What Is

ATHLETE'S FOOT

Over 30 Million Americans Now Have It-

Is This Dreaded Disease Becoming a Plague?

Athlete's Foot is a fungus germ (Tinea) which appears on the feet in the form of a little yellow bilster, causing severe irritation and itching—especially between the toes. This disease is very contagiods and is spreading with alarming rapidity among all classes of people.

The failure to successfully treat Athlete's Foot in the past has been due largely to the fact that these germs hibernate in the pores of the shoes. Salves and liquids applied only to the feet DO NOT PENE. TRATE THE PORES OF THE SHOES.

Medical Science has recently de-

HOW TO STOP A COLD **ALMOST INSTANTLY**

Almost Instant Relief In This Way

The simple method pictured above is the way doctors throughout the world now treat colds.

It is recognized as the QUICK-EST, safest, surest way. For it will check an ordinary cold almost as fast as you caught it.

Ask your doctor about this. And when you buy, see that you get the real BAYER Aspirin Tablets. They dissolve almost instantly. And thus work almost instantly when you take them. And for a gargle, Genuine Bayer Aspirin Tablets dissolve with speed and completeness, leaving no irritating particles or grittiness. Get a box of 12 or bottle of 24 or 100 at any drug store.

Ask your druggist about the recent price reduction on the 100 tablet size Bayer Aspirin.

Did You Know

-that Herring & Stallings, "Cotton Merchants" purchased this past season over \$600,000.00 of spot cotton—over one-fourth of the total value of the Runnels county cotton crop?

Cameron's Garage You Must Be Pleased

What Shall I Give Them to Eat?

Three meals a day-365 days in a year-what a lot of meals to plan—to cook—to serve!

And that isn't all of it. You have to buy food for those meals. Meat. Groceries. Vegetables. Fruits.

A big job! Not only does it take careful buying to keep within your food budget, but ingenuity to vary your menus so that they are nourshing, yet free from monotony.

However, you can simplify this feeding job by reading the advertisements that feature food products. In these times, food advertisements are most complete in information regarding the price of the product, its quality, its health value and its uses. Often the reading of the one advertisment can furnish you with ideasnot only for dinner tonight, but for your breakfast tomorrow, and luncheon the day after.

How often you say, "What shall I give them to eat?" Read the advertisements and you'll find the answer.

Consult the Advertisements Before You Buy
