

THE BALLINGER LEDGER

VOLUME 54.

BALLINGER, TEXAS, THURSDAY, FEBRUARY 14, 1935.

NUMBER 23

C. of C. Will Sponsor 4-H Club Stock Show

The board of directors of the Ballinger Chamber of Commerce held its first business meeting of 1935 Tuesday morning, with all the members present. President W. O. Wallace asked for a report on the work done or contemplated by each committee.

H. W. Lynn, chairman of the agriculture and livestock committee, reported on the feeder movement by 4-H club boys of the county and outlined a plan for an exhibition of their animals here before they are entered in the fat stock show at San Angelo. The directors voted to sponsor such a show and appropriated \$20 to be paid in prizes.

Will H. Scott, introduced by the committee chairman, talked on rural rehabilitation in this county and invited the cooperation of the directors. Mr. Scott is the new supervisor for this district, in which a number of new houses are being constructed for farm-tenants.

J. D. Motley made a short talk on the progress of building low water dams in the county.

E. Shepperd, chairman of the civic committee, advanced a plan to landscape and beautify the Santa Fe right-of-way adjoining the new drainage line, and the proposal received the full support of the directorate.

The directors voted to go on record opposing the raising of truck load limits in Texas and to hold loads to 7,000 pounds. It also was voted to send a delegation to Austin this week to appear before the legislature's transportation committee to express disapproval of a bill which would double the weight of the load.

Secretary J. D. Motley was instructed to write a letter to George M. Garrett, expressing appreciation of the chamber for the work done here during the past seven years while he served as resident state highway engineer. Copies of the letter were also ordered sent to the state highway engineer and the Lubbock Chamber of Commerce.

R. W. Earnshaw, chairman of the budget committee, reported that the organization's income would be increased March 1 by at least \$100.

Scholastic Census Of This County To Begin March 1

Supplies were received at the office of the county superintendent this week for taking the scholastic census of Runnels county for the school year of 1935-36. These supplies are sent the various counties by the state department of education about this time each year. Enumerations are to begin about March 1.

It is vitally important that every child of scholastic age be listed in this report for it means an apportionment to the county by the state of approximately \$16.50 for each child. It does not matter whether the child is enrolled in any school or not if he is of scholastic age, between 6 and 17 years, inclusive. In some cases, perhaps the boy or girl is within the age limit and attending college somewhere, but that does not matter. The county gets the benefit of this child's residence in this county.

The census will be taken by persons in each community who will probably be appointed or elected by the board of trustees of each district.

During the school year 1934-35, 6,084 scholastics were listed in the census report, bringing revenue of \$39,546 to Runnels county.

A news report from Austin last week stated that checks were being mailed out for \$3 per capita of this year's apportionment of \$16.50. The annual stipend is usually made in several payments. The county superintendent had not received a check for this county when interviewed.

Bill Moore, who has been ill at his home in Wilke Terrace for about a week, is reported to be greatly improved.

Mr. and Mrs. J. N. Nutt left Thursday morning for Santa Anna, where Mrs. Nutt will remain for some time in a hospital for treatment.

Grim Aftermath of Great Texas Blizzard

Marshes and beaches along the Gulf of Mexico were converted into bleak cemeteries when a howling blizzard raged out of the north, and swept Texas' vast coastal grazing ground. Carcasses of 50,000 cattle, which had huddled together vainly for warmth, littered the district. Cattlemen estimated the loss at more than \$1,000,000.

Teachers Required To Have Six Hours' Physical Education

Officials in charge of the physical education course for teachers of Runnels county stated this week that many teachers in the county are not taking advantage of the Monday night classes.

It is a state requirement for all teachers in state public school districts to have six hours of credit in physical education before being signed up to teach in any state school system next September.

These classes are being held every Monday night from 7 to 9:30 at the Ballinger high school building under the supervision of an instructor from Hardin-Simmons University, Abilene.

The instructor wishes to call to the attention of the rural school teachers the fact that with the credit secured in the course being offered here and correspondence courses from Hardin-Simmons they can get the required amount of credit by the time school starts next September.

Congressman South Opposes Townsend Pension Proposal

Congressman Charles L. South of the 21st district has taken a very definite stand on the Townsend old age pension plan. A letter to friends at Coleman who are fostering the plan there explains in detail his frank stand against the measure and his reasons for this position.

After expressing opposition to the Townsend plan, but advocating a reasonable measure, Congressman South wrote: "I could not permit myself to mislead my friends in any such manner. As I expressed to one of our friends in Coleman, it would be on a par with a father leading his small son to believe that he would receive a new red bicycle for a Christmas present when the father well knew that he would not be able to receive more than a twenty-five cent toy train. The child would be disappointed and the father would be a criminal."

"I do not believe the Townsend plan is at all reasonable and do not believe it stands any chance in the world to pass," Congressman South wrote. "The money required

County Receives General Rains Putting Streams Up

F. & M. Bank Made County Depository; Engineer Retained

The Runnels county commissioners' court was in session here Tuesday, all the members being present for the regular meeting.

The Farmers & Merchants State Bank of Ballinger was selected as the county depository for the next two years and the transfer of county funds to this bank will be made within the next 60 days. For several years the Winters State Bank has been the successful bidder for county funds.

The commissioners voted to retain Sam Davis as county engineer for another month and he will spend much of his time making surveys and drawing plans for low water dams. He has been serving in this capacity recently and there are still numerous applications on file for dams that have not been surveyed.

The purchase of a tractor was authorized for the Wingate precinct and will be used on road work. Other business coming before the court this week was only routine, including checking bills and authorizing payments.

"MURDERED" MAN RETURNS

LISBON, Feb. 13.—Disappearing thirty years ago from Boira Baixa, Portugal, after paying a farmer \$250 for cattle, a man recently strolled back into the village and cleared up a murder mystery. After the disappearance the farmer who had received the money was arrested and tried for the murder of the missing man. He was acquitted, but he and his family were under suspicion for nearly a third of a century. The prodigal said he left merely to get a change of air, and had settled on a farm in the Alamojo.

Six-ply black cardboard only 10c a sheet. Ballinger Printing Co.

Rainfall in Runnels county for February is one of the heaviest reported in the past 40 years. Only six times in this 40-year period has the precipitation of last week and this been equalled in this section. The rainfall at some points in the county ranged from 3.42 at Ballinger to more than 5 inches. This fell over a period long enough that the ground was wet deep and will provide a good "season" for planting. Small grain that was still alive and some that had been drilled in and was not up, is doing fine and with suitable growing weather, will soon produce good grazing.

Practically all streams in Runnels county were at flood stage Friday and tanks and lakes with the exception of the Winters city lake have been reported filled. The Ballinger water reservoir dam elevation was completed last Thursday and Friday afternoon the flood had filled the lake and was running over the new spillway. The Ballinger Country Club lake, at the lowest stage it had been in years, was filled Friday afternoon and water ran around the spillway. At Winters several feet were caught in the lake and a pump was installed on Bluff Creek to force a 16-inch stream into the lake in an effort to fill it while the creek was up.

Following the rains Wednesday and Friday light showers fell Saturday and a slow drizzle came down nearly all day Sunday and Tuesday. The government gauge at the E. M. Eubank home here registered three-tenths of an inch Sunday and about the same Tuesday.

Word was received here Thursday that Joe Neff, of Dallas, former Ballinger citizen, is very low. Mr. Neff left here when his health failed and was better for a while but took a turn for the worse Christmas eve.

A. P. Rowland, of Brownwood, general superintendent of the Community Gas Company in this district, attended to business here Wednesday.

Poll Tax Payments Slump; Other Collections Normal

Landlord-Tenant Ruling is Given On '35 Contract

County agents in cotton producing counties have been puzzled as to how to interpret the section of the 1935 cotton contract relating to retaining tenants. The first definite ruling on this matter was released this week to all county agents, in which it was stated that there is nothing to prevent changing tenants but that the same number must be kept.

A copy of a telegram from Washington to A. L. Smith, cotton specialist at College Station, sent here this week, says: "The accepted interpretation of section seven of the contract and that under which we have operated and which is to the effect that landlords shall in good faith endeavor to keep the same number of tenants on their farms, but not necessarily the same identical tenants still stands, and there will be no change in this interpretation."

A letter received from the cotton production section relative to the above ruling follows:

"There is nothing in the cotton reduction contract from preventing a landlord from renting the land to another tenant in 1935 or to prevent the tenant from renting land from another landlord in 1935, provided the tenant had only a one-year lease in 1934. If a change is made the landlord, however, must maintain the same number of tenants and these tenants must have the same status as in 1934. In other words, it would be a violation of the contract for him to change from managing-share tenants to share-croppers or from share-croppers to day hands in order to secure for himself a greater share of the benefit payments."

County Agent Elmo V. Cook has been seeking this ruling for some time as it has been a question asked in all farmers' meetings held in the county lately and one which could not be answered as no direct ruling had been given.

Rev. and Mrs. E. W. McLaurin and little son returned Wednesday from Marshall, where they had been for the past two weeks visiting relatives. Rev. McLaurin said plenty of rain fell in that section and many people were ill with colds and light cases of flu.

Patronize our advertisers.

Payment of poll taxes in Runnels county decreased 1,519 this year over last. County Tax Collector W. A. Forgy completed a tabulation of receipts issued Monday and announced that 2,977 polls were paid for this year against 4,496 last year.

The collection of county and state taxes also showed a slight decrease this year, a little more than 75 per cent being collected to the last day in January. Last year total collections were approximately 80 per cent. Mr. Forgy stated that there were less taxes paid the last few days of January this year than in most previous years.

The city collector reported a better percentage and about the same rate as last year—80 per cent of the taxes being paid before the delinquent date.

A. F. Brock, collector for the Ballinger independent school district, stated that tax payments at his office were a little more than 75 per cent of the entire rolls or about the same as in 1934.

