COLEMAN YOUTH KILLED IN AUTO WRECK

County Budget Shows Tax Reduction for '32

Under the new uniform budget law enacted by the last regular Baptists Will Meet session of the legislature County Judge Paul Trimmier has prepared and filed with the county clerk a proposed general budget of expenditures for next year. Notice of a public hearing on the Runnels County Missionary Bapbudget for last Monday was tist Association will be held at given by all newspapers of the Winters next Tuesday and county, but no one met with the Wednesday. Large attendance is commissioners' court to discuss it expected at this meeting as a and it is assumed that the budget number of outstanding speakers as prepared will be adopted by will make addresses. the court and taxes levied in Among speakers from out of the

Guard History is **Told Rotarians**

A history of the Texas national guard and accomplishments at the recent annual encampment were heard Tuesday by Ballinger Rotarians in talks delivered by Captain Ross Murchison and First Lieutenant K. V. Northington. The local guard company returned Sunday from Palacios where they The regular meeting of the had been for the past two weeks attending camp.

Capt. Murchison told interesting, facts concerning organization of the national guard and how the men served then. In the early days of the organization Capt. Murchison said the men served without pay and furnished their own equipment. This service was rendered for the glory the men received and the physicial good of, military training. Texas companies were called for duty along the Mexican border and received federal pay for the first time. A short tmie later the World War commenced and an entire divisa new division being created, the for the enlistment period, armories leased and equipment furn-

TO THE VOTERS of Runnels County

As the period of the run-off primary campaign comes to a close, it is a source of gratification to me that from every part of Runnels county have come expressions of interest in my behalf in this second election. These expressions have come from both those who supported me in the first primary and from those who prefered some other candidate at that time. These evidences of good will and confidence are especially appreciated in view of my inability to make an active campaign, as I have been closely held to the County Judge's office by routine duties, among such duties being the preparation and handling of the proposed budget of county operations, as required by law.

The proposed county budget has been analyzed and is being handled as a news item by the papers of the county, for which reason I shall not burden you with a lengthy discussion of it here, but your attention is respectfully called to such news item on the budget published in this same issue of the paper. The copy of the proposed budget is on file in the office of the County Clerk. Where any item is necessarily condensed in the copy on file, the county record supporting such items are open to the inspection of every citizen and can easily be had by anyone caring for such details. I have always been glad to discuss the county's business with any interested citizen.

As reflected by the budget, it has always been my constant endeavor to keep the financial affairs of the county on a sound basis. It is with some degree of pride that I point to the results. While I have not sought to make political capital out of the fact, I feel that evidence of my sincerity in this effort is found in the fact that in January, 1931, I voluntarily asked for a substantial reduction in my salary for that year, which was made, and in January, 1932. I again voluntarily asked a further substantial reduction of my salary along with a reduction made in salary allowances for certain other county employees. In this connection, I regret that cards of my opponent have been circulated from which it would be inferred that the county has paid me \$45,000.00 during my service as County Judge. If such inference was intended, it is grossly inaccurate, as may be as certained by anyone caring to examine the open records of the county. However, I believe that the citizenship of the county feel as I do that an honest, conscientious official works for and earns the compensation really and actually paid him.

Lacking only 46 votes of having a clear majority of all votes cast in the July primary, I trust that I may be favored with your whole hearted support this coming Saturday. My renewed pledge to you is, if so honored, that I will continue a careful, unbiased, diligent and unselfish service in behald of the whole citizen ship of the county, and assure you that your support will be sincerely appreciated.

UNEQUAL REGULATION IN TRANSPORTATION CAUSES DISORDER AND CONFUSION

 The instability, confusion and disorder which unrestrained truck transportation has brought about is responsible in large measure for much of the distress in which all business finds itself today. Texas has moved to find a remedy and all concerned in the welfare of this state and its institutions should cooperate in the effort to restore stability and order to our transportation systems.

The Texas Railroads, in these advertisements, have endeavored to place before the people of this state some of the reasons why the existing laws, regulating motor transportation, should be upheld and enforced.

1. The railroads are necessary for the successful marketing of the enormous production of this state, which is used and consumed in every other state in the union.

Uniform, published, non-discriminatory transportation service rates are essential to the orderly conduct and welfare of business.

Unregulated truck transportation inevitably results in discriminatory charges and practices, rebating, unfair and unbusinesslike competitive methods, bringing about losses and commercial insecurity.

The wholesaler, jobber, retailer and local merchant suffer from the unfair competition of truckers and peddlers who, for the most part, are non-residents, pay no taxes and contribute nothing to the community

The farmer and agricultural producer must have at his command facilities adequate to transport crops and produce which move long distances in large volume, at low cost, by rail.

2. The railroads build and maintain their own roadways, pay heavy taxes for the support of state and municipal governments and institutions, and expend millions of dollars for payrolls, materials and supplies. Railroad workers are substantial citizens, home owners, and valued members of their communities.

