. Drip roads were reported badly out Monday morning and at a number of points high water had stopped traffic.

SONORA RANCHMAN WILL ASK WAR ON GRASSBURRS

(By Associated Press) SONORA, Tex., Oct. 13.—Legislative action against grassburrs will be sought at the next regular session of the legislature, if the suggestion of W. R. Ely, Abilene, chairman of the Texas highway commission, is carried out. B. M. Halbert, Sonora ranchman, who has been waging an intensive campaign to arouse highway officials to the need of clearing grassburrs at chicken-burrs from highways in the county, carried his plea to Ely. With the end of the "burr season" at hand, Halbert complained maturated seeds on the plants make it unwise for ranchmen to drive fleeces-shearing animals along the road, because of likelihood of injuring wool and of spreading seed to grazing lands. Ely, replying to Halbert, pointed out that there is no provision in law for keeping grassburrs from maturing on the highways. It would be difficult, under the present laws, he wrote for the highway commission to dictate to contractors what type of feed they should use. He suggested that Halbert introduce in the next legislature a bill to prohibit contractors from using grain or hay with cockleburrs or grassburrs and providing that the highway department shall keep seeds from going to seed on the highways.

HOW'S your HEALTH

Edited by Dr. Jago Goldstein, Academy of Medicine

MUMPS

One of the minor illnesses that occasionally give rise to major complications is mumps. This disease is of unknown origin. It affects the salivary glands, particularly the large parotid glands located on each side of the head just below the ear. The period of greatest susceptibility to mumps is between the ages of 5 and 13. Though the cause of mumps remains unknown, it has been established that the disease is conveyed from one patient to another through contact. The disease develops about 15 days after exposure, though its development may be delayed as long as 21 days. The disease is communicable for a long time after the disappearance of all symptoms. The person convalescing from mumps should therefore be cautious about his mouth and throat excretions. Mumps may be followed by a number of complications, one painful one being involvement of the sexual glands. The general tendency is to consider mumps a minor and insignificant ailment. In a large measure, it is such; but because it is disfiguring, painful and may lead to serious complications including inflammation of the middle ear and involvements of the spinal cord and brain, each case of mumps should be isolated and watched. There is no specific treatment for the disease. To ease the pain that may be present, hot applications over the swollen areas will bring relief. The diet should be simple and light. Children affected by mumps should be kept in bed at least during the acute period of the disease to reduce the probabilities of complications.

ST. LOUIS, Oct. 13.—In a pool in the Missouri Botanical Gardens where throngs go daily to see it a rare blossom, the yellow tropical lily, has been brought to flower. It is the hybrid creation of G. H. Pring, superintendent of the gardens and internationally recognized authority on orchids. Tropical lilies ordinarily bloom only red, blue or white. The flower, christened the St. Louis lily, is the nearest approach to the "lost yellow lily" of Africa, reported by a German botanist in 1890, but never preserved save in one imperfect specimen pressed for a herbarium. The new lily is the result of hybridization with a specimen grown from seeds furnished by Dr. B. D. Burt, British government botanist of Kondea, Iran.

Rare Yellow Tropical Lily Blooms for Flower Expert

A yellow tropical lily, rare in the flower world, has been developed at the Missouri Botanical Gardens in St. Louis by G. H. Pring, superintendent. The plant has drawn many visitors to the gardens, one of whom is shown examining the blossoms.

(By Associated Press) ST. LOUIS, Oct. 13.—In a pool in the Missouri Botanical Gardens where throngs go daily to see it a rare blossom, the yellow tropical lily, has been brought to flower. It is the hybrid creation of G. H. Pring, superintendent of the gardens and internationally recognized authority on orchids. Tropical lilies ordinarily bloom only red, blue or white. astrology. Lily Pons, France's gift to the Metropolitan last season, has been studying her English assiduously while on her summer excursions and, it is reported, will do a musical movie next year. Philip Moeller, the stage director, is an accomplished pianist. Lyda Roberti's father was a celebrated European clown. Burns Mantle, who attends the theater as a business, finds his diversion in his young daughter, Margaret. Lilyan Tashman, who passed through here en route to the Paris gown marts, has five feet, seven inches of personality to decorate.

Tell Us, Please— Why people tip taxi cab drivers when they perform no special service? Why not elevator men and street car motormen, too? Why they put cauli next to an artificial lake in those little Nippon gardens all the flower stores display? Why New Yorkers have been moving from old addresses, abandoning pet dogs and cats this year to such an extent that appeals against the practice have been taken up by the press? All that is necessary is a telephone call to one of several institutions, and the pet will be taken off the owner's hands. Why in a Broadway hotel cafe,

largely patronized by men in the business end of the movies, writing on table cloths is so extensively practiced that it's one of the management's biggest bothers? Why in thunder a horde of carpenters, electricians and painters invariably pick out a day you want to be quiet and peaceful to invade your apartment and announce that emergency work must be done this very day, by order of the fire department, the Swiss admiralty and some other conspirators.