All three collecting offices here announced that payments of delinquent taxes were much heavier this year than for the past several years.

The county collector's office has begun the issuance of licenses for automobiles, trucks, commercial vehicles and trailers, and during the remainder of February and all of March will issue number plates.

COOK ATTENDING MEETING CALLED BY DISTRICT AGENT

County Agent Elmo V. Cook went to San Angelo this (Thursday) morning to attend a conference called by T. B. Wood, district agent. Four similar conferences are scheduled for this section of Texas to discuss the new plan for signing up cotton acreage reduction for 1935. This work will get underway soon after all information is given the county agents.

The conferences called by the district agent are for county agents only and they will hold meetings later to explain the plan to the county and community committees.

As soon as contracts are available the full information required will be given publicity.

Time Extended for Leasing Land on Rehabilitation Plan

Will H. Scott, district rehabilitation supervisor, received word Monday morning that no other leases could be made on the 1935 program. Tuesday morning he was notified that Runnels county would remain "open" for some time yet, and to go ahead and place as many tenants as possible. Rehabilitation was continued in this county after letters had been sent to Austin stating that a crop could be made in this county for at least two months yet.

Mr. Scott declared he was willing to go day and night to try to secure places for worthy people who wanted to get off relief rolls and become independent by making their own living. The supervisor stated that the main thing holding up the program in this county was leases on land.

Landowners who are willing to set aside 50 to 60 acres, provide a small house and with water available, can lease this land to the government, receiving pay per acre figured on AAA contracts. The payments are made in advance and leases can be taken from 1 to 5 years, but the government must have the option of buying. The landowner may fix the price, however.

The landowner is guaranteed a good tenant who will be satisfactory to him as a farmer, neighbor and also to the community at large. The house is to be kept in good repair and not abused in any way.

Worthy tenants are assigned to these tracts, furnished teams, tools, and financed through the crop year. The government will even furnish chickens, hogs and other domestic animals necessary to help the family make a living. So far there are plenty of good tenants wanting places but it has been difficult to secure leases. Some fifteen or twenty houses are being repaired and made ready for living quarters at present and families will occupy them soon.

Mr. Scott stated Tuesday that he had no idea how long leasing would be permitted in this county as the period for making a crop in 1935 is abbreviated. He requests that any landowner who has spare land he is interested in receiving cash rent for to get in touch with him at once and he will be glad to give information on the plan.

Raby Padgett is associated with Mr. Scott in this work and both men have been going all week in an effort to line up more tracts.

Garrett Promoted to Place As Divisional Engineer

George M. Garrett, resident state highway engineer here for the past seven years, has been transferred to Lubbock, where he will be divisional engineer for that section of the state, supervising work in 19 counties. Mr. and Mrs. Garrett and son, George Lee, will move to Lubbock the latter part of this month, in time for Mr. Garrett to begin his new duties March 1.

On Gilbert, state highway engineer, confirmed the appointment of Mr. Garrett the past week-end and will announce within a few days his successor as resident engineer at Ballinger.

Mr. Garrett came to Ballinger in October, 1923, soon after the southern portion of Runnels county voted bonds to build highways. He established an office there and soon had plans ready for the first construction on highway No. 4 north of Hatchel to Ballinger. Since then he and his staff have supervised an enormous amount of road construction in Runnels, Concho and Coleman counties. At one time Mr. Garrett had 15 contracted jobs underway simultaneously, which was practically equal to highway work being done in any division in the state.

Since 1923 the local office has surveyed and built many miles of hard-surfaced roads. At this time several contracts are underway and much relief highway work is being done in Runnels and Concho counties.

A check-up of Mr. Garrett's accomplishments during the past seven years shows the following:

Runnels county—63 miles of grading, drainage structures and surfacing; 21 miles located, and grading and drainage work commenced on relief projects; plans are finished for construction from a point 6 miles south of Winters which will include some new right-of-way, grading, drainage and surfacing to connect with permanent pavement at Winters and with concrete paving one mile north of Hatchel, two large bridges have been built, one across the Colorado River on highway 4, and the other across Elm Creek on highway 23. In addition a number of other large structures have been constructed on principal routes in this county.

Concho county—63 miles of surfacing, grading and drainage structures, 37 miles of surfacing; 14 miles caliche base course under construction on highway 4; 16 miles of grading and drainage structures under construction on highway 9, one large concrete bridge completed over Concho River near Paint Rock; and numerous other structures along two state highways.

Coleman county—21 miles of grading and drainage structures. Nolan and Coke counties—17 miles located on highways 109 and 158.

While a citizen of Ballinger Mr. Garrett has assisted in many local movements and has taken part in the social, civic and religious life of the city. The family has many friends here who regret to see them move but are glad to learn of Mr. Garrett's promotion.

Mr. Garrett will be on the go the remainder of this month, having to visit Lubbock once and attend several conferences at Austin as well as dispose of the home here and prepare to move.

Cemented Soles Gain 46 Million In Past 5 Years

A few years ago the first cemented shoes for women were manufactured. In 1929 two million pairs were sold. In 1934 forty-eight million pairs were sold. These figures reveal that nearly 37 per cent of all women's shoes made today are cemented. That means that the shoe repairer must have his shop equipped to repair shoes made in this way.

L. B. Rudder Shoe Shop has the most modern equipment for cementing soles for ladies' shoes. This is no experiment as Mr. Rudder has used this process successfully for five years.

GERMAN MANUFACTURERS PLAN "PEOPLE'S PIANO"

BERLIN, Feb. 13.—Germany is to have a "people's piano," which will suit every taste and every pocketbook.

The Berlin Chamber of Commerce, which a year ago established the German "Piano Front," has appointed a special commission to study conditions for the production of such an instrument. The associations of the German piano industry will cooperate, and the Federal Music Chamber, has endorsed the movement. The chief aim of the commission is to provide work through cooperative production of a standardized instrument at a minimum cost.

GIRL EXPERT BUILDER
EPSOM, England, February 13.—Eighteen-year-old Eve Dristow, of Epsom, is an expert at carpentry, painting, plastering, paper-hanging and brick-laying.

All Rural Schools Will Teach Music Under New Plan

A movement has been launched by State Superintendent L. A. Woods for teaching music in every rural school in Texas. At recent meetings of teachers' organizations the plan was explained and a number of county superintendents will soon begin to push the movement in schools under their supervision. Cooperating with the state superintendent, County Superintendent E. C. Grindstaff plans in the near future to visit the schools of this county and give demonstrations with a phonograph and records of the system to be used.

As a reward for immediately beginning the course the state superintendent will assemble a chorus of 100,000 students to sing in a feature number on the Texas Centennial program.

The course arranged is to be taught to three groups: primary, junior and senior. The three groups include pupils from the first to the

eight grade, inclusive.

The cost for records required for the course totals only \$6.38. All schools do not have phonographs but school officials believe there are instruments in every neighborhood which may be obtained for this purpose at little or no cost.

Mr. Grindstaff said Tuesday that he intended to try to present a chorus of pupils at the seventh grade graduation exercises here about the first of June. Teachers will be given every encouragement possible to teach music and where there is a Parent-Teacher association in the district it will be requested to help secure the necessary equipment.

Echoes From the Rain

J. S. Reese, who lives in the Blanton community, was in town Monday and stated that he had received more than five inches of rain this month and for the first time in months there was no dry soil to be found on his place. Recently Mr. Reese enlarged a dam on a stock tank, making it longer and higher, and Friday caught the new lake full of water. He also said the way the drops fell there were no washed places on the farms in his section.

W. S. Caudle, of the Hatchel community, stated Saturday that he had received about four inches of rain, that the ground was wet deep and all water holes filled. Mr. Caudle said that it was one of the best February rains he could remember since coming to this part of Texas.

A number of people reported hail Friday but the areas covered by hail were very small, adjoining neighbors received none at all. Hail fell shortly after noon Friday in the north edge of Ballinger but did not extend to the business district. The stones were small and amounted to little more than a few minutes of sleet.

No damage has been reported to livestock and poultry from the rains. The temperature did not go very low and livestock stood the change in weather nicely.

Carpenters were in demand here for several days following the first rain in months last Wednesday. Many roofs leaked badly for a while but after the shingles were wet through the boards swelled and stopped the dripping. The long dry period was responsible for many imperfect roofs.

The new elevation on the lower dam here proved to be exactly as the engineer said it would be and backed the water in the lower lake to a level with the concrete causeway. City officials were afraid it might cause the water to be too deep for traffic on the causeway, but such was not the case.

Fishermen are feeling good and predict that since all streams have been washed out spring fishing will be good. The Colorado River had about a twelve-foot rise above Elm Creek and got higher below the mouth of the creek.

WHY GET UP NIGHTS? This 25c Test Free If It Fails

Use this bladder laxative to drive out impurities and excess acids which cause the irregularity that wakes you up. Get Buchu leaves, Juniper oil, etc., in little green tablets called BU-KETS. Works on the bladder similar to castor oil on the bowels. Poorly acting bladder can cause scanty flow, frequent desire, burning or backache. In four days if not pleased, any druggist will refund your 25c. Get your regular sleep and feel "full of pep." City Drug Store.

Mr. and Mrs. E. M. Lynn visited friends and relatives at San Angelo Sunday.

Ballinger Students Make Fine Records In College Studies

Ballinger students attending college have a habit of making exceptional records and on many occasions have been complimented for their foundation work. Last week a very complimentary letter was received by Supt. H. C. Lyon from G. A. Brooks, registrar of Howard Payne College, Brownwood, relative to the students received there from the Ballinger high school.

During the past semester, two local students were included on the honor roll at Howard Payne and many others in other colleges are doing equally as well. Not only do Ballinger young people excel in their studies but the city has been well represented in athletics and practically every college band in the country has members who received their musical foundation here.