3. Rail transportation is the most efficient and economical in existence for the movement of traffic in volume by land.

4. Texas highways belong to the people and are built and maintained at heavy cost. Their use for commercial purposes is a privilege, not a right. They should be kept safe for general use and not prematurely destroyed by heavy trucks.

5. The stability, security and orderly conduct of business require reasonable control and regulation of all transportation agencies. THE TEXAS RAILROADS

It pays to read the ads.

Strother Misrepresents

Record in Legislative Campaign

1. STROTHER'S SUPPORT. Mr. Strother stated I had told people that he was for me. This is false. I knew from the effect of election returns that he was sore because I beat him. However, he did say in the presence of others during the first primary that if he was eliminated he would support me

2. GAS PETITION. Mr. Sam Wyatt presented a petition to me and I told him the Council had already taken the matter up with the Gas Company. I took the petition up with the Council and at present it is in the Secretary's office. We had an agreement with the Gas Company to abide by decision then in court at Colorado City and other cities that had gone into court to get reduction. These cities had their rates raised. Had Winters broken her contract, which prevented a raise, the same thing could have happened here. Thus Winters was saved the cost of a suit and a raise in rates.

3. WATER. For many years it has been customary for the mayor and council to receive free water. However, this year that was discontinued and on May 27, WHILE I WAS OUT OF TOWN the council voted \$3.00 to the mayor for extra services in lieu of water formerly received. The Council also received an allowance. I have not taken this money and pay reg-

4. SALARY. A year before I was elected mayor the salary of that office, for mayor and manager, was \$150.00 per month. Citizens asked me to serve as a patriotic duty and I did so at a salary of \$5.00 per month. There has been no increase in salary except the \$3.00 explained in the preceding paragraph that I have not taken.

5. INTEREST. The City of Winters has taken care of its interest and sinking fund in

spite of delinquent taxes 6. BRONTE IRRIGATION PROJECT. The only meeting I attended in regard to this was a barbecue on Oak Creek by invitation. Petitions on both sides were brought to me but I did not sign either, not because I wanted to stay on the fence, but because my land was not affected and I have always maintained the bond issue should be settled by those directly

7. STROTHER. I dislike making these next statements but since people have asked me why Strother is against me, it is essential that I explain. The Council discontinued A. O. Strother's services as City Attorney because of what they considered exorbitant charges. They

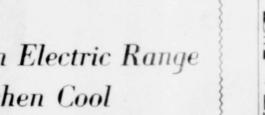

ordered his water cut off because of eight month's delinquency. He has not paid his city taxes in two years and he was sent notices. He evidently blames me with these things. UTILITIES. Mr. Lee inferred that I would take orders from the utilities. I have never taken orders from a corporation and never will do so. I believe in control of utilities and the

principle of "equal rights to all, special privileges to none The statements I make in regard to city affairs are substantiated by open records of the City of Winters. The others can be verified by asking citizens of Winters the worth of my word. I have made no false charges and will make none; all I ask is fair play and investi-

gation. Had Mr. Lee wished to be as fair as he has claimed in all his speeches he would have investigated before printing anything false. He printed this all over the district except in the Winters paper where it could have been more easily verified. Why? Perhaps Mr. Lee felt he could not beat me single-handed. I do not know what other false accusations my opponent is planning to use at the last minute but I believe the people of this district are fair enough not to swallow them because they are presented so late I have no chance to answer them.

Candidate for Representative, 92nd District.

A SIX IS MORE ECONOMICAL

Thousands of tests have proved . . . engineers have established . . . owner experience has confirmed THIS FACT: For lowest, all-round motoring costs: SIX CYLINDERS. No more - No less!

With more, you sacrifice the economy for which Chevrolet is so famous. With less, you sacrifice the kind of maintenance cost that Chevrolet gives youthe lowest available in today's lowprice market!

SAVE WITH SIX CYLINDERS

Why not strike a happy balance between "too many" and "too few"? Do as the majority of low-priced car buyers have done ever since January, 1931: SAVE-with SIX CYLINDERS. The Chevrolet six-cylinder engine gives you wonderful mileage on gasoline - and oil! Because its smoothness is built-inthe body, chassis and engine are spared the repair costs that result from con-

STILL GOOD AFTER 15,000 MILES

And the Chevrolet Six stays young for -10,000, 15,000, 20,000 miles and more -carries on-smoothly, dependably, economically.

Moreover it has every modern feature you're entitled to: Free Wheeling, no car is up-to-date without it. And genuine Syncro-Mesh as originated by General Motors. And big, luxurious Fisher bodies. And four parallel mounted springs.

Remember that you can switch to a 1932 Chevrolet for very little money. In fact, you'll probably find it more economical to buy a new Chevrolet Six than to worry along with the old car.