MEXICAN ORANGES MAY PASS THROUGH U. S.

(By Associated Press) SAN BENITO, Tex., Oct. 13.—Although the Lower Rio Grande Valley is interested primarily in the production of grapefruit, it is watching developments which may lead to exportation of Mexican oranges to Canada. Most of these oranges are grown near Monterrey. General Juan Andreu Almazan, Mexican minister of communications, recently visited Canada with the idea of making trade treaties with that country. Strict embargo maintained by the United States against Mexican oranges, ostensibly because of parasites which might be introduced into this country, has held down the citrus industry of Mexico. It is now proposed either to ship the oranges through the United States under bond to forestall cars being opened in this country or by boat in order to avoid this red tape.

PLUM TREES BLOSSOM SECOND TIME IN YEAR

CANYON, Tex., Oct. 13.—J. W. Horn of Canyon has what he thinks is a prize plum tree. It bloomed as usual in the spring and is now, in September, covered with blossoms again. "It surely is a good climate," says Horn, "that will produce two plum crops in one season."

FROST WARNING STATION IN VALLEY NOW READY

(By Associated Press) SAN BENITO, Tex., Oct. 13.—First steps toward furnishing the Lower Rio Grande Valley orange and grapefruit growers with a frost warning service similar to that of California are being taken. Substations are being located by D. S. Nichols, who came here from Mobile, Alabama, after having been in California, where he became well acquainted with the type of service to be given Valley growers. About a month will be taken up in preliminary work and service will begin about November 1 although there is slight possibility of frost before December 1 or later. The service is being provided under \$10,000 congressional appropriation.

PLANT-A-TREE CAMPAIGN STARTED AT HARLINGEN

HARLINGEN, Tex., Oct. 13.—An extensive campaign to induce property owners to plant some type of tree is to be conducted by local real estate men. No definite type has been chosen, the choice being left to the individual property owners but it is likely that most of them will plant native varieties such as tepehualte, huisache, retama.

Washington palms, anacua, ebony, anacahuita and others.

Wake Up Your Liver Bile - Without Calomel

And You'll Jump Out of Bed in the Morning Rin' to Go. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned. It takes those good old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "top and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills, ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Demand a substitute, 25c at all stores. © 1931, C. M. Co.

About NEW YORK

By William Gaines NEW YORK, Oct. 13.—Peeping at personalities: Edward O. Robinson, big shot of the movie gangsters, who came here to be bold and had in vaudeville, fascinated the habitues of the night places. In some establishments his most casual dropping-in would be the signal for a miniature demonstration. Mayor Jimmie Walker's sporting of that beret when he came home from Europe has given larger impetus to the fad here. Many more shops display berets for men, including several conservative houses. And Otto Kahn does his bit for vests with that narrow white trim. Max D. Steur shuns the usual whispered consultations with counsel when he is in action in the courtroom. Nor does he bother much with notes; his memory has caused many to marvel. Suddenly to behold Primo Carnera parading down an avenue is something startling indeed—at first you think he's one of those advertising fellows on stilts. Little boys follow him, but Primo shows no concern. He is, by the way, in demand at some social functions, and on various swanky beaches last summer he was seen in the company of several debs. Slow Motion Pictures Katharine Brush's hobby is

**ROUGH-NAMED BOYS TO MEET "NICE" GRID FOE**

(By Associated Press)  
DALLAS, Oct. 13.—Imagine if you can a football battle between "Roughhouse" Riley and "Scrapiron" Hammon on one side and "Sweetie" Davis on the other.

On names alone, the first two would be heavy favorites.

How the opponents actually stack up will be known November 17 when the Southern Methodist Mustangs tangle with the Texas Aggies in a Southwest conference game.

James Riley, tackle for the S. M. U. outfit, weighs 199 pounds and is noted, as might be suspected, for his aggressive style of play. Marion Hammon, his running mate, weighs 198, and is sometimes called "Scatterball" instead of "Scrapiron."

W. E. Davis, 170-pound Aggie backfield star with plenty of drive, got his "Sweetie" nickname by plowing through conference lines with the cheery warning, "Here I come, sweethearts!"

The most common family name of registered voters in Alaska is Johnson, with Smith a poor third.

## Teachers Institute Opens Wednesday

The Runnels county teachers' institute will open at the Ballinger Baptist Church Wednesday morning, and Wednesday and Thursday 120 teachers from 40 schools in the county will be engaged in the program prepared. Many of the rural schools of the county have not opened yet but most of these will open on the Monday following the closing of the institute and few teachers will have to return to their homes before commencing their teaching duties.