Following is the letter received from Dean Brooks: "Supt. H. C. Lyon, Ballinger Public Schools, Ballinger, Texas. Dear Mr. Lyon:

"Enclosed is a copy of the Howard Payne honor roll for the fall semester, recently closed. On it are the names of two students, Miss Juanita Huddleston and Miss Mildred Elkins, who are graduates of your high school.

"We wish to express our appreciation of such students as these two, and to extend our most earnest congratulations to you and your school force who turn out such worthy products. We realize that a great deal of credit is due the school which so teaches and works that scholarship is encouraged in its students.

"Howard Payne would be glad to have all honor and recognition and publicity accorded these two students in your school, your community, and through your local papers. We feel such recognition is highly deserved, and it will tend to encourage these two, and other prospective college students, to strive toward such honor and recognition.

"Please accept our thanks and congratulations for such splendid students as these two, and a host of other good ones, which have come from Ballinger."

Relieves Worst Cough In Jig Time

One dose of Broncholine Emulsion may fix that cough of yours. Gives INSTANT RELIEF! Another dose or two an hour apart will probably end it for good and all. If you have to take more than half a bottle to get rid of it, you can have your money back. Weeks Drug Store and all good druggists guarantee it. Contains no dope and won't upset your stomach.

Intense cold aggravated the plight of 25,000 left homeless by the rising waters.

Ozark Mother Shocked that Her Family Has Eaten Nearly Half Mile of Sausage

EVERTON, Mo., Feb. 13.—In her little house clinging to the side of an Ozark hill, Grandma Martha Lackton still is gasping at a stupendous discovery she has just made.

"Oh, my heart alive," she exclaimed the other day after a visitor had been chatting with her, "you don't actually mean that I've made and smoked and eaten nearly half a mile of home made sausage? My heart alive! Folk's think we're gluttons if you tell anybody such a thing."

But the fact remains, Grandma Lackton, 80 years old, and her folks have consumed nearly half a mile of sausage rolls three inches thick in the past sixty years—that is, they have eaten all of it except what she gave away to the neighbors, to movers who used to camp in the hollow below the house and to needy persons wherever she could find them.

It was this way, ever since she and "Grandpap" Lackton were married three score years ago they have made a great amount of sausage at butchering time and always they have stuffed it into three-inch-wide cloth bags, 18 inches long. They never put up less than twenty-five of these bags, and of course, even Grand-

Mrs. A. Schnable, of Shawnee, Oklahoma, is the guest of Mr. and Mrs. J. A. Schnable.

Texas Livestock Shipments Show Seasonal Decline

AUSTIN, February 13.—The usual seasonal decline in Texas livestock shipments occurred in December, but the total was still far in excess of that a year ago, according to the University of Texas bureau of business research. "Combined shipments of the four classes of livestock—cattle, calves, hogs, and sheep—totalled 4,365 cars to the Fort Worth stock yards and interstate points, an increase of 56 per cent over December, 1933," the bureau's report said. "The increase was confined mainly to cattle, of which shipments totaled 3,154 cars, an increase of 141 per cent over the previous December.

"This was the sixth consecutive month in which cattle shipments greatly exceeded those of the comparable period the year previous and marked the culmination of the government's emergency cattle buying program. Shipments of cattle continued unusually large in the Plains country, the Trans-Pecos, and the Edwards Plateau. Shipments of sheep also exceeded those of a year ago in the High Plains and Trans-Pecos country, but were less than one-fourth as great in the Edwards Plateau district.

"Markets receiving the bulk of the December cattle shipments were Fort Worth, East St. Louis, and Oklahoma City. In addition, unusually large shipments were made to California, Kansas and Oklahoma. The latter state also received abnormally heavy shipments of Texas sheep. For the entire year 1934 shipments of all classes of livestock to Fort Worth and interstate points totaled 76,395 cars, an increase of nearly 45 per cent over the previous year.

"These huge marketings have placed the livestock industry of the state in the best statistical position in a number of years, but the full benefit of the situation will not be experienced until feed and forage conditions are improved. The rate of improvement, moreover, will vary in the different sections of the state because of the marked differences in drought damage and consequent depletion of herds and flocks. Livestock prices already have risen substantially with indications pointing to still further increases."

Dr. A. S. Love returned this week from Temple, where he went to attend to business.

Neal Nutt went to Christoval Sunday to visit his wife, who is receiving treatment in a hospital.

EMERGENCY FEED LOAN LIMIT IS RAISED

COLLEGE STATION, Feb. 13.—In instances where the applicant has no feed on hand and the general weather conditions have been severe, the regional emergency crop and feed loan offices serving the primary drought areas have been authorized to allow up to \$4.50 a head a month to purchase feed for farm cattle, \$6 for farm work stock, and \$2 for range cattle according to information received by the extension service from the farm credit administration. Otherwise maximum base rates now in effect will be continued.

"The increased amounts will apply only in exceptional cases where the applicant's feed has been exhausted and weather conditions have been severe," Norman Monaghan of the emergency crop and feed loan division of the farm credit administration said. "Each

application for increased allowance will be considered on its own merits and must be accompanied by detailed information as to the feed on hand and weather conditions."

Applications for loans may be made to the county crop and feed loan committee serving the applicant's county.

SAILS 2,000,000 MILES

BERLIN, Feb. 13.—On his sixtieth birthday, Commodore Leopold Ziegenbein, commander of the liner Bremen, completed 2,010,000 nautical miles, equivalent to nearly ninety-one times around the world, of travel on the sea. He has spent forty-four years on sail and steam boats. When the Bremen arrived at Germany from New York recently, it completed its two hundredth voyage across the North Atlantic.

Three Simple Steps to Ease a Sore Throat in Three Minutes

1. Crush and stir 3 BAYER Aspirin Tablets in 1/2 glass of water.

2. Gargle Thoroughly—three, four, five times a day, allowing a little to trickle down your throat. Do this twice. Do not rinse mouth.

3. If you have a cold, take 2 BAYER Aspirin Tablets. Drink full glass of water. Repeat if necessary, following directions in package.

Modern Scientific Method Wonderfully Easy

REMEMBER PICTURES HERE

Here's a safe, modern and effective way to relieve sore throat. A way that eases the pain, rawness and irritation in as little as two or three minutes. Many doctors advise it and millions are following this way. Try it. All you do is crush and stir 3 BAYER Aspirin Tablets in 1/2 glass of water and gargle with it twice—as pictured here. (If you have signs of a cold, take BAYER Aspirin and drink plenty of water.)

Get real BAYER Aspirin Tablets for this purpose. They disintegrate quickly and completely, making a gargle without irritating particles. BAYER Aspirin prices have been decisively reduced, so there's no point now in accepting other than the real Bayer article you want.

"No Hot Water I forgot to light the heater"

National Housing Act loans take in A.G.A. approved gas appliances. Ask your gas appliance dealer or gas company for particulars.

ISN'T it annoying to find that you've forgotten to light the water heater just when you're set for a hot bath or ready to wash the dishes? Maybe this is why so many homes are modernizing—putting in automatic gas heaters that end for many years all water heating troubles.

With one of these automatic gas heaters you have an abundant hot water supply always on tap! Its insulated tank is so sturdily built, and the temperature control so well designed that you can count on its economy of operation from first to last. It is the most efficient water heating system you can have.

Switch your system to this modern way now! Our February sale prices and terms make it the opportune time!

A Doctor Knows!

And doctors use a liquid laxative

There's a very good reason why doctors and hospitals have always used liquid laxatives! You'd use a liquid, too, if you knew how much better it makes you feel.

A liquid laxative can always be taken in the right amount. You can gradually reduce the dose. Reduced dosage is the secret of real and safe relief from constipation.

Just ask your own doctor about this. Ask your druggist how popular liquid laxatives have become. The right liquid laxative gives the right kind of help, and the right amount of help. When the dose is repeated, instead of more each time, you take less. Until the bowels are moving regularly and thoroughly without any help at all.

People who have experienced this comfort, never return to any form of help that can't be regulated! The

Leave the rest to nature

liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara, and these are natural laxatives, that form no habit—even in children. Its action is gentle, but sure. It will relieve a condition of biliousness or sluggishness without upset. It's the ideal family laxative because it's a family doctor's prescription, and perfectly safe and effective for family use.

If you are seeking something that will relieve your occasional upsets safely and comfortably, try Syrup Pepsin. Give regulated doses until Nature restores regularity.

At all drug stores

Rural

BETHEL BEAMS

Everyone has a smile since the recent good rains. All creeks and branches have been out of banks and cisterns running over. So a good season is in the ground for early planting. Also grain will be benefited where it wasn't frozen out.

On account of the rainy, disagreeable weather Sunday there were no Sunday school services.

Albert Ransbarger has recently purchased a nice herd of sheep from "Nig" McCarver, of Ballinger, and has also leased a farm and pasture land near his station on the Ballinger-Paint Rock highway.

Miss Nona Diltz and members of her speech arts class of Coleman presented a 3-act play here Saturday night, February 2, before a large audience. Proceeds above expenses of the trip were donated to the Methodist church here, which was very much appreciated.

Miss Iola Clayton entertained the Bethel faculty and a few other friends with a social in her home near Benoit Tuesday night of last week. A delicious refreshment plate was served and enjoyed by all. Those attending from Bethel were: Mr. and Mrs. John Q. Adams, Mr. and Mrs. Jean Christman, Misses Elsie Gilkerson, Pearl Holton, Mr. and Mrs. Claude Simmons, Clyde Simmons and Walter Crockett.

Mr. and Mrs. Hedrick Sheburne have been confined to their rooms the past few days with an attack of flu.

Mr. and Mrs. John Q. Adams and family had as their guests Sunday J. M. Sheburne, Mr. and Mrs. Kemper Sheburne and family, Misses Sallie and Annie Sheburne. Members of the Methodist church met Thursday for an all-day working on installing a carbide light plant at the church which has been donated by T. A. Crockett.

