ONCE THRIVING TOWN IN LAMPASAS COUNTY NOW ONLY A MEMORY

BRADY, Feb. 20.—It is said that must be made by the official telegraph and telephone operamap-makers every two weeks in tors 3; tinners 6; and miscellan- ture for the occasion. He said building. The negroes expect to order to keep up with the new eous 73. towns constantly springing up and as well as the towns that are alliance and no religion number perpetually fading into insigni- 2,666. Baptists lead all denomi- plenty of stringed instruments to their building before that time. ficance and disappearing. Among nations with 1,069, Catholics 700, the latter might be mentioned the Methodists 417, Christians 143, once bustling town of Senterfitt, Presbyterians 51, Lutherans 26, in Lampasas county, and which Episcopalians 14, Hebrews 1, and funds taken in will be turned over vices Sunday afternoon. now is but a memory. The following is the story of the rise and fall of this place:

In the golden days of the cattle industry, when barbed wire fences schools, left Thursday for Athens were unknown, Senterfitt was one of the liveliest towns in Central father who is very ill. She will Texas. It was a wide-open, active town whose saloons never closed, day or night, except for funerals. Today few of the younger generation ever heard of Senterfitt, and it has no place on the map.

For miles and miles around this forgotten town the cattle ranges stretched away in grassy monotony, and under the broiling sun a man could ride all day without meeting a living soul, but in the town all was different. Here was the cowboy in all his glory. Scores of good horses stood tied to the hitching posts at the side of the Main Street. Bronzed cowpunchers with jingling spurs and broad brimmed hats swung along. Occasionally a pistol shot rang out.

of buildings of saloons and stores directed by Mrs. J. H. McClain, stop passersby for a closer inspecages of the elements. A medicine that brightens people's lives

Fortunately for most of us, a state of happy health does not depend on strength. But like any other piece of machinery, the human machine must be properly regulated to run right.

There is a simple means of regulating the system. It makes an amazing difference in the way your organs function and the way you feel.

It pays most men and women to try this regulation. You may consider yourself in fairly good health today, and after only two weeks' regulating realize you were only half alive.

This means of stimulating the system to new life is a prescription, and it is known as Dr. Caldwell's Syrup Pepsin. It's derived from fresh herbs, active senna, and pure pepsin Every druggist keeps it on hand. Get some today, and take some tonight. One spoonful drives away a bilious headache. A larger dose relieves any constipated condition. A little now and then keeps an older person protected from auto-intoxication. And it may be given any time to sluggish children.

Whole households have blessed this family doctor's prescription. It has saved old and young from sluggish spells—and from downright sickness. It's the only tonic you may need; the only laxative you need. It is the most likeable and remarkable medicine you ever tasted. Try one bottle of Dr. Caldwell's Syrup Pepsin and compare your condition with how you felt before!

Building Improvements Reflect Intelligence-Good Bathroom and Kitchen Plumbing

Are Sensible Conveniences! Let us make you an estimate on installing these much needed improvements in your home. It makes no difference whether you live in town or in the rural districts the conveniences are just as sensible and essential in either locality.

E. J. CARROLL

HERE are millions of Americans who have money to spend and and aren't spending it. They are waiting for prosperity to come back, for an "act of God" to drop dollars in their laps, for a good fairy to shower them with gold, for a "cure-all"

Those thing won't happen, prosperity will return in proportion to our initiative, courage and determination to revive it.

Millions of our homes need improvements, Millions of yards need work, millions of pieces of household equipment need replacing or repairing, homes need painting, rooms should be papered, roofs should be repaired, needed improvements of all kinds are seen on every hand. Improvements of these kinds can be made at a lower cost now than at any time in decades.

Those spending money would get more for their investment than in many years. The laboring man would get a job, the storekeeper would sell his wares and order more. Factories would begin to operate and orders go in for raw materials, transportation would revive and the business circle be complete,

No town is too large or too small. You have your chance now to better conditions and receive full value for what you spend. Start now! Give someone a job!

The Time to Start Building is NOW!

WE WOULD ADVISE AND SUGGEST

that if you contemplate making improvements about your home, if you intend to rebuild, repair or repaint your premises and if you have the money available or can secure it in a way that you would be able to pay for it-it would be common sense to do this now, while the laborer needs work and while you can buy material and all needed requisites at the cheapest prices in history.

DO YOUR IMPROVING NOW-IT'S CHEAPER THAN CHARITY!

What Is ATHLETE'S FOOT

Over 30 Million Americans Now Have It-Is This Dreaded Disease Becoming a Plague?

Athlete's Foot is a fungus germ (Tinea) which appears on the feet in the form of a little yellow blister, causing severe irritation and itching —especially between the toes. This disease is very contagious and is spreading with alarming rapidity among all classes of people.

The failure to successfully treat Athlete's Foot in the past has been due largely to the fact that these germs hibernate in the pores of the shoes. Salves and liquids applied only to the feet DO NOT PENE. draft THE PORES OF THE SHOES.

Medical Science has recently de-