County Superintendent R. E. White has completed the program and faculty and is ready for the institute. He has heard from most of the teachers and expects practically every one to be present. Some of the schools are already operating but will dismiss Tuesday afternoon for two days while the teachers attend the institute. Besides teachers from common school districts of the county, Wingate, Norton and Rowena teachers will attend the institute.

The faculty contains some of the leading educators of this section and every department of school work will be taken care of. Those secured for the institute include Dr. D. M. Wiggins, Simmons University, Abilene; Dr. Thomas H. Taylor, Howard Payne College, Brownwood; Miss Madge Stanford, rural school supervisor of Taylor county, and former dean of education at McMurry College, Abilene; R. T. Ellis, secretary of the Texas State Teachers Association, Ft. Worth; Dr. C. A. Peterson of the state department of education, Austin; Miss Cella Moore, district supervising nurse; and Mrs. Joe Simmons, Ballinger, county chairman of extension service for the Parent-Teacher Associations.

Special entertainment will be presented at each morning session before the starting of classes by Miss Katherine Todd, Mrs. L. Schermerhorn, Miss Nona Dilts and Miss Edith Miller.

Those desiring have an invitation to attend any session during the institute and hear the subjects discussed by these eminent speakers. There will be no night sessions, according to Supt. White, all of the work being attended to at the two day sessions.

A number of the teachers will spend their entire time here during the institute as they have not arranged for their boarding places in the county yet because their schools have not begun.

Bethel, Blanton and Dale schools opened on Monday morning of this week and those due to open next Monday, October 19, are: Crews, Maverick, Williams Springs, Content, Dry Ridge, North Norton, Pumphrey, Independence, Cochran, Victory, Otter, Gruenwald, Brookshire, and Sweet Home.

## STEAM HASTENS GROWTH OF SWEET POTATO PLANTS

RAEFORD W. C. Oct. 13.—J. D. Tapp hastened the growth of sweet potato plants on his farm by heating the soil under the plant bed with steam pipes.

County Agent W. D. Burton said the steam was turned on for about one hour a day, and operated from a small steam plant nearby.

When the plants in the steam heated bed had reached a height of seven inches the county agent said, others bedded at the same time in unheated soil, were just breaking through the top of the soil.

## GREAT SMOKIES "PARADISE" FOR NATION'S SCIENTISTS

BRYSON CITY, N. C., Oct. 13.—Scientists of the nation are finding their "happy hunting ground" in the Great Smoky Mountains, soon to become a national park.

The Great Smokies constitute one of the best laboratories for scientific research in the nation because of their primitive nature, scientists say. Establishment of the national park gives assurance of the preservation of this condition.

More than 300 small mammals were collected this year by a group of Chicago scientists who have visited the area regularly since 1927. In all 18 species and sub-species were collected.

## Four Football Games Scheduled For County Fair

Football fans will have plenty of amusement at the Runnels County Fair this week. Four extra good games have been booked to be played Tuesday, Wednesday, Friday and Saturday afternoons and all the teams are rated as among the strongest in this section of the state.

The games will start Tuesday afternoon with the Ballinger Bearcats meeting the freshman team from McMurry College, Abilene. The Abilene team has been setting a fast pace against other high school teams of this district this fall. Last Wednesday in a friendly scrimmage with the Winters Blizzards the McMurry eleven copped the big end of the score of 19 and 13.

Perhaps the best game of the week will be played Wednesday afternoon when the San Angelo junior college team meets the Abilene Christian College freshman team. On these evenings will be found some of the outstanding high school men in the state last year.

Listed among the stars with the San Angelo team this year will be seen "Big Red" Haley, heavy-weight fullback and star of the San Angelo high school eleven last year. "Scrapiron" Grimes, all-state tackle from the last year high school team at San Angelo, is another who is well known to Ballinger fans.

People from all sections of the county will be interested in the conference game here on School Day, Friday, when the Winters Blizzards, present outstanding team of the western half of district 11, meet the Santa Anna Mountaineers. Ballinger fans are anxious to see the Blizzards in action and gauge their strength with that of the Bearcats for the game between these two teams here on November 20.

Saturday afternoon the Ballinger Bearcats will play their second game of the week with the Bangs high school gridsters as opponents. Bangs is a member of district 11 this year and from a victory of 44 to 0 over Paint Rock it appears that this tribe will not be a "set-up" for the Ballinger lads. Ballinger defeated Paint Rock 32 to 0, which makes the comparative "paper" strength of the teams about equal.

Officials have been secured for all these games and daily announcements will be made regarding the time. Tuesday's game will start at 2:30 p. m.