Members of the Epworth League were entertained with a Valentine social Saturday night in the home of Mr. and Mrs. Vernon Webb. This affair was the result of a contest between the blues and the reds, the reds winning. A refreshment plate of sandwiches, heart-shaped cookies and cocoa was passed to thirty-four guests. A very enjoyable time was reported by all.

Mrs. Essa Howell spent Wednesday night of last week in Santa Anna, where she took her little daughter, Betty Joe, for a tonsillitis operation, returning home Thursday.

Mr. and Mrs. David Duke visited in the home of Mr. and Mrs. Jess Jones, of Ballinger, Friday night.

Mr. and Mrs. Bill Wheatly and family, of Maverick, visited relatives at Dry Ridge the past weekend.

Mr. and Mrs. John Bigby have received an announcement of the arrival of a new baby daughter in the home of Mr. and Mrs. Marion Hays, of O'Donnell, on February 2. Mr. and Mrs. Mead McShan and family, Mrs. W. P. McShan, and Mr. and Mrs. Tom Crockett and family were guests in the home of Mr. and Mrs. Claude Simmons Sunday.

Happy Home Makers Club Meets. The Bethel Happy Home Makers Club met Thursday afternoon at the Methodist church for its regular meeting with 18 members present. The president, Mrs. H. Sheburne being absent, the vice-president, Mrs. W. A. Hall, presided. After the business session Mrs. Lura Hollingsworth gave a dress pattern drafting and cutting demonstration.

The AAA program will be rendered at the next meeting. Mrs. J. Q. Adams, Mrs. W. A. Hall and Mrs. Vernon Webb will be on the program. Also dress patterns will be made for those who want them. The club adjourned to meet February 21 in the home of Mrs. John Q. Adams, beginning at 1:30 p. m.

Those present were: Mmes. Lura Hollingsworth, W. A. Hall, J. Q. Adams, John Batta, Mertie Walker, Vernon Webb, Jess Tullis, Chatman, Tom Crockett, Claude Simmons, Lewis Loika, and Jean Christman; Misses Winnie Dierschke, Mary Emma Hall, Mozelle Whitworth, Elsie Gilkerson, Iola Clayton, and Pearl Holton. Hot chocolate and nut cake was passed to all present.

CREWS CHATTER

The Crews community has been wonderfully blessed with splendid rains the past few days. Tanks, creeks and cisterns have a bountiful supply and rain continues to fall at intervals.

Mrs. Jesse Wood is reported slightly improved. She has been critically ill with pneumonia.

Friends here have received an announcement of a baby boy, born to Mr. and Mrs. Shirley Hall, of the Dale community, Sunday, February 3. He bears the name Shirley Frank. Mrs. Hall will be remembered here as Miss Frankie Pearce, a former local school teacher.

Mrs. Jim Moss is ill with pneumonia. She is reported better at this writing.

Mr. and Mrs. Quincy Traylor and children, of Merkel, were guests of Mrs. R. T. Lucas and other relatives recently.

Mrs. Pink King returned Saturday from a week's visit with relatives at Sweetwater. She was accompanied home by her son, Lloyd McBeth, and family, who remained until Monday visiting other relatives.

Mrs. Dewey Blackmon, who has been ill for the past four weeks, underwent a major operation at the Halley & Love Sanitarium Monday morning. She is reported in a critical condition.

Bobbie, the little son of Mr. and Mrs. E. L. King, is reported ill at this writing.

Mr. and Mrs. Walter Schwartz are the proud parents of a fine girl, born February 3.

HERRING HOURGLASS

The farmers are very happy over the good rains they have received the last few days. Small grain is beginning to brighten up and also grain which some of the farmers thought was killed in the cold spell which occurred a week or so ago.

Mrs. Sude Coffee, accompanied by Misses Ozella and Mona Avert, spent Sunday in Mrs. Coffee's home at Orient.

Mr. and Mrs. L. A. Faubion were visitors in the S. H. Miller home Sunday.

Misses Willie and Myrtle Ruth Hale were guests in the A. S. Alcorn home Thursday night.

Carl Eugene Faubion spent Sunday with Lawton Brevard.

Mr. and Mrs. Steve Hale, of Glen Cove, spent Sunday night in the W. A. Hale home.

S. J. Brevard spent Saturday night with W. A. Hale.

Myrtle Ruth Hale spent Wednesday with Mona Avert.

Mr. and Mrs. A. B. Alcorn were guests of Mrs. T. C. Payne, of Crocks, Sunday afternoon.

Mr. and Mrs. John Rosford were dinner guests in the W. L. Alcorn home Monday.

Mr. and Mrs. Wesley Fuller were visitors of Mr. and Mrs. J. J. Fuller Sunday.

There were quite a few young people who enjoyed a few hours in the J. P. Brevard home Monday night playing bridge.

We are glad to report that Mrs. Clark and Naomi Brevard are improving, but sorry to report that Mrs. Norma Woods is now ill with pneumonia.

BETHEL 4-H GIRLS' CLUB

The Bethel 4-H club girls held their regular meeting Thursday, February 7.

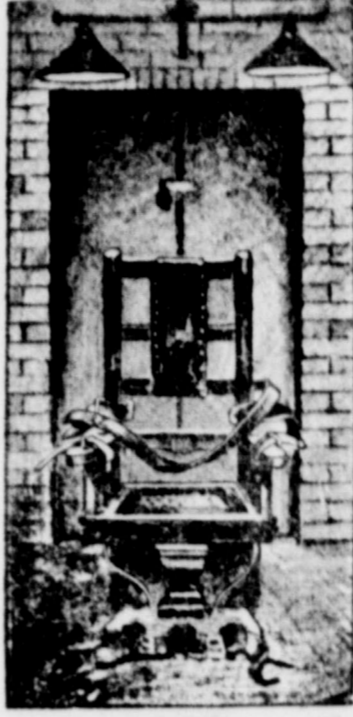

The president called the house to order and the minutes of the previous meeting were read by the secretary. As there was not any business the president asked Mrs. Lura Hollingsworth to take charge. Mrs. Hollingsworth showed us new ways to fix salads and gave each of the members a garden record book.

As there was no further business the club adjourned.

A man whose car had been destroyed by fire went to the insurance company to collect. He was given a claim form to fill out and told that the car would be replaced.

"Oh, is that the way you do business?" he exclaimed. "Then give me back the premium I paid the other day on my wife's policy."

HAUPTMANN SENTENCED TO "CHAIR"

A Hunterdon county, New Jersey, jury of four women and eight men Wednesday night convicted Bruno Richard Hauptmann of first degree murder and Justice Thomas W. Trenchard set the date of his electrocution for the murder of Charles A. Linsbergh, Jr. as March 22. The verdict brought to a close one of the most sensational trials in history, lasting for more than a month. Defense Counsel Edward J. Reilly is preparing to fight for his client's life through the higher courts, the appeals being expected to last for several months.

County Basketball Tournney Begins At Winters Friday

Basketball teams of Runnels county in classes A, B and C will go to Winters Friday morning to begin the interscholastic league tournament which will determine the county champion. Entries were in last week and it was reported that the number would be reduced as a number of schools have no teams this year.

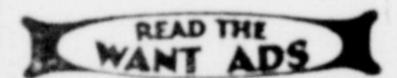

Winters and Miles will have the only entries in class A as the Ballinger school has no place for a team to practice. The winner in the one class A game will play the winner of class B for the championship.

The Crews quintet is rated a big favorite in the tournney and is expected to represent the county in the district meet at San Angelo. This team won the Reagan county invitation tournament and since then has hung up a number of victories over other Runnels county clubs.

Games will be played in the Winters gymnasium and the schedule arranged calls for all games to be completed some time Saturday. Bob Fulkerson, athletic director for the county meet, who will be in charge of the tournament, has secured officials for all the games.

The storm was increasing in violence and some of the deck fittings had already been swept overboard when the captain decided to send up a signal of distress. But hardly had the rocket burst over the ship when a solemn-faced passenger stepped on to the bridge.

"Captain," he said, "I'd be the last man on earth to cast a damper on anyone, but it seems to me that this is no time for letting off fireworks."

Ballinger

time. Most of the 1934 team will graduate this year and hopes for 1935 will hinge on new men who must be taught the game from the ground up before the scheduled opening next September.

D. R. SMITH RETURNS FROM EXTENDED VISIT

D. R. Smith has just returned from several weeks' visit in Oklahoma. Mr. Smith says he greatly enjoyed the stay with his brothers and sisters. He was elated over the abundant rainfall in this section and expressed the belief that this part of Texas and particularly Runnels county is well on the way to prosperity.

Mr. Smith's friends will be glad to know that he has sufficiently regained his health that he will be in position to greet them at his Red & White store here.

M. B. WEBB IN CHARGE OF HIGHWAY GULF STATION

M. B. Webb has taken charge of the Gulf service station on the Coleman highway one block east of Broadway and will serve the public with all Gulf products in the future. Mr. Webb, who has been associated with local grocery stores for the past several years, invites his friends to visit him at his new business location.

Be wise and advertise.

Petitioners Ask Election at Once On Consolidation

Petitions were received here Wednesday afternoon from school districts Nos. 2, 29 and 49. Crews, Harmony and Eagle Branch, asking that an election be called at the earliest possible date in the three districts to vote on whether the patrons wanted to consolidate the districts for high school purposes only. The petitions carried the required number of signers who are qualified voters. The date for the election will be set at once, it was said at the court house, and the proper papers issued for posting in each district.

If the proposal receives a majority vote in the first election another election will be held to authorize the issuance of bonds for the building and such other costs necessary. Before the second election could be held it would be necessary to get construction costs, choose the site, and allow in the bond issue for these costs.

Each district would retain its present school property and operate common schools in the buildings in which seven grades would be taught. The new centrally located school would be for

high school courses only and would have an auditorium and a gymnasium in addition to the regular classrooms.

There are about 100 scholastics in the three districts who are enrolled in high schools. They would be transported to the central high school by busses.

County Superintendent E. C. Grindstaff and County Judge Paul Trimmer are conferring on the petitions and will set the election date within a few days.

His Valuation

George: "I'm afraid I am not good enough for you."
Mabel: "Well, to tell the truth, I don't think so either, but you're too good for any of the other girls."

LEPER TO REMAIN IN COLONY

SYDNEY, Australia, Feb. 13.—Pronounced cured of leprosy, a man at the Little Bay Lazaret, the leper colony near Sydney, has been granted permission to remain there. He has spent many years during his treatment in the colony and has no friends or home outside. His son and all his friends are undergoing treatment in the Little Bay Lazaret.

For Marking Eggs and Butter—Rubber Stamps, Ballinger Printing Co., will give you 48-hour service.

Whitaker Restocks Field Seed Supply

H. G. Whitaker, general manager of Whitaker Brothers of San Angelo and Ballinger, was here this week attending to the restocking of the seed supply of the local branch. He was accompanied by M. G. Robinson, also of San Angelo, who is general seed man for the company.

Mr. Whitaker stated that the seed purchased by his firm this year is far above the quality of last year's supply and most of it was bought in this vicinity. He said the best seed in the state was produced in the region between San Angelo and Brownwood this year and that only one carload of state certified seed was produced in the state during the past year as compared to several carloads during a normal year. Dietz Brothers, of near Crews in this county, are state certified seed growers and are among the 12 or 14 certified producers in Texas.

The local branch of Whitaker Brothers has a complete line of field and garden seed and is building quite a business in this line. Part of the seed offered for sale by the two stores was bought in Runnels county for as high as \$50 per acre in the field.

Whitaker Brothers claims the largest seed business of any seed house in Texas west of Dallas and has on hand now between 750,000 and 800,000 pounds of field seed. For the past five years this firm has sold more state certified seed than any concern in Texas, which record the management is very proud of.

With prices being advanced on seed, Mr. Whitaker advises farmers to buy for this year's planting soon.

Several Purchase 'Bargain' Watches

And old P. T. Barnum's famous statement, "There is a sucker born every minute" still holds true if the "suckers" in Ballinger are to be classed as examples of the American public.

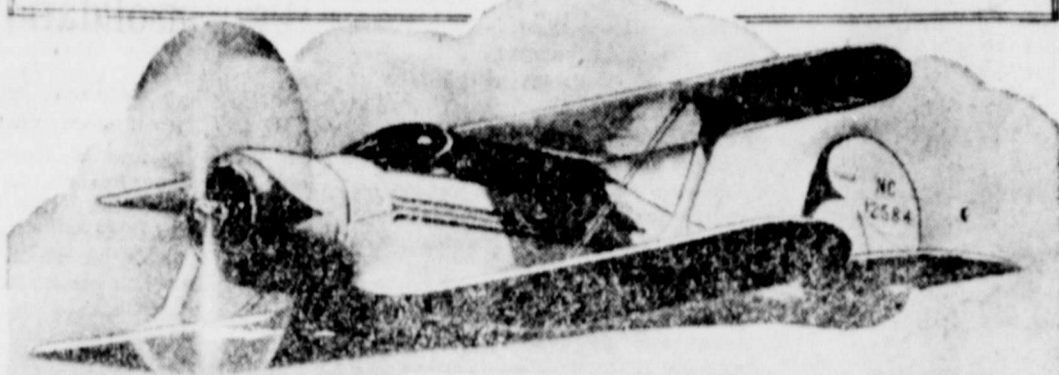

Tuesday two men and a girl visited Ballinger, selling watches which they claimed were Walthams to people who needed timepieces. The watches were sold at "bargain" prices, ranging from \$5 to \$15, or possibly more.

After a thorough investigation it was discovered that the watches were really assembled from old movements and new cases. They made a very good appearance as the cases were made of nickel and chrome plated. The movements were made by P. S. Bartlett, of Waltham, Massachusetts, who has not made any watches in at least 20 years. Evidently the works were purchased by the sales agents in large quantities as there are of course many such movements still in existence, and after being thoroughly cleaned up were placed in new shiny cases with Waltham faces or dials. It is quite true that the watches were manufactured at Waltham, but not by the company which makes the well known Waltham watch.

All of the watches sold were in chrome plated cases which may last a year or two. Chrome plate can be easily identified by its shiny appearance, while silver or white gold usually has a dull finish.

She: "Did you see any as small as the one in the engagement ring you gave me?"

CAMERAGRAPHS

"MUSIC IS A TOUGH TASKMASTER," observes Lawrence Tibbett, baritone star of opera, concert, radio and screen, and this informal shot shows what he means. The camera caught him at home while he looked somewhat fed up with the prospect of mastering a new melody. Tibbett sings over the NBC-WJZ-Blue network Tuesday evenings.

IF YOU HAPPENED TO see this unusual looking ship flying over your home one of these days, you'll know you've seen the latest in modern airplanes. It's a new craft with staggered wings and disappearing landing and tail wheels. It is one of those ships carrying H. L. Faust, and seven other members of the aviation department of the Socoy-Vacuum Oil Company, Inc. on a coast-to-coast air tour of America to introduce the new Aero Model made by the revolutionary Clearasil Process.

IF YOU HAPPENED TO see this unusual looking ship flying over your home one of these days, you'll know you've seen the latest in modern airplanes. It's a new craft with staggered wings and disappearing landing and tail wheels. It is one of those ships carrying H. L. Faust, and seven other members of the aviation department of the Socoy-Vacuum Oil Company, Inc. on a coast-to-coast air tour of America to introduce the new Aero Model made by the revolutionary Clearasil Process.

WHAT OF THE FUTURE? The unblinking eyes of Bruno Richard Hauptmann, seem to ask, as Cameragraphs caught him entering the Flemington courtroom.

WHAT OF THE FUTURE? The unblinking eyes of Bruno Richard Hauptmann, seem to ask, as Cameragraphs caught him entering the Flemington courtroom.

HAVE SOME? Frances Lee Barton cuts herself a piece of cake made in the studio during the broadcast of her General Foods, "Kitchen Party," heard Friday, afternoon 2:30 to 3:00, E. S. T. over NBC WEAF coast-to-coast network.

Alumni Association Will be Organized By Local Students

Supt. H. C. Lyon is arranging for a meeting here May 16 of all graduates of the Ballinger high school. Invitations will be mailed to about 500 or more whose names are on the records of the school since 1915 and graduates of the school prior to that date are being asked to furnish names of their classes as nearly accurate as possible.

The meeting will be held at the Central Hotel where a banquet will be served and immediately afterwards an alumni association will be formed and officers elected. Supt. Lyon thinks about 400 will attend the meeting and hopes that all graduates of the school will join the ex-students' organization.

In recent years the school authorities have observed the need of an alumni association and decided to perfect the organization and have a special day in each commencement program when this organization will assemble for its annual meeting, election of officers and other business. The date for the first meeting is being set one day before the graduation of the 1935 senior class and members of this class will be included in the invitations to the banquet and are eligible for membership in the alumni group.

Any person who graduated from the local high school prior to the

records here and who can supply the office with names of the graduates of any class, is requested to furnish this information to the school authorities. Those graduating before 1915, and who fail to receive a written invitation to the banquet will be welcome, as every graduate is wanted at this meeting.

TWO ITALIAN DIVERS ESTABLISH NEW RECORD

ROME, February 13.—Two Italian divers recently descended 1,181 feet in the Mediterranean, the greatest depth in the water ever attained by men in suits. They wore new diving suits which had been made for the purpose of salvaging a cargo of tungsten and other valuable metals sent to the bottom of the sea in the steamer Glenartney during the World War. The steamer lies 750 feet below the surface, so that the new apparatus should prove suitable for work on her cargo. The Italian ship Briarco is expected to undertake the salvage operations and a lamp of 25,000 candle-power will be used to light the ocean bed, for the farther one descends into the sea the darker it becomes.

Quiggle: "Did you ever cash in on that big block of utility stock you bought?"
Pewitt: "Didn't you see me smoking that cigar yesterday?"
Quiggle: "Yes, I saw you, but what of it?"
Pewitt: "That was it."

Get your Mimeograph Supplies from the Ballinger Printing Co.

The mill foreman came upon two darkies walking slowly up the road single file.

"Say you, why ain't you worthless niggers working?"
"We're working, boss, sho' nuff. We're carrying this plank up to the mill."

"Well, fo' de Lawd's sake, Abe, ef we ain't gone an' forgot de plank."

The "udon" and "soba" (noodle) cart with the vender blowing his horn is a familiar sight in Tokio streets.

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

When we eat too much, our food decays in our bowels. Our friends smell the decay coming out of our mouth and call it bad breath. We feel the poison of this decay all over our body. It makes us bloated, groggy and no good for anything. Well, when we eat too much, our bile doesn't digest it. What is the bile juice? It is the most vital digestive juice in our body. Unless a part of it are flowing from our liver into our bowels every day, our movements get hard and constipated and 1/4 of our food decays in our 28 feet of bowels. This decay sends poison all over our body every six minutes.

When our friends smell our bad breath (that we don't) and we feel like a whipped tomato, don't use a mouthwash or take a laxative. Get at the cause. Take Carter's Little Liver Pills which gently start the flow of your bile juice. But if "something better" is offered you, don't buy it, for it may be a calomel (mercury) pill, which looses teeth, gripes and scalds the system in a nasty way. Ask for Carter's Little Liver Pills by name and get what you ask for—25¢. ©1934, C.M.Co.

Wife: "That was a very beautiful picture of Mrs. Gabber, but there was something about it that was not natural. I wonder what it was?"

Hubby: "She had her mouth shut."

defense is that you were drunk when you kissed this lady. How can you prove that?"
Defendant: "Well, just take a good look at her yourself, Judge."