## SCHOOLS GIVEN HALF HOLIDAY TUESDAY

Ballinger schools were to be dismissed for half a day Tuesday, opening day of the Runnels County Fair, but it was announced that no other half holidays would be given during the fair. The opening parade was planned so that many school children and organizations could take part and it was necessary for school to dismiss at noon. The football game was scheduled for 2:30 p. m. and all the pupils were anxious to witness this game so the half holiday was declared.

## Carnival Chaplain Heard Here Sunday

In Ballinger this week is Rev. "Doc" Waddell, circus evangelist, and pastor of the canvas church with Dodson's World Fair Shows, which are providing the midway for the Runnels County Fair.

There is no other preacher man like him, 'tis said. He is a Methodist from Ohio. Of him and his work the venerable retired bishop of the M. E. Church, North, Rev. Earl Cranston, says: "Success to his ministry. It is the most unusual combination of the itinerant system. Wonderful how he started it! Wonderful how he does it!"

Citizens of Ballinger and vicinity have heard Chaplain Waddell for he gave one of his famous "sermonettes" from KOKL Saturday morning he talked to the Men's Bible class of the Ballinger Baptist Church, and also pronounced the benediction in the First Methodist Church at the morning worship. Sunday afternoon he gave his prison sermon in the county jail. In part he said: "Jesus instructed to seek and guide unto salvation the lost. Hear me, I may be wrong, but personal work counts and the place it should start in every town is in the prison and underworld—not in the pews and with-

in the four walls of church edifices." Chaplain Waddell also addressed the local Lions Club Friday, and gave his "Story of the Star" to the Eastern Star Monday night in Masonic Hall. He presented the chapter with an original acoustic of love.

## Schools

### English Department Presents Fire Prevention Program

On Friday, October 9, the English department presented a well prepared program in the high school auditorium. It was given in observance of national Fire Prevention Week.

The program was opened by a double quartet of junior and senior girls singing a group of fire prevention songs. Marie Hanz, a last year senior, composed the words. Ennie DeWitt was the accompanist.

A one-act play, "The Trial of Carelessness," was well interpreted by a group of seniors under the director of Miss Tittle. Leland McWilliams, judge; Dorothy Bates, defending attorney; Lester Marsh, prosecuting attorney; and Jessie Claude McIntire, officer, were excellent in trying

the case. After Gasoline, Rubbish, Gas, Kerosene, etc., had taken the witness stand. The judge freed them of the charges of causing fire, but called for Carelessness. In a short time, the foreman of the jury rendered a decision of guilty.

Louise Tinsley, representing the sophomore English class, gave a reading, "Carelessness." Hazel Fulton, in a short talk on fire prevention, told many worthwhile facts.

During the week, the pupils in the English department wrote themes, made posters and composed poems on the subject of "Fire Prevention." Posters which

had been made by the juniors were placed in the various rooms of the high school.

## SEA DENIZENS AFFECTED BY CHEMICALS IN WATER

(By Associated Press)  
WASHINGTON, Oct. 13.—Study of the chemistry of the sea may solve puzzles that the "old school of classical zoology" can not explain, Dr. Paul S. Galtsoff reports.

Copper in a proportion of 1 to 5 parts to a million in inshore waters induces young oysters to attach themselves to something and grow, he says.

## STOMACH TROUBLES

How frequently we hear people complain of "indigestion." And how seldom there is actually anything wrong with the digestive organs!

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali to neutralize the acids. But don't use any crude helps. Use what most doctors would advise; use what your own doctor prescribes in his daily practice for just that condition.

The very best help is Phillips' Milk of Magnesia. You will find nothing else so quick in effect, so harmless, so efficient. One tasteless spoonful in water neutralizes many times its volume in acid. Results are immediate, with no harmful after-

effects to follow your relief.

This pleasant way to alkalize your system is so much better—so much quicker—than attempting to accomplish the same thing by a diet! But you cannot do this with any form of magnesium. Phillips' Milk of Magnesia is the formula; it is the one preparation that gives you magnesium in perfect suspension. It is alkaline, its action is thorough, and there is nothing more soothing to an ailing stomach or more helpful to sluggish bowels. Druggists have Phillips' Milk of Magnesia in 25c and 50c bottles.

The best way to whiten teeth is with Phillips' Dental Magnesia—the ideal dentifrice. Try it and see for yourself how white your teeth become. At drug stores everywhere.

## PHILLIPS' MILK OF MAGNESIA

Make the Good You Do Live after You

## Leave That Property of Yours Intact

It is mighty embarrassing for those for whom you intended it. The cost is amazingly low.

Term insurance to cover a mortgage costs only \$8.89 per thousand at the age of 30. The mortgagee would cancel debt or interest at option. But the Southland Life will cancel both.

event of the death of the bread-winner. It also works a tremendous hardship on those who have to carry on. This can be prevented by taking a life insurance policy for the amount of your mortgage loan, which, in the event of your prior death, could pay off the bank and leave your property intact