DOLLAR DAYS

HAS YOUR ADDRESS
CHANGED RECENTLY?

Ledger subscribers are requested to notify the publisher of any change in their addresses promptly.
Under the new postal laws newspapers and periodicals must pay postage due for notices of any change in addresses furnished by the postoffice. Besides, there is always the probability that your paper will be delayed or fail to reach you altogether if you do not give immediate notification when you move.
The best plan for all concerned is send the change of address in advance.

Ballinger citizens can be thankful for a water supply for many months to come. The new extension on the lower Elm Creek dam was finished Wednesday of last week. Friday afternoon the lake filled up and water ran over the spillways. The city has the largest water supply in its history and can go through any ordinary drought without curtailing irrigation or otherwise limiting the use of this necessity.

The rain last Friday proved that the drainage line being constructed here will help greatly. The portion already completed from Twelfth Street to Eighth Street diverted flood water from the northern residential section into the big ditch that leads through the Santa Fe right-of-way to the river, and the business district west of Eighth Street was practically free of water other than that which fell from above. Many people watched the water from the hill pour from the large lateral ditch into the storm sewer. When this project is extended to Fifth Street there will be very little surplus water in the business district after heavy rains.

General rains, plenty of stock water and a fair underground "season" has changed the frowns of Runnels county citizens to smiles. The long waited for moisture finally came just as most people wished, falling slowly with occasional hard showers that put streams to flowing. Farmers say they can begin planning their 1935 crops and plant as soon as it is dry enough. Indications are that a large acreage of small grain, principally oats, will be drilled in at an early date. Practically no damage was reported from the rains even in areas receiving the heaviest downpours. Farm land did not erode, livestock stood the cold damp weather in good shape and everyone is happy.

Runnels county has been somewhat backward in the national rehabilitation program. This is declared one of the strongest planks in the recovery program and one that takes worthy people off relief rolls, establishes them in their own homes, helps them to become self-sustaining again, and engenders the hope that eventually they will make even more than a living. Landowners who are willing to lease land will receive cash payments for the entire period of the contract and the assurance of agreeable tenants. Landlords in some other counties are not able to lease any more land but this county has been left "open" in order that more relief clients can be rehabilitated.

Stomach Gas

One dose of ADLERIKA quickly relieves gas bloating, looseness of bowels, allows you to eat and sleep good. Quick, thorough action yet gentle and entirely safe.

BENOIT GIRLS' 4-H CLUB
REORGANIZED

The Benoit girls' 4-H club met February 11 for reorganization. Fifteen members joined, who were: Louise Brookshier, Margaret Brookshier, Addie Ruth Cox, Inez Clack, Larue Clack, Frances Mueller, Merle Clack, Healen Spreen, Hazel Thomas, Junnad Hoffman, Lucille Hoffman, Norma Jean Hoffman, Dorothy Williams, Marcellie Williams, Ella Marie Witter and Francil Muller. Officers were elected as follows: Addie Ruth Cox, president; Inez Clack, vice-president; Ella Marie Witter, secretary; Miss Lurline Brookshier, sponsor; Merle Clack, reporter.
Norma Jean Hoffman was elected garden demonstrator, and Inez Clack, bedroom demonstrator.
Mrs. Hollingsworth decided the second and fourth Tuesdays would be our meeting day. She is to meet with us every fourth Tuesday.

WEST TEXAS NEWS
NOTES

According to figures released last week by the Coleman county tax collector's office, state and county tax collections for the year 1934 were approximately ten per cent higher than for the previous year. The figures show that the total collected last year was \$104,965.14. Poll taxes were paid by 2,843 Coleman county residents for this year.

Concho county farmers are receiving checks almost daily from the government. Parity checks arrived all last week. On January 31, 251 checks came in totaling \$8,922.47. On February 4, 384 checks arrived totaling \$17,948.77. On February 5, 49 checks were received for \$2,305.59. This made a total of 935 checks totaling \$28,276.83.

The Winters Board of Community Development got off to a fast start last week by beginning a trade extension campaign. This board has been organized only two weeks and is already doing a great deal of work in developing the trade territory. The organization sponsored a free picture show for adults and children last Saturday and intends to have entertainment every Saturday for those who come there to trade.

The January fire loss in Brownwood amounted to only \$290, of which \$230 was insured and the remainder uninsured. Eight alarms were answered by the fire department during the month. Losses occurred at three of the locations and at five there were no losses. Total value of the property where loss occurred was \$9,650 on which there was insurance of \$5,700.

The Junction nursery opened Monday of this week. A number of children two, three and four years of age were enrolled. Only children of these ages are admitted and pupils must be children of relief workers. There are only 20 such schools in the state. Salaries are paid by the government, at no expense to the Junction school board.

The Senora Wood & Mohair Company last week selected Ed Mayfield to head the organization and ordered him to sell 800,000

WEST TEXAS NEWS
NOTES

Several children playing under a house at Brady last week found a small sack containing counterfeit coins. The pieces of bogus money included dimes, quarters and half dollars and were said to be good imitations of real money other than the material of which they were made. The sack of coins was turned over to Brady officers who have found no clues to the owner.

There were 127 students in the Miles school who were neither absent nor tardy during the six weeks term just ended. Many of these punctual pupils also were accorded places on the honor roll for excellent scholastic records.

The second annual Bronte Fat Stock Show will be held March 8. The show, under the sponsorship of the vocational agriculture students of the Bronte school, is to be a much larger exhibition than was held last year. It will be presented in the rodeo arena at Hearn Park.

Herff and John McGonagill, of Melvin, made a big catch of catfish in the Colorado River last

week. They took five big ones from their lines, weighing from 15 to 40 pounds each, and the total catch weighed 143 pounds.

Test holes are being put down on the W. H. McWilliams ranch, 10 miles east of Menard where surface strata assayed what is believed to be paying quantities of gold and silver. The prospectors hope to uncover enough of the ore to make regular mining profitable.

Pecos county and Fort Stockton authorities have filed applications for approximately half a million dollars of PWA money to be used in projects proposed in that county. A portion of this money would be used in road and highway building and some for paving streets.

An extensive program for the

construction of low water dams is being launched in McCulloch county. Many rural citizens, especially those who own ranches facing streams are becoming interested in this movement. The McCulloch County Water Conservation Board has been organized with Carl Blasig as secretary and a file is being made of those interested in storing and conserving water.

Recent heavy rains put much water in the big Brownwood lake which ran dry last summer when a gate failed to close after the delivery of water sold to rice growers in Southeast Texas. The lake was 67 feet deep in the deepest place Sunday morning and the level was still rising.

Broken in Health
Tho Young in Years

Has the strain of the past four years aged you prematurely? Are you nervous and irritable? Have you allowed these trying years to sap your strength and vitality? Do you get up in the morning tired and exhausted?
Sargon and Sargon Soft Mass Pills will restore your failing energy and vitality, strengthen your nervous system and improve your health.
Get this combined treatment today—take it for ten days, and if your health is not greatly improved in every way, we will refund your money.

BETHEL P.-T. A. MEETS

The Bethel Parent-Teacher Association met in a regular meeting Friday night, January 25. The following program was given:
"Pennies Grow" primary grades
"Lonesome Penny," primary grades
"Talk Budget System," Mrs. Vernon Webb
"Should a Child be Given an Allowance?" round table discussion
Reading, "Afterwards," Miss Iola Clayton
After the program a short business meeting was held. The president urged the members of the P-T. A. to attend the child welfare council meeting to be held in Ballinger in February.

Notice to Farmers

Bring in your drill cultivator and planter sweeps. I can sharpen them during bad weather and have them ready for you; therefore avoid the rush after it dries up.

ON TEXAS FARMS

By Minnie Fisher Cunningham
Extension Service Editor
County agent terracing in Texas on 12,760 farms amounted to 484,495 acres in the 193 counties reporting at the end of 1934 according to figures compiled by M. R. Bentley, extension agriculture engineer.

An additional 61,287 acres in 62 counties were terraced by 4-H club boys as part of their year's club work.

Texas farms terraced in 1934 by everyone reached the impressive figure of 18,399 including 774,343 acres in 196 counties.

Of this acreage 158,090 acres were terraced by the use of county tractor and road grader machinery, which indicates increasing use of this tax payer's investment.

Plans for terracing in 1935 are so wide spread that it almost seems as if general recognition of the necessity for this work had been at last achieved. People are terracing for soil conservation, for water conservation, and for flood control. They are terracing crop and pasture lands, gardens, orchards, and even yards are being terraced to preserve the fertility of the soil, save the moisture and prevent gully washing.

HEALTH INSTITUTE HELD
BY FIELD REPRESENTATIVE

Miss Helen Hardy, field representative of the state health department, conducted a health conference in Ballinger Friday and Saturday for organizations and individuals who do child welfare work. The afternoon session Friday was cancelled on account of rain and an all-day session was held Saturday. This was well attended by local citizens but very few were present from the rural sections.

A number of employees in the local relief office attended the Saturday afternoon session to hear a talk on relief projects which have been made possible in towns where they are needed.

The state convention of child welfare workers will be held at Austin February 21, 22 and 23, and a large group of delegates will represent Runnels county.

IN SOCIETY

Miss Verda Nell Trail and Horace Sessions Marry

Miss Verda Nell Trail, younger daughter of Mrs. R. T. Trail, became the bride of Horace B. Sessions Sunday afternoon at three o'clock with Dr. S. E. Chandler, professor of Bible at Daniel Baker College, Brownwood, officiating for the pretty double ring service.

The beautiful Trail home on Eighth Street was the scene of the wedding with relatives and life-long friends witnessing the ceremony. Pink tulips and sweet peas with fern decorated the living room. The arch entrance into the dining room, under which the ceremony was performed, was outlined with southern amilax with tall floor baskets of pink gladioluses placed at each side.

Little Miss Mary Catherine Sturges in a ruffled frock of white net over taffeta carried the rings in the heart of a pink rosebud. Mrs. F. D. Williamson sang as the prenuptial solo. Cadman's "At Dawning." Mrs. L. Schermerhorn played the accompaniment. Miss Beatrice Wilbanks was at the piano for Lohennin's wedding march, used as the processional. She continued playing softly while the vows were being spoken.

The bride wore an early spring model of navy crepe Reimaine with matching accessories. Her shoulder corsage was of tallisman roses and anidun fern.

An informal reception was held immediately with the bride cutting the first slice from the four-tiered wedding cake topped with love-birds, which centered the dining room table laid in lace. Tulle streamers to the four corners were held in place with slender white tapers in low silver holders. Coffee was served with the wedding cake by Mrs. J. C.

Sturges, Jr., Miss Frances Trail, Mrs. Neil McAlpine and Miss Louise Batts

Mrs. Sessions graduated from the Ballinger high school and is an ex-student of Daniel Baker College, attending while Dr. Chandler was serving as president of the institution. She later attended the University of Texas. Mr. Sessions is a prominent young local attorney, a member of the firm of Petty & Sessions. He is the son of Mr. and Mrs. D. E. Sessions, of Altus, Oklahoma. He attended Southern Methodist University, Dallas, and later was a student at the University of Texas, where he completed work on his B.A. and M.A. degrees.

Following a short wedding trip Mr. and Mrs. Sessions will be at home at the Trail residence.

Out-of-town guests attending the wedding were: Mr. and Mrs. James Trail of College Station, Mr. and Mrs. Joe Neely and son of Graham, Mr. and Mrs. F. D. Williamson of Brownwood, Mr. and Mrs. James Patton and daughters of Paint Rock, Mr. and Mrs. D. P. Wilbanks and Miss Beatrice Wilbanks also of Paint Rock.

Morning Coffee Given for Miss Forgy

Miss Virginia Holman named Miss Eva Ruth Forgy, bride-elect of Jack Nixon, Jr., guest of honor last Thursday when she was assisted by her mother, Mrs. George Holman, and Mrs. Ralph Erwin in entertaining with a morning coffee from ten o'clock until noon.

White and green were the colors employed in appointments for the table laid in a Mexican drawnwork cloth with centerpiece of stocks and candytuft with lace fern. White candles were used on both table and buffet with added attractive-

ness being given to the buffet with bride and groom dolls. Mrs. Leonard Stallings poured coffee and Mrs. George Kirk served the salad.

An attractively wrapped gift was presented Miss Forgy while other guests received tiny brides as favors.

Guests included: Mrs. W. B. Woody, Mrs. R. W. Earnshaw, Mrs. Stallings, Mrs. Loyd Herring, Mrs. Woodrow Wilson, Mrs. Ernest Nance, Mrs. H. H. Carsey, Mrs. C. L. Baker, Mrs. Kirk, Mrs. Jack Jobe, Mrs. T. J. Forgy, Mrs. Jack Nixon, Mrs. W. A. Forgy, Mrs. J. G. Douglas, Mrs. A. C. Bauer, Mrs. W. B. Halley, Mrs. A. McGregor, Mrs. Charles Bailey, Mrs. Jack Rudd, Mrs. Troy Simpson, Misses Adda Ward and Griffie Atkins, and the guest of honor, Miss Forgy.

Luncheon is Compliment to Bride-Elect

Another lovely hospitality was extended Miss Eva Ruth Forgy on Saturday when Mrs. Loyd Herring and Mrs. Leonard Stallings were hostesses at a twelve-thirty luncheon.

Places for eight were marked at the lace-laid dining room table with four other guests seated at a madeira-laid foursome table. Place cards adorned with silver wedding bells suggested the silver and white theme used in the three-course menu and in the gift wrapped in silver paper and decorated with white calla lilies. An arrangement of varied white blooms centered the table and white tapers in silver holders completed table decorations.

Guests were: Misses Forgy, Virginia Holman, Griffie Atkins, Mrs. T. J. Forgy, Jack Nixon, W. B. Halley, Jack Jobe, R. W. Earnshaw, W. B. Woody and Troy Simpson.

Dunlaps are Hosts to Club

Mr. and Mrs. Sam Dunlap were hosts to their bridge club on last Friday evening in their home on Ninth Street.

The valentine symbols were used in all game accessories and in the

President's Widow to Wed Again?

Persistent details by hometown friends of Mrs. Grace Goodhue Coolidge, above, wife of the late president, have failed to dispel rumors that she is to wed again. Among names linked romantically with that of the one-time "First Lady" is that of Everett B. Sanders, below, 55-year-old widower and former secretary of President Coolidge.

refreshment plate passed at the conclusion of the games.

High score award went to Mr. and Mrs. J. E. Hayes, high cut to Henry Doss, and low score to Mrs. Raleigh Reese.

Included were: Messrs. and

Mmes. Hayes, Rothal O'Kelly, Lawrence Grier, Towner Dickinson, Doss, Wilmet McKenzie, Reese, and G. A. Swann.

Rothal O'Kelly, Jr., Has Birthday Party

Master Rothal O'Kelly, Jr., celebrated his eighth birthday last Saturday with a party given a group of friends by his mother, Mrs. Rothal O'Kelly, in her Ninth Street home.

Valentine decorations were used in rooms where valentines and heart-shaped candies were favors. The birthday cake was heart-shaped and topped with tiny red tapers in heart candle-holders.

Hot chocolate was served with cookies to: Rothal, Jr., Billy O'Neill, John Weeks Earnshaw, Eldon Moody, Harold and Patricia Richards, Eula Mae Payne, Conda Richards, Ruth Hornburg, Dorothy and M. L. Forgy, Myron Mankin, Jimmy Dickinson, James Striplin, Jimmy and Marilyn Agnew, K. V. and Bobby Northington, Charles and Charlotte Miller, Juliette Simmons, Ann Cressy, Sam Dunlap, Jr., Mary Brian Woody, Phyllis Grounds and Betty Joe Baxter.

Mrs. Rudd Entertains Contract Club

Friday Contract Club members were guests of Mrs. Jack Rudd last week in her home on Eighth Street.

A valentine theme was given pretty emphasis in all details, in decorations, game appointments, refreshment plate and prizes.

High score prize was won by Mrs. Ernest Nance and the "traveling" prize by Miss Virginia Holman. Guest prize went to Miss Eva Ruth Forgy.

Others present were: Mmes. George Golightly, Herman Giesecke, Jr., W. B. Woody, Homer Carsey, L. R. Tigner, Leslie Baker, Ross Murchison, C. W. Cheatham, Loyd Herring, Nance, Alex McGregor, Arthur Giesecke, Robert Bruce, George Kirk, Charles Bailey, Misses Forgy and Holman.

Afternoon Bridge is Honor for Bride-to-be

On Tuesday afternoon Mrs.

Ernest Nance and Mrs. A. C. Bauer, Jr., added an afternoon bridge party to the pre-nuptial affairs being given for Miss Eva Ruth Forgy.

Colonial girls holding hearts marked places at four tables in the attractive living room suite of the Sims home on Broadway. Mrs. Arthur Giesecke held high score in the contract games and Miss Forgy received a lovely gift.

A salad course with coffee was served by the hostess.

Included for the games were: Misses Forgy, Virginia Holman, Adda Ward, Mmes. Jack Jobe, George Kirk, W. B. Woody, Troy Simpson, Homer Carsey, Woodrow Wilson, Arthur Giesecke, Herman Giesecke, Jr., Alex McGregor, Leslie Baker, Loyd Herring, Leonard Stallings, Davis Sims, R. W. Earnshaw, C. W. Cheatham and Landon Dorn of Abilene.

Tea hour guests were: Mmes. J. G. Douglas, T. J. Forgy, W. A. Forgy, Jack Nixon, Malcolm McGregor and Miss Griffie Atkins.

Miss Marryatt Smith Compliments Mother

Miss Marryatt Smith paid a pretty tribute to her mother Tuesday afternoon when she included a group of close friends at a delightfully informal party. The occasion was Mrs. Smith's birthday.

Pleasant conversation caused the hours to pass all too swiftly. Delicious salads, sandwiches, cookies, potato chips, olives and coffee or tea were served buffet style. Plate favors were heart-shaped candies. The pretty white birthday cake iced in white with red tapers and red holders was cut for the luck pieces. Mrs. Warren Lynn and Miss Wynis Greer assisted Miss Smith.

Included were: Mmes. C. S. Miller, E. A. Trail, Lynn, Lucy Townsend, Paul Trimmer, Scott Mack, Mary Bailey, Nora Gee, Jack McGregor, G. M. Vaughn, Oscar Pearson, Purdy, A. G. Ellis, Estes Lynn, R. A. Dickinson, H. H. Luckett, G. O. Odum, A. Schawe, Bl. Walker, J. M. Skinner, Troy Simpson, T. H. Chancey, J. W. Powell, Claude Wilmet, R. W.

Bruce, J. G. Douglass, C. R. Stephens, W. W. Fowler and Miss Greer.

Lost 20 Lbs. of FAT In Just 4 Weeks

A St. Louis, Mo., lady wrote: "I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast—quarter pound jar lasts 4 weeks—you can get Kruschen at any drug store in America. If not joyfully satisfied after the first bottle—money back.

Yes or No

Lawyer: "Now, sir, did you, or did you not, on the date in question, or at any other time, previously or subsequently, say or even intimate to the defendant or anyone else, whether friend or mere acquaintance, or, in fact, a stranger, that the statement imputed to you, whether just or unjust, and denied by the plaintiff was a matter of no moment or otherwise? Answer me, yes or no."

Witness: "Yes or no what?"

Wife (trying to think of The Hague): "Let me see—what is the name of that place where so much has been done to promote the peace of the world?"

Hubby: "I suppose you mean Reno?"

HAVE YOU STOMACH TROUBLE?

R. L. Kendricks of 807 W. Third St., Tulsa (Okla.), writes: "After eating, I would have gas and at times heartburn. My appetite was bad and I felt generally out of sorts. Dr. Parer's Golden Medical Discovery gave me relief from the stomach trouble. I could eat without fear of distress. Now six tablets 30 cts. liquid \$1.00. Write to Dr. Parer's Clinic, Buffalo, N. Y., for free medical advice."

DEATHS

W. T. Baker
W. T. Baker, 68, died at his home near Maverick Monday afternoon at 3 o'clock. He had been in failing health for several months but until a short time before his death was able to be up and about his home.

Mr. Baker came to Runnels county 28 years ago from Mills county and purchased land where the family home is now located. In later years he bought adjoining tracts and was a successful farmer of the Maverick section for many years.

A member of the Presbyterian church and the Masonic lodge, he was faithful to both institutions.

Besides the widow survivors include: a son, H. L. Baker, Maverick; a daughter, Miss Annie G. Baker, Maverick; three brothers, J. A. Baker, Rising Star, George and Ernest Baker, Zephyr; a sister, Mrs. Emma Conliss, Zephyr; and step-mother, Mrs. L. P. Baker, Zephyr.

The body was taken to Zephyr Wednesday morning in a Jennings Funeral Home ambulance. Funeral services were held at 2 o'clock at the Zephyr Methodist church, Rev. Vann officiating. Interment was in charge of the Masonic lodge.

Jennings Funeral Home undertakers were in charge of arrangements.

Salutie Allen Jones
Salutie Allen Jones, 32, negro, died at the home of her daughter, Zues Norman, Monday at 7:40 p. m. After illness lasting for several months.

She is survived by three sons and one daughter. Funeral services were held Tuesday at 3:30 p. m. at the Church of God with Rev. W. W. Fields in charge. Interment was made in the Ballinger colored cemetery.

Jennings Funeral Home undertakers were in charge of arrangements.

Miss Rosie Hill has returned from San Marcos, where she attended the bedside of her mother who was very ill with influenza.

Be wise and advertise.

Congressman South—

(Continued from page 1)

to pay this enormous amount for one year would equal the total amount of income of this government for at least six years. It would be paying to nine people out of every one hundred as much money as the other ninety-nine out of the hundred could make.

"I think it is unfortunate that a few misguided, but perhaps well meaning people, with no experience or ability to pass upon great economic questions, would have evolved this fantastic plan. It is more regrettable that a few politicians who know the plan will not work, are sponsoring it and declare it will work.

"I believe this congress will pass a law which will provide some \$15 per month for dependent and deserving old people. The states will be permitted to supplement this amount, doubtless. Even if the states do not pay anything and the federal government will pay \$15 cash, it will enable old people to tide over and will be a source of much gratification and comfort to them. This will cost the government a lot of money, but it is within reason, and sooner or later we will have to face the facts."

Congressman Thomas L. Blanton of the Abilene district has also declared against this plan, and has been having some hefty tilts with congressmen from California on the floor of the House. The California members have their constituents writing letters to their constituents in Texas, urging them to support the Townsend plan.

NEW G. E. REFRIGERATORS TO BE SHOWN MARCH 1

G. P. Teague returned last week from Dallas where he attended a meeting of General Electric dealers. He announced that he would have shipments of the new models on March 1 and would show four new models this year. All new refrigerators by G. E. will carry the five-year guarantee, Mr. Teague said, and pointed out that prices had been lowered for 1935.

Reference was made at the Dallas meeting that 97 per cent of all types of G. E. refrigerators are still in the hands of original purchasers.

WEDDINGS

Williams-Rose
Harley Williams and Miss Pauline Rose were married here Saturday evening at the home of Rev. W. D. Wiley. The couple will make home in Ballinger. Mrs. Williams formerly resided at Rowena.

Senior Class Play Will be Presented Tomorrow Evening

The 1935 senior class of the Ballinger high school will present its annual play Friday evening at 8 o'clock at the high school auditorium. The production is "Hi, Nellie," by Lawrence G. Worcester, and the cast is directed by Ernest R. Sublett.

Admission prices are 35 cents for adults and 20 cents for pupils. Music will be furnished between the acts by the high school orchestra under the direction of H. H. Carsey.

All three acts take place in the lounge room of the Montgomery department store, where both drama and comedy follow in rapid succession. The cast had the scripts for more than a month and is well rehearsed. Portraying the principal roles are: Eleanor Williams, Clarence Winans, Belva Watson, John Pearce, Rex Nixon, Bobbie Avey, Elva Sykes, Sue Barnett, Vestus Pruitt, Wiley Stobaugh, and Laura Edith Miller.

Proceeds received from the play will help defray expenses of commencement. School officials and members of the class invite their friends and patrons of the school to attend this, the only paid admission program in connection with graduation.

Rotarians Observe St. Valentine's Day

Ballinger Rotarians and their wives held a joint meeting Tuesday noon in observance of St. Valentine's Day. Practically all members brought their wives and the diners found places at the banquet table by means of comic valentines. The opening of these valentines brought much laughter.

At the close of the meal H. C. Lyon told of the origin and purpose of the day, giving both the version of the encyclopedia and the school primer of the day when good deeds are done and love messages sent.

All present joined in singing old time love songs. Mrs. J. A. Schnable sang "Love Sends a Little Gift of Roses," and Mrs. Troy Simpson sang "Faithful as the Stars Above." Little Marjorie Best favored with a valentine reading.

Local club members and their wives have been invited to a program by the San Angelo club on February 22 celebrating the 30th anniversary of Rotary.

Training School Planned for Scouts At Council Meeting

A training course for Ballinger district Boy Scout leaders, the national jamboree at Washington this summer and an encampment for Ballinger Scouts in June will be the leading topics for discussion in the monthly district committee meeting at the city hall here Tuesday, according to Judge O. L. Parish, district chairman.

The committee, nearly 20 local men, will invite representatives from Paint Rock, Bronte, Rowena and Miles, sites of possible new troops, to sit in on the meeting.

The course for leaders and those interested in Scouting probably will begin about the end of this month or the first of March. Arthur Wiesepape, leadership training chairman, said. Two courses, the advanced elementary and the opening course, will be in two classes, the group meeting four times.

Last year 24 attended the elementary course and 10 were awarded certificates by the national council.

Already \$75 has been placed in the coffers of troops 29 and 30 of Ballinger, sponsored by the Lions and Rotary clubs. K. V. Northington, troop organization chairman, stated. This will nearly pay the expenses of one of the two local Scouts who will take the trip to Washington, D. C., August 21-30, for the jamboree.

Charles Coombes, camping chairman, will have suggestions for Scouts preparing for the outing this summer at Camp Louis Farr, near Mertzon.

Members of the committee are: Judge Parish, J. D. Motley, K. V. Northington, R. E. Bruce, A. H.

Wiesepape, Charles Coombes, J. A. Killough, O. C. Sykes, Rev. E. W. McLaurin, J. L. Moreland, J. A. Schnable, H. W. Lynn and Dr. J. W. Macune.

Those who attended last year's training class were: Walter Atwell, Joe Baxter, C. H. Robertson, D. G. Pusey, C. L. Howell, J. D. Burk, Mr. Wiesepape, Mr. Schnable, E. H. Forgy, Frank Holliday, O. F. Wilson, J. L. Davis, C. W. Bowman, A. W. Bruman, W. D. Howell, Sam Behringer, Mr. Bruce, Jack Rudd, C. O'feay, E. H. Boelsche, V. L. Brown, C. H. Whitley, H. O. Smith and R. Sanders.

SCHOOL-LEAVING AGE BEING RAISED ALL OVER WORLD

ROME, Feb. 13.—Raising of the minimum age limit at which children may leave school is being reported from many parts of the world. Cities in England are establishing 15 as the limit, and it is expected that all Britain will follow suit.

New Zealand already has done so. Bulgaria is about to make education compulsory for all under 17. In some cantons of Switzerland the age is to be raised to 16, while Estonia and Hungary are preparing the way for similar action. Denmark has increased the limit by one year and Belgium is discussing a measure to keep pupils at their lessons for a longer time.

VALUABLE CARGO SOUGHT

TUNIS, Tunisia, Feb. 13.—Salvage operations on the steamer Gien-artnet, lying 600 feet below sea level, are to be started near Tunis. The vessel was sunk during the World War with a cargo of tin valued at \$2,000,000. The Italian salvage steamer Briarco is being prepared for the work.

HEROIC ARMY RABBI IS HONORED BY FRANCE

PARIS, Feb. 13.—Honoring Abraham Bloch, a Jewish army rabbi, a monument was unveiled recently by the minister of pensions, M. Rivollet. Inscribed on it is "Here fell Abraham Bloch, French army rabbi, while presenting Christ's Cross to a dying French soldier."

The piece is on the site of a French dressing station behind the fighting line. Here, early in the World War, a dying French soldier was brought. He asked for a priest and a blessing, but no Catholic clergyman being present, Rabbi Bloch found a crucifix, held it to the dying man's lips and gave him a priestly blessing. At that moment a shell crashed into the shed and killed both soldier and rabbi.

BUTTONS CONTROL PLANE DEVELOPED IN FRANCE

PARIS, Feb. 13.—Operated by means of buttons and so simple that a child may fly it, a new type of airplane has been placed at the disposal of French aviation by four French professors.

With the new mechanism installed in his plane, the pilot has only to press different buttons in order to take off, fly horizontally, turn to the left or right, or land. Exhaustive trials were carried out at Istres between July, 1933, and 1934, and the apparatus functioned with success on all types of planes.

It is thought that, with the aid of this new apparatus, planes will be able to take off and land without pilots, being controlled solely by radio.
